4. The tank car external surface is prepared by sandblasting to remove all existing paint, primer, grease and loose material. .7 mils (dry) of primer (a 1:1 ratio by volume of 513-003 base component and 9110x350 activator component) is applied to the clean surface. 235 mils (dry) of thermal shield coating (a nominal 5:1 ratio by volume of 821x359 base component and 9110x407 activator component) is next applied to the primed surface. 2 mils (dry) of topcoat (a 2:1 ratio by volume of 821x317 base component and 9110x376 activator component) is applied to the thermal shield material. Manufacturer, De Soto, Inc., Des Plaines, Illinois.

Paragraph (c) proposed a testing simulation for the "pool fire" performance standard. This paragraph prescribed in detail the pool fire test environment and the method of testing the thermal protection system in that environment. In a similar manner, paragraph (d) proposed a testing simulation for the "torch fire" performance standard. The torch fire test environment and the method of testing in that environment were specified. Many comments were submitted about both proposals.

Several commenters have questioned the availability of facilities for conducting the thermal performance tests. It should be noted that the Transportation Test Center facility is available under stipulated user agreements for conducting any of the prescribed tests in § 179.105-4. Interested parties should contact the Transportation Test Center Director for information on use of the facility. The test facility is not unique; it uses standard components and technology. Thus, it is the Bureau's belief that the test facility and the test procedures themselves can be readily duplicated.

Some commenters requested a reduction in the pool fire time criteria on the basis that tank cars do not fail at 800° F. but fail at a higher temperature, e.g. 1050°F. In addition, some commenters contend that the 100-minute figure for pool fires is not theoretically consistent with the 30-minute requirement for the torch fire environment. In setting forth performance standards for thermal protection systems in terms of both pool fire and torch fire exposure criteria, the Bureau intended to ensure that the thermal protection system would retain the required thermal capacity with a safety factor over the range of exposures encountered. The pool fire environment, which involves interactive safety relief valve action and more extensive exposure of the tank car exterior, is considered the prime performance requirement. The 100-minute, 800° F. stipulations provide safety margins. Both full scale and simulated pool fire tests have shown that there are available thermal protection systems which can meet this pool fire criteria. Given the fundamental pool fire performance standards, the torch fire requirement is designed to ensure the adequacy of the thermal protection system in another commonly encountered, but not necessarily more severe fire environment. The Bureau does not feel that it is necessary to increase the torch resistance time in order to be theoretically consistent with the pool fire time specifications. The total performance standard is composed of the two fire environment elements and the Bureau is convinced that when viewed as a whole, the requirements not only adequately cover the scope of experienced exposures but can be met by several currently available products.

One commenter agreed with the 40 plus or minus 10 mph flame velocity requirement for the torch fire test for non-jacketed systems, but contended that it was not necessary for steel jacketed systems. The Bureau stipulated the torch fire criteria to include evaluation of erosive effects as the commenter rightfully concluded. The Bureau sees no reason

why it should prejudge how a jacketed and a nonjacketed system might differ, and accordingly the specifications treat all systems equally. Each must successfully withstand the same environment and be tested under identical conditions.

Several commenters have recommended that smaller plate sizes be allowed for testing thermal protection systems. One commenter also requested that small circular plates be allowed. The Bureau's intent in requiring large test specimens is to evaluate an entire thermal shield system, including attachments. By requiring these plates, the phenomena of edge effects, inhomogeneities, heat paths due to attachment requirements, etc., are minimized.

Paragraph (e) requires that the entire tank car surface be analyzed to assure that it will achieve the performance standards for thermal protection.

Some commenters requested a clarification of what analysis is required by this paragraph. Several commenters suggested that certain structures (e.g., ladders) be exempted from this requirement. One commenter requested that a maximum of 350 square inches be exempted from this requirement. The Bureau's intent in requiring this analysis is to ensure that those portions of the tank car shell that are not covered by the thermal protection system do not pose an unacceptable safety hazard. In other words, there must be equivalent thermal resistance in these areas. In calculating the thermal resistance in these areas, the structural strength of the tank and attachments may be used to demonstrate adequate thermal resistance.

One commenter recommended that the requirement in § 179.101-1(a), Note 4, for white paint on specifications 112 and 114 compressed gas tank cars be eliminated if thermal protection systems are installed. The Bureau agrees. Paragraph (g) has been added to § 179.105-4 and it states that 112 and 114 tank cars equipped with thermal protection need not be painted white.

SECTION 179.105-5 TANK HEAD PUNCTURE RESISTANCE

The purpose of this section is to establish performance criteria and testing standards to verify compliance with the performance criteria for tank head puncture resistance systems to be applied to 112S, 112T, 112J, 114S, 114T and 114J tank cars. The section consists of three paragraphs:

(a) Performance standard;
(b) Test verification; and
(c) Tank head puncture resistance test.

Paragraph (a) in the notice proposed a requirement that each tank car be capable of sustaining, without loss of contents, coupler-to-tank head impacts within the area of the tank head described in § 179.100-23 (approximately the lower half of the head) at relative car speeds of 18 miles per hour.

These test conditions were developed as a result of analyzing accident data compiled by the Federal Railroad Administration which was used in promulgating MTB Docket HM-109, Tank Head Shields. Also, data derived from coupler impact tests at the Transportation Test Center were used in verifying the specific test criteria.

Several commenters stated that they questioned the need for tank head protection on shelf coupler-equipped tank cars. The Bureau does not concur; its reasons have been set forth under the discussion of § 179.105-2.

Paragraph (b) requires test verification by full-scale testing to the performance standard or by use of the "alternate test procedures" set forth in (c). However, test verification is not required if the car owner elects to install:

1. Protective head shields (§ 179.100-23); or
2. Full tank head jackets of at least ½-inch steel.

One commenter discussed MTB Docket HM-109; notice 75-3, which proposed to permit a hand brake bracket to pass through a hole in the head shield so that the bracket could be mounted on the tank head rather than on the shield. The Bureau withdrew that notice on the basis of comments indicating that the requirement for adding a ⅜-inch thick steel pad on the tank head to support the bracket would be costly and the bracket reinforcement would locally rigidize the area. This could cause poor tank steel impact resistance. The Bureau has not re-opened this matter in this docket since it was disposed of in Docket HM-109.

Likewise, commenters suggested certain changes to the specific head shield specifications contained in § 179.100-23. The Bureau believes that these suggestions, which were raised in one form or another under proceedings in HM-109, were adequately handled in that docket.

Paragraph (c) describes the test protocol to be followed in verifying a tank head puncture resistance system. One commenter questioned the requirement that the coupler of the ram car be perpendicular to the impacted car upon impact. This commenter contended that in reality, the ram car coupler would usually be at a lesser angle and in most cases would strike the impacted car a glancing blow. The Bureau agrees that the ram car coupler will often be at a lesser angle to the impacted car in actual impacts. However, impacts can occur (and indeed have been observed in the FRA/RPI/AAR Switchyard Impact Program) in which the ram car coupler is perpendicular to the impacted car. Since the perpendicular impact is the most severe situation, the Bureau believes it should be used in the test procedure. Also, having the ram car coupler strike the impacted car at some other angle would unduly complicate both conducting the test and interpreting the data.

SECTION 179.105-6 COUPLER VERTICAL RESTRAINT SYSTEM

In the notice, § 179.105-6 proposed standards and specifications for coupler vertical restraint systems. The purpose of such systems is to resist vertical disengagement of coupled couplers so as to reduce tank head puncture. The section has been somewhat reorganized in this rule from the way that the paragraphs were published in the notice, but the basic content remains the same. These paragraphs are captioned:

(a) Performance standard;
(b) Test certification and approval (entitled test verification in the notice);
(c) Coupler vertical restraint tests (proposed as paragraph (d) in the notice); and
(d) Listing of approved couplers (proposed as paragraph (c) in the notice).

Most commenters endorsed the proposal to apply a coupler restraint system to 112 and 114 tank cars. Several suggested that § 179.14 entitled *Tank Car Couplers* be revised to include "E-shelf" and "F-shelf" couplers in the list of couplers approved by the Federal Railroad Administrator. Since the notice did not address couplers on all tank cars (§ 179.14) but rather was limited to couplers on 112 and 114 tank cars, this suggestion is not being adopted in this proceeding. However, it is being considered by the FRA and the Bureau and may be adopted in the future.

Some commenters questioned the use of buff loads in the required testing. They indicated that it is a less severe test of the coupler's ability to avert coupler disengagement than a test without buff loads. Some commenters have also questioned the extreme difficulty in conducting tests with the required buff loads in existing facilities. In requiring buff loads, it was the Bureau's intent to insure that introduction of potentially higher levels of vertical loads in combination with the range of feasible buff loads did not produce other undesirable failures. The 2,000-pound buff load was meant to provide full buff engagement of the couplers while the vertical strength was tested. The intent of the specified 725,000-pound buff application with vertical loading was to insure that the coupler would not fail as a result of the combination of stresses. The Bureau is satisfied that the lower level buff load will adequately test the vertical restraint system and sees no reason to enter into testing requirements of other portions of the coupler system in this specification, particularly in view of the difficulty in applying the higher levels of buff loading in conjunction with the vertical loads testing. Accordingly, paragraphs 179.105-6(a) and (c)(3) have been revised.

In accordance with information furnished by the AAR, F-top shelf couplers are designated SF70CHT and SF70CHTE in this amendment.

SECTION 179.105-7 SAFETY RELIEF VALVES

Section 179.105-7 in the notice proposed to require the relieving or discharge capacity of safety relief valves on thermally protected cars to be at least the same as on non-insulated tank cars. The effect of this proposal would have been to permit existing safety relief valves to be retained on cars retrofitted with thermal protection and to require

the same safety relief valve capacity on

sections of Part 179, for example, § 179.-

on tank car steels to representatives of

42179 SEP 1577 UMI

the same safety relief valve capacity on newly built 112 and 114 thermally protected tank cars.

Several commenters recommended the development of a formula which takes into account the insulating effect of thermal protection. Other commenters either thought that the valve size could be reduced with increases in thermal protection or wanted an explanation of the Bureau's thinking to assist design engineers.

The Bureau, after a thorough reexamination, has confirmed that the proposed safety relief valve requirement is correct for the *minimum* thermal protection requirements of the specification. This safety relief valve requirement is consistent with the 100-minute, 800° F pool fire performance standard and other overall system considerations in protecting the tank car from premature rupture. In response to the commenter concerns, the Bureau is permitting a modified sizing equation to reflect the contribution of additional or higher thermal insulation properties of the cars covered under this specification. The application of a modifying factor to the established uninsulated tank equations, prescribed in section A8.01 of Appendix A of the "AAR Specifications for Tank Cars," supports the previously published result at the minimum required thermal insulation level, and further allows determination of appropriately reduced safety relief capacities at higher than minimum levels of thermal protection.

Thus, the rule permits a reduction in the safety relief valve capacity on a thermally insulated car in proportion to the total number of minutes the tank is protected in the pool-fire test as related to the 100-minute standard. However, owners may continue to use the current safety relief valves on retrofitted and on newly built cars if they so desire.

SECTION 179.105–8 STENCILING

Mandatory stenciling reflecting the installation of tank head puncture resistance and thermal protection systems is prescribed in § 179.105–8. The rule differs from the notice in that the provision is retained for 112S and 114S tank cars, e.g., 112 and 114 tank cars equipped with a tank head puncture resistance system, but not equipped with a thermal protection system.

Several commenters suggested that instead of using alternative letters in place of the "A" in the specification (in other words instead of using 112J in lieu of 112A to indicate a 112 car having jacketed thermal insulation), the Bureau use new specification numbers such as 122A and 124A. The Bureau has not adopted this suggestion. Since head shield equipped cars are required to be stenciled 112S and 114S, and over 600 cars have been so stenciled, the Bureau believes that continuation of this system to embrace thermal protection systems is logical. New specification numbers would necessitate additional regulatory wording in § 173.31 as well as in other sections of Part 179, for example, § 179.-100. The use of differing letters indicating specific applied systems will accomplish the same identification function in an easier manner.

Some commenters stated that the "A" is a "spacer" and persons do not expect to obtain information from this letter. Tank car specification 103 and proposed specification 113 use letters to denote information about the car design. For example, a DOT103CW tank car has a stainless steel tank and a proposed DOT113C120W tank car is designed to be capable of handling cold temperature product loadings such as encountered with liquefied natural gas.

For these reasons, the stenciling system proposed in the notice is being retained along with the current requirement for 112S and 114S stenciling.

DISCUSSION OF OTHER COMMENTS

SPECIFICATION 105 TANK CARS

Several commenters mentioned that many DOT specification 105 tank cars are used to transport the same products as are transported in 112 and 114 tank cars. The commenters believe that the 105 tank car may not have as good thermal and tank head puncture resistance protection as is being specified for the 112T/J and 114T/J cars. This matter is beyond the scope of this docket. Therefore, the Bureau will consider the matter of safety standards for specification 105 tank cars and may initiate rulemaking in the future.

TANK CAR STEEL

One commenter stated that a report by Dr. W. S. Pellini entitled, "Fracture Properties of Tank Car Steels—Characterization and Analysis" was not part of the references cited in the notice of proposed rulemaking. The report was not included because the report was not available to the Bureau at the time of the publication of the notice. However, the views of Dr. Pellini were known to the Bureau and were used in evaluating the overall tank car problem. On February 24, 1975, Dr. Pellini gave a presentation on tank car steels to representatives of DOT and industry. Also, on several occasions Dr. Pellini has discussed his views on tank car steels with DOT staff members. Based upon the work conducted by the National Bureau of Standards, the Battelle Columbus Laboratories, and Dr. Pellini, the Bureau concluded that existing tank car steels, are adequate. Accordingly, the Bureau did not propose any change to existing tank car steel specifications in this proceeding.

DOCKET HM–125

As was indicated in the notice, with the promulgation of standards and specifications upgrading existing specification 112 and 114 so as to improve design and construction, the Bureau will withdraw notice No. 75–4, under Docket HM–125.

ECONOMIC IMPACT

Several commenters took exception to the estimated cost projections stated in the notice. The principal objection was the use of minimum imposed costs rather than maximum possible costs. The use of minimum costs is considered to be the only practicable means for calculation of the economic impact of a rule. Any other calculations would of necessity be based on the anticipated decisions of car owners as to the options they choose to comply with the rule. However, the costs for protective head shields are included as suggested by several commenters even though they were required by an earlier rule (Amendment No. 179–15, 39 FR 27572, July 30, 1974). Also, updated information on the costs for couplers and the purging of cars has been used in the revised calculations. Adjustments have also been made to take into account that certain of the requirements proposed in the notice are not included in this rule.

The implementation of this rule will require a cash outlay of $107.9 million in 1976 dollars.

The following summarizes the per unit tank car investment costs of the rule and the number of tank cars thought to be affected.

Car type and utilization	Additional protection	Minimum cost	Number of tank cars
(112T/J, 114T/J) flammable gases, anhydrous ammonia, nonflammable gases, hazardous liquids.	Thermal, head, and couplers.	$6,900	15,300
(112S, 114S) anhydrous ammonia, nonflammable gases, hazardous liquids.	Head and couplers	1,900	2,700
(112A, 114A) nonflammable gases, hazardous liquids	Couplers	500	2,000

The Bureau believes that the foregoing costs will be offset not only by reductions in the number of accidents involving property loss and damage, but also by the magnitude of dollar losses sustained. This does not take into account the social benefits—and to the extent they can be quantified, the economic benefits—public safety that will be derived by significantly reducing the number of deaths, injuries and evacuations that have characterized the accident experience of 112 and 114 tank cars. Since 1969, more than 500 of these tank cars have been involved in derailments of which more than 170 of these cars lost some or all of their lading. These occurrences resulted in 20 deaths, 855 injuries, and 45 major evacuations involving more than 40,000 persons. Four of these accidents resulted in estimated losses of more than $100,-000,000.

The Bureau considers that the requirements set forth in this rule represent a cost-effective solution to the safety problems presented by 112 and 114 tank cars over the past several years.

In addition to the substantive matters discussed above, the Bureau has also made several editorial changes to certain

regulatory language proposed in the Notice for the purpose of clarity. These changes in language, unless discussed as part of a substantive provision, do not alter the requirements of any proposal made in the Notice and adopted herein.

Primary drafters of this document are William F. Black, Leavitt A. Peterson, Edward F. Conway, Jr. (Chief Counsel's Office) of the Federal Railroad Administration, Alan I. Roberts and Joseph S. Nalevanko of the Materials Transportation Bureau, and George W. Tenley, Jr. of the Office of the Assistant General Counsel for Materials Transportation Law.

In consideration of the foregoing, Parts 173 and 179 of Title 49 Code of Federal Regulations are amended as follows:

1. In § 173.31 paragraph (a)(3) is revised; paragraph (a)(5) is added to read as follows:

§ 173.31 Qualification, maintenance, and use of tank cars.

(a) • • •

(3) Unless otherwise specifically provided in this Part—

(i) When class DOT–105A, 105AL, 106A, 109A–AL, 110A, 111A, 112A, 112S, 112T, 112J, 114A, 114S, 114T, or 114J tank car tanks are prescribed, the same class tanks having higher marked test pressures than those prescribed may also be used.

(ii) When class DOT–111AW1 tank car tanks are prescribed, class 111AW3 tank car tanks may also be used.

(iii) When class DOT–112A tank car tanks are prescribed, classes DOT–112S, 112T, and 112J tanks having equal or higher marked test pressures than those prescribed may also be used.

(iv) When class DOT–112S tank car tanks are prescribed, classes DOT–112T and 112J tanks having equal or higher marked test pressures than those prescribed may also be used.

(v) When class DOT–114A tank car tanks are prescribed, classes DOT–114S, 114T, and 114J tanks having equal or higher marked test pressures than those prescribed may also be used.

(vi) When class DOT–114S tank car tanks are prescribed, classes DOT–114T, and 114J tanks having equal or higher marked test pressures than those prescribed may also be used.

• • • • • •

(5) After June 30, 1979, each specification 112 and 114 tank car built before January 1, 1978, must be equipped with shelf couplers in accordance with § 179.-105–6 of this subchapter.

• • • • • •

2. In § 173.314 paragraph (c) Table Note 23 is revised and reference thereto in Column 3 opposite Anhydrous ammonia is deleted; Note 24 is added and reference thereto is made in Column 3 opposite Anhydrous ammonia in the space provided by the deletion of Note 23 as follows:

§ 173.314 Requirements for compressed gases in tank cars.

• • • • • •

(c) • • •

Kind of gas	Maximum permitted filling density, note 1 (in percent)	Required tank car [1]
Anhydrous ammonia	50.0	DOT–106A500–X, note 7.
	57.0	DOT–105A300W.
	57.0	DOT–112A400–F, 112A340–W, 114A340–W, notes 15 and 24.
	58.8	DOT–112A400–F, 112A340–W, 114A340–W, notes 15 and 24.

[1] See sec. 173.31(a)(2) and (3).

• • • • • •

NOTE 23.—After Dec. 31, 1981, each specification 112 and 114 tank car built before Jan. 1, 1978, used for the transportation of flammable compressed gases must be equipped with thermal protection and tank head puncture resistance systems in accordance with sec. 179.105 of this subchapter.

NOTE 24.—After Dec. 31, 1981, each specification 112 and 114 tank car built before Jan. 1, 1978, used for the transportation of anhydrous ammonia must be equipped with a tank head puncture resistance system in accordance with sec. 179.105 of this subchapter.

• • • • • •

3. Section 179.105 is added immediately following § 179.104 to read as follows:

§ 179.105 Special requirements for Specifications 112 and 114 tank cars.

§ 179.105–1 General.

(a) In addition to the requirements of this section, each tank car built under specification 112 and 114 must meet the applicable requirements of §§ 179.100, 179.101, 179.102, and 179.103.

(b) Notwithstanding the provisions of §§ 179.3, 179.4, and 179.6, AAR approval is not required for changes in or additions to specifications 112 and 114 tank cars necessary to comply with this section.

(c) Notwithstanding the provisions of § 173.8 of this subchapter, after December 31, 1981, each specification 112 and 114 tank car manufactured to specifications promulgated by the Canadian Transport Commission that is not equipped as described in this section may not be used to transport compressed gases in the United States.

§ 179.105–2 New cars.

(a) Each specification 112A and 114A tank car built after December 31, 1977, shall be equipped with a coupler restraint system that meets the requirements of § 179.105–6.

(b) Each specification 112S and 114S tank car built after December 31, 1977, shall be equipped with:

(1) A coupler restraint system that meets the requirements of § 179.105–6; and

(2) A tank head puncture resistance system that meets the requirements of § 179.105–5.

(c) Each specification 112T, 112J, 114T, and 114J tank car built after December 31, 1977, shall be equipped with:

(1) A coupler restraint system that meets the requirements of § 179.105–6;

(2) A tank head puncture resistance system that meets the requirements of § 179.105–5;

(3) A thermal protection system that meets the requirements of § 179.105–4; and

(4) A safety relief valve that meets the requirements of § 179.105–7.

(d) Each specification 112 and 114 tank car shall be stenciled as prescribed in § 179.105–8.

§ 179.105–3 Previously built cars.

(a) After June 30, 1979, each specification 112 and 114 tank car built before January 1, 1978, shall be equipped with a coupler restraint system that meets the requirements of § 179.105–6.

(b) Each tank car built before January 1, 1978, required to meet specification 112S and 114S, shall be equipped with a tank head puncture resistance system in accordance with the requirements of paragraph (d) of this section and § 179.105–5, and he stenciled as prescribed in § 179.105–8.

(c) Each tank car built before January 1, 1978, required to meet specification 112J, 112T, 114J, and 114T, shall:

(1) Be equipped with a thermal protective system that meets the requirements of § 179.105–4;

(2) Be equipped with a tank head puncture resistance system that meets the requirements of § 179.105–5;

(3) Be equipped with a safety relief valve that meets the requirements of § 179.105–7; and

(4) Comply with paragraph (d) of this section.

(5) Be stenciled as prescribed in § 179.105–8.

(d) Each tank car owner shall equip its tank cars which are subject to paragraphs (b) and (c) of this section in accordance with the following schedule:

(1) At least 20 percent of those cars owned on January 1, 1979, must be so equipped by that date;

(2) At least 50 percent of those cars owned on January 1, 1980, must be so equipped by that date;

(3) At least 80 percent of those cars owned on January 1, 1981, must be so equipped by that date; and

(4) All of those cars owned on January 1, 1982, must be so equipped by that date.

§ 179.105–4 Thermal protection.

(a) *Performance standard.* Each specification 112T, 112J, 114T, and 114J tank car shall be equipped with a thermal protection system that prevents the release of any of the car's contents (except release through the safety relief valve) when subjected to:

(1) A pool fire for 100 minutes; and

(2) A torch fire for 30 minutes.

(b) *Test verification.* Except as provided in paragraph (c) of this section,

compliance with the requirements of [illegible]

car so that it is the leading location of a mating coupler (or simulated coupler) protection system shall have the letter "T" substituted for the "A" and "S" in

SEP 15 77 UMI

compliance with the requirements of paragraph '(a)' of this section shall be verified by testing and analyzing the thermal protection system in accordance with paragraphs '(d)', '(e)', and '(f)' of this section. A complete record of each test verification shall be made, retained and, upon request, made available for inspection and copying by authorized representatives of the Department.

'(c)' *Excepted systems* The Department maintains a list of thermal protection systems which comply with the requirements of paragraphs '(d)' and '(e)' of this section and which are excepted from the test verification requirement of paragraph '(b)' of this section Information necessary to equip tank cars with one of these systems, is available in the Section of Dockets, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C 20590

'(d)' *Simulated pool fire test* '(1)' A pool fire environment shall be simulated in the following manner

'(i)' The source of the simulated pool fire shall be a hydrocarbon fuel. The flame temperature from the simulated pool fire shall be at 1,600° F plus-or-minus 100° F. throughout the duration of the test.

'(ii)' An uninsulated square steel plate with thermal properties equivalent to tank car steel shall be used. The plate dimensions shall be not less than one foot by one foot by nominal $^5/_8$-inch thick. The plate shall be instrumented with not less than nine thermocouples to record the thermal response of the plate The thermocouples shall be attached to the surface not exposed to the simulated pool fire, and shall be divided into nine equal squares with a thermocouple placed in the center of each square.

'(iii)' The pool fire simulator shall be constructed in a manner that results in total flame engulfment of the front surface of the bare plate. The apex of the flame shall be directed at the center of the plate.

'(iv)' The steel plate holder shall be constructed in such a manner that the only heat transfer to the back side of the plate is by heat conduction through the plate and not by other heat paths

'(v)' Before the plate is exposed to the simulation pool fire, none of the temperature recording devices shall indicate the plate temperature in excess of 100° F nor less than 32° F.

'(vi)' A minimum of two thermocouples devices shall indicate 800° F after not less than 12 minutes nor more than 14 minutes of simulated pool fire exposure.

'(2)' A thermal insulation system shall be tested in the simulated pool fire environment described in paragraph '(d)' '(1)' of this section in the following manner:

'(i)' The thermal insulation system shall cover one side of a steel plate identical to that used to simulate a pool fire under paragraph '(d)' '(1)' '(ii)' of this section.

'(ii)' The uninsulated side of the steel plate shall be instrumented with not less than nine thermocouples placed as described in paragraph '(d)' '(1)' '(ii)' of this section to record the thermal response of the steel plate.

'(iii)' Before exposure to the pool fire simulation, none of the thermocouples on the thermal insulation system steel plate configuration shall indicate a plate temperature in excess of 100° F nor less than 32° F

'(iv)' The entire insulated surface of the thermal insulation system shall be exposed to the simulated pool fire

'(v)' A pool fire simulation test shall run for a minimum of 100 minutes The thermal insulation system shall retard the heat flow to the steel plate so that none of the thermocouples on the uninsulated side of the steel plate indicates a plate temperature in excess of 800° F

'(vi)' A minimum of three consecutive successful simulation fire tests shall be performed for each thermal insulation system

'(e)' *Simulated torch fire test* '(1)' A torch fire environment shall be simulated in the following manner

'(i)' The source of the simulated torch shall be a hydrocarbon fuel. The flame temperature from the simulated torch shall be 2,200° F plus-or-minus 100° F throughout the duration of the test Torch velocities shall be 40 miles per hour plus-or-minus 10 miles per hour throughout the duration of the test.

'(ii)' An uninsulated square steel plate with thermal properties equivalent to tank car steel shall be used The plate dimensions shall be not less than four feet by four feet by nominal $^5/_8$-inch thick The plate shall be instrumented with not less than nine thermocouples to record the thermal response of the plate The thermocouples shall be attached to the surface not exposed to the simulated torch, and shall be divided into nine equal squares with a thermocouple placed in the center of each square.

'(iii)' The steel-plate holder shall be constructed in such a manner that the only heat transfer to the back side of the plate is by heat conduction through the plate and not by other heat paths The apex of the flame shall be directed at the center of the plate.

'(iv)' Before exposure to the simulated torch, none of the temperature recording devices shall indicate a plate temperature in excess of 100° F or less than 32° F

'(v)' A minimum of two thermocouples shall indicate 800° F in a time of 4.0 plus-or-minus 0.5 minutes of torch simulation exposure

'(2)' A thermal insulation system shall be tested in the simulated torch fire environment described in paragraph '(e)' '(1)' of this section in the following manner:

'(i)' The thermal insulation system shall cover one side of a steel plate identical to that used to simulate a torch fire under paragraph '(e)' '(1)' '(ii)' of this section.

'(ii)' The back of the steel plate shall be instrumented with not less than nine thermocouples placed as described in paragraph '(e)' '(1)' '(ii)' of this section to record the thermal response of the steel.

'(iii)' Before exposure to the simulated torch, none of the thermocouples on the thermal insulation system steel plate configuration shall indicate a plate temperature in excess of 100° F nor less than 32° F

'(iv)' The entire outside surface of the thermal insulation system shall be exposed to the simulated torch fire environment

'(v)' A torch simulation test shall be run for a minimum of 30 minutes The thermal insulation system shall retard the heat flow to the steel plate so that none of the thermocouples on the uninsulated side of the steel plate indicates a plate temperature in excess of 800° F

'(vi)' A minimum of two consecutive successful torch simulation tests shall be performed for each thermal insulation system

'(f)' *Analysis.* The analysis required by paragraph '(b)' of this section must verify that the entire surface of the tank car, including discontinuous structures '(e.g., stub sills, protective housings, etc.)', complies with the requirements of paragraph '(a)' of this section.

'(g)' *Exterior tank color* Notwithstanding the provisions of § 179.101-1 '(a)' Table. Note 4, each specification 112 and 114 tank car equipped with thermal protection that complies with the requirements of paragraph '(a)' of this section need not be painted white.

§ 179.105–5 Tank head puncture resistance.

'(a)' *Performance standard.* Each specification 112S, 112T, 112J, 114S, 114T, and 114J tank car shall be capable of sustaining, without loss of contents, coupler-to-tank head impacts within the area of the tank head described in § 179-100–23 at relative car speeds of 18 miles per hour when

'(1)' The weight of the impact car is at least 263,000 pounds,

'(2)' The impacted tank car is coupled to one or more "backup" cars which have a total weight of at least 480,000 pounds and the hand brakes are applied on the first car; and

'(3)' The impacted tank car is pressurized to at least 100 psi.

'(b)' *Test verification* Compliance with the requirements of paragraph '(a)' of this section shall be verified by full scale testing or by the alternate test procedures prescribed in paragraph '(c)' of this section. However, protective head shields that meet the requirements of § 179.100–23 or full tank head jackets that are at least $^1/_2$-inch thick and made from steels specified in § 179.100–23 '(a)' '(1)' need not be verified by testing

'(c)' *Tank head puncture resistance test* A tank head resistance system shall be tested under the following conditions

'(1)' The ram car used shall weigh at least 263,000 pounds, be equipped with a coupler, and duplicate the condition of a conventional draft sill including the draft yoke and draft gear. The coupler shall protrude from the end of the ram car so that it is the leading location of perpendicular contact with the standing tank car.

(2) The impacted test car shall be loaded with water at six percent outage with internal pressure of at least 100 psi and coupled to one or more "backup" cars which have a total weight of 480,000 pounds with hand brakes applied on the first car.

(3) At least two separate tests shall be conducted with the coupler on the vertical centerline of the ram car. One test shall be conducted with the coupler at a height of 21 inches, plus-or-minus one-inch, above the top of the sill; the other test shall be conducted with the coupler height at 31 inches, plus-or-minus one-inch above the top of the sill. If the combined thickness of the tank head and any additional shielding material at any position over the area described in § 179.100–23 is less than the combined thickness on the vertical centerline of the car, a third test shall be conducted with the coupler positioned so as to strike the thinnest point.

(4) One of the following test procedures shall be applied:

Minimum weight of ram car plus attached cars (in pounds):	Minimum velocity of impact (in miles per hour)	Restriction
263,000	18	1 ram car only.
343,000	16	1 ram car or 1 ram car plus 1 rigidly attached car.
686,000	14	1 ram car plus 1 or more rigidly attached cars.

(5) A test is successful if there is no visible leak from the standing tank car within one hour after impact.

§ 179.105–6 Coupler vertical restraint system.

(a) *Performance standard.* Each specification 112 and 114 tank car shall be equipped with couplers capable of sustaining, without disengagement or material failure, vertical loads of at least 200,000 pounds applied in upward and downward directions in combination with buff loads of 2,000 pounds, when coupled to cars equipped with couplers that do have this vertical restraint capability, and cars equipped with couplers that do not have this vertical restraint capability.

(b) *Test verification and approval.* Except as provided in paragraph (d) of this section, compliance with the requirements of paragraph (a) of this section shall be achieved by verification testing of the coupler vertical restraint system in accordance with paragraph (c) of this section, and approval of the Federal Railroad Administrator.

(c) *Coupler vertical restraint tests.* A coupler vertical restraint system shall be tested under the following conditions:

(1) The test coupler shall be tested with: A mating coupler (or simulated coupler) having only frictional vertical force resistance at the mating interface; a mating coupler (or simulated coupler) having the capabilities described in paragraph (a) of this section.

(2) The testing apparatus shall simulate the vertical coupler performance at the mating interface and may not interfere with coupler failure or otherwise inhibit failure due to force applications and reactions.

(3) The test shall be conducted as follows:

(i) A minimum of 200,000 pounds vertical downward load shall be applied continuously for at least five minutes to the test coupler head simultaneously with the application of a nominal 2,000-pound buff load;

(ii) The procedures prescribed in paragraph (c)(3)(i) of this section shall be repeated with a minimum vertical upward load of 200,000 pounds;

(iii) A minimum of three consecutive successful tests shall be performed for each load combination prescribed in paragraphs (c)(3)(i) and (c)(3)(ii) of this section. A test is successful when a vertical disengagement or material failure does not occur during any of the prescribed load combinations.

(d) *Listing of approved couplers.* The following classes of couplers have been approved by the Federal Railroad Administrator and need not be verified by the testing requirements of paragraph (c) of this section:

(1) E top and bottom shelf couplers designated by the Association of American Railroads' Catalog No. SE60CHT or SE60CHTE; or

(2) F top shelf couplers designated by the Association of American Railroads' Catalog No. SF70CHT or SF70-CHTE.

§ 179.105–7 Safety relief valves.

Notwithstanding the provisions of § 179.105–4, each 112 and 114 tank car shall be equipped with safety relief valves that meet the requirements of Appendix A of the AAR Specifications for Tank Cars. However, the relieving or discharge capacity shall be calculated in accordance with Section A8.01 of Appendix A for compressed gases in non-insulated tanks. If the thermal protection demonstrates that in a pool fire simulation the thermocouples on the back of the steel plate do not indicate a plate temperature in excess of 800°F. for a time period exceeding 100 minutes, the relieving or discharge capacity may be reduced in proportion to the total time in minutes of the steel plate required to exceed 800°F. by at least one thermocouple.

§ 179.105–8 Stenciling.

(a) Each 112 and 114 tank car that is equipped with a tank puncture resistance system as specified in § 179.105–5 shall have the letter "S" substituted for the "A" in the specification marking.

(b) Each 112 and 114 tank car that is equipped with a thermal protection system enclosed in a metal jacket shall have the letter "J" substituted for the "A" and "S" in the specification marking.

(c) Each 112 and 114 tank car that is equipped with a non-jacketed thermal protection system shall have the letter "T" substituted for the "A" and "S" in the specification marking.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Audubon National Wildlife Refuge, N. Dak., to Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to deer hunting of Audubon National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 11, 1977, through November 20, 1977.

FOR FURTHER INFORMATION CONTACT:

David C. McGlauchlin, Refuge Manager, Aubudon National Wildlife Refuge, Coleharbor, N. Dak. 58531. Phone 701–442–5474.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas

Dear Gun Hunting is permitted on the Audubon National Wildlife Refuge, N. Dak., only on the areas designated by signs as being open to hunting. These areas comprising 13,387 acres are delineated on maps available at the refuge headquarters and from the office of the Area Manager, 1500 Capitol Avenue, Bismarck, N. Dak. 58501. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

(1) Hunting is permitted from 12 noon, C.S.T. November 11, 1977 to sunset that day, and from sunrise to sunset each day from November 12 through November 20, 1977.

(2) All hunters must exhibit their hunting license, deer tag, game, and vehicle contents to Federal and State officers upon request.

(3) Vehicular traffic, including the use of boats, is prohibited by hunters on the refuge during the deer season.

PART 32—HUNTING

Opening of DeSoto National Wildlife Refuge, Nebr., to Muzzleloader Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to muzzleloader deer hunting of the DeSoto National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: December 17, 1977, through December 21, 1977, both dates inclusive.

FOR FURTHER INFORMATION CONTACT:

George Gage, Refuge Manager, DeSoto National Wildlife Refuge, R-1, Box 114, Missouri Valley, Iowa 51555. Telephone AC 712-642-4121.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Muzzleloader hunting of deer on the DeSoto National Wildlife Refuge, Nebr., is permitted only on the area designated by signs as being open to hunting. This area contains approximately 3,350 acres.

All hunting shall be accordance with applicable state regulations subject to the following conditions:

1. A total of 100 special permits will be issued for the hunt by the Nebraska Game and Parks Commission. Only those persons possessing a valid permit will be allowed to enter the open area;

2. Muzzleloader rifles are the only weapons allowed and deer are the only legal wildlife species that may be taken during the hunt;

3. Discharging firearms from or across all roads open to vehicle traffic, including adjacent rights-of-way, is prohibited;

4. Parking is restricted to designated parking areas and road shoulders of unpaved roads. Parking on shoulders of paved roads is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 7, 1977.

GEORGE E. GAGE,
Refuge Manager.

PART 32—HUNTING

Opening of Flint Hills National Wildlife Refuge, Kans., to Sport Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport hunting of Flint Hills National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Hunting seasons as determined by applicable State and Federal laws.

FOR FURTHER INFORMATION CONTACT:

Michael J. Long, P.O. Box 128, Hartford, Kans. 66854. Telephone No. 316-364-8381.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of mourning doves, rails, woodcock, and Wilson's snipe, on the Flint Hills National Wildlife Refuge, Kans., is permitted only on the area designated by signs as open to hunting. This open area is delineated on maps available at refuge headquarters, Hartford, Kans., and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 1748, 601 East 12th Street, Kansas City, Mo. 64106. Hunting seasons are in accordance with Kansas State regulations, and all applicable State and Federal hunting laws and regulations apply.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 8, 1977.

MICHAEL J. LONG,
Refuge Manager.

[FR Doc.77-26764 Filed 9-14-77;8:45 am]

PART 32—HUNTING

Opening of Loxahatchee National Wildlife Refuge, Boynton Beach, Fla., to Duck and Coot Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to public duck and coot hunting on Loxahatchee National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: See State regulations.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Martin, Refuge Manager, South Florida Complex, Rt. 1, Box 278, Boynton Beach, Fla. 33437. Telephone 305-732-3684.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; big games; for individual wildlife refuge areas.

Public duck and coot hunting is permitted on Loxahatchee National Wildlife Refuge, Fla., only on the areas designated by signs as being open to public hunting. These areas comprising 29,000 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Duck and coot hunting shall be in accordance with all applicable State and Federal regulations subject to the following conditions:

1. Daily Bag Limits: See State regulations.

NOTE.—Only ducks and coots may be taken on the refuge.

2. Open Season: See State regulations.

3. Daily Shooting Hours: One-half hour before sunrise to sunset.

4. All hunters must possess a refuge permit to hunt on Loxahatchee National Wildlife Refuge. Apprehension for violation of any hunt regulations will result in revocation of this permit.

5. All air-thrust boat operators must possess a valid refuge permit for operating on Loxahatchee National Wildlife Refuge. This permit will be revoked upon apprehension for a violation of any hunt regulation.

6. Entry to Refuge: Hunters are required to enter and leave the refuge from the headquarters landing or the S-39 landing (Loxahatchee Recreation Area). Air-thrust boats may be launched at the

headquarters landing only. Use of the refuge is limited to the hours from one and one-half hours before sunrise to one hour after sunset. Hunters must use the designated routes of travel to and from the hunting area. These routes are those portions of Canal 40 and Canal 39 (Hillsboro Canal) immediately east and south of the hunting area. The refuge marsh near the headquarters and S-39 landing lying between the hunting area and said portions of the above canals may also be used for travel. No hunting is permitted in these canals or the marsh off-sets.

7. Firearms: Hunters must carry unloaded shotguns that are dismantled or cased over the routes stated under Item 6 in traveling to and from the hunting area.

8. Only steel shot ammunition may be used. The possession or use of shotgun shells with lead or other toxic shot is prohibited.

9. Hunting Dogs: Hunters are permitted to use dogs for the purpose of retrieving dead or wounded birds.

10. All Boats: For safety reasons all boats must display a light when traveling to and from the hunting area when traveling in darkness. All boats operating within the public hunting area are required to fly a flag 12" x 12" ten feet above the bottom of the boat.

11. Blinds: Only temporary blinds constructed of native vegetation are permitted.

12. Posted Areas: The public hunting area has been designated by red signs with black lettering. Other signs designated closed areas.

13. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

Dated: September 8, 1977.

HAROLD W. BENSON,
Acting Regional Director.

[FR Doc.77-26766 Filed 9-14-77;8:45 am]

PART 32—HUNTING

Opening of Wassaw Island National Wildlife Refuge, Ga., to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of Wassaw Island National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: December 7, 8, and 9, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Davis, Refuge Manager, Savannah National Wildlife Refuge Complex, P.O. Box 4623, Savannah, Ga. 31402. Telephone 912-232-4321, ext. 415.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Wassaw Island National Wildlife Refuge, Ga., only on the areas designated as being open to hunting. These areas comprising 2,000 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive, NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Entry on the refuge will not be permitted more than one day in advance of the opening date of the hunt period. Participants will be confined to the camping area until the morning of the first day of the hunt period, and must be off the Island the day following the last day of the hunt period.

2. All camping will be at designated areas only. Fires must be confined to the camping area.

3. Hunters must check in at the Wassaw Refuge Headquarters and leave their boats at the refuge dock.

4. Only antlerless deer may be taken the first hunt day. Deer of either sex may be taken on other hunt days. All State Regulations and bag limits will be enforced. A maximum of two deer may be taken.

5. Hunting hours are according to State regulations. During the periods from 7 a.m. until 9:30 a.m. and from 3 p.m. until 5:35 p.m. each day, hunters must be on their stands. No movement during these hours will be tolerated.

6. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

7. Blazing, driving spikes, painting, applying tape, or damaging or destroying trees and shrubbery in any manner is prohibited. Deer stands which will damage trees are not permitted.

8. All forms of litter should be placed in trash receptacles for proper disposal.

9. Transportation is not provided to and from the Islands or on the Islands. Any movement after reaching Wassaw Island must, of necessity, be by foot. You are not allowed to leave by boat to go to the other parts of Wassaw Island.

10. A Federal permit is required. Only hunt participants with proper licenses and permits will be permitted on the refuge to hunt and camp.

11. Only rifles and shotguns 20 gauge or larger using slugs may be used during the gun hunt. Handguns and buckshot are prohibited. Target practice during the gun hunt is prohibited. Weapons must be unloaded and cased except during the daily hunting periods.

12. Gun hunters must wear outer garments containing at least 500 square inches of daylight fluorescent orange colored material above the waistline.

14. The Wassaw Island National Wildlife Refuge will be closed to the general public December 6-9, 1977.

The provisions of this special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 8, 1977.

HAROLD W. BENSON,
Acting Regional Director.

[FR Doc.77-26767 Filed 9-14-77;8:45 am]

PART 32—HUNTING

Opening of Yazoo National Wildlife Refuge, Mississippi to Big Game Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to big game hunting of Yazoo National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: White Tail Deer (Archery): November 1, 1977 through November 12, 1977 (Sundays excluded). White Tail Deer (Gun): December 26, 1977 through December 31, 1977.

FOR FURTHER INFORMATION CONTACT:

James M. Dale, Refuge Manager, Route 1, Box 286, Hollandale, Mississippi 38748, telephone 601-839-2638.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Deer hunting is permitted on the Yazoo National Wildlife Refuge, Mississippi, in wooded areas only, including wooded areas not designated by signs as closed to hunting. The open areas comprising 7,800 acres are delineated on a map along with special regulation sheets and are available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Big game hunting shall be in accordance with all State regulations subject to the following conditions:

SEP 15 77 V 42 179 UMI

1. Bag limit: One deer of either sex during the archery hunt. One buck with antlers 4 inches or longer during the gun hunt.

2. Weapons: Archery, long bows only with broadhead arrows. Use or possession of drugged arrows is prohibited. Gun—Shotguns, 20 gauge and larger, and centerfire rifles .22 caliber or larger. No handguns are permitted.

3. A refuge deer hunting permit is required. Entry of hunting area without permit is prohibited. Submission of more than one application or applications containing false information is prohibited.

4. Firearms may not be discharged within 250 yards of residences or the refuge headquarters. Carrying of loaded firearms in vehicles and shooting from or across County or State roads are prohibited.

5. All deer killed must be checked out at refuge checking station.

6. Hunters may enter the hunting area no earlier than 1 hour before sunrise. Archery hunters must depart the hunting area immediately after sunset. Gun hunters must depart the hunting area no later than 1 hour after sunset.

7. Each hunter under age 18 must be under the close supervision of an adult bearing a permit. For safety reasons, the ratio should be one adult to one juvenile. In no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern big game hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 8, 1977.

HAROLD W. BENSON,
Acting Regional Director.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 981]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

Administrative Rules and Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule reduces the tolerance for inedible almonds to improve the quality of almonds entering the market. The rule also changes certain reporting requirements for handlers of California almonds by simplying procedures and adapting reports to current needs.

DATE: Written comments to this proposal must be received by September 30, 1977.

ADDRESS: Written comments should be submitted in duplicate to the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202-447-3545).

SUPPLEMENTARY INFORMATION: Notice is given to amend Subpart—Administrative Rules and Regulations (7 CFR 981.441-981.481; 42 FR 3159, 5341, 5677, 19371) by revising §§ 981.442, 981.473 and 981.474. The subpart is issued under the marketing agreement, as amended and Order No. 981, as amended (7 CFR Part 981), regulating the handling of almonds grown in California. The marketing agreement and order are collectively referred to as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposals are based on a unanimous recommendation of the Almond Board of California.

Section 981.42 provides for each handler to cause to be determined, through the inspection agency, and at the handler's expense, the percent of inedible kernels in each variety of almonds received by him, and report this determination to the Board. The quantity of inedible kernels in each variety in excess of two percent of the kernel weight received, constitutes a weight obligation to be accumulated in the course of processing and shall be delivered to the Board, or Board accepted crushers, feed manufacturers, or feeders. Section 981.42 also authorizes the Board, with the approval of the Secretary, to change this percentage for any crop year, and to establish rules and regulations necessary and incidental to the administration of this provision, including, among other things, that the Board for good cause may waive portions of obligations for those handlers not generating inedible material from such sources as blanching or manufacturing. Section 981.442 implements § 981.42 and specifies the manner in which the inedible kernelweight of almonds is to be determined and methods by which a handler can satisfy his inedible kernelweight obligation. It also provides procedures for waiving a portion of the disposition obligations of those handlers not blanching almonds or manufacturing almond products.

Currently, § 981.442(a)(4) requires disposition of the weight of inedible kernels in excess of two percent of the kernel weight reported to the Board. As a means of further improving the quality of almonds entering trade channels, the Board recommended reduction of this percentage to one and one-half percent. Therefore, the proposal is to revise §§ 981.442 (a)(4) and (a)(6) by lowering the percentage prescribed in each subparagraph to one and one-half percent. Section 981.442(a)(6) deals with the partial waiver of a handler's disposition obligation.

Section 981.61 provides the basis by which volume and financial obligations of handlers are determined. This is known as the redetermination of kernelweight. This section prescribes when a handler must file redetermination reports and the method to be used in calculation of the redetermination of kernelweight.

Section 981.473 Redetermination reports, elaborates on the information required under § 981.61. Currently, § 981.473(f) requires a handler to report, as part of his redetermination report, his undelivered sales. This is a report of all amonds sold but not delivered, showing the weight of such almonds and whether they are unshelled or shelled. The Board indicated this information is unnecessary for the purposes of redetermination.

However, the Board needs information on deliveries of almonds to Board accepted crushers, feed manufacturers or feeders for the purpose of establishing assessment obligation. Thus, paragraph (f) would be revised to require a handler to report the weight of all almonds he must deliver to such outlets to meet his disposition obligation pursuant to § 981.42 (a). The revision would ease the burden on a handler in paying assessments which would subsequently be refunded. This occurs because § 981.442(a)(5) permits a handler to satisfy his disposition obligation no later than July 30 of the succeeding crop year in which the obligation has been incurred, but § 981.73 requires that handlers file redetermination reports by July 15. Thus, the proposal removes the need for the Board to readjust a handler's assessment obligation on the basis of his subsequent deliveries of almonds to exempt outlets. It would also enable the Board to determine its financial position at an early date after the end of the crop year.

Section 981.474 prescribes other reports the handler must file. These include reports of shipments, export sales and deliveries, and diversions, and intentions to divert reserve almonds to non-competitive outlets.

Section 981.474 would be revised to update these reports and make them more understandable to handlers. It would also give the Board ready access to information it needs. In order to describe the true nature of its contents, the proposal changes the title of that section from "report of shipments" to "report of shipments and commitments". Also, § 981.474(a) would be revised to require each handler to report his commitments (almonds not shipped but sold or otherwise obligated) to the Board on ABC Form 25. These commitments would be reported as domestic contract, export contract, and noncontract, and as inshell, shelled, or manufactured.

Section 981.474(b) pertains to the reporting of export sales. This information is necessary in those crop years when a handler is permitted to satisfy his reserve obligation by exporting almonds pursuant to § 981.67. Paragraph (b) would be revised so that it would not apply whenever export shipments are included with domestc shipments in the estimated trade demand for a crop year. In that event, handlers would still report export shipments, by countries of destination on ABC Form 25 pursuant to paragraph (a) of § 981.474.

The proposals to amend Subpart-Administrative Rules and Regulations are as follows:

1. Revise § 981.442(a) (4) and (6) to read as follows:

§ 981.442 Quality Control.

(a) • • •

(4) *Disposition obligation.* The weight of inedible kernels in excess of one and one-half percent of the kernel weight reported to the Board of any variety received by a handler shall constitute his disposition obligation. If a variety other

V 42 I 179 SEP 15 77 S UMI V

than Peerless is used as bleaching stock, the weight so used may be reported to the Board and the disposition obligation for that variety reduced proportionately.

• • • • •

(6) *Partial waiver of obligations.* Any handler generating inedible kernels only in the form of pickouts after shelling, may petition the Board for a waiver of the difference between this inedible weight and his disposition obligation. The petition will be granted only if the handler certifies to the Secretary and the Board that (i) he did not engage in any blanching, cutting, chopping, or other processing of almond kernels during the crop year (ii) all almonds shelled by or for him were hand-picked on belts and the visibly inedible almonds removed, and (iii) that he did not place into trade channels any almonds with more than one and one-half percent inedibles. However, no waiver shall be granted for more than 30 percent of the handler's inedible disposition obligation.

• • • • •

2. Revise § 981.473(f) to read as follows:

§ 981.473 Redetermination reports.

• • • • •

(f) *Exempt outlet deliveries.* A report showing the quantity of almonds delivered by a handler to Board accepted crushers, feed manufacturers, or feeders, and—for the purpose of establishing the assessment obligation—the quantity of almonds the handler must deliver to the Board approved outlets to meet his disposition obligation pursuant to § 981.42(a).

3. Revise § 981.474 to read as follows:

§ 981.474 Report of shipments and commitments.

(a) Each handler shall report on ABC Form 25 the following: (1) All shipments of almonds, inshell and shelled and by classification (domestic, and export by countries of destination); and (2) all commitments (almonds not shipped, but sold or otherwise obligated) whether domestic contract, export contract, or noncontract. If the destination of any export is unknown to the handler, he shall have the broker/exporter furnish this information to the Board. In support of this report, the handler shall keep invoices on the shipments, or such other documentation as may be acceptable to the Board. The reports shall be filed with the Board within five business days after the close of each month of the crop year.

(b) At the time of each export sale, each handler shall report it to the Board on ABC Form 18 and upon delivery into export shall report this on ABC Form 19. If any export is not made directly by the handler, he shall send the ABC Form 19 to the broker-exporter and request him to make the report to the Board. These forms shall include the number and type of container, net weight, variety and whether inshelled or shelled, time of export and destination. In years of minimum export prices applicable to reserve almonds, ABC Form 19 shall include the grade and size, the inspection certificate number, the price and any terms defining the price. Whenever export shipments are included with domestic shipments in the estimated trade demand for a crop year, this paragraph shall not apply.

• • • • •

Dated: September 12, 1977.

CHARLES R. BRADER,

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Proposed Addition of Australia to the List of Countries to Which Reserve Tonnage Raisins May Be Exported

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice of proposed rulemaking invites written comments on making Australia eligible for sales of reserve tonnage raisins under the Federal marketing order for California raisins. This would provide raisin handlers with another available export outlet for reserve raisins, additional flexibility in selling such raisins overseas, and could facilitate exports of California raisins. The proposal was recommended by the Raisin Administrative Committee.

DATES: Comments must be received prior to September 30, 1977.

ADDRESSES: Comments should be addressed to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Two copies of all written comments should be submitted, and they will be available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: 202-447-3545.

SUPPLEMENTARY INFORMATION:

The proposal is to revise the list of countries to which raisin handlers may sell reserve raisins to permit sales to Australia. This list in contained in § 989.221 of Subpart—Supplementary Regulations (7 CFR 989.231). The Subpart is operative pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 42 FR 37200), regulating the handling of raisins produced from grapes grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Currently, all countries outside of the Western Hemisphere except Australia are eligible outlets for reserve raisins. The Western Hemisphere is defined to exclude Greenland. Rather than preparing a list containing hundreds of countries, the countries are specified by hemisphere. Section 989.67(c) of the order requires the Committee to review the list of countries annually and recommend changes as conditions warrant. It recommended that Australia be made eligible for sales of reserve raisins to provide raisin handlers another available export outlet for reserve raisins, additional flexibility in selling such raisins overseas, and to facilitate exports of California raisins.

The proposal is to revise § 989.221 to read as follows:

§ 989.221 Countries to which sale in export of reserve raisins may be made by handlers.

The countries to which sale in export of reserve raisins may be made by handlers shall be all of those countries outside of the Western Hemisphere. For purposes of this section "Western Hemisphere" means the area east of the international dateline and west of 30 degrees W. longitude but excluding all of Greenland. All of the countries covered by this section to which sale in export of reserve raisins may be made shall be deemed listed in this section for the purposes of § 989.67(c).

Dated: September 12, 1977.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

Farmers Home Administration

[7 CFR Part 1822]

[FmHA Instruction 444.5]

RENTAL ASSISTANCE FOR LOW INCOME TENANTS

Rural Rental Housing Loan and Grant Policies, Procedures, and Authorizations

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration proposes to add a new Exhibit F-5A and Exhibits R, R-1, R-2, R-3, and R-4, and to revise Exhibit J-2 and Form FmHA 444-7, which will provide for a new Rental Assistance Program. This action is brought about by a need in rural communities for additional assistance to low income families and senior citizens who cannot pay the monthly rental rate with 25 percent of their income. The intended effect is to provide rental assistance for qualified individuals occupying eligible rural rental housing, rural cooperative housing, and labor housing projects.

DATES: Comments must be received on or before October 17, 1977.

ADDRESSES: Submit written comments to the Office of the Chief, Directives

Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above during regular business hours (8:15 a.m. to 4:45 p.m.).

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Conn, Director, Multiple Family Housing Loan Division, 202-447-7207.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration proposes to add new Exhibits F-5A, R, R-1, R-2, R-3, and R-4 to Subpart D of Part 1822, Title 7, Code of Federal Regulations. Exhibit J-2 is revised to provide a Project Worksheet for computing tenants' rental rates and the amount of rental assistance. The benefits provided by Exhibit R will supplement the benefits available to tenants under the interest credit program which is outlined in Exhibit J to Subpart D. The objective of the rental assistance program is to reduce the rent paid by low income families.

As proposed, Exhibits F-5A, R, R-1, R-2, R-3, and R-4 are added to Subpart D of Part 1822 and Exhibit J-2 and Form FmHA 444-7 are revised and read as follows:

FmHA INSTRUCTION 444.5, EXHIBIT F-5A

INSTRUCTIONS FOR PREPARATION AND USE OF HOUSING ALLOWANCES FOR UTILITIES AND OTHER PUBLIC SERVICES

I. General. These are instructions for completing Exhibit F-5A for the establishment and use of approved utility allowances for tenants. All allowances established for the housing units shall be based on the average cost of utilities and services paid by occupants of similar size and type housing in the same locality. Allowances shall not be based on energy consumption or costs of above average or below average income families. The objective shall be to establish allowances at levels that will apply to the majority of the families assigned to the proper size unit.

II. Determining Allowances. A. In general, the borrower shall to the extent possible use local sources of information on the cost of utilities and services. The following local sources should be contacted:

1. Electric utility suppliers.
2. Natural gas utility suppliers.
3. Water and sewer suppliers.
4. Fuel oil and bottle gas suppliers.
5. Public service commissions.
6. Real estate and property management firms.
7. State and local agencies including public housing authorities.

B. Allowances approved by FmHA or HUD for nearby localities with essentially the same type of housing stock should also be examined and may be used if determined adequate. In most cases fuel or utility rates normally will not vary appreciably in neighboring communities, and where data is not available in small communities, approved allowances for larger nearby communities may be used.

Data from other housing projects in the area may be used, providing the housing units are of similar size and type and serve comparable size families.

C. Separate heating and cooling allowances shall be established for the various types of multiple family housing financed by FmHA in the locality for which there are significant differences in fuel costs for the same number of bedrooms. For example, separate allowances may be needed for duplexes, row or townhouses, garden and low and medium rise apartments. In addition to establishing different heating and cooling allowances for various types of structures, attention should be given to different allowances for water, depending on whether tenants will have responsibilities for lawn care.

D. The data to be solicited from the local sources shown in paragraph II A should be as close as possible in form and detail to the format of Exhibit F-5A. If possible, all consumption data should be obtained for each unit size and type. If data is available only for an average unit size (2.5 bedrooms), multiply the utilities costs for the average unit by the following factors:

Size of unit:	Factor
No bedroom	0.5
1 bedroom	.7
2 bedrooms	.9
3 bedrooms	1.1
4 bedrooms	1.4
5 bedrooms	1.6

Example: Natural gas heating cost for average sized unit is $18 per month. The allowance for a four-bedroom unit will be 1.4×$18=$25 (rounded to nearest dollar).

E. Allowances for air conditioning shall be established only for those projects which are cooled by a central air conditioning system and for projects that are equipped with wall or portable units as a part of the permanent equipment.

F. The cost of gas and electricity varies according to amounts consumed as shown on the appropriate rate schedules of the supplier. It is not possible to compute exactly the cost of electricity for any given function without knowing the total electrical usage for a unit. However, because neither the borrower nor the families know beforehand just what will be the combination of utilities for any unit rented, it will be necessary to approximate the allowances for each function (e.g., heating, cooking, etc.) as follows: for electricity the rates used for lighting, refrigeration and appliances should be from the top of the rate schedule or the higher unit costs. Allowances for electric cooling, water heating and space heating and cooling should be computed from the middle or lower steps in the rate schedules. Similarly, allowances for gas used for water heating and cooking should be computed using rates from the top of the rate schedule and for heating from the lower steps.

III. Preparation. A. Exhibit F-5A will be completed in the original and three copies for each different type of unit in a project in all instances when a "Statement of Budget, Income, and Expense" is required to be completed. This form will establish the allowances for all type and size units in the project. The allowances shall be adequate for all utilities and any authorized services which are or will be available to the tenants, except telephone and cable TV. The allowances for utilities as determined in Part I of this form will be the basis of the operating expenses used in budget preparation. The forms will be signed by the borrower. The original and two copies of the form will be submitted to FmHA. Backup data and necessary documentation should be included with the submission.

B. If FmHA finds the allowances acceptable, the approval portion of Part I will be completed on all copies and the original and one copy returned to the County Supervisor. The County Supervisor will keep a copy for the county office file and return the original to the borrower. The borrower will complete Part II of the form and provide copies to each tenant to be attached to and become a part of the lease entered into by the borrower and tenant. The form will provide the family with the amount of allowance for each of the utilities and services which are to be paid by the family. If all utilities and services are paid by the borrower, Part II Block B of the form will show "none".

IV. Submission of Supporting Data to Fm HA. The applicant will submit to FmHA adequate data to justify the utility allowance for the project. The data will include the following:

A. Completed Exhibit F-5A.

B. List of local sources contacted for information and copies of any data provided by such sources.

C. Any data on allowances already established for the area.

D. Complete narrative statement and computations on method used in arriving at the allowances.

WARNING
Section 1001 of Title 18, United States Code provides: "Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully . . . makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both".

new RRH projects must also operate under Plan II in order to receive rental assistance. For a borrower to have an eligible project the loan must be:

(a) RRH insured or direct loan made to a broadly-based nonprofit organization, or State or local agency or

(b) RRH insured loan to an individual or organization who has or will execute a Loan Resolution or Loan Agreement agreeing to operate the housing on a limited profit basis as defined in Part 1822 Subpart D or

(c) RCH insured or direct loan or

(d) LH loan, or an LH loan and grant combination, made to a broad-based nonprofit organization or nonprofit organization of farmworkers or a State or local public Agency.

2. Projects with all or a part of the units under contract with the Department of Housing and Urban Development (HUD) developed under the Section 8 program for new construction or rehabilitation by either the dual or single track processing procedures will not be considered an eligible project. This exemption does not prohibit the borrower from utilizing HUD's Section 8 Housing Assistance Payments Program for existing housing and FmHA rental assistance for other eligible families in the same project.

E. Rental Assistance. Rental assistance, as used in this exhibit, is the difference between 25 percent of the family's adjusted monthly income and the approved monthly rate for the unit being occupied by the family and further defined as:

1. For projects operating on Interest Credit Plan II, it is the difference between 25 percent on the family's adjusted monthly income and the basic rent for the unit.

2. For all direct RRH loans, insured RRH loans approved prior to August 1, 1968, and all eligible LH loans, it is the difference between 25 percent of the family's adjusted monthly income and the approved market rental rate for the unit.

F. Approved Rental Rate. The rental rate (basic and/or market rent) determined by the budget for the project and approved by FmHA. Rental rates will be considered approved if the budget for the year has been approved in accordance with Part 1802 Subpart G and utility allowances have been determined and approved in accordance with paragraph VIII B of this exhibit. The rental rate includes the amortized principal and interest payments, operating and maintenance costs, required deposits to the reserved account and a return on the owner's initial investment when allowed by FmHA regulations. The allowance for all utilities, except telephone and cable TV, will be included or other public services in the operating and maintenance expenses to determine the approved rental rate regardless of whether the tenant or the owner pays utilities.

G. Utility Allowance. The allowance approved by FmHA to cover the cost of utilities which are payable directly by the families. In the case of a project where the families must pay directly for one or more utilities or public services, the amount allowed for these charges is deducted from the approved rental rate for all tenants. (See Exhibit F-5A.)

III. *Eligibility of Borrower.* All borrowers who meet the eligible project definition in II D of this exhibit are eligible and are encouraged to utilize the rental assistance program and receive rental assistance payments on behalf of low-income tenants as provided for in accordance with this exhibit. Generally, the borrower will initiate the processing of a rental assistance application. A borrower who does not request rental assistance may be petitioned by 20 percent or more of the families eligible for rental assistance in an eligible project to obtain rental assistance on their behalf. The petitions shall be in writing to the borrower and contain the signature of the head of the household of each family who is paying more than 25 percent of their adjusted monthly income for rental and desiring rental assistance. A copy of the petition will be submitted to the County Supervisor.

IV. *Eligibility of Tenants.* All tenants as defined in II C of this exhibit, are eligible to receive the benefits of rental assistance when occupying a rental unit in an eligible project providing the project owner has agreed to provide such assistance in accordance with this exhibit and there are RA units available.

V. *Priority of Rental Assistance Applications.* The National Officer may establish a State quota on the number of units that may receive rental assistance in any fiscal year. The State Director will limit the approval of rental assistance to no more than the number of units allocated to the State. Unless otherwise stated by the National Office, the State allocation will indicate the number of units for existing projects and the number of units to be used with the applications for loans. The priority in allocating units will be as follows:

A. Allocation to Projects Within a State. The State Director will distribute any units allocated to the State in accordance with any specific instructions from the National Office and approve requests for rental assistance to projects in accordance with the provisions of this exhibit. The number of units to be granted in any project will be based on the number of tenants in the project needing rental assistance up to the maximum allowed. The maximum number of units in a project to obtain rental assistance is limited to the following:

1. No limitation for eligible labor housing loan and grant projects. However, an eligible labor housing project with a loan only will be limited to not more than 20 percent (rounded to the nearest whole number) of the total number of units in the project.

2. No limitation for RRH, RCH or SCH projects designed and limited to housing for the elderly.

3. An RCH or RRH project designed and/or primarily occupied by low- and moderate-income families will be limited to not more than 20 percent of the total number of units in the project.

4. An RCH or RRH project planned and designed for a mix of senior citizen and low- and moderate-income families will be limited to not more than 20 percent of the total number of units designed for low- and moderate-income families and no limitations on the units designed for and occupied by senior citizens.

B. Granting Exceptions—1. *State Directors Authority.*—An exception to the 20 percent limitation indicated in V B 1, 3 and 4 of this exhibit may be granted by the State Director for up to 40 percent of the units in any particular project (rounded to the nearest whole number). However, the total number of units of rental assistance granted by the State Director including exceptions, cannot exceed the number of units allocated to that State. Exceptions will be granted only when units are or can be made available and the following conditions exist:

(a) When more than 20 percent of the units are occupied by families who are paying more than 25 percent of their adjusted income for rent, and such units are no larger than needed to meet the family's need, or

(b) The tenants in a project that is being assisted at the 20 percent level experience a hardship as a result of an income decrease or a rental increase and must obtain rental assistance to remain in the project, or

(c) The project is being developed in an area of extremely low income families and the majority of the proposed tenants will be paying in excess of 25 percent of their income for rent.

2. *National Office Authority.* If the project is being developed in an area of extremely low families and the majority of the tenants will be paying in excess of 25 percent of their income for rent, the National Office may authorize the State Director to grant approval for a greater number of units on a case-by-case basis for up to 100 percent of the units to receive rental assistance. Such requests will be submitted to the National Office prior to loan approval.

C. Processing Exception Requests.—1. A request for an exception to the 20 percent limitation will be submitted by the borrower to the County Supervisor. The County Supervisor will submit the request with supporting documentation and recommendations to the State Office by memorandum for approval. Included in the memorandum will be the number and percentage of units in excess of the 20 percent limit and justification for the approval. When National Office approval is required, the State Director will request this authorization by memorandum and will include (a) the borrowers case file, (b) complete data and documentation on the housing market situation, (c) the number of rental assistance units allocated to the State, (d) number of uncommitted units still available, and (e) recommendations. If the borrower requests authority to exceed the 40 percent limitation after the loan is approved, such requests will not be approved until the project is completed, and at least partially occupied and it is apparent that full rentup will not occur unless the 40 percent limitation is exceeded.

2. The State Director will maintain Form FmHA 444-28, "Record of Rental Assistance Agreements." The record will include the borrower's case number, fund code, loan number, number of units in the project, number of units for rental assistance authorized and the effective date of each agreement and amendment. This information will be obtained from Form FmHA 444-25, "Request for Rental Assistance Agreement", Form FmHA 444-26, "Request for Obligation of Rental Assistance", and Form FmHA 444-27, "Rental Assistance Agreement." Any changes which are made in the number of rental units assisted will be recorded in the Record of Rental Assistance Agreements. Exhibit R-3 may be used for keeping this record until Form FmHA 444-28 is available.

VI. Priority Among Eligible Families Within a Project Receiving Rental Assistance. The borrower will determine priority for RA among tenants living in a project and among families applying for occupancy in accordance with this paragraph.

A. In Existing Projects.—1. If the project is fully occupied at the time the rental assistance is granted, priority will be based on adjusted monthly income of the families occupying the units. The family having the lowest adjusted monthly income will receive the highest priority. However, no family eligible to occupy a unit in the project will be required to move from the project to allow a family applying for a unit who has a lower adjusted income to move in.

2. If the project has vacancies or vacancies occur and rental assistance is available, priority will be given to families already living in the project who are eligible for rental assistance before any new tenants are considered. Priority for new tenants will be based on the date of the family's application for occupancy. If more than one family applies for a unit on the same date, the applications will be time dated. If the family with the earliest date of application is unable or does not want to accept the rental assistance unit, the unit will be offered to the next earliest application. The application of a family who is unable for personal reasons or does not want to accept a rental assistance unit when notified, will be redated as of the current date if the family still wishes to be considered for occupancy.

3. If the project has vacancies or vacancies occur and rental assistance is not available, a family eligible for rental assistance may accept occupancy but cannot receive rental assistance. Such families will be considered for rental assistance in accordance with paragraph VI A 1. If such families elect not to accept occupancy because rental assistance is not available, their application for a unit will retain its original date for priority.

4. Tenants receiving the benefits of rental assistance shall continue receiving such benefits as long as they remain eligible tenants and there is a rental assistance agreement in effect.

B. In New Projects. Applications for occupancy should be accepted during the construction phase of the project. Priority will be given based on the date of the family's application for occupancy. If all or a percentage of the units are authorized to receive rental assistance, such units will not be rented to families whose adjusted annual income exceeds $10,000 without the written approval of the County Supervisor. The County Supervisor will not grant such approval until he has reviewed the borrower's method of advertising the units and has determined that families eligible for rental assistance are not available or do not desire occupancy.

VIII. Responsibilities of Borrower in Administering the Rental Assistance Program. Each borrower and management agent for each project that is to receive rental assistance should fully understand the responsibilities and requirements of carrying out the program. The borrower and management agent are the key to the successful operation of the program. The following guidelines will be followed:

A. Direct rental assistance payments will not be made to eligible tenants receiving rental assistance except in those instances when utilities are paid by the family and 25 percent of the family's monthly adjusted income is less than the allowance for utilities. In these cases, the borrower will pay the family that difference upon the family providing the borrower evidence that the utility bills are due or have been paid. (See paragraph VIII A, Payment of Utilities). The borrower will maintain an accurate accounting of each tenant's utility allowance and payments made to tenants.

B. The borrower must initially and annually submit Form FmHA 444-8, "Tenant Certification," or other certification form approved by FmHA for each tenant. The initial tenant certification will be submitted to the FmHA County Office with the next monthly payment following the date that the tenant occupies the unit. Subsequently, tenant certifications must be obtained during November and December and submitted to the county office not later than December 31 of each year. The borrower or management agent will establish an adequate recordkeeping system of tenant certifications to assure this responsibility is carried out.

C. The incomes reported by the tenants must be verified by the borrower. Such verifications may be obtained by:

1. The use of Form FmHA 410-5, "Request for Verification of Employment" or verification forms prepared by the borrower or other sources. Until the Form FmHA 410-5 is revised, it may be modified by deleting "Farmers Home Administration" in Part I 2. The borrower or management agent will insert the name and address to whom the form is to be returned. Also, in the first sentence of the applicant's statement in Part I Request, the words "applied for a Farmers Home Administration loan and" and in the last sentence the word "Loan" should be deleted.

2. In the case of the elderly or other persons whose income is not from wages or salary, by actually examining the income checks, check stubs or other reliable data the tenant possesses.

3. Until the Form FmHA 444-8 is revised, the borrower will make a notation on each tenant certification that "the tenant's income has been verified and found to be accurate". The notation will be dated and the name of the person making it will be shown.

D. Borrowers utilizing rental assistance must comply with FmHA Instruction 430.2, paragraph X. Rental assistance will be restricted to projects with operating budgets which have been approved by the FmHA State Office or the County Supervisor.

E. The borrower participating in the rental assistance program must have an FmHA approved lease with the assisted family.

1. Monthly or annual leases will be executed with each family occupying a rental unit. The State Director may issue State instructions covering any special conditions or local customs affecting leasing arrangements. The lease form for projects operating under rental assistance in addition to other statements outlining the conditions of the lease, should contain the following statements:

"I understand and agree that the total monthly rental payment will be $--------(the approved rental rate) per month. Of the total rent I will pay $-------- (25 percent of my adjusted monthly income) and the balance will be paid by FmHA as interest credit and/or rental assistance payments on my behalf. If I pay any or all utilities directly, (does not include telephone or cable TV), a utility allowance of $-------- will be deducted from the payment due for rent. If the utility allowance is in excess of 25 percent of my adjusted monthly income the lessor will pay me this excess.

I further agree to notify the lessor of any permanent increase in adjusted monthly income or change in the number of family members living in the household. I understand that should I receive rental assistance benefits to which I am not entitled that I may be required to make restitution and I agree to pay any amount of benefits received to which I was not entitled.

I also understand and agree that my monthly rental payment under this lease may be raised or lowered, based on changes in family income and changes in the number and age of family members living in my household. The rental payment will be the lesser of 25 percent of my adjusted monthly income or the approved rent established for the unit."

2. Lease clauses which fall within the classifications listed below shall not be included in any lease.

(a) *Confession of Judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the lease and to a judgment in favor of the landlord.

(b) *District for Rent or Other Charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which the landlord has determined the tenant has failed to perform.

(c) *Exculpatory Clause.* Agreement by tenant not to hold the landlord or landlord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

(d) *Waiver of Legal Notice by Tenant Prior to Actions for Eviction or Money Judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

(e) *Waiver of Legal Proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

(f) *Waiver of Jury Trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's right to a trial by jury.

(g) *Waiver of Right to Appeal Judicial Error in Legal Proceedings.* Authorization to the landlord's lawyer to waive the tenants right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

(h) *Tenant Chargeable with Costs of Legal Actions Regardless of Outcome.* Agreement by the tenant to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of such clause does not mean that the tenant, as a part to a lawsuit, may not be obligated to pay attorney's fees or other costs if he loses the suit).

3. A copy of a completed Exhibit F-5A, "Housing Allowances for Utilities and Other Services," and a copy of the established rules and regulations for the project will be provided to the tenant as attachments to the lease.

VIII. *Handling Utility Allowances and Determining the Amount of Rent*—A. *Payment of Utilities.*—All units in projects to be constructed will be individually metered for utilities unless adequate justification is provided to show that it would be infeasible or excessively costly. In an existing project which is not individually metered, the project will be converted to individual meters if feasible and an energy savings can be achieved. In every case, the approved rents for the projects must include a utility allowance for all utilities (except telephone and charges for cable TV) whether paid by the tenant or the owner. In a project where the tenant is billed directly for the utilities, the tenant receiving the benefit of rental assistance will pay the owner as rent the difference between the established allowance for utilities which the tenant pays and 25 percent of the family's adjusted monthly income. If, however, the family's adjusted

V 42 179 SEP 15 77 S V UMI

monthly income is less than the monthly allowance for utilities, the owner will pay the tenant that difference as prescribed in paragraph VII A. In a project where the owner pays all the utilities, the tenant will pay the owner the full 25 percent of his adjusted monthly income toward the approved rent for the unit being occupied. For those tenants not receiving RA that pay utilities directly, their rent shall be reduced by the amount allowable for such utilities.

B. *Determining the Allowance.*—The utility allowance will be determined and recorded by the use of Exhibit F-5A to Part 1822 Subpart D and submitted to FmHA for approval. The data will be analyzed by the FmHA State Office to determine the allowances that will be permitted. The utility allowance is to be approved on a project-by-project basis. If the allowances are reasonable for the project, the Exhibit F-5A will be approved. The allowable amounts will be indicated in each lease agreement between the owner and tenant.

C. *Changes in Allowances.*—The utility allowance will be changed to reflect changes in cost. Normally, allowances will be adjusted on an annual basis if necessary when the owner submits a new budget for approval.

IX. *Terms of the Rental Assistance Agreement*—A. *Effective Date.*—The effective date of the Agreement will be the 1st day of the month it is executed unless assistance is granted under appeal in accordance with paragraph XII of this Exhibit; then, the effective date will be retroactive to the first of the month in which assistance was denied.

B. *Term.*—1. *For New Construction.* The term of the agreement shall be for a period of twenty (20) years from the effective date of the agreement.

2. *For Existing.* The term of the agreement shall be for a period of five (5) years from the effective date of the agreement.

3. Prior to the termination date of any agreement a new Form FmHA 444-25, "Request for Rental Assistance," may be submitted. Exhibit R-1 will be used until the Form FmHA 444-25 is available.) If a new agreement is consummated, it will be made for a period not to exceed five (5) years.

X. *Processing of Rental Assistance Applications.*—All requests for rental assistance will be processed in accordance with this paragraph and may be approved by the State Director.

A. *Existing Projects.*—1. A borrower with an eligible project in which there are tenants paying in excess of 25 percent of their income for rent is encouraged to file Form FmHA 444-25, "Request for Rental Assistance," with the County Supervisor. A separate Form FmHA 444-25 will be submitted for each project. (Exhibit R-1, "Request for Rental Assistance," will be used until the Form FmHA 444-25 is available.) The borrower should include the following with each request.

(a) Form FmHA 444-29, "Project Worksheet for Interest Credit and Rental Assistance" with columns 1 through 12 completed for each tenant in the project. (Exhibit J-2 will be used until the Form FmHA is available).

(b) Approved or proposed budget for the year with Exhibit F-5A attached.

2. The County Supervisor will review the budget, Exhibit F-5A and Form FmHA 444-25 submitted by the borrower to assure that the items are complete and accurate. The County Supervisor will complete Form FmHA 444-25 and submit all data provided by the borrower to the State Director.

B. *Projects to be Funded.*—1. Applicants requesting funding under the RRH or LH programs planning to utilize the rental assistance program should submit a completed Form FmHA 444-25, "Request for Rental Assistance," to the County Supervisor when submitting a preapplication or application for funding.

2. The number of units of rental assistance requested should be based on the market data for the area, the proposed rental rates as reflected in a budget for the project, and the income levels of the prospective tenants.

C. *State Director Action on Requests for Rental Assistance.*—1. If the State Director determines that rental assistance can be granted, he will prepare Form FmHA 444-26, "Request for Obligation of Rental Assistance." Exhibit R-4 may be used until Form FmHA 444-26, "Request for Obligation of Rental Assistance," is available. Form FmHA 444-26 will be prepared and distributed in accordance with the Forms Manual Insert. *The Form FmHA 444-27, "Rental Assistance Agreement," will not be executed until the Request for Obligation of Rental Assistance has been returned from the Finance Office indicating that the requested number of units have been obligated for the project.*

2. Once rental assistance has been obligated by the Finance Office, the State Director will prepare an original and three copies of Form FmHA 444-7, "Interest Credit and Rental Assistance Agreement," and an original and two copies of Form FmHA 444-27. The State Director will keep one copy of the Forms in the State Office borrower file. The original and two copies of Form FmHA 444-7 and the original and one copy or Form FmHA 444-27 will be sent to the County Office with a covering memorandum authorizing the County Supervisor to execute the agreements. Both originals and copies will be executed by the borrower and County Supervisor. The County Supervisor will retain the original of Form FmHA 444-27 in the borrower file and the executed copy will be given to the borrower. The County Supervisor will send the original of Form FmHA 444-7 to the Finance Office, retain a copy in the borrowers file and an executed copy will be given to the borrower.

3. If rental assistance cannot be provided, the State Director will by letter, through the County Supervisor, inform the borrower in writing of the reasons.

XI. *Method of Payment of Rental Assistance to Borrower.*—The borrower will prepare a separate report for the project using Form FmHA 444-29. (Exhibit J-2 may be used until Form FmHA 444-29 is available). The worksheet will be prepared and distributed in accordance with the instructions for preparation or the Forms Manual Insert. This information will be used by the County Supervisor in preparation of Form FmHA 444-9, "Multiple Housing Certification and Payment Transmittal." The form must be completed in accordance with the FMI. The required payment will be transmitted with the form to the Finance Office. The rental assistance payment to the borrower will be made by the Finance Office within 15 working days of receipt of a properly completed Form FmHA 444-9. The payment will be sent to the County Supervisor for delivery to the borrower.

XII. *Rights for Appeal if Rental Assistance is not Granted by Farmers Home Administration*—A. Families who have requested rental assistance in writing but have been denied such assistance (whether in whole or in part) either by the borrower or County Supervisor are to be notified in writing of the specific reasons why they have been denied rental assistance. If a family has requested rental assistance directly to the borrower in writing, the borrower is responsible for notifying the family in writing of the reasons why rental assistance was not made available.

B. Borrowers who have requested rental assistance and are denied such assistance, in whole or in part by the Farmers Home Administration, will be notified in writing of the specific reasons why such assistance was denied. The letter informing the borrower of the denial will advise the borrower that it may appeal the decision by writing to the Administrator.

C. The letter informing the family or borrower of the denial of assistance and the reasons therefor must include:

1. In case the determination was made by the borrower, that the decision is subject to appeal to the FmHA County Supervisor giving name and address.

2. In case the decision was made by the County Supervisor, that an appeal may be made to the State Director giving name and address.

3. In case the decision was made by the State Director, that an appeal may be made to the Administrator giving name and address.

4. A statement that "any appeal must be filed within 45 days of the date of this notice of denial of assistance."

D. If the State Director denies an appeal for assistance, the borrower or family may appeal that decision to the Administrator, Farmers Home Administration, Washington, D.C. 20250. The Administrator upon review of the appeal shall either affirm or reverse the decision.

E. If at any time, it is determined that a borrower or a family was eligible to receive assistance and assistance could have been made available in accordance with this exhibit, the provision of the assistance will be retroactive to the first of the month in which assistance was initially denied.

F. All actions by FmHA officials must be within 30 days of receipt of an appeal.

XIII. *Forms and Exhibits*—Incorporated as a part of this regulation are exhibits R-1, R-2, R-4, F-5A, J-2, and Form FmHA 444-7, "Interest Credit and Rental Assistance Agreement."

WARNING

Section 1001 of Title 18, United States Code provides, "Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully . . . makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both".

RENTAL ASSISTANCE AGREEMENT

For: (Check appropriate block)
☐ New Construction project Term, 20 Years
☐ Existing project Term, 5 years

This Agreement effective on the 1st day of _____, 19____ between _____ (herein called "the borrower") and its successors and the United States of America acting through the Farmers Home Administration pursuant to Section 521 (a) (2) (A) of Title V of the Housing Act of 1949 as amended. (Herein called "the Government") Witnesseth:

In consideration of the Mutual Covenant hereinafter setforth, the parties hereto agree as follows:

Section 1 The Government agrees to provide rental assistance in accordance with its governing rules and regulations for _____ units of housing for the project located at _____ and known as _____ consisting of _____ units. The Government will pay the difference between 25 percent of the families' adjusted monthly income and the Government approved rents for the project.

Section 2 The borrower agrees to abide by the present and future regulations of the government in the administration of this program.

Section 3 Borrower agrees to use due diligence in the verification and certification of tenants incomes.

Section 4 In the event that any tenant suffers a hardship because rental assistance may not be available in the project because of the limitations set forth on the number of units in Section 1, borrower may make requests to the government for additional units. In the event additional units can be provided and are approved by the government, a rider shall be executed by the parties and attached to this agreement. The rider will be in the following form:

"Rider to Rental Assistance Agreement between _____ (Borrower), _____ (case number), _____ (loan code) and the United States of America acting through the Farmers Home Administration.

Section 1 of the above described agreement is amended to provide that _____ units may be assisted rather than _____.

The effective date of this change is _____, 19__

_____
(Borrower)

By:_____
(Signature)

_____
(Name and title)

_____
(Date)

FARMERS HOME ADMINISTRATION
By:_____

_____
(Name and title)

_____
(Date)

The rider shall be dated and signed by the borrower and the County Supervisor.

Section 5 Borrower will not permit any tenant to initially occupy a unit and receive rental assistance (or interest credit) if the number of authorized persons in the units is less or in excess of the following:

	Occupants Min.	Max.
0-bedroom	1	1
1-bedroom	1	2
2-bedroom	2	4
3-bedroom	4	6
4-bedroom	6	8
5-bedroom	8	10

Section 6. In the selection of tenants in the project that will receive rental assistance, the borrower agrees to comply with the Government priorities of selecting tenants. (See paragraph VI of Exhibit R to FmHA Instruction 444.5.)

Section 7. Provisions Applicable if Housing Owner is a Cooperative.—(a) As used in this agreement the term "tenant or occupant" may mean a member of a cooperative, and the term "rent" shall mean the charges under the occupancy agreement between the member and the cooperative.

(b) A member of a cooperative that obtains approval for rental assistance shall be required, as a condition of receiving such, to agree that upon a sale of such membership any equity increment accumulated through rent supplement payments will be turned over to the cooperative and will be remitted to the Government.

Section 8. Renegotiation, Modification, Termination.—If, at any time during the life of this agreement the Parties find that it would be to their best interests and to the best interests of the rental assistance program, the provisions of the agreement may be modified, amended, or the entire agreement be terminated, upon written agreement of the Parties.

Section 9. Term of the Agreement.—(a) *Definitions:*

(1) *New construction project* as used in this agreement is any project for which a request for obligation of rental assistance is made prior to completion of the project and any unit in the project occupied. The project will continue to be considered new construction for the complete term of the initial rental assistance agreement.

(2) *Existing project* as used in this agreement is any project in which units have been occupied.

(Seal)

Attest:

_____

(b) In the case of a new construction project this agreement is for a period of twenty (20) years from the effective date mentioned in this agreement. The term of any attached rider which changes the number of units will be for the period beginning on the effective date of the rider and ending twenty (20) years from the effective date of the initial agreement.

(c) In the case of an existing project this agreement is for a period of five (5) years from the effective date mentioned in this agreement. The term of any attached rider which changes the number of units will be for the period beginning on the effective date of the rider and ending five (5) years from the effective date of the initial agreement.

(d) This agreement is not renewable. If a need exists for rental assistance beyond the term of this agreement the borrower may, prior to the termination date of this agreement, submit a Form FmHA 444-25, "Request for Rental Assistance." If a new agreement is consummated it will be made for a period not to exceed five (5) years.

Section 10. Special Conditions.—The following special conditions shall be applicable to this Agreement:

INSTRUCTION FOR PREPARATION

Only an original copy need be maintained by the State Office. No signatures are required. The record will be maintained on a current basis to reflect data and status of requests. Each item should be completed as follows:

(1) Enter the fiscal year.

(2) Enter the number of existing units allocated to the state for use in the fiscal year indicated.

(3) Enter the number of new construction units allocated to the state for use in the fiscal year indicated.

(4) Enter borrowers name and case number.

(5) Enter fund and loan code, such as 84–01. Use loan number of initial loans only.

(6) Enter the total number of units in the project.

(7) Enter number of existing rental housing units to obtain rental assistance.

(8) Enter number of new rental housing units to obtain rental assistance.

(9) Enter number of existing labor housing units to obtain rental assistance.

(10) Enter number of new labor housing units to obtain rental assistance.

(11) Enter "I" to indicate the initial transmittal for rental assistance. Enter "C" to indicate a request for a change in the number of previously authorized.

(12) Enter the date that the Request for Obligation for Rental Assitance is prepared. The date should be the same as shown in item (17) of the FMI for Form FmHA 444–26.

(13) Enter the date of obligation of the units after the Finance Office has acted on and returned Form FmHA 444–26. The date shown must be the same date as in item (20) of the FMI for Form FmHA 444–26. At the same time, correct items (7), (8), (9), and (10) if previous entries differ.

(14) Enter effective date as shown on Form FmHA 444–27, "Rental Assistance Agreement."

(15), (16), (17), (18), and (19) Enter the sum for each column.

(20) Enter the number of projects granted rental assistance during the current fiscal year.

(21) Enter the number of existing units of rental assistance granted during the fiscal year. This is the sum of items (16) and (18).

(22) Enter the number of new construction units of rental assistance granted during the fiscal year. This is the sum of items (17) and (19).

INSTRUCTIONS FOR PREPARATION

PROCEDURE REFERENCE : FmHA Instruction 444.5

PREPARED BY : State Director

NUMBER OF COPIES : Original and three

SIGNATURES REQUIRED : State Director

DISTRIBUTION OF COPIES: Original and one copy to the Finance Office; copy to borrower at time of submission to the Finance Office; copy to be retained in the State Office pending receipt of the approved request from Finance.

(1) Enter the state office code.

(2) Insert the borrower's name as it appears on the promissory note.

(3) Enter the borrower's case number using the first two boxes for state code, the next three boxes for county code, and the last ten boxes for the borrower number. All the boxes should be completed.

Example: | 0 | 1 | 0 | 0 | 1 | 0 | 0 | 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 |

(4) Enter the correct loan code, such as 84-01. The loan code for the request should be the code for the initial loan of the project.

(5) Indicate the total number of units under each category for which rental assistance is being requested. The total number will include those previously obligated and the change being requested if applicable.

(6) Indicate whether the project is new (no unit in the project has been occupied) or existing (one or more units in the project has been occupied).

(7) Enter the total number of units in the project.

(8) Enter the number of units to receive rental assistance.

(9) Indicate the estimated date on which rental assistance will be effective.

(10) Enter the number of units to receive rental assistance shown on the last approved request.

(11) Indicate the difference (+ or -) in the number of units receiving rental assistance.

(12) Enter the number of units now to receive rental assistance.

(13) Indicate whether the project was reported as new or existing on the last approved request.

(14) Enter the date of obligation as shown on the last approved request.

(15) Indicate the effective date of the initial rental assistance agreement.

(16) Insert the estimated effective date that the increase or decrease in number of units will be effective.

(17) Show the date the form was signed.

(18) Signatures of the requesting officials.

(19) Title of the requesting official.

(20) The Finance Office will indicate whether or not the units were obligated for rental assistance.

(21) Finance will indicate the date the units were obligated for the project.

(22) The reverse side of the form is to be completed and mailed to borrower before or no later than the time the forms are sent to the Finance Office.

Loan Code

(1d)

1. This Agreement to be effective on 1st day of _____, 19___ between the United States of America, acting through the Farmers Home Administration pursuant to Section 521 of the Housing Act of 1949, (herein called "the Government") and _____ (3) _____ (herein called "Borrower") supplements a promissory note in the principal amount of $ (4a), dated (4b) which was drawn in (5) a single advance (5) multiple advances.

2. Subject to the provisions of this agreement, the Government will compute interest on the Borrower's account at the rate specified for the plan of operation selected below:

(6) PLAN I. The effective interest rate is three (3) percent plus surcharge as determined by the Government formula or procedure based on the income of the family.

(6) PLAN I S 8. For a profit type operation with a HUD Section 8 Housing Assistance Payment Contract in effect on all or a part of the units in the project.
The effective interest rate is _____ percent as determined by the Government formula or procedure based on market and contract rental rates.

(6) PLAN II. For non-profit and limited profit type operation with or without a HUD Section 8 Housing Assistance Payments contract in effective on a part of the units in the project.
The effective interest rate is one (1) percent plus all rental income over basic rent as determined by the Government formula or procedure for the program.

(6) PLAN II RA, For nonprofit and limited profit type operations utilizing the Rental Assistance Payments Program.
The Government agrees to credit the account or make a cash payment to the borrower in accordance with Government formula and procedure for the program.

(6) RA. For labor housing loans, direct RRH loans and insured RRH loans approved propr to August 1, 1968, utilizing the Rental Assistance Payments Program.
The Government agrees to credit the account or make a cash payment to the borrower in accordance with Government formula and procedure for the program.

3. Borrower shall submit to the Government, as required by the Government in form prescribed or approved by it, proof of Borrower's income and expenses for the previous calendar year or other designated periods, and any information on the family size and income of the occupants of the housing financed with the loan evidenced by the note.

4. If the Government should determine that the Borrower has defaulted under any terms or conditions of this agreement, the note, Borrower's related Loan Resolution, and supplementary or related agreements, or any related security instrument, or violates any program regulations, at its option the Government may terminate this agreement as of any specified date following the default.

5. No credit to the Borrower's account provided for in paragraph 2 shall be made following any termination date specified pursuant to paragraph 4.

6. The Government shall credit annually or more often to Borrower's account, and/or pay the borrower in case of rental assistance so long as there is no default in any obligation of Borrower to the Government, amounts equal to the difference, determined in accordance with a formula and procedure prescribed by the

FORMS MANUAL INSERT FOR FORM FmHA 444-7

PROCEDURE REFERENCE : FmHA Instruction 444.4 and 444.5

PREPARED BY : County Supervisor except by State Director when Form FmHA 444-27, "Rental Assistance Agreement" is required for rental assistance.

NUMBER OF COPIES : Original and two except original and three for rental assistance.

SIGNATURES REQUIRED : All copies by Official authorized to sign for the organization and the person authorized to act as attesting official and also by the County Supervisor or other authorized FmHA official.

DISTRIBUTION OF COPIES : Original retained in County Office; Copy to borrower; Copy to Finance Office. Unsigned Copy retained in State Office when prepared for rental assistance.

INSTRUCTIONS FOR PREPARATION

(1) Insert (a) State and (b) County in which property is located, (c) borrower's case number, (d) borrower's loan code, and (e) check type of loan.

(2) Insert date the Agreement is effective which is the first day of the month of execution.

(3) Type name of borrower as it appears in the promissory note.

(4a) Insert amount of loan in figures as shown in the promissory note.

(4b) Insert the date of the promissory note.

(5) Check whichever is appropriate: single or multiple advances.

(6) Check appropriate block to indicate the Plan the borrower will follow. When "Plan II RA" or "RA" is checked indicating that rental assistance is available to the project, Form FmHA 444-27, "Rental Assistance Agreement", will be completed and attached to the borrower's and County Office copy of this form.

Government, between the payment that would be required in accordance with the terms of the note and the payment required under such formula and procedure.

7. No terms or conditions of the note or any related security or other instrument shall be affected by this agreement except as expressly set forth herein.

8. This agreement is subject to the present regulations of the Farmers Home Administration, and to its future regulations not inconsistent with the express provisions hereof.

9. Upon request, the borrower will permit representatives of FmHA (or other agencies of the Department of Agriculture authorized by the Department) to inspect and make copies of any records of borrower pertaining to FmHA loans and this agreement.

10. If the borrower has received any excessive credit or payment, in addition to any other rights of recovery, the Government may deduct the amount from any subsequent credit or payment.

(CORPORATE SEAL) (6)

(NAME OF BORROWERS)

(9) & (10)

(SIGNATURE & TITLE OF EXECUTIVE OFFICIAL)

(11) (13)

(SIGNATURE OF ATTESTING OFFICIAL) (P. O. BOX OR STREET ADDRESS)

(12) (14)

(TITLE OF ATTESTING OFFICIAL) (CITY, STATE, AND ZIP CODE)

UNITED STATES OF AMERICA

FARMERS HOME ADMINISTRATION

By (14)

(16) (15)

(DATE OF EXECUTION) (TITLE)

(7) Insert the effective interest rate which is applicable to the loan.

(a) For a project with all units under Section 8, the interest rate may be reduced by 1 or 2 percentage points below the note rate of interest in accordance with FmHA Instruction 444.5.

(b) For a mixed project operating for profit the interest rate may be reduced a proportionate part of 1 or 2 percentage points in accordance with FmHA Instruction 444.5. The proportionate amount of 1 or 2 percent (as appropriate) will be in direct ratio as the number of units under Section 8 are to the total units in the project.

(8) Same as (3).

(9) Signature of official of organization authorized to sign.

(10) Insert title of official signing the agreement.

(11) Signature of attesting official.

(12) Insert title of attesting official.

(13) Insert address of borrower.

(14) Signature of FmHA Official.

(15) Insert title of FmHA Official.

(16) Insert date the agreement is executed. If the borrower is to receive interest credit, this agreement should not be executed until the provisions of Exhibit J of FmHA Instruction 444.5 are met. In other cases the agreement will be executed at the same time Form FmHA 444-27 (Exhibit R-2) is executed.

(42 U.S.C. 1480; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 12, 1977.

JAMES E. THORNTON,
Acting Administrator,
Farmers Home Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 77-NE-16]

AIRWORTHINESS DIRECTIVES

Sikorsky S-58 Model Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend Airworthiness Directive 74-15-06, Amendment 39-1390, as amended, to require replacement of megesium tail rotor input and intermediate housings with aluminum housings by February 1, 1978, because strengthened housings are now in production and past inspections have not been completely successful in preventing failures.

DATES: Comments must be received on or before October 7, 1977.

ADDRESSES: Send comments on the proposals in duplicate to: Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attention: Rules Docket No. 77-NE-16, 12 New England Executive Park, Burlington, Mass. 01803.

FOR FURTHER INFORMATION CONTACT:

Martin Buckman, Propulsion Section (ANE-214), Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803; telephone 617-273-7347.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. The proposals contained in this notice may be changed in the light of comments received. All communications will be available, both before and after the closing date for comments, in the rules docket, for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rule making will be filed in the public regulatory docket. Persons desiring copies of this NPRM should contact:

Docket Clerk, Office of the Regional Counsel (ANE-7), Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803.

AD 74-15-06, Amendment 39-2447 (40 FR 56883), appeared in the FEDERAL REGISTER on December 5, 1975, and became effective on December 10, 1975. The AD was issued to require one-time and repetitive inspections of housings in the tail rotor gearbox and its attaching hardware. At the time, the input and intermediate housings were being redesigned as aluminum castings with local reinforcement at a critically stressed area of the intermediate housing. As the strengthened housings are now in production, and since the inspections have not been completely successful in preventing failures, AD 74-15-06 is being revised to require removal of magnesium tail rotor input and intermediate housings and replacement with the new stronger aluminum housings.

In addition, a minor typographical error is also corrected. A reference paragraph D(3) has been changed to A(1).

DRAFTING INFORMATION

The principal authors of this document are Martin Buckman, Propulsion Section, Engineering and Manufacturing Branch, and George L. Thompson, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend section 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13), Amendment 39-2447 (40 FR 56883), AD 74-15-06 as follows:

1. Change second sentence of first paragraph by adding "equipped with magnesium input and/or intermediate housings" to read as follows:

"Applies to all S-58 model series helicopters equipped with magnesium input and/or intermediate housings."

2. Change compliance paragraph to include "magnesium" before "input and/or intermediate housings" to read as follows:

"Compliance required as indicated unless already accomplished. To preclude possible failure of the magnesium input and/or housings of the * * *:"

3. Change paragraph 4 to read "Section 2, paragraph A(1)" instead of "Section 2, paragraph D(3)."

4. Change existing paragraph No. 6 to 7.

5. Substitute a new paragraph 6:

6. Remove from service prior to February 1, 1978, magnesium input and intermediate housings, P/Ns S1635-64009-3N, S1635-64074, S1635-64009, S1635-64010, and replace with aluminum input and intermediate housings, S1635-64009-101 and S1635-64074-103 respectively.

NOTE.—Sikorsky Service Bulletin No. 58B35-25 covers this subject.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement

V 421179 SEP 15 77 V UMI

under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Burlington, Mass., on August 31, 1977.

WILLIAM E. CROSBY,
Acting Director,
New England Region.

[FR Doc.77-26621 Filed 9-14-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 77-SW-38]

TRANSITION AREA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to designate a transition area at Mexia, Tex., to provide controlled airspace for aircraft executing a proposed instrument approach procedure to the Mexia-Limestone County Airport,[1] using the newly established NDB located on the airport. Coincident with this action, the airport will be changed from VFR to IFR.

DATES: Comments must be received by October 17, 1977.

ADDRESSES: Send comments on the proposal to: Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101.

The official docket may be examined at the following location: Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Tex. 76106.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: Subpart G 71.181 (42 FR 440) of FAR Part 71 contains the description of transition areas designated to provide controlled airspace for the benefit of aircraft conducting IFR activity. Designation of the transition area at Mexia, Tex., will necessitate an amendment to this subpart.

COMMENTS INVITED

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airpace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, or by calling 817-624-4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should contact the office listed above.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate a transition area at Mexia, Tex. The FAA believes this action will enhance IFR operations at the Mexia-Limestone County Airport by providing controlled airspace for aircraft executing a proposed instrument approach procedure using the newy established NDB on the airport. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 440).

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airpace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) by adding the Mexia, Tex., transition area as follows:

MEXIA, TEX.

That airspace extending from 700 feet above the surface within a 6.5-mile radius of Mexia-Limestone County Airport (latitude 31°38'20" N., longitude 96°30'52" W.) and within 3.5 miles each side of the 155° bearing from the NDB (latitude 31°38'16" N., longitude 96°30'43" W.) extending from the 6.5 radius area to a point 12 miles southeast of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655 (c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on September 1, 1977.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[FR Doc.77-26611 Filed 9-14-77;8:45 am]

[14 CFR Part 91]

[Docket No. 13577; Reference Notice No. 74-8]

TWO-WAY RADIO COMMUNICATIONS FAILURE DURING IFR OPERATIONS

Withdrawal of Proposal for Pilots To Commence the Approach at the Expected Approach Clearance Time Received

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rule making.

SUMMARY: This notice withdraws Notice No. 74-8, that was published in the FEDERAL REGISTER on February 26, 1974 (39 FR 7431). That notice proposed amending the Federal Aviation Regulations (FARs) to provide that a pilot flying under Instrument Flight Rules (IFR), who loses two-way radio communications after receiving a holding instruction and an expected approach clearance time, must commence the approach at the expected approach clearance time received. This withdrawal is issued since the subject of two-way radio communications failure during IFR operations will be further handled under the Federal Aviation Administration's Part 91, Subpart B, Regulatory Review Program. All prior comments received will be considered during the Regulatory Review Program.

EFFECTIVE DATE: September 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Cathy Carroll, Air Traffic Rules Branch (AAT-220), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-3128.

SUPPLEMENTARY INFORMATION: Section 91.127 of Part 91 prescribes the flight procedures that a pilot, flying under Instrument Flight Rules, should follow after his two-way radio communication with Air Traffic Control (ATC) has failed. Paragraph (c)(4) of that section provides, among other things, that, if a pilot's two-way radio communications fails after he has received holding instructions and an expected approach clearance time, he shall "leave the holding fix in order to arrive over the fix from which the approach begins as close as possible to the expected approach clearance time."

However, current ATC procedures provide that controllers shall issue an expected approach clearance time only where the holding fix is itself a designated initial, intermediate, or final approach fix for the approach in use. Thus, only one fix (i.e., a combined holding and approach fix) is involved in situations in which an expected approach clearance is given. (ATC issues an expect further clearance time where the holding fix is not one of the fixes designated as a part of the approach procedure in use.)

Because of this, the FAA issued Notice No. 74-8 proposing to amend the rule to provide that a pilot must commence the approach at the expect approach clearance time received. However, the FAA has since issued Notice No. 77-2, published in the FEDERAL REGISTER (41 FR 14) on January 21, 1977, announcing the initiation of its Part 91, Subpart B Regulatory Review Program (hereafter called 'program'). Although the notice invited the public to submit proposals for consideration in the program, it stated that FAA's earlier proposal, contained in Notice No. 74-8, concerning two-way radio communications failure during IFR operations, would be pursued to a conclusion or withdrawn outside the program. However, public response to Notice No. 77-2 included proposals concerning two-way radio communications failure, including issues presented in Notice No. 74-8.

Review of these public responses to Notice No. 77-2 indicates that the proposals contained in Notice No. 74-8 may be unnecessarily complex and that a more effective and simpler approach to the problem of two-way radio communications failure during IFR operations may be achieved in a manner reflected in the proposals submitted under the program.

Accordingly, the FAA intends to pursue the subject of two-way radio communications failure during IFR operations within the program. Thus, the subject and issues contained in Notice No. 74-8 are hereby consolidated with the program.

As announced in the FEDERAL REGISTER on July 28, 1977 (42 FR 38390), the FAA has scheduled a program conference for September 13-16, 1977. It will be held at the Sheraton National Motor Hotel, Columbia Pike and Washington Boulevard, Arlington, Va. On September 13, the conference hours will extend from 9 a.m. to 5 p.m. and, on all other days, from 8:30 to 5 p.m. There is no admission fee or other charge to participate in the conference. All conference sessions will be open on a space available basis, to all interested persons who register to attend.

DRAFTING INFORMATION

The principal authors of this document are Cathy Carroll, Air Traffic Rules Division, and Gloria J. Willingham, Office of the Chief Counsel.

THE WITHDRAWAL

For the reasons stated above, Notice No. 74-8, published in the FEDERAL REGISTER on February 26, 1974 (39 FR 7431) is hereby withdrawn, effective immediately.

(Secs. 307, 313(a) and 601, Federal Aviation Act of 1958, as amended (49 U.S.C. §§ 1348, 1354(a) and 1421); and sec. 6(c), Department of Transportation Act (49 U.S.C. § 1655 (c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on September 7, 1977.

GLEN D. TIGNER,
Acting Director,
Air Traffic Service.

[FR Doc.77-26612 Filed 9-14-77;8:45 am]

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[EDR-336; Docket No. 30240; Dated September 1, 1977]

AIRLINE LOBBYING COSTS

Accounting and Reporting Requirements

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Aviation Consumer Action Project (ACAP) has asked the Board to require the airlines to report the amount of money they spend on lobbying and institutional advertising, and not to permit the airlines to pass these costs on to their passengers. This notice proposes to amend the Board's accounting and reporting regulations to require the airlines to report all lobbying expenses in a separate nonoperating account, thus eliminating these expenses from the costs on which fares and rates are based. The ratemaking treatment of advertising expenses is the subject of a separate advance notice of proposed rulemaking, EDR-336/PSDR-50, Docket 31333.

DATES: Comments by October 14, 1977.

ADDRESSES: Comments should be sent to Docket 30240, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Docket comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Richard Juhnke, Rates and Agreements Division, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428 (202-673-5436).

SUPPLEMENTARY INFORMATION: ACAP represents that the certificated air carriers spend large sums for lobbying and institutional advertising both on their own and through their trade association, the Air Transport Association of America (ATA). While acknowledging that the ATA budget does not specify lobbying costs, ACAP states that ATA minutes filed with the CAB indicate that the majority of ATA's objectives for 1976 would require some changes in federal or state law, and concludes from this that the bulk of the $7.47 million in annual dues collected from the airlines is allocated to lobbying expenditures. ACAP concludes that the expenditures made by airlines in their individual lobbying efforts are substantial since, even under the standards of the 1946 Lobbying Act,[1] the carriers admit paying corporate officers, law firms and public relations consultants to lobby.

Section 1002(e)(2) of the Federal Aviation Act of 1958 provides that the Board, in exercising its ratemaking powers, shall consider among other factors "• • • (2) the need in the public interest of adequate and efficient transportation of persons and property by air carriers at the lowest cost consistent with the furnishing of such service." ACAP argues that, in accordance with this provision, expenditures for lobbying should not be included in the costs allowable for ratemaking purposes, but instead, should be classified as "nonoperating expenses." Part 241, Section 8(d), of the Board's Economic Regulations (14 CFR Part 241) distinguishes between operating and non-operating expenses as follows:

(2) *Operating Expenses.* (1) This primary classification shall include expenses of a character usually and ordinarily incurred in the performance of air transportation-related services • • •.

(3) *Nonoperating income and expense-net.* This primary classification (8100) shall include • • • other revenues and expenses attributable to financing or other activities which are extraneous to and not an integral part of air transportation or its incidental services • • •.

ACAP argues that lobbying is clearly extraneous to the provision of air transportation or any of its services. According to ACAP, expenditures in pursuit of such goals as "defeating proposals authorizing low cost charter service, capturing special corporate tax benefits and heading off regulatory reform"[2] further the interests of corporation officers and stockholders and afford no benefit whatsoever to airline customers. These expenditures should not be classified as operating expenses and thus included in the fares charged to passengers.

ACAP sees the Board's policy of excluding political contributions and certain legal expenses from operating accounts,[3] as well as statutes, regulations

[1] The 1946 Federal Regulation of Lobbying Act, 2 U.S.C. 266, requires persons who lobby Congress to register and file reports with the Secretary of the Senate and the Clerk of the House of Representatives. The Act has been interpreted to cover only direct communications with members of Congress by individuals or organizations whose principal purpose is lobbying. ACAP's view of the scope of lobbying activity is much broader.

[2] ACAP Petition, p. 5.

[3] ACAP Petition, p. 5, citing 14 CFR Part 241, Accounts 74, 80, 1830 and Orders 76-8-103, 76-3-146, and 75-5-102.

[1] Map filed as part of original.

V 42 179 SEP 15 77 V UMI

and practices of several states, the Federal Power Commission, and the Federal Communications Commission, as further support for its position.

The Federal Power Commission (FPC) segregates lobbying expenses and requires these expenses to be treated as nonoperating expenses in interstate ratemaking. The uniform system of accounts prescribed by the FPC has a classification Account 426.4 "Expenditures for Certain Civic, Political and Related Activities" which states:

> This account shall include expenditures for the purpose of influencing public opinion with respect to the election or appointment of public officials, referenda, legislation, or ordinances * * * or for the purpose of influencing the decisions of public officials, but shall not include such expenditures which are directly related to appearances before regulatory or other governmental bodies in connection with the reporting utility's existing or proposed operations.[4]

The Federal Communications Commission (FCC) recently required certain carriers under its jurisdiction to disclose lobbying expenditures for the purpose of influencing the public to support the Consumer Communications Reform Act. These expenditures are defined to include the costs of printed materials, postage, media advertising, consultants' fees and allocation of salaries and expenses of employees who routinely spend one hour or more per week on legislative activities.

ACAP requests that a new nonoperating account, "Lobbying and Legislative Public Relations," be defined in the Board's Uniform System of Accounts, and that the carriers be required to allocate expenses "for the purpose of influencing legislators or public opinion with respect to federal or state legislation"[5] to this account. ACAP suggests that this account be modeled after the FPC account 426.4 and that a report form formulated by the FCC and approved by GAO be used as a starting point for a full and precise definition of the costs related to legislative and lobbying activity.[6] In addition ACAP asserts that all dues paid to ATA (except that portion directly related to technical and traffic operations), the cost of administering political action committees, and all costs related to airline "federal affairs" offices should be considered lobbying expenses.

ATA has filed a response in opposition to ACAP's petition on its own behalf and that of certain member carriers.[7] ATA contends that the petition is untimely because Congress is actively reviewing the framework of air transportation regulation, and could soon undercut the regulatory assumptions of the proposed rulemaking proceeding. ATA further argues that lobbying, airline advertising in general, and joint advertising by ATA are ordinary and necessary business expenses for tax purposes, and the Board therefore must consider them "expenses of a character usually and ordinarily incurred" in providing air transportation under section 1002(e)(5) of the Act, i.e., operating expenses. Finally, according to ATA, there is no parallel to be drawn in this entire matter between public utility regulation and air transportation regulation.[8]

The Board is aware of the increasing public attention being focused on the amounts expended by various industries in attempts to influence legislation of interest to them. We have also noted the steps taken by other Federal regulatory bodies, particularly the Federal Power Commission, to require the disclosure of lobbying expenses. In light of this increasing public concern and in response to ACAP's petition for rulemaking requesting relief in this area, we have decided to propose an amendment to the Board's accounting and reporting requirements which would require the certificated air carriers to allocate all expenditures related to lobbying activity to a new nonoperating account, thus excluding these expenditures from the costs allowable for ratemaking purposes. We have decided to consider the issue of the ratemaking treatment of advertising expenses in a separate advance notice of proposed rulemaking.

The Board is of the tentative view that the costs of advancing corporate interests should be borne by stockholders and not by airline passengers and shippers. Although these expenses may in fact be ordinary and necessary business expenses, as ATA argues, the Board has no statutory mandate to allow all such expenses for ratemaking purposes. In the "Domestic Passenger Fare Investigation" the Board affirmed its right to establish ratemaking standards for determing the revenue needed for the provision of adequate and efficient service under section 1002(e). The application of these standards results in the disallowance of certain expenses incurred by the airlines in the course of conducting ordinary operations.

We propose to establish a new objective nonoperating Account 89.2 "Lobbying" to include all costs expended for the purpose of influencing legislators and/or public opinion with respect to the election or appointment of public officials, referenda, legislation, or ordinances (either with respect to the possible adoption of new or repeal or modification of existing referenda, legislation, or ordinances); or for the purpose of influencing the decisions of public officials, with the exception of costs directly related to appearances before regulatory or other governmental bodies in connection with the air carrier's existing or proposed operations. We are also proposing to amend the reporting instructions of Account 64 "Memberships" to exclude from this account that portion of membership dues and related special assessments defined as lobbying expenses.

At the present time, all certificated air carriers are required to file with the Board an annual Schedule G-43, "Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Earning $20,000 or More During the Calendar Year," which requires that air carrier payments which exceed in aggregate $20,000 during the calendar year be reported on schedule G-43. A review of these filings desclosed that carriers have not been reporting trade association dues on schedule G-43. Nor have they been reporting on schedule G-43 memberships in other organizations, such as chambers of commerce, when the aggregate calendar year expenditures exceed $20,000. In order to close this gap we are proposing to amend the reporting instructions of schedule G-43 to clarify that all memberships charged to Account 64 "Memberships" and Account 89.2 "Lobbying" should be separtely reported on schedule G-43 when the aggregate calendar year expenditures exceed $20,000.

We agree with ACAP that the establishment of an account for lobbying expenses requires a clear definition of the specific activities which the terms lobbying and legislative activity encompass, as well as a precise definition of the costs related to these activities. A standard form which may be used for carrier analysis of these costs is attached as Appendix C. Carrier completion of this form for domestic operations for the calendar year 1976 will help the Board to refine the definitions before taking final action on the proposed rule. We recognize that there may be problems associated with allocating certain expenses between lobbying activities at the legislative level and activities at the regulatory level. However, we expect comments in response to this notice to suggest reasonable means for minimizing the administrative problems inherent in any allocation process. We also invite suggestions and discussions of feasible methods for allocating various lump sum payments, such as ATA membership dues, other ATA assessments, and outside counsel fees, between lobbying and other activities. The Board is particularly interested in developing a practicable mechanism for determining the proportions of carrier payments to ATA which are related to expenditures for lobbying activity, and should, therefore, be allocated to a nonoperating account.

---

[4] Federal Power Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act, Account 426.4. (18 CFR Part 101.)

[5] ACAP Petition, p. 9.

[6] The form is attached as Appendix B.

[7] "Response by the Air Transport Association and Certain of Its Members to the Rulemaking Petition of the Aviation Consumer Action Project," authorized by Alaska Airlines, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., The Flying Tiger Line, Inc., Frontier Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Piedmont Aviation, Inc., Ozark Air Lines, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and Wien Air Alaska, Inc.

[8] On February 4, 1977 ACAP filed a Motion for Leave to File an Otherwise Unauthorized Document, Reply by Aviation Consumer Action Project to Clarify the Record. ACAP argues that ATA distorted certain features of the rule requested by ACAP in its response to the ACAP petition for rulemaking, and that clarification is necessary to eliminate confusion. On its own behalf and that of certain member carriers ATA has filed a Motion for Leave to File an Otherwise Unauthorized Document, Opposition to ACAP Motion and the filing of the Reply on the grounds that the Reply neither clarifies nor adds anything new to pleadings already before the Board. We have decided to grant both motions to file otherwise unauthorized documents and have considered both ATA's Reply and ACAP's Opposition in deciding to issue a notice of proposed rulemaking.

PROPOSED RULE

It is proposed to amend Part 241 of the Economic Regulations (14 CFR Part 241) as follows:

1. Amend Section 7.—Chart of Profit and Loss Accounts, to read in pertinent part as follows:

SECTION 7.—*Chart of profit and loss accounts*

Objective classification of profit and loss elements		Functional or financial activity to which applicable (00)		
		Group I carriers	Group II carriers	Group III carriers
•	•	•	•	•
80	Other nonoperating income and expense—net:			
85.0	Income from nontransport ventures	81	81	81
88.1	Intercompany transaction adjustment—credit	81	81	81
88.2	Dividend income	81	81	81
88.3	Net unrealized gain or loss on marketable equity securities	81	81	81
88.4	Net realized gain or loss on marketable equity securities	81	81	81
88.5	Capital gains and losses—operating property	81	81	81
88.6	Capital gains and losses—other	81	81	81
88.7	Unapplied cash discounts	81	81	81
88.9	Other miscellaneous nonoperating credits	81	81	81
89.1	Intercompany transaction adjustment—debit	81	81	81
89.2	Lobbying	81	81	81
89.9	Other miscellaneous nonoperating debits	81	81	81

INCOME TAXES

• • • • •

Section 12 [Amended]

2. Amend Section 12—Objective Classification—Operating Revenues and Expenses, by revising account 64 to read as follows:

• • • • •

64 Memberships.

Record here the cost of membership dues in trade associations, chambers of commerce, or other business associations and organizations together with related special assessments. That portion of membership dues and related special assessments defined as lobbying expenses shall not be charged to this account but to nonoperating income and expense account 89.2 Lobbying.

• • • • •

Section 14 [Amended]

3. Amend Section 14—Objective Classification—Nonoperating Income and Expense to add a new subaccount for lobbying costs by revising account 89 to read as follows:

89. Miscellaneous Nonoperating Debits.

(a) Record here all debits of a nonoperating character not provided for otherwise, such as fines or penalties imposed by governmental authorities; costs related to property held for future use; donations for charitable, social or community welfare purposes; costs of lobbying; losses on reacquired and retired or resold debt securities of the air carrier; losses on uncollectible nonoperating receivables or accruals for uncollectible nonoperating receivables; and intercompany debt adjustments. This account shall be charged with amortization of amounts carried in balance sheet account 1870 Property Acquisition Adjustment, unless otherwise approved or directed by the Civil Aeronautics Board.

(b) This account shall be subdivided as follows by all air carrier groups:

89.1 *Intercompany Transaction Adjustment-Debit.* Record here all intercompany debits for any differences between amounts at which transactions between the air carrier and its nontransport divisions or associated companies are initially recorded and are to be settled as provided under section 2-18.

89.2 *Lobbying.* Record here all direct and indirect expenditures for the purpose of influencing legislators and/or public opinion with respect to the election or appointment of public officials, referenda, legislation, or ordinances (either with respect to the possible adoption of new or repeal or modification of existing referenda, legislation, or ordinances); or for the purpose of influencing the decisions of public officials; however, expenditures which are directly related to appearances before regulatory or other governmental bodies in connection with the air carrier's existing or proposed operations shall not be recorded in this account but shall be recorded in their respective objective accounts.

89.9 *Other.* Record here all other miscellaneous nonoperating debits not included in subaccounts 89.1 Intercompany Transaction Adjustment-Debit and 89.2 Lobbying.

• • • • •

Section 26 [Amended]

4. Amend Section 26—General Corporate Elements, by revising paragraph (d) of schedule G-43 to read as follows:

Schedule G-43—Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Earning $20,000 or More During the Calendar Year.

• • • • •

(d) Compensation and expenses to be reported in this schedule shall include fees, retainers, gifts, commissions, contributions, allowances for expenses or any form of payments or accruals amounting in the aggregate to $20,000 or more during the year. In addition to expense reimbursements paid or to be paid directly to the recipients reflected in column 1, this schedule shall include expenses incurred by the persons or firms named in column 1 which have been paid or are to be paid directly to vendors by the air carrier. Expenses to be reported in this schedule shall encompass payments and accruals such as for legal, medical, engineering, memberships, lobbying, trade associations, advertising, accounting, statistical, educational, or charitable purposes, but shall exclude payments and accruals for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine physical operation or maintenance of an air carrier, such as payments and accruals for rent of buildings or property, for heat, light, power, telegraph and telephone or, as applicable, payments or amounts to be paid to other carriers for interchange of equipment or settlement of interline traffic balances.

• • • • •

Section 36 [Amended]

5. Amend Section 36—General Corporate Elements, by revising paragraph (d) of schedule G-43 to read as follows:

Schedule G-43—Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Earning $20,000 or More During the Calendar Year.

• • • • •

(d) Compensation and expenses to be reported in this schedule shall include fees, retainers, gifts, commissions, contributions, allowances for expenses or any form of payments or accruals amounting in the aggregate to $20,000 or more during the year. In addition to expense reimbursements paid or to be paid directly to the recipients reflected in column 1, this schedule shall include expenses incurred by the persons or firms named in column 1 which have been paid or are to be paid directly to vendors by the air carrier. Expenses to be reported in this schedule shall encompass payments and accruals such as for legal, medical, engineering, memberships, lobbying, trade associations, advertising, accounting, statistical, educational, or charitable purposes, but shall exclude payments and accruals for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine physical operation or maintenance of an air carrier, such as payments and accruals for rent of buildings or property, for heat, light, power, telegraph and telephone or, as applicable, payments or amounts to be paid to other carriers for interchange of equipment or settlement of interline traffic balances.

• • • • •

6. Amend CAB Form 41 schedule P-3 to reflect the foregoing changes and attached hereto as Appendix A and made a part hereof.

REQUEST FOR COMMENTS

Interested persons may take part in this rulemaking by submitting 20 copies

V 42 I 179 SEP 15 77 S UMI

of written data, views, or arguments on the subjects discussed. All relevant material received by the dates shown at the beginning of this notice will be considered by the Board before taking final action on the proposed rules.

Individual members of the general public who wish to express their interest as consumers by informally taking part in this proceeding may do so by submitting comments in letter form to the Docket Section, without having to file additional copies.

(Secs. 204, 403, 404, 407 and 1002, Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758, 760, 766, and 788, as amended (49 U.S.C. 1324, 1373, 1374, 1377, 1482; and 5 U.S.C. 552))

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

PROCEDURES TO BE FOLLOWED IN REPORTING COSTS INCURRED IN SUPPORT OF THE PROPOSED CONSUMER COMMUNICATIONS REFORM ACT

All identifiable expenditures for the purpose of influencing the public to support the Consumer Communications Reform Act shall be charged to account 323, "Miscellaneous Income Charges," and shall be reported. Such expenditures include:

(a) Costs of preparing and printing statements or pamphlets addressing the Consumer Communications Reform Act urging shareowners, employees or customers to support the legislation.

(b) Postage or distribution costs when such material is mailed or otherwise distributed as communication to shareowners, employees or customers.

(c) Costs for media advertising, meetings, speeches or fees to consultants for promoting the Consumer Communications Reform Act.

(d) Salaries, travel and other expenses of employees who prepare, distribute or promulgate material to promote the Consumer Communications Reform Act through shareowners, employees, customers or the public in general.

(e) Salaries, travel and other expenses of employees who, while not assigned solely to this program, incur such expenses on behalf of it.

If portions of any published or printed material are devoted to the above activities, where such proportion is 10% or more of the content of the material, the appropriate share of the costs shall be identified and reported.

Salary costs shall be identified and accounted for in those cases where an average of one hour or more weekly is routinely devoted

Appendix B
Page 2 of 2 pages

to such efforts; or in the case of random activities, whenever any individual employee devotes as much as five hours in any bi-weekly period to such efforts. In the case of employee group meetings designed to promote the legislation, the salaries and/or wages of all employees shall be allocated where any such meeting is of 1/2 hour or more in duration.

The reports shall also include the costs of preparing testimony and testifying before legislative bodies in connection with the Consumer Communications Reform Act.

Items of a strictly informative character, such as reports of the status of the legislation, are not required to be reported.

Analysis of Costs - Domestic Operations 1/
for the 12 months ended December 31, 1976

Form 41 Sch. No.	Objective Accounts Title	Lobbying Costs	CAB Regulatory Costs	Cost of ATA Related Activities		Remaining	Synopsis of types of items included in remaining balance	Total per Form 41
				Payments to ATA 2/	Others 3/	Receipts from Others 3/	Balance to Form 41 Account	

ATA has filed a response in opposition to ACAP's petition on its own behalf and that of certain member carriers.[4] ATA contends that the treatment afforded advertising expenses by state public utility commission is in no way relevant here since the airline industry, in contrast to public utility companies, is not guaranteed a rate of return and is characterized by intra-industry and intermodal competition.

We find that the concept of institutional advertising is not well developed in ACAP's petition, nor does ACAP's material indicate its regular use. We have particular difficulty with institutional advertising as defined by ACAP, insofar as this definition does not provide a clear set of criteria for distinguishing between institutional and informational advertising. The series of ATA advertisements which ACAP offers as an example of institutional advertising provides an excellent example of how difficult it can be to make this distinction. Some of these advertisements could reasonably be characterized as "modal." Since it appears that ACAP would characterize advertising which attempts to divert passengers from one air carrier to another as informational, it would follow that advertising which seeks to generate air traffic by diverting passengers from other modes should not be considered institutional advertising.

Formulation of a proposed rule would require a clear definition of institutional advertising. Carriers may complete the attached form for the analysis of advertising expenses, Appendix A, to assist the Board in this regard. The instructions for completing this form include definitions for informational, promotional and institutional advertising in order to insure comparability of data among carriers. These definitions are by no means final, however, and we expect the response to this advance notice to include suggestions for refinements.

As a practical matter, any regulation requiring the separate disclosure of expenditures for institutional advertising could be difficult to administer, since any classification of advertising expenses according to type would be somewhat judgmental, even if the various types of advertising are clearly defined. In light of this, we have decided to seek comments and additional information before taking any action to require the exclusion of institutional advertising expenses from the costs allowable for ratemaking purposes.

The Board also intends to consider a broader approach to the ratemaking treatment of advertising costs by exploring the desirability of establishing a ratemaking standard for these expenses.[5] The Board currently determines the reasonableness of the passenger fare level on the basis of costs which reflect the application of ratemaking standards such as the 55.0 percent load-factor standard and seating configuration standards. A ratemaking standard for advertising expense would be designed to ensure that the users of air transportation are not burdened by advertising costs in excess of what is required to inform airline customers of prices and services and to allow the carriers to operate effectively in a competitive environment. We invite comments on the desirability of establishing a ratemaking standard for advertising expenses as an alternative to requiring the disclosure of institutional advertising expenses in a nonoperating account.

In sum, the Board expects comments in response to this advance notice to: (1) Define institutional advertising and discuss the extent to which this type of advertising should be considered a lobbying activity; (2) discuss whether institutional advertising expense should be treated as a non-operating expense and thus excluded from costs for ratemaking purposes; (3) discuss the merits of establishing a ratemaking standard for advertising expenses; and (4) the problems involved in deciding how much advertising is desirable, particularly in light of the fact that advertising and promotion are necessary if there is to be effective competition and for the introduction of new routes and experimentation with new rates and fares.

Interested persons may take part in this rulemaking by submitting 20 copies of written data, views, or arguments on the subject discussed. All relevant material received by the dates shown at the beginning of this notice will be considered by the Board before taking final action on the proposed rules.

Individual members of the general public who wish to express their interest as consumers by informally taking part in this proceeding may do so by submitting comments in letter form in the Docket Section, without having to file additional copies.

TENNESSEE VALLEY AUTHORITY

[18 CFR Part 304]

STRUCTURES ON TENNESSEE RIVER SYSTEM

Amendments to Regulations Governing Approval of Construction and Regulation

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Proposed rule.

SUMMARY: This proposed rule prescribes changes in the existing regulations governing approval of construction and the regulation of structures which affect or would affect navigation, flood control or public lands or reservations along or in the Tennessee River or its tributaries. Most of the amendments are designed only to clarify or update the existing regulations in light of new circumstances, but several would result in changes in the scope or effect of the present regulations.

PROPOSED EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

John S. Rozek, Director of Property and Services, 109 West Cumberland Building, Knoxville, Tenn. 37902 (615-632-3151).

SUPPLEMENTARY INFORMATION: The first of the substantive changes occurs in § 304.101, under which the Board currently reserves to itself the determination of all applications for structures or activities which may result in any "discharge" into "navigable waters" of the United States, as those terms are defined in the Federal Water Pollution Control Act Amendments of 1972 (FWPCA). The only exceptions to this reservation are applications which involve marine toilets. Under the proposed § 304.101, authority to approve or disapprove all applications will be delegated to TVA's Director of Property and Services.

A second change is the addition of a new subsection (c) to § 304.103 in order to make it explicit that each flotation device subject to the regulations must be firmly affixed to the structure it supports with materials capable of withstanding prolonged exposure to wave wash and weather conditions. If this is not done, individual flotation devices will escape, causing a navigation hazard to vessels on TVA reservoirs.

Another alteration contained in the proposed amendments concerns § 304.108 (c), which currently provides that plans for fixed boathouses, piers, and docks will not be approved if they include toilets, living or sleeping quarters, or enclosed spaces with floor area in excess of 25 square feet. Floating boathouses are similarly restricted by the terms of § 304.204. In order to make coverage complete, the scope of this prohibition will be expanded to cover floats, rafts, and all other structures subject to approval under section 26a except those structures which are subject to section 26a only because they are located upon land subject to TVA flowage easements as provided in § 304.109. At the same time the present authority of the Director to modify these restrictions for piers and docks which are a part of public or commercial recreation facilities is to be expanded to any structure, not just piers and docks, and to any public or comercial facility, not just recreational ones.

In the course of reorganizing § 304.109 for greater clarity and simplicity, it was redrafted to apply to flowage easements on all TVA reservoirs instead of Fort Loudoun and Douglas Reservoirs only. Experience has shown that, although to a lesser extent, problems do occur on the flowage easements for the other reservoirs and this change will provide uniform application and facilitate a more complete implementation of TVA's policies of flood damage prevention and water pollution control. The special provision under which the Director could exempt certain structures from the effect of the section if he determined that they were not subject to serious damage from flooding has been deleted. The provision was of little benefit to applicants because in order to determine the potential for flood damage the Director needs nearly as much information from them as for a regular approval, and in addition there is the possibility that a structure could be immune to flood damage itself and yet hamper the effectiveness of the reservoir under emergency conditions.

The final major proposed alteration concerns the definition of navigable houseboats in § 304.201. Currently, a houseboat may qualify as navigable if it is on a boat hull, pontoons or "other comparable flotation devices," but there is no provision as to the alignment or the shape of the flotation devices. Yet, if they are placed crosswise to the direction of travel or are not shaped to facilitate movement through the water, they are likely to come loose and escape, endangering the craft being supported and creating navigation hazards for other vessels on the reservoir. These dangers are also increased when flotation is rendered by numerous small devices. Under the proposed regulations, therefore, flotation for a navigable houseboat may come from a boat hull or pontoons only, and a definition of "pontoon" has also been provided under which a flotation device must run fore and aft for the full length of the vessel and have a sloped or molded bow. Existing houseboats which have qualified as navigable under the current regulations, but would not under the proposed amendments, are to continue to be treated as navigable for all purposes except for being subject to the prohibition in § 304.230(d) against replacing or rebuilding nonnavigable houseboats.

These amendments are proposed pursuant to section 26a of the Tennesssee Valley Authority Act of 1933, as amended. Interested persons may submit written data, views, arguments, comments, or objections in regard to the proposed rulemaking, preferably in duplicate, to the Tennessee Valley Authority, Attention: Office of the General Counsel, 400 Commerce Avenue, Knoxville, Tenn. 37902.

All relevant material received not later than October 17, 1977, will be considered prior to the adoption of a final rule. Revisions may be made in the rule as finally adopted in the light of material received. Copies of all such material received will be available for public examination during regular business hours at the following locations:

TVA Technical Library, Room E2A1, 400 Commerce Avenue, Knoxville, Tenn.

TVA Technical Library, Room 100, 401 Building, Chattanooga, Tenn.

TVA Technical Library, Room 100, National Fertilizer Development Center, Muscle Shoals, Ala.

TVA Technical Library, Forestry Building, Norris, Tenn.

Accordingly 18 CFR Part 304 is proposed to be amended as follows:

1. The Table of Contents to Part 304 is amended to read:

TABLE OF CONTENTS

Section 26a of the TVA Act, as amended:

PART 304—APPROVAL OF CONSTRUCTION IN THE TENNESSEE RIVER SYSTEM AND REGULATION OF STRUCTURES

Subpart A—General Requirements

Sec.
304.1 Definitions.
304.2 Scope and intent.
304.3 Flotation devices and material.
304.4 Treatment of sewage.
304.5 Removal of unauthorized or unsafe structures.

Subpart B—Approval of Construction

304.100 Scope and intent.
304.101 Delegation of authority.
304.102 Application.
304.103 Contents of application.
304.104 Little Tennessee River; date of formal submission.
304.105 Determination of application.
304.106 Appeals.
304.107 Conduct of hearings.
304.108 Conditions of approval.
304.109 Habitable and certain other enclosed structures within the flowage easement areas of TVA reservoirs.

Subpart C—Regulation of Boathouses, Houseboats, Other Floating Structures, and Harbor Limits

304.200 Scope and intent.
304.201 Definitions.
304.202 Designation of harbor areas at commercial boat docks.
304.203 Houseboats.
304.204 Floating boathouses.
304.205 Approval of plans for floating boathouses and nonnavigable houseboats.
304.206 Numbering and transfer of approved facilities.

AUTHORITY.—16 U.S.C. secs. 831–831dd.

2. Section 304.1 is amended to read:

§ 304.1 Definitions.

Except as the context may otherwise require, the following words or terms, when used in this Part 304, have the meaning specified in this section.

Act means the Tennessee Valley Authority Act of 1933, as amended.

Applicant means the person, corporation, State, municipality, political subdivision or other entity making application.

Application means a written request for the approval of plans pursuant to section 26a of the Act and the regulations contained in this part.

Board means the Board of Directors of TVA.

Director means the Director of the Division of Property and Services of TVA.

TCA means the Tennessee Valley Authority.

3. Section 304.2 is amended to read:

§ 304.2 Scope and intent.

The Act among other things confers on TVA broad powers related to the unified conservation and development of the Tennessee River Valley and surrounding area and directs that property in TVA's custody be used to promote the Act's purposes. In particular, section 26a of the Act requires that TVA's approval be obtained prior to the construction, operation, or maintenance of any dam, appurtenant works, or other obstruction affecting navigation, flood control, or public lands or reservations along or in the Tennessee River or any of its tributaries. By way of example only, such obstructions include boat docks, piers, boathouses, rafts, buoys, floats, boat launching ramps, fills, and nonnavigable houseboats as defined in § 304.201. Any person considering constructing, operating or maintaining any such structure should carefully study these regulations before doing so. The regulations also apply to certain structures built upon land subject to TVA flowage easements. In the transfer or other disposition affecting shoreline lands within its custody, TVA has also retained land rights to carry out the Act's purposes including rights related to control of water pollution from the use of the land transferred. TVA uses and permits use of the lands and land rights in its custody alongside and subjacent to TVA reservoirs to carry out the purposes and policies of the Act. In addition, recent legislation, including the National Environmental Policy Act of 1969, as amended, (NEPA), 42 U.S.C. section 4321 et seq., and the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. section 1251 et seq., (FWPCA), have declared it to be congressional policy that agencies should administer their statutory authorities so as to restore, preserve and enhance the quality of the environment and should cooperate in the control of pollutiuon. Unless otherwise noted, all references in this title to these statutes shall be deemed to include any future amendments to them. It is the intent of the regulations prescribed in this Part 304 to carry out the purposes of the Act and other statutes relating to these purposes, and this part shall be interpreted and applied to that end.

4. Section 304.3 is amended by amending paragraph (b) and adding a new paragraph (c) to read:

§ 304.3 Flotation devices and material.

• • • • •

(b) The only metal drums permitted are those which have been filled with plastic foam or other solid flotation materials and welded, strapped, or otherwise firmly secured in place prior to July 1, 1972, on existing facilities, but replacement of any metal drum flotation permitted to be used by this subsection must be with some type of permanent flotation device or material, for example, pontoons, boat hulls or other buoyancy devices made of steel, aluminum, fiberglass or plastic foam, not including filled metal drums.

(c) Every flotation device employed in the Tennessee River system must be firmly and securely affixed to the structure it supports with materials capable of withstanding prolonged exposure to wave wash and weather conditions.

5. Section 304.4 is amended to read:

§ 304.4 Treatment of sewage.

No person operating a commercial boat dock on or over real property of the United States in the custody and control of TVA, or on or over real property subject to provisions for the control of water pollution in a deed, grant of easement, lease, license, permit or other instrument from or to the United States or TVA shall permit the mooring on or over such real property of any watercraft or floating structure equipped with a marine toilet unless such toilet is in compliance with all applicable statutes and regulations, including the FWPCA and regulations issued thereunder.

6. Section 304.5 is amended to read:

§ 304.5 Removal of unauthorized, unsafe, and derelict structures.

If, at any time, any dock, wharf, floating boathouse, nonnavigable houseboat, outfall, or other fixed or floating structure or facility anchored, installed, constructed, or moored under a license, permit, or approval from TVA is not constructed in accordance with plans approved by TVA, or is not maintained or operated so as to remain in accordance with such plans, or is not kept in a good state of repair and in good, safe, and substantial condition, and the owner or operator thereof fails to repair or remove such structure (or operate or maintain it in accordance with such plans) within ninety (90) days after written notice from TVA to do so, TVA may cancel such license, permit or approval and remove such structure, or cause it to be removed, from the Tennessee River system and/or lands in the custody or control of TVA. Such written notice may be given by mailing a copy thereof to the owner's address as listed on the license, permit, or approval or by posting a copy on the structure or facility. TVA will remove or cause to be removed any such structure or facility anchored, installed, constructed, or moored without such license, permit, or approval, whether such license or approval has once been obtained and subsequently canceled, or whether it has never been obtained.

V 42 I 179 SEP 15 77 UMI

7. Section 304.100 is amended to read:

§ 304.100 Scope and intent.

Approval must be obtained with respect to each structure subject to section 26a of the Act prior to its construction, operation, or maintenance. This subpart prescribe procedures to be followed in any case where it is desired to obtain such approval.

8. Section 304.101 is amended to read:

§ 304.101 Delegation of authority.

The power to approve or disapprove applications under this part is delegated to the Director, subject to appeal to the Board as provided in § 304.105. In his discretion the Director may submit any application to the Board for its approval or disapproval. Administration of the handling of applications is delegated to the Division of Property and Services.

9. Section 304.102 is amended to read:

§ 304.102 Application.

Applications shall be addressed to Tennessee Valley Authority, Director of Property and Services, Knoxville, TN 37902.

10. Section 304.103 is amended to read:

§ 304.103 Contents of application.

(a) Each application must be accompanied by five (5) complete sets of plans for the construction, operation and maintenance of the proposed structure. The application shall be prepared according to "Instructions for Preparing An Application for An Approval of Plans for Proposed Structures Under Section 26a of the Tennessee Valley Authority Act." These instructions require that the application include, among other things: (1) Accurate maps showing the exact location where the structure is proposed to be built, moored, or installed, (2) plans, including layout, in scale, of the proposed structure, (3) statements of the plans formulated for the maintenance and operation of the structure when completed, (4) sufficient information to describe adequately all of the persons, corporations, organizations, agencies or others who propose to construct, own and operate such structure, and (5) a report of the anticipated environmental consequences resulting from the construction, operation, and maintenance of the proposed structure. This report of anticipated environmental consequences shall include a discussion of: (i) The probable impact of the proposed structure on the environment; (ii) any probably adverse environmental consequences which cannot be avoided; (iii) alternatives to the proposed structure; (iv) the relationship between the local short-term uses of the environment and the maintenance of long-term productivity which will result from the proposed structure; and (v) any irreversible or irretrievable commitments of resources which would be involved by virtue of the proposed structure.

(b) If construction, maintenance or operation of the proposed structure or any part thereof, or the conduct of the activity in connection with which approval is sought, may result in any discharge into navigable waters of the United States, applicant shall also submit with the application, in addition to the material required by paragraph (a) of this section, a certification from the State in which such discharge would originate, or, if appropriate, from the interstate water pollution control agency having jurisdiction over the navigable waters at the point where the discharge would originate, or from the Environmental Protection Agency, that such State or interstate agency or the Environmental Protection Agency has determined after public notice of applicant's proposal that there is reasonable assurance that applicant's proposed activity will be conducted in a manner which will not violate applicable water quality standards. If construction or operation of the proposed structure will affect water quality but is not subject to any applicable water quality standards, applicant shall submit a written statement to that effect by such State, interstate agency, or the Environmental Protection Agency. The applicant shall further submit such supplemental and additional information as TVA may deem necessary for the review of the application, including, without limitation, information concerning the amounts, chemical makeup, temperature differentials, type and quantity of suspended solids, and proposed treatment plans for any proposed discharges.

(c) Detailed information concerning contents of applications, kinds and amounts of information required to be submitted for specific structures, and instructions are available at the address specified in § 304.102 or from the Manager of Properties, Division of Property and Services, Tennessee Valley Authority, at one of the following district offices:

1. Western District, Post Office Box 280, Paris, Tenn. 38242 (office location: 202 West Blythe Street).
2. Southern District, 601 First Federal Building, Muscle Shoals, Ala. 35660 (office location: 102 South Court Street).
3. Central District, Post Office Box 606, Athens, Tenn. 37303 (office location: 110 Congress Parkway).
4. Eastern District, 2611 West Andrew Johnson Highway, Morristown, Tenn. 37814.

11. Section 304.105 is amended to read:

§ 304.105 Determination of application.

(a) The Division of Property and Services conducts preliminary investigations; coordinates the processing of applications within TVA; notifies the applicant if preparation and review of an environmental statemet are required under NEPA, and of what additional information must be submitted to TVA by applicant so that TVA may comply with the requirements of that statute and related legal requirements, and complete its review of the application; and arranges for notification to the Environmental Protection Agency of applications that request approval of plans for structures which may result in a discharge into navigable waters of the United States and are certified in accordance with the requirements of § 304.103(b).

(b) Hearings concerning approval of applications are conducted (in accordance with § 304.107). (1) when requested by the applicant, (2) when TVA deems that a hearing is necessary or appropriate in determining any issue presented by the application, or (3) when required under applicable provisions of the FWPCA.

(c) Upon completion of the investigation, coordination of the review of water quality aspects of the application under the FWPCA, completion of review under NEPA, if required, and hearing or hearings, if any, the Director approves or disapproves the application on the basis of the application and supporting documents, the report of investigation, the transcript of the hearing or hearings, if any be held, the recommendations of other agencies, the intent of this part, and the applicable provisions of the TVA Act, the FWPCA, NEPA, and other applicable laws or regulations. In his discretion the Director may refer any application and supporting materials to the Board for its approval or disapproval.

(d) Promptly following determination, the Director or the Board, as the case may be, furnishes a written copy of the decision to the applicant and to any parties of record pursuant to § 304.107. In the case of applications initially approved or disapproved by the Board, written requests for reconsideration may be made to the Board in the same manner as provided for appeals under § 304.106(a).

12. Section 304.106(a) and (b) are amended to read:

§ 304.106 Appeals.

(a) If the Director disapproves an application, the applicant may, by written request addressed to the Board of Directors, Tennessee Valley Authority, Knoxville, Tenn. 37902, and mailed within thirty (30) days after receipt of notification of such disapproval, obtain review by the Board of the determination of the Director disapproving the application.

(b) A party of record to any hearing before the Director who is aggrieved or adversely affected by any determination of the Director approving an application may obtain review by the Board of such determination by written request addressed and mailed as provided in paragraph (a) of this section.

* * * * *

13. Section 304.108 (b) and (c) are amended to read:

§ 304.108 Conditions of approvals.

* * * * *

(b) If an approval is granted under this subpart of a structure or facility with respect to which a certificate of compliance with applicable water quality standards has been obtained pursuant to the FWPCA and no additional or other Federal permit or license is required for operation of such structure or facility, the holder of the TVA approval shall, prior to initial operation of such structure or facility, provide an opportunity for the certifying state or, if appropriate, the interstate agency or the Environmental Protection Agency to review the manner in which the structure or facility will be operated or conducted, for the purpose of assuring that applicable water quality standards will not be violated.

(c) Except for plans which must be approved only because the proposed structure is to be built upon land subject to a TVA flowage easement, as provided in § 304.109, no plans will be approved for any structure, including by way of example only, boat docks, piers, fixed boathouses, floats, or rafts, if they provide for toilets, living or sleeping quarters, or any type of enclosed floor space in excess of 25 square feet, not including walkways around boat wells or mooring slips. Such walkways shall not exceed 4 feet in width unless, in the sole judgment of the Director, the size of the well or slip justifies a greater width. For the purposes of this subsection, floor space shall not be deemed *enclosed* solely because of plans providing for the use of wire mesh or similar screening which leaves the interior of the structure or facility open to the weather: *And, provided, further,* That nothing contained in this paragraph shall be construed as prohibiting enclosure of the boat well or mooring slip proper. In the case of applications for structures to be used as part of a public boat dock, marina, or other public or commercial facility, the requirements of this paragraph (c) may be waived or modified by the Director if he considers such waiver necessary or desirable for proper development of the facility.

14. Section 304.109 is amended to read:

§ 304.109 Habitable and certain other enclosed structures within the flowage easement areas of TVA reservoirs.

In addition to all other requirements of this part, any structure built upon land subject to a flowage easement held by TVA shall be deemed an obstruction affecting navigation, flood control or public lands or reservations within the meaning of section 26a of the Act if it:

(a) Is a fixed enclosed structure having a cost-in-place in excess of five thousand dollars; or

(b) Is designed or used for human habitation, regardless of cost; or

(c) Involves a discharge into the navigable waters of the United States.

Such obstructions shall be subject to all requirements of this subpart, but nothing contained in this section shall be construed to be in derogation of the rights of the United States or of TVA under any flowage easement held by TVA.

For purposes of this section "enclosed structure" shall mean a structure enclosed overhead and on all sides so as to keep out weather.

15. The heading of Subpart C is amended to read:

Subpart C—Regulation of Boathouses, Houseboats, Other Floating Structures, and Harbor Limits

16. Section 304.200 is amended to read:

§ 304.200 Scope and intent.

This subpart prescribes regulations governing designation of harbor areas at commercial boat docks and the approval of structures and facilities which may be moored or installed in such areas and in other areas in the Tennessee River and its tributaries, all in such a manner as to avoid obstruction of or interference with navigation and flood control, avoid or minimize adverse effects on public lands and reservations, prevent the preemption of public waters by houseboats moored in permanent or semipermanent locations outside such harbors and used as floating dwellings, attain the widest range of beneficial uses of land and land rights owned by the United States of America, enhance reasonable recreational use of TVA reservoirs by all segments of the general public, protect lands and land rights owned by the United States alongside and subjacent to TVA reservoirs from trespass and other unlawful or unreasonable uses, and maintain, protect, and enhance the quality of the human environment.

17. Section 304.201 is amended to read:

§ 304.201 Definitions.

For the purposes of this subpart, in addition to any definitions contained elsewhere in this part, the following words or terms shall have the meaning specified in this section, unless the context requires otherwise:

Existing as applied to floating boathouses or other structures, except houseboats, means those which were moored, anchored, or otherwise installed on, along, or in a TVA reservoir on or before July 1, 1972. *Existing* as applied to houseboats shall mean those which were moored, anchored, or otherwise installed on, along, or in a TVA reservoir on or before January 1, 1978.

Floating boathouse means a floating structure or facility, any portion of which is enclosed, capable of storing or mooring any houseboat or other vessel under cover.

Houseboat means any vessel which is equipped with enclosed or covered sleeping quarters.

Navigable houseboat means any self-propelled houseboat having maneuverability which is (a) built on a boat hull or on two or more pontoons; (b) equipped with motor and rudder controls located at a point on the houseboat from which there is forward visibility over a 180° range; and (c) in compliance with all applicable State and Federal requirements relating to watercraft; provided, however, that any existing houseboat which was deemed navigable under the provisions of the former § 304.201, which became effective November 21, 1971, shall continue to be deemed navigable for all purposes of this subpart, except that such houseboats shall be subject to the provisions of § 304.203(d).

New as applied to houseboats, floating boathouses, floats, or other structures means all houseboats, floating boathouses, floats, or other structures, other than existing ones.

Nonnavigable houseboat means a houseboat not in compliance with one or more of the criteria defining a navigable houseboat.

Pontoon means an elongated watertight box or cylinder extending fore and aft for the full length of a vessel and having a sloped or molded bow to facilitate movement through the water.

Vessel means any watercraft or other structure or contrivance used or capable of use as a means of water transportation, such as a boat, floatboat, or houseboat.

18. Section 304.203 is amended to read:

§ 304.203 Houseboats.

(a) No new nonnavigable houseboat shall be moored, anchored, or installed in any TVA reservoir.

(b) Existing nonnavigable houseboats may remain in TVA reservoirs subject to the provisions of paragraph (d) of this section, but only if (1) they have flotation devices complying with § 304.3; (2) they are approved and numbered pursuant to §§ 304.205 and 304.206; and (3) they are moored in compliance with paragraph (c) of this section.

(c) Existing nonnavigable houseboats shall be moored:

(1) To mooring facilities provided by a commercial dock operator within the designated harbor limits of his dock; or

(2) To the bank of the reservoir outside the designated harbor limits of commercial boat docks, if the houseboat owner is the owner or lessee of the abutting property at the mooring location (or the licensee of such owner or lessee) and has requested and obtained from TVA, pursuant to § 304.205, written approval authorizing mooring at such location.

(d) Ordinary maintenance and repair of existing nonnavigable houseboats permitted to be moored pursuant to this section may be continued, including replacement of metal drum flotation as required by § 304.3, but such houseboats may not be structurally modified or expanded, nor may they be replaced, rebuilt, or returned to the reservoir when they have been abandoned, destroyed, or removed from the reservoir or have deteriorated or been damaged so as to be unusable and unrepairable.

19. Section 304.204 is amended to read:

§ 304.204 Floating boathouses.

(a) Floating boathouses may be moored in TVA reservoirs only if (1)

V 42 179 SEP 15 77 UMI

they have flotation devices complying with § 304.3; (2) they are approved and numbered pursuant to §§ 304.205 and 304.206; and (3) they are moored in compliance with paragraph (b) of this section.

(b) All floating boathouses shall be moored:

(1) To mooring facilities provided by a commercial dock operator within the designated harbor limits of his dock; or

(2) To the bank of the reservoir outside the designated harbor limits of a commercial boat dock, if the boathouse owner is the owner or lessee of the abutting property at the mooring location (or the licensee of such owner or lessee) and has requested and obtained from TVA, pursuant to § 304.205, written approval authorizing mooring at such location.

(c) Ordinary maintenance and repair of existing floating boathouses permitted to be moored pursuant to this section may be continued, including replacement of metal drum flotation as required by § 304.3, but such floating boathouses may not be structurally modified or expanded, or replaced, rebuilt, or returned to the reservoir when they have been abandoned, destroyed, or removed from the reservoir, or have deteriorated or been damaged so as to be unusable or unrepairable: *Provided, however,* That such floating boathouses may be so structurally modified or expanded; replaced, rebuilt, or so returned to the reservoir if they comply with all the requirements of § 304.205(d) and approval is obtained under that section as for a new floating boathouse.

20. Section 304.205(b), (c) (d), and (e) are amended to read:

§ 305.205 Approval of plans for floating boathouses and nonnavigable houseboats.

. . . . . .

(b) Persons proposing to moor new floating boathouses shall submit applications to TVA prior to commencement of construction or mooring thereof. Applications shall be accompanied by plans showing in reasonable detail the size and shape of the facility; the kind of flotation device; the proposed mooring locations thereof; whether a marine toilet is on the facility; and the name and mailing address of the owner. TVA shall be kept advised of any changes in the kind of flotation devices which may be made by the applicant after approval is granted. Plans described in this section shall be in lieu of the plans specified in § 304.103(a).

(c) If the proposed mooring location is outside the designated harbor limits of a commercial boad dock, the application and plans shall be accompanied by evidence satisfactory to TVA showing that the applicant is the owner or lessee of the abutting property at the proposed mooring location, or the licensee of such owner or lessee.

(d) Applications for new floating boathouses will be disapproved if the plans provide for toilets, living or sleeping quarters, or enclosed spaces with more than 25 square feet of floor space, not including walkways around boat wells or mooring slips. Such walkways shall not exceed 4 feet in width unless, in the sole judgment of the Director, the size of the well or slip justifies a greater width. A new floating boathouse or part thereof shall not be deemed enclosed solely because of plans providing for the use of wire mesh or similar screening which leaves the interior of the structure open to the weather, and nothing contained in this subsection shall be construed as prohibiting enclosure of the boat well or mooring slip proper. Plans for any new floating boathouses will also be disapproved if the proposed flotation device includes metal drums in any form.

(e) Applications for mooring outside designated harbor limits will be disapproved if TVA determines that such proposed mooring location will be contrary to the intent of this subpart, of § 304.2, or of any applicable law. Applications will also be disapproved if marine toilets not in compliance with § 304.4 are proposed.

. . . . . .

21. Section 304.206(a) is amended to read:

§ 304.206 Numbering and transfer of approved facilities.

(a) Upon approval of an application concerning a nonnavigable houseboat or floating boathouse, TVA will assign a number to such facility. The owner of the facility shall paint such number on, or attach a facsimile thereof to, a readily visible part of the outside of the facility in letters and figures not less than three (3) inches high. The placement of such number shall be consistent with the requirements of any State or Federal law or regulation concerning numbering of watercraft.

. . . . . .

(16 U.S.C. 831–831dd)

NOTE.—TVA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A–107.

Dated: September 6, 1977.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 177]

INDIAN COAL MINING REGULATIONS

Proposed Rulemaking

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Proposed rules.

SUMMARY: These proposed regulations implement the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95–87) insofar as it requires the Secretary of the Interior to incorporate certain of the Act's performance and reclamation standards in all existing and new coal mining leases on Indian lands. The intended effect of this proposed regulation is to bring surface coal mining activity on Indian land into compliance with the environmental safeguard and reclamation requirements imposed by the Act.

DATES: Written comments must be received on or before October 14, 1977. Public hearings dealing generally with proposed regulations designed to implement the Surface Mining Act will be held starting at 1 p.m. on September 20, 1977, and continuing, if necessary, at 9 a.m. on September 21 and 22, 1977. Public hearings will be held at the Department of the Interior Auditorium, 18th and C Streets NW., Washington, D.C.; Kiel Auditorium, 1416 Market Street, St. Louis, Mo.; Public Library Auditorium, 1347 Broadway, Denver, Colo.; and Morris Harvey College, Riggleman Hall, 2300 McCorkle Avenue, Charleston, W. Va. Additional public meetings dealing specifically with regulation of mining on Indian lands will be held on September 23, 1977, at the Phoenix, Ariz., Area Office; on September 26, 1977, at the Albuquerque, N. Mex., Area Office; and on September 28, 1977, at the Navajo Area Office in Window Rock, Ariz.

ADDRESSES: Comments should be sent to: Office of Trust Responsibilities, Bureau of Indian Affairs, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

David C. Harrison, Office of Rights Protection, 202–343–8018.

SUPPLEMENTARY INFORMATION: The Surface Mining Control and Reclamation Act of 1977, Pub. L. 95–87, requires the Secretary of the Interior to publish environmental protection regulations that are applicable to all coal mining operations.

Proposed initial regulations governing coal mining on non-Indian lands were published in the FEDERAL REGISTER on September 7, 1977 (42 FR 44920). This proposal is designed to implement the Act insofar as it requires the Secretary of the Interior to incorporate certain of the Act's performance and reclamation standards in all existing and new coal mining leases on Indian lands.

On April 5, 1977, proposed rulemaking governing mining on Indian lands was published in the FEDERAL REGISTER (42 FR 18083). The proposal was designed to revise 25 CFR Parts 171, 177, and 183, and to issue a new Part 182. Proposed Subpart B of 25 CFR Part 177 was intended to provide performance and reclamation standards for coal operations on Indian lands. That Subpart B proposal was withdrawn on August 24, 1977 (42 FR 42695), in view of the enactment of the Surface Mining Act and the applicability of certain of its provisions to Indian lands. The following proposal is intended to be a substitute for the earlier Subpart B proposal.

Section 710(c) of the Surface Mining Act requires that by December 16, 1977, all surface coal mining operations on Indian lands shall comply with reclamation and performance requirements at least as stringent as those imposed by certain provisions in Section 515 of the Act. The following proposal is designed to implement that requirement.

The proposed performance standards set out below are nearly identical to the standards found in proposed 30 CFR Part 715 published in the FEDERAL REGISTER on September 7, 1977 (42 FR 44920). While the proposed Indian coal standards are little different from those applicable to non-Indian lands, their application recognizes specific procedures and considerations which apply only to Indian lands. The proposed performance standards for Indian lands do not include any of the provisions governing use of explosives found in proposed 30 CFR 715.19. However, this proposal does include the standards for steep-slope mining found in proposed 30 CFR 716.2.

Proposed §§ 177.12 through 177.14 set up enforcement procedures similar to those found in 30 CFR Parts 721–723. However, the enforcement procedures published here differ from those in 30 CFR in their provision for tribal involvement in the process and their preservation of tribal remedies in the enforcement scheme.

Section 710(a) of the Surface Mining Act directs the Secretary of the Interior to study the question of the regulation of surface mining on Indian lands which will achieve the purpose of the Act and recognize the special jurisdictional status of these lands. The study report shall include proposed legislation designed to provide a mechanism which will allow Indian tribes to elect to assume full regulatory authority over the administration and enforcement of regulation of surface coal mining on Indian lands.

Future Indian coal mining regulations promulgated pursuant to the provisions of this Act may be expected to follow and implement the directives of the study report required by section 710(a) of the Surface Mining Control and Reclamation Act.

DRAFTING INFORMATION

These proposed regulations were drafted by members of the Office of Surface Mining Task Force and the Office of the Solicitor, Department of the Interior. The principal authors are identified by name in the preamble to the proposed surface coal mining reclamation and enforcement regulations published on September 7, 1977 (42 FR 44920).

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB circular A–107.

Dated: September 9, 1977.

LEO M. KRULITZ,
Solicitor of the Interior.

PART 177—PLANS FOR PROSPECTING AND MINING ON INDIAN MINERAL LANDS: RECLAMATION OF NONMINERAL RESOURCES

Subpart B—Coal Operations

Sec.
177.100 Applicability.
177.101 Definitions.
177.102 General Obligations.
177.103 Signs and Markers.
177.104 Postmining use of land.
177.105 Backfilling and grading.
177.106 Disposal of spoil and waste materials in areas other than the mine workings or excavations.
177.107 Topsoil handling.
177.108 Protection of the hydrologic system.
177.109 Dams constructed of refuse materials.
177.110 Revegetation.
177.111 Steep-slope mining.
177.112 Inspections.
177.113 Enforcement procedures.
177.114 Civil penalties.

AUTHORITY: Secs. 201, 501, Pub. L. 95–87, 91 Stat. 445 (30 U.S.C. 1201) (25 U.S.C. 396d).

Subpart B—Coal Operations

§ 177.100 Applicability.

(a) The performance standards in this subpart shall apply to all coal mining operations on Indian lands on or after December 16, 1977.

(b) The requirements of this subpart shall be incorporated in all existing and new contracts entered into for coal mining on Indian lands.

§ 177.101 Definitions.

As used throughout the regulations in this subpart, except where otherwise indicated—

Acid drainage means water with a pH of less than 6.0 discharged from active or abandoned mines and from areas affected by coal mining operations.

Acid-forming materials means earth materials that contain sulfide mineral or other materials which, if exposed to air, water, or weathering processes, will cause acids that may create acid drainage.

Act means the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95–87).

Alluvial valley floors means unconsolidated stream-laid deposits holding streams where water availability is sufficient for subirrigation or flood irrigation agricultural activities but does not include upland areas which are generally overlain by a thin veneer of colluvial deposits composed chiefly of debris from sheet erosion, deposits by unconcentrated runoff or slope wash, together with talus, other mass movement accumulation and windblown deposits.

Approximate original contour means that surface configuration achieved by backfilling and grading of the mined area so that the reclaimed area, including any terracing or acceess roads, closely resembles the general surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all high walls and spoil piles eliminated; water impoundments may be permitted where the regulatory authority determines that they are in compliance with § 177.108.

Aquifer means a zone, stratum, or group of strata that can store and transmit water in sufficient quantities for a specific use.

Auger mining means a method of mining coal at a cliff or highwall by drilling holes laterally into an exposed coal seam from the highwall and transporting the coal along an auger bit to the surface.

Coal means combustible carbonaceous rock, classified as anthracite, bituminous, subbituminous, or lignite by A.S.T.M. designation 0–388–66.

Combustible material means organic material that is capable of burning either by fire or through a chemical process (oxidation) accompanied by the evolution of heat.

Compaction means the reduction of pore spaces among the particles of soil or rock, generally done by running heavy equipment over the earth materials.

Director means the Director, Office of Surface Mining Reclamation and Enforcement or his representatives.

Disturbed area means those lands that have been affected by surface coal mining and reclamation operations.

Diversion means a channel constructed for the purpose of transporting water from areas where it is in excess to areas where it can be usecd or disposed of safely.

Downslope means the land surface between a valley floor and the outcrop of the lowest coalbed being mined along each highwall.

Embankment means an artificial deposit of materials that is raised above the natural surface of the land and used to contain, divert, or store water, support roads or railways or for other similar purposes.

Ground water means subsurface water that fills available openings in rock or soil materials such that they may be considered water-saturated.

Highwall means the face of exposed overburden and coal in an open cut of a surface of underground coal mine.

Hydrologic balance means an accounting of the quality and quantity of inflow to, outflow from, and storage in a hydrologic unit such as a drainage basin, aquifer, soil zone, lake, or reservoir. It encompasses the relationship between precipitation, runoff, evaporation, and the change in ground and surface-water storage and is usually expressed by a hydrologic equation.

Hydrologic regime means the entire state of water movement in a given area. It is a function of the climate, and includes the phenomena by which water first occurs as atmospheric water vapor, passes into a liquid or solid form and falls as precipitation, moves thence along or into the ground surface, and returns to the atmosphere as vapor by means of evaporation and transpiration.

Imminent danger to the health and safety of the public means the existence of any conditions of practice, or any violation of permit or other requirement of

V 42 179 SEP 15 77 UMI

the Act in a surface coal mining and reclamation operation, which condition, practice, or violation could reasonably be expected to cause substantial physical harm to persons outside the permit area before such conditions, practice, or violation can be abated. A reasonable expectation of death or serious injury before abatement exists if a rational person, subjected to the same conditions or practices giving rise to the peril, would not expose himself to the danger during the time necessary for abatement.

Impoundment means a closed basin formed naturally or artifically built, which is dammed or excavated for the retention of water, sediment or waste.

Indian lands means all lands, including mineral interests, within the exterior boundaries of any Federal Indian reservation, notwithstanding the issuance of any patents, and including rights-of-way, and all lands including mineral interests held in trust for or supervised by an Indian tribe.

Indian Tribe means any Indian Tribe, band, group, or community having a governing body recognized by the Secretary.

Intermittent or perennial stream means a stream or part of a stream that flows continuously during all (perennial) or for at least one month (intermittent) of the calendar year as a result of ground-water discharge or surface runoff. The term does not include an ephemeral stream which is one that flows for less than one month of a calendar year and only in direct response to precipitation in the immediate watershed and whose channel bottom is always above the local water table.

Leachate means a liquid that has percolated through soil, rock, or waste and has extracted dissolved or suspended materials.

Office means the Office of Surface Mining Reclamation and Enforcement established under Title II of the Act.

Operator means any person, partnership, or corporation engaged in coal mining who removes, or intends to remove more than 250 tons of coal from the earth by coal mining within 12 consecutive calendar months in any one location.

Outslope means the exposed area sloping away from a bench or terrace being constructed as a part of a surface coal mining and reclamation operation.

Overburden means material of any nature, consolidated or unconsolidated, that overlies a coal deposit, excluding topsoil which overlies the coal to be mined.

Permit, except as used in references to permits during the initial regulatory program, means a permit issued by the Secretary to conduct surface coal mining and reclamation operations on Indian lands.

Person means an individual, partnership, association, society, joint stock company, firm, company, corporation, or other business organization.

Premining land use means the highest and best use of the land, which could have been achieved, taking into account the locally accepted best land management practices, prior to any mining.

Productivity means the vegetative yield produced by a unit area for a unit of time.

Recharge capacity means the ability of the soils and underlying materials to allow precipitation and runoff to infiltrate and reach the zone of saturation.

Regulatory authority means the Secretary.

Recurrence interval means the precipitation event expected to occur, in the average, once in a specified interval. For example, the 25-year 24-hour precipitation event would be that 24-hour precipitation event expected to be exceeded on the average once in 25 years. Magnitude of such events are as defined by the National Weather Service and Technical Paper No. 40, "Rainfall Frequency Atlas of the U.S.," May 1961, and subsequent amendments or equivalent regional or rainfall probability information developed therefrom.

Roads means access and haul roads constructed, used, reconstructed, improved or maintained for use in surface coal mining and reclamation operations, including use by coal-hauling vehicles leading to transfer, processing or storage areas. The term includes any such road used and not graded to approximate original contour within 45 days of construction other than temporary roads used for topsoil removal and coal haulage roads within the pit area. Roads maintained with public funds such as all Federal, State, tribal, and county roads are excluded.

Runoff water means precipitation that flows along the land surface before it enters a defined stream channel and becomes concentrated streamflow.

Secretary means the Secretary of the Interior or his representative.

Sediment means undissolved organic and inorganic material transported or deposited by water.

Settling pond means any natural or artificial structure or depression used to remove sediment from water and store sediment or other debris.

Significant, imminent environmental harm to land, air, or water resources is determined as follows:

(i) An environmental harm is any adverse impact on land, air, or water resources, including plant and animal life.

(ii) An environmental harm is imminent if a condition or practice exists which is causing or may reasonably be expected to cause such environmental harm if the condition or practice is not abated within a reasonable time.

(iii) An environmental harm may be significant even if it is reparable. An environmental harm is significant if that harm is appreciable and not readily reparable.

Slope means average inclination of a surface, measured from the horizontal. Normally expressed as a unit of vertical distance to a given number of units of horizontal distance (eg., 1*v* to 5*h*=20 percent=11.6 degrees).

Soil horizons means a soil profile that consists of two or more layers lying one below the other and parallel to the land surface. The layers are known as horizons and are differentiated on the basis of field characteristics and laboratory data. The three major soil horizons are:

(1) *A horizon.* The uppermost layer in the soil profile often called the surface soil. It is the part of the soil in which organic matter is most abundant, and where leaching of soluble or suspended particles is the greatest.

(2) *B horizon.* The layer immediately beneath the A horizon and often called the subsoil. This middle layer commonly contains more clay, iron or aluminum than the A or C horizons.

(3) *C horizon.* The deepest layer of the soil profile. It consists of loose material of weathered rock that is relatively unaffected by biologic activity.

Spoil means overburden that has been removed during surface mining.

Stabilize means any method used to prevent movement of soil, spoil piles or areas of disturbed earth and includes increasing bearing capacity, increasing shear strength, draining, compacting or revegetating.

Surface Coal Mining Operations means: (a) Activities conducted on the surface of lands in connection with a surface coal mine or subject to the requirements of section 516 surface operations and surface impacts incident to an underground coal mine, the products of which enter commerce or the operations of which directly or indirectly affect interstate commerce. Such activities include excavation for the purpose of obtaining coal including such common methods as contour, strip, auger, mountaintop removal, box cut, open pit, and area mining, the uses of explosives and blasting, and in situ distillation or retorting, leaching or other chemical or physical processing, and the cleaning, concentrating, or other processing or preparation, loading of coal for interstate commerce at or near the mine site: *Provided, however,* That such activities do not include the extraction of coal incidental to the extraction of other minerals where coal does not exceed 16⅔ per centum of the tonnage of minerals removed for purposes of commercial use or sale or coal exploration subject to section 512 of the Act; and (b) the areas upon which such activities occur or where such activities disturb the natural land surface. Such areas shall also include any adjacent land, the user of which is incidental to any such activities, all lands affected by the construction of new roads or the improvement or use of existing roads to gain access to the site of such activities and for haulage, and excavations, workings, impoundments, dams ventilation shafts, entryways, refuse banks, dumps, stockpiles, overburden piles, spoil banks, culm banks, tailings, holes or depressions, repair areas, storage areas, processing areas, shipping areas and other areas upon which are sited structures, facilities, or other property or materials on the surface, resulting from or incident to such activities.

Surface coal mining and reclamation operations means surface coal mining operations and all activities necessary and incident to the reclamation of such operations. This term included the term "surface coal mining operations."

Surface water means water, either flowing or standing, on the surface of the earth.

Suspended solids means organic or inorganic materials carried or held in suspension in water what will remain on a 0.45 micron filter as differentiated from dissolved solids. Dissolved solids are solids that pass into solution.

Topsoil means the A soil horizon and underlying unconsolidated materials including those portions of the B and C soil horizons that have properties favorable for producing desirable vegetation.

Toxic-forming materials means earth materials or wastes which, if acted upon by air, water or weathering processes may produce chemical or physical conditions in soils or water that are detrimental to biota or uses of water.

Toxic-mine drainage means water that is discharged from active or abandoned mines and from other areas affected by coal mining operations and which contain a substance which through chemical action or physical effects is likely to kill, injure or impair an organism.

Watercourse means a natural stream course that heads in a given drainage basin and has a channel with a well defined bed between visible banks or through a definite depression in the land and has a permanent or periodic supply of water.

Water table means upper surface of a zone of saturation, where the body of ground water is not confined by an overlying impermeable zone.

§ 177.102 General obligations.

(a) *Authorizations to operate.* A copy of all current permits, licenses, approved plans or other authorizations to operate the mine shall be available for inspection at or near the mine site.

(b) *Mine Maps.* Any person conducting surface coal mining and reclamation operations on and after May 3, 1978, shall submit two copies of accurate maps of the mine and permit area at a scale not to exceed 1:1000, certified by a surveyor or engineer. The maps shall show as of May 3, 1978, the lands from which coal has not yet been removed, lands and structures which have been used or disturbed to facilitate mining. One copy of the mine map shall be submitted to the appropriate agency of the local governing Indian Tribe, and one copy shall be submitted to the Regional Director, OSM, before June 3, 1978.

§ 177.103 Signs and markers.

(a) *Specifications.* All signs required to be posted shall be of a standard design that can be seen and read easily from a distance of 100 feet and they shall be made of durable material. The signs and other markers required by paragraphs (b), (c), and (d) of this section shall be maintained during all operations and until release of all bonds for the permit area. All signs and markers shall be displayed conspicuously within the permit area and conform to local ordinances and codes.

(b) *Mine and permit identification signs.* Signs identifying the mine area shall be displayed at all points of access to the mine property from public highways. Signs shall show the name, business address, and telephone number of the permittee or operator and identification numbers of mining and reclamation permits or other authorizations to operate.

(c) *Perimeter markers.* The perimeter of the mine property shall be clearly marked by durable markers that extend at least 3 feet above the ground. Permit numbers must be permanently affixed to the markers. On mine areas of 10 acres or more, the markers shall be spaced a maximum of 400 feet apart; on mine areas of less than 10 acres, the markers shall be spaced a maximum of 200 feet apart. Within the perimeter of the mine property, identification markers shall be established showing the boundary of coal which has not been removed prior to May 3, 1978. Temporary markers may be used during coal removal operations but the boundary shall be reestablished by permanent markers after final surface configuration in an area is established.

(d) *Buffer zone markers.* Buffer zones as defined in § 177.108 shall be marked at not more than 200-foot intervals along the interior boundary of the buffer zone. The signs shall read "Buffer Zone—Limited Access" and be placed so as to be seen by all persons employed on the mine property.

(e) *Blasting signs.* If blasting is necessary to conduct surface coal mining operations, signs reading "Blasting Area" shall be displayed conspicuously at the edge of blasting areas along access and haul roads within the mine property. Signs reading "Blasting Area" and explaining the blasting warnings and all-clear signals shall be posted at all entrances to the mine property.

(f) *Topsoil markers.* Where topsoil or other vegetation supporting material is segregated and stockpiled according to § 177.107(c), the stockpiled material shall be marked with signs that read "Topsoil." These signs shall remain in place until the material is removed.

§ 177.104 Postmining use of land.

(a) *General.* All disturbed areas shall promptly be restored (1) to conditions that are capable of supporting the uses which they were capable of supporting before any mining, and (2) to higher or better uses approved under criteria and procedures of paragraph (d) of this section.

(b) *Criteria for establishing premining use of land.* Criteria for establishing the premining use of the land shall be those uses which the lands have previously supported or were capable of supporting within the mine property, areas surrounding the mine property, or areas located in similar terrain and climate within the region that have been managed using methods considered practicable for the region. The appropriateness of postmining land use plans shall not be judged on the basis of lands that (1) were previously mined and not reclaimed to meet the standards of this part, (2) were badly eroded or overgrazed so as to change the vegetation community to one unsuitable for grazing, or (3) are otherwise determined by the regulatory authority to have been poorly managed. However, if the lands within the mine property were previously mined and not reclaimed to the standards of this part, the postmining use of the land shall be evaluated against the highest possible use compatible with surrounding unmined lands. If the premining use of the land was changed within five years of the beginning of mining, the comparison of post mining use to premining use shall include a comparison to the historic use of the land as well as its use immediately preceding mining.

(c) *Land-use categories.* Proposed land uses will be considered subject to this section when they change from one to another of the land-use categories identified in this paragraph. The regulatory authority shall consider the following categories, at a minimum, to represent differing land uses. When an alternative postmining use is proposed the permittee or operator shall meet the requirements of paragraph (d) of this section and all other applicable environmental protection performance standards of this part.

(1) *Heavy industry.* Manufacturing facilities, powerplants, airports or similar facilities.

(2) *Light industry and commercial services.* Office buildings, stores, parking facilities, apartment houses, motels, hotels or similar facilities.

(3) *Public services.* Schools, hospitals, churches, libraries, water-treatment facilities, solid-waste disposal facilities, public parks and recreation facilities, major transmission lines, major pipelines, highways, roads, underground and surface utilities, and other servicing structures and appurtenances.

(4) *Residential.* Single- and multiple-family housing (other than apartment houses over three stories) with necessary support facilities. Support facilities may include commercial services incorporated in and comprising less than 5 percent of the total area of housing capacity, associated open space, and minor parking and recreation facilities supporting the housing.

(5) *Agricultural.*—(i) *Cropland.* Land used primarily for the production of cultivated crops for harvest. Land used for facilities in support of farming operations are included.

(ii) *Rangeland.* Land used for grazing by livestock and big game animals on which the climax (natural potential) plant community is dominated by grasses, grasslike plants, forbs and shrubs.

(iii) *Hayland or pasture.* Land used for meadow grasses which are cut and cured for livestock feed.

V 42 I 179 SEP 15 77 UMI

(iv) *Forest.* Land used primarily for the production of adapted wood crops.

(6) *Fish and wildlife habitat.* Wetlands, fish and wildlife habitat, and areas managed primarily for fish and wildlife; may include impoundments that have a capacity of less than 20 acre-feet and a surface area at the high-water mark of less than 2 acres.

(7) *Combined uses.* Any appropriate combination of land uses where one land use is designated as the primary land use and one or more other land uses are designated as secondary land uses.

(d) *Criteria for approving alternative postmining use of land.* An alternative postmining land use may be approved by the regulatory authority, after consultation with the land owner or the surface management agency on Federal lands, if the following criteria are met.

(1) The proposed land use is compatible with adjacent land use and, where applicable, with land-use policies and plans. A written statement of the views of local Tribal authorities for land-use policies and plans shall accompany the request for approval.

(2) Available data on the long-term expected need and market show that the proposed land use can be achieved and maintained.

(3) Specific and feasible plans have been prepared which include a time schedule showing how the proposed land use will be achieved within a reasonable time after mining and how the achieved land use will be sustained. The regulatory authority may require appropriate demonstrations to show that the planned procedures are feasible, reasonable, and integrated with mining and reclamation, and that the plans will result in successful reclamation.

(4) Completion of the necessary public facilities is assured as evidenced by appropriate letters of commitment to provide them in a manner compatible with the operator's plans.

(5) Specific and feasible plans for financing attainment and maintenance of the postmining land use including letters of commitment if the financing is to be provided by someone other than the permittee or operator.

(6) The plans are designed by a registered professional engineer, or other professional, who is knowledgeable about the proposed land-use category and will ensure that the plans conform to nationally accepted standards to assure adequate land stability, drainage, and vegetation cover, and will provide an appropriate aesthetic design for the postmining use of the site.

(7) The proposed use or uses will not present actual or probable hazard to public health or safety nor will they pose any actual or probable threat of water flow diminution or pollution.

(8) The use or uses will not involve unreasonable delays in reclamation.

(9) Necessary approval of measures to prevent or mitigate adverse effects on fish and wildlife has been obtained from the regulatory authority and appropriate Tribal and Federal fish and wildlife management agencies.

(10) Proposals to change from premining land uses of rangeland, fish and wildlife habitat, hayland, or pasture to a postmining cropland use, where the cropland would require continuous maintenance such as seeding, plowing, cultivation, fertilization, or other similar practices to be practicable or to comply with applicable Federal and Tribal laws, shall be reviewed by the regulatory authority to assure that—

(i) There is a firm written commitment by the permittee or by the land owner or land manager to provide sufficient crop management after release of applicable performance bonds to assure that the proposed postmining cropland use remains practical and reasonable, and will not pose an actual or probable threat of water diminution or pollution;

(ii) There is sufficient water available and committed to maintain crop production;

(iii) The quality and quantity of topsoil has been shown to be sufficient to support the proposed use over a period of years;

(iv) The proposed cropland use will be maintained after release of applicable bonds and is not proposed only as a temporary alternative to re-establishing the premining use of the land.

(11) The regulatory authority has provided by public notice not less than 45 days nor more than 60 days for interested citizens and local, Tribal and Federal agencies to review and comment on the proposed land use.

§ 177.105 Backfilling and grading.

In order to achieve the approximate original contour, the permittee or operator shall, except as provided in paragraphs (d), (e), and (g) of this section, transport, backfill, compact unless otherwise approved by the regulatory authority, and grade all spoil material to eliminate all highwalls, spoil piles, and depressions. Cut-and-fill terraces may be used only in those situations expressly identified in this section. Land above the highwall may be disturbed only in the amount necessary to comply with this section and § 177.108. The postmining graded slope must be determined by the premining average of natural slopes in the area as defined in paragraph (a) of this section.

(a) *Slope measurements.* (1) To determine the average natural slope of the area before mining, 10 slopes, or more as specified by the regulatory authority in accordance with site conditions, must be surveyed, measured, and recorded. Each measurement shall consist of an angle of inclination along the prevailing slope extending 100 linear feet above and below the coal outcrop; or, where this is impractical, at locations specified by the regulatory authority. Where the area has been previously mined, the measurements shall extend at least 100 feet beyond the limits of mining disturbances as determined by the regulatory authority to be representative of the premining configuration of the land.

(2) After the disturbed area has been graded and the topsoil replaced, the final graded slopes shall be measured at the beginning and end of lines established on the prevailing slope at locations representative of premining slope conditions and approved by the regulatory authority. These measurements must not be made so as to allow unacceptably steep slopes to be constructed.

(b) *Moderate slopes.* Where natural slopes are determined according to paragraph (a) of this section to average less than 20 degrees, or such lesser slope as the regulatory authority requires, the final graded slopes shall not exceed either the average maximum natural slope or any lesser slope as specified by the regulatory authority based on consideration of soil, climate, or other characteristics of the surrounding area.

(c) *Steep slopes.* (1) While natural slopes are determined according to paragraph (a) of this section to average 20 degrees or more, or such lesser slope as the regulatory authority defines as "steep slope," the final graded slopes shall not exceed either the average maximum natural slope or any lesser slope as specified by the regulatory authority based on consideration of soil, climate, or other characteristics of the surrounding area.

(2) In order to conserve soil moisture and to control erosion on final graded slopes, cut-and-fill terraces along mine benches may be allowed if the terraces are compatible with the postmining land use approved under § 177.104, will prevent erosion, and are appropriate substitutes for construction of lower grades on the reclaimed lands. The terraces shall meet the following requirements:

(i) The width of the individual terrace bench shall not exceed 20 feet.

(ii) The vertical distance between terraces shall be as specified by the regulatory authority to prevent excessive erosion and to provide long-term stability.

(iii) The slope of the terrace face shall not exceed 1*v*:2*h* (50 percent).

(iv) The terrace shall have adequate slopes to divert drainage away from the face of the terrace and into drainage systems that are stabilized by vegetation or other stabilization methods that will require minimal maintenance after mining.

(v) Culverts and underground rock drains shall not be used on the terrace unless approved by the regulatory authority.

(3) All operations on natural slopes of 20 degrees or more as stated in paragraph (c)(1) of this section shall meet the provisions of § 177.111.

(d) *Mountaintop removal.* Where surface mining operations will remove entire coal seams in the upper part of a mountain, ridge, or hill by removing all of the overburden, final graded top plateau slopes on the mined area shall be less than 1*v*:5*h* so as to create a level plateau or gently rolling configuration and the outslopes of the plateau shall not exceed 1*v*:2*h*, except where engineering data substantiates and the regulatory authority finds that a minimum static safety factor 1.5 will be attained. Although the area need not be restored to approximate original contour, all highwalls, spoil piles, and depressions except as provided in paragraph (e) of this section shall be eliminated.

(e) *Depressions.* The requirement of this section to achieve approximate original contour does not prohibit construction of small depressions if they are approved by the regulatory authority to minimize erosion, conserve soil moisture or promote revegetation. However, the depressions shall be compatible with the approved postmining land use and shall not be inappropriate substitutes for construction of lower grades on the reclaimed lands. Depressions approved under this section shall have a holding capacity of less than 1 cubic yard of water or, if it is necessary that they be larger, shall not restrict normal access to the area.

(f) *Definition of thin and thick restored overburden.* The thin overburden provisions of paragraph (g) of this section apply where the final thickness is less than 0.8 of the initial thickness. The thick overburden provisions of paragraph (h) of this section apply where the final thickness is greater than 1.2 of the initial thickness. Initial thickness is the sum of the overburden thickness and coal thickness. Final thickness is the product of the overburden thickness times the bulking factor to be determined for each mine area.

(g) *Thin overburden.* In surface coal mining operations carried out continuously in the same limited pit area for more than 1 year from the day coal-removal operations begin and where the volume of all available spoil and suitable waste materials is demonstrated to be insufficient to achieve approximate original contour, surface coal mining operations shall be conducted to meet the following standards:

(1) Transport, backfill, and grade, using all available spoil and suitable waste materials from the entire mine area, to attain the lowest practicable grade, which may not exceed the angle of repose, and to provide adequate drainage and long-term stability of the regraded areas.

(2) Eliminate highwalls by reshaping to stable slopes not exceeding 1*v*:2*h* (50 percent), or such lesser slopes as the regulatory authority may specify to reduce erosion, maintain the hydrologic balance, or allow the approved postmining land use.

(3) Transport, backfill, grade, and revegetate to achieve an ecologically sound land use compatible with the prevailing land use in unmined areas surrounding the permit area.

(4) Transport, backfill and grade to ensure that impoundments are constructed only where it has been demonstrated to the regulatory authority's satisfaction that all requirements of § 177.108 have been met and that impoundments have been approved by the regulatory authority as meeting the requirements of this part and all other applicable Federal and Tribal regulations.

(h) *Thick overburden.* In surface coal mining operations where the volume of spoil is demonstrated to be more than sufficient to achieve the approximate original contour surface coal mining operations shall be conducted to meet the following standards:

(1) Transport, backfill, and grade all spoil and wastes not required in the surface mining areas to achieve approximate original contour to the lowest practicable grade.

(2) Deposit, backfill, and grade excess spoil and wastes only within the permit area and dispose of such materials in conformance with § 177.106.

(3) Transport, backfill, and grade excess spoil and wastes to maintain the hydrologic balances in accordance with § 177.108 and to provide long-term stability.

(4) Transport, backfill, grade, and revegetate wastes and excess spoil to achieve an ecologically sound land use compatible with the prevailing land uses in unmined areas surrounding the permit area.

(5) Eliminate all highwalls and depressions except as stated in paragraph (e) of this section by filling with spoil and suitable waste materials.

(i) *Regrading to remove rills and gullies.* When rills or gullies deeper than 6 inches form in areas that have been regraded and the topsoil replaced but vegetation has not yet been established, the permittee shall fill, compact, or otherwise stabilize the rills and gullies and reseed or replant the areas according to § 177.110.

(j) *Covering coal and acid-forming, toxic-forming, combustible, and other waste materials; stabilizing backfilled materials; and using waste material for fill.*—(1) *Cover.*—All undisturbed coal seams and any acid-forming, toxic-forming, combustible materials or any other waste materials as identified by the regulatory authority that are exposed, used, or produced during mining shall be treated to neutralize potential toxicity and permanently covered with a minimum of 5 feet of nontoxic and noncombustible material, in order to prevent water pollution, adverse effects on plant growth and land uses, and sustained combustion.

(2) *Stabilization.* Backfilled materials shall be compacted wherever necessary to prevent leaching of toxic materials into surface or subsurface waters in accordance with § 177.108(g) and whenever necessary to ensure the stability of the backfilled materials. The equipment to be used, the method of compacting material and the design specifications shall be approved by the regulatory authority before the toxic materials are covered.

(3) *Use of waste materials as fill.* Before waste materials from a coal preparation of conversion facility or from other activities conducted outside the permit area such as municipal wastes are used for fill material, it must be demonstrated to the regulatory authority by means of chemical and physical analyses that use of these materials will not adversely affect water quality, water flow, and vegetation; will not present hazards to public health and safety; and will not cause instability in the back-filled area.

(k) *Grading along the contour.* All final grading, preparation of overburden before replacement of topsoil, and placement of topsoil in accordance with § 177.107, shall be done along the contour to minimize subsequent erosion and instability. If grading along the contour would be hazardous to equipment operators, grading in a direction other than generally parallel to the contour may be approved by the regulatory authority.

§ 177.106 Disposal of spoil and waste material in areas other than the mine workings or excavations.

(a) *Disposal of spoil and wastes in other than valley or head-of-hollow fills.* Spoil and waste material not required to achieve the approximate original contour may be transported to and placed in a controlled (engineered) manner in disposal areas other than the mine workings or excavations only if all the following conditions, in addition to the other requirements of this part, are met:

(1) The disposal areas shall be within the permit area, and they must be approved by the regulatory authority.

(2) The disposal areas shall be located on the most moderate sloping and naturally stable areas available as approved by the regulatory authority.

(3) Where the slope in the disposal area exceeds 1*v*:5.5*h* (18 percent), or where otherwise required by the regulatory authority, structures such as keyway cuts (excavations to stable bedrock) or rock toe buttresses shall be used to stabilize the fill.

(4) The disposal area does not contain springs, natural water courses or wet weather seeps unless lateral drains are constructed from the wet areas to the main underdrains in such a manner that filtration of the water into the spoil pile will be prevented.

(5) The spoil and wastes shall be placed, compacted, covered, and graded to allow surface and subsurface drainage to be compatible with the natural surroundings, and to ensure long-term stability. The final configuration of the land must be suitable for land uses approved in accordance with § 177.104.

(6) The fill shall be designed using recognized professional standards and approved by a registered professional engineer.

(7) All organic material shall be removed from the disposal area and the topsoil must be removed and segregated before the surplus material is placed in the disposal area. However, if approved by the regulatory authority, organic material may be used as mulch or may be included in the topsoil.

(8) The fill shall not interrupt or encroach upon active drainage channels in a way that will impound water or cause an increase in suspended solids in the surface drainage outside the permit area over that existing before surface coal mining and reclamation operations.

(9) The fill shall be inspected for stability by a registered engineer or qualified professional specialist at least quarterly and during critical construction periods to assure removal of all organic material and topsoil, placement of underdrainage systems, and proper construction of terraces according to the

V 42 I 179 SEP 15 77 UMI

approved plan. The registered engineer shall provide a certified report, after each inspection that the fill has been constructed as specified by the design approved by the regulatory authority.

(b) *Disposal of spoil in valley or head-of-hollow fills.* Waste material must not be disposed of in valley or head-of-hollow fills. Spoil to be disposed of in natural valleys must be placed in accordance with the following requirements.

(1) The disposal areas shall be within the permit area, and they must be approved by the regulatory authority and be appropriately bonded.

(2) The disposal site shall be near the ridge top of valley selected to increase the stability of the fill and to reduce the drainage area above the fill.

(3) A system of underdrains constructed of durable rock shall be installed along the natural drainageways of the disposal area. The drainage system shall extend from the toe to the head of the fill and contain lateral drains to each area of potential drainage or seepage. In constructing the underdrains, a maximum of 10 percent of the rock must be less than 12 inches in size; however, no rock can be larger than 25 percent of the width of the drain. The minimum size of the main underdrain shall be:

Total amount of fill material	Predominant type of fill material	Minimum size of drain in feet	
		Width	Height
Less than 1 million yd³	Sandstone	10	4
Do	Shale	16	8
More than 1 million yd³	Sandstone	16	8
Do	Shale	16	16

(3) Spoil shall be placed and compacted to designed densities in lifts that are less than 4 feet thick.

(4) Terraces shall be constructed to stabilize the face of the fill. The height of each terrace shall not exceed 50 feet and the width shall not be less than 20 feet.

(5) The tops of the fill and each terrace shall be graded no steeper than lv:20*h* (5 percent) to drain surface water to the sides of the fill where stabilized surface channels shall be established off the fill to carry drainage away from the fill. Drainage shall not be directed over the face of the fill unless approved by the regulatory authority.

(6) All surface drainage from the undisturbed area above the fill shall be diverted away from the fill area into protected channels.

(7) The outslope of the fill shall not exceed lv:2*h* (50 percent). The regulatory authority may require a flatter slope because of the physical, climatological, and other characteristics of the site.

(8) The fill shall be inspected for stability by a registered engineer or qualified professional specialist at least quarterly and during critical construction periods to assure removal of all organic material and topsoil, placement of underdrainage systems, and proper construction of terraces according to the approved plan. The registered engineer shall provide a certified report, after each inspection, that the fill has been constructed and maintained as specified by the design approved by the regulatory authority.

§ 177.107 Topsoil handling.

To prevent topsoil from being contaminated by spoil and waste materials, the permittee or operator shall remove the topsoil as a separate operation from areas to be mined. Topsoil shall be immediately redistributed according to the requirements of paragraph (b) of this section on areas graded to the approved postmining configuration. If sufficient graded areas are not immediately available because of climatic conditions or size of the area on which topsoil can be distributed, the topsoil shall be segregated, stockpiled, and protected from wind and water erosion or contanimants which lessen its capability to support vegetation.

(a) *Topsoil removal.* (1) All topsoil to be salvaged shall be removed before drilling for blasting, blasting, or mining to prevent loss and contamination of the topsoil with undesirable materials. All topsoil shall be removed unless otherwise approved by the regulatory authority to provide for use of alternative soil horizon or to avoid retention of excessive B horizon material. Where the removal of topsoil results in erosion that may cause air or water pollution, the regulatory authority shall limit the size of the area from which topsoil may be removed at any one time and specify methods of treatment to control erosion of exposed overburden.

(2) Where the A horizon of the topsoil is identified by surveys and soil core (or equivalent) analyses to be of sufficient depth to permit separate removal and to be of high quality in terms of plant-growth medium or native-seed source, the regulatory authority shall require that the entire A-horizon be removed separately and segregated from the other soil horizons and replaced as the surface soil layer.

(3) Overburden may be used instead of, or as a supplement to, topsoil only where the available topsoil is of inadequate quantity or quality to sustain vegetation, and if all the following requirements are met:

(i) The permittee demonstrates that the overburden is more suitable for vegetation by the results of chemical and physical analyses, which shall include determinations of pH, percent organic matter, nitrogen, phosphorous, potassium texture class, water holding capacity, potential acidity or other analyses as required by the regulatory authority, and by the results of any field-site trials or greenhouse results required by the regulatory authority.

(ii) The chemical and physical analyses and the field-site trials are accompanied by a certification from qualified soil scientist.

(iii) The alternative overburden is removed, segregated, stockpiled, and replaced in conformance with this section.

(b) *Topsoil redistribution.* (1) After final grading and before the topsoil is replaced, regraded land shall be scarified or otherwise treated to eliminate slippage surfaces.

(2) Topsoil shall be redistributed in a manner that: (i) Achieves a uniform thickness throughout the regraded area. (ii) Prevents excess compaction of the spoil and topsoil; and (iii) Protects the topsoil from wind and water erosion before it is seeded or planted.

(3) Water erosion shall be minimized by spreading soil or finishing grading of soil along the contour, unless this action would be hazardous to equipment operators. Grading in a direction other than generally parallel to the contour shall be approved by the regulatory authority before final grading.

(c) *Topsoil storage.* If the permit allows storage of topsoil, the stockpiled topsoil shall be placed within the permit area where it will not be disturbed or be exposed to excessive water, wind erosion or contaminants which lessen its capability to support vegetation before it can be redistributed on terrain graded to final contour. If stockpiles are to be in place for more than 30 days, they shall be selectively placed and protected from wind and water erosion, unnecessary compaction, and contamination by undesirable materials either by a vegetation cover as defined in § 177.110(g) or by other methods that have been demonstrated to provide equal protection such as snow fences, chemical binders, and mulching. The regulatory authority may require more stringent standards if a high potential exists for loss of topsoil through erosion, and shall prohibit moving the topsoil once it is placed in a storage area until it is moved to a regraded area for redistribution.

(d) *Nutrients and soil amendments.* Nutrients and soil amendments in the amounts and analyses as determined by soil tests shall be applied to the topsoil to produce soil that will support the reclamation requirements of § 177.110.

§ 177.108 Protection of the hydrologic system.

The permittee shall plan and conduct coal mining and reclamation operations to minimize disturbance of and to prevent long-term changes in the prevailing hydrologic balance, on or off site. Changes in water quality and quantity, in the depth to ground water, or in the location of surface-water drainage channels will be limited to changes that do not violate applicable Federal and Tribal regulations and do not adversely affect the post-mining use of the disturbed lands. The permittee shall conduct all operations in such a way as to minimize water pollution and, where necessary, use treatment methods to control water pollution. Practices that will minimize pollution include but are limited to stabilizing disturbed areas through shaping and grading, diverting runoff, achieving quick growing stands of temporary vegetation, lining drainage channels with rock or vegetation, mulching topsoil, sealing off acid-forming and toxic-forming materials, and selectively placing

waste materials in backfill areas. If pollution can be controlled only by treatment, the permittee shall operate and maintain the necessary water-treatment facilities. However, the permittee shall emphasize mining and reclamation practices that will prevent or minimize water pollution in preference to water-treatment facilities.

(a) *Water-quality standards and effluent limitations.* All drainage from the disturbed area, including areas revegetated and not released from bond, shall be discharged through a settling pond, or a series of settling ponds. The regulatory authority may grant exemptions from this requirement only when the disturbed drainage area within the disturbed area is small and settling ponds are not necessary to meet water-quality standards and effluent limitations. Discharges from the entire permit area must meet all applicable Federal and Tribal water-quality standards and the following numerical effluent limitations:

Effluent characteristic	Maximum allowable [1]	Average of daily values for 30 consecutive discharge days [1]
Iron, total	7.0	3.5
Manganese, total	4.0	2.0
Total suspended solids	70.0	35.0
Hydrogen-ion concentration	Within the range 6.0 to 9.0.	.....

[1] Based on a representative sampling schedule.

(1) Any overflow or other discharge of surface water from the permit area that would result from an event larger than a 25-year 24-hour frequency event will not be subject to these effluent standards.

(2) The permittee shall install, operate, and maintain adequate facilities to treat any water discharge that violates the standards and limitations of this paragraph or other applicable standards. If the pH of discharged waters normally is less than 6.0, and the mine normally produces more than 500 tons of coal per operating day, an automatic lime feeder or other neutralization device approved by the regulatory authority shall be installed, operated, and maintained.

(b) *Surface-water monitoring.* (1) Equipment necessary to measure the quality and quantity of surface-water discharges from the permit area and to identify the effects of surface mining and reclamation operations on the surface water shall be installed, maintained, and operated, and shall be removed when no longer required. Total iron, total manganese, total suspended solids, pH, and flow must be measured on a daily basis whenever a discharge occurs unless it can be demonstrated to the satisfaction of the regulatory authority that different analyses are required. The regulatory authority may require additional analyses.

(2) Daily samples shall, for all discharges that occur for more than 1 hour (continuous or intermittent flow), be comprised of at least four samples representative of actual conditions, composited for a daily analysis. Chemical analysis must be performed as specified in 40 CFR Part 136. The results of these measurements shall be submitted to the regulatory authority on a monthly basis, but within 60 days of collection. However, if the discharge is subject to regulation by a Federal permit issued in compliance with section 301 of the Federal Water Pollution Control Act Amendments of 1972 (33 U.S.C. 1311), a copy of the completed reporting form supplied to meet the permit requirements may be submitted to the regulatory authority to satisfy the monitoring and reporting requirements of this paragraph, if the reported data meets the requirements of this paragraph. Violations of permit conditions must be reported to the regulatory authority immediately after receipt of analytical results by the permittee.

(c) *Diversion and conveyance of overland flow from disturbed areas.* In order to prevent acid and other toxic mine drainage from polluting surface and ground water and to minimize erosion, overland flow shall be diverted away from disturbed areas by means of temporary or permanent diversion structures, and the following requirements shall be met:

(1) Temporary diversion structures are those used during mining and reclamation. When no longer needed to protect disturbed areas, the structures shall be removed and the area reclaimed. They shall be constructed to safely pass the peak runoff from a precipitation event with a 10-year recurrence interval, or a larger event as specified by the regulatory authority.

(2) Permanent diversion structures are those remaining after mining and reclamation and approved for retention by the regulatory authority and other appropriate Tribal and Federal agencies. To protect fills and property and avoid danger to public health and safety, permanent diversion structures shall be constructed to safely pass the peak runoff from a precipitation event with a 100-year recurrence interval or a larger event as specified by the regulatory authority. Permanent diversions shall be constructed with gently sloping banks that are stabilized by vegetation. Asphalt, concrete, or other similar linings shall not be used unless specifically required to prevent seepage or to provide stability and are approved by the regulatory authority.

(3) Diversions shall be designed, constructed, and maintained in a manner that does not increase the total suspended solids leaving the permit area on a seasonal basis above those levels that existed before mining and in excess of requirements set by applicable Federal and Tribal law.

(4) Discharges from diversions that pass entirely through undisturbed areas shall meet applicable water-quality standards for the receiving streams. Discharges from diversions that pass through disturbed areas must comply with paragraph (a) of this section.

(5) Surface water shall not be diverted into underground mine workings unless it is demonstrated to the satisfaction of the regulatory authority that such diversion will abate water pollution or otherwise eliminate public hazards resulting from underground mining.

(d) *Stream channel diversions.* (1) Flow from perennial, intermittent, and ephemeral streams within the permit area may be diverted only when the diversions are approved by the regulatory authority and they are in compliance with Tribal and Federal law and approved regulations. When streamflow is allowed to be diverted, the new stream channel shall be designed and constructed to meet the following requirements:

(i) The average stream gradient shall be maintained and the channel designed to remain stable after mining and reclamation operations are completed.

(ii) Channel, bank, and flood-plain configurations shall be adequate to safely pass the peak runoff of a precipitation event with a 10-year recurrent interval for temporary diversions and a 100-year recurrence interval for permanent diversions; or larger events as specified by the regulatory authority.

(iii) Channel banks shall be protected from erosion by measures such as seeding, planting and applying riprap.

(iv) Fish and wildlife habitat and water and vegetation of significant value for wildlife food or shelter shall be protected in consultation with appropriate fish and wildlife management agencies.

(v) Diversions shall be designed, constructed, and maintained in a manner that does not increase the total suspended solids leaving the permit area on a seasonal basis above those levels that existed before mining. Applicable Tribal and Federal water quality standards shall be met.

(2) All temporary diversion structures shall be removed before release of applicable bonds unless the regulatory authority approves the retention of those structures.

(3) *Buffer zone.* No land shall be disturbed within 100 feet of an intermittent or perennial stream not approved for mining unless authorized by the regulatory authority. The area not to be disturbed shall be designated a buffer zone and marked with signs as specified in § 177.103.

(e) *Settling ponds.* Settling ponds shall be constructed in appropriate locations in each drainage area prior to any mining in that drainage area in order to control sedimentation or otherwise treat water in accordance with paragraph (a) of this section. These ponds may be used individually or in a series, and they shall meet the following criteria:

(1) The minimum storage volume shall equal the sum of: (i) The volume of runoff to be controlled from the drainage area above the settling pond that results from a 10-year 24-hour percipitation event;

(ii) 0.2 acre-feet of storage for each acre of disturbed area within the upstream drainage area; and

V 42 179 SEP 15 77 UMI

(iii) Additional storage as necessary to meet the effluent standards of paragraph (a) of this section.

(2) An appropriate combination of principal and emergency spillways shall be provided to safely discharge the peak runoff from a precipitation event with a 25-year recurrence interval, or larger event as specified by the regulatory authority.

(3) All settling ponds shall be examined for structural weakness, erosion and other hazardous conditions in accordance with inspection requirements contained in 30 CFR 77.216.3.

(4) All settling ponds shall be removed and the disturbed areas regraded, revegetated, and stabilized before release of applicable bonds unless the regulatory authority approves retention of the ponds.

(5) Sediment shall be removed from settling ponds when the volume of sediment accumulates to 50 percent of the sediment storage volume required in paragraph (e)(1) of this section. The sediment shall be disposed of in a way that prevents it from entering surface water, contaminating subsurface water, and causing adverse effects due to its chemical and physical characteristics on infiltration, vegetation, or water quality. Sediment that has been removed from settling ponds and that meets the requirements for topsoil may be redistributed over graded areas in accordance with § 177.107.

(6) Discharges from settling ponds shall meet the water-quality and effluent requirements of paragraph (a) of this section.

(7) If a settling pond includes an embankment that is more than 20 feet in height, as measured from the upstream toe of the embankment to the crest of the emergency spillway, or has a storage volume of 20 acre-feet or more, the following additional requirements shall be met:

(i) An appropriate combination of principal and emergency spillways shall be provided to safely discharge the runoff from the design storm as specified by the regulatory authority. This design storm shall not have a recurrence frequency of less than 50 years.

(ii) Ponds shall be designed and constructed with a safety factor of at least 1.5 for embankment slope stability.

(iii) The minimum top width of the embankment shall not be less than the quotient of $\frac{H+35}{5}$ where H is the height of the embankment as measured from the upstream toe to the top of the embankment.

(iv) Ponds shall have appropriate barriers to control seepage along conduits that extend through the embankment.

(8) All ponds shall be designed and constructed under the supervision of, and inspected and certified after construction for compliance with design requirements, by a registered professional engineer.

(f) *Discharge structures.* Discharges from settling ponds and diversions shall be controlled using available technology, such as energy dissipators, surge ponds, and other devices to reduce erosion and prevent deepening and enlargement of stream channels.

(g) *Acid and toxic materials.* Drainage from acid forming and toxic forming mine materials into ground and surface water must be prevented by:

(1) Identifying and burying in the permit area spoil and waste materials that can be toxic or otherwise harmful to vegetation and can adversely affect water quality. The material shall be buried with a minimum of 5 feet of nontoxic material or using other procedures in accordance with § 177.105. Material shall not be buried or stored within 100 feet of any perennial or intermittent stream, or used in construction of dams, embankments or roads or where they will pollute surface and ground water.

(2) Burying all material within 30 days, or less if specified by the regulatory authority. If necessary to store the material, piles shall be stored on impermeable material and protected from erosion and contact with surface water.

(3) Casing, sealing, or otherwise managing boreholes, shafts, wells, and auger or other horizontal holes to prevent pollution of surface or ground water, and to prevent mixing of ground waters of significantly different quality (unless mixing is approved by the regulatory authority). All boreholes that are within the permit area but are outside the surface coal mining area or which extend beneath the coal to be mined and into aquifers, shall be plugged permanently in a manner approved by the regulatory authority.

(4) Taking such other actions as required by the regulatory authority.

(h) *Recharge capacity of reclaimed lands.* The disturbed area shall be reclaimed to restore approximate premining infiltration rates and to restore the ability of the reclaimed area to transmit water to the ground-water system. All available measures shall be used to ensure that the recharge capacity of the reclaimed land will support the approved postmining use of the land.

(i) *Restoration of ground-water systems.* Backfilled materials shall be selectively placed to reestablish ground-water systems to approximate premining conditions.

(j) *Alluvial valley floors west of the 100th meridian west longitude.* (1) Essential elements of the hydrologic functions of alluvial valley floors shall be preserved throughout the mining and reclamation process by maintaining or establishing:

(i) The gradient of streams;

(ii) Aquifers, aquicludes, capillary zones, and perched water zones;

(iii) Quantity and quality of surface and ground water;

(iv) Depth to, and seasonal fluctuations of, ground water where ground water supports a subirrigated vegetation system;

(v) Configuration and stability of the land surface in the flood plain as they allow or facilitate irrigation with flood waters and maintain erosional equilibrium; and

(vi) Soil profiles, including physical and chemical characteristics of the substrate (or plant-growth medium) which provide moisture holding capacity and thereby provide for sustained vegetation growth through the dry months.

(2) Surface mining and reclamation operations conducted in or adjacent to alluvial valley floors located west of the 100th meridian west longitude shall not interrupt, discontinue, or preclude farming on these alluvial valley floors unless the permining lands use of such alluvial valley floors has been undeveloped rangeland with no regular cropping of hay or unless the area of the affected alluvial valley floor is of small acreage and provides negligible support for one or more farmer's production. This subparagraph (2) does not apply to those surface coal mining operations that:

(i) Were in production in the year preceding August 3, 1977, were located in or adjacent to an alluvial valley floor, and produced coal in commercial quantities in the period identified in this paragraph; or

(ii) Had specific permit approval by the Bureau of Indian Affairs before August 3, 1977, to conduct surface coal mining operations for an area within the affected alluvial valley floor.

(3) Before new surface mining and reclamation operations which may be authorized under subparagraph (2) of this paragraph are commenced, the permittee shall submit and the regulatory authority shall approve detailed surveys and baseline data to establish standards against which the requirements of subparagraph (1) of this paragraph can be measured. The surveys and data shall include:

(i) A map at a scale determined by the regulatory authority showing the location of the alluvial valley floor.

(ii) Baseline data covering a full water year for each of the hydrologic elements identified in subparagraph (1) of this paragraph.

(iii) Such other data as the regulatory authority may require.

(k) *Ground-water monitoring.* Ground-water levels and quality of the ground water shall be monitored as approved by the regulatory authority, to determine the effects of surface coal mining operations on ground water. When mining is done below the water table, the water levels shall be monitored in representative ground-water wells within the area which may be influenced by the mining or in such other wells that can adequately reflect changes in water levels. Where existing wells are inadequate to measure long-term changes, the permittee may be required by the regulatory authority to drill and complete wells to measure water quantity and quality in the permit area. When determined necessary by the regulatory authority, the permittee also may be required to drill and complete wells to measure water levels on and off site subject to surface owner consent. These wells must monitor all aquifers that may be affected by mining.

(l) *Hydrologic impacts of roads.*—(1) *General.* Access and haul roads and associated bridges, culverts, ditches, and road rights-of-way shall be constructed, maintained and reclaimed so as to control diminution or degredation of water quantity and quality. The land over which roads are constructed for surface coal mining and reclamation operations shall be reclaimed in accordance with this part, unless retention of a road is approved under § 177.104, as being an integral and contributing part of the postmining use of the land.

(2) *Construction.* (i) All roads, insofar as possible, shall be located on benches, ridges, or flatter and more stable slopes to minimize erosion. Stream fords are prohibited unless they are specifically approved by the regulatory authority as temporary routes across dry streams unrelated to coal haulage. Roads shall not be located in stream beds; nor shall they be located within the 100-year flood plain of any stream unless it can be demonstrated that the roads will not restrict the flow of the base flood (a flood that has a 1 percent or greater chance of occurring in any year), nor increase erosion or cause significant sedimentation or flooding. However, nothing in this paragraph will be construed as prohibiting relocation of stream channels in accordance with paragraph (d) of this section.

(ii) In order to minimize erosion and subsequent hydrologic disturbances, roads shall be constructed in compliance with the following grade restrictions, or other grade determined by the regulatory authority to be necessary to control erosion:

(A) The overall sustained grade shall not exceed $1v{:}10h$ (10 percent).

(B) The maximum grade greater than 10 percent shall not exceed $1v{:}6.5h$ (15 percent) for more than 300 feet.

(C) There shall not be more than 300 feet of maximum grade within each 1,000 feet.

(iii) All access and haul roads shall be adequately drained using structures such as, but not limited to, ditches, water barriers, cross drains, and ditch-relief drains. For access and haul roads that are to be maintained for more than 1 year, water-control structures shall be designed with a discharge capacity capable of passing the peak flow from a 25-year 24-hour precipitation event. Drainage pipes and culverts shall be constructe to avoid plugging or collapse and erosion at inlets and outlets. Drainage ditches shall be provided at the toe of all cut slopes formed by the construction of roads. Trash racks and debris basins shall be installed in the drainage ditches wherever debris from the drainage area could impair the functions of the structures. Ditch relief and cross drains shall be spaced according to grade. Drainage from access and haul roads shall meet the water-quality requirements of this section.

(iv) Access and haul roads shall be surfaced with durable material. Toxic- or acid-forming substances shall not be used in the surface material. Vegetation may be cleared only for the essential width necessary for road and associated ditch construction and to serve traffic needs.

(3) *Maintenance.* (i) Access and haul roads shall be routinely maintained by measures such as, but not limited to, wetting, scraping, or surfacing.

(ii) Ditches, culverts, drains, trash racks, debris basins, and other structures serving to drain access and haul roads shall not be restricted or blocked in any manner that impedes drainage or adversely affects the intended purpose of the structure.

(m) *Hydrologic impacts of other transport facilities.* Railroad loops, spurs, siding or other transport facilities shall be constructed, maintained and reclaimed so as to control diminution or degradation of water quantity or quality.

§ 177.109 Dams constructed of refuse materials general.

(a) No mine or processing refuse materials shall be used in existing or new dams without the approval of the regulatory authority. The permittee or operator shall design, locate, construct, operate, maintain, modify, abandon, and remove all dams (used either temporarily or permanently) when constructed of mine refuse materials, tailings, coal processing wastes, or other liquid or solid wastes in accordance with the requirements of this section.

(b) *Definitions—Refuse materials.* Coal mine waste materials excavated or removed during surface coal mining and reclamation operations or separated from mined coal. The material may be a mixture of coal, slack coal, or waste coal; organic material; shale, claystone, sandstone, siltstone, or limestone, or related materials.

Sefety factor. The ratio of the available shear strength to the developed shear stress on a potential surface of sliding determined by accepted engineering practice.

(c) *Dams constructed of refuse materials.* (1) Refuse shall not be used in the construction of dams unless demonstrated to have no adverse effect on stability.

(2) Plans for dams or impoundments shall be approved by the regulatory authority before construction and shall contain the minimum plan requirements established by the Mining Enforcement and Safety Administration pursuant to 30 CFR 77.216.2.

(3) Dams and impoundments subject to this paragraph shall meet the following requirements:

(i) Design of impoundments shall be based on the flood from the probable maximum precipitation event unless the permittee shows that the failure of the impounding structure would not cause loss of life or severe property or environmental damage, in which case a design based on a minimum flood event of 100-year frequency may be approved by the regulatory authority. An intermediate-sized design flood may be required depending on site condition.

(ii) The design freeboard distance between the lowest point on an impounding structure and the maximum water elevation shall be at least 3 feet to avoid overtopping by wind and wave action.

(iii) Impounding structures shall have minimum stability factors as follows:

Case	Loading condition	Minimum safety factor
I	End of construction	1.2
II	Partial pool with steady seepage saturation.	1.5
III	Steady seepage from spillway or decant crest.	1.5
IV	Earthquake (cases II and III with seismic loading).	1.0

(iv) The dam, foundation, and abutments shall be stable under all conditions of construction and operation of the impoundment. Sufficient foundation investigations and laboratory testing shall be performed to determine the factors of safety of the dam for all loading conditions in subparagraph (3)(iii) of this paragraph and for all increments of construction.

(v) Seepage through the dam, foundation, and abutments shall be controlled to prevent excessive uplift pressures, internal erosion, sloughing, removal of material by solution, or erosion of material by loss into cracks, joints, and cavities. This may require the use of impervious blankets, pervious drainage zones or blankets, toe drains, or relief wells.

(vi) Allowances shall be made for settlement of the dams and the foundation so that the required freeboard will not be diminished.

(vii) Impoundments created by dams of refuse materials shall be subject to a minimum drawdown criteria that allows the facility to be evacuated by spillways or decants of 90 percent of the volume of water stored during the design precipitation event within 10 days.

(viii) Closed-circuit coal waste shall not be used in dams constructed of refuse materials unless demonstrated to maintain or enhance dam stability.

(ix) During construction of dams subject to this paragraph, the structures shall be periodically inspected by a registered professional engineer to ensure construction according to appropriate designs and upon completion of construction, the structure shall be certified as having been designed in accordance with accepted professional policies by a registered professional engineer.

(x) A permanent identification marker, at least 6 feet high and showing the dam number assigned pursuant to 30 CFR 77.215–1, and the name of the person operating or controlling the dam shall be located on or immediately adjacent to each dam within 30 days of certification of design pursuant to this section.

V 42 179
SEP 15 77
UMI

(4) All dams shall be routinely inspected by a registered professional engineer in accordance with MESA regulations pursuant to 30 CFR 77.216–3.

(5) All dams shall be routinely maintained. Vegetative growth shall be cut where necessary to facilitate inspection and repairs, ditches and spillways cleaned, any combustible materials present on the surface removed, and any other appropriate maintenance procedures follows.

(6) All dams subject to this section shall be recertified annually as having been constructed and modified in accordance with current prevalent engineering practices to minimize the possibility of failures. Any changes in the geometry of the impounding structure shall be included in the annual recertification report. The certification will include a report on existing and required monitoring procedures and instrumentation, the average and maximum depths and elevations of any impounded waters over the past year, existing storage capacity of impounding structures, any fires occurring in the material over the past year, and any other aspects of the structures affecting their stability.

(7) Any enlargements, reductions in size, reconstruction or other modification of dams shall be approved by the regulatory authority.

(8) All refuse dams shall be removed and the disturbed areas regarded, revegetated, and stabilized prior to the release of bond unless the regulatory authority approves retention of such dams as being compatible with an approved postmining land use (§ 177.104).

§ 177.110 Revegetation.

(a) *General.* (1) The permittee shall establish on all land that has been disturbed, a diverse, effective, and permanent vegetative cover of species native to the area of disturbed land or species that will support the planned postmining uses of the land approved according to § 177.104.

(2) Revegetation shall be carried out in a manner that encourages a prompt vegetation cover and recovery of productivity levels compatible with approved land uses. The vegetation cover shall be capable of stabilizing the soil surface with respect to erosion. All disturbed lands shall, regardless of the approved postmining land use, be seeded or planted to achieve a vegetation cover of the same seasonal varieties when it consists of disturbed land. If both the pre- and postmining land use is intensive agriculture, planting of crops normally grown will meet the requirement. Vegetation cover will be considered of the same seasonal varieties when it consists of a mixture of species of equal or superior utility for the intended land use when compared with the utility of naturally occurring vegetation during each season of the year.

(b) *Use of introduced species.* Introduced species may be substituted for native species only if appropriate field trials have demonstrated that the introduced species will be of equal or superior utility for the approved postmining land use, or is necessary to achieve a quick, temporary and stabilizing cover. Introduced species shall meet applicable Tribal and Federal seed or introduced species statutes, and may not include poisonous or potentially toxic species incompatible with the approved postmining land use.

(c) *Timing of revegetation.* Seeding and planting of land that has been regraded and the topsoil replaced shall be conducted during the first normal period for favorable planting conditions after final grading. The normal period for favorable planting shall be that planting time generally accepted locally to meet specific site conditions and climate. Any disturbed areas, except water areas and surface areas of haul roads, which have been graded shall be planted with a temporary cover of small grains, grasses, or legumes at a commensurate level with that needed to establish adequate cover to control erosion. When rills or gullies, that would preclude the successful establishment of vegetation or the achievement of the postmining land use form in regraded topsoil and overburden materials as specified in § 177.105, additional regrading or other stabilization practices will be required before seeding and planting.

(d) *Mulching.* Mulch means vegetation residues or other suitable materials that aid in soil stabilization and soil moisture conservation, thus providing climate conditions suitable for germination and growth, and do not interfere with the postmining use of the land. Mulches shall be anchored to the soil surface where appropriate to ensure effective protection of the soil and vegetation. The minimum amounts of mulch to be applied per acre are: for straw or hay, 2,000 pounds; for wood fiber, 1,000 pounds; for bark materials, 30 cubic yards. If the permittee can demonstrate that other wood products, composted waste, or other materials are more suitable for achieving successful revegetation and erosion control, the regulatory authority may authorize substitution of such other materials. Mulch shall be used on all regraded and topsoiled areas to control erosion, to promote germination of seeds, and to increase the moisture retention of the soil. Annual grains such as oats, rye, and wheat may be used instead of mulch when it is shown to the satisfaction of the regulatory authority that the substituted grains will provide adequate stability and that they will later be replaced by species approved for the postmining land use.

(e) *Method of revegetation.* (1) The permittee shall use technical publications or the results of laboratory and field tests approved by the regulatory authority to determine the varieties, species, seeding rates, and soil amendment practices essential for establishment and self-regeneration of vegetation. The revegetation procedures shall be designed to require only that degree of fertilization and maintenance procedures required to meet the standards of this section for the approved postmining use of the land.

(2) Where hayland, pasture, or rangeland is to be the postmining land use, the land shall be revegetated to the satisfaction of the regulatory authority. The species of grasses, legumes, or forbs for seeding or planting shall be selected by the permittee to provide a diverse, effective, and permanent vegetation cover with the seasonal variety, succession, and regeneration capabilities native to the area. Livestock grazing will not be allowed on reclaimed land until the seedlings are established and can sustain managed grazing. The regulatory authority, in consultation with the surface owner and permittee, shall determine when the revegetated area is ready for livestock grazing. When hoofed wildlife populations are large enough to cause damage, grazing by such wildlife must be controlled by appropriate methods until the seedlings are well established and can sustain normal grazing. The regulatory authority shall determine when the revegetated area is ready for wildlife grazing.

(3) Where an agricultural use that will require using tillage equipment such as plows, cultivators, and tractors is to be the postmining land use, the permittee shall use adequate erosion and sediment control practices approved by the regulatory authority.

(4) Where forest is to be the postmining land use, the permittee shall plant trees adapted for local site conditions and climate in combination with an herbaceous cover of grains, grasses, legumes, or forbs that provide a diverse, effective, and perment vegetation cover with the seasonal variety, succession, and regeneration capabilities native to the area.

(5) Where wildlife habitat is to be included in the postmining land use, the permittee shall consult with appropriate Tribal and Federal wildlife management agencies and, upon the approval of the regulatory authority, shall select species to be seeded or planted. The permittee shall select those species that will fulfill the needs of wildlife, including food, water, cover, and space, and shall space and distribute plant groupings and water resources to fulfill the requirements of wildlife.

(6) Where development of residential, recreational, industrial, or public service uses is to be the postmining land use, the lands must be revegetated initially according to paragraph (a) of this section. Final revegetation requirements must be approved by the regulatory authority.

(f) *Standards for measuring success of revegetation.* (1) The revegetation standards in the following table are minimum requirements for revegetation of disturbed areas.

Standards for revegetation

[Herbaceous species=grass, legumes, and nonleguminous forbs; woody plants=woody shrubs, trees, and vines; ground cover=area covered by the combined aerial parts of plants and litter that are produced naturally on site, expressed as a percentage of the total area of measurement]

A. Areas planted only in herbaceous species (percent ground cover of herbaceous species at the end of the growing season)

Average annual precipitation, in inches	1 yr	5 yrs	10 yrs
Up to 10	6	8	10
10.1 to 16	10	20	30
16.1 to 26	20	30	40
More than 26	50	70	NA

B. Areas planted to mixtures of herbaceous and woody species (percent ground cover of herbaceous species and number of plants per acre of woody species at the end of the growing season)

Average annual precipitation, in inches	1 yr		5 yrs		10 yrs	
	Percent ground cover	Number of woody plants per acre	Percent ground cover	Number of woody plants per acre	Percent ground cover	Number of woody plants per acre
Up to 10	6	2,500	5	2,000	4	1,500
10.1 to 16	7	800	10	800	15	1,000
16.1 to 26	20	400	25	400	30	400
More than 26	40	600	50	1 400	NA	NA

1 On steep slopes, the minimum number of woody plants must be increased to 600 per acre.

(2) (i) When revegetation requirements are based on returning the permit lands to premining land uses of hayland, pasture, wildlife habitat, or rangeland, the regulatory authority may also require the permittee to set aside and fence exclosures of land not to be disturbed by mining activity or domestic livestock. These exclosures, which must be representative of geology, soils, slope, aspect, and vegetation in the permit area, will be used to estimate normal vegetation productivity, plant cover, species, plant succession, and plant self-regeneration. The regulatory agency shall approve the estimating techniques used to judge the degree of success achieved in the revegetated areas. These exclosures and estimations may be required before revegetation procedures are approved.

(ii) When exclosures are required, the degree of progress and success in revegetating shall, at a minimum, meet the standards in the following table. More stringent standards may be established by the regulatory authority based on natural conditions in the area. The permittee and the regulatory authority shall use those standards as guides to indicate potentials for ultimate revegetation success and to determine whether remedial measures are necessary to improve chances for success.

Standards for revegetation when exclosures are required

[Ground cover=area covered by the combined aerial parts of plants and litter that are produced naturally on site, expressed as a percentage of the total area of measurement; biomass yield=the total yield of living plants above ground in an area at the end of the growing season]

Average annual precipitation, in inches	End of growing season—		
	1 yr	5 yr	10 yr
A. Number of adapted species in revegetated areas			
Up to 10	3	12	15
10.1 to 16	6	14	20
16.1 to 26	6	20	25
More than 26	8	25	30
B. Ground cover of perennial plants expressed as a percent of the ground cover in the exclosures			
Up to 10	90	80	85
10.1 to 16	70	80	85
16.1 to 26	70	80	90
More than 26	80	90	NA
C. Biomass yield of perennial plants expressed as a percent of the biomass yield in the exclosures			
Up to 10	90	80	80
10.1 to 16	70	80	85
16.1 to 26	70	80	90
More than 26	80	90	NA

(g) *Seeding of stockpiled topsoil.* Topsoil stockpiled in compliance with § 177.107 must (if not to be redistributed within 30 days) be seeded or planted with an effective cover of nonnoxious, quick growing annual and/or perennial plans or protected by other approved measures as specified in § 177.107.

§ 177.111 Steep-slope mining.

(a) The permittee conducting surface coal mining and reclamation operations on natural slopes that exceed 20 degrees, or on lesser slopes that require measures to protect the area from disturbance, as determined by the regulatory authority after consideration of soils, climate, the method of operation, and other regional characteristics, shall meet the following performance standards. The standards of this section do not apply where mining is done on a flat or gently rolling terrain with an occasional steep slope through which the mining proceeds and leaves a plain or predominantely flat area; or where the mining removes entire coal seams running through the upper fraction of a mountain, ridge, or hill by removing all of the overburden and creating a lever plateau or gently rolling contour.

(1) Overburden or waste materials or debris, including that from clearing and grubbing, and abandoned or disabled equipment, shall not be placed or permitted to remain on the downslope. Material in excess of that required to meet the provisions of § 177.105 must be disposed of in accordance with the requirements of § 177.106.

(2) First-cut overburden shall be stored within the permit area. The storage piles must be designed and constructed to minimize erosion and to maximize stability. Any material temporarily stored for more than 30 days must be protected by an effective cover of nonnoxious, quick-growing annual and/or perennial plants or other approved means as specified in § 177.110.

(3) Where the backfilled slope is 50 feet or more in length, terraces when approvided by the regulatory authority, shall be sloped to safely and quickly discharge runoff water to stable drainage channels located off the fill area and must be constructed to meet the requirements of §§ 177.105(c) and 177.108.

(4) Woody materials that can cause instability must not be mixed into the backfill.

§ 177.112 Inspections.

(a) *Extent.* The authorized representatives of the Secretary shall conduct inspections of surface coal mining operations subject to regulations under the Act.

(1) On the basis of information provided by a Tribe or any person which gives rise to a reasonable belief that the provisions of the Act, regulations, or per-

V 42 I 179 SEP 15 77 UMI

mit condition required by the Act are being violated, or that a condition or practice exists which creates an imminent danger to the health or safety of the public, or is causing, or can reasonably be expected to cause significant, imminent environmental harm to land, air, or water resources; and

(2) On a random basis of at least one complete inspection each 6 months. A complete inspection is an onsite review of the entire area disturbed or effected by mining.

(b) *Right of entry.* (1) Authorized representatives of the Secretary, without advance notice and upon presentation of appropriate credentials and without a search warrant, shall have the right of entry to, upon, or through any surface coal mining and reclamation operations or any premises in which any records to be maintained are located.

(2) The authorized representatives may at reasonable times, and without delay, have access to and copy any records, inspect any monitoring equipment or method of operation required under this Act, the regulations, or the permit.

(c) *Inspections based on citizen requests.*—(1) *Citizen reports.* (i) Any person who suspects or knows of a violation of the Act, regulations, or permit conditions required by the Act or of any imminent hazard may report this information in writing to the Office of Surface Mining Reclamation and Enforcement office nearest to the surface coal mining operation to which the information relates or to any other Office of Surface Mining Reclamation and Enforcement office. Written complaints must be signed and include a phone number where the complaining party can be contacted. The complaint or other information shall be considered as having a reasonable basis if it alleges facts which, if proven to be true, would be sufficient to show a violation of the Act, regulations, or permit. Unless the Office has reason to believe that the information is incorrect, or determines that even if true it would not constitute a violation, the Office shall conduct an inspection.

(ii) The identity of any person supplying information to the Office relating to possible violations or imminent hazards shall remain confidential within the Office unless the person supplying the information consents in writing to disclosure.

(2) *Right to accompany the authorized representative of the Secretary.* (i) If a Federal inspection is conducted as a result of information provided to the Office, the person who provided the information shall be notified when the inspection is to occur and the person will be allowed to accompany the authorized representative during the inspection.

(ii) Any person accompanying an authorized representative of the Secretary has a right of entry to, upon and through the mining and reclamation operations about which he supplied information only if he is in the presence of and is under the control, direction, and supervision of the authorized representative while on the mine property.

(3) *Notification of results of investigation.* Within 10 days of the inspection or, if no inspection, within 10 days of the compalint, the Office shall notify the person in writing of the following—

(i) The results of the investigation, including a description of any inspection which occurred and any enforcement action taken; copies of Federal inspection reports, notices of violation, and cessation orders may be forwarded to the person in satisfaction of this requirement.

(ii) If no inspection was conducted, an explanation of the reason for not inspecting.

(iii) A statement as to the person's right to informal review of the actions or inactions of the Office.

(iv) *Review of action of local offices.* A person who does not agree with the action taken by the Office on his report may request the Regional Director to review the complaint and actions taken. The Regional Director shall advise the person in writing of the results of the review.

(d) *Failure to give notice and lack of reasonable belief.* No notice of violation or cessation order may be vacated by reason of failure to give notice required by the Act prior to the inspection or by reason of a subsequent determination that prior to the inspection the Office did not have information sufficient to create a reasonable belief that a violation had occurred.

(e) *Tribal involvement.* (1) Whenever an authorized representative of the Secretary decides to conduct an inspection of any coal mining operation or any premises in which any records to be maintained are located, the appropriate representative of the local governing Indian Tribe shall be notified and invited to accompany the Secretary's representative on such an inspection.

(2) An Indian Tribe, or its authorized representatives, shall be entitled to all the protections of paragraph (c) of this section.

§ 177.113 Enforcement procedures.

(a) *Imminent hazards.* (1) If an authorized representative of the Secretary finds conditions, or practices, or violations of applicable performance standards, which create an imminent danger to the health or safety of the public the authorized representative shall immediately order a cessation of surface coal mining and reclamation operations or the portion thereof relevant to the condition, practice, or violation.

(2) If an authorized representative of the Secretary finds conditions or practices, or violations of applicable performance standards, which can reasonably be expected to cause significant, imminent environmental harm to land, air, or water resources, the authorized representative shall immediately order a cessation of surface coal mining and reclamation operations or the portion thereof relevant to the condition, practice, or violation.

(3) An authorized representative of the Secretary shall impose affirmative obligations on an operator which the authorized representative deems necessary to abate the condition, practice or violation if:

(i) A cessation order is issued under subparagraph (1) or (2) of this paragraph; and

(ii) The cessation of mining or reclamation activities will not completely abate the imminent danger to public health or safety or the significant, imminent environmental harm or eliminate the practices or conditions that that contributed to the imminent danger or significant, imminent environmental harm.

(4) When imposing affirmative obligations under this subsection, the authorized representative shall require abatement of the danger or harm in the most expeditious manner physically possible. The affirmative obligation shall include a time by which abatement shall be accomplished and may include, among other things, the use of existing or additional personnel and equipment.

(5) An authorized representative of the Secretary may terminate a cessation order issued under subparagraph (1) or (2) of this paragraph by written order when the authorized representative of the Secretary determines that the conditions or practices or violations which caused the danger to life or the environment have been eliminated.

(b) *Non-imminent hazard violations.* (1) If an authorized representative of the Secretary finds a violation which is not an imminent hazard, the authorized representative shall issue a notice of violation fixing a reasonable time for abatement.

(2) An authorized representative may extend the time to abate a violation by written notice if the failure to abate within the time set was not caused by the permittee's or operator's lack of diligence.

(3) The total time for abatement as originally fixed and subsequently extended shall not exceed 90 days.

(c) *Failure to abate.* An authorized representative of the Secretary shall order cessation of surface coal mining and reclamation operations, or the portion relevant to the violation, when the authorized representative has issued a notice of violation under paragraph (b) of this section determines that the permittee or operator has failed to abate the violation within the time originally fixed or subsequently extended. In a cessation order issued under this subsection, the authorized representative shall impose affirmative obligations to abate the violation in the manner provided in paragraph (a) of this section.

(d) *Service of notice.* Notices and orders issued under this part shall be given to the permittee or operator or his designated agent. If no designated agent is at the mine site, service will be made upon any person who appears to be in charge of the mining or reclamation operation. The person receiving service shall be responsible for any immediate compliance actions required by the notice or order. Service is complete on delivery at the mine. However, a copy of each notice or order shall be mailed to the permittee or operator within 5 days.

(e) *Review of the minesite of cessation orders.* (1) Within 30 days after the permittee or operator has received any cessation order issued under this part, the District Manager or his delegate shall conduct an informal hearing at the minesite or within such reasonable proximity to the mine that it may be visited during the conduct of the hearing. No hearing will be required where the condition, practice or violation in question has been abated or the operator waives the hearing.

(2) Any request made to the Office of Surface Mining Reclamation and Enforcement for a substantial modification or vacation of a cessation order shall be deemed a request for an informal hearing under this section.

(3) Notice of the time, place and subject matter of the hearing shall be given to the operator or permittee, any citizen who filed a report which led to the cessation order to be reviewed, and appropriate officials of the local governing Indian Tribe. Notice of the hearing also shall be posted at the appropriate district or field office and at the mine site and, to the extent possible, shall be given by newspaper in the area of the mine.

(4) The requirements of section 554 of Title 5 of the United States Code shall not govern the conduct of the hearings required by this section. The District Manager or his delegate may accept oral or written arguments, presentations of evidence, or any other relevant information from any person attending.

(5) The District Manager or his delegate shall within 15 days of the close of the informal hearing affirm, modify or vacate the order. The decision shall be in writing and shall be sent to the permittee or operator, any citizen who filed a report which led to the cessation order reviewed and the appropriate agency of the local governing Indian Tribe.

(6) Informal review under this subsection shall not affect the rights of any person to request formal review as provided in section 525(a)(1) of the Act. A request for informal review shall not affect the 30 day time period for filing a request for formal review.

(f) *Inability to comply.* (1) Neither a notice of violation nor a cessation order issued under this part may be vacated because of inability to comply.

(2) A permittee or operator may not be deemed to have shown good cause for not suspending or revoking a permit by showing inability to comply.

(3) Unless caused by a lack of diligence, inability to comply may be considered in mitigation of the amount of a Civil penalty under § 177.114 and of the duration of the suspension of revocation of the permit under paragraph (g) of this section.

(g) *Pattern of violations.* (1) The regulations of this section set forth the procedures governing the suspension or revocation of permits based on a pattern of violations arising during Federal inspections during the initial regulatory program.

(2) *Definitions.* As used in this section:

(i) *"Violations of the same or related requirements of the Act, regulations or permit conditions"* means noncompliance with any single section of this part.

(ii) *"Violations of different requirements of the Act, regulations or permit conditions"* means noncompliance with different sections of this part.

(iii) *"Unwarranted failure to comply"* means the failure of a permittee to prevent the occurrence of any violation of his permit or any requirement of the Act or these regulations due to indifference, lack of diligence, lack of reasonable care, or the failure to abate any violation of such permit, the Act or regulations due to indifference, lack of diligence, or lack of reasonable care.

(iv) *"Willful violation"* means an intentional action or omission which violates the Act, regulations or permit conditions required under the Act.

(3) *Order to show cause.* (i) If a Regional Director of the Office determines that a pattern of violations exists or has existed and that such violations are caused by the unwarranted failure of the permittee or were willfully caused, the Regional Director shall issue an order to the permittee to show cause why the permit should not be suspended or revoked.

(ii) The Regional Director may determine that a pattern of violations exists, or has existed, after considering the circumstances, including:

(a) The number of willful violations or violations caused by unwarranted failure to comply with the same or related requirements of the Act, regulations or permit conditions during 2 or more Federal inspections.

(b) The number of willful violations or violations caused by unwarranted failure to comply with different requirements of the Act, regulations or permit conditions.

(c) The extent to which the violations were isolated departures from lawful conduct.

(iii) The Regional Director shall deem a pattern to exist if the number of willful violations or violations caused by unwarranted failure to comply with the Act, regulations or permit conditions is at a rate of 50 percent above the national norm during two months of any four month period. The national norm will be determined by comparing the number of willful and unwarranted violations issued per inspection day to permittees in the initial regulatory period. The norm will be determined semi-annually and the norm for the preceding half year will be utilized in determining whether a pattern exists. The national norm may be computed by a sampling or other statistically-valid method when the data exists for the computation.

(4) *Suspension or revocation of permit.* (i) The order to show cause shall be issued and a public hearing, if requested, shall be conducted under the procedures of 43 CFR Part 4.

(ii) If he Secretary finds that a pattern of violations exists or has existed, the permit shall be either suspended or revoked and the permittee directed to complete necessary reclamation operations.

(h) *Other remedies preserved.* No provision in this section shall be interpreted as replacing or superseding any other remedies of the Indian mineral owner as set forth in the contract or otherwise available at law.

§ 177.114 Civil penalties.

(a) *Scope.* This section covers the assessment of civil penalties for violations of a permit condition, or any provision of the regulations in this subpart. This section governs when a civil penalty is assessed and how the amount is determined and sets forth applicable procedures. This section applies to cessation orders and notices of violation issued to permittees or operators under § 177.113 during a Federal inspection.

(b) *When assessment made.* (1) The Office will review each notice of violation and cessation order issued in accordance with the assessment procedures described in this section to determine whether a civil penalty will be assessed, the amount of the penalty and whether each day of a continuing violation will be deemed a separate violation for purposes of the total penalty assessed.

(2) The Office shall assess a civil penalty for each violation contained in a cessation order. If a cessation order is issued for a condition or practice which is not a violation, no civil penalty shall be assessed.

(3) In determining whether to assess a civil penalty the Office shall consider:

(i. The permittee or operator's history of previous violations at the particular coal mining operation;

(ii) The seriousness of the violation;

(iii) Whether the permittee or operator is negligent; and

(iv) The demonstrated good faith of the permittee or operator in attempting to achieve rapid compliance after notification of the violation. The Office shall make this determination by use of a point system described in paragraph (c) of this section.

(c) *When to assess after a notice of violation.*—(1) *General.*—The Office determines whether to assess a penalty following the issuance of a notice of violation by a point system that takes into account the four criteria in paragraph (b)(3) of this section. Points are assigned based on each of the four criteria. If the total is more than 30 points, a penalty is assessed.

(2) *History of previous violations.* The Office shall assign one point for each past violation and five points for each past cessation order issued as a result of a violation up to a maximum of 30 points. Each violation which underlies a cessation order shall be counted separately from the cessation order itself. Violations and cessation orders which

V 42 179 SEP 15 77 UMI

shall be counted are those, resulting from a Federal inspection, that have not been vacated or dismissed at the time of the assessment being computed and that occurred or were issued within the year preceding the violation under consideration. The Office shall count each violation without regard to whether it led to a civil penalty assessment.

(3) *Seriousness.* The Office shall assign up to 30 points based on the seriousness of the violation according to the following schedules.

(i) *Probability of occurrence.* The probability of the occurrence of the event against which a standard is directed may account for a maximum of 15 penalty points. The Office shall use the following definitions and schedules.

(A) Probability of occurrence:

	Points
None or insignificant	0–5
Unlikely	5–10
Likely	10–15
Occurred	15

(ii) *Extent of potential or actual damage.* The extent of the potential or actual damage in terms of area and impact on the public or environment may account for a maximum of 15 penalty points based on the following—

(A) If the damage or impact against which the standard violated is designed to protect would remain within the permit area (or in the case of a deep mine, the area of surface structures), the Office shall assign zero to seven points depending on the duration and extent of the damage or impact.

(B) If the damage or impact, against which the standard violated is designed to protect would extend outside the permit area (or in the case of a deep mine, the area of surface structures), the Office shall assign eight to fifteen points depending on the duration and extent of the damage or impact.

(C) The Office shall assign up to 15 points for seriousness for any failure to keep records, to give notice or to conduct any measuring or monitoring required by the regulations or a permit based upon the extent to which enforcement is obstructed. If the method of assigning points for seriousness under subdivision (i) and (ii) of this subparagraph produces more points, the higher points shall be assigned.

(4) *Negligence.* (i) The Office shall assign up to 25 points based on the negligence of the permittee or operator, either through act or omission, in causing or failing to correct the condition or practice which is a violation. A violation which occurs through no negligence shall not be assigned penalty points for negligence. A violation which is caused by negligence shall be assigned 12 points or less depending on the degree of negligence. A violation which occurs through a greater degree of fault than negligence shall be assigned 13 through 25 penalty points depending on the degree of fault.

(ii) In determining the degree of negligence involved in a violation and the number of penalty points to be assigned, the following definitions apply—

(A) *No negligence* means an inadvertent violation of the regulations or permit conditions which was unavoidable by the exercise or reasonable care.

(B) *Negligence* means the failure of a permittee or operator to prevent the occurrence of any violation of his permit or any requirement of the regulations due to indifference, lack of diligence, or lack of reasonable care, or the failure to correct any violation of such permit or the Act or the regulations due to indifference, lack of diligence or lack of reasonable care.

(C) Examples of greater degree of fault than negligence are reckless, knowing or intentional conduct.

(iii) In calculating points to be assigned for negligence, the actions of all persons working on the mine site shall be attributed to the permittee or operator.

(5) *Good faith in attempting to achieve compliance.* (i) The Office shall subtract or add points based on the degree of good faith of the permittee or operator in attempting to achieve rapid compliance after notification of the violation. The points shall be assigned according to the following schedule—

Degree Of Good Faith:	Points
Rapid	−10
Normal	0
Lack of good faith	10

(ii) In determining the permittee's or operator's degree of good faith in attempting to achieve rapid compliance, the following definitions apply—

(A) *Rapid compliance* means that the permittee or operator took extraordinary measures to abate the violation in the shortest possible time and that abatement was achieved more rapidly than reasonably required.

(B) *Normal compliance* means the permittee or operator abated the violation within the time given for abatement.

(C) *Lack of good faith* means the permittee or operator did not show diligence in attempting to abate the violation and the violation was not timely abated.

(iii) If the consideration of this criteria is impractical because the length of the abatement period, the assessment may be made without considering this criteria. Any such assessment may be reconsidered upon the permittee or operator's request after abatement is completed.

(d) *Determination of amount of penalty.* The Office shall determine the amount of any civil penalty by converting the total number of points assigned under paragraph (c) of this section to a dollar amount according to the following schedule:

25 and below—$500.	48—$2,800.
26—$600.	49—$2,900.
27—$700.	50—$3,000.
28—$800.	51—$3,100.
29—$900.	52—$3,200.
30—$1,000.	53—$3,300.
31—$1,100.	54—$3,400.
32—$1,200.	55—$3,500.
33—$1,300.	56—$3,600.
34—$1,400.	57—$3,700.
35—$1,500.	58—$3,800.
36—$1,600.	59—$3,900.
37—$1,700.	60—$4,000.
38—$1,800.	61—$4,100.
39—$1,900.	62—$4,200.
40—$2,000.	63—$4,300.
41—$2,100.	64—$4,400.
42—$2,200.	65—$4,500.
43—$2,300.	66—$4,600.
44—$2,400.	67—$4,700.
45—$2,500.	68—$4,800.
46—$2,600.	69—$4,900.
47—$2,700.	70 and above $5,000.

(e) *Assessment of separate violations for each day.* (1) If a cessation order is issued for failure to abate a violation within the time set in a prior notice of violation or cessation order, the Office shall assess separately each day the violation underlying the cessation order remains unabated. The daily penalty shall be the amount assessed for the violation or $750.00, whichever is greater. The daily assessment of a penalty shall not be made for any period that the obligation to abate is suspended.

(2) The Office may assess separately each day of any continuing violation. In making this determination, the Office shall consider the factors listed in paragraph (c) of this section and any economic benefit to the permittee or operator which resulted from a failure to comply.

(3) The Office shall separately assess a minimum of two days for any continuing violation which is assigned more than 70 points under subsection (c).

(f) *Procedures for assessment of civil penalties.* (1) Within 10 days of service of a notice or order, the permittee or operator may submit information in writing pertaining to the violation involved to the District Office with jurisdiction over the mine and to the inspector who issued the notice or order. The Office shall consider any information so submitted in determining the facts surrounding the violation and the amount of the penalty.

(2) The Office shall serve the permittee or operator, by certified mail return receipt requested, within 30 days of the issuance of the notice or order, with a copy of the proposed assessment and of the worksheets showing the computation.

(g) *Procedure for conference.* (1) If a written request from the permittee or operator is received within 15 days from receipt of a proposed assessment, the Office shall arrange for a conference to review the assessment. The permittee or operator may submit additional material for consideration during the conference. The Office may contact the permittee or operator to discuss the assessment prior to the conference if necessary to expedite the review.

(2) The Office shall consider all relevant information on the violation in question presented by the permittee or operator and may recalculate either up or down or vacate the proposed penalty. No information as to which the permittee or operator claims confidentiality shall be considered as a basis for reduction of a proposed assessment. When new facts warrant the imposition of a higher penalty, it shall be proposed in the manner provided in paragraph (f) of this section. Every change in a proposed assessment shall be fully documented in the file including a written explanation of the reason the penalty has changed.

(3) Notice of the time and place of the conference shall be posted at the Office of Surface Mining Reclamation and Enforcement field office with jurisdiction over the mine at least five days prior to the conference. Any person shall have a right to attend the conference.

(4), If the issues are resolved, the agreement shall be in writing and signed by both parties. If payment is not received within 10 days, the Office may—

(i) Enter the agreed upon amount as a final order of the Secretary; or

(ii) Rescind the agreement and reinstate the orginal proposed assessment.

(5) A reduction of a proposed civil penalty assessment of more than 25 percent and more than $500 agreed to during a conference shall be approved by the Regional Director or his designee before it is final and binding on the Secretary.

(h) *Request for hearing.* (1) Within 30 days from receipt of the proposed assessment, the permittee or operator may request a hearing before the Office of Hearings and Appeals by filing a petition and tendering full payment of the proposed assessment to be held in escrow.

(2) The timely filing of a request for a conference under paragraph (g) of this section suspends the running of the 30-day period for requesting a hearing. The suspension shall continue until the completion of the conference, which shall be held within 60 days from the date of the request for the conference. The permittee or operator shall have 15 days after completion of the conference to request a public hearing.

(3) The Office of Hearing and Appeals conducts the hearings and issues orders or otherwise terminates the petition pursuant to its procedures in 43 CFR Part 4. The Office of Hearings and Appeals may determine whether a violation occurred. When determining the amount of the penalty the Office of Hearings and Appeals shall use the point system and conversion table contained in this part.

(i) *Availability of records.* All records and files created or used in the assessment process under this part shall be available for public inspection.

(j) *Notice to tribe.* Appropriate officials of the local governing Indian tribe shall be notified of any hearings or conferences conducted pursuant to this section, and shall be invited to attend.

[FR Doc.77-26772 Filed 9-14-77;8:45 am]

Mining Enforcement and Safety Administration

[30 CFR Part 77]

SURFACE COAL MINES AND SURFACE WORK AREAS OF UNDERGROUND COAL MINES

Proposed Mandatory Safety Standards

Objections Filed and Hearing Requested

AGENCY: Department of the Interior, Mining Enforcement and Safety Administration.

ACTION: Notice of Objections Filed and Hearing Requested.

SUMMARY: This is a notice that objections have been filed and hearings requested for proposed amendments to 30 CFR Part 77, which would amend, revise and establish new mandatory safety standards for surface coal mines and surface work areas of underground coal mines. The Secretary of the Interior will issue notice at a later date that will advise interested persons of the date and place set for the public hearing.

FOR FURTHER INFORMATION CONTACT:

Joseph O. Cook, Assistant Administrator, Coal Mine Health and Safety, MESA, Room 814, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Virginia 22203, (703–235–1140) or Herschel H. Potter, Chief, Division of Safety, Coal Mine Health and Safety, MESA, Room 802, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703–235–1284).

The comments and objections which have been filed may be examined at, or copies obtained from, either of the above offices.

SUPPLEMENTARY INFORMATION: On January 13, 1977, there was published in the FEDERAL REGISTER (42 FR 2800) a Notice of Proposed Rulemaking containing proposed amendments to 30 CFR Part 77. These proposed amendments, amend and revise existing standards and will establish new mandatory safety standards for surface coal mines and surface work areas of underground coal mines.

Many comments, suggestions and objections were submitted to Assistant Administrator, Coal Mine Health and Safety, MESA concerning the proposed regulations. The comments and suggestions were varied and ranged from approval to disapproval of the proposed regulations. Hearings have been requested on all subparts of the proposed rules.

Notice is hereby given in accordance with section 101(f) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. § 811(f)), that objections have been timely filed as well as requested for a hearing.

Pursuant to section 101(g) of the Act, the Secretary of the Interior will, at a later date, publish notice of the times and places at which public hearings will be held for the purpose of receiving relevant evidence on the issues raised by the comments and objections which have been filed.

Dated: August 29, 1977.

JOAN M. DAVENPORT,
Assistant Secretary of the Interior.

[FR Doc.77-26778 Filed 9-14-77;8:45 am]

DEPARTMENT OF DEFENSE

Department of the Air Force

[32 CFR Part 976]

COMMISSARIES

Resale Operations

AGENCY: Department of the Air Force, DOD.

ACTION: Proposed rule.

SUMMARY: The Department of the Air Force proposes to add regulations needed for commissary officers in the performance of their duties and in providing the best possible customer service in commissaries worldwide. The regulations are intended to keep customers and commissary employees better informed of resale procedures. These provisions were formerly contained in the Air Force Manual 145–1 and are being published now for public comment.

DATES: Comments must be received by October 17, 1977.

ADDRESS: Comments should be submitted to Mr. J. F. McGowan, Headquarters, Air Force Commissary Service (DOR), Kelly Air Force Base, Tex. 78241.

FOR FURTHER INFORMATION CONTACT:

Mr. J. F. McGowan, Air Force Commissary Service, Kelly Air Force Base, Tex. 78241, phone 512–925–6414, or Mr. Richard T. Dugger, Documentation Management Officer, Headquarters Air Force Engineering and Services Agency, Kelly Air Force Base, Tex. 78241, phone 512–925–7051.

SUPPLEMENTARY INFORMATION: This rule is issued under authority of 10 U.S.C. 8012.

This new part guides and directs commissary complex officers and commissary officers in the performance of their duties and in providing the best possible customer service. It applies to all Air Force Commissary Service (AFCOMS) operations worldwide. It also applies to all AFCOMS employees and base maintenance contractors and their employees operating AFCOMS commissaries.

Interested persons are invited to comment on this proposed rule. Comments and suggestions should be forwarded in writing.

V 42 1179 SEP 15 77 UMI

Title 32 of the Code of Federal Regulations is amended by adding to Chapter VII a new Subchapter R—Commissaries containing a new Part 976 to read as follows:

SUBCHAPTER R—COMMISSARIES

PART 976—RESALE OPERATIONS

Sec.

976.1 Purpose.
976.2 Store section.
976.3 Authorized/identified customers.
976.4 Service to customers.
976.5 Shelf stocking by vendors.
976.6 Control of tax free items.
976.7 Sales and returns.
976.8 Support of disabled commissary patrons.
976.9 Surcharge.
976.10 Methods of payment.
976.11 Dishonored checks.
976.12 Food stamp program.

AUTHORITY: 10 U.S.C. 8012.

§ 976.1 Purpose.

This part guides and directs commissary complex officers and commissary officers in the performance of their duties and in providing the best possible customer service. It applies to all Air Force Commissary Service (AFCOMS) operations worldwide. It also applies to all AFCOMS employees and base maintenance contractors and their employees operating AFCOMS commissaries.

§ 976.2 Store section.

(a) Vendor personnel may wait on commissary patrons in a fresh bakery outlet operated on a clerk service basis. Vendor personnel are limited to stocking and displaying merchandise, helping patrons with their selections, packaging and marking the price on purchases. Only commissary personnel will perform the functions of approving orders, receiving products, and supervising the bakery outlet. Customers will pay at the regular checkout area, not at the bakery section. Commissary officers will ensure procurement documents provide for credit or return to the vendor of unsold bakery products, except for special orders.

(b) A vendor operated meat department delicatessen is authorized to enhance customer service. The criteria in § 976.2(a) also apply to operation of the delicatessen.

(c) Commissary management must ensure bakery and delicatessen prices offer a significant savings over normal commercial store prices in the local area. Savings of at least 20 percent over local prices are considered significant.

§ 976.3 Authorized/identified customers.

(a) Although patron identification and control is the responsibility of the installation commander (32 CFR Part 823), the commissary officer will ensure all persons seeking to enter the store are authorized patrons before they are permitted in the store. Authorized commissary patrons are listed in (32 CFR Part 823). Military personnel abusing their commissary privileges ae subject to disciplinay action under the Uniform Code of Military Justice in addition to the loss of store privileges. Violations by authorized persons not subject to military law will provide a basis for suspension of store privileges.

(b) Authorized patrons assigned to remote locations may use a group shopping service when approved by the remote installation commander. This service permits an authorized agent (a person authorized commissary privileges) to purchase the combined shopping needs of the group. The person so appointed will have a letter of authorization signed by the remote installation commander or his representative. The appointment letter will list all principals by name, rank and serial number.

(c) Commissary employees authorized commissary privileges are subject to the following restrictions:

(1) Employees will shop only during normal store operating hours and only when off duty.

(2) Employees will remove all merchandise fom the commissary at time of purchase, including purchases made during lunch periods. Employees will not store or bring back into the commissary items in original pack or container.

(3) Checkers will not process purchases of a member of their family.

§ 976.4 Service to customers.

Commissary management will:

(a) Prepare a monthly calendar using AFCOMS Form 12, Customer Information Calendar, pointing out items of interest to the patron. Include hours of operation, special sales, paydays, family shopping night, etc.

(b) Ensure that customers are told of changes in store operations which affect them. Publicize closing for holidays. Post signs in a prominent place well in advance of the holiday.

(c) Place a suggestion box in a convenient location near the identification checker. Ensure AFCOMS Form 13, Customer Suggestion Form, is available for patron use. Review the suggestions and reply to them by letter or telephone. Customer satisfaction will be enhanced by outlining the suggestions placed into effect on the store bulletin board. Ensure that a record is kept on all suggestions answered by telephone. Record and sign the reply made on the reverse of suggestion form.

§ 976.5 Shelf stocking by vendors.

(a) The commissary officer is authorized to accept voluntary offers for shelf stocking service by vendors for the following product groups:

(1) Baby foods.
(2) Fresh bakery products.
(3) Blind made products
(4) Refrigerated dairy products.
(5) Spices, seasonings, extracts, herbs, food coloring, and dehydrated sauces.
(6) Soft drinks.
(7) Snack items (chips, nuts, crackers, cookies, and pretzels).
(8) Prepackaged luncheon meats.
(9) Light bulbs.
(10) Candy and gum.
(11) Frozen foods.
(12) Macaroni and pasta products (excluding prepared dinners).

(b) Stocking of store shelves by vendor stockers of categories listed above is authorized when the commissary officer determines that definite benefits will result and the service is offered voluntarily.

(c) The commissary officer will set up procedures to control vendors or their representatives who stock shelves at the commissary store. The store manager will prepare a time log on each vendor or representative who stocks at the store. Keep a separate entry for each company represented. Ensure that commissary personnel record the time in and out, and forward the time logs to the control section at the end of each month. Ensure only productive shelf stocking time is logged. The control section will total man-hours on a quarterly basis and report the vendor stocker man-hours on the AF Form 1011, Commissary Operating Statement, to the AFCOMS region.

(d) The commissary officer will ensure that the following conditions are met by vendors or their representative/vendor stockers:

(1) The vendor will furnish a letter to the store manager, prepared by the company representative and approved by the commissary officer, before stocking a product group.

(2) The store manager will log, number and issue all vendor stockers identification badges, which identifies them as authorized stockers. Store management will ensure that vendor stockers wear the badges while stocking the store.

(3) Commissary employees (civilian or military) or members of their immediate family are not authorized to stock shelves for the vendor for payment, wages, or any other form of remuneration.

(e) Any violations of the conditions listed below are a basis for revoking shelf stocking permits:

(1) Stocking a product other than those specifically authorized.

(2) Offering gratuitous gifts or items of value to commissary personnel.

(3) Moving or interfering in any way with competitive products.

(4) Pilferage or destruction of merchandise.

(5) Conduct deemed inappropriate for personnel working in a "customer service" function.

(6) Failure to provide service as agreed by the vendor and commissary officer.

(f) Commissary management will not discriminate against vendors who do not provide shelf stocking service.

(g) Commissary personnel will control all movement of stock, in or out of sales area. Do not allow vendor stockers to in-check or sign for commissary merchandise.

(h) Customer demand will continue to be the primary basis for item selection. The availability of shelf stocking service is not a factor in stockage determination. The commissary officer is responsible for adequate shelf stock replenishment of all merchandise, including vendor stocked items.

§ 976.6 Control of tax free items.

General policy for tax free cigarettes. Establish a quantity limit not to exceed four cartons per customer present at the time of sale. Grand total per family shall not exceed 10 cartons. All customers purchasing cigarettes or having them purchased on their behalf must be of legal age to make such purchases in the state where the commissary is located.

(a) Exceptions may be granted to the normal quantity limit in unusual circumstances, such as infrequent shopping, long distance to the commissary, etc. In these cases the maximum shall not exceed 10 cartons per customer present at time of sale or a grand total quantity of 15 cartons per family. The store manager or his representative may approve properly prepared AF Forms 183, Cigarette Purchase Certificate, § 976.13. Once initially approved, the form can be used for successive purchases without additional approval. File the AF Forms 183 alphabetically at the identification desk. Furnish patrons the forms upon request for presentation to the checkers. Checkers record the date of purchase and number of cartons bought on the reverse of the form, keep the forms and return them to the identification desk at close of business. Store management will review the forms to ensure tax free privileges are not abused.

(b) *Policy for tax free cigarettes with State limit.* In these cases, establish a two carton limit or the state limit, whichever is greater, per customer present at time of sale. Customers purchasing cigarettes or having them purchased on their behalf must be of legal age to make such purchases.

(c) *Policy for tax free cigarettes outside the United States.* Cigarette sales in commissaries located outside the United States are regulated by status of forces agreements.

§ 976.7 Sales and returns.

Individual customers will pay cash (includes checks) for all sales. Upon the correct payment for the sale, the merchandise becomes the property of the customer, who assumes full responsibility at that time. However, merchandise paid for and removed from the store may be returned. Such items may be exchanged for like items or a cash refund.

§ 976.8 Support of disabled commissary patrons.

(a) Authorized commissary patrons include retired personnel, hospitalized veterans, and totally disabled veterans. Many of these individuals are confined to wheelchairs or are blind. The commissary officer will ensure these patrons are accommodated with the least possible inconvenience or embarrassment.

(b) Commissary management will provide one or more checkout aisles wide enough to accommodate wheelchair patrons. In addition, these patrons will be afforded a convenient method of entering of exiting the store.

(c) Seeing eye dogs are permitted entry to the commissary sales store. Blind and severely disabled patrons may designate persons of their choice as agents to assist them in purchasing (see CFR 32 Part 823). This does not mean that agents must be authorized commissary patrons.

§ 976.9 Surcharge.

A four percent surcharge will be made on all sales and issues made from the grocery, meat, and produce departments with the exception of issues made to appropriated fund dining facilities and nonappropriated fund essential feeding facilities. Application of surcharge rates for these activities is outlined in Air Force Commissary Service Regulation 145-4.

§ 976.10 Methods of payment.

(a) Commissary stores will accept payment for commissary purchases by authorized individuals and activities only in the following forms: Cash (currency and coin); U.S. Treasury checks; certified checks, cashier's checks, and bank drafts; unicertified personal or nonappropriated fund payroll checks; traveler's checks; postal or bank money orders.

(b) The commissary will not accept personal second party checks, postdated checks, or cash checks as a matter of convenience.

(c) Inside the United States, the commissary will accept only checks drawn on U.S. banks located within the United States. In oversea areas, the commissary will accept U.S. Treasury checks and personal checks drawn on local banks or banks located in the United States. All checks accepted in oversea areas are payable in U.S. dollars.

(d) The store manager will ensure acceptance of vendor coupons. Commissary stores will accept unexpired coupons from customers for merchandise regularly stocked in the store. The commissary will accept coupons only for merchandise manufactured in the United States.

§ 976.11 Dishonored checks.

(a) Upon receipt of a dishonored check, the commissary officer will make two aggressive telephone demands for redemption of the check if required. If the drawer cannot be contacted by telephone, he will contact the drawer by certified mail with return receipt requested; a follow up letter will be sent two workdays after receipt of the first letter has been acknowledged. The commissary officer will not retain a dishonored check in his possession for more than 20 workdays.

(b) If returned checks are not redeemed after taking actions in § 976.11 (a) they will be forwarded to the AFO who will then process for collection against the drawer's pay through the appropriate commander, if drawer is on active duty. For further action on other cases, the AFO will process them through Air Force Accounting and Finance Center/PMFR, under Air Force Manual 177-102, Table 3-2.

V 42 179 SEP 15 77 UMI

§ 976.12 Food stamp program.

(a) Commissary stores in the United States will participate in the Department of Agriculture Food Stamp Program by accepting food stamp coupons in exchange for eligible food items.

(b) Coupons will be accepted only for purchases of food or food products for human consumption, not for tobacco products, pet foods, nonfood items, or deposit on bottles or returnable food containers.

(c) The commissary store may make change with $1 uncancelled and unendorsed coupons which were previously accepted in payment for eligible foods. Commissary stores will not return cash as change in food stamp transactions. When the amount of change due is less than $1, it is the food stamp customer's option to:

(1) Accept a credit slip (Air Force Form 461) for 99 cents or less (indicating food stamp credit), or

(2) "Trade-out" for eligible foods, or

(3) Pay the store the difference in cash.

§ 976.13 Cigarette purchase certificate (Air Force Form 183).

CIGARETTE PURCHASE CERTIFICATE

(THIS FORM IS AFFECTED BY THE PRIVACY ACT OF 1974 - See Reverse)

THIS CERTIFICATE IS FOR THE PROTECTION OF THE PRIVILEGE TO PURCHASE STATE TAX FREE CIGARETTES AND IS PART OF A PERMANENT ACCUMULATIVE RECORD OF PURCHASES THAT IS SUBJECT TO INVESTIGATION BY OFFICE OF SPECIAL INVESTIGATION WHEN ABUSE IS INDICATED.

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 7]

MINUTE MAN NATIONAL HISTORICAL PARK, MASS.

Drinking of Alcoholic Beverages and Maintenance of Vehicles

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: The purpose of the regulations proposed is to control the consumption of alcoholic beverages within Minute Man National Historical Park which has proven to be deleterious to the experience of other visitors to the Park, and to eliminate nonconforming uses, such as, washing and repairing motor vehicles within the Park.

DATES: Written comments, suggestions, or objections regarding this proposal will be accepted until October 17, 1977.

ADDRESSES: Comments should be directed to: Superintendent, Minute Man National Historical Park, P.O. Box 160, Concord, Mass. 01742.

FOR FURTHER INFORMATION CONTACT:

Robert Nash, Superintendent: telephone 617-484-6156.

SUPPLEMENTARY INFORMATION: A limited amount of parking is available within the Park. During periods of agreeable weather, virtually all available parking spaces are occupied. It has been found that many persons entering the Park during such periods are doing so for purposes other than an interest in the historical values of the site. Specifically, the two activities which are prevalent, and which cause the greatest degree of interference with use of the Park as a location preserving an important historic site, are the consumption of alcoholic beverages and the maintenance of vehicles. The prevalence of the former activity is thought to be largely because of the laws of local towns prohibiting the consumption of alcohol in public places and the strict enforcement of these circumstances, Minute Man National Historical Park has become an attraction to many people simply because it is a place where drinking is not prohibited. Additionally, the use of alcohol leads, in many cases, to disruptive behavior which conflicts with other uses of the Park. The maintenance of vehicles activity is frequently associated with drinking and constitutes another widespread use of the park which is in no way related to the historic values of the Park.

It is felt that the implementation of regulations restricting these two activities will significantly reduce problems which have been associated with heavy use of Minute Man National Historical Park. This will have the effect of making the park more readily available for visitors studying its history and will maintain a more peaceful atmosphere in keeping with an area of great historical significance.

(16 U.S.C. 3, 410w, 462; 245 DM-1 (42 FR 12931); National Park Service Order No. 77 (38 FR 7478), as amended.)

IMPACT ANALYSIS

The National Park Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

The Regional Director for the North Atlantic Regional Office of the National Park Service has determined, pursuant to the National Environmental Policy Act of 1969 and pertinent guidelines, that the proposed regulations are not a major Federal action which will have significant effect on the quality of the human environment and, therefore, no environmental impact statement is required.

It is, therefore, proposed to amend 36 CFR Part 7 in the manner set forth below:

1. A new § 7.31 would be added as follows:

§ 7.31 Minute Man National Historical Park.

(a) *Alcoholic beverages.* The drinking of alcoholic beverages in any public place, except in the designated picnic area is prohibited, except with the written permission of the Superintendent.

(b) *Maintenance of Vehicles.* Washing, cleaning, waxing, or lubricating motor vehicles or repairing or performing any mechanical work upon motor vehicles, except in emergencies, in any public place is prohibited.

(c) *Definition.* As used in paragraphs (a) and (b) of this section, the term "public place" shall mean any place, building, road, picnic area, parking space, or other portion of Minute Man National Historical Park to which the public has access.

ROBERT NASH,
Superintendent, Minute Man National Historical Park.

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS—MASSACHUSETTS

Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of Comment Period.

SUMMARY: This notice extends the period for coments on the notice, published August 3, 1977 (42 FR 39235), proposing a change to the State Implementation Plan (SIP) which would increase the allowable sulfur content of fossil fuel burned by sources in the Berkshire Air Pollution Control District (geographic equivalent of the Berkshire Intrastate Air Quality Control Region). The comment period is being extended in order to provide sufficient time for affected sources and other interested parties to review EPA's evaluation of the air quality impact of the SIP revision and submission of comments and/or additonal technical information.

DATES: Comments must be received on or before October 2, 1977.

ADDRESSES: Comments should be submitted to the Regional Administrator, Region I, Environmental Protection Agency, Room 2203, JFK Federal Building, Boston, Massachusetts 02203.

[40 CFR Part 52]

[FRL 790-5]

NEBRASKA

Proposed Revision to Air Quality Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On December 27, 1976, and April 4, 1977, the Governor of the State of Nebraska submitted proposed amendments to the Nebraska State Implementation Plan (SIP). These amendments will adopt as part of the SIP the local air pollution control ordinances for the City of Omaha, City of Lincoln, and Lancaster County. This notice is to advise the public of the receipt of the proposed changes and to request public comments.

DATES: Comments must be received before October 17, 1977.

ADDRESS: Comments should be sent to Dewayne E. Durst, Chief, Air Support Branch, Air and Hazardous Materials Division, Region VII, 1735 Baltimore, Kansas City, Missouri 64108.

FOR FURTHER INFORMATION CONTACT:

Karen M. Solari, telephone 816-374-3791.

SUPPLEMENTARY INFORMATION: The City of Omaha Air Quality Control Ordinance and the City of Lincoln Air Pollution Control Ordinance and Regulations and Standards were adopted as part of the SIP by the Nebraska Environmental Control Council at a public hearing on December 10, 1976. The Lancaster County Air Pollution Control Resolution was adopted by the council on March 18, 1977. With certain exceptions, the local air pollution control ordinances are consistent with the Nebraska Air Pollution Control Rules and Regulations.

The Omaha and Lincoln ordinances, which were included in the SIP submitted on January 20, 1972, will now incorporate the revisions made to the ordinances since that time. Sections of the Lincoln ordinance which were found inadequate according to § 52.1424 and § 52.1429 have been revised. These sections deal with the authority to require recordkeeping and reporting and provisions for periodic testing and inspection of sources.

Certain New Source Performance Standards have been adopted by reference in each of the three local ordinances. The Lincoln and Lancaster County ordinances also include prevention of significant deterioration regulations. Emission standards for inorganic fluoride compounds from brick manufacturing plants have been specified in the Lincoln and the Lancaster County ordinances.

These changes constitute a proposed revision to the Nebraska SIP, pursuant to § 51.8 of this chapter. Relevant comments concerning the proposed revision and compliance with the requirements of Section 110 of the Clean Air Act and 40 CFR Part 51 will be considered by the Regional Administrator in her decision to approve or disapprove the plan revision.

Copies of the proposed revision are available for public inspection during normal business hours at the following locations: Environmental Protection Agency, Region VII, 1735 Baltimore, Kansas City, Missouri 64108; Public Information Reference Unit, Library Systems Branch (PM-213) Environmental Protection Agency, Washington, D.C. 20460; and the Department of Environmental Control, 1424 P Street, Lincoln, Nebraska 68509.

(42 U.S.C. 1857c-5.)

Dated: September 2, 1977.

CHARLES V. WRIGHT,
Acting Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 61]

[Docket No. 21005]

INTERFACE OF THE INTERNATIONAL TELEX SERVICE WITH THE DOMESTIC TELEX AND TWX SERVICES

Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Extension of time.

SUMMARY: This order extends at the request of RCA Global Communications, Inc., the deadline for filing Reply Comments in Docket No. 21005.

DATE: Reply Comments must be filed on or before September 19, 1977.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

John F. Copes, International Program Staff, Common Carrier Bureau, 202-632-3214.

SUPPLEMENTARY INFORMATION:

Adopted: September 8, 1977.

Released: September 9, 1977.

In the matter of Interface of the International Telex Service with the Domestic Telex and TWX Services; (42 FR 43108).

1. By Order in this proceeding released August 23, 1977, we set September 12, 1977, as the date for filing reply comments herein. We have before us for consideration a Motion for Extension of Time filed by RCA Global Communications, Inc. (RCA) on September 2, 1977, in which RCA seeks extension of the time to file such replies until September 19, 1977. In support of its motion, RCA cites conflicting procedural dates in other Commission proceedings and the absence of key personnel. The motion was not opposed.

2. We believe that a grant of a one-week extension is reasonable and that it will not unduly delay resolution of this proceeding.

3. Accordingly, *it is ordered*, That the above-referenced Motion for Extension of Time of RCA Global Communications, Inc. is GRANTED.

4. *It is further ordered*, That the time for filing Reply Comments in this proceeding is extended until September 19, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

COMMUNICATIONS BY AUTHORIZED COMMON CARRIERS BETWEEN THE UNITED STATES, MAINLAND AND HAWAII, ALASKA, AND PUERTO RICO/ VIRGIN ISLANDS

Integration of Rates and Services; Nominations for State Commissioner Representatives; Notice of Board Meeting

AGENCY: Federal Communications Commission.

ACTION: Supplemental Joint Board Notice, Docket No. 21263.

SUMMARY: In this action the Commission accepts the nominations for State Commissioner representatives to this proceeding, appoints the Commission members to the Board, and schedules the first formal meeting of the Board. In addition the Commission denies the request of Hawaiian Telephone Company to clarify the original notice of inquiry.

DATE: The Joint Board will meet on September 22, 1977, at 9:00 a.m. in the Commission's Offices at 1919 M Street, NW., Washington, D.C.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Francis L. Young, Common Carrier Bureau, (632-5550).

SUPPLEMENTARY INFORMATION: In the matter of Integration of rates and services for the provision of Communications by authorized Common Carriers between the United States Mainland and Hawaii, Alaska, and Puerto Rico/ Virgin Islands, Do ket No. 21263, First Supplemental Notice.

Adopted: September 2, 1977.

Released: September 7, 1977.

1. In a *Notice of Inquiry, Proposed Rule Making and Creation of Federal-State Joint Board*, FCC-77-365, released June 7, 1977 (42 FR 30221, June 13, 1977), we gave notice of the convening of a Federal-State Joint Board pursuant to Section 410(c) of the Communications Act of 1934, as amended, 47 U.S.C. § 410(c). This Joint Board was convened to prepare a recommended decision for the purpose of establishing the separations procedure(s) applicable to Alaska and Hawaii. Before us for consideration are: (a) The State Commissioner nominations submitted by the National Association of Regulatory Utility Commissioners (NARUC); and (b) a Petition for Clarification, filed June 9, 1977, by Hawaiian Telephone Company.

2. Pursuant to Section 410(c) of the Communications Act of 1934, as amended, 47 U.S.C. § 410(c), the following State Commission members of the Joint Board have been nominated by NARUC and submitted for our approval: Edwin R. Lundborg, Colorado Public Utilities Commission; William Symons, Jr., California Public Utilities Commission; Albert Q. Y. Tom, Hawaii Public Utilities Commission; and Marvin R. Weatherly, Alaska Public Utilities Commission. We hereby accept these very competent State Commissioners as members of the Joint Board. They will be joined by Commissioners Richard E. Wiley, Robert E. Lee, and Joseph R. Fogarty of this Commission.[1]

3. The Hawaiian Telephone Company (HTC) notes that paragraphs 3 and 4 of the initial notice, supra, refers in part to settlements and that the purpose of the Joint Board is to prepare a recommended decision ". . . establishing the separations procedure(s) applicable to Hawaii and Alaska. . . ." HTC asserts that the references to settlements are thus unappropriate and should be deleted. While we concur that the scope of the Joint Board proceeding is limited to separations, we do not believe that the use of the term settlements in the context used is inappropriate. In our reconsideration Memorandum Opinion and Order concerning rate integration, FCC 77-364, released June 6, 1977, we noted that settlements must be related to an established separations procedure(s). Since further petitions on this order, FCC 77-364, have been filed it would be inappropriate to modify the Joint Board order at this time. The present order is consistent with other Commission orders, is clear as to the scope of this Joint Board proceeding, and is not prejudicial to HTC. Thus, we will deny the request for clarification.

4. It is the further purpose of this notice to organize and establish a meeting place and date so that the Board may determine at that time procedures appropriate to the stated purpose of the creation of this Board. It is anticipated that the initial meeting will explore a schedule for a notice and comment procedure so that all interested parties will have an adequate opportunity to develop a record supporting what modifications, if any, should be made to the existing Separations Manual in order that it would be applicable to Alaska and Hawaii. In addition, we anticipate that the Board will address the procedures under which the Board will operate including ex parte rules.

5. Accordingly, it is ordered, That Edwin R. Lundborg, William Symons, Jr., Albert Q. Y Tom, Marvin R. Weatherly, Richard E. Wiley, Robert E. Lee and Joseph R. Fogarty are appointed to the Federal-State Joint Board mentioned herein and the first meeting of such board shall be held on September 22, 1977, at 9:00 a.m. in the offices of this Commission at 1919 M Street, NW., in Washington, D.C.

6. It is further ordered, That the petition for clarification, filed June 9, 1977, by Hawaiian Telephone Company is denied.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[47 CFR Part 91]

[Docket No. 21342; RM-2792]

TRANSMISSION OF PULSED CARRIER EMISSIONS ON THE FREQUENCIES 154.570 AND 154.600 MHZ

Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order extending time to file comments and reply comments.

SUMMARY: This order is in response to a motion for extension of time made by Ag Nav, Inc., to allow it to submit comments in the matter of amendment of section 91.554 (a) and (b) of the Commission's rules and regulations. (Docket No. 21342, RM-2792.)

An extension of time is needed by Ag Nav for filing comments from August 29, 1977, to September 16, 1977, and reply comments from September 9, 1977, to September 30, 1977, because the initial dates will not allow sufficient time for the preparation and submission of comments based on its field studies.

DATES: Comments must be received on or before September 16, 1977, and reply comments must be received on or before September 30, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mr. John Wood, Industrial and Public Safety Rules Division, Safety and Special Radio Services Bureau, 202-632-6497.

SUPPLEMENTARY INFORMATION:

Adopted: September 8, 1977.

Released: September 9, 1977.

In the matter of amendment of section 91.554 (a) and (b) of the Commission's rules and regulations to allow transmission of pulsed carrier emissions on the frequencies 154.570 and 154.600 MHz (42 FR 41143).

1. Ag Nav, Inc. has asked for an extension of the period for filing comments and reply comments in this proceeding from August 29, 1977, and September 9, 1977, respectively, to September 16, 1977, and September 30, 1977. Ag Nav cites the constraints imposed by the limited operational experience acquired thus far and indicates that it needs the additional period for the preparation of meaningful comments.

2. It appears that the additional period requested is reasonable. Accordingly, *it is ordered*, pursuant to the authority contained in sections 0.331 and 1.46 of the Commission's rules, that the time for filing comments in this proceeding is extended to September 16, 1977, and reply comments to September 30, 1977.

ARLAN K. VAN DOORN,
Deputy Chief, Safety and Special Radio Services Bureau.

[Docket No. HM-152; Notice 77-6]

CARRIAGE BY AIRCRAFT

Carriage by Aircraft; Requirements for Radioactive Materials Extension of Time To File Comments

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Extension of time to file comments.

SUMMARY: Three commenters have requested a 60-day extension of time to file comments in this Docket (42 FR 37427, July 21, 1977) indicating that extra time is needed to properly assess and analyze data now being collected which will serve as the basis for their comments. We believe that additional time should be allowed for this purpose; therefore, the time for filing comments is extended as indicated.

DATE: The time for filing comments in Docket HM-152; Notice 77-6 is extended from September 20, 1977 to November 21, 1977.

ADDRESSES: Dockets Section, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Five copies should be submitted.

FOR FURTHER INFORMATION CONTACT:

Alan I. Roberts, 2100 Second St. SW., Washington, D.C. 20590 (202-426-0656).

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e) and paragraph (a)(4) of App. A to Part 102)

Issued in Washington, D.C., on September 8, 1977.

DEPARTMENT OF AGRICULTURE

ALGAECIDE TREATMENT OF SNOW & QUEMADO LAKES

Notice of Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Algaecide Treatment of Snow and Quemado Lakes in New Mexico, USDA–FS–R3 FES Adm 77–01.

The environmental statement considers probable environmental effects of the proposed project.

The final environmental statement was transmitted to CEQ on September 8, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, S. Agriculture Bldg., Rm. 3230, 14th and Independence Ave., SW., Washington D.C. 20250.
USDA, Forest Service, Southwestern Region, 517 Gold Avenue, SW., Albuquerque N. Mex. 87102.
Gila National Forest 2610 North Silver St., Silver City, N. Mex. 88061.

Single copies are available upon request to Forest Supervisor, Gila National Forest, 2610 North Silver Street, Silver City, New Mexico, 88061. Please refer to the name and number of the environmental statement when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

M. J. HASSELL,
Regional Forester, Region 3.

GARY E. CARGILL,
Acting Regional Forester, Region 3.

CIVIL AERONAUTICS BOARD

[Order 77-9-19; Docket 27573; Agreement C.A.B. 26867, R-1 through R-8]

JOINT TRAFFIC CONFERENCES OF THE INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to Specific Commodity

ORDER

SEPTEMBER 7, 1977.

An agreement has been filed by the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, foreign air carriers and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names seven specific commodity rates under existing commodity descriptions and adds one rate with a new commodity description as set forth below, reflecting reductions from general cargo rates; and was adopted pursuant to unprotested notice to the carriers and promulgated in IATA letters between July 23 and July 27, 1977.

Agreement CAB	Specific commodity Item No.	Description and rate [1]
26867:		
R-1	1084	Turkey hatching eggs 96c/kg.,[2] minimum weight 500 kgs. New York to Bremen.
R-2	8550	Dental, surgical, measuring, testing and drawing instruments 378c/kg.,[2] minimum weight 100 kgs. 302c/kg.,[2] minimum weight 500 kgs. New York to Dubai.
R-3	0006	Foodstuffs, spices and beverages 110c/kg.,[2] minimum weight 500 kgs. Osaka to Honolulu.
R-4	0056	Chocolate manufactures 84c/kg.,[2] minimum weight 1,000 kgs. Honolulu to Tokyo. 89c/kg.,[2] minimum weight 1,000 kgs. Honolulu to Osaka.
R-5	1108	Floral and/or nursery stock, seeds and cut flowers—excluding bulbs and/or tubers, carnation cuttings, gladioli 129c/kg.,[2] minimum weight 100 kgs. Los Angeles to Papeete.
R-6	4266	Sporting boat parts and accessories 145c/kg.,[2] minimum weight 1,000 kgs. Melbourne to Los Angeles.
R-7	4706	Milking machines and accessories 114c/kg., minimum weight 500 kgs. Auckland to Los Angeles.
R-8	8100	Dental, medical and/or surgical instruments 190c/kg.,[3] minimum weight 1,000 kgs. Melbourne to New York.

[1] Subject to applicable currency conversion factors as shown in tariffs.
[2] Expires Dec. 31, 1977.
[3] Expires Sept. 30, 1978.
[4] New description.

Pursuant to authority delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions ordered.

Accordingly, it is ordered that: Agreement C.A.B. 26867, R–1 through R–8, is approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-26896 Filed 9-14-77;8:45 am]

[Order 77-9-17; Docket 27573; Agreement C.A.B. 26815, R-1 through R-3; Docket 27573, Docket 29123; Agreement C.A.B. 26816, R-1 and R-2]

TRAFFIC CONFERENCES OF THE INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreements Relating to Passenger Fares, Cargo Rates and Currency Matters

ORDER

SEPTEMBER 7, 1977.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreements, adopted by mail vote, have been assigned the above C.A.B. agreement numbers.

Both agreements are of a technical nature. Agreement C.A.B. 26816 would indefinitely extend the preclusion of passenger and cargo services within the area comprised of Australia/Papua New Guinea/Djajapura/British Solomon Islands Protectorate from the application of IATA resolutions governing such services to/from that area. Agreement C.A.B. 26815 would amend the cargo rate currency conversion procedures pertaining to traffic destined for Japan from TC1 (Western Hemisphere), TC2 (Europe/Middle East/Africa) and TC3 (Asia/Pacific). In effect, Japanese currency payments for collect shipments would be reduced by about 3.8 percent from the levels provided by Agreement C.A.B. 26703, which was approved by Order 77–8–114 (August 23, 1977).

Since the agreements involve either rates from U.S. points, or rates and fares which are combinable with rates and fares to/from U.S. points, they have application in air transportation as defined by the Act, and will be approved. However, we caution the carriers that approval of Agreement C.A.B. 26815 is subject to the conditions imposed by Order 77–2–22 (February 3, 1977), whereby U.S. dollar rates for U.S.-originating collect shipments must be converted at the market rate of exchange when payment is made in another currency.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the following resolutions, which have direct application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act provided that approval is subject, where applicable, to conditions previously imposed by the Board:

Agreement CAB	IATA No.	Title [a]	Application
26815:			
R-1		022a TC3 Special Rules for Sales of Cargo Air Transportation (Amending).	3 (Asia/Pacific).
R-3		022p JT31 (North and Central Pacific) Special Rules for Sales of Cargo Air Transportation (Amending).	2/1;1/2/3.

2. It is not found that the following resolutions, which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
26815:			
R-2		022b JT23/JT123 Special Rules for Sales of Cargo Air Transportation (Amending).	2/3;1/2/3.
26816:			
R-1		002 Standard Revalidation Resolution (Amending)	3 (Asia/Pacific).
R-2		004d Restriction of Applicability—Papua New Guinea (Readopting and Amending).	Do.

Accordingly, it is ordered that: Agreements C.A.B. 26815 and C.A.B. 26816, set forth in finding paragraphs 1 and 2 above, are approved.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-26897 Filed 9-14-77;8:45 am]

CIVIL RIGHTS COMMISSION

WASHINGTON

Public Hearing

Notice is hereby given pursuant to the provisions of the Civil Rights Act of 1957, 71 Stat. 634, as amended, that a public hearing of the U.S. Commission on Civil Rights will commence on October 19, 1977, at the Federal Building, Courtroom 514, 915 Second Avenue, Seattle, Wash. An executive session, if appropriate, may be convened at any time before or during the hearing.

The purpose of the hearing is to collect information concerning legal developments constituting a denial of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin, or in the administration of justice, particularly concerning American Indians; to appraise the laws and policies of the Federal Government with respect to denials of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin, or in the administration of justice, particularly concerning American Indians; and to disseminate information with respect to denials of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin, or in the administration of justice, particularly concerning American Indians.

Dated at Washington, D.C., September 9, 1977.

ARTHUR S. FLEMMING,
Chairman.

[FR Doc.77-26791 Filed 9-14-77;8:45 am]

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

FOREIGN EXCESS PROPERTY

Revision of General Determination No. 1 (Revised)

AGENCY: Domestic and International Business Administration.

ACTION: Amendment of General Determination No. 1 (Revised) (38 FR 20484 et seq.).

SUMMARY: This action amends Foreign Excess Property General Determination No. 1 (Revised) by broadening the scope of certain categories of property presently covered by general determination and by including new categories of property, the importation of which would relieve domestic shortages or otherwise be beneficial to the economy of this country.

DATE: This amendment shall become effective on September 15, 1977.

FOR ADDITIONAL INFORMATION CONTACT:

Mr. Frank Creel, who can be reached by telephone on 202–377–4913.

SUPPLEMENTARY INFORMATION: On August 5, 1977, there was published in the FEDERAL REGISTER (42 FR 39693 et seq.; corrected, August 10, 1977, 42 FR 40473) a notice in which the Deputy Assistant Secretary for Resources and Trade Assistance stated his intention to revise General Determination No. 1 (Revised) (38 FR 20484 et seq.) pursuant to Section 302.4 of the Department of Commerce Foreign Excess Property Regulations (15 CFR Part 302). Interested parties were invited to submit written comments concerning the proposed amendments on or before August 19, 1977. Five written comments were received, two of which expressed general approval of the proposal.

One party suggested that special equipment such as air compressors, boring machines and so forth which are mounted on vehicles subject to the General Determination also be included. This suggestion was adopted, but additional clarification was inserted to exclude discrete accessories which were not deemed to satisfy the conditions for inclusion on the General Determination. The same party suggested that the General Determination should also encompass track laying vehicles such as the M–4 and M–5 high-speed tractors. Further research indicated that such vehicles would not satisfy the conditions for inclusion and the suggestion was not adopted. Finally, this party thought that the provision for used parts and components for non-combat military motor vehicles should be broadened to include unused parts and components as well. While the Department agrees that many excess vehicles are obsolete and for that reason can be considered to be in short supply, it was determined that this is not always the case and that unused parts and components should, therefore, continue to be subjected to case-by-case review.

Another party suggested that the proposal include Bailey-type prefabricated steel bridge components and erection equipment. Upon consideration, it was determined that such bridges are current military procurement items and that certain components are available on order. The suggestion was, therefore, not adopted.

V 42 I 179 SEP 15 77 UMI

Another party suggested that photographic film and paper be included. In considering this suggestion it was found that the photographic industry has a program for reclamation of the silver content of such materials, and the suggestion was adopted in modified form.

Other Federal agencies commenting informally on the proposal expressed general approval. The Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury, noted that the citations for its statutory and regulatory authority had been superseded. Correct citations have been provided.

Accordingly, General Determination No. 1 (Revised) is hereby amended to read as follows:

GENERAL DETERMINATION NO. 1

Importation of foreign excess property consisting of the following items would relieve domestic shortages or would otherwise be beneficial to the economy of this country. Consequently, subject to the conditions of this general determination and to the requirements of § 302.4 of the Foreign Excess Property Regulations (15 CFR 302), foreign excess property specified below may be imported into the United States, unless otherwise prohibited by law.

(a) Used non-combat military motor vehicles. Used non-combat military motor vehicles, irrespective of rated capacity, including but not limited to general purpose trucks such as cargo, carryall, chassis, panel, pickup, dump, platform, prime mover and stake; special purpose trucks such as shop van, medical van, laboratory, fluid tank, wrecker, and ambulance; and jeeps. This provision does not include passenger cars or track laying vehicles.

(b) Used parts and components for non-combat military motor vehicles, except parts and components for vehicles not included in (a) above. Includes special equipment mounted on vehicles (wrecker assemblies, winches, air compressors, boring machines) but excludes discrete accessories such as tow chains, tire chains, carrier racks, and jacks.

(c) Combat military motor vehicles and parts and components thereof. Note: Military motor vehicles enumerated on the U.S. Munitions Import List are also subject to the import permit requirements of the Department of the Treasury pursuant to the Arms Export Control Act (Pub. L. 94–329, which supercedes the Mutual Security Act of 1954). See 27 CFR 47.

(d) Pneumatic tires and inner tubes, excluding passenger car tires and inner tubes. Unused tires subject to this General Determination shall prior to entry into the customs territory of the United States (i) be branded with the letters "N.F.C." (Not First Class) in one inch type on each sidewall of each tire so as to be clearly visible above the bead area, or (ii) be buffed so as to remove from each sidewall thereof the name of the manufacturer and trade name(s). Inner tubes must be stamped with indelible ink in one inch block type with the letters "N.F.C.".

(e) Used power transformers, 10001 kilovolt-amperes and above.

(f) Compressed gas cylinders.

(g) Metal scrap, ferrous and non-ferrous.

(h) Used ships, boats, floating equipment (including barges, dry docks and pontoons), and parts and components thereof. (Excludes battleships, cruisers, aircraft carriers, destroyers and submarines which are not subject to the provisions of the Federal Property and Administrative Services Act of 1949, as amended; 40 U.S.C. 472(d)(2).)

(i) Photofilm and photopaper which is being imported solely for reclamation of the silver content.

Any of the property described above may be entered into the economy of the United States on presentation of the original FEP Import Authorization to the District Director of Customs for his endorsement at the time of entry: *Provided*, the requirements in paragraph (d) above relating to the unused pneumatic tires and inner tubes are complied with to the satisfaction of the District Director of Customs at the port of entry.

Nothing in General Determination No. 1 shall be construed to exempt the importer from presentation of such other entry documents, or conforming with any procedures, required by the U.S. Customs Service.

Effective September 15, 1977, General Determination No. 1 as published in 38 FR 20484 (1973), is revoked.

General Determination No. 1 may be amended or withdrawn by the Deputy Assistant Secretary and notice of such amendment or withdrawal shall be published in the FEDERAL REGISTER (15 CFR 302.4.).

Effective Date: September 15, 1977.

ROBERT E. SHEPHERD,
Deputy Assistant Secretary for Resources and Trade Assistance.

Domestic and International Business Administration

DUTY FREE ENTRY OF ELECTRON MICROSCOPES

Consolidated Decision on Applications

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77–00176. Applicant: University of California, San Diego, Dept. of Neurosciences, School of Medicine, La Jolla, Calif. 92093. Article: Electron Microscope, Model JEM–100C with side entry goniometer and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used to study the structure of biological cells and tissues which include nerve tissues and phenomena associated with neurological diseases; the supramolecular structure of excitable membranes; and serial sections of subcellular regions of neurons, suitable for computer reconstruction. All of the materials and phenomena will be biological in origin and in some instances derived from patients suffering from neuromuscular diseases. In addition, the article will be used in the course "Workshop in Electron Microscopy" in which students will be taught modern electron microscopic techniques in order that they may successfully be able to undertake relevant projects without further supervision. Application received by commissioner of customs: March 24, 1977. Advice submitted by the Department of Health, Education, and Welfare on: June 24, 1977. Article ordered: February 25, 1977.

Docket Number: 77–00186. Applicant: New York Medical College, Department of Anatomy, Basic Science Building, Valhalla, N.Y. 10595. Article: Electron Microscope, Model JEM 100C with side entry goniometer. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used for electron microscopic examination of biological tissues from normal and experimental animals, such as pancreas, liver, muscle, and blood platelets. Blood platelets before and after exposure to thrombin will be examined to determine the intracellular translocation of calcium related to secretion. Studies of fine filaments will be made to relate these to morphologic changes in cell shape and, particularly, to the formation of long pseudopodia. Low magnification studies of undistorted, flat-field cells will be performed. These will be used for light microscopic—electron microscopic correlations which will permit visualization of the same cells by both instruments. The article will also be used in an electron microscopy course to train graduate and medical students in the use of electron microscopes as a tool for research and service in the field of diagnostic medicine. Application received by commissioner of customs: April 1, 1977. Advice submitted by the Department of Health, Education, and Welfare on: June 24, 1976. Article ordered: March 28, 1977.

Comments: No comments have been received in regard to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used was being manufactured in the United States at the time the articles were ordered.

Reasons: Each article provides a eucentric goniometer stage with ±60 degree tilt and a guaranteed resolution of 7 Angstroms point to point. The Department of Health, Education, and Welfare (HEW) advises in the respectively cited memoranda, that the features described above are pertinent to the purposes for which each of the foreign articles to which these applications relate is intended to be used. HEW also advises that it knows of no domestic instrument which provided the pertinent features of each article at the time of order.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

RICHARD M. SEPPA,
Director,
Special Import Programs Division.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

[FR Doc.77-26818 Filed 9-14-77;8:45 am]

DUTY-FREE ENTRY OF NUCLEAR MAGNETIC RESONANCE SPECTROMETERS

Consolidated Decision on Applications

The following is a consolidated decision on applications for duty-free entry of Nuclear Magnetic Resonance Spectrometers pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77–00159. Applicant: Northeastern University, Department of Chemistry, 360 Huntington Avenue, Boston, Mass. 02115. Article: High Resolution Fourier Transformation Multi-Nuclear Magnetic Resonance Spectrometer, Model JNM/FX60Q and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used in the following research projects which involve the determination of NMR spectra of hydrogen, carbon-13, and fluorine nuclei:

(a) Inorganic and bioinorganic reaction mechanisms—solution kinetics.
(b) Separation methods, application of NMR to forensic chemistry and drug analysis.
(c) Structure of natural products derived from plants.
(d) NMR in analysis of drugs of abuse.
(e) Synthesis of natural products.
(f) Structural and synthetic medicinal chemistry of aporphines.
(g) Structure and chemistry of natural anti-tumor agents.
(h) Study of electronic structure of transition metal systems. Measurements of magnetic exchange using Knight shifts. Magnetic and structural properties of transition metal complexes containing fluorine.
(i) Thermal rearrangements of organic molecules.
(j) NMR applied to the study of pharmaceuticals.
(k) Chemistry of anti-plaque agents.
(l) Mechanism of reductive ring-enlargement from cyclopropenes to cyclobutenes.
(m) Paterno-Buchi photovalence isomerization as a means for storing solar energy.
(n) Binuclear bridging C_6H_5 complexes.
(o) ^{13}C labelling studies in the investigation of hydrocarbons pyrolysis mechanisms.
(p) Intermolecular interactions in clathrate complexes.
(q) Biochemical structure investigations.
(r) Structural determination of organic radiation-chemical products.
(s) Solution magnetic susceptibility studies using the Evans NMR method.
(t) Fluxionality—Stereochemical non-rigidity as a function of temperature.

The article will also be used in the course "Identification of Organic Compounds" (Chem. 12.253) to teach the application of various analytical techniques in determination of molecular structure and identification of unknown organic compounds. Application received by Commissioner of Customs: March 17, 1977. Advice submitted by the Department of Health, Education, and Welfare on July 4, 1977. Article ordered August 2, 1976.

Docket Number: 77–00172. Applicant: Frederick Cancer Research Center, P.O. Box B, Frederick, Md. 21701. Article: NMR Spectrometer, Model JNM/FX–60 and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used for the following individual research activities which involve ^{13}C and ^{1}H NMR spectroscopy:

1. Structural studies of antibiotics isolated from fermentation broth, by ^{13}C and ^{1}H NMR spectroscopy.
2. Structural studies of antibiotics isolated in minute quantities (2 to 4 milligram) by ^{13}C and ^{1}H NMR Spectroscopy.
3. Structural studies of antibiotics isolated from plant materials by ^{13}C and ^{1}H NMR spectorscopy.
4. Stereo chemical assignments made on antibiotics by a combination of ^{13}C and ^{1}H NMR studies.
5. Structure elucidiation studies on biotransformed antibiotics by combination of ^{13}C and ^{1}H NMR studies.
6. Structure verification studies on derivatives of antibiotics by combination of ^{13}C and ^{1}H NMR studies.

Most of the materials to be studied will be antitumor compounds, hopefully candidates to cure cancer in clincs. Some of these materials are available in small quantities (2–4 miligrams) as isolated from limited resources and need to be studied by a microprobe system of an NMR instument. Application received by Commissioner of Customs: March 22, 1977. Advice submitted by the Department of Health, Education, and Welfare on July 11, 1977. Article ordered February 24, 1977.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, was being manufactured in the United States at the time the articles were ordered.

Reasons: Each foreign article provides a dual frequency (for ^{13}carbon and proton), variable temperature, 10 millimeter sample probe. The Department of Health, Education, and Welfare (HEW), advises in its respectively cited memoranda that the specification of each article described above is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. HEW also advises that it knows of no domestic instrument which provided the pertinent specification at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

RICHARD M. SEPPA,
Director, Special Import Programs Division.

[FR Doc.77-26819 Filed 9-14-77;8:45 am]

NORTHWESTERN U. MED. SCH.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 77–00206. Applicant: Northwestern University Medical School, Department of Pharmacology, 303 E. Chicago Avenue, Chicago, Ill. 60611. Article: Recording Oscilloscope Camera. Manufacturer: Nihon Kohden Kogyo Co., Ltd., Japan. Intended use of article: The article is intended to be used for studies of bioelectric potential changes from excitable tissues. Membrane potential and membrane current are recorded from nerve and muscle tissues displayed on an oscilloscope, and photographed on a film. Membrane electrical properties including ionic conductances are then measured from the recorded film.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides capabilities for continuous recording on 35 millimeter film in a lighted room. The Department of Health, Education, and Welfare (HEW) advises in its memoran-

V 42 179 SEP 15 77 UMI

dum dated July 11, 1977, that the features of the article described above are pertinent to the applicant's intended purposes. HEW also advises that domestic instruments do not provide the pertinent features.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

RICHARD M. SEPPA,
Director, Special Import Programs Division.

[FR Doc.77-26820 Filed 9-14-77;8:45 am]

RENSSELAER POLYTECHNIC INST.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 77-00042. Applicant: Rensselaer Polytechnic Institute, Materials Engineering Department, Troy, New York 12181. Article: Electro Microscope, Model JEM 100S. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in research concerned with the investigation of the austenite variables of composition, defect structure, stacking fault energy, process history, and properties as coupled phenomena and the relationship of these variables to the structure, transformation kinetics, and properties of the resultant martensite. Studies will be carried out in the area of corrosion fatigue of aluminum alloys and copper alloys requiring extensive transmission electron microscopy to determine changes in deformation substructures which accompany corrosive reactions. It is also planned to study phase separation in glasses and the graphite layer structure at the surface of high performance graphite fibers. In addition, the article will be used as a teaching instrument to expose students to the fundamentals of transmission electron microscopy in the courses: Structure and Properties of Materials II, Chemical Instrumentation, Electron Bean Analysis Techniques. The article will also be used in the course Electron Microscopy of Crystalline Materials to instruct students in the use of the microscope and its accessories.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (December 17, 1974).

Reasons: The foreign article is equipped with a ±10 degree tilt stage having a guaranteed resolving power of 5 Angstroms. The most closely comparable domestic instrument available at the time the foreign article was ordered was the Model EMU-4C electron microscope manufactured by the Adam David Company. The Model EMU-4C can be equipped with a ±30 degree tilt stage but the guaranteed resolving power of this stage is 8 Angstroms. (The lower the numerical rating in terms of Angstroms units, the better the resolving power.) The National Bureau of Standards (NBS) advises in its memorandum dated July 12, 1977, that the guaranteed resolving power of the tilt stage of the foreign article is pertinent to the applicant's research studies.

We, therefore, find that the Model EMU-4C electron microscope was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the article was ordered. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

UNIVERSITY OF SOUTHERN CALIFORNIA, ET AL.

Application for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act (15 CFR 301), prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 77-00323. Applicant: University of Southern California, University Park, Los Angeles, California 90007. Article: CO/CO_2 laser, type PL3 and components. Manufacturer: Edinburgh Instruments, United Kingdom. Intended use of article: The article is intended to be used for studies of vibrational circular dichroism in the infrared spectral region of chiral organic molecules with the aim of understanding of molecular structure. Application received by Commissioner of Customs: August 22, 1977.

Docket number: 77-00328. Applicant: National Institutes of Health, Building 36, Room 4B22, 9000 Rockville Pike, Bethesda, Maryland 20014. Article: Electron Microscope, Model EM 400 with high magnification goniometer electron microscope, single tilt holder and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of myelinated tracts or nerves obtained surgically. The main phenomena to be investigated includes the ultrastructure of myelin formation and maintenance as well as electron microscope features of experimentally altered or diseased myelin. Experiments to be conducted include the preparation of thin sections or freeze-fracture replicas of normal, experimentally altered and diseased myelin obtained surgically or by biochemical isolation techniques. Electron micrographs of these sections or replicas will be taken, processed and examined. The data obtained will be analyzed and published in research reports. Application received by Commissioner of Customs: August 9, 1977.

Docket number: 77-00329. Applicant: Stevens Institute of Technology, Castle Point Station, Hoboken, New Jersey 07030. Article: PLM-3 Platinum NMR Thermometer and Accessories. Manufacturer: Instruments for Technology, Finland. Intended use of article: The article is intended to be used for studying experimentally low temperature properties of helium-three with objective of furthering the conceptual understanding of the phenomenon of superfluidity. Application received by Commissioner of Customs: August 9, 1977.

Docket number: 77-00330. Applicant: Regents of the University of California, 405 Hilgard Avenue, Los Angeles, CA 90024. Article: Electron Microsope, Model JEM 100CX/SEG/SQH and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for investigations of crystalline and non-crystalline solids, including nickel-base alloys, titanium alloys, steels, glass-ceramics, oxides, sulphides and minerals. Experiments to be conducted involve characterization of defects in crystalline solids, determination of chemical composition of phases in minerals, glass-ceramics and alloys, and mechanisms of phase transformations in

the various materials mentioned above. In addition, the article will be used for educational purposes in the courses: Engr. 145-A. Introduction to Materials Characterization and Engr. 244. Transmission Electron Microscopy. Application received by Commissioner of Customs: August 9, 1977.

Docket number: 77-00331. Applicant: University of Utah, University of Utah Medical Center, Salt Lake City, Utah 84132. Article: Electron Microscope, Model JEM-100S with Sheet film camera. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to examine specimens of the nervous system suitably fixed, stained, embedded in plastic, thin sectioned and placed on formvar coated grids. Various fixation, embedding and staining procedures are used to reveal different structures in the nerve cells and glial cells in the intercellular matrix. The experiments are designed to reveal the cellular types and their three-dimensional architecture, including the intercellular relationships in the nervous system of fishes and frogs during development.

The article will be used by postdoctoral trainees, and will be part of their training. Application received by Commissioner of Customs: August 11, 1977.

Docket number: 77-00332. Applicant: Colorado State University, Fort Collins, CO 80523. Article: FX-100 NMR Spectrometer. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for a variety of studies of the molecular structure type, utilizing ^{13}C and ^{1}H nuclear magnetic resonance (NMR) in the fourier transform (FT) mode. Specific research will include studies of the following.

(1) Geometrical dependence of substituent effects on ^{13}C chemical shifts,
(2) ^{13}C signal intensities in hydrocarbons.
(3) The systhesis of complex organic systems,
(4) Structural charcterizations of natural products,
(5) Biosynthesis of toxic plant nitro compounds, and
(6) Polymer chemistry.

Application received by Commissioner of Customs: August 11, 1977.

Docket Number: 77-00333. Applicant: Regents of the University of California, 405 Hilgard Avenue, Los Angeles, Calif. 90024. Article: Electron Microscope, Model JEM-200 with High Resolution Universal Goniometer Double Tilting Stage, and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in the investigation of the microstructure of heavy-ion irradiated Ni-base alloys; deformation microstructure of ferrous and non-ferrous alloys and minerals such as quartz and olivine; and phase transformations in materials. Microstructural studies will be conducted in relation to mechanical and physical properties of metals, alloys, ceramics and minerals, and irradiation-induced swelling in alloys. The article will also be used for educational purposes in the courses: Engr. 145-A. Introduction to Materials Characterization, Engr. 244. Transmission Electron Microscopy, and in Individual Graduate Study courses. The objectives of these courses are to familiarize the students with the principles, operation, and applications of the techniques of TEM, SEM, STEM, and X-ray microanalysis. Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00334. Applicant: University of Southern California, Department of Chemistry, University Park, Los Angeles, Calif. 90007. Article: TEA CO_2 Laser, Model DD-250 and accessories. Manufacturer: Gen-Tec., Canada. Intended use of article: The article is intended to be used for the study of the interactions of molecules with intense, coherent infrared radiation. The article will also be used for the training of Chemistry post-doctorates in advanced research techniques in the courses: Chemistry 490L and Chemistry 790L. Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00335. Applicant: National Bureau of Standards, Route 270 and Quince Orchard Road, Gaithersburg, Md. 20760. Article: Complete gas-fired, 1-cubic meter furnace, and accessories. Manufacturer: Ove Larsen Engineering and Trading Co., Denmark. Intended use of article: The article is intended to be used to investigate the response of construction materials and assemblies when exposed to a prescribed standard temperature-time exposure simulating a fire. The properties to be measured on small scale specimens include integrity, such as the development of cracks or openings, excessive deformation, and the transmission of heat, hot gases, and smoke. Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00336. Applicant: Michigan State University, East Lansing, Mich. 48824. Article: Electron Microscope, Model EM 201 and Plate Camera Lot and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for instructional use by graduate students. However, research of these students as related to their M.S. or Ph. D. programs in biology, geology, metallurgy, biomedicine, etc. will be carried out. The article will be used in two courses: "Methods in Transmission Electron Microscopy" and "Special Problems in Electron Microscopy". These courses are intended to provide "hands on" experience so that future research activities can be carried out. Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00337. Applicant: University of California, San Francisco, 1438 Harbour Way South, Richmond, Calif. 94804. Article: Stereoscan 150 Scanning Electron Microscope and accessories. Manufacturer: Cambridge Imanco Instrument Co., United Kingdom. Intended use of article: The article is intended to be used in the investigation of surface changes in cells correlating with metabolic activity or malignancy. The experiments to be conducted will involve alteration of organs, tissue, and cells by processes which either accelerate or retard events within the cells, transforming normal cells to cancer cells, critical examination of the normal vs. diseased tissue from animals and humans. In addition, the article will be used for educational purposes in medical and pharmaceutical histology, the study of normal organs, tissues, and cells: Anatomy 102 and Anatomy 115. Specifically, the article will be used to provide by direct visualization the normal arrangement of substructure, both internally and externally, of cells and how these cells are arranged to form tissues and organs. Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00338. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 87545. Article: Image Converter Camera System with S-20 image tube. Manufacturer: Hadland Photonics Ltd., United Kingdom. Intended use of article: The article is intended to be used to photograph the behavior of a high velocity (up to 10^6 cm/sec) plasma stream emerging from a coaxial plasma gun. The phenomena to be studied will include the initial gas breakdown and subsequent behavior inside the gun (gun barrel phase) and the behavior of the plasma as it is injected into appropriate magnetic fields. Specific experiments to be conducted include the following:

A. Studies of the initial gas breakdown in the gun.
B. Study of the formation and subsequent behavior of the plasma stream in front of the gun nozzle.
C. The injection of this plasma into a magnetic field.
D. The measurement of the plasma properties such as axial velocity, transverse energy, temperature, impurity content, total energy.
E. Experiments to optimize gun parameters for production of thermonuclear plasmas.

Application received by Commissioner of Customs: August 12, 1977.

Docket Number: 77-00339. Applicant: HEW, PHS, Center for Disease Control, 255 East Paces Ferry Road NE., Atlanta, Ga. 30305. Article: Gammacell 220 High Dose Rate Laboratory Irradiator and Accessories. Manufacturer: Atomic Energy of Canada, Ltd., Canada. Intended use of article: The article is intended to be used to study live viruses; specifically, live hemorrhagic fever viruses will be studied in the hope that gamma irridiation will inactivate these and make useable for standard laboratory diagnostic procedures. Gamma irradiation of the viruses under study will permit transport to field operations area so that diagnosis can be done in the field. Various animal models will be given wholebody irradiation to permit studies in the immunological aspects of these hemorrhagic fever viruses. Dose response investigations will be conducted in order to determine what dosages of irradiation will inactivate the viruses. Application received by Commissioner of Customs: August 12, 1977.

V 42 179 SEP 15 77 UMI

Docket Number: 77-00340. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 87545. Article: 2 (each) Image Converter Camera Systems, and Accessories. Manufacturer: Hadland Photonics Ltd., United Kingdom. Intended use of article: The article is intended to be used to photograph the motion of the high-temperature plasma column in the Scylla IV-P theta-pinch device which is part of the U.S. program to produce energy for peaceful purposes through controlled nuclear fusion. Specific experiments to be conducted include the following:

(a) Studies of the phenomena involved in the plasma heating processes (shock, heating, and adiabatic compression heating).

(b) Studies of the plasma end-loss phenomena and various methods of reducing both the particle end-loss and the heat loss by axial thermal conduction.

(c) Determination of the detailed plasma properties such as temperature, density, and confinement time.

(d) Study of the nuclear fusion reactions which occur in the hot plasma.

Application received by Commissioner of Customs: August 15, 1977.

Docket Number: 77-00341. Applicant: University of California—Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 85745. Article: Amplifier Module, Series 600A and Accessories. Manufacturer: Lumonics Research Ltd., Canada. Intended use of article: The article is an essential part of the research program in which a laser pulse amplification scheme has been developed which will make possible million-fold amplification via multiple optical passes in a single CO_2 amplifier unit. The article will be used to test these schemes for multi-pass light amplification on a reduced scale, with equipment matching as closely as possible the optical electronic and physical characteristics of the much larger amplifier systems in which these concepts will be implemented. Application received by Commissioner of Customs: August 22, 1977.

Docket Number: 77-00342. Applicant: University of Michigan, 1024 Chemistry, North University, Ann Arbor, Mich. 48109. Article: ASL A-7 fully automated AC Bridge. Manufacturer: Automated Systems Lab. Ltd., United Kingdom. Intended use of article: The article is intended to be used for the study and understanding of the energetic spectrum of matter; the chemical thermodynamic properties of matter including the entropy, enthalpy, tempered Gibbs energy function, etc.; the electronic, structural, as well as the molecular disordering and librational freedom of molecules are both immediate and indirect objectives. The materials to be studied include the following:

Actinide pnictides (e.g., $ThSb_2$), chalcogenides (e.g., UOS), halides (e.g., UCl_3).
Lanthanide trihydroxides (e.g., $Gd(OH)_3$).
Transition element pnicides (e.g., $Cu_{1.82}S$, djurleite).
Molecular crystals (e.g., paraterphenyl, thiourea, etc.).
Ionic crystals (e.g., PbF_2).
Vitreous materials (e.g., B_2O_3).

The article will also be used for educational purposes in the courses Post-doctoral Research, Doctoral Research in Chemistry, and Honors Research in Chemistry. Application received by Commissioner of Customs: August 22, 1977.

Docket Number: 77-00343. Applicant: Baylor College of Medicine, Department of Cell Biology—1200 Moursund Avenue, Houston, Tex. 77030. Article: Electron Microscope, Model JEM-100CX with side entry goniometer and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for high resolution transmission and scanning transmission electron microscopic studies of the cytoskeletal changes associated with neoplastic progression in fibroblastic tissue and mammary epithelial cells. Specifically, the article will be used in conjunction with an energy dispersive spectrophotometer to perform microanalysis of particulate material within the fibroblasts and mammary epithelial cells both in normal and pathological samples. Studies will be conducted regarding the effects of estrogen on the synthesis of plasma lipoprotein produced in the cockeral as studied in the liver. The article will also be used for the training of medical and graduate students, faculty and technical staff in electron microscopy. Application received by Commissioner of Customs: August 22, 1977.

UNIVERSITY OF TEXAS SYSTEM CANCER CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 77-00194. Applicant: The University of Texas System Cancer Center, 6723 Bertner Avenue, Houston, Tex. 77030. Article: Impulscytophotometer, Model ICO-11. Manufacturer: Phywe Co., West Germany. Intended use of article: The article is intended to be used for high speed analysis of intracellular compounds by means of fluorescence. The material to be studied will be cultured human cells and biopsy material from patients with malignant diseases. The article will serve as a tool to assess the effect of physical and chemical agents on cell cycle progression of both cultured cells and human tumors in vivo. The objectives of such studies are to define the mechanism of action of new anti-tumor agents at the cellular level, to correlate cytokinetic with cytocidal effects, to utilize data on cell cycle progression as a potential predicator for in vivo tumor response, to develop combination chemo- and immuno-therapy protocols for patients with malignancies based on information provided in such studies.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (July 23, 1976). Reasons: The foreign article provides a flow system in which excitation is parallel to the sample flow minimizing cell geometry effects stable excitation and a band of ultraviolet wavelengths (390-400 nano meters) to allow optional choice of wavelengths excitation. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated July 11, 1977, that (1) the capabilities of the foreign article described above are pertinent to the applicant's intended uses, and (2) it knows of no domestic instrument that provided the pertinent features at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket No. 8-77]

PHILADELPHIA PORT CORP.

Application and Public Hearing

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the Philadelphia Port Corp., a Pennsylvania corporation, Philadelphia, Pa., requesting a grant of authority for the establishment of a foreign-trade zone in the City of Philadelphia, within the Philadelphia Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81), and the regulations of the Board (15 CFR Part 400). It was formally filed on August 26, 1977. The applicant is authorized to make this proposal under Pennsylvania State Act No. 126 (Pub. L. 291), approved June 16, 1935.

The proposal calls for the establishment of general-purpose foreign-trade zone sites at Pier 78 South, Pier 78 South-Annex Buildings 1, 2, and 3, and Pier 98 South-Annex, all located on the Delaware River waterfront within the City of Philadelphia. These sites have existing facilities not presently being used, which would be activated to serve firms requiring zone services. The facilities include a two-story pier shed, a three-story bulkhead shed, and 9,450 square feet of land space at Pier 78 South, three existing warehouse facilities totaling about 250,000 square feet at Pier 78 South-Annex, and a 23.7 acre open storage yard at Pier 98 South-Annex. The Philadelphia Port Corp. leases the sites and facilities from the City of Philadelphia for port development purposes. The Port, which will both sponsor and operate the zone sites, is coordinating the project with the area's economic development agencies. The initiation of zone services is specifically part of the City's waterfront development plan.

The application contains economic data and information concerning the need for providing zone services to various firms in the Philadelphia area. Several firms have indicated their intention to use the zone for warehousing, exhibition, manipulation, and distribution activities. Among the initial zone users are firms involved with machine tools, electronic computer equipment, camping and recreation equipment, wigs, alcoholic beverages, and scientific apparatus.

In accordance with the Board's regulations, an Examiners Committee has been appointed to investigate the application and report thereon to the Board. The Committee consists of:

Hugh J. Dolan (Chairman), Office of the Secretary, U.S. Department of Commerce, 14th and E Streets NW., Washington, D.C. 20230; John Noon, Director, Inspection and Control Division, U.S. Customs Region III, 40 S. Gay Street, Baltimore, Md. 21202; and Colonel Harry V. Dutchyhyn, District Engineer, U.S. Army Engineer District Philadelphia, U.S. Custom House, 2nd and Chestnut Street, Philadelphia, Pa. 19106.

In connection with its investigation of the proposal, the Examiners Committee will hold a public hearing on October 5, 1977, beginning at 9 a.m., in the Civil Service Conference Room, 3rd floor, Federal Building, 600 Arch Street, Philadelphia. The purpose of the hearing is to help inform interested persons about the proposal, to provide an opportunity for their expression of views, and to obtain information useful to the examiners.

Interested persons or their representatives are invited to present their views at the hearing. Such persons should, by September 29, notify the Board's Executive Secretary, in writing at the address below, of their desire to be heard. In lieu of an oral presentation, written statements may be submitted in accordance with the Board's regulations to the Examiners Committee, care of the Executive Secretary, at any time from the date of this notice through November 4, 1977. Evidence submitted during the post-hearing period is not desired unless it is clearly shown that the matter is new and material and that there are good reasons why it could not be presented at the hearing. A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

Office of the Director, U.S. Department of Commerce District Office, Room 9448 Federal Building, 600 Arch Street, Philadelphia, Pa. 19106.
Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 6886-B, 14th and E Streets NW., Washington, D.C. 20230.

Dated: September 2, 1977.

JOHN J. DA PONTE, JR.,
Executive Secretary.

[FR Doc.77-26635 Filed 9-13-77;8:45 am]

National Oceanic and Atmospheric Administration

TIDAL DATUMS

Establishment of Gulf Coast Low Water Datum

AGENCY: National Oceanic and Atmospheric Administration, Commerce Department.

ACTION: Establishment of Gulf Coast Low Water Datum.

SUMMARY: In this document the National Ocean Survey, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, gives notice of the establishment of Gulf Coast Low Water Datum as Chart Datum for the Gulf Coast of the United States. This term will progressively replace the term Mean Low Water on all navigational products of the National Ocean Survey. The adoption of Gulf Coast Low Water Datum will provide one uniform low water datum name for the entire Gulf Coast and one continuous low water reference elevation based on the same tidal characteristics to eliminate vertical datum jumps and abrupt horizontal displacements of coastal boundaries.

ADDRESS: Director, National Ocean Survey, National Oceanic and Atmospheric Administration, 6001 Executive Boulevard, Rockville, Md. 20852.

FOR FURTHER INFORMATION CONTACT:

Steacy D. Hicks, Physical Oceanographer, National Ocean Survey, National Oceanic and Atmospheric Administration, 6001 Executive Boulevard, Rockville, Md. 20852. Telephone 301-443-8254.

Pursuant to the authority contained in section 883(a) of Title 33 of the United States Code, the National Ocean Survey, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, designates Gulf Coast Low Water Datum as Chart Datum for the coastal waters of the Gulf Coast of the United States. The designation will become effective sixty days after publication of this notice. Full implementation will take place over a period of approximately two years.

Gulf Coast Low Water Datum is defined as: Mean Lower Low Water when the type of tide is Mixed and Mean Low Water when the type of tide is Diurnal.

Gulf Coast Low Water Datum will be used:

(a) As the base from which depths and contours on nautical charts and bathymetric maps are referred;

(b) For determining the position of the low water line when depicted on large scale charts and maps;

(c) As the base from which tide-prediction heights are referred; and

(d) To fix those coastal boundaries that are formed by, based upon, or measured from (or points thereon) the low water line.

The demarcation between Chart Datum of the Atlantic Coast (Mean Low Water of the Semidiurnal type of tide) and Chart Datum of the Gulf Coast (Gulf Coast Low Water Datum) occurs at the boundary between the Semidiurnal tide of the Atlantic and the adjacent Mixed tide of the Gulf. The boundary from Mixed to Semidiurnal occurs where the value of the ratio of the principal Diurnal constituents of the tide of the principal Semidiurnal constituents becomes less than 0.25. The official boundary is represented by lines on the largest scale nautical charts of the National Ocean Survey extending:

(a) From the intersection of the most westerly segment of the southern border of Biscayne National Monument and the land (just south of Mangrove Point);

(b) Along the southwest segments of the southern border of the Monument to Old Rhodes Point on the southeast corner of Old Rhodes Key;

(c) Hence, from Old Rhodes Point to the northwest corner of the John Pennekamp Coral Reef State Park;

(d) Along the land of the northwestern border of the Park (with the exception of the coastal indentations of Largo Sound) to the southwest corner (just southwest of Rock Harbor); and

(e) Hence, from the southwest corner of the John Pennekamp Coral Reef State Park along its southwest border and continuing straight out to sea just south and beyond Molasses Reef.

Gulf Coast Low Water Datum extends from the demarcation outlined immediately above, around the southern extremity of Florida (including the Keys), hence along the coastal waters of the Gulf Coast to the border between the United States and Mexico.

The purpose for the adoption of Gulf Coast Low Water Datum is to provide:

(a) One uniform low water datum name for the entire Gulf Coast; and

(b) One continuous low water reference elevation based on the same tidal characteristics, in order to eliminate:

(1) Vertical datum jumps; and

(2) The resultant abrupt horizontal displacements of coastal boundaries.

This action does not eliminate the datums of Mean Low Water or Mean

V 42 179 SEP 15 77 UMI

Lower Low Water along the Gulf Coast. Furthermore, it does not affect any mid or high water datums directly or by inference.

For navigational purposes, the designation of Gulf Coast Low Water Datum as Chart Datum constitutes a change in name only. Due to:

(a) Roundoff procedures in hydrographic surveying and chart compilation;

(b) Thickness of the demarcation depicting the low water line on nautical charts;

(c) Deposition and/or erosion of the bottom between surveys; and

(d) Accretion and/or erosion of the shore between surveys, there will be no change in content or accuracy of any navigational product of the National Ocean Survey. However, the term Mean Low Water will be progressively replaced by the term Gulf Coast Low Water Datum on all navigational products of the National Ocean Survey over a period of approximately two years.

In future low water surveys, significant discrepancies may be found by the surveyor in the transfer from Mean Low Water to Gulf Coast Low Water Datum when the type of tide is Mixed. It has been determined that the maximum difference will not exceed 0.6 feet vertically, with the corresponding horizontal displacement being a function of the varying shore slope. However, the vertical jumps and abrupt horizontal displacements will be eliminated in the transfer.

Private and other Federal, State, and local government agencies concerned with surveying, mapping, marine, legal, and engineering activities are encouraged to use Gulf Coast Low Water Datum as appropriate to their respective interests.

Inquiries and comments are welcome and should be sent to the address set out above.

T. P. GLEITER,
Assistant Administrator for Administration.

COMMISSION OF FINE ARTS

MEETING

The Commission of Fine Arts will meet in open session on Tuesday, September 27, 1977, at 10:00 a.m. in the Commission offices at 708 Jackson Place NW., to discuss various projects affecting the appearance of Washington, D.C.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to: Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address.

This confirms notice of January 11, 1977, published at 42 FR 2337.

Dated in Washington, D.C. September 12, 1977.

CHARLES H. ATHERTON,
Secretary.

[FR Doc. 77-26868 Filed 9-14-77;8:45 am]

DEPARTMENT OF DEFENSE

Air Force Department

USAF SCIENTIFIC ADVISORY BOARD

Meeting

SEPTEMBER 9, 1977.

The USAF Scientific Advisory Board Science and Technology Advisory Group, Standing Committee on Research, Air Force Systems Command, will hold meetings on October 11, 1977, from 8:30 a.m. to 5:00 p.m. and October 12, 1977, from 7:30 a.m. to 3:00 p.m., at Air Force Armament Test Laboratory, Eglin AFB, FL, Room 204, Building 1, Andrews Hall.

The Committee will receive briefings and participate in discussions related to United States Air Force research and research needs which support weapons development for conventional warfare.

The meeting concerns matters listed in section 552(b)(5) of Title 5, United States Code and, therefore, the meeting will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at 202-697-8404.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

[FR Doc.77-26749 Filed 9-14-77;8:45 am]

USAF SCIENTIFIC ADVISORY BOARD

Meeting

SEPTEMBER 8, 1977.

The USAF Scientific Advisory Board Meeting of the ad hoc Committee on Cruise Missile Technology scheduled to be held on September 22, 1977, from 9:00 a.m. to 5:00 p.m. at Langley AFB, Va., has been changed to October 18, 1977. All other information is the same. This meeting was advertised in FR Vol. 42, No. 25119.

For further information contact the Scientific Advisory Board Secretariat at 202-697-4648.

FRANKIE S. ESTEP,
Air Force Federal Register, Liaison Officer, Directorate of Administration.

[FR Doc.77-26750 Filed 9-14-77;8:45 am]

Office of the Secretary of Defense

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-463, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, November 1; Tuesday, November 8; Tuesday, November 15; Tuesday, November 22; and Tuesday, November 29, 1977, at 9:45 a.m. in Room 1E801, the Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 93-463, the Federal Advisory Committee Act, meetings may be closed to the public when they are "concerned with matters listed in section 552b of Title 5, United States Code." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b(c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b(c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b(c)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters believed to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D281, the Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

SEPTEMBER 12, 1977.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

ADVISORY COMMITTEE ON GEOTHERMAL ENERGY, RESOURCE SUBCOMMITTEE

Meeting

SEPTEMBER 9, 1977.

In accordance with provisions of Pub. L. 92-463 (Federal Advisory Committee Act), the Resource Subcommittee of the Advisory Committee on Geothermal Energy will hold its second meeting Thursday and Friday, September 29-30, 1977. The meeting on Thursday will take place from 8:30 a.m. to 5 p.m., Room 1408, University Club Building, 136 East South Temple Street, Salt Lake City, Utah. On Friday, as supplement to deliberations, the Subcommittee will tour a local industrial facility. The meeting will be open to the public. The purpose of this meeting is: to review plans and activities of the Division of Geothermal Energy, U.S. Energy Research and Development Administration; in particular, to discuss and to provide advice on programs and approaches to effective government-industry cooperation with respect to geothermal resource assessment problems in the development of geothermal energy.

The tentative agenda for the meeting is as follows:

8:30 a.m., Introductory Remarks—Dr. C. William Berge, Chairman.
8:45 a.m., Progress in the Development of Hot Dry Rock—Dr. R. Brownlee, Los Alamos Scientific Laboratory.
10 a.m., Current and Future Availability of Rigs and Service Personnel—Mr. W. A. Glass.
11 a.m., Geothermal Well Logging: The Need for Equipment Development, Calibration Wells, and Interpretation Criteria Appropriate to Igneous Rocks—Mr. R. B. Hyde, Jr.
12 noon, Lunch.
1:15 p.m., Resource Assessment—Dr. J. B. Combs.
2 p.m., Review of ERDA Geothermal Resource Exploration and Assessment Program—Chairman and Members.
4 p.m., Overview of Geology of Roosevelt Cove Port, and Sulphurdale Area—Dr. Stanley Ward, University of Utah.
5 p.m., Adjourn.

Practical considerations may dictate alterations in the above agenda. This will be a working meeting and the Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing 12 copies thereof, postmarked no later than September 22, 1977, to the Director, Division of Geothermal Energy, U.S. Energy Research and Development Administration, 20 Massachusetts Avenue NW., Washington, D.C. 20545. Comment shall be directly relevant to the above agenda items. Minutes of the meeting will be kept open for 30 days for the receipt of written statements for the record.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on September 26, 1977, to the Division of Geothermal Energy, Energy Research and Development Administration, Helen Krupovich on 202-376-4904 between 8:30 a.m. and 5 p.m., E.S.T.

(c) Questions at the meeting may be propounded only by members of the Subcommittee and ERDA officials assigned to participate with the Subcommittee in its deliberations.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during the recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Copies of minutes will be made available for copying, following their certification by the Chairman in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue NW., Washington, D.C. 20545, upon payment of all charges required by law.

HARRY L. PEEBLES,
Deputy Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-42015B; FRL 791-8]

HAWAII

Extension of Contingency Approval of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136) and 40 CFR Part 171 (39 FR 36445 (October 9, 1974) and 40 FR 11698 (March 12, 1975)), the Honorable George R. Ariyoshi, Governor of the State of Hawaii, submitted a State Plan for Certification of Pesticide Applicators to the Environmental Protection Agency (EPA) contingent upon promulgation of implementing regulations. On June 9, 1976, the Regional Administrator, EPA, Region IX, approved the Plan on a contingency basis, allowing one year for promulgation of the regulations. Notice of the approval was published in the FEDERAL REGISTER on July 13, 1976 (41 FR 28841).

Subsequently, on July 8, 1977, the State of Hawaii requested an extension of the period of the contingent approval in order to allow additional time to promulgate the regulations required for full approval. The Agency finds that there is good cause for approving this request and as such has granted an extension until December 31, 1977.

Dated: September 7, 1977.

PAUL DE FALCO, JR.,
Regional Administrator, Region IX.

[FR Doc.77-26938 Filed 9-14-77;8:45 am]

[FRL 791-6]

HAZARDOUS WASTE MANAGEMENT

Public Meetings

The Environmental Protection Agency will hold three identical public meetings in October to review and discuss the provisions of Subtitle C of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act (Pub. L. 94-580), of 1976.

Subtitle C of the Act creates a regulatory framework to control hazardous waste. Congress has found that such wastes present "special dangers to health and require(s) (sic) a greater degree of regulation than does nonhazardous solid waste" (Section 1002(b)(5)). Because of the seriousness of this solid waste management problem, Congress intended that the States develop programs to control it. In the event that States do not choose to operate this program, EPA is mandated to do so.

A series of seven guidelines and/or regulations is being developed under Subtitle C to implement the hazardous waste program. The principle subject areas are the following:

Section 3001—identification criteria for and lists of wastes which are hazardous.
Section 3002—standards applicable to generators of hazarodus waste.
Section 3003—standards applicable to transporters of hazardous waste.
Section 300—standards applicable to owners and operators of hazardous waste treatment, storage, and disposal facilities.
Section 3005—regulations for issuing permits for treatment, storage, or disposal of hazardous waste.
Section 3006—guidelines to assist States in the development of State hazardous waste programs.
Section 3010—a program for notification by persons generating and/or transporting hazardous wastes, and/or owning or operating a facility for storage, treatment, and disposal of hazardous wastes.

Internal Agency working groups were constituted in February 1977 to develop these guidelines and/or regulations. The Agency has held a number of public meetings and workshops throughout the country to gain input for them. At this stage of the regulation development process, EPA would like to share the prospective outline of the draft guidelines and regulations for further public comment prior to formal proposal. Further Agency-wide deliberations will follow these meetings prior to proposal in the FEDERAL REGISTER. Therefore, the draft guidelines and regulations that will be discussed at these identical meetings, while reflecting the current Agency position, will be further analyzed by EPA based on the comments and reactions received at these meetings.

EPA Office of Solid Waste personnel will review and discuss the content of these draft guidelines and/or regulations at the three identical public meetings which will be held at the following locations:

October 11-12, 1977, Ramada Inn (Rosslyn), 1900 North Ft. Myer Dr., Arlington, Va. 22209—time: 8 a.m. (registration).
October 13-14, 1977, The Chase-Park Plaza Hotel, 212 North Kingshighway Blvd., St. Louis, Mo., 63108—time: 12 noon (registration).
October 17-18, 1977, Safari Hotel, 4611 North Scottsdale Rd., Scottsdale, Ariz. 85251—time: 12 noon (registration).

Summaries of the materials that will be reviewed at these meetings will be available after September 20, 1977, by contacting: Mrs. Geraldine Wyer, Public Participation Officer, Office of Solid Waste, WH-462, U.S. Environmental

[FRL 791-5; OPP-180147]

IDAHO STATE DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Control Twospotted Spider Mite on Hop Crop

The Environmental Protection Agency (EPA) has granted a specific exemption to the Idaho State Department of Agriculture (hereafter referred to as the "Applicant") to use TEPP (tetraethyl pyrophosphate) for the control of twospotted spider mites which are threatening to destroy the commercial hop crop in Canyon County, Idaho. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St. SW., Room E–315, Washington, D.C. 20460.

According to the Applicant, the Twospotted Spider Mite (*Tetranychus urticae* Koch) has or is about to occur in hop yards in Idaho and no registered pesticide nor alternative method of control is available to suppress the mites.

Although several miticides are registered for use on hops, Idaho State University entomologists alleged that none of the registered miticides were viable options for one or more of various reasons: (1) The spider mites were resistant to the other miticides; (2) aerial applications were precluded because of ineffectiveness or labeling restrictions; and/or (3) the required pre-harvest interval excluded application at the time required. Ground pesticide applications were not feasible because of damage to hop foliage, lodged hops, and irrigation equipment. The Applicant stated that TEPP has prevented economic damage to the hop crop by this pest in previous years. The Applicant requested approval to treat the 1,500-acre commercial hop crop with two (2) pounds of actual TEPP per acre in a single aerial application to suppress populations of twospotted spider mite which are threatening this crop in Canyon County. The pesticide will be applied by State-licensed aerial applicators under the Applicant's supervision; the application will terminate no later than September 15, 1977. A three-day pre-harvest interval will be maintained.

The State of Idaho is producing 1,500 acres of the nation's early-maturing hop crop. The Applicant stated that the potential crop yield loss attributable to the mites in Idaho is valued at $700,000.

The applicant cited the following factors which contribute to a relatively low probability of exposure of man to harmful residues of TEPP from hops: (1) Raw hops are never consumed by humans and hops are kiln-dried following harvest; (2) one-fourth pound of hops is added to each thirty-one (31) gallons of beer, a 1:1,000 dilution by weight; and (3) fermentation in the brewing vats results in additional breakdown of pesticide residues. However, TEPP exhibits acute toxicity to fish and wildlife species, especially avian species. We have consulted with the Fish and Wildlife Service, U.S. Department of the Interior (USDI), and have been advised that two endangered species, the Arctic and American Peregrine Falcons, may be present in the Idaho counties where the pesticide is to be applied; however since neither species is known to frequent hop fields, no serious adverse effects on an endangered species and/or its habitat are expected to result from the use of TEPP. In order to minimize adverse effects on fish and wildlife resources we have required that liaison be established with the Idaho State Departments of Agriculture, and Fisheries and Game.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of twospotted spider mites has or is about to occur; (b) there is no pesticide presently registered and available for use to control the twospotted spider mites in Idaho; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the twospotted spider mites are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 15, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

(1) Aerial applications of TEPP are limited to one (1) at the rate of two (2.0) pounds of active ingredient per acre;

(2) Total acreage treated shall not exceed 1,500 acres;

(3) A maximum of 3,000 pounds of active TEPP will be applied;

(4) Treatment area is limited to Canyon County;

(5) A three-day pre-harvest interval will be observed;

(6) The Applicant is responsible for monitoring aerial applications of TEPP;

(7) Liaison shall be established with the Idaho State Departments of Agriculture, and Fisheries and Game to minimize any adverse effects on fish and wildlife resources;

(8) The EPA shall be immediately informed of any adverse effects resulting from the use of this pesticide in connection with this exemption;

(9) All applicable directions, restrictions and precautions on EPA-registered label will be observed;

(10) All precautions will be taken to avoid or minimize spray drift to nontarget areas; and

(11) Hops with residue levels not exceeding 0.1 ppm (part per million) may be offered in interstate commerce. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, has been advised of this action.

Dated: September 8, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.77-26736 Filed 9-14-77;8:45 am]

[FRL 791-4; OPP-180149]

MINNESOTA DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Use Mesurol To Control Blackbirds on Wild Rice

The Environmental Protection Agency (EPA) has granted a specific exemption to the Minnesota Department of Agriculture (hereafter referred to as the "Applicant") to use Mesurol (3,5-dimethyl-4-(methylthio) phenyl methyl carbamate) to control blackbirds which are causing grain losses on commercial wild rice in thirteen counties in Minnesota. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460.

According to the Applicant, blackbirds attack cultivated wild rice paddies every year; if not controlled, blackbird damage may cause well over 50 percent of the wild rice grain to be lost prior to harvest, and as a result, economic losses of from 1.5 to 2.0 million dollars may occur. The areas to be treated cover approximately 25,000 to 30,000 acres of commercial wild rice located in the following counties: Aitkin, Beltrami, Cass, Clearwater, Crow Wing, East Polk, Hubbard, Itasca, Koochiching, Lake of the Woods, Pennington, Red Lake, and Wadena. The Applicant will apply Mesurol aerially at a dosage rate of 1.5 to 3.0 pounds active ingredient per acre. At the lower rate, two applications may be made. The 75 percent WP formulation of Mesurol will be used; a 14-day pre-harvest interval will be observed.

Mesurol is currently registered as a seed treatment on corn for repelling blackbirds. Tolerances for Mesurol have been established on cherries (25 ppm) and peaches (15 ppm), in addition to corn (0.03 ppm). EPA has determined that only trace residues (less than 0.1 ppm) will occur in the human food processed wild rice. Since neither the processed by-products (husks, debris) nor straw are used as animal feed items, there is no expectation of finite residues of Mesurol in meat, poultry, and eggs. Therefore, a 0.1 ppm residue level of this pesticide in or on processed wild rice grain will not constitute a human health hazard; in addition, wild rice constitutes a very small fraction of the human diet.

The Fish and Wildlife Service, U.S. Department of the Interior (USDI), has informed EPA that two endangered species, the Peregrine Falcon (*Falco peregrinus*) and the Wolf (*Canis lupus*), may be present in the Minnesota counties where the pesticide is to be applied; however, since neither species is known to frequent rice paddies, it is not believed that Mesurol will cause any adverse effects in this respect. Because of the large acreage involved, there is also a possibility that some mortality to non-target song-birds will occur. However, most of these birds would ingest only enough to induce the repellancy effect of this substance; this effect would discourage the birds from ingesting further amounts of treated grain which would induce death. Finally, both the USDI and EPA agree that Mesurol is acutely toxic to fish and aquatic invertebrates; accidental contamination of aquatic areas near these rice paddies will result in fish kills. Therefore, the utmost caution must be exercised by the applicators of this pesticide to avoid such contamination.

After reviewing the application and other available information, EPA has determined that (a) an emergency situation concerning blackbird damage to commercial wild rice crops has occurred; (b) there is no pesticide presently registered and available for this use to control blackbirds in Minnesota; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the blackbirds are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 15, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The Chemagro product, Mesurol 75% WP, is authorized;

2. The dosage rate shall be 1.5 to 3.0 pounds active ingredient per acre; two applications may be made at the 1.5 pound rate. Total amount applied per acre must not exceed 3.0 pounds active ingredient;

3. Up to 30,000 acres in the thirteen counties listed in this notice may be treated;

4. Only State-certified and licensed commercial applicators may apply Mesurol;

5. Aerial applications are authorized;

6. A residue level of Mesurol in or on processed wild rice grain not exceeding 0.1 ppm has been deemed adequate to protect the public health; the Food and Drug Administration of the U.S. Department of Health, Education, and Welfare has been advised of this action. There will be a pre-harvest interval of 14 days;

7. Applicators must take careful measures to avoid contamination of adjacent aquatic areas or fish kills will occur;

8. The University of Minnesota should continue to monitor residue levels of Mesurol in soil and wild rice in cooperation with Chemagro. In addition, efficacy data should be collected so that a registration of this pesticide for use on wild rice may be obtained;

9. Any adverse effects of this pesticide in connection with this specific exemption must be reported to the EPA immediately. In particular, the Peregrine Falcon and the Wolf are endangered species that occur in north central Minnesota; utmost caution must be exercised to prevent contamination of areas frequented by these species. Mesurol is also toxic to bees. Drift to nontarget areas must be avoided;

10. Applications are limited to drained wild rice fields; and

11. A report summarizing the results of this program must be submitted to the EPA by the end of 1977.

(Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) *et seq.*).)

Dated: September 8, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc 77 26735 Filed 9-14-77;8:45 am]

[FRL 791-2; OPP-180145]

MINNESOTA DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Use Malathion To Control Wild Rice Worm on Commercial Wild Rice Crop

The Environmental Protection Agency (EPA) has granted a specific exemption to the Minnesota Department of Agriculture (hereafter referred to as the "Applicant") to use malathion to control populations of the Wild Rice Worm (*Apamea apamiformis*) which are threatening the commercial wild rice crop in thirteen (13) counties in Minnesota. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M. St. SW., Room E–315, Washington, D.C. 20460.

According to the Applicant, approximately 30,000 acres of commercial wild rice require treatment with malathion to control damage caused by the wild rice worm. The rice crop to be treated is located in the following counties: Aitkin, Beltrami, Cass, Clearwater, Crow Wing, East Polk, Hubbard, Itasca, Koochiching, Lake of the Woods, Pennington, Red Lake, and Wadena. The wild rice worm appears to be a continuing pest of this food crop in Minnesota.

There appear to be no registered alternative pesticides nor alternative methods of control available to suppress this pest. The Applicant has previously submitted efficacy data which indicate that malathion is effective in controlling the wild rice worm. Application of malathion E.C. on grain crops, including rice, is a registered use pattern. The recommended dosage rate for control of several insects on grains is one pound of active ingredient malathion per acre, which is the application rate the Applicant will use. There will be a single aerial application, and a 10-day pre-harvest interval. Without this application, the Applicant estimated that wild rice growers could lose 50 to 75 percent of the 1977 commercial crop to wild rice worm damage; estimated value of the potential loss is $1,500,000 to $2,000,000.

EPA has determined that wild rice bearing residues not in excess of 8.0 parts per million (ppm) will not pose a hazard to human health. The Fish and Wildlife Service, U.S. Department of the Interior (USDI), has advised EPA that one endangered species, the Timber Wolf (*Canis lupus lycaon*), is found occasionally in the counties listed; in addition, two endangered migratory avian species, the Whooping Crane (*Grus americana*) and the Arctic Peregrine Falcon (*Falco peregrinus tundrius*), pass through the area. However, both species will be located north of Minnesota during the rice growing season.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of wild rice worm has occurred; (b) there is no pesticide presently registered and available for use to control the wild rice worm on the commercial wild rice crop in Minnesota; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the wild rice worm is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until August 31, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. A malathion E. C. product bearing labeling appropriate for aerial application will be used;

2. The dosage rate shall not exceed one pound of actual malathion per acre per application;

3. A single application may be made;

4. The counties to be treated are limited to the ones listed in this notice;

5. Applications of malathion are prohibited within ten days of harvest;

6. Wild rice with malathion residues not exceeding 8.0 ppm will not pose a hazard to the public health and may be offered in interstate commerce. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare has been advised of this action;

7. All applicable directions, restrictions, and precautions on the EPA-registered label will be followed;

8. Every precaution shall be taken to avoid or minimize spray drift to non-target areas;

9. The EPA shall be immediately informed of any adverse effects resulting from the use of this pesticide in connection with this exemption;

V 42 I 179 SEP 15 77 S UMI

10. EPA has been advised that one endangered species, the Timber Wolf, is found occasionally in the counties listed above; further, two endangered migratory avian species, the Whooping Crane and the Arctic Peregrine Falcon, pass through the area. Therefore, in order to prevent damage to these endangered species and their habitats, the Applicant must confer with the Endangered Species Program, Fish and Wildlife Service, USDI, prior to making applications of malathion to wild rice fields;

11. Treated water shall not be used to irrigate other crops or to water livestock;

12. Applications shall not be made to fish-bearing waters; and

13. A maximum of 30,000 pounds active malathion may be applied.

(Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat 751; 7 U.S.C. 136(a) et seq.).)

Dated: September 8, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc 77-26732 Filed 9-14-77;8:45 am]

[FRL 790-3]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Delegation of Authority to State of Wyoming

On December 23, 1971 (36 FR 24876), and March 8, 1974 (39 FR 9808), and August 6, 1974 (39 FR 33152), and September 23, 1975 (40 FR 43850), and October 6, 1975 (40 FR 46250), and December 16, 1975 (40 FR 58416), and December 22, 1975 (40 FR 59204), and January 15, 1976 (41 FR 2232 and 2332), and January 26, 1976 (41 FR 3826), and May 4, 1976 (41 FR 18501), pursuant to section 111 of the Clean Air Act, as amended, the Administrator promulgated regulations establishing standards of performance for twenty-four (24) categories of new stationary sources (NSPS).

Section 111(c) directs the Administrator to delegate his authority to implement and enforce NSPS to any State which has submitted adequate procedures. Nevertheless, the Administrator retains concurrent authority to implement and enforce the standards following delegation of authority to the State.

On February 23, 1977, the Governor of the State of Wyoming submitted to the EPA Regional Office a request for delegation of authority. Included in that request were procedures for NSPS and information on available resources to implement such review. Included in that request were copies of the State of Wyoming regulations which incorporate the federal emission standards and testing procedures set forth in 40 CFR Part 60, with certain exceptions. After a thorough review of that request and applicable State statutes, the Regional Administrator has determined that for the source categories set forth in paragraph A of the following official letter to the Governor of the State of Wyoming, delegation is appropriate subject to the conditions set forth in paragraphs 1 through 14 of that letter:

HON. ED HERSCHLER,
Governor of Wyoming,
Wyoming Executive Department,
Cheyenne, Wyo. 82001

DEAR GOVERNOR HERSCHLER: This is in response to your letter of February 23, 1977, requesting delegation of authority for implementation and enforcement of New Source Performance Standards (NSPS) to the Air Quality Division of the Wyoming Department of Environmental Quality.

We have reviewed the pertinent laws of the State of Wyoming and the Air Quality Standards and Regulations of the Wyoming Department of Environmental Quality and have determined that they provide an adequate and effective procedure for implementation and enforcement of the NSPS by the State of Wyoming. We have reviewed the resources and capabilities of the State of Wyoming. Therefore, we hereby grant delegation of NSPS to the State as follows:

A. Authority for all sources located in the State of Wyoming subject to the request for delegation contained in your letter of February 23, 1977. The categories of new sources covered by the delegation are fossil fuel-fired steam generators; incinerators; portland cement plants; nitric acid plants; sulfuric acid plants; asphalt concrete plants; petroleum refineries; storage vessels for petroleum liquids; secondary lead smelters; secondary brass and bronze ingot production plants; iron and steel plants; sewage treatment plants; primary copper smelters; primary zinc smelters; primary lead smelters; primary aluminum reduction plants; coal preparation plants; ferroalloy production; steel plants with electric arc furnaces; and in the phosphate fertilizer industry—wet process phosphoric acid plants, superphosphoric acid plants, diammonium phosphate plants, triple superphosphate plants, and granular triple superphosphate storage facilities.

This delegation is subject to the following conditions:

1. Semiannual reports, which include information for sources which receive approval to construct or begin operations, will be submitted to the Environmental Protection Agency (EPA) by the Air Quality Division of the Department of Environmental Quality.

2. The Air Quality Division of the Department of Environmental Quality and EPA will develop a system of communication sufficient to guarantee that each office is always fully informed and current regarding compliance status of the subject sources and interpretation of the regulations.

3. Enforcement of the NSPS in the State of Wyoming will be the primary responsibility of the Air Quality Division of the Department of Environmental Quality. If the Air Quality Division determines that such enforcement is not feasible and so notifies EPA, or if the Air Quality Division acts in a manner inconsistent with the terms of this delegation, EPA may exercise its concurrent enforcement authority pursuant to section 113 of the Clean Air Act, as amended, with respect to sources within the State of Wyoming subject to the NSPS.

4. Acceptance of this delegation of presently promulgated NSPS does not commit the State of Wyoming to accept delegation of future standards and requirements. A new request for delegation will be required for any standards not included in the State's Request of February 23, 1977.

5. Upon approval of the Regional Administrator of Region VIII, the Director of the Air Quality Division of the Department of Environmental Quality may subdelegate his authority to implement and enforce the NSPS to local air pollution control authorities in the State when such authorities have demonstrated that they have equivalent or more stringent programs in force.

6. The delegation to the State of Wyoming does not include the authority to implement and enforce NSPS for sources owned or operated by the United States which are located in the State. This condition in no way relieves any Federal facility from meeting the requirements of 40 CFR Part 60 or any State or local regulation.

7. The State of Wyoming will at no time grant a variance or waiver from compliance with NSPS regulations. Should the Air Quality Division of the Department of Environmental Quality grant such a variance or waiver, EPA wil consider the source receiving such relief to be in violation of the applicable federal regulation and may initiate enforcement action against the source pursuant to section 113 of the Clean Air Act. The granting of such relief by the Air Quality Division shall also constitute grounds for revocation of delegation by EPA. Except it is understood that Wyoming may, under State law, grant a variance from compliance with the applicable opacity standard. The granting of such a variance must comply with provisions 40 CFR 60.11(e)(1)-(4).

8. Actions in process at the time of delegation of authority shall be processed through to completion by the Regional Office. Subsequent enforcement requirements shall be performed by the delegatee.

9. If at any time there is a conflict between a State regulation and a Federal regulation (40 CFR Part 60), the Federal regulation must be applied if it is more stringent than that of the State. If the State does not have the authority to enforce the more stringent Federal regulation, this portion of the delegation may be revoked.

10. The Air Quality Division of the Department of Environmental Quality will utilize the methods specified in 40 CFR Part 60 in performing source tests pursuant to the regulations.

11. If the Regional Administrator determines that a State procedure for enforcing or implementing the NSPS is inadequate, or is not being effectively carried out, this delegation may be revoked in whole or in part. Any such revocation shall be effective as of the date specified in a Notice of Revocation to the Air Quality Division of the Department of Environmental Quality.

12. In implementing and enforcing the NSPS, the Air Quality Division of the Department of Environmental Quality will require quarterly reports under section 22(g)(3) to include the information specified in 40 CFR 60.7(c) (3) and (4).

13. Determinations of applicability such as those specified in 40 CFR 60.5 and 60.6 shall be consistent with those which already have been made by the EPA.

14. Waivers of performance and emission tests and the basis therefore shall be included in the semi-annual post delegation reports to EPA.

It is understood that although the Wyoming NSPS regulations do not contain provisions that are equivalent to 40 CFR 60.5 and 60.6, section 21 permit procedures allow owners and operators to obtain this information.

A Notice announcing this delegation will be published in the FEDERAL REGISTER in the near future. The Notice will state, among other things, that, effective immediately, all reports required pursuant to the Federal NSPS by sources located in the State of Wyoming should be submitted to the Air Quality Division of the Department of Environmental Quality Office, Hathaway Building, Cheyenne, Wyoming 82002. Any such reports which have been or may be received by EPA, Region VIII, will be promptly transmitted to the Air Quality Division.

Since this delegation is effective upon the date of this letter, there is no requirement that the State notify EPA of its acceptance. Unless EPA receives from the State written notice of objections within ten (10) days of the date of receipt of this letter, the State will be deemed to have accepted all of the terms of the delegation.

Best personal regards.

Sincerely yours,

JOHN A. GREEN,
Regional Administrator.

cc: RANDOLPH WOOD, *Administrator, Air Quality Division,*
Department of Environmental Quality,
Hathaway Building,
Cheyenne, Wyo. 82002.

Therefore, pursuant to the authority delegated to him by the Administrator, the Regional Administrator notified the Governor of the State of Wyoming on August 2, 1977, that authority to implement and enforce New Source Performance Standards (NSPS) was delegated to the State of Wyoming.

Copies of the request for delegation of authority are available for public inspection at the Environmental Protection Agency, Region VIII Office, 1860 Lincoln Street, Denver, Col. 80295.

Effective immediately, all reports required pursuant to the delegated New Source Performance Standards (NSPS) should not be submitted to the EPA Region VIII Office but instead should be submitted to the State Agency at the following address: Air Quality Division of the Department of Environmental Quality, Hathaway Building, Cheyenne, Wyo. 82002.

Applications for new source review in process at the time of this delegation shall be processed through to completion by the EPA Region VIII Office.

This Notice is issued under the authority of section 111 of the Clean Air Act, as amended. 42 U.S.C. 1857, 1857c-5. 6, 7 and g.

Date: August 25, 1977.

JOHN A. GREEN,
Regional Administrator.

[FRL 791-1; OPP-180142]

UNITED STATES ARMY

Issuance of a Specific Exemption To Use Paranitrophenol To Control Fungi Which Deteriorate Leather

The Environmental Protection Agency (EPA) has granted a specific exemption to the U.S. Army (hereafter referred to as the "Applicant") to use paranitrophenol (PNP) to treat approximately twenty different types of leather military articles in order to prevent the rapid deterioration of these articles by fungi under high humidity conditions. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, the Army has been treating various leather military articles, of which the most important were boots and shoes, for thirty years. However, this particular use of PNP—treating leather during manufacture for the end use protection of the product against fungal decay—has never been registered. The Applicant has formally applied for registration of PNP for the exclusive purpose of treating military leather articles; however, a registration for this purpose will probably not be issued in time for the current year contracts now up for bids. The Applicant was confronted with the problem of not having a registered product for use on leather and having a tight deadline for new contracts.

Without an efficient fungicide, the cost of replacing shoes would increase from 2.4 million dollars to 4.8 million dollars because of fungal decay, the Applicant estimated. In addition to replacement costs, the issuance of new shoes to recruits which amounts to 1.1 million dollars per month would also be delayed. Further delays in issuing contracts would thus progressively result in unsatisfied demands at the rate of 3.5 million dollars per month. This could result in the Applicant's inability to store sufficient stock to serve as protection against a national emergency (mobilization, etc.).

The Applicant will use paranitrophenol (PNP) at a dosage rate of 0.18 to 0.7 percent based on the dry weight of the leather. PNP will be applied during the tanning and/or fat liquoring of the leather or other operations of the tanners in preparing finished leather. PNP will be applied by personnel of the tanning company awarded a contract by the Applicant. The duration of application of PNP is not to exceed one year; either a formal registration of PNP for military use or an acceptable alternative registered fungicide is to be obtained.

At least thirteen genera of fungi are known to cause leather deterioration; damage from these fungi occurs not only in humid tropical regions but also in temperate or cold regions where the humidity is in excess of 65 percent. It is known that during the Korean War, leather shoes not treated with PNP lasted only 10 days in the field. While there are registered fungicide products for treating the surfaces of finished leather for mold/mildew prevention, the Applicant has stated that these products are not practical under field use. There appears to be no registered fungicide that (1) is applied during the manufacturing process, and (2) has a claim for preventing mold/mildew of the finished product. Many fungicides are applied to leather during the tanning process, but the intent is to protect the leather during this process and not for end use.

Paranitrophenol has been used by the Applicant for over thirty years. During this period, wear tests as well as skin patch tests were conducted on personnel and no adverse effects have so far been reported other than some irritation when treated leather was applied directly to the skin. There appear to be no significant health hazards associated with the use of PNP for this purpose. However, there is a potential human health hazard associated with mold/mildew on leather. One of the fungal genera, *Aspergillus*, is also capable of causing Aspergillosis, which is a disease of the lungs in humans.

After reviewing the application and other available information EPA has determined that (a) an emergency situation has occurred; (b) there is no pesticide presently registered and available for use to control these fungi during manufacture for end use protection; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic or potential health problems may result if the fungi are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until June 16, 1978, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Paranitrophenol (PNP) may be used at a dosage rate of from 0.18 to 0.7 percent active ingredient PNP based on the dry weight of the leather;

2. In addition to boots and shoes, the following leather items may be treated with PNP: Footwear counters, money bags, pocket ammunition magazines, policeman's club carriers, side arm shoulder straps, police security belts, handcuff cases, first aid dressing cases, flagstaff, slings, cartridge belt holders, parachute cases, suitcases, and dispatch cases. Any article intended for prolonged direct skin contact must not be treated with PNP;

3. The personnel of various leather manufacturers are authorized to apply PNP provided they are awarded contracts by the Applicant to provide the same with military leather articles;

4. The EPA shall be immediately informed of any adverse effects resulting from the use of this pesticide in connection with this exemption;

5. The Applicant must either submit or initiate subacute and long term toxicity tests as well as teratology tests on PNP; and

6. This specific exemption will terminate either when the use of PNP becomes registered for use by the military or when a suitable alternative registered pesticide becomes available. In any event, this exemption will expire on June 16, 1978.

(Sec. 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated: September 8, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

VIRGINIA DEPARTMENT OF AGRICULTURE AND COMMERCE

Issuance of a Specific Exemption To Use Botran 75W To Control Sclerotinia Blight of Peanuts

The Environmental Protection Agency (EPA) has granted a specific exemption to the Virginia Department of Agriculture and Commerce (hereafter referred to as the "Applicant") to use no more than 4 to 5 pounds of Botran 75W per acre for two treatments for the control of *Sclerotinia* Blight on peanuts in Virginia. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, the *Sclerotinia* Blight which is caused by the plant pathogen *Sclerontinia sclerotiorum* (syn. *S. minor*) is a relatively new disease on peanuts in the United States, being first reported in 1971.

S. sclerotiorum invades the tap root, lateral branches, and pegs at the soil line and eventually causes rotting of the peanut pods. Losses in yield in excess of 50 percent have been reported in North Carolina and Virginia due to this pathogen, the Applicant stated. In Virginia, the Applicant stated that nine (9) major peanut-growing counties located in the southeastern part of the State are likely to be subject to infection by this pest. The total acreage in these counties is 104,000; however, only 50 percent (52,000) of this acreage has been designated for treatment.

Several fungicides have been tested and shown to be effective for the control of *Sclerotinia* Blight on peanuts. Pentachloronitrobenzene (PCNB) when used at maximal label rates did control *S. sclerotiorum* in some instances, but not in others. Multiple applications of Benomyl also provided adequate control. Neither of these fungicides are registered although PCNB has a registration for peanut pod rot complex. For the control of this pest, Botran 75W was chosen by the Applicant because it was considered to be most efficacious for control of *S. sclerotiorum*. In addition, Botran 75W is registered for the control of *Sclerotinia* on several vegetable crops (beans, celery, cucumbers, lettuce, and onions).

The Applicant will use Botran 75W (EPA Reg. No. 1023-36), containing the active ingredient 2,6-dichloro-4-nitroaniline, at a dosage rate of 2 to 2.5 pounds of product per acre.

Two applications will me made at 10-14 day intervals. Total amount of Botran 75W will not exceed 4 to 5 pounds of product per acre. Applications of Botran will be made by peanut growers. A total of 52,000 acres in the following counties will be treated: Brunswick, Dinwiddie, Greenville, Isle of Wight, Prince George, Southampton, Suffolk City, Surry, and Sussex. The diagnosis of this plant pathogen must be made before Botran 75W is applied. The Virginia Cooperative Extension Service recommends the following procedure in the application of Botran 75W. The product should be applied in 25-50 gallons of water over the row using a flat type spray nozzle (floodjet-nozzle or equivalent) that produces large droplets rather than a mist and with a pressure high enough to drive the chemical to the soil surface. Thorough coverage of the peanut plant and soil is essential. Copies of this procedure will be furnished to dealers marketing Botran.

In 1976, the total gross farm income from peanuts in the counties listed was $65,026,000; the estimated income loss due to yield losses because of *S. sclerotiorum* was approximately 5 percent or $3,250,000, according to the Applicant. Similar or higher losses are expected to occur this year if this pathogen is not controlled.

This use of Botran 75W will not pose a threat to the public health, since the residue expected to occur on peanut meat and hulls (less than 0.1 part per million (ppm)) is insignificant. It is recommended that treated peanut vines or hay should not be used as livestock feed items.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of *Sclerotinia* Blight has or is about to occur in Virginia; (b) there is no pesticide presently registered and available for use to control this pest in Virginia; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the pest is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 30, 1977, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Two applications of Botran 75W (EPA Reg. No. 1023-36) at a dosage rate of 2 to 2.5 pounds of product/acre made at 10-14 day intervals are authorized. The total amount of Botran 75W must not exceed 4 to 5 pounds of product (3-3.75 pounds active ingredient) per acre for the two treatments;

2. A total of 52,000 acres of peanuts in the counties previously listed may be treated;

3. Applications may be made by peanut growers;

4. The use of Botran 75W in conjunction with this specific exemption is authorized only when personnel of the Virginia Cooperative Extension Service determine the presence of *Sclerotinia* Blight in a given growing field;

5. The Virginia Cooperative Extension Service recommendations concerning application methods and equipment must be made available to growers;

6. A residue level of 2,6-dichloro-4-nitroaniline in or on peanut meat and hulls not exceeding 0.1 ppm has been deemed adequate to protect the public health. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare, has been advised of this action;

7. All label precautions must be followed; and

8. The EPA shall be immediately informed of any adverse effects as a result of the use of Botran 75W in conjunction with this exemption.

(Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).)

Dated: September 8, 1977.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

IMPACT OF CUSTOMER PROVISION OF TERMINAL EQUIPMENT ON JURISDICTIONAL SEPARATIONS

Second Supplemental Notice

Adopted: September 8, 1977.
Released: September 9, 1977.

1. Presently before the Commission for consideration are: (a) The nomination submitted by the National Association of Regulatory Utility Commissioners (NARUC) of a State Commission member for appointment to this Joint Board; (b) the appointment of a member of this Commission to the Joint Board; and (c) the request to schedule the second formal meeting of the Joint Board.

2. Pursuant to section 410(c) of the Communications Act of 1934, as amended, 47 U.S.C. § 410(c), NARUC has nominated Alexander Kalinski, New Hampshire Public Utilities Commission to fill the vacancy created by resignation of Peter A. Bradford from the Maine Public Utilities Commission. We hereby accept this very competent State Commissioner as a member of the Joint Board. Commissioner Joseph R. Fogarty of this Commission will join the Joint Board to replace Benjamin L. Hooks who has resigned from this Commisssion.[1]

3. Accordingly, *It is ordered*, That Alexander Kalinski and Joseph D. Fogarty are appointed to the Federal State Joint Board established in Docket No. 20981.

4. *It is further ordered*, That the second meeting of such Board shall be held on September 22, 1977, at 1:30 p.m. in the offices of this Commission at 1919 M Street NW., in Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[1] Commissioner Margita E. White is designated as an alternate to this Joint Board.

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of August 19 Through August 26, 1977

Notice is hereby given that during the week of August 19 through August 26, 1977, the appeals and applications for exception or other relief listed in the Appendix to this notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

ERIC J. FYGI,
Acting General Counsel.

SEPTEMBER 8, 1977.

[1] APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Aug. 19 through Aug. 26, 1977*

Date	Name and location of applicant	Case No.	Type of submission
Aug. 19, 1977	First Chemical Corp., Washington, D.C. (If granted: First Chemical Corp. would receive a stay of the provisions under 10 CFR 211.10(g)(6)(ii).)	FES-0099	Request for Stay.
Do	Rayburn Garage, Columbia, Miss. (If granted: The Rayburn Garage would be supplied motor gasoline by C. C. Sullivan, a Chevron distributor, rather than its base period supplier, the Morris Oil Co.)	FEE-1653	Exception to change suppliers.
Aug. 22, 1977	Arkansas Louisiana Gas Co., Shreveport, La. (If granted: Arkansas Louisiana Gas Co. would receive an extension of the exception relief granted in the FEA's Feb. 18, 1977 decision and order and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Bistineau and Waskom plants.)	FXE-1733 FXE-1731	Extension of the relief granted in *Arkansas Louisiana Gas Co.*, Case Nos. FEE-3557 and FEE-3560 (decided Feb. 18, 1977) (unreported decision).
Do	Atlantic Richfield Co., Dallas, Tex. (If granted: Atlantic Richfield Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Camargo, Crittendon, Grand Chenier, Indian Basin, and Refugio plants.)	FEE-4701— FEE-4705	Price exception (sec. 212.165).
Do	Atlantic Richfield Co., Dallas, Tex. (If granted: Atlantic Richfield Co. would receive an extension of the exception relief granted in the FEA's June 17, 1977, Mar. 31, 1977 and Feb. 22, 1977 decisions and orders and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Bayou Sale, Covington, Crane, Dayton, Drumright, Eldorado, Longview, Midland, North Dowden, Nueces River, Price, Seminole, Spivey, Stevens Caldon, and Swanson River plants.)	FXE-4686— FXE-4700	Extension of the relief granted in *Atlantic Richfield Co.*, Case No. FEE-4282 (decided June 17, 1977) (unreported decision). *Atlantic Richfield Co.*, Case Nos. FXE-3747 and FXE-3755 (decided Mar. 31, 1977) (unreported decision). *Atlantic Richfield Co.*, Case No. FEE-3599 (decided Feb. 22, 1977) (unreported decision).
Aug. 22, 1977	Champlin Petroleum Co., Fort Worth, Tex. (If granted: Champlin Petroleum Company would receive an extension of the relief granted in the FEA's March 21, 1977 decision and order and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Witcher plant.)	FXE-4664	Extension of the relief granted in *Champlin Petroleum Co.*, Case No. FXE - 3704 (decided March 21, 1977) (unreported decision).
Do	Cheyenne Airways, Inc., Cheyenne, Wyo. (If granted: Cheyenne Airways, Inc. would be classified as a fixed base operator and would be entitled to certain nonproduct cost increases.)	FEE-4657	Price exception (sec. 212.93).
Do	Crystal Oil Co., Washington, D.C. (If granted: The order issued by the office of regulatory programs on June 17, 1977 would be rescinded and Crystal Oil Co. would not be required to include the crude oil runs to stills at the Adobe Refinery in its calculations for the entitlements program.)	FEA-1438	Appeal of the order issued by Office of Regulatory Programs on June 17, 1977.
Do	Funding Systems Corp., Funding Systems Refining Corp., and Funding Systems Leasing Corp., Washington, D.C. (If granted; The Order issued by the Office of Regulatory Programs on June 17, 1977 would be rescinded and Funding Systems Corp., Funding Systems Refining Corp., and Funding Systems, Leasing Corp. would be classified as "refiners" as defined in 10 CFR 211.62 and would be permitted to include the crude oil runs to stills at the Adobe Refinery in its calculations for the entitlements program.	FEA-1439	Do.
Do	Charles E. Gould, Wichita, Kans. (If granted; Mr. Gould would receive a temporary stay of a remedial order issued by FEA Region VII on Aug. 8, 1977, pending a determination on his applications for stay and appeal.	FRT-0049	Temporary Stay of FEA Region VII's Remedial Order.
Do	Charles E. Gould, Wichita, Kans. (If granted; The remedial order issued by FEA Region VII on Aug. 8, 1977 would be rescinded and Mr. Gould would not be required to refund the overcharges made in sales of crude oil produced from the Lowe Jones property located in Lyon County, Kans.	FRA-1437 FRS-1437	Appeal of the remedial order issued by FEA Region VII on Aug. 8, 1977. Stay Request.

V 42 179 SEP 15 77 UMI

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Aug. 19 through Aug. 26, 1977*—Continued

Date	Name and location of applicant	Case No.	Type of submission
Do	William Joseph Kott, Newport Beach, Calif. (If granted: The 2-fund line of credit established between Mr. William Kott and Lunday Oil Co. during the base period would be reinstated.)	FSG-0051	Petition for special redress.
Do	Lyon County Cooperative Oil Co., St. Paul, Minn. (If granted: Lyon County Cooperative Oil Co. would receive a stay of a remedial order issued to the firm by FEA Region V on July 25, 1977 pending a determination of its appeal.)	FRS-1126	Stay of the remedial order issued by FEA Region V on July 25, 1977.
Do	McAlester Fuel Co., Magnolia, Ark. (If granted, McAlester Fuel Co. would be permitted to sell the crude oil produced from the New Mexico Federal "A" Lease in Lea County, N. Mex.) at prices in excess of the lower tier ceiling price.)	FEE-1655	Price exception (sec. 212.73).
Do	M. J. Mitchell, Dalla., Tex. (If granted: M. J. Mitchell would receive an extension of the relief granted in the Feb. 25, 1977 decision and order and would be permitted to sell the crude oil produced from the Pickard Ranch Minnelusa Sand Unit in Campbell County, Wyo.) at upper tier ceiling prices.)	FXE 1656	Extension of the relief granted in *M. J. Mitchell*, 5 FEA par. 84,078 (Feb. 25, 1977).
Do	Mobil Oil Corp., New York, N.Y. (If granted: Mobil Oil Corp. would receive an extension of the relief granted in the FEA's Apr. 1, 1977 and Mar. 4, 1977 decisions and orders and would be permitted to increase its prices to reflect nonpublic cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Burnell-North Pettus, Chriswood, Deerkamm, Dollarhide, Electra, Hickok, Kermit, Kettleman North Dome, Sneers, Pegasus, Phillips Bradley, Rio Bravo, Shelem Abelkein, Slaughter, and West Seminole plants.)	FXE 1713 - FXE 1727	Extension of the relief granted in *Mobil Oil Corp.*, Case No. FEE-2971 (decided Mar. 4, 1977) (unreported decision), *Mobil Oil Corp.*, Case Nos. FXE 3680 and FXE 3698 (decided Apr. 11, 1977) (unreported decision).
Do	Shell Oil Co., Houston, Tex. (If granted: Shell Oil Co. would be permitted to increase it prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Exville, Facing, Iowa Tet and Lafayette plants.)	FEE 1682 - FEE 1685.	Price exception (sec. 212.-165).
Do	Shell Oil Co., Houston, Tex. (If enacted: Shell Oil Co. would receive an extension of the relief granted in the FEA's June 17, 1977 and May 31, 1977 and Mar. 11, 1977 decisions and orders and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Bayou Gotila, Black Bayou, Bryans Mills, Carmaco, Chalkley, KNDU Lirette, Mermentau, O Keene, Prentice, Red Fish Bay, Seiling, Tallulah, TXI AVN, Weeks Island, and West Seminole plant.)	FXE 1665 - FXE 1681.	Extension of the relief granted in *Shell Oil Co.*, Case No. FEE-1228 (decided June 17, 1977) (unreported decision), *Shell Oil Co.*, Case Nos. FEE-3801, FEE-3807 through FEE-3810 (decided Mar. 11, 1977) (unreported decision), *Shell Oil Co.*, Case Nos. FXE 3780 through FXE-3809 (decided Mar. 21, 1977) (unreported decisions.
Do	Standard Oil Co. of Indiana, Chicago, Ill. (If granted Standard Oil Co. of Indiana would receive an extension of the relief granted in the FEA's Mar. 4, 1977 and Mar. 31, 1977 decisions and orders and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Beaver Creek, Kinsler, Mallard Farms, Peoria, and South Fullerton plants.)	FXE 1679— FXE 1693	Extension of the relief granted in *Standard Oil Co. (Indiana)*, case Nos. FXE-3659 (decided Mar. 4, 1977) (unreported decision) *Standard Oil Co. (Indiana)*, case Nos. FXE-3811 through FXE-3821 through FXE-3823 (decided Mar. 31, 1977) (unreported decision).
Do	John W. Yerby, El Paso, Tex. (If granted: The service station recently leased by Mr. Yerby would be supplied motor gasoline by Chevron Oil rather than through the previous lessee, Piggy Bank Stations, Inc.)	FEE 1651	Exception to change suppliers.
Aug. 23, 1977	Coastal States Gas Corp., Houston, Tex. (If granted, Coastal States Gas Corp. would receive an extension of the exception relief granted in the FEA's May 13, 1977 decision and order and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Hidalgo plant.)	FXE 1725	Extension of the relief granted in *Coastal States Gas Corp.*, Case No. FEE-3982 (decided May 13, 1977) (unreported decision).
Do	Robert E. Davis, Great Bend, Kans. (If granted: The remedial order issued by FEA Region VII on July 11, 1977 would be rescinded and Mr. Davis would not be required to refund overcharges made in sales of crude oil produced from the Garting lease located in Stafford County, Kans.)	FRA-1410 FRS-1410	Appeal of the remedial order issued by FEA Region VII on July 11, 1977. Stay request.
Do	Exxon International Co., New York, N.Y. (If granted: The FEA's information request denial issued on July 27, 1977 would be rescinded and Exxon International Co. would receive access to information on the purchase of commercial turbo fuel in 1976 by a number of air carriers.)	FFA 1411	Appeal of FEA's July 27, 1977 information request denial.
Do	Hank Martell Oil Co., Hamilton, Kans. (If granted; The Hank Martell Oil Co's Bennett Lease, located in Jackson County, Kans., would be classified as a stripper well property.)	FEE-4729	Price exception (sec. 212.73)
Do	Mountain West Aviation, Aspen, Colo. (If granted: Mountain West Aviation would be permitted to increase its prices for aviation gasoline and fuel above the maximum levels allowed the firm under the FEA Mandatory Petroleum Price Regulations.)	FEE-4728	Price exception (sec. 212.93).
Do	"STIX" Gas Co., Inc., Sinton, Tex. (If granted; "STIX" Gas Co., Inc. would be permitted to retroactively increase its prices for diesel fuel above the maximum levels allowed the firm under the FEA Mandatory Petroleum Price Regulations.)	FEE-4658	Do.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Aug. 19 through Aug. 26, 1977*—Continued

Date	Name and location of applicant	Case No.	Type of submission
Do	Wel-Gas, Inc. of Texas, Dallas, Tex. (If granted: Wel-Gas, Inc. of Texas would receive an extension of the exception relief granted in the FEA's July 25, 1977 decision and order and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005 per gallon incurred in the production of natural gas liquid products at its Possum Kingdom Plant.)	FXE-1736	Extension of the relief granted in *Wel-Gas, Inc.*, Case No. FEE-4322 (decided July 25, 1977) (unreported decision).
Do	Wilson Oil Co., Wahasha, Minn. (If granted: The remedial order issued by FEA Region V on Aug. 10, 1977 would be rescinded and Wilson Oil Co would not be required to refund any overcharges made in its sales of motor gasoline and fuel oil.)	FRA-1442	Appeal of the remedial order issued by FEA Region V on Aug. 10, 1977.
Aug. 24, 1977	Champlin Petroleum Co., Fort Worth, Tex. (If granted: Champlin Petroleum Co would receive an exception from the provisions of 10 CFR 211 67 to permit the firm to receive on a one-time basis additional entitlements sufficient to offset the additional cost incurred by the firm as it increases its crude oil inventory as required by Champlin's expanded refinery facilities.)	FEE-1730	Exception to the entitlements program (sec. 211.67).
Do	Cities Service Oil Co., Boston, Mass. (If granted; The remedial order issued by FEA Region I on Aug. 5, 1977 would be rescinded and Cities Service Oil co. would not be required to maintain its supplier/wholesale purchaser relationship with Charles G. Marsland d.b.a. Muggsy and Chuck's Citgo.)	FRA-1443	Appeal of the remedial order issued by FEA Region I on Aug. 5, 1977.
Do	Leonard E. Belcher, Inc., Springfield, Mass. (If granted; The remedial order issued by FEA Region I on July 18, 1977 would be rescinded and Leonrd E. Belcher, Inc. would not be required to refund overcharges made in sales of No. 2 fuel oil.)	FRA-1414	Appeal of the remedial order issued by FEA Region I on July 18, 1977.
Do	Mobil Oil Corp., New York, N.Y. (If granted; Mobil Oil Corp. would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon for natural gas liquid products produced at its Cameron, Dewey County, Indian Basin, Shell-Selling, South Sarepta, Spivey, and Tenneco-Ames plants.)	FEE-4706— FEE-4712	Price exception (sec. 212.-165).
Do	Rancho Refining Co. of Texas, Houston, Tex. (If granted: Rancho Refining Co. would receive a stay of the firm's entitlements purchase obligations specified in the FEA Entitlements Notice published Aug. 24, 1977, pending corrective adjustments to be made by the Office of Regulatory Programs.)	FES-0104	Stay of the June entitlements notice published Aug. 24, 1977.
Do	Tenneco Oil Co., Houston, Tex. (If granted: Tenneco Oil Co. would receive an extension of the exception relief granted in the FEA's Feb. 25, 1977 decision and order and would be permitted to increase its prices to reflect nonproduct cost increases in excess of $.005 per gallon incurred in the production of natural gas liquid products at its Chesterville, Dover Hennessey, La Porte, Lake Boinf, Leake, Mayfield, Mermentau, Normanna, Nueces River, Sea Robin, South Fullerton, Stephens, and Ward Plants.	FXE-4736— FXE-4749	Extension of the relief granted in *Tenneco Oil Co.*, Case Nos. FEE-3600 through FEE-3614 (decided Feb. 25, 1977) (unreported decision).
Aug. 25, 1977	Cities Service Oil Co., Tulsa, Okla. (If granted: The remedial order issued by FEA Region I on Aug. 12, 1977 would be rescinded and Cities Service Oil Co. would not be required to maintain its supplier/wholesale purchaser relationships with Fred's Citgo, John Buckley's Garage and Ted's Service Station.)	FRA-1444	Appeal of the remedial order issued by FEA Region I on Aug. 12, 1977.
Do	Midway Petroleum, Inc., Dundalk, Md. (If granted: Midway Petroleum, Inc. would be assigned a new supplier of motor gasoline to replace its base period supplier, the Petroleum Marketing Corp.)	FEE-4731	Exception to change suppliers.
Do	O'Meara Bros., New Orleans, La. (If granted: O'Meara Bros. would be permitted to sell crude oil produced from the Vinton Production Co. Lease located in Calcasieu Parish, La. at prices in excess of the lower tier ceiling price.)	FEE-4732	Price exception (sec. 212.-73).
Do	O'Meara Bros., New Orleans, La. (If granted; The O'Meara Bros. would be permitted to sell the crude oil produced from the Louisiana State Lease 2192 at prices in excess of the lower tier ceiling prices.)	FEE-4750	Do.
Aug. 26, 1977.	U.S. Department of the Interior (Mariana Islands), Washington, D.C. (If granted: The provisions of a June 28, 1977 decision and order which permitted sales of residual fuel oil made by the Guam Oil & Refining Co. to the Government of the Northern Mariana Islands to be deemed to be sales made within the United States for purposes of 10 CFR 211.67(d)(2) [the old oil entitlements program] would be made retroactive to Apr. 1, 1976.	FXA-1445	Appeal of the decision and order in *U.S. Dept. of Interior for Government of Northern Mariana Islands*, 6 FEA par. 83,036 (June 28, 1977).

ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT

Issuance of Notice of Effectiveness to Make Effective Previously Issued Prohibition Order

Pursuant to Section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA), as amended, 15 U.S.C. 791 et seq., and 10 CFR 303.37(d), the Federal Energy Administration (FEA) hereby gives notice that on August 15, 1977, it issued a Notice of Effectiveness making effective the Prohibition Order previously issued on June 30, 1975 (40 FR 28430, July 3, 1975), to the below listed powerplants. The Notice of Effectiveness was issued under the authorities granted to FEA by Section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, and pursuant to 10 CFR Parts 303 and 305.

Docket No.	Owner	Powerplant No.	Generating station	Location
OFU-022 FUO-023	Nebraska Public Power District	1 and 2	Sheldon	Columbus, Nebr.

The Prohibition Order issued by FEA on June 30, 1975, to the above listed powerplants prohibits the powerplants from burning natural gas or petroleum products as their primary energy source. In accordance with the requirements of 10 CFR Parts 303 and 305, however, the order provided it would not become effective until FEA had considered the environmental impact of the order and until FEA had served the affected powerplants with a Notice of Effectiveness.

Subsequent to issuance of the Prohibition Order, FEA performed an analysis pursuant to 10 CFR 305.9 and 208.3, of the environmental impact of the issuance of the Notice of Effectiveness, including an assessment of the EPA Notifications dated December 15, 1976, for Number 1 and May 19, 1976, for Number 2, pursuant to Section 119(d)(1)(B) of the Clean Air Act, that these powerplants could burn coal on September 22, 1976, and April 8, 1976, respectively, and comply with all applicable air pollution requirements. That analysis resulted in a determination that it is clear that issuance of the Notice of Effectiveness making this Prohibition Order effective is not a "major Federal action significantly affecting the quality of the human environment" within the meaning of Section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). Public notice of the negative determination and of the availability for inspection of this analysis was given in the FEDERAL REGISTER published May 23, 1977, in accordance with 10 CFR 208.4(c) and 208.15(a).

Upon completion of this environmental analysis, FEA issued a Notice of Effectiveness of the June 30, 1975, Prohibition Order to the above listed powerplants and served the Notice on the powerplants by registered mail on the same day. The Notice makes effective the Prohibition Order, prohibiting the powerplants from burning natural gas or petroleum products as their primary energy source.

Any person aggrieved by the now effective Prohibition Order may file an appeal with the FEA Office of Exceptions and Appeals in accordance with 10 CFR Part 303, Subpart H. The appeal shall be filed within 30 days after service of the Notice of Effectiveness. There has not been an exhaustion of administrative remedies until an appeal has been filed pursuant to Subpart H of Part 303, and the appellate proceeding is completed by the issuance of an order granting or denying the appeal.

Application may be made for modification or rescission of the Prohibition Order in accordance with the provisions of 10 CFR Part 303, Subpart J. An application for modification or rescission of a Prohibition Order based on "significantly changed circumstances," which circumstances occurred during the interval between issuance of the order and service of the Notice of Effectiveness, shall be filed within 30 days of service of such Notice. An application for modification or rescission of a Prohibition Order based on significantly changed circumstances occurring after that interval may be filed at any time after service of the Notice of Effectiveness.

All terms and conditions of the Prohibition Order and the Notice of Effectiveness may be the subject of either an appeal or an application for modification or rescission.

The Order made effective by the Notice of Effectiveness is effective against any persons that, as of the date of service of such Notice, own, lease, operate, or control the above listed powerplants and against any successors-in-interest or assignees of such persons.

The above listed powerplants have been served the Notice of Effectiveness by registered mail. In addition, copies of the document will be available for inspection by any interested members of the public at the FEA public docket room located in Room B-120, 2000 M Street N.W., Washington, D.C., from 1-5 p.m., Monday-Friday. Copies will also be available in the appropriate FEA regional office. The negative determination and environmental analyses are available upon request from the FEA National Energy Information Center, Room 1404, 12th Street and Pennsylvania Avenue N.W., Washington, D.C. 20461. Copies of the documents are also available for public review in the FEA Freedom of Information Reading Room, Room 2107, 12th and Pennsylvania Avenue N.W., Washington, D.C.

Any questions regarding this notice should be directed to the Director, Office of Coal Utilization, Federal Energy Administration, 12th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20461 (202-566-7941).

Issued in Washington, D.C., September 10, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT

Issuance of Notice of Effectiveness To Make Effective Previously Issued Prohibition Order

Pursuant to Section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, and pursuant to 10 CFR Parts 303 and 305.

Docket No.	Owner	Powerplant No.	Generating station	Location
OFU-061 OFU-062 OFU-063	Carolina Power & Light Co.	1, 2, and 3	Sutton	Wilmington, N.C.

The Prohibition Order issued by FEA on June 30, 1975, to the above listed powerplants prohibits the powerplants from burning natural gas or petroleum products as their primary energy source. In accordance with the requirements of 10 CFR Parts 303 and 305, however, the order provided it would not become effective until FEA had considered the environmental impact of the order and until FEA had served the affected powerplants with a Notice of Effectiveness.

Subsequent to issuance of the Prohibition Order, FEA performed an analysis pursuant to 10 CFR 305.9 and 208.3, of the environmental impact of the issuance of the Notice of Effectiveness, including an assessment of the EPA Notification dated August 25, 1976, and the EPA Certification dated December 17, 1976, pursuant to Section 119(d)(1)(B) of the Clean Air Act, that July 20, 1976, was the earliest date that powerplants Number 1 and 2 could burn coal and comply with all applicable air pollution requirements, and that February 1, 1977, was the earliest date that powerplant Number 3 could burn coal and comply with the applicable regional limitation. That analysis resulted in a determination that it is clear that issuance of the Notice of Effectiveness making this Prohibition Order effective is not a "major Federal action significantly affecting the quality of the human environment" within the meaning of Section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). Public notice of the negative determination and of the availability for inspection of this analysis was given in the FEDERAL REGISTER published July 1, 1977, in accordance with 10 CFR 208.4(c) and 208.15(a).

Upon completion of this environmental analysis, FEA issued a Notice of Effectiveness of the June 30, 1975, Prohibition Order to the above listed powerplants and served the Notice on the powerplants by registered mail on the same day. The Notice makes effective the Prohibition Order, prohibiting the powerplants from burning natural gas or petroleum products as their primary energy source.

Any person aggrieved by the now effective Prohibition Order may file an appeal with the FEA Office of Exceptions and Appeals in accordance with 10 CFR Part 303, Subpart H. The appeal shall be filed within 30 days after service of the Notice of Effectiveness. There has not been an exhaustion of administrative remedies until an appeal has been filed pursuant to Subpart H of Part 303, and the appellate proceeding is completed by the issuance of an order granting or denying the appeal.

Application may be made for modification or rescission of the Prohibition Order in accordance with the provisions of 10 CFR Part 303, Subpart J. An application for modification or rescission of a Prohibition Order based on "significantly changed circumstances," which circumstances occurred during the interval between issuance of the order and service of the Notice of Effectiveness, shall be filed within 30 days of service of such Notice. An application for modification or rescission of a Prohibition Order based on significantly changed circumstances occurring after that interval may be filed at any time after service of the Notice of Effectiveness.

All terms and conditions of the Prohibition Order and the Notice of Effectiveness may be the subject of either an appeal or an application for modification or rescission.

The order made effective by the Notice of Effectiveness is effective against any persons that, as of the date of service of such Notice, own, lease, operate, or control the above listed powerplants and against any successors-in-interest or assignees of such persons.

The above listed powerplants have been served the Notice of Effectiveness by registered mail. In addition, copies of the document will be available for inspection by any interested members of the public at the FEA public docket room located in Room B-120, 2000 M Street NW., Washington, D.C., from 1-5 p.m., Monday-Friday. Copies will also be available in the appropriate FEA regional office. The negative determination and environmental analyses are available upon request from the FEA National Energy Information Center, Room 1404, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the documents are also available for public review in the FEA Freedom of Information Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C.

Any questions regarding this notice should be directed to the Director, Office of Coal Utilization, Federal Energy Administration, 12th Street and Pennsylvania Avenue, NW., Washington, D.C. 20461, 202-566-7941.

Issued in Washington, D.C., September 10, 1977.

PHILLIPS PETROLEUM CO.

Proposed Consent Order

I. INTRODUCTION

Pursuant to 10 CFR 205.197(c), the Federal Energy Administration (FEA) hereby gives Notice of a Consent Order which was executed between Phillips Petroleum Co. (Phillips) and the Federal Energy Administration (FEA) on August 5, 1977. In accordance with that Section, FEA will receive comments with respect to this Consent Order. Although FEA has signed and tentatively accepted this Consent Order, FEA may, after consideration of comments received, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

II. THE CONSENT ORDER

Phillips Petroleum Co., with its executive office located in Bartlesville, Okla., is an integrated refiner engaged in the production of crude oil and refining and marketing of petroleum products subject to FEA Regulations.

As a result of an audit conducted by FEA of Phillips' business practices in its sales of No. 2 heating oil and kerosene to Union Petroleum Corp. (Union), Revere, Mass. for the periods of January through May for the years 1974, 1975, and 1976, FEA advised Phillips that Phillips improperly removed Union from its rightful class of purchaser and placed Union in an improper class of purchaser resulting in Phillips charging prices to Union in excess of those permitted by and in violation of the price rule then contained in 10 CFR 212.82 (prior to its amendment on April 12, 1976), and that Phillips failed to deal with Union in accordance with "normal business practices," in violation of 10 CFR 210.62.

In resolution of the issues raised by the audit results, FEA and Phillips executed a Consent Order on August 5, 1977, the significant terms of which are as follows:

(1) Phillips, within 30 days of the effective date of the Consent Order, will refund to Union $977,890.54 plus interest.

V 42 179 SEP 15 77 UMI

(2) The provisions of 10 CFR 205.197, including the publication of this Notice, are applicable to the Consent Order.

Further, FEA will issue an Ancillary Order to the Consent Order to Union requiring Union to recompute its increased product costs and redetermine its maximum allowable sales prices for No. 2 heating oil and kerosene by taking into account the refund it shall receive from Phillips as a reduction in cost ab initio. Union shall then make appropriate refunds to its customers.

III SUBMISSION OF WRITTEN COMMENTS

Interested persons are invited to comment on this Consent Order by submitting such comments in writing to Mr. Wayne Gifford, Deputy Regional Administrator for Compliance, Region VI, Federal Energy Administration, P.O. Box 35228, Dallas, Tex. 75235. Copies of this Consent Order may be received free of charge by written request to this same address or by calling 214-749-7626.

Comments should be identified on the outside of the envelope and on documents submitted with the designation, "Comments on Phillips Consent Order". All comments received by 4:30 CDT, on or before October 17, 1977, will be considered by FEA in evaluating the Consent Order.

Any information or data which, in the opinion of the persons furnishing it, is confidential must be identified as such, and submitted in accordance with the procedures outlined in 10 CFR 205.9(f).

Issued in Washington, D.C. September 10, 1977.

ERIC J. FYGI,
Acting General Counsel.

STATE ENERGY CONSERVATION PLANS

Negative Determination of Environmental Impact; Vermont, Maryland, Kentucky, South Carolina, Kansas and Nebraska Energy Conservation Plans

Pursuant to 10.CFR 208.4, the Federal Energy Administration hereby gives notice that it has performed an analysis and review of the environmental impacts associated with the provision of Federal financial assistance for the implementation, by the States of Vermont, Maryland, Kentucky, South Carolina, Kansas and Nebraska, of their State Energy Conservation Plans. Federal funding is authorized by Part C of Title III of the Energy Policy and Conservation Act, 42 U.S.C. 6321, et seq.

Based upon assessment of environmental impacts that are expected to result from implementation of these plans, the FEA has determined that Federal financial assistance will not be a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C). Therefore, pursuant to 10 CFR 208.4(c), the Federal Energy Administration has determined that an environmental impact statement is not required for these plans.

Single copies of the environmental assessments of the State Plans for Vermont, Maryland, Kentucky, South Carolina, Kansas and Nebraska are available upon request from the FEA National Energy Information Center, Room 1406, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Copies of the environmental assessments will also be available for public review in the Federal Energy Administration Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Copies of the State Plans are available for public review in the Office of State Energy Conservation Programs, Room 6437, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessments to Executive Communications, Box PJ, Room 3317, Federal Energy Administration, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment—(Name of State) Energy Conservation Plan." Fifteen copies should be submitted. All comments should be received by FEA by 4:30 p.m. e.d.s.t., September 26, 1977, in order to receive full consideration.

Any information or data considered by the person submitting it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., September 10, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

STATE ENERGY CONSERVATION PLANS

Negative Determination of Environmental Impact; New Hampshire, Puerto Rico, Delaware, Alabama, Florida, Mississippi, and Missouri Energy Conservation Plans

Pursuant to 10 CFR 208.4, the Federal Energy Administration (FEA) hereby gives notice that it has performed an analysis and review of the environmental impacts associated with the provision of Federal financial assistance for the implementation, by the States of New Hampshire, Puerto Rico, Delaware, Alabama, Florida, Mississippi, and Missouri, of their State Energy Conservation Plans. Federal funding is authorized by Part C of Title III of the Energy Policy and Conservation Act, 42 U.S.C. 6321, et seq.

Based upon assessment of environmental impacts that are expected to result from implementation of these plans, the FEA has determined that Federal financial assistance will not be a "major Federal action significantly affecting the quality of the human environment" within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C). Therefore, pursuant to 10 CFR 208.4(c), the FEA has determined that an environmental impact statement is not required for these plans.

Single copies of the environmental assessments of the State plans for New Hampshire, Puerto Rico, Delaware, Alabama, Florida, Mississippi, and Missouri are available upon request from the FEA National Energy Information Center, Room 1406, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Copies of the environmental assessments will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Copies of the State plans are available for public review in the Office of State and Local Programs, Room 6436, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessments to Executive Communications, Box PM, Room 3317, Federal Energy Administration, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment—(Name of State) Energy Conservation Plan." Fifteen copies should be submitted. All comments should be received by FEA by 4:30 p.m. e.d.s.t., September 26, 1977, in order to receive full consideration.

Any information or data considered by the person submitting it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., September 10, 1977.

STRATEGIC PETROLEUM RESERVE

Notice of Availability of the Draft Environmental Impact Statement for the Texoma Group of Storage Sites

Pursuant to section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C), the Federal Energy Administration (FEA) has prepared a draft environmental impact statement (EIS) on the proposed storage of crude oil at the Texoma group of storage sites.

The Texoma group of storage sites has been proposed as a key element of the Strategic Petroleum Reserve. The Reserve mandated by Part B of Title I, Energy Policy and Conservation Act, 42 U.S.C. 6231-6246) will be created for the storage of crude oil and/or petroleum products for use in the event of a Presidential determination of a severe energy supply interruption or a requirement to meet the obligations of the United States under the International Energy Program.

Single copies of the Texoma draft EIS (DES 77-8) may be obtained from the National Energy Information Center, Room 1404, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of this draft EIS will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., Monday through Friday except Federal holidays.

Interested persons are invited to submit data, views, and arguments with respect to this EIS to Executive Communications, Box PN, Room 3317, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on the documents submitted to FEA Executive Communications with the designation "Texoma Draft EIS (DES77-8)." Fifteen copies should be submitted.

All comments should be received by FEA by October 31, 1977, in order to receive full consideration.

Any information or data, submitted in response to the Texoma draft EIS, considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., on September 12, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

FEDERAL MARITIME COMMISSION

STRAITS/NEW YORK CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and San Juan, P.R. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Henry Noon & Co., Secretaries, Straits New York Conference, P.O. Box No. 247, Ocean Building (18th Floor), Collyerquay, Singapore 1.

Agreement No. 6010-21, entered into by the member lines of the Straits/New York Conference, modifies Article 15, entitled, "Nonconference Representation" whereby all references therein to "Port Swettenham" are changed to read "Port Kelang".

By Order of the Federal Maritime Commission.

Dated: September 9, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-26919 Filed 9-14-77;8:45 am]

UNITED STATES LINES, INC. AND OCEANIA LINE INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and San Juan, P.R. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 5, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with paricularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Jos. J. Fanelli, Division Manager, Pricing and Conference Affairs, United States Lines, Inc., 1579 Middle Harbor Road, Oakland, Calif. 94607.

Agreement No. 10309, a cooperative working arrangement entered into between United States Lines, Inc., and Oceania Line, Inc., provides for the leasing of United States Lines' containers, chassis and other container equipment by Oceania Line, Inc., when performing interchanges at the Port of Guam, Mariana Islands. Such equipment shall be used by Oceania Line, Inc., in services between Guam, Marina Islands, and the Trust Territory areas of the Mariana and Caroline Islands, in accordance with the terms and conditions set forth in the agreement.

By Order of the Federal Maritime Commission.

Dated: September 9, 1977.

JOSEPH C. POLKING,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. RI77-120]

AMERICAN PETROFINA COMPANY OF TEXAS

Petition for Special Relief

SEPTEMBER 8, 1977.

Take notice that on August 29, 1977, American Petrofina Company of Texas (Petitioner), P.O. Box 2159, Dallas, Tex. 75221, in Docket No. RI77-120 filed a petition for special relief pursuant to section 2.76 of the Commission's General Policy and Interpretations (18 C.F.R. § 2.76). Petitioner requests an increase in rate from 28.7493 cents per Mcf to $1.619810 per Mcf at 14.73 psia for natural gas sales to Texas Gas Transmission Corp. from the Lake Palourde Field, St. Martin Parish, La. Petitioner proposes to undertake new investment in order to improve the recovery of gas from the subject well.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein,

V 42 179 SEP 15 77 UMI

must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26834 Filed 9-14-77;8:45 am]

[Docket No. R177-115]

ART MACHIN & ASSOCIATES, INC.

Petition for Special Relief

SEPTEMBER 8, 1977.

Take notice that on July 18, 1977, as supplemented on August 19, 1977, Art Machin & Associates, Inc. (Petitioner), P.O. Box 1069, Longview, Tex. 75601, filed a petition for special relief seeking an increase in rate for natural gas sales to United Gas Pipe Line Co. from the G. A. Kelly Well No. 1, Willow Springs Field, Gregg County, Tex. Petitioner seeks an increase from the current rate of 41 cents per Mcf to a rate of 73.69 cents per Mcf. Petitioner states that the requested rate will provide adequate incentive to perform a work-over which would enhance production from the subject well.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26835 Filed 9-14-77;8:45 am]

[Docket No. ER76-556]

BOSTON EDISON CO.

Filing of Compliance Report and Supplement to Settlement Rate Schedule

SEPTEMBER 9, 1977

Take notice that Boston Edison Co. ("Edison"), on August 31, 1977, filed a refund compliance report as required by the Commission's order of July 20, 1977 in the captioned proceeding and a supplement to the settlement rate schedule approved by that Commission order. Edison indicates that the rate schedule supplement has the effect of applying certain provisions of the settlement to an additional transaction between the parties to the settlement, Edison and Braintree Electric Light Department, Mass.

Edison states that copies of the filing were served upon the parties to Docket No. ER76-556 including Braintree and the Massachusetts Department of Public Utilities. According to Edison, the filing was made with the consent and support of Braintree.

Any person desiring to be heard or to protest said application should file a protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before September 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this application are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-574]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Proposed Tariff Change

SEPTEMBER 9, 1977.

Take notice that Central Vermont Public Service Corp. (Company) on August 31, 1977, tendered for filing proposed changes in its FPC Electric Service Rate Schedules Nos. 88 and 92. Company states that the proposed changes would increase revenues from jurisdictional sales and service by $8,004 for the 12-month period ending October 31, 1977.

Company indicates that the change is proposed in accordance with Article V of the Company's agreements with the Vermont Electric Cooperative, Inc., and the Lyndonville Electric Department which provides that charges will be updated annually to incorporate the Company's purchased power cost experience for the preceding twelve months ending April and the Company's capacity cost associated with the company-owned generating facilities for the preceding calendar year.

According to Company, copies of the filing were served upon the Company's affected jurisdictional customers and the Vermont Public Service Board.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26845 Filed 9-14-77;8:45 am]

[Docket No. ER77-575]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Proposed Tariff Change

SEPTEMBER 9, 1977.

Take notice that Central Vermont Public Service Corp. (Company) on August 31, 1977, tendered for filing proposed changes in its FPC Electric Service Rate Nos. 89 and 93. The Company indicates that the proposed changes would decrease revenues from jurisdictional sales and service by $2,279 for the 12-month period ending October 31, 1977.

The Company states that the change is proposed in accordance with the provisions of Article VIII, as amended, of the Company's transmission service agreements with the Vermont Electric Cooperative, Inc., and the Lyndonville Electric Department, which provides that charges will be updated annually to incorporate the Company's cost experience for the preceding calendar year.

According to the Company, copies of the filing were served upon the Company's affected jurisdictional customers and the Vermont Public Service Board.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2795]

CITY OF SEATTLE, WASH.

Notice Granting Intervention

SEPTEMBER 7, 1977.

The National Marine Fisheries Service (NMFS) and the Sauk-Suiattle Tribe, Upper Skagit Tribe, and Swinomish Tribal Community (Tribes), on August 1, 1977; the U.S. Department of the Interior (Interior) on August 2, 1977; and the State of Washington Departments of Fisheries and Game, on July 22, 1977; filed petitions to intervene respecting the application by the city of Seattle for a preliminary permit for the proposed Copper Creek Project, FPC No. 2795. The project would be located on the Skagit River, in Skagit and Whatcom Counties, Washington, about 10 miles below the applicant's existing Skagit River Project, FPC No. 553.

NMFS states that it is the department of the Federal Government entrusted with jurisdiction over food fish and marine recreational resources in and adjacent to the waters of the United States. It states further that the Skagit River System supports a major anadromous fishery resource providing substantial commercial and recreational benefits to citizens of the United States, and alleges the proposed Copper Creek Project will significantly affect this resource. NMFS requests that it be made a party to the proceeding so that it may participate in the determination of the impacts of the proposed project on the fishery resource and the programs necessary for protection, maintenance, and enhancement of this resource.

The Tribes state that they are federally recognized Indian Tribes holding adjudicated treaty rights to take anadromous fish throughout the Skagit River System and in Marine areas dependent on the Skagit System. They allege that construction of the project will cause serious impacts to the fishery at the site, and also downstream, causing irretrievable and irreplaceable losses of fish which constitute a direct violation of treaty rights. The tribes request intervention in order to protect these rights and interests.

Interior cites its statutory authority over the fish, shellfish, and wildlife resources of the Nation, its trust responsibility for Indians, and also its authority over the Ross Lake National Recreation Area within which the project would be located. Interior notes the impacts which the project may have upon these various resources and requests intervention to assist the Commission in conditioning the preliminary permit to avoid conflicts with the Wild and Scenic Rivers Act and to ensure that proper baseline studies are undertaken.

Fisheries and Game assert their respective jurisdiction over the food fish resources, and game fish and wildlife resources, of the State of Washington. Fisheries and Game allege that the construction and operation of the project would damage the above noted resources both at, and downstream from, the project site. Intervention is requested to participate in the planning and conduct of studies to identify the project's impacts and to assert claims for measures to avoid losses to the aforesaid resources and for mitigation and enhancement measures where losses are unavoidable.

The applicant filed an answer to all the petitions to intervene on August 16, 1977. Applicant notes the limited purpose of a preliminary permit and thusly states that the interventions do not appear necessary or appropriate, particularly because of its intention to consult with these agencies during the course of its studies. While not conceding any jurisdictional assertions made by the Tribes, Applicant further states that it will cooperate with them in the course of its preliminary studies and examinations.

Pursuant to section 3.5(a)(30) of the Commission's general rules as promulgated by Order No. 557 (issued December 10, 1976), the National Marine Fisheries Service, the Sauk-Suiattle Tribe, the Upper Skagit Tribe, the Swinomish Tribal Community, the U.S. Department of the Interior, and the State of Washington Departments of Fisheries and Game are hereby permitted to intervene in the above-referenced proceeeding subject to the rules and regulations of the Commission: *Provided, however,* That participation by the intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in the petition to intervene: *And provided further,* That the admission of such parties shall not be construed as recognition by the Commission that they might be aggrieved by any order entered in this proceeding.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26825 Filed 9-14-77;8:40 am]

[Docket No. CP77-599]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Application

SEPTEMBER 9, 1977.

Take notice that on September 1, 1977, Columbia Gas Transmission Corp. (Applicant), 1700 MacCorkle Avenue S.E., Charleston, W. Va. 25314, filed in Docket No. CP77-599 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 19.6 miles of 6-inch natural gas transmission pipeline extending from the outlet of a separation plant to a point on Applicant's existing transmission system near Clendenin Compressor Station, all located in Kanawha County, W. Va., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that the facilities proposed are part of a project to produce a high CO_2 (carbon dioxide) content gas from the Tuscarora Formation in the Indian Creek field located in Kanawha County, W. Va., and to separate the CO_2 from the gas stream to obtain commercially saleable gas having a heat content of approximately 900 Btu's per cubic foot.

It is said that the gas produced from the Tuscarora Formation will consist of approximately 65 percent carbon dioxide and 35 percent methane and that the project is estimated to consist of 53 wells, 57.3 miles of 2-inch through 8-inch well and gathering pipelines, a CO_2 separation plant, and the transmission line heretofore mentioned.

Applicant estimates that based upon the completion of five of the 53 wells planned to be drilled as part of this project, as well as other geologic, engineering and economic studies made for this project, that approximately 64,000,000 Mcf of 900 Btu gas, or the equivalent of 57,000,000 Mcf of 1000 Btu gas, can be made available to Applicant over the twenty-year life of the project. Applicant's cost of service estimates for this period of the four basic components of this project are as follows:

(1) The wellmouth facilities are estimated at approximately $62,856,500, or an average of approximately 109.9 cents per Mcf over the life of the property;

(2) The gathering facilities are estimated at approximately $10,561,700, or 18.5 cents per Mcf;

(3) The CO_2 separation plant is estimated at approximately $37,387,200, or 65.4 cents per Mcf; and

(4) The natural gas transmission pipeline, for which Columbia seeks certification herein, is estimated at approximately $5,380,300, or 9.4 cents per Mcf.

The total cost-of-service of this project for the twenty-year period is thus estimated at approximately $116,185,700, or 203.13 cents per Mcf, it is indicated.

Applicant states that it would include the total costs associated with this project in its future general rate filings and that the total wellmouth, gathering, and separation costs will be included in such future filings in the same manner as proposed in Applicant's pending proceeding in Docket No. RP75-106. While Applicant presently plans to vent the CO_2 which is removed from the gas stream, if it finds such CO_2 marketable, then Applicant would credit all net revenues received from its sale of CO_2 against its cost of service.

Applicant states that approximately 10,400 Mcf per day of gas would be produced from said project over the twenty-year period and that such gas is needed to offset the continuing decline in its supplies from existing sources. Applicant projects curtailments of 47.3 percent of its customers' Priority 2 requirements for the 1977 summer season and 54 percent curtailment for the 1977-78 winter season. It is stated that the gas is to be produced in the heart of Applicant's market area and can be quickly developed and made available and that said gas would be less expensive to produce than the average cost of production nationwide.

It is estimated that the cost of the construction of the proposed facilities is $1,852,000 to be financed from internally-generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 4, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to

V 42 179 SEP 15 77 UMI

the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26847 Filed 9-14-77;8:45 am]

[Docket No. ER76-151]

DELMARVA POWER & LIGHT CO. AND SUBSIDIARIES

Notice of Compliance Filing

SEPTEMBER 7, 1977.

Take notice that Delmarva Power & Light Co., Delmarva Power & Light Co. of Maryland and Delmarva Power & Light Co. of Virginia (Delmarva), on August 29, 1977, tendered for filing a Delmarva System Power Pool Agreement, incorporating in one composite document changes in FPC Rate Schedule No. 33 of Delmarva Power & Light Co., FPC Rate Schedule No. 10 of Delmarva Power & Light Co. of Maryland, and FPC Rate Schedule No. 5 of Delmarva Power & Light Co. of Virginia, all in compliance with the Order Approving Settlement issued by the Commission on July 28, 1977 in the docket herein.

Delmarva states that copies of this filing were served upon the appropriate commissions of Delaware, Maryland, and Virginia and that there are no jurisdictional customers except for the Delmarva companies which are parties to the agreement. Delmarva requests waiver of notive in order that these compliance filings may be accepted for filing at the earliest possible date.

Any person desiring to be heard or to protest said application should file a protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with § 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.10). All such protests should be filed on or before September 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-90]

HOLYOKE WATER POWER CO. AND HOLYOKE POWER & ELECTRIC CO.

Extension of Time

SEPTEMBER 7, 1977.

On August 31, 1977, Staff Counsel filed a motion to extend the time for filing comments on the settlement agreement tendered for filing by Holyoke Water Power Co. and Holyoke Power & Electric Co. on August 3, 1977, and noticed on August 15, 1977, in the above designated docket. The motion states that all parties have agreed to a three-week extension.

Upon consideration, notice is hereby given that the date for filing comments on the tendered settlement agreement is extended to and including September 21, 1977.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26827 Filed 9-14-77;8:45 am]

[Docket No. ER77-579]

KANSAS CITY POWER & LIGHT CO.

Proposed Change in Rate Schedule

SEPTEMBER 9, 1977.

Take notice that on September 6, 1977, Kansas City Power & Light Co. (KCPL) tendered for filing a proposed change in the General Participation Agreement in order to include Sunflower Electric Cooperative, Inc. as an additional Participant.

KCPL states that the following are presently Participants under the General Participation Agreement with the following FPC Rate Schedule Numbers:

Kansas City Power & Light Co., Rate Schedule FPC No. 32.
Missouri Public Service Co., Rate Schedule FPC No. 8.
The Empire District Electric Co., Rate Schedule FPC No. 73.
Kansas Gas & Electric Co., Rate Schedule FPC No. 94.
The Kansas Power & Light Co., Rate Schedule FPC No. 7.
Central Telephone & Utilities Corp., Rate Schedule FPC No. 53.
Central Kansas Power Co., Inc., Rate Schedule FPC No. 2.

KCPL states that the other Participants under the General Participation Agreement filed certificates of concurrence to the proposed change with KCPL's submittal.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 26, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-578]

KANSAS GAS & ELECTRIC CO.

Proposed Tariff Change

SEPTEMBER 9, 1977.

Take notice that Kansas Gas & Electric Co. (Applicant) on September 6, 1977, tendered for filing proposed changes in its FPC Electric Service Tariffs Nos. 32, 45, 46, 47, 48, 49, 55, 72, 74, 87, 89, 98, 110, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 131, 132, 133, and 134. Applicant indicates that the proposed changes would increase revenues from Applicant's Rural Electric Cooperative and Municipal jurisdictional customers' sales and service by $5,298,060 based on the twelve month period ending June 30, 1978.

Applicant indicates that it is experiencing a number of major problems which necessitate requesting the proposed increase. The principal factor cited is the addition of the $134 million No. 2 generating unit at the La Cygne Station and its related facilities. Applicant also cites rising capital expenditures, inflation, attrition, and regulatory lag as having contributed to a general erosion in the return earned from jurisdictional customers.

According to Applicant copies of the filing were served upon the public utility's jurisdictional customers and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NW., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (19 CFR 1.8, 1.10). All such petitions protests should be filed on or before September 26, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26849 Filed 9-14-77;8:45 am]

[Docket No. CI77-713]

MISSISSIPPI RIVER TRANSMISSION CORP.

Complaint and Petition for Relief

SEPTEMBER 8, 1977.

Mississippi River Transmission Corp. v. *TIPCO Operating Co.* and *Bill R. Tipton.*

Take notice that on July 28, 1977, Mississippi River Transmission Corp. (MRTC), John B. Rudolph, Bendwell & Rudolph, 502 Madison Building, 1155 15th Street NW., Washington, D.C. 20005, filed a complaint and petition for relief pursuant to §§ 1.6 and 1.7 of the Rules of Practice and Procedure of the Federal Power Commission in Docket No. CI77-713 against TIPCO Operating Co. and Bill R. Tipton (TIPCO), P.O. Box 1315, Marshall, Tex. 75670, alleging that TIPCO is in violation of §§ 7(b) and 7(c) of the Natural Gas Act.

Specifically, MRTC complains of the alleged unauthorized termination of deliveries of natural gas by TIPCO from the Dolly Bell Key Gas Unit No. 1 well and the Connor-Key Gas Unit No. 1 well located in Woodlawn Field, Harrison and Marion Counties, Tex. Further, in the petition for relief, MRTC requests that TIPCO be ordered to cease all deliveries of natural gas produced from these two wells to parties other than MRTC; to resume immediately deliveries of natural gas produced from these two wells to MRTC; to pay back to MRTC the equivalent of all volumes of natural gas produced from these two wells which were dedicated to MRTC but were sold and delivered to purchasers other than MRTC.

Any person desiring to be heard or to mak any protest with reference to said petition should on or before October 7, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26836 Filed 9-14-77;8:45 am]

[Docket No. CP77-601]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

SEPTEMBER 9, 1977.

Take notice that on September 1, 1977, Natural Gas Pipeline Co. of America (Applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP77-601 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional 6,600 horsepower of compression facilities and 20.08 miles of 30-inch loop pipeline to increase the capacity of its Louisiana supply pipeline, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that its present certificated capacity of its Louisiana supply pipeline of 1,173,000 Mcf per day is insufficient to accommodate the deliveries of gas projected from existing and new sources of supply and that projected daily average gas deliverability for the peak month would reach approximately 1,421,000 Mcf per day in 1978 and 1,487,000 Mcf per day in 1979. It is stated that the increase in projected deliveries through the Louisiana supply pipeline results chiefly from acquisition of additional volumes of natural gas in the offshore areas of Texas and Louisiana through Applicant's advance payment and funding programs. These volumes are or would be transported and delivered onshore into Applicant's Louisiana supply pipeline through the offshore facilities of Applicant, the HIOS–UTOS offshore system, the Stingray Pipeline Co. offshore system and the Tidal Transmission Co. offshore system, it is said. Applicant indicates that additional volumes would also be delivered onshore through exchange and transportation arrangements with other pipeline companies.

Applicant states that the only practical way of transporting these increased volumes into its main transmission system is the further expansion of its Louisiana supply pipeline. Consequently, Applicant proposes to construct and operate 6,600 horsepower of additional compression facilities at Applicant's existing Compressor Station No. 343 in Liberty County, Tex., and approximately 20.08 miles of 30-inch loop pipeline in Montgomery, Harris, and Jefferson Counties, Tex., and Cameron Parish, La., together with appurtenant facilities, to enable Applicant to transport increased quantities of gas through its Louisiana supply pipeline. Applicant asserts that the proposed expansion would increase the capacity of Applicant's onshore Louisiana supply pipeline to 1,480,381 Mcf of gas per day which capacity would permit Applicant to transport the gas supplies committed to it from the offshore Louisiana and Texas areas.

The estimated cost to construct the proposed facilities is $18,456,000, which would be financed initially with bank credit, short-term borrowings from Applicant's parent, Peoples Gas Co., and/or by issuance of commercial paper.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 4, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26851 Filed 9-14-77;8:45 am]

[Docket Nos. CP73-289 and CP77-602]

NATURAL GAS PIPELINE CO. OF AMERICA

Petition To Amend and Application To Abandon

SEPTEMBER 9, 1977.

Take notice that on September 1, 1977, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-289 a petition to amend the Commission's order of August 27, 1975, issued in the instant docket (54 FPC ____) pursuant to Section 7(c) of the Natural Gas Act so as to delete therefrom authorization to exchange gas at the Polk County delivery point and in Docket No. CP77-602 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon certain facilities located in Polk and Trinity Counties, Texas, used in conjunction with the exchange, all as more fully set forth in the petition to amend and application to abandon which is on file with the Commission and open to public inspection.

Natural indicates that on December 10, 1973, it was authorized to construct and operate facilities to exchange gas with Texas Eastern Transmission Corporation (Texas Eastern) in accordance with an exchange agreement between Texas Eastern and Natural dated November 17, 1972, as amended. Natural further indicates that it was authorized by an amendment issued August 27, 1975, in Docket No. CP73-289 to add an additional exchange point in Polk County, Texas, to effectuate deliveries of gas from reserves Natural contracted to buy from Napeco Inc. (Napeco), a subsidiary of Natural, in the Trees (formerly Big Mama) Field, Polk and Trinity Counties,

V 42 179
SEP 15 77
UMI

Texas. The sale of gas from Napeco to Natural was made pursuant to a gas purchase contract dated April 1, 1975, as authorized by the Commission, it is said. Natural indicates that Texas Eastern received authorization to construct facilities and operate the Polk County exchange point in Docket No. CP73–197.

Natural states that it constructed 10,085 feet of 4½-inch pipeline and a 3-inch measuring facility in Polk and Trinity Counties, Texas, to connect the Trees Field to the Polk County exchange point pursuant to its gas purchase facilities budget-type authorization in Docket No. CP75–161. Redelivery of equivalent volumes of gas to Natural by Texas Eastern was made at an existing interconnection in Brazoria County, Texas, it is indicated.

It is stated that production from the acreage dedicated under the several gas purchase contracts terminated in October 1975 when the one producing well watered out and that the sellers do not contemplate further development of the dedicated acreage because two other wells were drilled and both were dry holes. Natural indicates that it and Napeco have entered into a termination agreement dated January 28, 1977, terminating the April 1, 1975, gas purchase contract.

Natural proposes to delete the existing Polk County delivery point from its gas exchange agreement with Texas Eastern and to abandon the facilities constructed under the budget-type authorization in Docket No. CP75–161 to effectuate deliveries from the Trees Field to Texas Eastern. Natural states that it would remove all salvable above ground facilities and retain them in stock. All other facilities would be abandoned in place, it is said.

Any person desiring to be heard or to make any protest with reference to said application and petition to amend should on or before October 4, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application and petition to amend if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant petition to amend and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Natural to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26850 Filed 9-14-77;8:45 am]

[Docket No. ER77-576]

NEW ENGLAND POWER CO.

Notice of Proposed Tariff Change

SEPTEMBER 9, 1977.

Take notice that New England Power Company (NEPCO) on September 1, 1977, tendered for filing proposed changes in its FPC Electric Service Tariff No. 201. NEPCO indicates that the proposed changes would amend the REMVEC Agreement dated as of August 1, 1968. NEPCO further indicates that the REMVEC Agreement establishes REMVEC (the Rhode Island, Eastern Massachusetts, Vermont Energy Control) as a central dispatch and interchange office for electric transmission and generation facilities and acts as a satellite to the New England Power Pool.

NEPCO states that the Amendment proposed would delete the provisions for exchanges of economy power and make provision for entrance into REMVEC of additional members.

According to NEPCO, copies of the filing were served upon all signatories to the Amendment as well as to the Public Utility Commissions of Massachusetts, Rhode Island, and Vermont, and to the New England Power Pool Participants in the geographic area served by REMVEC which are not presently members of REMVEC.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 19, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26839 Filed 9-14-77;8:45 am]

[Docket No. CP77-587]

NORTHERN NATURAL GAS CO.

Notice of Application

SEPTEMBER 7, 1977.

Take notice that on August 24, 1977, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP77–587 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1978, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally co-extensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $12,000,000 and that the total cost of any single project would not exceed $1,500,000 except that any single offshore project would not exceed $2,500,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 26, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FR Doc.77 26828 Filed 9-14-77;8:45 am]

[Docket No. CP76-130]

NORTHWEST PIPELINE CORP.

Petition To Amend

SEPTEMBER 9, 1977.

Take notice that on August 31, 1977, Northwest Pipeline Corporation (Petitioner), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP76–130 a petition to amend the Commission's order issued February 12, 1976, in the instant docket, pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations under the Act so as to increase the authorized single project cost limitation from $1,500,000 to that of the purported actual project cost of approximately $2,000,000 which resulted from the construction of the North Douglas Creek Gathering System, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner indicates that the February 12, 1976 order granted a budget-type certificate authorizing the construction, during the calendar year 1976, and operation of certain gas purchase facilities. Pursuant to such authorization Petitioner constructed the North Douglas Creek Gathering System, necessary to connect nine wells deyloped by Chandler and Associates (Chandler) on acreage dedicated to Petitioner pursuant to a gas purchase agreement dated December 28, 1975 between Chandler and Petitioner. It is said that the facilities installed for said connection consisted of approximately 10.3 miles of 12¾, 10¾, 8⅝ and 4½ inch pipe, one (1) 633 horsepower compressor station, and measuring facilities.

It is indicated that the February 12, 1976 order limited the expenditures for the facilities to be constructed during 1976 to a maximum total cost of $9,000,000, with no single project cost to exceed $1,500,000 and that prior to the initiation of construction, Petitioner estimated that the project cost would be approximately $1,456,000. It is indicated, however, that the actual costs now attributable to the project are approximately $2,000,000, with $1,906,319 recorded on Petitioner's books as of July 31, 1977 and an estimated $10,000 remaining to be booked.

Petitioner asserts that the actual construction costs exceeded the original estimate by approximately $500,000 primarily because of the higher costs attributable to a winter construction period (necessary due to delays in the testing procedures), an accelerated work schedule, and 8.7 miles of rock excavation rather than the expected 1.5 miles.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 4, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77 26840 Filed 9 14-77;8:45 am]

[Docket No. CP76-350]

NORTHWEST PIPELINE CORP.

Petition To Amend

SEPTEMBER 7, 1977.

Take notice that on August 26, 1977, Northwest Pipeline Corporation (Petitioner), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP76–350, a petition to amend the Commission's order issued February 15, 1977, in the instant docket, pursuant to Section 7(c) of the Natural Gas Act to authorize additional transportation, sale and exchange of natural gas in accordance with an agreement between Petitioner and Mountain Fuel Supply Company (Mountain Fuel) dated June 8, 1977, so that Petitioner may receive gas under a gas purchase contract between Petitioner and King Resources Company, et al. (King Resources) dated May 24, 1977, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by the Commission's order of February 15, 1977, it is authorized to transport, sell and exchange natural gas with Mountain Fuel pursuant to a Gas Purchase, Transportation and Exchange Agreement dated February 13, 1976 (which has been amended by aforementioned June 8, 1977, agreement) between Petitioner and Mountain Fuel which provides that Petitioner shall deliver to Mountain Fuel all natural gas purchased by Petitioner from Reserve Oil and Gas Company (Reserve) pursuant to a gas purchase contract dated October 7, 1975. Petitioner states that Mountain Fuel receives such volumes as are purchased by Petitioner from Reserve by Petitioner to Mountain Fuel and redelivers equivalent volumes, subject to Mountain Fuel's purchase of up to 25 percent of the volumes delivered for exchange, at an existing point of interconnection between the facilities of Petitioner and Mountain Fuel in Sweetwater County, Wyoming.

Petitioner asserts that its May 24, 1977, contract with King Resources dedicates acreage located in the proximity of the acreage covered under the February 13, 1976, agreement between Petitioner and Mountain Fuel and that Mountain Fuel has agreed to transport and exchange the volumes of natural gas which Petitioner will purchase from King Resources pursuant to the terms and conditions of the May 24, 1977, agreement.

Petitioner estimates that, initially, the volume of gas to be delivered to Mountain Fuel from the King Resources acreage will be approximately 550 Mcf per day and that the total volume of gas to be delivered to Mountain Fuel pursuant to the June 8, 1977, agreement will be approximately 1,150 Mcf per day.

Petitioner asserts that in order to purchase the natural gas from King Resources, it would construct pursuant to its authorization for budget-type gas purchase facilities approximately 7.4 miles of 4½-inch gathering line and a wellhead meter in order to gather the gas from the well to a connection on Northwest's existing gathering system which interconnects with the facilities of Mountain Fuel in Sweetwater County, Wyoming. Petitioner estimates that the cost of said facilities and well meter will be $166,000.

It is said that by letter dated February 1, 1977, Mountain Fuel has exercised the option of purchasing up to 25 percent of the volumes of natural gas delivered for exchange by Petitioner to it and that Mountain Fuel will pay Northwest, for the gas purchased, the equivalent of the cost Northwest pays the producer, inclusive of all allowable adjustments, plus a gathering charge of 5 cents per Mcf.

Petitioner indicates that granting the authorization requested will serve to provide additional volumes of natural gas for Petitioner to use in meeting its system requirements and to provide the subject volumes of natural gas to Petitioner at the least possible investment.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26829 Filed 9-14-77;8:45 am]

V 42 179 SEP 15 77 UMI

[Docket No. ER77-465]

OKLAHOMA GAS AND ELECTRIC CO.

Order Denying Request for Withdrawal of Rate Filing

SEPTEMBER 7, 1977.

On June 21, 1977, Oklahoma Gas & Electric Company (OG&E) submitted for filing a proposed Transmission Agreement between itself and Western Farmers Electric Cooperative (Western) that provides for OG&E to wheel power and energy furnished by Western to its member cooperatives. OG&E requested waiver of the 30-day notice requirement to allow the Agreement to become effective on July 1, 1977.

Notice of the proposed Transmission Agreement was issued on July 7, 1977, with comments due on or before July 15, 1977. On July 15, 1977, Western, along with nine other cooperatives, petitioned to intervene in this proceeding.

The proposed Transmission Agreement with its requested effective date of July 1, 1977 was contemplated to replace service being rendered pursuant to a three party agreement (IPSA-356) between OG&E, Southwestern Power Administration (SPA), and Public Service Company of Oklahoma (PSCO), which was to terminate by its own terms on June 30, 1977. In Public Service Company of Oklahoma, Docket No. ER77-422, the Commission on June 30, 1977, ordered that the proposed termination be suspended for five months. The Commission's order, in effect, extended service under IPSA-356 through November 30, 1977.

The Commission's action in Docket No. ER77-422 raised questions concerning the effective date of the proposed Trasnmission Agreement in this docket, since IPSA-356 and the instant Agreement provide for essentially the same service. Consequently, on July 21, 1977, the Secretary of the Commission sent a Deficiency Letter to OG&E, requesting that it clear up the ambiguity surrounding the proposed effective date of the Agreement.

By letter dated August 3, 1977,[1] OG&E responded by requesting that it be allowed to withdraw its filing to permit further review of the objections and questions raised by the filing. OG&E did state in its response that service under the Agreement is not anticipated to commence for several months.

By letter dated August 9, 1977, Western and nine electric cooperatives objected to the withdrawal of the proposed Transmission Agreement, maintaining that any problems raised by the Agreement should be resolved in the context of an investigation in this docket. They state:

> OG&E clearly is obliged to file the Agreement with the Federal Power Commission. *Lansdale* v. *F.P.C.*, 494 F. 2d 1104 (D.C. Cir. 1975), and the Company has offered no reason why it would be in the public interest to withdraw the Agreement at this time.

[1] Filed with the Commission August 8, 1977.

The Commission finds good cause to deny OG&E's request for withdrawal of the proposed Agreement. Western, a signatory to the Agreement, did not consent to the withdrawal and has filed a Petition to Intervene in this proceeding along with nine other cooperatives.

OG&E's letter of August 3, 1977, indicates that service under the Agreement is not anticipated to commence for several months. However, that response does not cure the deficiency with respect to the identifying a specific proposed effective date as contemplated by the Commission Secretary's letter of July 21, 1977.

The Commission finds: Good cause exists to deny OG&E's request for withdrawal of its proposed Agreement with Western filed herein.

The Commission orders: (A) OG&E's request for withdrawal of its proposed Agreement filed in this docket is hereby denied.

(B) OG&E shall file with this Commission a specific proposed effective date for commencement of service under its contract with Western.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26830 Filed 9-14-77;8:45 am]

PHILADELPHIA ELECTRIC CO.

[Docket No. ER77-402]

Order Denying Petition for Reconsideration and Establishing Procedures

SEPTEMBER 8, 1977.

On August 9, 1977, the Borough of Lansdale, Pa., filed a Petition for Rehearing of the Commission's order of July 26, 1977, which accepted proposed rate schedules for filing, denied Lansdale's motion to reject, suspended the proposed rate schedule for one day, granted intervention of Lansdale, and established procedures. Since the order is interlocutory, no application for rehearing is permitted.[1] However, the Commission will treat the application as a Motion for Reconsideration of the order.

Lansdale asserts that (1) in the order of July 26, 1977, the Commission erred in failing to reject Philadelphia Electric Co.'s (PE) filing as patently defective under section 35.13 of the Commission's regulations, and, the Company's proposed auxillary service provision results in anticompetitive and discriminatory impact to Lansdale and so should be rejected or its effectiveness deferred pending a final Commission determination on the matter, pursuant to section 206 of the Federal Power Act. In the alternative Lansdale again seeks a full five month suspension period.

With regard to its claim that PE's filing is deficient, Lansdale basically repeats its arguments made in its Motion to Reject, Protest, and Petition to Intervene of July 1, 1977, and its Reply to Philadelphia Electric Co. Opposition to the Borough's Motion to Reject, Protest, and Petition of July 27, 1977.

Lansdale's plea for rejection of the filing must again fail. Pursuant to § 35.5 of the Commission's regulations, only that material which "patently fails to substantially comply with the applicable requirements set forth in this Part, or the Commission's rules of practice and procedure" should result in rejection. In our order of July 26, 1977, this Commission determined that PE's filing is not deficient on its face; we are not now convinced that that determination was in error.

Lansdale also repeats in this Motion its attack on PE's proposed auxiliary service provision, asserting that the provision will "limit and stifle any attempt by the Borough to * * * utilize self-generation from any other source * * * ". Petition for Rehearing, p. 4. The terms of the provision, Lansdale asserts, effectively make it economically unfeasible to purchase power from any source but PE; further, Lansdale claims there are no cost supports for the provision.

Lansdale's claim of anticompetitive effect and discrimination will be adjudicated in this proceeding, along with the other provisions of the proposed rate. The Commission finds that no justification exists to select out one provision of the filing as suggested by Lansdale and try that provision separately from other issues in the case. Further procedural dates will be enumerated below.

The Commission finds: (1) The Borough of Lansdale's Petition for Rehearing of August 9, 1977 should be denied.

The Commission orders: (A) Philadelphia Electric Co.'s Petition for Reconsideration is hereby denied.

(B) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before December 7, 1977. (See Administrative Order 157).

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose. (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at an initial hearing to be held within ten days of service of Staff top sheets in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Said Law Judge is authorized to establish all procedural dates and to rule upon all motions (except petitions to intervene, motions to consolidate and sever and motions to dismiss), as provided for in the rules of practice and procedure.

(D) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement

[1] See sec. 1.34 of the Commission's rules of practice and procedure, which requires a final decision or order before an application for rehearing can lie.

pursuant to section 1.18 of the Commission's rules of practice and procedure.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26844 Filed 9-14-77;8:45 am]

[Docket No. CP77-227]

SEA ROBIN PIPELINE CO.

Filing of Original and Revised Tariff Sheets

SEPTEMBER 9, 1977.

Take notice that on August 17, 1977, Sea Robin Pipeline Co. tendered for filing as a part of its FPC Gas Tariff, Original Volume No. 2:

RATE SCHEDULE X-1

Fourth Revised Sheet No. 5.
Original Sheet No. 5-A.
Original Sheet No. 5-B.
Sixth Revised Sheet No. 6.

RATE SCHEDULE X-2

Fifth Revised Sheet No. 20.
Original Sheet No. 20-A.
Sixth Revised Sheet No. 21.
Third Revised Sheet No. 22.
Original Sheet No. 22-A.

The purpose of this filing is to amend Sea Robin's existing Rate Schedules X-1 (Southern Natural Gas Co.) and X-2 (United Gas Pipe Line Co.) to provide for the transportation of gas purchased by Southern and United in Block 228, Vermilion Area, Offshore Louisiana, to Erath, La.

Sea Robin states that copies of these tariff sheets have been mailed to Southern Natural Gas Co. and United Gas Pipe Line Co.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 3, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc 77-26841 Filed 9-14-77;8:45 a.m.]

[Docket No. ER76-87]

SIERRA PACIFIC POWER CO.

Extension of Time

SEPTEMBER 7, 1977.

On September 2, 1977, Mount Wheeler Power, Inc., filed a motion to extend the time for filing protests to the revised tariff sheets tendered for filing by Sierra Pacific Power Co., on July 25, 1977, and noticed on August 26, 1977, in the above designated docket. The revised tariff sheets were filed in compliance with the Commission Order approving settlement agreement, issued June 30, 1977.

Upon consideration, notice is hereby given that the date for filing protests to the compliance filing is extended to and including September 20, 1977.

KENNETH F. PLUMB,
Secretary.

[FR Doc 77-26831 Filed 9-14-77;8:45 am]

[Docket No. CP 77-591]

SOUTHERN NATURAL GAS CO.

Pipeline Application

SEPTEMBER 8, 1977.

Take notice that on August 26, 1977 Southern Natural Gas Co. (Applicant), P.O. Box 2563, Birmingham, Ala. 35202, filed in Docket No. CP 77-591 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing it to construct, install, and operate facilities for the transportation of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant currently purchases natural gas from Blocks 20, 21, and 32 Fields, Breton Sound Area, Plaquemines Parish, La., from Kerr-McGee Corp. (Kerr-McGee), and Phillips Petroleum Co. (Phillips) pursuant to a gas purchase contract dated February 26, 1957, which terminates on February 1, 1978. Applicant and Kerr-McGee and Phillips have negotiated renewal gas purchase contracts covering these fields and new gas purchase contracts providing for the sale and delivery to Applicant of certain gas reserves from Block 29, Breton Sound Area. Also, Applicant and Kerr-McGee have negotiated a new gas purchase contract providing for the sale and delivery of reserves from Block 37, Breton Sound Area. Applicant proposes to construct, install, and operate pipelines and compression and measurement facilities to connect its existing pipelines in the Breton Sound Area with the producers' facilities in order to receive the quantities of gas purchased pursuant to the aforesaid contracts. The installation of such facilities will immediately enable Southern to increase its purchases of gas from Kerr-McGee and Phillips from approximately 23,000 Mcf per day to approximately 68,000 Mcf per day.

Specifically, Applicant proposes the construction, installation, and operation of (1) approximately 7.492 miles of 14-inch pipeline to connect the production platform to be installed in Block 21, Breton Sound Area, by Kerr-McGee and Phillips with its existing 12-inch Breton Island pipeline in Block 45, Breton Sound Area, and a 3,000 H.P. compressor and measuring station on this platform; (2) approximately 1.451 miles of $10^{3}/_{4}$-inch pipeline to connect the production platform to be installed by Kerr-McGee and Phillips at their State Lease No. 2000, Well No. 44 in Block 29, Breton Sound Area, with the pipeline described in No. 1 above in Block 36, Breton Sound Area, and a measuring station on this platform; (3) approximately 1.820 miles of $6^{5}/_{8}$-inch pipeline to connect the production platform to be installed in Block 37, Breton Sound Area, by Kerr-McGee with the pipeline described in No. 1 above in Block 36, Breton Sound Area, and a measuring station on this platform; and (4) approximately 3.530 miles of $6^{5}/_{8}$-inch pipe line to connect the platform to be installed by Kerr-McGee and Phillips in Block 32, Breton Sound Area, with Applicant's existing $6^{5}/_{8}$-inch pipeline in Block 34, Breton Sound Area, and a measuring station on this platform.

The estimated cost of the facilities proposed herein is $7,175,455.00, which cost Applicant states will be financed initially by short term financing which will be repaid from cash from current operations and from permanent financing.

Any person desiring to be heard or to make any protect with reference to said application, on or before September 30, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without

V 42 179 SEP 15 77 UMI

further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26837 Filed 9-14-77;8:45 am]

[Docket No. CP77-594]

TENNESSEE GAS PIPELINE COMPANY, A DIVISION OF TENNECO, INC.

Notice of Application

SEPTEMBER 9, 1977.

Take notice that on August 29, 1977, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed an application in Docket No. CP77-594 pursuant to Section 7(c) of the Natural Gas Act, as amended, and the Rules and Regulations of the Federal Power Commission thereunder, for a certificate of public convenience and necessity authorizing the rendition of a natural gas transportation service for Sea Robin Pipeline Company (Sea Robin). Tennessee also requests temporary authorization to render this service.

Applicant requests authorization to receive from Texaco, Inc. (Texaco), for the account of Sea Robin, daily volumes of natural gas, up to a maximum of 9,000 Mcf, at the existing interconnection of the facilities of Tennessee and Texaco located in Eugene Island (EI) Block 338 (338) and to transport and deliver such volumes to Sea Robin at an existing subsea interconnection between the facilities of Tennessee and Sea Robin located in EI 330. For such service, Sea Robin will pay Tennessee one cent (1¢) for each Mcf transported.

Applicant's ability to render presently authorized service to its customers will not be affected by its proposal.

Tennessee requests that this application be considered under the shortened procedure provided for in Section 1.32 (b) of the Commission's Rules of Practice and Procedure.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 3, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26842 Filed 9-14-77;8:45 am]

[Docket No. CP77-568]

TEXAS EASTERN TRANSMISSION CORP.

Joint Pipeline Application

SEPTEMBER 6, 1977.

Take notice that on August 15, 1977, Texas Eastern Transmission Corporation ("Texas Eastern"), Post Office Box 2521, Houston, Texas 77001 and Natural Gas Pipeline Company of America ("Natural"), 122 South Michigan Avenue, Chicago, Illinois 60603 ("Applicants"), filed an application pursuant to Section 7 of the Natural Gas Act in Docket No. CP77-568 for a certificate of public convenience and necessity authorizing operation of facilities for the transportation and exchange of natural gas. Texas Eastern shall receive, or cause to be received, up to 15,000 Mcf of natural gas per day tendered for delivery by Natural at the point of interconnection of Texas Eastern's Cameron Pipeline System with the pipeline facilities to be constructed and to transport such quantities of natural gas onshore for exchange with or delivery to Natural onshore. Natural shall receive, or cause to be received, up to 15,000 Mcf of natural gas per day tendered for delivery by Texas Eastern at the point of interconnection of Stingray's Offshore Louisiana pipeline system with the pipeline facilities to be constructed by Texas Eastern and Columbia Gulf from West Cameron Block 593, Offshore Louisiana (filed at Docket No. CP77-409) and to transport or cause the transportation of such quantities of natural gas onshore for exchange with or delivery to Texas Eastern onshore.

Thermally equivalent volumes of natural gas transported onshore each day by each of the Applicants will be deemed to have been exchanged onshore. Any volume of natural gas transported onshore on any day in excess thereof shall be redelivered onshore by the transporting Applicant to the other Applicant. Daily deliveries of any such excess quantities of natural gas shall be made at the Union of Texas Winnie Plant, Jefferson County, Texas or at the Exxon-Sarita plant, Kenedy County, or at other mutually agreeable authorized points of exchange between the two parties.

Any person desiring to be heard or to make any protest with reference to said application, on or before September 26, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26824 Filed 9-14-77;8:45 am]

[Docket No. CP77-593]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

SEPTEMBER 7, 1977.

Take notice that on August 29, 1977, Transcontinental Gas Pipe Line Corporation, P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-593 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing October 22, 1977, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally co-extensive with its pipeline system or the system of other pipeline companies which may be authorized to transport gas for the account of or exchange with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $12,000,000 with no single onshore project to exceed a cost of $1,500,000 and no single offshore project to exceed a cost of $2,500,000. These costs will be financed initially from temporary bank loans and company funds, with permanent financing to be arranged as part of an overall financing program, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-26843 Filed 9-14-77;8:45 am]

[Docket No. CP77-592]

TRUNKLINE GAS CO.

Notice of Application

SEPTEMBER 7, 1977.

Take notice that on August 26, 1977, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP77-592 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of 300 Mcf of natural gas per day on a firm basis for Transcontinental Gas Pipe Line Corporation (Transco) from an existing tap located in Iberia Parish, Louisiana, to a point in Vermilion Parish, Louisiana, where Applicant's and Transco's system are presently interconnected, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that said transportation would be pursuant to an agreement dated June 23, 1977, wherein Transco has agreed to pay Applicant a monthly transportation charge of $237 based upon a daily volume of 300 Mcf subject to increase if Applicant receives and redelivers more than 300 Mcf per day, or decrease if Applicant fails or is unable to take the amount of gas tendered by Transco up to 300 Mcf per day, by an amount equal to 2.60 cents per Mcf for those volumes delivered above or below 300 Mcf per day. It is said that the agreement provides for a term of 10 years from the date of first delivery and from year to year thereafter unless cancelled by either party by giving one year's written notice and that notwithstanding the foregoing, the agreement may be cancelled after the first three years of deliveries upon 30 days' written notice.

Applicant indicates that it has been advised by Transco that the gas to be transported is attributable to working interests owned by participants in a joint venture known as the Transmac Exploration and Development Program (Transmac) and gas owned by Transco. It is said that all of such participants are direct or indirect customers of Transco and all have been affected by Transco's curtailment of deliveries in recent years. Transco has advised that its estimated average curtailment of service for the 1977-78 winter period is projected to be approximately 49 percent and that transportation of such participants' gas to them for their use will help alleviate the effect on them of Transco's curtailment, it is said.

Applicant indicates that no new facilities are required to implement the instant proposal.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

COMBANKS CORP.

Acquisition of Bank

Combanks Corp., Winter Park, Fla., has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(3)) to acquire indirectly, through the acquisition of 22.5 percent of the voting shares of American Bancshares, Inc., North Miami, Fla., voting shares of the following banks: The Second National Bank of North Miami, North Miami, Fla.; The Seminole Bank of Tampa, Tampa, Fla.; First National Bank of Davie, Davie, Fla.; Second National Bank of North Miami Beach, North Miami Beach, Fla.; First National Bank of the Upper Keys, Tavernier, Fla.; Second National Bank of Clearwater, Clearwater, Fla.; University City Bank, Gainesville, Fla.; Executive Bank of Fort Lauderdale, Fort Lauderdale, Fla.; and Second National Bank of Homestead, Homestead, Fla. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

Combanks Corp., Winter Park, Fla., has also applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to acquire indirectly voting shares of American Bancshares Insurance Agency, Inc., North Miami, Fla., and American Bancshares Mortgage Co., Inc., North Miami, Fla., both subsidiaries of American Bancshares, Inc.

American Bancshares Insurance Agency, Inc., engages in the activities of acting as insurance agent or broker with respect to (i) credit life or accident and health insurance that is directly related to the extension of credit by a bank or bank related firm, and (ii) credit life or accident and health insurance that is directly related to the provision of other financial services by a bank or bank related firm. Such activities are conducted at all of the offices of the banking subsidiaries of American Bancshares, Inc., and notice of this application was published in newspapers of general circulation in each of the areas served.

American Bancshares Mortgage Co., Inc., engages in the activities of making or acquiring, for its own account or for the account of others, loans and other extensions of credit (including issuing letters of credit and accepting drafts) such as would be made by a mortgage company; servicing loans and other extensions of credit for any person; and acting as insurance agent with respect to insurance which is directly related to an extension of credit by said mortgage company. Such activities are conducted in North Miami, Fla., and notice of the application was published on June 21, 1977, in the Miami Review and Daily Record, a newspaper of general circulation in Dade County, Fla. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 7, 1977.

Board of Governors of the Federal Reserve System, September 9, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc.77-26781 Filed 9-14-77;8:45 am]

OLD KENT FINANCIAL CORP.

Acquisition of Bank

Old Kent Financial Corp., Grand Rapids, Mich., has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by consolidation to Peoples Bank and Trust, National Association, Trenton, Mich. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 7, 1977.

Board of Governors of the Federal Reserve System, September 9, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

BILINGUAL EDUCATION

Closing Date for Receipt of Applications for Basic Programs of Bilingual Education—Initial Awards

Pursuant to the authority contained in section 721 of the Bilingual Education Act, Title VII of the Elementary and Secondary Act, of 1965, as amended by Pub. L. 93-380 (20 U.S.C. 880b-880b-13), the Commissioner of Education hereby gives notice that applications for initial awards of assistance for basic programs of bilingual education are being accepted from local educational agencies (including certain organizations of Indian tribes which operate schools for Indian children, and schools for Indian children on reservations which are operated or funded by the Department of Interior) and from institutions of higher education applying jointly with such agencies. Funds are available for grants to new applicants for basic programs.

Closing date. November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate the application forms and program information packages will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

B. *Applications sent by mail.* An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.403D, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than November 10, 1977 as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before November 15, 1977, by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

C. *Hand-delivered applications.* An application to be hand-delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C., time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

D. *Program information.* The amount of funds which is expected to be available in fiscal year 1978 for initial awards of assistance for basic programs of bilingual education is $22,500,000. The anticipated number of initial awards of assistance for basic programs of bilingual education is 136 with an expected average amount for the majority of initial awards at $166,000.

This statement on the availability of funds is only an estimate and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act, applicable regulations, and appropriation acts.

E. *For further information contact.* The Office of Bilingual Education, Office of Education, 400 Maryland Avenue SW., (Reporter's Building, Room 421), Washington, D.C. 20202 (202-245-2600).

F. *Applicable regulations.* Grant awards made pursuant to this notice will be subject to the regulations in 45 CFR Part 123, relating to the Bilingual Education Act, published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23862), and except where inconsistent with Part 123, to the Office of Education General Provisions Regulations in 45 CFR Parts 100, 100a, 100c, and 100d. In preparing applications, applicants' attention is directed in particular to Subpart B of 123—§§ 123.11-123.20 relating to Basic Programs of Bilingual Education.

(20 U.S.C. 880b-880b-13)

(Catalog of Federal Domestic Assistance Number 13.403, Bilingual Education.)

Dated: September 8, 1977.

ERNEST L. BOYER,
U.S. Commissioner of Education.

BILINGUAL EDUCATION

Closing Date for Receipt of Applications for Training Programs—Initial Awards

Pursuant to the authority contained in Section 723 of the Bilingual Education Act, Title VII of the Elementary and Secondary Education Act of 1965, as amended by Public Law 93–380 (20 U.S.C. 880b–880b–13) the Commissioner of Education hereby gives notice that applications for initial awards of assistance for training programs are being accepted from one or more institutions of higher education which apply after consultation with, or jointly with, one or more local educational agencies; or one or more State educational agencies. Funds are available for grants to new applicants for training programs.

Closing date. November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate the application forms and program information packages will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

B. *Applications sent by mail.* An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.403E, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than November 10, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before November 15, 1977, by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

C. *Hand delivered applications.* An application to be hand-delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

D. *Program information.* The amount of funds which is expected to be available in Fiscal Year 1978 for initial awards of training programs is $6,800,000. The anticipated number of initial awards for training programs is 68, with an expected average amount for initial awards at $100,000.

This statement on the availability of funds is only an estimate and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act applicable regulations, and appropriation acts.

E. *For further information contact.* The Office of Bilingual Education, Office of Education, 400 Maryland Avenue, S.W. (Reporter's Building, Room 421), Washington, D.C. 20202 (202–245–2600).

F. *Applicable regulations:* Grant awards made pursuant to this notice will be subject to the regulations in 45 CFR Part 123, relating to the Bilingual Education Act, published in the FEDERAL REGISTER on June 11, 1976 (41 F.R. 23862), and except where inconsistent with Part 123, to the Office of Education General Provisions Regulations in 45 CFR Parts 100, 100a, 100c, and 100d. In preparing applications, applicants' attention is directed in particular to Subpart D of Part 123—§§ 123.31–123.40 relating to Training Programs of Bilingual Education.

(20 U.S.C. 880b–880b–13.)

BILINGUAL EDUCATION SUPPORT SERVICES

Closing Date for Receipt of Applications for Support Services for Programs of Bilingual Education—Initial Awards

Pursuant to the authority contained in the Bilingual Education Act, Title VII of the Elementary and Secondary Education Act of 1965, as amended by Public Law 93–380, (20 U.S.C. 880b–13), the Commissioner of Education hereby gives notice that:

(1) Applications for initial awards of assistance for Training Resource Centers are being accepted from one or more local educational agencies; one or more institutions of higher education which apply after consultation with, or jointly with, one or more local educational agencies; or one or more State educational agencies.

(2) Applications for initial awards of assistance for Materials Development Centers are being accepted from one or more local educational agencies; or an institution of higher education which applies jointly with one or more local educational agencies.

(3) Applications for initial awards of assistance for Dissemination/Assessment Centers are being accepted from one or more local educational agencies; or an institution of higher education which applies jointly with one or more local educational agencies.

(4) Applicants considering a joint application are advised to follow all instructions to verify joint applicant status, as well as to complete Form OE 4561, "Certification Signatures for Bilingual Education Joint Application".

(5) Under § 123.22(d) of the program regulations, (45 CFR § 123.22(d)(1)), no more than one award for a training resource center, one award for a materials development center, and one award for a dissemination/assessment center will be made in a fiscal year in each service area designated under § 123.22 (a), (b), and (c), unless the Commissioner determines that additional awards are required to meet needs for such activities in a service area. Also, the Commissioner may award one or more specific projects without regard to the designated service area to meet the needs for such activities or to carry out the purposes of this subpart most effectively.

(6) Applicants that propose authorized activities without regard to the designated service area must set forth special justification of need for not following the service area designation.

(7) Potential applicants for initial awards, in order to assess their own chances for funding, should be aware of those service areas in which projects have already been approved in a prior fiscal year and will be reviewed for continuation on a non-competitive basis in FY 1978, in accordance with § 123.04 of the regulation (45 CFR § 123.04).

With respect to the training resource center activity, service areas 5 and 7, (45 CFR § 123.22(a)(1–8)), have training resource centers in operation which will be reviewed for refunding on a non-competitive basis.

With respect to the materials development center activity, service areas 1 and 7, (45 CFR § 123.22(b)(1–7)), have materials development centers in operation which will be reviewed for refunding on a non-competitive basis.

With respect to the dissemination/assessment center activity, service area 2 (45 CFR § 123.22(c)(1–3)), has a dissemination/assessment center in operation which will be reviewed for refunding on a non-competitive basis.

Closing date: November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate the application forms and program information packages will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

B. *Applications sent by mail.* An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.403G, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than November 10, 1977 as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before November 15, 1977 by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

C. *Hand-delivered applications.* An application to be hand-delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

D. *Program information.* The amount of funds which is expected to be available in Fiscal Year 1978 for initial awards of assistance for support services for programs of bilingual education is $14,600,000.

Funds expected to be available in FY 1978 for new competing awards for Resource Training Centers are estimated at $6,800,000. Funds expected to be available in FY 1978 for new competing awards for Materials Development Centers are estimated at $6,600,000. Funds expected to be available in FY 1978 for new competing awards for Dissemination/Assessment Centers are estimated at $1,200,000.

This statement on the availability of funds is only an estimate and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act, applicable regulations, and appropriation acts.

E. *For further information contact:* The Office of Bilingual Education, Office of Education, 400 Maryland Avenue, SW., (Reporter's Building, Room 421), Washington, D.C. 20202 (202–245–2600).

F. *Applicable regulations:* Grant awards made pursuant to this notice will be subject to the regulations in 45 CFR Part 123, relating to the Bilingual Education Act, published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23862), and

BILINGUAL EDUCATION

Closing Date for Receipt of New Requests for Participation in Fellowship Program

Pursuant to the authority contained in section 723(a)(2) in the Bilingual Education Act, Title VII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 93–380 (20 U.S.C. 880b—880b–13), the Commissioner of Education hereby gives notice that new requests for participation in the program of fellowships for trainers of bilingual education teachers are being accepted from institutions of higher education, after consultation with, or jointly with, one or more local educational agencies.

Closing date: November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate the application forms and program information packages will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

B. *Request for participation sent by mail.* A request for participation sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, Attention: 13.403F, Washington, D.C. 20202. A request for participation must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

A request for participation sent by mail will be considered to be received on time by the Application Control Center if:

(1) The request for participation was sent by registered or certified mail not later than November 10, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The request for participation is received on or before November 15, 1977, by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

C. *Hand-delivered requests for participation.* A request for participation to be hand-delivered must be taken to the

U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered requests for participation will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C., time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

D. *Program information.* The amount of funds which is expected to be available in FY 1978 for new Bilingual Fellowship Programs is $1,650,000. It is anticipated that approximately 20 institutions of higher education will be approved for the Bilingual Education Fellowship Program. An estimated 246 fellowships to individuals may be awarded, with an average amount of $6,700 per fellowship awarded.

This statement on the availability of funds is only an estimate and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act applicable regulations, and appropriation acts.

E. *For further information contact* the Office of Bilingual Education, Office of Education, 400 Maryland Avenue SW. (Reporter's Building, Room 421), Washington, D.C. 20202 (202–245–2600). Information required to be included in requests for participation is set out in the Bilingual Education Regulations at 45 CFR 123.42(a).

F. *Applicable regulations.* The Bilingual Education Fellowship Program will be subject to the regulations in 45 CFR Part 123—Subpart E, §§ 123.41–123.50—relating to Fellowships for Preparation of Teacher Training published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23862).

BILINGUAL EDUCATION

Closing Date for Receipt of Requests for Continued Participation from Non-Competing Continuation Fellowship Programs

Pursuant to the authority contained in section 723(a)(2) in the Bilingual Education Act, Title VII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 93–380 (20 U.S.C. 880b—880b–13), the Commissioner of Education hereby gives notice that requests for participation for the non-competing continuation of fellowship programs for trainers of bilingual education teachers are being accepted from institutions of higher education, after consultation with, or jointly with, one or more local educational agencies.

Closing date: November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate the application forms and program information packages will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

B. *Request for participation sent by mail.* A request for participation sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, Attention: 13.403, Washington, D.C. 20202. A request for participation should be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

A request for participation sent by mail will be considered to be received on time by the Application Control Center if:

(1) The request for participation was sent by registered or certified mail not later than November 10, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The request for participation is received on or before November 15, 1977, by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

C. *Hand delivered requests for participation.* A request for participation to be hand-delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered requests for participation will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C., time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

D. *Program information.* The amount of funds which is expected to be available in FY 1978 for the non-competing continuation Bilingual Education Fellowship Programs is $3,350,000. It is anticipated that 23 institutions of higher education will continue to participate in the Bilingual Education Fellowship Program. An estimated 500 fellowships to individuals may be awarded, with an average amount of $6,700 per fellowship award.

This statement on the availability of funds is only an estimate and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act applicable regulations, and appropriation acts.

E. For further information contact the Office of Bilingual Education, Office of Education, 400 Maryland Avenue SW (Reporter's Building, Room 421), Washington, D.C. 20202 (202–245–2600). Information required to be included in requests for participation is set out in the Bilingual Education Regulations at 45 CFR 123.42(a).

F. Applicable regulations. The Bilingual Education Fellowship Program will be subject to the regulations in 45 CFR Part 123–Subpart E, §§ 123.41–123.50—relating to Fellowships for Preparation of Teacher Training published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23862).

BILINGUAL EDUCATION

Closing Date for Receipt of Applications for Non-Competing Assistance Contracts for Coordination of Technical Assistance by State Educational Agencies for Programs of Bilingual Education

Pursuant to the authority contained in section 721 of the Bilingual Education Act, Title VII of the Elementary and Secondary Education Act of 1965, as amended by Pub. L. 93–380 (20 U.S.C. 880b—880b–13), notice is hereby given that applications for noncompeting assistance contracts for the coordination of technical assistance are being accepted from State Educational Agencies in the State where programs of bilingual education assisted under the Bilingual Education Act operated during the fiscal year preceding the fiscal year for which assistance is sought.

Funds made available pursuant to this notice shall be used for the coordination of technical assistance to programs of bilingual education assisted under the Bilingual Education Act and operated by local educational agencies in the State of the applicant.

The amount paid to any State educational agency pursuant to this notice shall not exceed five percent of the aggregate of the amounts paid under Part A of the Bilingual Education Act to local educational agencies in the State of such agency in the fiscal year preceding the fiscal year for which assistance under this subpart is sought.

Closing date: November 15, 1977.

A. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate that applications forms and programs information packers will be ready for mailing on or about September 15, 1977.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

V 42 179 SEP 15 77 UMI

B. *Applications sent by mail.* An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.403H, Washington, D.C. 20202. Application should be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to inclement weather, natural disasters, delayed airline flight, tardy messenger service, civil disturbances, etc., the Office of Education suggets that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than November 10, 1977, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before November 15, 1977, by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

C. *Hand-delivered applications.* An application to be hand-delivered must be taken to the U.S. Office of Education D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C., time except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

D. *Program information.* The amount of funds available in Fiscal Year 1978 for assistance contracts for coordination of technical assistance is $4,375,000. Awards are made annually on a noncompetitive basis as assistance contracts to State educational agencies in states where programs of bilingual education assisted under the Bilingual Education Act operated during the fiscal year preceding the fiscal year for which assistance is sought. Forty-six states are eligible for Fiscal Year 1978 funds. Awards shall not exceed five percent of the aggregate of the amounts under Part A of the Bilingual Education Act to local educational agencies in the State for Fiscal Year 1977.

This statement on the availability of funds is only an average and does not bind the Office of Education to any particular pattern of distribution, except as required by the Bilingual Education Act, applicable regulations, and appropriation acts.

E. *For further information contact.* The Office of Bilingual Education, Office of Education, 400 Maryland Avenue SW. (Reporter's Building, Room 421), Washington, D.C. 20202 (202-245-2600).

F. *Applicable regulations.* Assistance contracts awarded pursuant to this notice will be subject to the regulations in 45 CFR Part 123, relating to the Bilingual Education Act published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23862), and except where inconsistent with Part 123, the Office of Education General Provisions Regulations in 45 CFR Part 100b. In preparing applications, applicants' attention is directed in particular to Subpart F of Part 123—§§123.51-123.60 relating to Coordination of Technical Assistance by State Educational Agencies.

(20 U.S.C. 880b-880b-13.)

(Catalog of Federal Domestic Assistance Number 13.403, Bilingual Education.)

Dated: September 8, 1977.

ERNEST L. BOYER,
U.S. Commissioner of Education.

CALIFORNIA PSRO AREA X: RESULTS OF NOTIFICATION

Notice to Physicians Regarding Agreement To Designate Professional Standards Review Organization

On July 20, 1977, the Secretary of Health, Education, and Welfare published in the FEDERAL REGISTER a notice in which he announced his intention to enter into an agreement with the Stanislaus-Merced-Mariposa PSRO, Inc., designating it as the Professional Standards Review Organization for PSRO Area X of the State of California, which area is designated a Professional Standards Review Organization Area in 42 CFR 101.7.

Such notice was also published in three consecutive issues of the *Merced Sun-Star, The Union Democrat*, and the *Modesto Bee* on July 20, 21, and 22, 1977. In addition, copies of the notice were mailed to organizations of practicing doctors of medicine or osteopathy, including the appropriate State and County medical and specialty societies, and hospitals and other health care facilities in the area, with a request that each such society or facility inform those doctors in its membership or on its staff who are engaged in active practice in PSRO Area X of the State of California of the contents of the notice.

The notice requested that any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area X of the State of California who objects to the Secretary entering into an agreement with the Stanislaus-Merced-Mariposa PSRO, Inc., on the grounds that such organization is not representative of doctors in PSRO Area X of the State of California, mail such objection in writing to the Secretary, Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022 on or before August 19, 1977.

After reviewing the final tabulation of objections from doctors of medicine or osteopathy in PSRO Area X of the State of California, the Secretary has determined, pursuant to 42 CFR 101.105, that not more than 10 percentum of the doctors engaged in the active practice of medicine or osteopathy in PSRO Area X of the State of California have expressed timely objection to the Secretary entering into an agreement with the Stanislaus-Merced-Mariposa PSRO, Inc. Therefore, the Secretary will proceed to enter into an agreement with the Stanislaus-Merced-Mariposa PSRO, Inc., designating it as the Professional Standards Review Organization for PSRO Area X of the State of California.

Dated: September 8, 1977.

ROBERT A. DERZON,
Administrator, Heath Care Financing Administration.

COMMONWEALTH OF PUERTO RICO: RESULTS OF NOTIFICATION

Notice to Physicians Regarding Agreement To Designate Professional Standards Review Organization

On July 20, 1977, the Secretary of Health, Education, and Welfare published in the FEDERAL REGISTER a notice in which he announced his intention to enter into an agreement with the Foundation for Medical Care of Puerto Rico designating it as the Professional Standards Review Organization for the Commonwealth of Puerto Rico, which area is designated a Professional Standards Review Organization Area in 42 CFR 101.43.

Such notice was also published in three consecutive issues of *El Mundo, El Nuevo Dia*, and the *San Juan Star* on July 20, 21, and 22, 1977. In addition, copies of the notice were mailed to organizations of practicing doctors of medicine or osteopathy, including the appropriate State and County medical and specialty societies and hospitals and other health care facilities in the area, with a request that each such society or facility inform those doctors in its membership or on its staff who are engaged in active practice in the Commonwealth of Puerto Rico of the contents of the notice.

The notice requested that any licensed doctor of medicine or osteopathy engaged in active practice in the Commonwealth of Puerto Rico who objects to the Secretary entering into an agreement with the Foundation for Medical Care of Puerto Rico on the grounds that such organization is not representative of doctors in the Commonwealth of Puerto Rico, mail such objection in writing to the Secretary, Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022 on or before August 19, 1977.

After reviewing the final tabulation of objections from doctors of medicine or osteopathy in the Commonwealth of Puerto Rico, the Secretary has determined, pursuant to 42 CFR 101.105, that not more than 10 percentum of the doctors engaged in the active practice of medicine or osteopathy in the Commonwealth of Puerto Rico have expressed

timely objection to the Secretary entering into an agreement with the Foundation for Medical Care of Puerto Rico. Therefore, the Secretary will proceed to enter into an agreement with the Foundation for Medical Care of Puerto Rico designating it as the Professional Standards Review Organization for the Commonwealth of Puerto Rico.

INDIANA PSRO AREA I: RESULTS OF NOTIFICATION

Notice to Physicians Regarding Agreement to Designate Professional Standards Review Organization

On July 6, 1977, the Secretary of Health, Education, and Welfare published in the FEDERAL REGISTER a notice in which he announced his intention to enter into an agreement with the Calumet Area Professional Review Organization designating it as the Professional Standards Review Organization for PSRO Area I of the State of Indiana, which area is designated a Professional Standards Review Organization Area in 42 CFR 101.18.

Such notice was also published in three consecutive issues of the *Post-Tribune, Chicago Sun-Times, Times, Chicago Tribune*, and the *Chicago Daily News* on July 1, 2, and 4, 1977; and a correction notice was published on July 27, 28, and 29, 1977 in the same newspapers. In addition, copies of the notice were mailed to organizations of practicing doctors of medicine or osteopathy, including the appropriate State and County medical and specialty societies and hospitals and other health care facilities in the area, with a request that each such society or facility inform those doctors in its membership or on its staff who are engaged in active practice in PSRO Area I of the State of Indiana of the contents of the notice.

The notice requested that any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area I of the State of Indiana who objects to the Secretary entering into an agreement with the Calumet Area Professional Review Organization on the grounds that such organization is not representative of doctors in PSRO Area I of the State of Indiana, mail such objection in writing to the Secretary, Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022 on or before August 5, 1977.

After reviewing the final tabulation of objections from doctors of medicine or osteopathy in PSRO Area I of the State of Indiana, the Secretary has determined, pursuant to 42 CFR 101.105, that not more than 10 percentum of the doctors engaged in the active practice of medicine or osteopathy in PSRO Area I of the State of Indiana have expressed timely objection to the Secretary entering into an agreement with the Calumet Area Professional Review Organization. Therefore, the Secretary will proceed to enter into an agreement with the Calumet Area Professional Review Organization designating it as the Professional Standards Review Organization for PSRO Area I of the State of Indiana.

[CA 2877]

CALIFORNIA

Opening of Land Subject to Section 24 of the Federal Power Act

SEPTEMBER 7, 1977.

Pursuant to the order of the Federal Power Commission DA-1127 issued June 17, 1977, and by virtue of the authority contained in Section 24 of the Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818) (1970), as amended, and in accordance with the authority redelegated to me by the State Director, California State Office, Bureau of Land Management, issued January 21, 1977 (42 FR 3901), as amended, it is ordered as follows:

1. The Commission finds that the value of the following described land, withdrawn in Power Site Classification No. 115, will not be injured or destroyed by conveyance subject to the provisions of Section 24 of the Federal Power Act.

HUMBOLT MERIDIAN

POWER SITE CLASSIFICATION 115

T. 8 N., R. 4 E.,
Sec. 25, Lot 25.

The area described aggregates 19.96 acres in Humbolt County.

2. The State of California has waived its preference right of application for highway rights-of-way on material sites afforded it by Section 24 of the Federal Power Act.

3. The land shall be made immediately available for a pending Indian Allotment CA 3933 subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and subject to the provisions of Section 24 of the Federal Power Act, supra.

Sec. 29, N½ and E½SE¼.
T. 15 S., R. 78 W.,
Sec. 13, E½SW¼.
Sec. 24, NE¼.

Vehicle closure signs are posted where this trail enters public lands. The trail extends from the vicinity of Ruby Mountain, near Nathrop, Colo., southeasterly approximately four miles to the San Isabel National Forest boundary. In the past this trail continued into the National Forest but that portion has been closed by the Forest Service. This trail passes through a portion of an area known as Browns' Canyon which was included in a proposed withdrawal to protect primitive values on August 16, 1976. In addition, Sec. 103 of the Federal Land Policy and Management Act of October 21, 1976 requires that such areas be reviewed to determine suitability for wilderness designation. The Act also requires that until such a determination is made such areas are to be managed so as not to impair suitability for preservation for wilderness. Closure of the above described trail is an interim management action to protect potential primitive and/or wilderness values.

This notice of closure shall become effective upon publication in the FEDERAL REGISTER.

Copies of a map showing the location of the trail as it crosses through the above described lands are posted in the Post Office at Nathrop, Colo., and in the Chaffee County Courthouse in Salida, Colo., and are available in the District Office, Bureau of Land Management, 3080 East Main Street, Canon City, Colo. 81212.

DALE R. ANDRUS,
State Director.

CRAIG, MONTROSE, CANON CITY-GRAND JUNCTION TEAM LEADERS, BRANCH OF ADJUDICATION, DIVISION OF TECHNICAL SERVICES, COLORADO STATE OFFICE

Redelegation of Authority

SEPTEMBER 9, 1977.

1. Pursuant to the authority contained in redelegation of authority, published in FEDERAL REGISTER, 42 FR 41484, No. 159—Wednesday, August 17, 1977 (FR Doc. 77-23635 Filed 8-16-77; 8:45 a.m.), I hereby redelegate to the Leaders, Craig, Montrose and Canon City-Grand Junction Teams, Branch of Adjudication, in the Division of Technical Services, authority to take action on the following matters:

Sections 1.2 (b) and (e), 1.3(a), 1.5 (b) and (c), 1.6 (a) through (1), and 1.9 (a) through (f), (h) through (s), (u), (x), and (y) of Part I of the Bureau Order No. 701, of July 23, 1964, as amended.

2. Effective date: This redelegation will become effective October 1, 1977.

THOMAS N. HARDIN,
Chief, Branch of Adjudication.

NELLIS AIR FORCE BOMBING AND GUNNERY RANGE WITHDRAWAL, SOUTHERN NEVADA

Draft Environmental Statement

In accordance with Section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Air Force and the Bureau of Land Management (BLM) have begun preparation of a draft environmental statement on the proposed renewal of the Nellis Air Force Bombing and Gunnery Range Withdrawal. The Nellis Range, located in southeastern Nevada, includes portions of Clark, Lincoln, and Nye Counties.

The proposed action involves the continued use by the Department of the Air Force of about three million acres, most of which have been withdrawn land used primarily for training combat air crews and for testing experimental or improved weapons systems.

The draft statement will analyze the potential impacts of the proposed action and/or future Air Force activities on the human environment. The potential environmental effects to be assessed in the statement will primarily relate to: (a) The exclusion of possible alternative land uses within the areas involved; and (b) impacts to the land caused by continued use by the Air Force for weapons-related activities. (These types of activities have been occurring in the area since an original 1940 withdrawal.)

The draft environmental statement is being prepared by the Air Force's Environmental Planning Division, Langley Air Force Base, Va., with the assistance and review of the BLM. Anyone desiring more information, or wishing to comment on the project should contact William C. Calkins, Chief, Environmental Coordination Section, Bureau of Land Management, Room 3008, Federal Building, 300 Booth Street, Reno, Nev. 89509.

Dated: September 8, 1977.

E. I. ROWLAND,
State Director, Nevada.

NEW MEXICO

Notice of Application

SEPTEMBER 8, 1977.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Co. has applied for one 8⅝-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, N. MEX.

T. 17 S., R. 29 E.,
Sec. 27, NE¼SW¼.

This pipeline will convey natural gas across 0.288 of a mile of public land in Eddy County, N. Mex.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, N. Mex. 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[OR 17389]

OREGON

Reclassification of Public Land for Disposal by Exchange

SEPTEMBER 8, 1977.

Notice of classification, OR 1630, which was published in the FEDERAL REGISTER on November 29, 1967 (32 FR 16285-16287), as amended, classified the land described below, among other lands, for retention in federal ownership for multiple use management under the Act of September 19, 1964, 43 U.S.C. 1411-18 (1970).

It has been determined that the classification is no longer appropriate for the parcel described below and the segregative effect of the classification is hereby terminated. Accordingly, pursuant to 43 CFR 2400, notice is hereby given that this land is reclassified for disposal by exchange under the provisions of Section 206 of the Act of October 21, 1976 (90 Stat. 2743, 2756; 43 U.S.C. 1716).

WILLAMETTE MERIDIAN

T. 33 S., R. 18 E.,
Sec. 3, $S\frac{1}{2}S\frac{1}{2}SE\frac{1}{4}$.
Sec. 10, $N\frac{1}{2}NE\frac{1}{4}$.

The area described totals 120 acres in Lake County. In accordance with 43 CFR 2201.1 and 2202.1, no application for an exchange will be accepted until the land has been classified and the application is accompanied by a statement from the Lakeview District Manager, Bureau of Land Management, that the proposal is feasible.

No later than October 17, 1977, interested parties may submit comments to the Secretary of the Interior, LLM 320, Washington, D.C. 20240.

MURL W. STORMS,
State Director.

[W-60227]

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 11, 1977.

The Fish and Wildlife Service, Department of the Interior, on July 19, 1977, filed application, Serial No. W-60227, for the withdrawal of approximately 11.21 acres of land from settlement, sale, location, or entry, under all of the general land laws, including the mining laws, but not the mineral leasing laws, subject to valid existing rights.

The Fish and Wildlife Service desires these lands for use as a district administrative headquarters site for Animal Damage Control activities.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the State Director, Bureau of Land Management, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyo. 82001, on or before September 21, 1977. Upon determination by the State Director that a public hearing will be held, the time and place will be announced.

The Department of the Interior's regulations provide that the authorized officer of the BLM will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

For a period of two years from the date of publication of this notice in the FEDERAL REGISTER, the lands will be segregated from entry as specified above unless the application is rejected or the withdrawal is approved prior to that date. If the withdrawal is approved by the Secretary, it will be for a 20 year period, and the lands will remain segregated for the duration of the withdrawal.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYO.

T. 19 N., R. 105 W.,
Sec. 22, lots 22 and 23, containing 11.21 acres.

All communications in connection with this withdrawal should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Department of the Interior, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyo. 82001.

HAROLD G. STINCHCOMB,
Acting Chief, Division of Technical Services.

GRAND TETON NATIONAL PARK AND JOHN D. ROCKEFELLER, JR. MEMORIAL PARKWAY, WYO.

Concurrent Jurisdiction Accepted

Notice is hereby given that effective as of the 11th day of July, 1977, the United States has accepted concurrent jurisdiction over crimes and offenses under the laws of the State of Wyoming over and within all the territory dedicated to national park purposes included in tracts of land designated as Grand Teton National Park and John D. Rockefeller, Jr., Memorial Parkway. The acceptance of such jurisdiction was authorized by the Act of February 1, 1940 (54 Stat. 19, as amended; 40 U.S.C. 255).

Concurrent jurisdiction was ceded by the State of Wyoming subject to provisions contained in the act of the Forty-Fourth Legislature of the State of Wyoming, 1977 Session, as approved February 25, 1977 (Enrolled Act No. 41, Senate; Chapter No. 95; W.S. 5-4.4). This acceptance was effected by letter of July 8, 1977, from the Director of the National Park Service to the Governor of the State of Wyoming, receipt of which was acknowledged by the Governor on July 11, 1977.

The acquisition of this jurisdiction will enable the National Park Service to assume a more positive role in matters of public health and safety and to otherwise administer these areas more effectively. It will also relieve much of the burden heretofore placed on local authorities by the thousands of people who visit these Federal areas each year.

Done at the city of Washington, D.C., this 31 day of August, 1977.

WILLIAM J. WHALEN,
Director, National Park Service.

Office of the Secretary

PREVENTION OF SIGNIFICANT AIR QUALITY DETERIORATION WITHIN UNITS OF THE NATIONAL PARK SYSTEM

Termination of Class I PSD Redesignation Study

The Department of the Interior has discontinued studies to determine whether Capitol Reef National Park and Canyonlands National Park should be redesignated to Class I areas pursuant to EPA Prevention of Significant Air Quality Deterioration (PSD) Regulations (40 CFR § 52.21).

The Secretary of the Interior announced in the FEDERAL REGISTER on June 14, 1977, that these two national parks in Utah were being considered for redesignation to Class I, and that studies required for that purpose under regulations of the Environmental Protection Agency in effect at that time would be pursued. However, the Clean Air Act Amendments of 1977, enacted into law on August 8, 1977, automatically place Capitol Reef and Canyonlands National Parks in the Class I PSD category. This new legislation preempts the former EPA regulations and makes further redesignation study of the two parks unnecessary.

Dated: August 24, 1977.

DAVID F. HALES,
Acting Assistant Secretary of the Interior.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

IMPORTATION OF CONTROLLED SUBSTANCES

Application

Pursuant to Section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schdule I or II and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with section 1311.42 of Title 21, Code of Federal Regulations (CFR), notice is hereby given that on August 24, 1977, Research Technology Branch, Division of Research, National Institute on Drug Abuse, DHEW, 11400 Rockville Pike, Rockville, Md.

V 42 179
SEP 15 77
UMI

20852, made application to the Drug Enforcement Administration to be registered as an importer of thebaine, a basic class controlled substance in schedule II, to be imported for research purposes only.

As to the basic class of controlled substance listed above for which application for registration has been made, any other applicant therefor, and any existing bulk manufacturer registered therefor, may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests for a hearing may be filed no later than October 20, 1977.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203, 1405 Eye Street NW., Washington, D.C. 20537.

This procedure is to be conducted simultaneously with and independent of the procedures described in 21 CFR 1311.42 (b), (c), (d), (e), and (f). As noted in a previous notice at 40 FR 43745–46 (September 23, 1975), all applicants for registration to import a basic class of any controlled substance in schedule I or II are and will continue to be required to demonstrate to the Administrator of the Drug Enforcement Administration that the requirements for such registration pursuant to 21 U.S.C. 958(a), 21 U.S.C. 823(a), and 21 CFR 1311.42 (a), (b), (c), (d), (e), and (f) are satisfied.

Dated: September 8, 1977.

DONALD E. MILLER,
Acting Deputy Administrator,
Drug Enforcement Administration.

MANUFACTURE OF CONTROLLED SUBSTANCES

Application

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 823(a)(1)) states:

"The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) maintenance of effective controls against diversion of particular controlled substances and any controlled substance in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substances to a number of establishments which can produce an adequate and uninterrupted supply of these substances under adequately competitive conditions for legitimate medical, scientific, research, and industrial purposes;

Pursuant to Section 1301.43 of Title 21 of the Code of Federal Regulations (CFR), notice is hereby given that on July 25, 1977, Endo Laboratories, Inc., 1000 Stewart Avenue, Garden City, New York 11530, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic class of controlled substances listed below:

Drug:	Schedule
Hydrocodone	II
Oxycodone	II
Oxymorphone	II

Pursuant to Section 301 of the Controlled Substances Act (21 U.S.C. 821), and in accordance with 21 CFR 1301.43 (a), notice is hereby given that the above firm has made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic class of controlled substances indicated, and any other such person, and any existing registered bulk manufacturer of the above substances may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on the application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests for a hearing may be filed no later than October 20, 1977.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203, 1405 Eye Street NW., Washington, D.C. 20537.

Dated: September 8, 1977.

DONALD E. MILLER,
Acting Deputy Administrator,
Drug Enforcement Administration.

In determining the public interest, the following factors shall be considered:

(1) maintenance of effective controls against diversion of particular controlled substances and any controlled substance in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substances to a number of establishments which can produce an adequate and uninterrupted supply of these substances under adequately competitive conditions for legitimate medical, scientific, research, and industrial purposes;

Pursuant to Section 1301.43 of Title 21 of the Code of Federal Regulations (CFR), notice is hereby given that on August 9, 1977, Fher Corporation Ltd., Carretera 132, KM 25.3, P.O. Box 4108 Ponce, Puerto Rico 00731, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of phenmetrazine, a basic class of controlled substance in schedule II.

Pursuant to Section 301 of the Controlled Substances Act (21 U.S.C. 821), and in accordance with 21 CFR 1301.43 (a), notice is hereby given that the above firm has made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic class of controlled substance indicated, and any other such person, and any existing registered bulk manufacturer of phenmetrazine, may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on the application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests for a hearing may be filed no later than October 20, 1977.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203 1405 Eye Street NW., Washington, D.C. 20537.

Dated: September 8, 1977.

DONALD E. MILLER,
Acting Deputy Administrator,
Drug Enforcement Administration.

MANUFACTURE OF CONTROLLED SUBSTANCES

Application

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 823(a)(1)) states:

"The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) maintenance of effective controls against diversion of particular controlled substances and any controlled substance in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substances to a number of establishments which can produce an adequate and uninterrupted supply of these substances under adequately competitive conditions for legitimate medical, scientific, research, and industrial purposes;"

Pursuant to Section 1301.43 of Title 21 of the Code of Federal Regulations (CFR), notice is hereby given that on July 29, 1977, Pharmaceuticals Division, Ciba-Geigy Corporation, 556 Morris Avenue, Summit, New Jersey 07901, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of methylphenidate, a basic class of controlled substance in schedule II.

Pursuant to Section 301 of the Controlled Substances Act (21 U.S.C. 821), and in accordance with 21 CFR 1301.43 (a), notice is hereby given that the above firm has made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of the basic class of controlled substance indicated, and any other such person, and any existing registered bulk manufacturer of methylphenidate may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on the application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests for a hearing may be filed no later than October 20, 1977.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203, 1405 Eye Street NW., Washington, D.C. 20537.

Dated: September 8, 1977.

DONALD E. MILLER,
Acting Deputy Administrator,
Drug Enforcement Administration.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

DANCE ADVISORY PANEL

Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a meeting of the Dance Advisory Panel to the National Council on the Arts will be held on October 2–3, 1977 from 9:15 a.m. to 6:00 p.m., October 4, 1977 from 9:15 a.m. to 5:00 p.m. and October 5, 1977 from 9:15 a.m. to 6:00 p.m., in the fourth floor Board Room, Music Center Presentations, 135 North Grand Avenue, Los Angeles, California 90012.

A portion of this meeting will be open to the public on October 4, 1977 from 9:15 a.m. to 6:00 p.m. and October 5, 1977 from 9:15 a.m. to 3:00 p.m. The agenda for this session will include a discussion of guidelines, policy and a question and answer session.

The remaining sessions of this meeting on October 2–3, 1977 from 9:15 a.m. to 5:00 p.m. and October 5, 1977 from 3:00 p.m. to 6:00 p.m. are for the purpose

of Panel review, discussion, evaluation, and recomendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applications. In accordance with the determination of the Chairman published in the FEDERAL REGISTER March 17, 1977, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(B) of section 552(b) of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6377.

ROBERT M. SIMS,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

SEPTEMBER 12, 1977.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR MOLECULAR BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Molecular Biology, Sub-Panel B.

Date and Time: October 6 and 7, 1977—9 a.m. to 6 p.m.

Place: Room 643, National Science Foundation.

Type of Meeting: Closed.

Contact person: Dr. Frederick I. Isuji, Program Director for Biochemistry, Room 329, National Science Foundation, Washington, D.C., 20550, telephone 202–632–4260.

Purpose of panel: To provide advice and recommendations concerning support for research in molecular biology.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee Management Officer.

SEPTEMBER, 12, 1977.

[FR Doc.77-26761 Filed 9-14-77;8:45 am]

ADVISORY PANEL FOR PSYCHOBIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Psychobiology.

Date and time: October 5 and 6, 1977—9 a.m. to 5 p.m. each day.

Place: National Science Foundation, 1800 G St. N.W., Washington, D.C. Room 321.

Type of meeting: Closed.

Contact person: Fred Stollnitz, Program Director for Psychobiology, Room 320, National Science Foundation, Washington, D.C. Telephone 202–632–4264.

Purpose of panel: To provide advice and recommendations concerning support for research in psychobiology.

Agenda: The panel will be reviewing and evaluating research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b (c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

SEPTEMBER 12, 1977.

COMMITTEE MANAGEMENT

Establishments

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), I have determined that the establishment of the Advisory Committees listed below are necessary, appropriate, and in the public interest in connection with the performance of duties imposed upon the National Science Foundation (NSF) by the National Science Foundation Act of 1950, as amended, and other applicable law.

As a result of a recent reorganization of the Foundation's advisory group structure, these 14 new committees will replace 36 advisory panel's which will be terminated at the time the new charters are filed with Congress. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to Sect. 9(a)(2) of the Federal Advisory Committee Act and OMB Circular A-63, Revised.

ADVISORY COMMITTEE FOR ATMOSPHERIC SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the atmospheric sciences area.

Membership. The Advisory Committee will consist of approximately 30 persons selected

V 42 1179
SEP 15 77
UMI

from the scientific community in atmospheric sciences.

ADVISORY COMMITTEE FOR ASTRONOMICAL SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the astronomical sciences area.

Membership. The Advisory Committee will consist of approximately 30 persons selected from the scientific community in astronomy.

ADVISORY COMMITTEE FOR EARTH SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the earth sciences area.

Membership. The Advisory Committee will consist of approximately 25 persons selected from the scientific community in earth sciences.

ADVISORY COMMITTEE FOR OCEAN SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the ocean sciences area.

Membership. The Advisory Committee will consist of approximately 35 persons selected from the scientific community in ocean sciences.

ADVISORY COMMITTEE FOR POLAR PROGRAMS

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the polar regions area.

Membership. The Advisory Committee will consist of approximately 55 persons selected from the scientific community in polar research.

ADVISORY COMMITTEE FOR ENGINEERING

Purpose. To provide advice, recommendations, and oversight concerning activities in the following areas: civil, chemical, electrical, mechanical and engineering disciplines.

Membership. The Advisory Committee will consist of approximately 36 persons selected from the scientific community in engineering research.

ADVISORY COMMITTEE FOR MATHEMATICAL AND COMPUTER SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the mathematics and computer sciences area.

Membership. The Advisory Committee will consist of approximately 25 persons selected from the scientific community in mathematical and computer sciences.

ADVISORY COMMITTEE FOR MATERIALS

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the following areas: condensed matter physics and chemistry, metallurgy, ceramics and polymer science; the Materials Research Laboratory Program; and user facilities at the National Magnet Laboratory, the Wisconsin Synchrotron Radiation Center and the Stanford Synchrotron Radiation Project.

Membership. The Advisory Committee will consist of approximately 36 persons selected from the scientific community in materials research.

ADVISORY COMMITTEE FOR CHEMISTRY

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the chemistry area.

Membership. The Advisory Committee will consist of approximately 18 persons selected from the scientific community in chemistry.

ADVISORY COMMITTEE FOR PHYSICS

Purpose. To provide advice, recommendations, and oversight concerning support in the physics area.

Membership. The Advisory Committee will consist of approximately 30 persons selected from the scientific community in physics.

ADVISORY COMMITTEE FOR PHYSIOLOGY, CELLULAR, AND MOLECULAR BIOLOGY

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the following areas: developmental, genetic, cellular, regulatory, and metabolic biology, and biochemistry and biophysics.

Membership. The Advisory Committee will consist of approximately 77 persons selected from the scientific community in the biological sciences.

ADVISORY COMMITTEE FOR BEHAVIORAL AND NEURAL SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the following areas: anthropology, linguistics, neurobiology, psychobiology, sensory physiology and perception, and social and developmental psychology.

Membership. The Advisory Committee will consist of approximately 60 persons selected from the scientific community in behavioral and neural sciences.

ADVISORY COMMITTEE FOR SOCIAL SCIENCES

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the following areas: economics, human geography and regional science, law and social sciences, political sciences, sociology, history and philosophy of science, special projects and social indicators.

Membership. The Advisory Committee will consist of approximately 45 persons selected from the scientific community in social sciences.

ADVISORY COMMITTEE FOR ENVIRONMENTAL BIOLOGY

Purpose. To provide advice, recommendations, and oversight concerning support for research and research-related activities in the following areas: ecology, systematics, population biology and physiological ecology, and ecosystems.

Membership. The Advisory Committee will consist of approximately 30 persons selected from the scientific community in environmental biology.

Balanced Membership. The membership of the Advisory Committees will be fairly balanced in the terms of the points of view represented and the committees function. Members will be chosen so as to insure a balance of subspecialty competence, geographical distribution, and representation of women and minorities. There will be no discrimination of the basis of race, color, national origin, religion, or sex.

Establishment and Duration. The Advisory Committees are effective on the date the charter is filed with the Director, NSF, and the standing committees of Congress having legislative jurisdiction of the National Science Foundation. The Advisory Committees will continue for two calendar years from the date of this filing.

Advisory Committee Operation. The Advisory Committees will operate in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463); Foundation policy and procedures; OMB Circular A-63, Revised; and other directives and instructions issued in implementation of the Act.

RICHARD C. ATKINSON,
Director.

SEPTEMBER 12, 1977.

[FR Doc.77 26762 Filed 9-14 77;8:45 am]

ERDA/NSF NUCLEAR SCIENCE ADVISORY COMMITTEE (NUSAC)

Notice of Establishment

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), it is hereby determined that the establishment of the ERDA/NSF Nuclear Science Advisory Committee is necessary, appropriate, and in the public interest in connection with the performance of the duties imposed upon the Director, National Science Foundation (NSF) by the National Science Foundation Act of 1950, as amended, and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to § 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

1. Name of Committee: ERDA/NSF Nuclear Science Advisory Committee (NUSAC).

2. Purpose: To provide advice on a continuing basis to both ERDA and NSF on support for basic nuclear science in the United States.

3. Effective date of establishment and duration: The establishment of this Committee is effective upon filing the charter with the Director, NSF, and the standing committees of Congress having legislative jurisdiction of the NSF and ERDA. The Committee will continue for two calendar years from the date of establishment. Two-year renewals of this Committee will be alternately under the aegis of ERDA and NSF, *mutatis mutandis.*

4. Membership: Membership of the Committee shall be fairly balanced in the terms of the point of view represented and the Committee's functions. Membership will consist of approximately 11 persons chosen to ensure an appropriately balanced representation of the scientific community in basic nuclear science, taking into account (1) the various subareas within nuclear science; (2) the various types of institutions engaged in research into basic nuclear science; (3) appropriate geographic distribution. Because of the specialized subject matter of the Committee, it is not felt necessary to include a public interest or industrial representative per se. There will be no discrimination on the basis of race, color, national origin, religion, age or sex.

5. Operation: The Committee will operate in accordance with provisions of the Federal Advisory Committee Act (Pub. L. 92-463); NSF policy and procedures, OMB Circular No. A-63 Revised, and other directives and instructions issued in implementation of the Act.

6. Waiver: The Committee plans to hold its first meeting in mid-October. Therefore, OMB has waived the requirement that the Notice of Establishment appear in the Federal Register 15 days before the charter can be filed with Congress. The charter will be filed on September 23, 1977.

RICHARD C. ATKINSON,
Director.

SEPTEMBER 12, 1977.

[FR Doc.77-26916 Filed 9-14-77;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 77-37]

SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Aviation Safety Recommendations A-77-56 through 58.—The National Transportation Safety Board has become aware of a serious problem involving supplemental oxygen masks for general aviation aircraft—a problem which has potentially disastrous consequences and requires immediate action by the Federal Aviation Administration.

The problem was detected during investigation of an incident involving a Piper Aztec (PA-23) which was on a return trip of an air taxi flight on August 3, 1977, from Bozeman, Mont., to Salt Lake City, Utah. After the two pilots aboard donned their oxygen masks, the copilot began to choke because an object had lodged in his throat. He manager to dislodge and swallow the object with great difficulty. The pilot-in-command removed his mask and found a circular filter that had been partially dislodged. This diluter valve filter was missing from the copilot's mask and obviously was the object on which he had choked. Had this flight been a single-pilot operation, aircraft control might have been lost.

These oxygen masks were manufactured by the Scott Aviation Division of A-T-O, Inc., as "Sky Mask," Part No. 28314-17, and were supplied by Piper Aircraft Corp. as part of the aircraft oxygen system. This type of mask is used in all types of general aviation aircraft for pilot and passenger supplemental oxygen. Other masks manufactured with the same dilution valve filter as the filter involved in this incident are manufactured under Part Nos. 28314, 28315, and 28317.

Board inspection of the "Sky Mask" has revealed that the filter can be dislodged easily by squeezing the pliable face piece of the mask, as as when donning the mask or adjusting it to facial contours. The Board notes that there are no definitive requirements for oxygen masks in 14 CFR Part 23; thus, an FAA inspector would have no basis on which to approve a mask as part of an aircraft's installed oxygen system. FAA approval also is not required when the mask is bought and used by an individual aircraft operator. The Board believes that equipment so closely related to the safety of flight should be more closely controlled by appropriate technical standards. Accordingly, on September 9 the Safety Board recommended that FAA—

Issue an Airworthiness Directive to require that all Scott Aviation "Sky Masks" be modified so that the dilution valve filter is positively retained. (Class I—Urgent Followup) (A-77-56)

Issue a Telert Maintenance Bulletin to alert all operators of aircraft equipped with Scott Aviation "Sky Masks" to check visually the security of the dilution valve filter before each use of the mask until the mask is modified. (Class I—Urgent Followup) (A-77-57)

Develop a Technical Standard Order (TSO) for continuous flow oxygen masks. (Class II—Priority Followup) (A-77-58)

Pipeline Safety Recommendations P-77-21 through 23.—Three additional Class I—Urgent Followup recommendations were issued September 9 to Alyeska Pipeline Service Co. as the Safety Board continues its investigation into the explosion and fire which occurred on July 8 at Alyeska's Pump Station No. 8 on the Trans-Alaska pipeline. Two Class I recommendations, Nos. P-77-16 and 17, were issued to Alyeska on July 15. (See 42 FR 37459, July 21, 1977.)

Investigation has shown that the explosion occurred when crude oil was turned into Pump No. 1 while the workers were servicing the pump's strainer. The oil under a pressure of about 400 psig sprayed out of the open cover and rapidly filled the building with vaporized crude oil. The vapor was ignited by one of several possible sources and exploded.

Information obtained from personnel directly affected by the accident revealed that before removing and cleaning the No. 1 pump's strainer, the selector switch for the No. 1 pump suction valve's motor operator had been placed in the manual position to allow the men in the pump room to close this valve and then drain the crude oil out of the strainer. However, after the valve was closed the control for the valve operator was not "locked out" electrically to render the No. 1 pump suction valve inoperative as the Alyeska company procedures direct.

Because of the inability to control the valves or to shut down the pumps from the pump room, and because of the inability of personnel in the pump station control room to monitor operations visually in the pump room and turbine room, the Safety Board now recommends that Alyeska—

Install a control in the pump room to shut down the pumps from that location. (P-77-21)

Install a control in the pump room to operate the pump valves from that location at any time. (P-77-22)

Install a closed circuit-type video camera in the pump room and turbine room to allow the pump station control center to monitor visually all activities at these locations. (P-77-23)

Railroad Safety Recommendations R-77-26 and 27.—A head-on collision of two rapid transit trains of the Greater Cleveland Regional Transit Authority on the Shaker Heights Line near 92nd and Holton Streets on July 8 is now under investigation by the Safety Board. The collision resulted in 57 injuries.

The Safety Board notes that trains on this line are governed by signals of an automatic block signal system. The double-track line is signalled for train movement in only one direction on each track. At the time of the accident, trains were operating in both directions on the south track because track work was being performed on the north track. This single-track operation was confined to the area between Pennsy Crossing and Shaker Square, a distance of approximately 3 miles. The single-car trains collided on a curve, approximately 1,500 feet east of the Pennsy Crossing crossover. Preliminary investigation has revealed a serious deterioration in the effectiveness and maintenance of the signal system on this line.

Although the Safety Board has not yet determined the cause of the collision on the Shaker Heights Line, the condition of the block signal system should be immediately corrected. The Board therefore recommends that the Greater Cleveland Regional Transit Authority—

Immediately inspect and repair the block signal system and implement procedures for its maintenance to insure that it continues to function as intended. (Class I) (R-77-26)

Until such time that the block signal system is repaired, establish a well-defined operational procedure which will insure the safe movement of all trains on the Shaker Heights Line. (Class I) (R-77-27)

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation: A-76-101 and 102.—Federal Aviation Administration's letter of August 30 informs the Safety Board that changes to the Air Traffic Control Handbook 2110.65 and AIM Part I have been completed and published, effective July 1, 1977. The FAA considers actions completed with regard to this recommendation, issued following Board investigation of the November 30, 1975, Scenic Airlines crash southwest of the Elko (Nev.) Airport. (See 41 FR 31625, June 29, 1976.) The recommendations asked that the Handbook be amended to include all aircraft, whether radar-identified or not, and to state that the "low altitude alert" be issued on the basis of pilots' verbal altitude reports as radar observations or automatic altitude reports; and to instruct the controller to issue a "safety advisory" to a nonradar-identified aircraft if a verbal altitude report or verbal position report reveals a situation which, in the controller's judgment, is likely to affect the safety of the aircraft.

Aviation: A-77-6 and A-77-8.—Federal Aviation Administration's letter of August 30 is a further response to recommendations regarding medical procedures for airmen. A-77-6 proposed that an issue of the *Federal Air Surgeon's Medical Bulletin* emphasize to the FAA-designated Aviation Medical Examiners the need for quality control and the need for adherence to the provisions of 14 CFR Part 67 and the *Guide for Aviation Medical Examiners*, and A-77-8 referred

V 42 179 SEP 15 77 UMI

to the use of FAA Form 8500–15, Statement of Demonstrated Ability (SODA).

FAA's letter of last May 11 (42 FR 27076, May 26, 1977) indicated that a forthcoming issue of the *Federal Air Surgeon's Medical Bulletin* would contain information responsive to recommendation A–77–6. FAA also noted, re A–77–8, that an issue would address the need for adherence to instructions concerning SODA's contained in the *Guide for Aviation Medical Examiners*. FAA attached to its August 30 letter a copy of the *Federal Air Surgeon's Medical Bulletin*, No. 77–1, July 1977, containing the pertinent article, and stated that it has been mailed to all Aviation Medical Examiners.

Aviation: A–77–48.—Federal Aviation Administration's letter of August 25 is in response to the Safety Board's request that FAA standardize word and phrase contractions contained in FAA publications, and in publications approved by FAA, to assure that there are no authorized abbreviations with dual meanings, or different abbreviations with the same meanings, used for air traffic control, communications, or associated services. The recommendation was issued following Board investigation into the loss last February 28 of a twin engine airplane near Mt. Iliamna, Alaska. (See 42 FR 33392, June 30, 1977.)

FAA agrees that commonly used contractions should be standardized and should have precise meanings. FAA reports that the Air Traffic Service has initiated a total review of contractions being used in the air traffic control system and that the project will be coordinated with other agencies and the International Civil Aviation Organization. FAA anticipates completion of this project in about 18 months.

Marine: M–73–2 through 5.—U.S. Coast Guard's letter of August 24 concerns recommendations issued following investigation into the August 14, 1971, collision between the M/V JAMES L. HAMILTON, M/V LASALLE, and tow and motorboat OH–5421–MC.

The Safety Board in recommendation M–73–2 asked Coast Guard to include a cautionary note in *Rules of the Road; Western Rivers*, stating that even when bearings on an approaching vessel are changing, there can be a risk of collision with a long tow ahead of the towboat making the observations. In response, Coast Guard states that it does not favor the insertion of a cautionary note in the rules of the road as a specific item, believing that the rules generally are "designed for use by reasonable men when encountering reasonably expected situations." Coast Guard says that if the rules were to deal specifically with every conceivable situation they would become unnecessarily complex, unmanageable, and incomprehensible; such situations are dealt with in Rules 25 and 26, Western River Rules. Additionally, towing vessel operators are required to be licensed by the Coast Guard and must show competency and knowledge in towboat operations.

Coast Guard reports that regulations are being drafted for inland waters; the regulations will parallel the 1972 International Regulations for Preventing Collisions at Sea, which came into force July 15, 1977. The Western River rule in question will also be expanded and therefore will be more effective in providing guidance for the prevention of collisions, Coast Guard said. It is also planned that an article be published in the Proceedings of the Marine Safety Council relative to the risk of collision rules.

In answer to M–73–3, which recommended that Coast Guard require suitable side-light alignment and securing devices on the front of barge tows to insure that such light will comply with the alignment required by the Rules of the Road, Coast Guard reports publication of an artile concerning the subject Marine Board of Investigation in the Proceedings of the Marine Safety Council, Volume 30, No. 4 of April 1973; included in the article are the Safety Board findings and recommendations. Coast Guard says that the article received wide distribution within the marine field, including the towing vessel industry. The Coast Guard is currently undertaking revision of the rules of U.S. waters to conform with requirements of the 1972 International Regulations for Preventing Collisions at Sea.

Regarding M–73–4, which recommended that Coast Guard upgrade the reliability of the navigation lights on barge tows by requiring that the circuits for these lights be automatically monitored to give an alarm in case of light failure, and by requiring redundant lights, Coast Guard finds no evidence that the sidelights of barges are so unreliable as to necessitate extensive and expensive redundancies and control capabilities. Coast Guard agrees with the Board that such a requirement could be instituted but says that casualty statistics do not support the need for such equipment.

Recommendation M–73–5 asked Coast Guard to clarify the effect on responsibilities for initiating whistle signals in *Rules of the Road*, of the requirement that easily maneuverable vessels less than 65 feet shall not hamper large vessels or vessels with tows, and develop and publish authoritative interpretations of actions required in other frequently encountered operating situations in which the "shall not hamper" rule interacts with other rules. In response, Coast Guard provides findings from a special study conducted to evaluate whether the interpretation of the "shall not hamper" rule is causing marine safety problems. Coast Guard notes that due to legal considerations, it does not develop interpretative rules; these have traditionally come from the courts in decisions in admiralty cases.

Pipeline: P–77–16 and 17.—Alyeska Pipeline Service Company's letter of August 25 is in answer to the Safety Board's initial recommendations made while investigating the July 8 Trans-Alaska pipeline accident (see above).

Relative to recommendation P–77–16, Alyeska reports that a Pump Station Manager has been added at each of its active stations. These are experienced people charged with the overall responsibility for the safe operation of their pump station. Alyeska says that the Chief Pump Station technicians report directly to this manager, thus providing for continuity between crews. The position of Assistant Chief Technician has been instituted to provide one working leader during the second shift at each station. Alyeska further reports that a large personnel roster board is being prepared for each pump station to identify all on-site personnel as well as their reporting relationship within the station.

Re P–77–17, Alyeska has instituted a system for refresher, on-the-job, training classes at all pump stations. These classes will review the system control logic for the startup, operation and shutdown of mainline pumps, pump house isolation, pump station isolation as well as communications within the pump station and/or coordination with the OCC at the Valdez Terminal. Also, the Safety Department has held refresher classes at all pump stations to stress compliance with the existing work permit and system lockout procedures. Recognizing the need for refresher training sessions, Alyeska maintains a full-time training section to provide both new-hire training and refresher series.

NOTE.—The above notice consists of summaries of Safety Board recommendations made available, and recommendation responses received, during the week preceding publication of this notice in the FEDERAL REGISTER. The safety recommendation letters in their entirety are available to the general public; single copies are obtainable without charge. Copies of the full text of responses to recommendations may be obtained at a cost of $4 for service and 10 cents per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice in the FEDERAL REGISTER. NUCLEAR REGULATORY COMMISSION

[Docket No. 50–251]

FLORIDA POWER AND LIGHT CO.

Granting of Relief From ASME Section XI Inservice Inspection (Testing) Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted interim relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components" to Florida Power and Light Company, pending the Commission's completion of its detailed analysis of FPL's application for permanent relief. The relief relates to the inservice inspection (testing) program for the Turkey Point Generating Station Unit No. 4 (the facility) located in Dade County, Florida. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance.

The relief consists of excepting certain valves and pumps from being exercized or tested due to their design and their physical location, arrangements, alignment and orientation in the system or pumps and valves whose access may be restricted due to high radiation areas.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief. Prior public notice of this action was not required since the granting of this relief from ASME Code requirements does not involve a significant hazards consideration.

The Commission has determined that the granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

For further details with respect to this action, see (1) the request for relief dated February 25, 1977, (2) the Commission's letter to the licensee dated September 7, 1977.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Environmental and Urban Affairs Library, Florida International University, Miami, Florida. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 7th day of September 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[Docket No. 50–335]

FLORIDA POWER AND LIGHT CO.

Consideration of Proposed Modification to Facility Spent Fuel Storage Pool

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of a modification to the spent fuel storage pool of St. Lucie Unit No. 1 (the facility) operated under Facility License No. DPR–67 issued to the Florida Power & Light Company (the licensee). The facility is a pressurized water reactor located in St. Lucie County, Florida, and currently authorized for operation at power levels up to 2560 MWt.

The proposed modification being considered involves replacement of the existing racks in the spent fuel storage pool of the facility with racks of design capable of accommodating up to 728 fuel assemblies in accordance with the licensee's request dated August 31, 1977. The existing racks have a capacity for storage of 310 fuel assemblies. The modification will require changes to the facility Technical Specifications and issuance of a license amendment.

Prior to approval of the proposed modification and license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 17, 1977, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the approval of the modification to the subject facility spent storage pool. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Robert Lowenstein, Esquire of the Office of Lowenstein, Newman, Reis & Axelrad, 1025 Connecticut Avenue NW., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the licensee's proposal dated August 31, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Indian River Junior College, 3209 Virginia Avenue, Ft. Pierce, Florida 33450.

Dated at Bethesda, Maryland, this ??

[Docket Nos. 50–70 and 70–754]

GENERAL ELECTRIC CO.

Consideration of Applications for Renewal of Operating License and Special Nuclear Material License

The Nuclear Regulatory Commission (the Commission) is considering the application for renewal of Operating License No. TR–1 issued to the General Electric Company (the licensee) for operation of the General Electric Test Reactor (GETR) at the Vallecitos Nuclear Center located in Alameda County near Pleasanton, California (Docket No. 50–70). The renewal would extend the expiration date of Operating License No. TR–1 to October 1, 1995, in accordance with the licensee's application for renewal, dated October 21, 1975.

The Commission is also considering the application for renewal of Special Nuclear Material License No. SNM–960 issued to the General Electric Company for the Vallecitos Nuclear Center (Docket No. 70–754), as requested in the licensee's application dated August 20, 1971, with revisions dated May 13, 1977. The renewal would extend the expiration date of Special Nuclear Material License No. SNM–960 for a period of five years.

Each of the above license renewal considerations is a separate proceeding; however, the proceedings may be subject to consolidation pursuant to Section 2.716 of 10 CFR Part 2 of the Commission's Regulations.

Prior to a renewal decision of Operating License No. TR–1 and Special Nuclear Material License No. SNM–960, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 17, 1977, the licensee may file a request for a hearing; and, any person whose interest may be affected by these proceedings may file a request

V 42 1179
SEP 15 77
UMI

for a hearing in the form of a petition for leave to intervene with respect to the renewal application of the subject facility operating license and/or the special nuclear material license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations and should identify the specific docket number of the proceeding (or both) in which intervention is sought. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Edward A. Firestone, 175 Curtner Avenue, MC 822, San Jose, Calif. 95125, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding(s) as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his/her interest and his/her contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he/she becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he/she may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see the application for operating license renewal dated October 21, 1975, the licensee's letter dated June 10, 1977, together with 13 documents which constitute a partial submittal of technical information in support of the operating license renewal application; and the application for special nuclear material license renewal dated August 20, 1971, with revisions dated May 13, 1977, and the licensee's Environmental Information Report, 1975, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Commission's local reading room, Office of Inspection and Enforcement, Region V, Suite 202, 1990 North California Boulevard, Walnut Creek, Calif. 94596.

Subsequent information relating to the license renewal applications will also be made available at these locations.

Dated at Bethesda, Md., this 2nd day of September 1977.

[Docket No. 40-8647]

KERR-MCGEE NUCLEAR CORP. SOUTH POWDER RIVER BASIN MILL

Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, Kerr-McGee Nuclear Corporation has filed an environmental report in support of their application for a source material license for the proposed South Powder River Basin Mill, located in Converse County in east central Wyoming. The report, which discusses environmental considerations related to the proposed uranium mill, is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies of the report are also being made available at the State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyoming 82001.

After the environmental report has been analyzed by the staff, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of federal agencies and state and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Silver Spring, Maryland, this 9th day of September, 1977.

[Docket No. 50-309]

MAINE YANKEE ATOMIC POWER CO.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-36, issued to Maine Yankee Atomic Power Company (the licensee), for operation of the Maine Yankee Atomic Power Station, located in Lincoln County, Maine.

The amendment would revise the provisions in the Technical Specifications relating to an increase of the authorized maximum power level from 2440 MWt to 2630 MWt, a 7.8% increase, in accordance with the licensee's application for amendment dated August 1, 1977.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 17, 1977, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license.

Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to John A. Ritsher, Esquire, Ropes and Gray, 225 Franklin Street, Boston, Mass. 02110, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he beomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated August 1, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine.

Dated at Bethesda, Md., this 2nd day of September 1977.

[Docket No. 50-272]

PUBLIC SERVICE ELECTRIC AND GAS CO., ET AL.

Issuance of Amendment to Facility Operating License

In the matter of Public Service Electric and Gas Company, Philadelphia Electric Company, Delmarva Power and Light Company, Atlantic City Electric Company. The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Facility Operating License No. DPR-70, issued to Public Service Electric and Gas Company, et al. (the licensee), which revised Technical Specifications for operation of the Salem Nuclear Generating Station, Unit No. 1, located in Salem County, New Jersey. The amendment is effective as of its date of issuance.

This amendment revised the provisions in the Technical Specifications related to the allowable pH levels for discharged effluents, the intake impingement monitoring program, and the circulating water entrainment monitoring program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this Amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 6, 1977, as supplemented by letters dated May 25 and August 9, 1977, (2) Amendment No. to License No. DPR-70 and (3) the Commission's letter dated September 8, 1977. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Salem Free Public Library, 112 West Broadway, Salem, New Jersey 08079.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 8th day of September 1977.

For the Nuclear Regulatory Commission.

[Docket No. P-558A]

SAN DIEGO GAS AND ELECTRIC CO., ET AL.

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, the following additional advice from the Attorney General of the United States, dated September 2, 1977:

You have requested our further advice pursuant to Section 105c of the Atomic Energy Act of 1954, as amended, in regard to the above-captioned application. We understand the Cities of Anaheim, Glendale, Pasadena, and Riverside, Calif. and the California Department of Water Resources propose to participate with the San Diego Gas and Electric Co. in the Sundesert Nuclear Plant, Units 1 and 2. Our review of the information submitted for the proposed additional participants, as well as other relevant information, has disclosed no basis upon which to change our previous conclusion that no antitrust hearing will be required regarding this nuclear facility.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by October 15, 1977, either (1) by delivery to the NRC Docketing and Service Section at 1717 H Street NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Section.

For the Nuclear Regulatory Commission.

JEROME SALTZMAN,
Chief, Antitrust and Indemnity Group, Nuclear Reactor Regulation.

[Docket Nos. 50-250, 50-260, and 50-296]

TENNESSEE VALLEY AUTHORITY

Issuance of Amendments to Facility Operating Licenses and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 32 to Facility Operating License No. DPR-33, Amendment No. 29 to Facility Operating License No. DPR-52, and Amendment No. 8 to Facility Operating License No. DPR-68 issued to Tennessee Valley Authority (the licensee), which revised Technical Specifications for operation of the Browns Ferry Nuclear Plant, Unit Nos. 1, 2, and 3 (the facility), located in Limestone County, Ala. The amendments are effective as of the date of issuance.

The licenses were amended July 15, 1977, to allow an increase in the maximum discharge temperature from 86°F to 90°F through August 31, 1977. These amendments revise the Appendix B Technical Specifications to allow the 90°F discharge water temperature limit subsequent to August 31, 1977, pending decision by the Environmental Protection Agency (EPA) and the State of Alabama on TVA's request for relief from applicable thermal limits. The allowed increase conforms to the actions taken by EPA and the State of Alabama pending their decision.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has prepared an Environmental Impact Appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the action.

V 42 179 SEP 15 77 UMI

For further details with respect to this action, see (1) the application for amendments dated July 26, 1977, (2) Amendment No. 32 to License No. DPR–33, Amendment No. 29 to License No. DPR–52, and Amendment No. 8 to License No. DPR–68, and (3) the Commission's Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Ala. 35611. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 31st day of August 1977.

Acting Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

[FR Doc.77-26865 Filed 9-14-77;8:45 am]

[Docket No. 50-259]

TENNESSEE VALLEY AUTHORITY

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendment to Facility Operating License No. DPR–33, issued to Tennessee Valley Authority (the licensee), for operation of the Browns Ferry Nuclear Plant, Unit No. 1 (the facility) located in Limestone County, Ala.

The amendment would authorize operation of Browns Ferry Unit 1 in Cycle 2 after refueling with 168 fuel assemblies, each containing an 8 x 8 array of fuel rods. The balance of the core consists of the 596 fuel assemblies, each containing a 7 x 7 array of fuel rods, which will remain in the core from Cycle 1 operation. The proposed amendment would also change the Technical Specifications for the facility to (1) increase the safety limit for minimum critical power ratio (MCPR) from 1.05 to 1.06, (2) add the exposure dependent operating limits for MCPR for both 8 x 8 and 7 x 7 fuel and the linear heat generation rate (LHGR) limits for 8 x 8 fuel, and (3) reduce the limit on average scram insertion time of all operable control rods from 5.0 seconds to 3.5 seconds and of the three fastest of the four control rods in a two-by-two array from 5.3 seconds to 3.8 seconds.

Prior to issuance of the proposed amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 17, 1977, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceedings, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to H. S. Sanger, Jr., Esquire, General Counsel, Tennessee Valley Authority, 400 Commerce Avenue, E11B3C, Knoxville, Tenn. 37902, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated July 8, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Athens Public Library, South and Forrest, Athens, Ala. 35611.

Dated at Bethesda, Md., this 30th day of August 1977.

For the Nuclear Regulatory Commission.

[Docket No. 50-346]

TOLEDO EDISON CO., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 6 to the Facility Operating License No. NPF–3, issued to the Toledo Edison Co. and the Cleveland Electric Illuminating Co., which revised Technical Specifications for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment removes a condition which stipulated the amount of time allowed from date of issuance of the operating license for completing the installation of the modified emergency diesel fuel oil storage and transfer system. This license is further amended by making the appropriate change to the Technical Specifications on page 3/4 8–1.

The amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 6 to License No. NPF–3, (2) the Commission's related Safety Evaluation supporting Amendment No. 6 to License No. NPF–3. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio 43452. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director Division of Project Management.

Dated at Bethesda, Md., this 26th day of August 1977.

[Docket Nos. 50-280 and 50-281]

VIRGINIA ELECTRIC & POWER CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses Nos. DPR–32 and DPR–37 issued to Virginia Electric and Power Co. (the licensee), for operation of the Surry Power Station Units Nos. 1 and 2, located in Surry County, Va.

In accordance with the licensee's application for amendment dated August 9, as supplemented August 26, 1977, the amendments would revise the provisions in the Technical Specifications relating to the transient and accident analysis as affected by an increase in steam generator tube plugging levels from the current 20% to 25%.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 7, 1977, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioners contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Michael W. Maupin, Esquire, Hunton, Williams, Gay, and Gibson, P.O. Box 1535, Richmond, Va. 23213, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated August 9, as supplemented August 26, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. at the Swem Library College of William and Mary, Williamsburg, Va.

Dated at Bethesda, Md., this 6th day of September 1977.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[FR Doc.77-26861 Filed 9-14-77;8:45 am]

[Docket No. PRM-73-2]

WISCONSIN ELECTRIC POWER CO., ET AL.

Filing of Petition for Rulemaking

Notice is hereby given that Gerald Charnoff, Esquire, and Jay E. Silberg, Esquire have filed with the Commission on behalf of the Wisconsin Electric Power Co., Wisconsin Public Service Corp., and Baltimore Gas and Electric Co. a petition for rulemaking dated August 19, 1977.

The petitioners request the Commission to amend § 73.55(d)(1) of the Commission's regulation "Physical Protection of Plants and Materials," 10 CFR Part 73, to elimiate the requirement for "pat-down" physical searches of individuals entering a protected area.

The amendments proposed by the petitioners would modify 10 CFR 73.55 (d)(1) by deleting the bracketed words and adding the italized language as follows:

§ 73.55 Requirements for physical protection of licensed activities in nuclear power reactors against industrial sabotage.

. . . . . .

(d) Access requirements. (1) The licensee shall control all points of personnel and vehicle access to a protected area. Identification and search of all individuals shall be made and authorization shall be checked at such points. *The licensee shall post signs at such points informing individuals that they may be subject to physical search prior to entering a protected area.* The search function for detection of firearms, explosives and incendiary devices shall be conducted [either by a physical search or] by use of equipment capable of detecting such devices, *to the extent such equipment is reasonably available. The licensee may conduct a physical search of an individual if deemed necessary or appropriate.* The individual responsible for the last access control function (controlling admission to the protected area) shall be isolated within a bullet-resisting structure as described in paragraph (c)(6) of this section to assure their ability to respond or to summon assistance.

. . . . . .

The petitioners state that a requirement for a "pat-down" physical search is unnecessary in view of the other protective measures which are required, the absence of such a requirement for other (and more sensitive) facilities, and the serious problems which the physical search requirement imposes. The petitioners state, however, that "pat-down" physical searches should be permitted in any case where security personnel are suspicious about an individual, and signs should be posted that individuals entering a protected area may be subject to physical search.

The Commission is assessing the implications of "pat-down" searches and their value as a part of a total physical protection system, considering their relation to other features of security systems required by the rule that affect access controls intended to protect with high confidence against insiders. It is endeavoring to identify alternatives that will achieve equivalent protection in the context of the total security system. Public comments are solicited specifically on such alternatives, and further opinions as to the value of searches as a contributing element of security systems.

A copy of the petition for rule making is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch by October 17, 1977.

Dated at Washington, D.C., this 13th day of September 1977.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[Docket No. 50-266]

WISCONSIN ELECTRIC POWER CO., AND WISCONSIN MICHIGAN POWER CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued

V 42 179
SEP 15 77
UMI

Amendment No. 27 to Facility Operating License No. DPR–24 issued to Wisconsin Electric Power Company and Wisconsin Michigan Power Company, which revised Technical Specifications for operation of the Point Beach Nuclear Plant Unit No. 1, located in the town of Two Creeks, Manitowoc County, Wisconsin. This amendment is effective as of the date of issuance.

This amendment consists of changes to the Technical Specifications to allow a one-time waiver of the requirement for monthly functional tests of the Turbine Stop and Governor Valves for the month of September, 1977.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 26, 1977, (2) Amendment No. 27 to License No. DPR–24, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the University of Wisconsin—Stevens Point Library, Attn: Mr. Arthur M. Fish, Stevens Point, Wisconsin 54481. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 6th day of Septembr 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.77–26520 Filed 9–14–77;8:45 am]

[Docket No. 50–29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 43 to Facility Operating License No. DPR–3, issued to Yankee Atomic Electric Co. (the licensee), which revised Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located in Rowe, Franklin County, Mass. The amendment is effective as of its date of issuance.

The amendment incorporates provisions in the Technical Specifications required for operating with the refueled Core XIII, with an active ECCS accumulator subsytem, and with modified ECCS piping, based on an ECCS performance analysis utilizing certain modeling changes. The amendment also includes provisions restricting operation with Cycle XIII to the 4-loop mode and to 225 effective full power days.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with changes to the Technical Specifications resulting from the Yankee-Rowe Core XIII reload analysis facility ECCS modifications, and a conceptual change to the ECCS analytical model was published in the FEDERAL REGISTER on June 6, 1977 (42 FR 28946). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action. Prior public notice of other items associated with this amendment was not required since they do not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated January 6, 1977, as supplemented March 11; April 13; May 2; June 30; July 7, 14 and 15; August 1, 4, 5, 8, 9, and 22, 1977, (2) Amendment No. 43 to License No. DPR–3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Greenfield Public Library, 422 Main Street, Greenfield, Mass. 01581. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 25th day of August 1977.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON THE SKAGIT NUCLEAR PROJECT

Notice of Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittee on the Skagit Nuclear Project will hold an open meeting on September 30, 1977 in Seattle, WA. The exact location of the meeting will be announced later. The purpose of this meeting is to review the application of the Puget Sound Power and Light Company for a permit to construct the Skagit Nuclear Plant.

The agenda for subject meeting shall be as follows:

FRIDAY, SEPTEMBER 30, 1977

8:30 A.M. UNTIL CONCLUSION OF BUSINESS

The Subcommittee, with any of its consultants who may be present, will meet in Executive Session to explore their preliminary opinions regarding matters which should be considered in order to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Subcommittee will meet to hear presentations by representatives of the NRC Staff, the Puget Sound Power and Light Company, and their consultants, and will hold discussions with these groups pertinent to this review.

At the conclusion of this session, the Subcommittee may caucus to determine whether the matters identified in the initial session have been adequately covered.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

The Advisory Committee on Reactor Safeguards is an independent group established by Congress to review and report on each application for a construction permit and on each application for an operating license for a reactor facility and on certain other nuclear safety matters. The Committee's reports become a part of the public record. Although ACRS meetings are ordinarily open to the public and provide for oral or written statements to be considered as a part of the Committee's information gathering procedure concerning the health and safety of the public, they are not adjudicatory type hearings such as are conducted by the Nuclear Regulatory Commission's Atomic Safety & Licensing Board as part of the Commission's licensing process. ACRS meetings do not normally treat matters pertaining to environmental impacts outside the radiological safety area.

With respect to public participation in the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing 15 copies to the Subcommittee at the beginning of the meeting.

Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than September 23, 1977, addressed to Dr. Richard P. Savio, ACRS, NRC, Washington, D.C. 20555, will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Sedro Wooley Library, 802 Ball Avenue, Sedro Wooley, Wash. 98294.

(b) Persons desiring to make an oral statement at the meeting should make a request to do so prior to the meeting, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Subcommittee will receive oral statements on topics relevant to its purview at an appropriate time chosen by the Chairman.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on September 29, 1977 to the Office of the Executive Director of the Committee (telephone 202–634–1394, Attention: Dr. Richard P. Savio) between 8:15 a.m. and 5 p.m., EDT.

(d) Questions may be propounded only by members of the Subcommittee, its consultants, and Staff.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will be allowed while the meeting is in session at the discretion of the Chairman to a degree that is not disruptive to the meeting. When use of such equipment is permitted, appropriate measures will be taken to protect proprietary or privileged information which may be in documents, folders, etc. being used during the meeting. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept.

A copy of the transcript of the portion(s) of the meeting where factual information is presented and a copy of the minutes of the meeting will be available for inspection on or after October 7 and December 30, 1977, respectively, at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Sedro-Woolley Library, 802 Ball Avenue, Sedro-Woolley, Wash. 98294.

Copies may be obtained upon payment of appropriate charges.

Dated: September 14, 1977.

JOHN C. HOYLE,
Advisory Committee Management Officer.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

ADVISORY GROUP ON WHITE HOUSE INFORMATION SYSTEMS

Notice of Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 94–463, the Office of Science and Technology Policy announces the following meeting:

Name: Advisory Group on White House Information Systems.

Date: October 4 and 5, 1977.

Time: 9 a.m. to 4 p.m.

Place: Room 3104, New Executive Office Building, 726 Jackson Place NW., Washington, D.C.

Type of Meeting: Open, subject to space limitations. Those wishing to attend should call the Contact Person below, to assist us in making adequate preparations.

Contact Person: Dr. Joel A. Snow, Advisory Group Executive Secretary, Office of Science and Technology Policy, Executive Office of the President, Washington, D.C. 20500. Telephone 202–395–3153.

Summary Minutes: May be obtained from the Office of Science and Technology Policy.

Purpose of Advisory Group: The Office of Science and Technology Policy, in accordance with the statutory mandate to advise the President and to analyze and interpret significant developments and trends in science and technology, will be identifying the information systems needs and the impact of technological advances in information and data handling as these might support the decision processes of the White House and the Executive Office of the President. The work of the Advisory Group will be based upon inputs from the relevant departments and earlier work carried out by other organizations in the Executive Branch including the Reorganization Team.

Agenda: 9 a.m. to 4 p.m.—This second panel meeting will include further briefings on information needs by EOP staff members; a thorough review of documents describing present and postulated information systems needs in each EOP organizational unit; and discussion to define further objectives for the Advisory Group, an agenda for the next meeting, and additional staff research requirements.

WILLIAM J. MONTGOMERY,
Executive Officer.

[FR Doc.77–2687 Filed 9–14–77;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 9917 (812–4163)]

AGEC SECURITY CORP.

Filing of Application Pursuant to Section 6(c) of the Act for an Order of Exemption From All Provisions of the Act

SEPTEMBER 2, 1977.

Notice is hereby given that AGEC Security Corp., 2200 Bow Valley Square 2, 205 Fifth Avenue SW., Calgary, Alberta, Canada T2P 2W4 ("Applicant"), a corportation organized under the laws of the State of Delaware on March 29, 1977, filed an application on July 22, 1977, and an amendment thereto on August 29, 1977, for an order of the Commission pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") exempting Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Applicant is a wholly-owned subsidiary of The Alberta Gas Ethylene Co. Ltd. ("Alberta Gas Ethylene"), incorporated under the laws of the Province of Alberta, Canada. Alberta Gas Ethylene is, in turn, a wholly-owned subsidiary of The Alberta Gas Trunk Line Co. Ltd. ("Alberta Gas Trunk Line"), incorporated by Special Act of the Legislative Assembly of the Province of Alberta. Alberta Gas Trunk Line is a publicly owned corporation whose shares are listed and traded on the Toronto Stock Exchange. Applicant, a special purpose corporation, has been organized for the purpose of borrowing in the United States approximately 88 percent of the cost of construction of a 1.2 billion pound per year ethylene plant (the "Ethylene Plant") near Red Deer, Alberta, Canada, and approximately 95 miles of pipeline from Red Deer to Fort Saskatchewan, Alberta (the Ethylene Plant together with the pipeline being hereinafter referred to as the "Project"). The Project will be owned and operated by Alberta Gas Ethylene. Applicant does not intend to conduct any other business.

Applicant plans to issue debt securities in the form of secured notes due December 31, 1998 ("Notes") to approximately nine United States insurance companies in transactions exempt from the registration requirements of the Securities Act of 1933, as amended, by virtue of the provisions of Section 4(2) thereof. The Notes will be guaranteed as to principal, premium, if any, and interest by Alberta Gas Ethylene and, in all circumstances except where normal repayment is interrupted by war in Canada or expropriation of assets in Canada, by The Dow Chemical Co. ("Dow U.S.") a Delaware corporation. The guarantee by Alberta Gas Ethylene will be secured by a charge on substantially all its assets, including its interest in the Project and all Applicant's stock.

The net proceeds of the sale of the Notes will be approximately $325,000,000 (U.S.) or an amount not greater than 88 percent of the cost of the Project. In no event will such proceeds be increased or decreased in excess of 15 percent of $325,000,000. Upon receipt of any portion of the proceeds, such proceeds will be deposited in trust with a Canadian trust company ("Trustee") which will, at the direction of Alberta Gas Ethylene, deposit such proceeds with a group comprised of up to five of the leading Canadian chartered banks ("Banks"); the

V 42 179 SEP 15 77 UMI

Banks will, in turn, issue certificates of deposit to the Applicant. The certificates of deposit will have identical terms as to interest rate, maturity and repayment schedule as the Notes to be issued by Applicant (except as provided below) and will thus provide Applicant with funds to repay the Notes.

On receipt of proceeds upon issuance of the certificates of deposit, the Banks will concurrently purchase from Alberta Gas Ethylene income debentures ("Income Debentures") in the same amount as the proceeds so deposited. The Income Debenture interest will be payable only out of the income of Alberta Gas Ethylene and will mature not later than December 31, 1987. Alberta Gas Ethylene will apply the proceeds of its Sale of Income Debentures to the Banks toward the construction and related costs of the Project, or temporarily invest such proceeds pending such use. Utilization of the Income Debentures will provide a lower rate of interest to Alberta Gas Ethylene because of favored Canadian tax treatment to the Banks on receipt of interest on the Income Debentures.

Concurrent with the maturity of the Income Debentures, Applicant will convert the certificates of deposit into cash and lend such cash to Alberta Gas Ethylene which, in turn, will use such cash for the payment of the Income Debentures. Such loan from Applicant to Alberta Gas Ethylene will be evidenced by a note due December 31, 1998, the same date Applicant's Notes become due. Such note ("A.G.E. Note") will have identical terms as to interest rate, maturity and repayment schedule as the remaining installments of the Notes. After maturity of the Income Debentures, the obligation of Alberta Gas Ethylene to repay the funds raised by Applicant for the remaining years of the life of the Notes will be evidenced by the A.G.E. Note. The balance of the cost of the Project will be arranged by Alberta Gas Ethylene in the form of equity or subordinated debt which will rank junior to the Notes with respect to the security for the Notes.

The Ethylene Plant will be engineered and constructed by Dow Chemical of Canada, Ltd. ("Dow Canada"), a Canadian corporation and a wholly-owned subsidiary of Dow U.S. Dow U.S. is a publicly held corporation with securities registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended. The Ethylene Plant will be owned and operated by Alberta Gas Ethylene. Alberta Gas Trunk Line will engineer and construct the pipeline which is a part of the Project and which will also be owned and operated by Alberta Gas Ethylene. Dow Canada has entered into an ethylene sales agreement to "take-or-pay" for all of the ethylene produced by the Project at a price which will be sufficient to cover all debt service requirements on the Notes. The obligations of Dow Canada under the ethylene sales agreement are unconditional and are not dependent upon whether or not the Project is completed or ethylene is produced therefrom. Dow U.S. will guarantee the performance by Dow Canada of its obligations under the ethylene sales agreement except where normal operation of the Project is interrupted by war in Canada or expropriation of assets in Canada.

Section 3(a)(1) of the Act defines the term "investment company" to include any issuer which "is * * * engaged primarily, or proposes to engage primarily, in the business of investing, reinvesting, or trading in securities." Section 3(a)(3) of the Act defines "investment company" to include any issuer which "is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of such issuer's total assets (exclusive of government securities and cash items) on an unconsolidated basis." Applicant states that its only significant assets will be, initially, the certificates of deposit issued by the Banks, and later, the A.G.E. Note. Consequently, Applicant will come within the definition of "investment company" contained in Section 3(a) of the Act.

Section 3(b)(3) of the Act, generally speaking, excepts from the definition of investment company any issuer, all the outstanding securities of which (other than short-term paper and directors' qualifying shares), are owned by a company primarily engaged in a business other than investing, reinvesting, owning, holding or trading in securities. Because all equity securities of Applicant will be owned at all times solely by Alberta Gas Ethylene, it is asserted that the purchase of Applicant's Notes will be substantially the equivalent of purchasing obligations of Alberta Gas Ethylene. The guarantees of the Notes will rank pari passu with all other indebtedness of Alberta Gas Ethylene, and upon liquidation of Alberta Gas Ethylene, would have a claim on the assets of Alberta Gas Ethylene equal to that of all other indebtedness of Albert Gas Ethylene. Applicant claims that it is now entitled to a Section 3(b)(3) exemption. In the future, all of the outstanding securities of Applicant, other than debt securities, will continue to be owned at all times by Alberta Gas Ethylene. Accordingly, a Section 3(b)(3) exemption would continue to be available to Applicant upon issuance of the Notes except for the fact that the Notes will be owned by insurance companies rather than by Alberta Gas Ethylene.

The sole purpose of Applicant is to raise funds in the United States for its parent, Alberta Gas Ethylene, to own, construct, and operate the Project. The payment of Applicant's debt securities will not depend on the investment policy of Applicant. Applicant contends that there can be no public purpose served for applying the provisions of the Act to Applicant simply because, for substantial business reasons, Alberta Gas Ethylene deemed it proper to form Applicant to raise U.S. financing for the Project. Such reasons included the requirement of the U.S. finance institutions purchasing the Notes that the issuer thereof be a corporation organized under the laws of one of the States of the United States of America for purposes of conforming with legal investment laws.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision or provisions of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant has agreed, in the event that the Commission grants the application, to the insertion in the Commission's order of the following conditions:

(1) Commencing with the first fiscal year in which it issues and sells any debt securities, Applicant will file with the Commission within 120 days after the close of each fiscal year of Applicant: (a) the data required by Items 1.08 (except with respect to information relating to persons under common control with Applicant), 1.09, 1.10, and 1.11 of Form N-1R adopted by the Commission pursuant to Section 30(a) of the Act, and (b) an annual balance sheet, income and surplus statement and schedule of temporary investments.

(2) Applicant will not issue any additional debt securities following the issuance of the Notes unless Applicant shall first give written notice to the Commission describing the proposed issuance of such additional debt securities within 30 days prior to the date of such proposed issuance; subject, however, to the right of the Commission, upon request of Applicant, to decrease such number of days. If the Commission shall, after receipt of said written notice, determine that a substantial question shall exist as to whether or not the exemption granted by the Order requested should continue, it shall mail or otherwise give notice to that effect to Applicant at its offices, 2200 Bow Valley Square 2, 205 Fifth Avenue SW., Calgary, Alberta, Canada T2P 2W4 (or at such other address as Applicant may have previously specified in writing to the Commission) within 15 days after the receipt by the Commission of said written notice from Applicant. Applicant will not consummate the proposed issuance of such additional debt securities except in accordance with an appropriate order of the Commission.

Notice is further given that any interested person may, not later than September 25, 1977, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the

Rules and Regulation promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc 77-26877 Filed 9-14-77;8:45 am]

[Release No. 13934 (SR-DTC-76-8, Amendment No. 1)]

DEPOSITORY TRUST CO.

Order Approving Rule Change Submitted by the Depository Trust Co. Relating to the Depository Interface With the Midwest Securities Trust Co.

SEPTEMBER 6, 1977.

On May 26, 1977, The Depository Trust Co., 55 Water Street, New York, N.Y. 10041, ("DTC") submitted, pursuant to Rule 19b-4 under the Securities Exchange Act of 1934 (the "Act"), Amendment No. 1 to a proposed rule change, which would expand the depository interface between DTC and The Midwest Securities Trust Co. to enable book-entry settlement of securities transactions between participants of the two depositories even though one or both participants may not be a participant in both depositories.

In accordance with section 19(b) of the Act and Rule 19b-4 thereunder, notice of the amendment to the proposed rule change was published in the FEDERAL REGISTER (42 FR 30957, June 17, 1977), and the public was invited to comment thereon. Notice of the amendment to the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 34-13609, June 8, 1977. No letters of comment were received.

The Commission has reviewed Amendment No. 1 to the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change contained in Amendment No. 1 to File No. SR-DTC-76-8 be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

ISC FINANCIAL CORP.

Notice of Suspension of Trading

SEPTEMBER 1, 1977.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of ISC Financial Corp., being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors: *Therefore*, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 3:05 p.m. (EDT) on September 1, 1977 through September 10, 1977.

By the Commission.

GEORGE A. FITZSIMMMONS,
Secretary.

[Rel. No. 20162 (70-6048)]

JERSEY CENTRAL POWER & LIGHT CO.

Proposals To Amend Articles of Incorporation to Reclassify Presently Outstanding Shares of Preferred Stock and Increase Authorized Preferred Stock, and To Issue and Sell Preferred Stock at Competitive Bidding

SEPTEMBER 8, 1977.

Notice is hereby given that Jersey Central Power & Light Co., Madison Avenue at Punch Bowl Road, Morristown, N.J. 07960 ("Jersey Central"), an electric utility subsidiary company of General Public Utilities Corp., a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 6(b), and 7 of the Act and rules 42(a) and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Jersey Central proposes to amend its articles of incorporation ("Articles") (1) to change each of its outstanding shares of preferred stock into a share without par value but with a stated value of $100 per share, and (2) to increase its authorized preferred stock, presently consisting of 2,000,000 shares, par value $100 per share, or an aggregate of $200,000,000 (of which 1,600,000 shares, or an aggregate of $160,000,000, are presently outstanding), to 15,600,000 shares without par value but with a maximum aggregate stated value of $300,000,000. It is stated that the proposed reclassification will not affect the dividend, liquidation, voting or other rights of the holders of outstanding shares of preferred stock, and will make it feasible for Jersey Central to issue additional series of preferred stock from time to time at a unit price (e.g., $25 per share) which appears to be most readily marketable. The proposed amendment to the Articles will provide that each share of preferred stock will have such voting rights as is proportionate to the ratio of (i) the stated value of such share to (ii) the stated value of all shares of Jersey Central preferred stock then outstanding. It is further provided in the proposed amendment that the stated value of each share shall be equal to the capital furnished to Jersey Central for such share, and will also be equal to such share's preferential claim in the event of Jersey Central's involuntary liquidation, dissolution, or winding up. It is further stated that the amendment of the Articles will require the favorable vote of the holder of Jersey Central's common stock, GPU, the holder of all the outstanding Jersey Central common stock, has advised Jersey Central that it intends to vote the outstanding common stock in favor of the proposed amendment.

Jersey Central also proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to 2,000,000 shares of Cumulative Preferred Stock, — percent Series H (the "New Preferred Stock"). The New Preferred Stock will be similar to Jersey Central's outstanding series of cumulative preferred stock (after the proposed amendment referred to above) except that (1) the New Preferred Stock will have a stated value of $25 per share, (2) the dividend rate and redemption prices of the New Preferred Stock will be determined as a result of competitive bidding, and (3) the New Preferred Stock will contain a provision which precludes Jersey Central from redeeming any such shares prior to October 1, 1982, if the funds for such redemption are obtained directly or indirectly from borrowings or the issuance of stock at a lower effective interest or dividend cost than the dividend cost of the New Preferred Stock.

The proceeds ($50,000,000, exclusive of underwriting commissions and expenses of the offering) of the New Preferred Stock are expected to be applied to the payment at or before maturity of all of Jersey Central's $40,000,000 principal amount of short-term bank loans expected to be outstanding at the date of sale of such stock, and the balance will be applied to finance Jersey Central's 1977 construction program. At August 26, 1977, Jersey Central had $33,000,000 of short-term bank loans outstanding. The estimated cost of Jersey Central's 1977 construction program is $220,000,000 (including allowance for funds used during construction).

The fees and expenses to be incurred by Jersey Central in connection with the proposed transactions are estimated at

V 42 179
SEP 15 77
UMI

$140,000, including legal fees of $24,000. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed amendments to the Articles and the proposed issuance and sale of the New Preferred Stock and that no other State commission, and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than October 3, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by such application-declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9923 (811-2744)]

MAKOVER INVESTMENT CO., INC.

Filing of Application Pursuant to Section 8(f) of the Investment Company Act of 1940 for an Order Declaring That the Applicant Has Ceased To Be an Investment Company

SEPTEMBER 9, 1977.

Notice is hereby given that Makover Investment Co., Inc., (formerly "Shirley of Atlanta, Inc.") 3020 Nancy Creek Road NW., Atlanta, Ga. 30327 ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as a closed-end, nondiversified management investment company, filed an application on August 9, 1977, pursuant to section 8(f) of the Act, for an order of the Commission declaring that the Applicant has ceased to be an investment company as that term is defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Applicant, operating under the corporate name of Shirley of Atlanta, Inc., was incorporated under the laws of Georgia in January 1961, and until recently was engaged in the business of styling, manufacture, and sale of a comprehensive line of ladies' and girls' sportswear. The application states that on May 2, 1977, substantially all of the assets of the Applicant were sold to Shirley of Atlanta Corp. for $6,600,548 in cash. The sale of the assets of the Applicant and certain other transactions incident thereto were approved by the Applicant's shareholders at the Applicant's annual meeting of shareholders held on April 19, 1977. Upon consummation of the sale of assets of the Applicant the proceeds of that sale were held in cash or invested in government treasury bills, bank certificates of deposit and similar short-term, prime commercial paper. On May 5, 1977, after having amended its Articles of Incorporation to change its name to Makover Investment Co., Inc., and to change its business to that of an investment company, the Applicant filed a Notification of Registration on Form N-8A with the Commission, registering it as a close-end, nondiversified management investment company under the Act. At that time, the Applicant had a total of 305 holders of record of its issued and outstanding shares of $1.00 par value common stock ("Common Stock").

On May 10, 1977, the Applicant commenced an offer to repurchase its outstanding Common Stock for $8.50 cash per share. Through the close of business on August 5, 1977, purchases of the Common Stock effected pursuant to the offer to repurchase had reduced the number of record holders of the Common Stock to a total of 63 persons. Applicant represents that at the date of filing this application the outstanding securities (other than short-term paper) of the Applicant are beneficially owned by not more than 100 persons. In addition, it is represented that as of that date, no "company", as such term is defined in the Act, owned of record or was known by the Applicant to own beneficially, ten percent or more of the outstanding voting securities of the Applicant. The application also states that the Applicant is not making and does not presently propose to make a public offering of its securities.

On the basis of the above information the Applicant maintains that it is not presently an "investment company" as that term is defined in the Act.

Section 3(c)(1) of the Act provides, in pertinent part, that any issuer whose outstanding securities (other than short-term paper) are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities is not an investment company within the meaning of the Act.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than October 3, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 13942; (SR-MSRB-76-9)]

MUNICIPAL SECURITIES RULEMAKING BOARD

Order Approving Proposed Rule Change

SEPTEMBER 9, 1977.

On August 9, 1976, the Municipal Securities Rulemaking Board, Suite 507 1150 Connecticut Avenue NW., Washington, D.C. 20036 (the "MSRB") filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act") and rule 19b-4 thereunder, a proposed rule change ("proposed rule G-15"). The purpose of the proposed rule change is to establish confirmation delivery and disclosure requirements for transactions in municipal securities.

Notice of the proposed rule change, together with its terms of substance, was given by publication of a Commission release (Securities Exchange Act Release No. 12698 (August 9, 1976)), and by publication in the FEDERAL REGISTER (41 FR 34712 (August 16, 1976)). The MSRB has filed several substantive amendments to the proposed rule change and notice of each has been given, together with the terms of each amendment, by publication in the FEDERAL REGISTER.[1] On August 26, 1977, the MSRB filed technical amendments to certain of the proposed rule changes.

The text of the proposed rule change is a follows:

RULE G-15 CUSTOMER CONFIRMATIONS

(a) At or before the completion of a transaction in municipal securities with or for the account of a customer, each broker, dealer or municipal securities dealer shall give or send to the customer a written confirmation of the transaction containing the following information:

(i) Name, address, and telephone number of the broker, dealer, or municipal securities dealer;

(ii) Name of customer;

(iii) Designation of whether the transaction was a purchase from or sale to the customer;

(iv) Par value of the securities;

(v) Description of the securities, including at a minimum the name of the issuer, interest rate, maturity date, and if the securities are limited tax, subject to redemption prior to maturity (callable), or revenue bonds, an indication to such effect, including in the case of revenue bonds the type of revenue, if necessary for a materially complete description of the securities and in the case of any securities, if necessary for a materially complete description of the securities, the name of any company or other person in addition to the issuer obligated, directly or indirectly, with respect to debt service or, if there is more than one such obligor, the statement "multiple obligors" may be shown;

(vi) Trade date and time of execution, or a statement that the time of execution will be furnished upon written request of the customer;

(vii) Settlement date;

(viii) Yield to maturity and resulting dollar price, except in the case of securities which are traded on the basis of dollar price or securities sold at par, in which event only dollar price need be shown (in cases in which securities are priced to call, this must be stated, and where a transaction is effected on a yield basis, the calculation of dollar price shall be to the lower of price to call or price to maturity);

(ix) Amount of accrued interest;

(x) Extended principal amount;

(xi) Total dollar amount of transaction;

(xii) The capacity in which the broker, dealer or municipal securities dealer effected the transaction, whether

(A) As principal for its own account,

(B) As an agent for the customer,

(C) As an agent for a person other than the customer, or

(D) As an agent for both the customer and another person; and

(xiii) Instructions, if available, regarding receipt or delivery of securities, and form of payment, if other than as usual and customary between the parties.

(b) If the broker, dealer or municipal securities dealer is effecting a transaction as agent for the customer or as agent for both the customer and another person, the confirmation shall set forth (i) either the name of the person from whom the securities were purchased or to whom the securities were sold for the customer or a statement that this information will be furnished upon written request of the customer, and (ii) the source and amount of any commission or other remuneration received or to be received by the broker, dealer or municipal securities dealer in connection with the transaction.

(C) In addition to the information required by paragraphs (a) and (b) above, each confirmation to a customer shall contain the following information, if applicable:

(i) The dated date if it affects the price or interest calculation, and the first interest payment date if other than semi-annual;

(ii) If the securities are "fully registered" or "registered as principal only," a designation to such effect;

(iii) If the securities are "called" or "prerefunded," a designation to such effect, the date of maturity which has been fixed by the call notice, and the amount of the call price;

(iv) Denominations of notes and, if other than the following, denominations of bonds:

(A) For bearer bonds, denominations of $1,000 or $5,000 par value, and

(B) For registered bonds, denominations which are multiples of $1,000 par value, up to $100,000 par value;

(v) Any special instructions or qualifications, or factors affecting payment of principal or interest, such as (A) "ex legal," or (B) if the securities are traded without interest, "flat," or (C) if the securities are in default as to the payment of interest or principal, "in default," and

(vi) Such other information as may be necessary to ensure that the parties agree to the details of the transaction.

(d) The initial confirmation for a "when, as and if issued" transaction shall not be required to contain the information specified in subparagraphs (vii), (ix), (x), (xi) and (xiii) of paragraph (a) or the resulting dollar price as specified in subparagraph (viii).

(e) Information requested pursuant to this rule shall be given or sent to the customer within five business days following the date of receipt of a request for such information; *Provided however*, That in the case of information relating to a transaction executed more than 30 calendar days prior to the date of receipt of a request, the information shall be given or sent to the customer within 15 business days following the date of receipt of the request.

(f) For purposes of this rule, the time of execution of a transaction shall be the time of execution reflected in the records of the broker, dealer or municipal securities dealer pursuant to rule G-8 of the Board or Rule 17a-3 of the Commission.

(g) For purposes of this rule, the term "customer" shall mean any person other than a broker, dealer or municipal securities dealer acting in its capacity as such.

(h) The requirements of this rule shall become effective on December 8, 1977.

* * * * *

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB, and in particular, the requirements of Section 15B and the rules and regulations thereunder.[2]

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 9, 1977.

[FR Doc.77-26882 Filed 9-14-77;8:45 am]

[File No. 500-1]

NETWORK ONE, INC.

Suspension of Trading

SEPTEMBER 1, 1977.

It appearing to the Securities and Exchange Commission that the Summary suspension of the trading in the securities of Network One, Inc., being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 2:50 p.m. (EDT) on September 1, 1977 through September 10, 1977.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.77-26886 Filed 9-14-77;8:45 am]

[1] *See* Securities Exchange Act Release Nos. 12897 (Oct. 15, 1976), 41 FR 46657 (1976), 12966 (Nov. 11, 1976), 41 FR 50743 (1976) and 13718 (July 5 1977), 42 FR 35924 (1977). One commentator, the Public Securities Association (the "Association"), urged the Commission to disapprove one amendment to rule G-15 which would require disclosure of the time of execution of a transaction or of the fact that such information is available upon request (see paragraph (a)(vi) of rule G-15). The Association stated that such a disclosure requirement appeared to be inconsistent with Section 15B(b)(2)(C) of the Act, would entail "substantial" compliance costs and would not "result in increased investor protection." The Commission is unable, however, to agree with those conclusions. In adopting Securities Exchange Act Rule 10b-10, which includes a very similar confirmation disclosure requirement, the Commission stated, "With respect to transactions in debt securities, the Commission believes that the time of a transaction may on occasion be of sufficient materiality to warrant its disclosure upon request and, since the time of a transaction is required to be maintained under Commission and MSRB recordkeeping rules, there appears to be little burden created solely by advising customers that information on time is available on request." Securities Exchange Act Release No. 13508 (May 5, 1977), 42 FR 25318 (May 17, 1977) [footnotes deleted].

[2] Proposed rule G-15 currently does not require disclosure of mark-ups and mark-downs on "riskless principal" transactions or remuneration paid to dealers by persons other than the customer. Such requirements have been included in proposed amendments to Securities Exchange Act Rule 10b-10, which prescribes confirmation delivery and disclosure requirements for transactions in securities other than municipal securities. The MSRB has stated that it "intends to study these proposals and to elicit comment from the municipal securities industry." *See also* Securities Exchange Act Release No. 13661 (June 23, 1977), 42 FR 33348 (June 30, 1977).

V 42 179 SEP 15 77 UMI

[Rel. No. 20161; (70-6049)]

OHIO POWER CO.

Proposed Issue and Sale of Notes to Banks and to a Dealer in Commercial Paper and Request for Exception From Competitive Bidding

SEPTEMBER 7, 1977.

Notice is hereby given that Ohio Power Company, 301 Cleveland Avenue SW., Canton, Ohio 44701 ("Ohio"), an electric utility subsidiary company of American Elcetric Power Company, Inc., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and rules 50(a)(2) and 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Ohio requests that, from the date of the granting of this application to December 31, 1978, the exemption from the provisions of section 6(a) of the Act afforded to it by the first sentence of section 6(b) of the Act, relating to the issue of short-term notes, be increased to the extent necessary to cover the issuance and sale of notes to banks, to dealers in commercial paper and demand notes to bank trust departments in an aggregate amount not to exceed $150,000,000 outstanding at any one time. In no event will the amount outstanding be in excess of the maximum amount allowable both under its Articles of Incorporation and the consent granted by its Cumulative Preferred stockholders permitting an increase in the amount of unsecured short-term debt that Ohio could incur. The notes are to be issued from time to time prior to December 31, 1978, as funds may be required, provided that none of the notes, commercial paper, and demand notes to bank trust departments will mature later than June 30, 1979. As of June 30, 1977, Ohio had short-term notes, including commercial paper and demand notes, outstanding in an aggregate amount of $77,007,000.

Each note payable to a bank to be issued by Ohio will mature not more than 270 days after the date of issuance or renewal thereof, will bear interest at an annual rate of interest not greater than the prime rate of commercial banks in effect at the time of issuance or in effect from time to time and will be prepayable at any time without premium or penalty. In the case of most of the banks from which Ohio proposes to borrow, sufficient bank balances to meet operating and financial needs are kept at such banks to satisfy any compensating balance requirements of such banks in connection with any borrowings. If the average of such bank balances were maintained solely in order to fulfill the prevailing compensating balance requirements of such banks, generally up to about 20%, the effective interest cost to Ohio of issuance and sale of such notes to such banks would be approximately 1.75% above the prevailing current prime commercial rate of 7%, or about 8.75%. In the case of those banks in which Ohio does not maintain bank balances for operating and financial needs, Ohio will be required to maintain compensating balances (or alternatively, pay a fee) equivalent generally to no more than 10% of the amount of credit made available by each bank and 10% of the amount of any borrowings. If the full amount were borrowed from these banks, the maximum effective interest cost to Ohio would be approximately 1.75% above the current prime commercial rate of 7%, or about 8.75%. Ohio states that it will file with the Commission, by Post-Effective Amendment, lists of other banks not previously identified in filings with the Commission in this proceeding to which it proposes to issue and sell notes, and no such notes will be issued and sold to such banks not previously identified prior to the issuance of a Supplemental Order by the Commission in connection therewith. Such Post-Effective Amendments will also indicate the compensating balance or fee requirements of such banks if they exceed the terms described above.

Ohio also proposes to issue commercial paper in the form of promissory notes in denominations of not less than $50,000 nor more than $5,000,000. Such notes will be of varying maturities with no maturity more than 270 days after the date of issue, and will not be prepayable prior to maturity. The commercial paper notes will be sold directly by Ohio to Lehman Commercial Paper Incorporated (the "Dealer"), at a discount rate not in excess of the discount rate per annum prevailing at the time of issuance for commercial paper of comparable quality and maturity. No commercial paper notes will be issued having a maturity of more than 90 days at an effective interest cost which exceeds the effective interest cost at which Ohio could borrow from banks. The Dealer will reoffer the commercial paper notes to not more than 200 of the Dealer's customers identified and designated in a nonpublic list prepared by the Dealer in advance. It is expected that such customers of the Dealer will hold the commercial paper notes to maturity, but, if any such customer wishes to resell such commercial paper prior to maturity, the Dealer, pursuant to a verbal repurchase agreement, will repurchase such commercial paper sold by it and reoffer it to other customers on its nonpublic list.

Ohio also proposes to issue and sell its demand notes to the trust departments of The Cleveland Trust Company, Cleveland, Ohio, and The Fidelity Bank, Philadelphia, Pennsylvania, in the maximum amounts of $10,000,000 and $20,000,000, respectively. It is stated that the bank trust departments have a flow of funds, as fiduciary for various accounts, which would be available for investment in such demand notes. These demand notes will be in the form of promissory notes in denominations of not less than $1,000 bearing an interest rate equivalent to not more than the sum of ¼% and the highest rate paid daily by General Motors Acceptance Corporation on its commercial paper with a maturity of less than 180 days. Notes issued from January 1 to June 30 will mature July 1 of the same year and those issued from July 1 to December 31 will mature on January 1 of the following year. The bank trust departments will have the right to demand payment at any time, and Ohio will have the right to repay, without penalty, all or any part of the principal amount of such demand notes outstanding.

On August 17, 1977, the highest rate paid by General Motor Acceptance Corporation on its commercial paper with a maturity of less than 180 days was 5¾%. This rate plus the ¼% referred to above was approximately 3½% less than the rate at which Ohio was then able to issue commercial paper of comparable maturities and approximately 2¾% below the effective rate for bank borrowings based on a prime rate of 7% and compensating balances, or equivalent fees, of 20%. It is stated that based on past experience, the rate on these demand notes will consistently be lower than the comparable rates for commercial paper and bank borrowings including the effect of compensating balances.

The proceeds from the issue and sale of the notes will be used by Ohio to reimburse its treasury for past expenditures made in connection with its construction program and to pay part of the cost of its future construction program. Such construction expenditures for the years 1977 and 1978 are estimated at approximately $184,000,000 and $203,000,000, respectively, exclusive of the cost of the construction program of Ohio's subsidiary, Ohio Electric Company. Estimates of this subsidiary's construction expenditures for the years 1977 and 1978 are approximately $11,000,000 and $10,000,000 respectively.

Ohio claims exception from the competitive bidding requirements of Rule 50 for the proposed issuance of notes to banks and demand notes to bank trust departments pursuant to paragraph (a)(2) thereof. Additionally, Ohio requests exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of its commercial paper pursuant to paragraph (a)(5) thereof on the grounds that it is not practicable to invite competitive bids for commercial paper.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at $12,000. It is stated that no state commission and no federal commission other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 29, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20163; (70-6062)]

PENNSYLVANIA POWER CO.

Proposals to Increase Authorized Shares of Preferred Stock and to Issue and Sell Preferred Stock to an Insurance Company; Request for Exemption From Competitive Bidding

SEPTEMBER 8, 1977.

Notice is hereby given that Pennsylvania Power Company, 1 East Washington Street, New Castle, Pennsylvania 16103 ("Penn Power"), an electric utility subsidiary company of Ohio Edison Company, a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designated Sections 6(b) and 12(c) of the Act and Rules 42 and 50(a)(5) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the application-declaration, which summarized below, for a complete statement of the proposed transactions.

Penn Power proposes to issue and sell up to 100,000 shares of its preferred stock, par value $100, of a new series ("New Preferred Stock") to The Prudential Insurance Company of America ("Prudential") for $100 per share in a direct private placement. No finder's or other fee, commission or remuneration is to be paid directly or indirectly in connection with the issue, sale or distribution of the New Preferred Stock. Penn Power will pay all of Prudential's reasonable out-of-pocket expenses arising in connection with the transaction, including the fees of Prudential's counsel.

The New Preferred Stock will be identical in all respects to the presently outstanding shares of Penn Power's preferred stock, except as to dividend rate and payment dates, terms of redemption and sinking fund requirements, which terms are being negotiated with Prudential and will be supplied by amendment. No shares of the New Preferred Stock may be redeemed prior to the fifth anniversary of its issuance if the funds for such redemption are obtained directly or indirectly from borrowings or the issuance of stock at a lower effective interest or dividend cost than the dividend cost of the New Preferred Stock.

Penn Power requests an exemption from the competitive bidding requirements of Rule 50 pursuant to Rule 50(a)(5) on the grounds that the sale will be made pursuant to a private placement without the involvement of any investment banking firm or other party to whom a commission would be paid and the terms of the New Preferred Stock will be based on prevailing market conditions.

The proceeds from the sale of the New Preferred Stock will be used to repay unsecured short-term debt (estimated to aggregate approximately $10,800,000 at the time of such issuance), and the balance, if any, will be applied to Penn Power's construction program, which is estimated at approximately $73,672,000 for 1977.

Penn Power also proposes to increase its authorized shares of preferred stock, par value $100, from 500,000 to 740,000 shares. Penn Power presently has 951 shares of authorized but unissued preferred stock. In addition to the 100,000 shares of New Preferred Stock proposed to be sold, it is contemplated that Penn Power will sell 60,000 shares of preferred stock in 1978 and 80,000 shares of preferred stock in 1979. It is stated that the proposed increase in authorized preferred shares requires the approval of the holder of Penn Power's common stock. Ohio Edison, the holder of all the outstanding Penn Power common stock, has indicated that it intends to approve the increase in authorized preferred shares.

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the proposed issue and sale of the New Preferred Stock and that no other state commission and no federal commission, other than this commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested parson may, not later than October 5, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20164; (70-6053)]

PENNSYLVANIA ELECTRIC CO.

Proposed Capital Contributions by Holding Company to Subsidiary

SEPTEMBER 8, 1977.

Notice is hereby given that Pennsylvania Electric Company, 1001 Broad Street, Johnstown, Pennsylvania 07054 ("Penelec"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(b) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Penelec requests that it be authorized to make, from time to time during 1977, cash capital contributions to its subsidiary, Nineveh Water Company ("Nineveh"), of up to $200,000. It is stated that Penelec has made cash contributions of $27,000 to Nineveh through August 30, 1977, and anticipates making further capital contributions of up to $23,000 before September 30, 1977, such contributions being exempted from Commission approval pursuant to Rule 45(b)(4).

The $200,000 cash capital contributions will be utilized by Nineveh for the purpose of financing its business as a public utility, including the restoration of service and the repair of facilities damaged by the Johnstown, Pennsylvania flood which occurred in July 1977. The estimated damages suffered by Nineveh as a result of the flood, not covered by insurance, for which funds will be required during the balance of the year 1977 include $50,000 for the restoration of service and $100,000 for increased operating costs. Nineveh also requires $50,000 cash capital contributions during the year 1977 in connection within its normal operations, resulting in total capital cash

V 42 I 179
SEP 15 77
UMI

contribution requirements of $200,000 during 1977.

The fees and expenses to be incurred in connection with the proposed transaction are estimated at $3,600, including legal fees of $1,500. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than September 29, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No 34-13931; File No. SR-MSE-77-30]

SELF-REGULATORY ORGANIZATIONS

Proposed Rule Change By Midwest Stock Exchange, Incorporated

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78 s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on August 26, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

Statement of the Terms of Substance of the Proposed Rule Change Midwest Stock Exchange's ("MSE's") statement of the Terms of Substance of the Proposed Rule Change.

A new rule is added to the Rules of the Exchange as follows: (additions italicized)

ARTICLE XX

SEMI-ANNUAL CONFIRMATION OF OPEN ORDERS

Rule 35. All open orders resting in the specialists' books will expire at the end of the semi-annual confirmation period unless reentered with the specialists after the close of business on the last business day of such period. Open orders shall be confirmed semi-annually and the dates on which the confirmation periods end shall be prescribed by the Exchange.

Specialists must remain on the Floor or have a representative thereon as long as necessary after the close of the last business day of each semi-annual confirmation period for the purpose of receiving renewals of open orders.

Open orders properly confirmed in the manner of their original entry, except as to partial execution or reduction in shares, are entitled to retain the same order of precedence on the specialists' books; and the specialists will be responsible for their proper entry. Open orders not so confirmed are automatically canceled. Specialists must inform the originating broker of an order's cancellation prior to the opening of business on the first business day of the new semi-annual confirmation period.

Open orders which have been canceled due to the absence of a proper reentry will be accepted as new orders with priority based on new time of receipt provided they are received no later than one hour after the opening of business on the first business day of the new semi-annual confirmation period.

MSE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed new rule is to establish within the framework of the Exchange Rule, a definitive procedure for the proper confirmation of open orders resting in specialists' books. This new rule changes the prior practice in that the specialist is no longer required to request confirmation prior to cancellation. The duty of the specialist under the proposed rule is now limited to notification to the originating floor broker after cancellation, but prior to the opening of business of the new semi-annual confirmation period.

As a result of setting up procedures for the confirmation of open orders, the proposed rule change prevents fraudulent and manipulative acts and practices; promotes just and equitable principles of trade; and removes impediments to the perfection of the mechanism of a free and open market.

This proposed rule change has been approved by the Committee on Floor Procedure. MSE states that no other comments have been solicited nor received.

The Midwest Stock Exchange, Incorporated, believes that no burdens have been placed on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 17, 1977.

For the Comission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 6, 1977.

[FR Doc.77-26903 Filed 9-14-77;8:45 am]

[Release No. 34-13980; File No. SR-NYSE-77-25]

SELF-REGULATORY ORGANIZATIONS

Proposed Rule Change By New York Stock Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. 94-29 (June 4, 1975), notice is hereby given that on August 26, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS AND SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed changes to Exchange Rules 104.20 and 104.23 and the rescission of Rule 114 will reduce the capital and manpower requirements imposed upon members who currently are or wish to become registered as Exchange specialists. This will provide greater ease of entry into the specialist business, and enhance the potential for competition on the Floor of the Exchange. The proposed changes will also allow specialists to maintain a single "book" in a stock while competing as market-makers.

EXCHANGE STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The proposed changes to Rule 104.20 are designed to eliminate a possible barrier to entry into the specialist business and thus further provide for a more competitive environment on the Trading Floor of the Exchange. At the same time the proposed changes are designed to insure the continued quality and financial capabilities of existing specialist organizations.

Proposed changes to Rule 104.20 would reduce the minimum capital requirement for specialists to the greater of $100,000 or 25 percent of position requirements from the greater of $500,000 or 25 percent of position requirements. Position requirements which specialists must be able to assume will remain at 5,000 shares in each common stock, 1,000 shares in each convertible preferred stock, 400 shares of each 100 share trading unit non-convertible preferred stock and 100 shares of each 10 share trading unit non-convertible preferred stock. Thus, the minimum capital requirement for a potential new specialist who wishes to register in only a small number of stocks would be $100,000 rather than $500,000. At the same time, the majority of existing Exchange specialists have total position requirements such that 25 percent of their position requirement exceeds $500,000. Thus, the proposed reduction in the capital requirement would leave the requirement for most existing specialists unchanged, while significantly reducing the amount of capital required for entry into the specialist business.

In connection with the proposed reduction in the capital requirement for specialists, it is also proposed that the current provision which allows withdrawals below the normal required amount of capital, and the current so-called maintenance capital requirement—which is 75 percent of the regular requirement, be eliminated for two reasons. First, elimination of these provisions would accurately reflect established Exchange policy in that withdrawals below required capital are allowed as long as the amount of capital remained above the maintenance requirement. Second, in view of the significant reduction in the minimum capital requirement which is proposed, it would be inappropriate to allow a specialist's capital to fall to an amount even lower than $100,000.

Current Rule 104.23 provides that full-time relief specialists (that is, members who are registered to act as relief specialist for an entire day) are subject to a $50,000 capital requirement if they are also registered as a regular specialist, but are subject to a $100,000 capital requirement if they are not otherwise registered as a regular specialist. In view of the fact that the capital requirement for regular specialists would be reduced to $100,000 and the fact that the current requirement discriminates against members who are not otherwise registered as regular specialists, the proposed change to Rule 104.23 would standardize the capital requirement for full-time relief specialists at $50,000.

The proposed rescission of Rule 114 would eliminate the current requirement that every specialist unit have a minimum of three active members registered and functioning as regular specialists. The purpose of this proposed change is to allow for one or two-man specialist organizations and thus eliminate a possible barrier to entry into the specialist business.

In addition, the rescission of Rule 114 would allow specialists to create so-called "combined books".

Elimination of this prohibition is designed to allow for greater competition among specialists by providing that two or more specialist organizations may maintain a single book in the stocks in which they are registered and at the same time compete as market-makers.

In connection with the proposed elimination of the "three-man" requirement and proposed rescission of the prohibition against combined books, it should be noted that existing Exchange Rule 104.15 requires, in part, that:

> Any member registered as a regular specialist must either (1) be associated with other members also registered as regular specialists in the same stocks, either through a partnership or a member corporation or a joint account, and arrange to be in attendance during the hours when the Exchange is open for business, or (2) arrange for the registration by at least one other member as relief specialist, who would always be available, in the regular specialist's absence, to take over the "book" and to service the market, so that there would be no interruption of the continuity of service during the hours when the Exchange is open for business.

Thus, members of one-man specialist organizations and participants in a combined book would not be permitted to "walk away" from the market and would be required to arrange for appropriate relief in their absence.

The overall purpose of the proposed rule changes is to eliminate possible barriers to entry into the specialist business and thus provide enhanced opportunities for competition on the Floor of the Exchange.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

The proposed rule changes are designed to enhance opportunities for specialist competition on the Floor of the Exchange and to eliminate possible barriers to entry into the specialist business. They are, therefore, consistent with: Section 6(b)(5) of the Securities Exchange Act of 1934 which requires, in part, that the rules of an exchange be designed to remove impediments to and perfect the mechanism of a free and open market; Section 11(b) which provides for Exchange rules pertaining to members registered as specialists; and Section 11(a)(1)(C) which states that Congress finds that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure fair competition among brokers and dealers.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

The Exchange has not solicited comments on the proposed rule change nor have any written comments been received.

BURDEN ON COMPETITION

The proposed rule changes do not impose any burden on competition but, rather, allow for increased competition on the Floor of the Exchange.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 6, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 2, 1977.

PROPOSED CHANGES TO EXCHANGE RULES 104.20, 104.23 AND 114

Revised Rule 104.20 to read as follows:

CAPITAL REQUIREMENTS OF SPECIALISTS

.20 Regular specialists.—(1) A member registered as a regular specialist at an active post must be able to assume a position of 50 trading units in each common stock in which he is registered.

(2) A member registered as a regular specialist at an active post must be able to assume a position of 10 trading units in each convertible preferred stock, of 400 shares in each of the 100 share trading unit non-convertible preferred stocks and of 100 shares in each of the 10 share unit non-convertible preferred stocks in which he is registered.

(3) A member registered as a regular specialist at the inactive Post must have, at all times, net liquid assets of at least $50,000.

V 42 179 SEP 15 77 UMI

(4) Notwithstanding .30 of this Rule, each member registered as a regular specialist at an active post must be able to establish that he acn meet, with his own net liquid assets, a minimum capital requirement which shall be the greater of $100,000 or 25 percent of the position requirements as set forth in Paragraphs (1) and (2) above, except as determined by the Exchange in unusual circumstances.

The Market Surveillance and Evaluation Division must be informed immediately by a specialist, in each instance, of his inability to comply with the provisions set forth in the above Paragraphs.

The term "net liquid assets" is defined as the excess of cash or readily marketable securities over liabilities for a specialist who neither carriers nor services customers' accounts and who does not business with others than members and member organizations. The term for all other specialists refers to excess net capital computed in accordance with the provisions of Rule 325 except that capital accounts of partners which are covered by agreements approved by The Exchange, providing for the inclusion of equities therein as partnership property and borrowings covered by subordination agreements approved by The Exchange under Rule 326.13 may be considered "proprietary accounts" and as such included in the computation of such excess net capital for purposes of this Rule, with "haircuts" restored in respect of long or excess short positions of securities for which he is registered as a specialist and for long positions of securities which he shall have deposited or pledged with a bank or member organization as collateral for funds borrowed to finance transactions or positions in such specialist securities.

In the event that two or more specialists are associated with each other and deal for the same specialist account, the above requirements shall apply to such specialists as one unit, rather than to each specialist individually.

Specialists must be able to meet the above requirements without taking into consideration the capital required to carry or finance investments accounts.

Revised Rule 104.23 to read as follows:

.23 Relief specialists.—(1) The requirements with respect to a member registered as a full-time relief specialist, i.e., one who may be called upon to act as a relief specialist for an entire business day, shall be, net liquid asset of $50,000 or a joint account with the regular specialist in the stock. Any joint account must be approved by Regulation & Surveillance.

(2) There is no requirement with respect to a member registered as a part-time relief specialist, i.e., one who may be called upon to act as a relief specialist for less than the entire business day, usually for lunch periods, etc. Dealings effected by a part-time relief specialist while relieving the regular specialist must be made for the account of the regular specialist whom he is relieving.

Specialists may meet the above requirements either with their own capital or by availing themselves of the financing privileges provided by § 220.04(g) of Regulation T or § 221.3(o) or Regulation U of the Board of Directors of the Federal Reserve System [¶ 8121, 8218] which are explained at .30, below.

Recission of Rule 114, which reads as follows:

MINIMUM SIZE OF A SPECIALIST UNIT

Rule 114. Every specialist unit, except for two-man units dealing primarily in 10 share unit inactive preferred issues, shall have a minimum of three active members registered and functioning as regular specialists. If the requirement of the foregoing provision of this Rule has not been met within a reasonable period of time, as the Exchange shall determine, the registrations of the remaining regular specialist or regular specialists of the unit shall thereupon by cancelled.

No specialist unit shall maintain with any other unit or units a single "book" in any security listed on the Exchange, and deal separately under normal circumstances in such security for its own account.

[Release No. 34-13925; File No. SR-NYSE-77-20]

SELF-REGULATORY ORGANIZATION

Proposed Rule Changes by New York Stock Exchange, Inc.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 29, 1977, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGES

Proposed changes to Exchange Rules 390, 395, and 396, the off-Board trading rules, are, for the most part, housekeeping amendments to conform the Rules to the provisions of Rule 19c-1. The amendments to such rules include the deletion of the reporting requirement in Rule 390.

Proposed changes to the preface to the rules governing special block procedures would eliminate the "basic philosophy" language. Finally, the proposed changes to Rule 54, Dealings on Floor—Persons, would clarify the scope of the Rule. The text of the proposed rule changes are attached as Exhibit I.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule changes are as follows:

PURPOSE OF PROPOSED RULE CHANGES

The Commission in its review of Exchange rules conducted in accordance with section 31(b) of the Securities Acts Amendments of 1975 has cited the Exchange rules under discussion as being inconsistent with certain provisions of the Act.

RULES 390, 395, AND 396

Exchange Rules 390, 395, and 396, the "off-Board trading" rules, prevent members from effecting transactions in listed securities in the over-the-counter market either as principal or agent. An exception is provided for members to effect agency transactions in the OTC market with third market makers and non-member block positioners.

On January 3, 1977, the requirement in Rules 390 and 395 that members satisfy public limit orders on the specialist's book when executing over-the-counter agency transactions with third market-makers and non-member block positioners in NYSE listed securities expired. Similar provisions contained in Rule 396 also expired but only with respect to transactions in convertible bonds. The requirements that members satisfy public limit orders on the Exchange floor at prices equal to or better than an over-the-counter execution involving other bonds which are debt securities remained in effect.

The repeal of the "public limit order protection" provision was mandated by Rule 19c-1 which prohibits an exchange from having rules that directly or indirectly prohibit or condition the ability of any member acting as agent to effect transactions in the over-the-counter market with a third market-maker or non-member block positioner in exchange listed securities.

The NYSE had handled the matter by interpretation and did not ask the Board of Directors to approve housekeeping changes to Rules 390, 395, and 396 since it was not essential in view of the fact that the provisions of Rule 19c-1 override Exchange off-Board trading rules. This notwithstanding, the Board at its July 7, 1977, meeting amended these Rules to conform to the spirit as well as the letter of the Securities Acts Amendments of 1975.

Rule 390 also requires that members effecting off-Board transactions in a listed stock report such transactions to the Exchange. (There are no reporting requirements contained in Rules 395 and 396.) The purpose of requiring member organizations to report off-Board transactions in listed stocks to the Exchange was to have data on the trades done off the Floor under the Rule and to ensure that orders on the specialist's book at prices equal to or better than the OTC transaction price were satisfied in accordance with the requirements of the Rule. As noted above, on January 3, 1977, this "public limit order protection" requirement expired. In view of this, the reporting requirement is being eliminated.

PREFACE

The language of the preface to the rules governing special block procedures ("basic philosophy") is being eliminated since it may be viewed to condition or limit a member's ability to trade in the OTC market.

RULE 54

Exchange Rule 54 prohibits members, while on the Floor, from making a transaction in any listed security with anyone except another member—with certain exceptions.

The proposed changes would clarify the scope of the Rule which might be misconstrued to limit or condition a member's ability to initiate a trade in the over-the-counter market by transmitting an order from the NYSE Floor to the member's office. The portion of the Rule dealing with the establishment of loan rates on the Floor is no longer appropriate since it is obsolete and is being deleted—loan rates have not been established on the Floor for many years.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

As cited by the Commission in its review of Exchange rules conducted in accordance with section 31(b), the proposed rule changes relate to section 6(b)(8) and section 11A(a)(1)(C)(ii) of the Act, and item (v)(D) of Item 4 of Form 19b-4A. The proposed rule change to Rule 54 further relates to section 6(b)(5) of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGES

The Exchange has not solicited comments regarding the proposed changes to Rules 390, 395, 396, and 54 and the preface to the rules governing special block procedures and has received none.

BURDEN ON COMPETITION

The proposed rule changes will not impose any burden on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule changes, or

(B) Institute proceedings to determine whether the proposed rule changes should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 17, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 2, 1977.

EXHIBIT I

The following constitutes the text of proposed changes to Rule 390, 395, 396, and 54 and the preface to the rules governing special block procedures:

MARKET RESPONSIBILITY RULE

Rule 390. (a) Except as otherwise provided by this Rule, no member, member organization, or other person who is a nonmember broker or dealer and who directly or indirectly, controls, is controlled by, or is under common control with, a member or member organization (any such other person being hereinafter referred to as an affiliated person) shall effect any transaction in any listed stock in the over-the-counter market, either as principal or agent.

(b) A member, member organization or affiliated person holding a customer's order for the purchase or sale of a listed stock (the Order) may execute the Order (or such portion thereof as may be so executed in accordance with this Rule) in the over-the-counter market with a third market maker or non-member block positioner.

(c) The provisions of this Rule shall not apply to any of the following transactions:

(i) Any transaction which is part of a primary distribution by an issuer, or a registered or unregistered secondary distribution, effected off the floor of the Exchange;

(ii) Any transaction made in reliance on section 4(2) of the Securities Act of 1933;

(iii) Any trade at a price unrelated to the current market for the security to correct an error or to enable the seller to make a gift;

(iv) Any transaction pursuant to a tender offer;

(v) Any purchase or sale of securities effected upon the exercise of an option pursuant to the terms thereof or the exercise of any other right to acquire securities at a pre-established consideration unrelated to the current market for such securities;

(vi) Any purchase or sale of any security trading in which has been suspended by the Exchange pending review of the listing status of such security;

(vii) The acquisition of securities by a member organization as principal in anticipation of making an immediate special offering or exchange distribution on the Exchange under Rule 391 or Rule 392;

(viii) Any purchaseor sale of any of the guaranteed or preferred stocks included within the listing of such stocks as may from time to time be issued by the Exchange, *Provided, however*, That every proposed transaction in any such security by a member, member organization or affiliated person should be reviewed in light of the factors involved, including the market on the floor of the Exchange, the price, and the size, so that whenever possible the transaction may be effected on the floor;

(ix) Any transaction for less than one unit of trading; and

(x) Any other purchase or sale of any security under extraordinary or emergency conditions which receives the prior approval of the Exchange.

(d)(1) The term "listed stock" as used in this Rule shall mean any security registered on the Exchange (other than subscription rights), the sale prices of transactions in which are reported on the consolidated tape provided for in the plan filed by the Exchange and others pursuant to Rule 17a-15 under the Securities Exchange Act of 1934 (the Act) and declared effective by the Securities and Exchange Commission;

(2) The term "nonmember broker or dealer" as used in subparagraph (a) of this Rule shall mean any broker or dealer registered in accordance with section 15(b) of the Act, which acts as a "market maker" as defined in the Act, or whose gross income is derived substantially from acting as a "broker" as defined in the Act, or both;

(3) The term "third market maker" as used in this Rules shall mean a "market maker" as defined in Rule 15c3-1(c)(8) under the Act, who makes markets over-the-counter in listed stocks and who maintains the minimum net capital required of a market maker by Rule 15c3-1 under the Act; and

(4) The term "nonmember block positioner" shall mean a "block positioner" as defined in Rule 17a-17 under the Act which is not a member of the Exchange.

(e) Notwithstanding the provisions of Rule 104, the specialist may buy for his own account on a plus or zero plus tick or sell for his own account in a minus or zero minus tick any or all of the stock which is to be sold or purchased over-the-counter pursuant to subparagraph (b) of this Rule.

* * * *Supplementary material:*

.10 Interpretations of the Market Responsibility Rule.—Notwithstanding the provisions of this Rule, a member, member organization or affiliated person: may trade as principal or as agent in any listed stock on any organized exchange in any foreign country at any time; and outside of Exchange trading hours, may trade as principal or agent in any listed stock in a foreign country over-the-counter.

.20 SEC. Rule 19c-1.—The Market Responsibility Rule has been adopted by the Board of Directors and approved by the Securities and Exchange Commission as contemplated by subparagraph (b) of Rule 19c-1 under the Securities Act of 1934. Rule 19c-1 reads in full as follows:

The rules of each national securities exchange shall provide, on and after March 31, 1976, as follows:

(a) Except as hereinafter provided by this rule, no rule, stated policy or practice of this exchange shall prohibit or condition, or be construed to prohibit, condition or otherwise limit, directly or indirectly, the ability of any member acting as agent to effect transactions on any other exchange or over-the-counter with a third market maker or non-member block positioner in any equity security which is listed on the exchange or to which unlisted trading privileges on the exchange have been extended ("exchange securities").

(b) Beginning March 31, 1976, and ending January 2, 1977, the provisions of paragraph (a) of this rule shall not apply to a rule of this exchange approved by the Securities and Exchange Commission pursuant to section 19(b)(2) of the Securities Exchange Act of 1934 (the "Act") which assures that, either immediately before, simultaneously with or immediately after execution of a transaction in any exchange security over-the-counter with a third market maker or nonmember block positioner, public bids or offers entered on the specialist's book, or on any other limit order mechanism on such exchange, as limited price orders at prices equal to or better than the transaction price ("limit orders") are satisfied at the limit prices bid or offered: provided, however, that such limit orders may be required to be satisfied at the transaction price under circumstances consistent with the purposes of this rule, the public interest and the protection of investors.

(c) For purposes of this rule:

(1) The term "third market maker" shall mean a "market maker" as defined in Rule 15c3-1(c)(8) under the Act, who makes markets over-the-counter in exchange securities and who maintains the minimum net capital required of a market maker by Rule 15c3-1 under the Act.

(2) The term "nonmember block positioner" shall mean a "block positioner" as defined in Rule 17a-17 under the Act which is not a member of this exchange.

OFF-FLOOR TRANSACTIONS IN LISTED RIGHTS

Rule 395. (a) Except as otherwise provided by this Rule, no member, member organization, or other person who is a nonmember broker or dealer and who directly or indirectly, controls is controlled by, or is under common control with, a member or member

V 421179
SEP 15 77
UMI

organization (any such other person being hereinafter referred to as an affiliated person) shall effect any transaction in any subscription right admitted to dealings on the Exchange, in the over-the-counter market, either as principal or agent.

(b) A member, member organization or affiliated person holding a customer's order for the purchase or sale of a listed right (the Order) may execute the Order (or such portion thereof as may be so executed in accordance with this Rule) in the over-the-counter market with a third market maker or non-member block positioner.

(c) The provisions of this Rule shall not apply to any of the following transactions.

(i) Any trade at a price unrelated to the current market for the subscription right to correct an error.

(ii) Any transaction for less than one unit of trading;

(iii) Any principal transaction in rights to subscribe to bonds, effected with other members, non-member brokers and dealers, and institutions, provided the proviso of paragraph (b) above is complied with;

(iv) Any transaction in rights to subscribe to preferred stocks included on the Exchange's exempt list; or

(v) Any single transaction where the amount involved is less than $2.

(vi) In connection with rights to subscribe to preferred stocks, the Exchange may consider requests for exemptions to permit the purchase of rights over-the-counter in blocks of a size sufficient to subscribe to not less than $100,000 of the securities subject to the rights (and in respect of issues amounting to less than $7,500,000 the size of the wholesale lot might be proportionately reduced) provided the purchase is for the purpose of subscribing to the issue.

In addition, the Exchange may give consideration to requests for exemptions in respect of private negotiations for the purchase over-the-counter of large blocks to rights to preferred stocks or common stocks (A) in relation to the size of the issue, provided that the purchase is for the purpose of subscribing to the issue or (B) where because the size of certain blocks is so large that in the opinion of the Exchange the orderly process of the market might otherwise be disturbed, provided the purchase is for the purpose of subscribing to the issue.

In some instances, issuers of rights have made arrangements with a particular bank or trust company to handle orders of stockholders to buy or sell so-called "overage" rights. This involves buying:

(A) From a stockholder whose rights are insufficient to subscribe to one share, all of such rights; or

(B) From a stockholder who is subscribing to the offering, any excess rights insufficient to subscribe to one share,

or selling:

(A) To a stockholder who is subscribing to the offering but who has received from the issuing company rights in an amount insufficient to subscribe to one share. The minimum number of rights necessary to enable him to subscribe to one share; or

(B) To a stockholder who is subscribing to the offering but who has received from the issuing company rights in excess of a number exactly sufficient for subscription, the minimum number of rights necessary to enable him to subscribe to one additional share.

Daily, after balancing off purchases and sales of the "overage" rights, the bank or trust company may have a remaining "breakage". Member organizations may purchase from the bank or trust company in such cases, off the Floor of the Exchange, on a principal basis, the rights represented by such "breakage", provided any sale of rights so purchased is made on a national securities exchange.

(d) (1) The term "nonmember broker or dealer" as used in subparagraph (a) of this Rule shall mean any broker or dealer registered in accordance with section 15(b) of the Act, which acts as a "market maker" as defined in the Act, or whose gross income is derived substantially from acting as a "broker" as defined in the Act, or both;

(2) The term "third market maker" as used in this Rule shall mean a "market maker" as defined in Rule 15c3-1(c)(8) under the Act, who makes markets over-the-counter in listed stocks and who maintain the minimum net capital required of a market maker by Rule 15c3-1 under the Act; and

(3) The term "nonmember block positioner" shall mean a "block positioner" as defined in Rule 17a-17 under the Act which is not a member of the Exchange.

(e) Notwithstanding the provisions of Rule 104, the specialist may buy for his own account on a plus or zero plus tick or sell for his own account on a minus or zero minus tick any or all of the rights which are to be sold or purchased over-the-counter pursuant to subparagraph (b) of this Rule.

* * * Supplementary material:

.10 Notwithstanding the provisions of this Rule, a member, member organization or affiliated person; may trade as principal or as agent in any listed right on any organized exchange in any foreign country at any time; and outside of Exchange trading hours, may trade as principal or agent in any listed right in a foreign country over-the counter.

OFF-FLOOR TRANSACTIONS IN BONDS

Rule 396. (a) Except as otherwise provided by this Rule, no member, member organization, or other person who is a nonmember broker or dealer and who directly or indirectly, controls, is controlled by, or is under common control with, a member or member organization (any such other person being hereinafter referred to as an affiliated person) shall effect any transaction in any listed bond in the over-the-counter market, either as principal or agent.

(b) A member, member organization or affiliated person holding a customer's order for the purchase or sale of a listed bond (the Order) may execute the Order (or such portion thereof as may be so executed in accordance with this Rule) in the over-the-counter market with a third market maker; provided that if the Order involves a debt security, such member, member organization or affiliated person assures that all public bids or offers recorded on the Exchange Floor at the time of the over-the-counter execution, or, if inquiry is made immediately prior to the over-the-counter execution, all public bids or offers recorded on the Exchange Floor at the time of such inquiry, at prices which, insofar as the Order is concerned, are equal to or better than the price at which such portion of the Order is executed over-the-counter are satisfied at the price at which such portion of the Order is so executed.

(c) The provisions of this Rule shall not apply to any of the following transactions:

(i) Any order for the purchase or sale of ten bonds or more;

(ii) In the case of an agency transaction (including intra-office cross transactions), when the customer specifically directs that the particular order shall not be executed on the Floor; but no member or member organization shall solicit such instructions before sending the order to the Floor;

(iii) When the order calls for the purchase or sale of securities of the United States, Puerto Rico, the Philippine Islands, or States, Territories, or Municipalities therein, or of bonds which, pursuant to call or otherwise, are to be redeemed within twelve months;

(iv) Any transaction which is part of a primary distribution by an issuer, or a registered or unregistered secondary distribution, effected off the floor of the Exchange;

(v) Any transaction made in reliance on section 4(2) of the Securities Act of 1933;

(vi) Any trade at a price unrelated to the current market for the security to correct an error or to enable the seller to make a gift;

(vii) Any purchase or sale of any bond trading in which trading has been suspended by the Exchange pending review of the listing status of such bond;

(viii) The acquisition of bonds by a member organization as principal in anticipation of making an immediate special offering or exchange distribution on the Exchange under Rule 391 or Rule 392; and

(ix) Any transaction for less than one unit of trading;

(d) (1) The term "nonmember broker or dealer" as used in subparagraph (a) of this Rule shall mean any broker or dealer registered in accordance with section 15(b) of the Act, which acts as a "market maker" as defined in the Act, or whose gross income is derived substantially from acting as a "broker" as defined in the Act or both;

(2) The term "third market maker" as used in this Rule shall mean a "market maker" as defined in Rule 15c3-1(c)(8) under the Act, who makes markets over-the-counter in listed bonds and who maintains the minimum net capital required of a market maker by Rule 15c3-1 under the Act; and

(e) (1) The price at which a transaction is effected, whether on the Exchange or in the over-the-counter market, shall, for purposes of this Rule, mean the price of such transaction, exclusive of any commission, commission equivalent, differential, tax or other charge applicable thereto.

(2) Each limited price order recorded on the Exchange Floor shall, for purposes of this Rule, be considered a public bid or offer unless initiated by a member on the Floor of the Exchange for his own account or for any account in which he, his member organization, or any affiliated person of his member organization has an interest.

* * * Supplementary material:

10. Interpretations.—(1) Notwithstanding the provisions of this Rule, a member, member organization or affiliated person: may trade as principal or as agent in any listed bond on any organized exchange in any foreign country at any time; and outside of Exchange trading hours, may trade as principal or agent in any listed bond in a foreign country over-the-counter.

(2) Notwithstanding the provisons of this Rule, a member, member organization or affiliated person may execute a customer's order in the over-the-counter market with a third market maker or nonmember block positioner outside of Exchange trading hours without satisfying public bids or offers present on a limited order mechanism on the Exchange.

DEALINGS ON FLOOR—PERSONS

Rule 54. Only members shall be permitted to make or accept bids and offers, consummate transactions or otherwise transact business on the Floor in any security admitted to dealings on the Exchange, except that the provisions of this Rule shall not apply in the case of a person authorized to transact business on the Floor pursuant to section 14 or 15 of Article IX of the Constitution.

SPECIAL PROCEDURES REGARDING BLOCKS OF LISTED SECURITIES AND OFF-FLOOR TRANSACTIONS

BLOCKS NOT SUSCEPTIBLE OF NORMAL PROCESSING

Special procedures for handling blocks not susceptible of normal processing.—The following procedures are provided by the Exchange to facilitate the handling of blocks of listed securities which cannot be absorbed or supplied in the regular auction market within a reasonable time and at a reasonable price or prices: Exchange acquisitions; exchange distributions; special bids; special offerings; secondary distributions.

Applications and details in respect of these procedures are to be submitted to the Market Surveillance and Evaluation Division (623 6811 or 6812). A member or member organization may discuss any application for any of the above procedures with a Floor Director, as well as an application for an Off-Board transaction in rights, through 623-5000.

The following pages contain rules and information governing these special procedures.

[Release No. 13939; (SR-MSRB-76-12)]

MUNICIPAL SECURITIES RULEMAKING BOARD

Order Approving Proposed Rule Change

SEPTEMBER 8, 1977.

On December 20, 1976, the Municipal Securities Rulemaking Board, Suite 507, 1150 Connecticut Avenue NW., Washington, D.C. 20036, (the "MSRB") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change. On June 17, 1977, the MSRB filed with the Commission an amended proposed rule change which made substantial changes in the rule proposal. In addition the MSRB filed technical amendments to the proposed rule change on June 29, 1977, and August 26, 1977. The proposed rule change, as amended, would codify uniform industry practices for the processing, clearance, and settlement of inter-dealer transactions in municipal securities and related matters.

Notice of the proposed rule change, as amended, together with the terms of substance of the proposed rule change was given by publication of Commission releases (Securities Exchange Act Release Nos. 13671 (June 24, 1977) and 13116 (December 28, 1976)) and by publication in the FEDERAL REGISTER (42 FR 34436 (July 5, 1977) and 42 FR 1086 (January 5, 1977)). The Commission received a number of comment letters on the proposed rule change, many of them with respect to the proposed rule's requirement that inter-dealer confirmations include CUSIP numbers. Several of the comment letters expressed reservations about the utility of CUSIP numbers, particularly for small municipal securities dealers. The Commission believes that the delayed effective date of this requirement will provide an opportunity for the development of low-cost means of providing the numbers to small dealers. In addition, while the use of CUSIP numbers may not produce economies to all municipal securities brokers and dealers, their general use in the municipal securities industry should facilitate the development of more efficient processing systems.

The text of the proposed rule change follows:

RULE G 12. UNIFORM PRACTICE

(i) All transactions in municipal securities between any broker, dealer or municipal securities dealer and any other broker, dealer or municipal securities dealer shall be subject to the provisions of this rule, except to the extent that such transactions are compared, cleared and settled through the facilities of a clearing agency registered with the Commission, in which event the rules of such clearing agency shall apply.

(ii) Failure to deliver securities sold or to pay for securities as delivered, on or after the settlement date, does not effect a cancellation of a transaction which is subject to the provisions of this rule, unless otherwise provided in this rule or agreed upon by the parties.

(iii) Unless otherwise specifically indicated, any "immediate" notice required by this rule or any notice required to be given "immediately" shall be given by telephone, telegraph or other means of communication having same day receipt capability and confirmed in writing within one business day.

(b) Settlement Dates.

(i) Definitions. For purposes of this rule, the following terms shall have the following meanings:

(A) Settlement Date. The term "settlement date" shall mean the day used in price and interest computations, which shall also be the day delivery is due unless otherwise agreed by the parties.

(B) Business Day. The term "business day" shall mean a day recognized by the National Association of Securities Dealers, Inc. as a day on which securities transactions may be settled.

(ii) Settlement Dates. Settlement dates shall be as follows:

(A) For "cash" transactions, the trade date;

(B) For "regular way" transactions, the fifth business day following the trade date;

(C) For "when, as and if issued" transactions, a date agreed upon by both parties, which date shall not be earlier than the fifth business day following the date the confirmation indicating the final settlement date is sent, or, with respect to transactions between the manager and members of a syndicate or account formed to purchase securities from an issuer, a date not earlier than the sixth business day following the date the confirmation indicating the final settlement date is sent; provided, however, that if the issuer gives notice of pending delivery within less than six business days before delivery, the settlement date for transactions between the manager and members of the syndicate or account with respect to such issue of securities may be accelerated as determined by the manager, and, in such event, all other "when, as and if issued" transactions with respect to such issue of securities may, but need not, be accelerated by each seller by not more than the number of days of acceleration by the syndicate manager; and

(D) For all other transactions, a date agreed upon by both parties.

(iii) Notice of Accelerated Delivery. In the event the issuer gives notice of pending delivery of securities within less than six business days before delivery, the manager of a syndicate or account formed to purchase the securities from the issuer shall, upon determination of the accelerated delivery date pursuant to subparagraph (b)(ii)(C) hereof, give immediate notice to the members of the syndicate or account of the settlement date for transactions between the manager and the members.

(c) Dealer Confirmations.

(i) Except as otherwise indicated in this section (c), each party to a transaction shall send a confirmation of the transaction to the other party within one business day following the trade date.

(ii) Confirmations of cash transactions shall be exchanged on the trade date, which may be accomplished by telephone with written confirmations sent within one business day following the trade date.

(iii) For transactions effected on a "when, as and if issued" basis, initial confirmations shall be sent within two business days following the trade date. Confirmations from a syndicate or account manager to the members of the syndicate or account may be in the form of a letter, covering all maturities of the issue, setting forth in information hereafter specified in this section (c). Confirmations indicating the final settlement date shall be sent by the seller at least five business days prior to the settlement date or, with respect to transactions between the manager and members of a syndicate or account formed to purchase securities from an issuer, at least six business days prior to the settlement date; provided, however, that if the settlement date is accelerated pursuant to subparagraph (b)(ii)(C) above, final confirmations shall be sent by each seller immediately upon determination by it of the settlement date.

(iv) For transactions in new issue securities having a settlement date more than six business days following the trade date for which only one confirmation is sent, such confirmation shall be sent within two business days following the trade date.

(v) Each confirmation shall contain the following information:

(A) Confirming party's name, address and telephone number;

(B) "Contra party" identification;

(C) Designation of purchase from or sale to;

(D) Par value of the securities;

(E) Description of the securities, including at a minimum the name of the issuer, interest rate, maturity date, and if the securities are limited tax, subject to redemption prior to maturity (callable), or revenue bonds, an indication to such effect, including in the case of revenue bonds the type of revenue, if necessary for a materially complete description of the securities, and in the case of any securities, if necessary for a materially complete description of the securities, the name of any company or other person in addition to the issuer obligated, directly or indirectly, with respect to debt service or, if there is more than one such obligor, the statement "multiple obligors" may be shown;

(F) CUSIP number, if any, assigned to the securities;

(G) Trade date;

(H) Settlement date;

(I) Yield to maturity and resulting dollar price, except in the case of securities which are traded on the basis of dollar price or securities sold at par, in which event only dollar price need be shown (in cases in which securities are priced to call, this must be stated, and where a transaction is effected on a yield basis, the calculation of dollar price shall be to the lower of price to call or price to maturity);

SAFETY FILM KODAK
V 421179
SEP 1577
UMI

(J) Amount of concession, if any, per $1,000 par value unless stated to be an aggregate figure;

(K) Amount of accrued interest;

(L) Extended principal amount;

(M) Total dollar amount of transaction; and

(N) Instructions, if available, regarding receipt or delivery of securities, and form of payment if other than as usual and customary between the parties.

The initial confirmation for a "when, as and if issued" transaction shall not be required to contain the information specified in subparagraphs (H), (K), (L), and (M) of this paragraph or the resulting dollar price as specified in subparagraph (I).

(VI) In addition to the information required by paragraph (v) above, each confirmation shall contain the following information, if applicable:

(A) Dated date if it affects the price or interest calculation, and first interest payment date, if other than semi-annual;

(B) If the securities are "fully registered" or "registered as to principal only," a designation to such effect;

(C) If the securities are "called" or "prerefunded," a designation to such effect, the date of maturity which has been fixed by the call notice, and the amount of the call price;

(D) Denominations of notes and, if other than those specified in paragraph (e) (iv) hereof, denominations of bonds;

(E) Any special instructions or qualifications, or factors affecting payment of principal or interest, such as (A) "ex legal," or (B) if the securities are traded without interest, "flat," or (C) if the securities are in default as to the payment of interest or principal, "in default"; and

(F) Such other information as may be necessary to ensure that the parties agree to the details of the transaction.

(d) Comparison and Verification of Confirmations; Unrecognized Transactions.

(i) Upon receipt of a confirmation, each party to a transaction shall compare and verify such confirmation to ascertain whether any discrepancies exist. If any discrepancies exist in the information as set forth in the two compared confirmations, the party discovering such discrepancies shall promptly communicate such discrepancies to the contra party and both parties shall promptly attempt to resolve the discrepancies. In the event the parties are able to resolve the discrepancies, the party in error shall, within one business day following such resolution, send a corrected confirmation to the contra party. Such confirmation shall indicate that it is a correction and the date of the corrected confirmation. In the event the parties are unable to resolve the discrepancies, each party shall promptly send to the contra party a written notice, return receipt requested, indicating nonrecognition of the transaction.

(ii) In the event a party receives a confirmation for a transaction which it does not recognize, it shall promptly seek to ascertain whether a trade occurred and the terms of the trade. In the event it determines that a trade occurred and the confirmation it received was correct, such party shall immediately notify the confirming party by telephone and, within one business day thereafter, send a written confirmation of the transaction to the confirming party. In the event a party cannot confirm the trade, such party shall immediately notify the confirming party by telephone and, within one business day thereafter send a written notice, return receipt requested, to the confirming party, indicating, nonrecognition of the transaction. Promptly upon receipt of such notice, the confirming party shall verify its records and, if it agrees with the nonconfirming party, promptly send a notice of cancellation of the transaction, return receipt requested, to the nonconfirming party.

(iii) In the event a party has sent a confirmation of a transaction, but fails to receive a confirmation from the contra party or a notice indicating nonrecognition of the transaction within four business days of the trade date, the confirming party shall promptly seek to ascertain whether a trade occurred. If, after such verification, such party believes that a trade occurred, it shall immediately notify the nonconfirming party by telephone to such effect and send, within one business day thereafter, a written notice, return receipt requested, to the nonconfirming party, indicating failure to confirm. Promptly following receipt of telephone notice from the confirming party, the nonconfirming party shall seek to ascertain whether a trade occurred and the terms of the trade. In the event the nonconfirming party determines that a trade occurred, it shall immediately notify the confirming party by telephone to such effect and, within one business day thereafter, send a written confirmation of the transaction to the confirming party. In the event a party cannot confirm the trade, such party shall promptly send a written notice, return receipt requested, to the confirming party, indicating nonrecognition of the transaction.

(iv) If procedures are initiated pursuant to paragraph (ii) of this section, the procedures required by paragraph (iii) need not be followed; and conversely, if procedures are initiated pursuant to paragraph (iii) of this section, the procedures required by paragraph (ii) need not be followed.

(v) In the event any material discrepancies or differences, basic to the transaction, remain unresolved by the close of the business day following receipt by a party of a written notice indicating nonrecognition, or by the close of the business day following the date the confirming party gives telephone notice of the transaction to the nonconfirming party pursuant to paragraph (iii) above, whichever first occurs, the transaction may be cancelled by the confirming party or, in the event there exists disagreement concerning the terms of the transaction, by either confirming party. Nothing herein contained shall be construed to affect whatever rights the confirming party or parties may otherwise have with respect to a transaction which is cancelled pursuant to this paragraph.

(vi) Nothing herein contained shall be construed to prevent the settlement of a transaction prior to completion of the procedures prescribed in this section (d); provided that each party to the transaction shall be responsible for sending to the other party, within one business day of such settlement, a confirmation evidencing the terms of the transaction.

(vii) The notices referred to in this section indicating nonrecognition of a transaction or failure to confirm a transaction shall contain sufficient information to identify the confirmation to which the notice relates including, at a minimum, the information set forth in subparagraphs (A) through (E), (G), and (H) of paragraph (c) (v). In addition, such notice shall identify the firm and person providing such notice and the date thereof. The requirements of this paragraph may be satisfied by providing a copy of the confirmation of an unrecognized transaction, marked "don't know," together with the name of the firm and person providing such notice and the date thereof.

(e) Delivery of Securities. The following provisions shall, unless otherwise agreed by the parties, govern the delivery of securities:

(i) Place and Time of Delivery. Delivery shall be made at the office of the purchaser, or its designated agent, between the hours established by rule or practice in the community in which such office is located. If the parties so agree, book entry delivery through a registered clearing agency or delivery by other means which do not involve the physical delivery of securities will constitute good delivery for purposes of this rule.

(ii) Delivery Ticket. A delivery ticket shall accompany the delivery of securities. Such ticket shall contain the information set forth in subparagraphs (A), (B), (D) through (H), (M), and (N) of paragraph (c)(v) and, to the extent applicable, the information set forth in subparagraphs (A), (B), (D), (E), and (F) of paragraph (c)(vi) and shall have attached to it an extra copy of the ticket which may be used to acknowledge receipt of the securities.

(iii) Partial Delivery. The purchaser shall not be required to accept a partial delivery with respect to a single trade in a single security. For purposes of this paragraph, a "single security" shall mean a security of the same issuer having the same maturity date, coupon rate and price.

(iv) Units of Delivery. Delivery of bonds shall be made in the following denominations:

(A) For bearer bonds, in denominations of $1,000 or $5,000 par value; and

(B) For registered bonds, in denominations which are multiples of $1,000 par value, up to $100,000 par value.

Delivery of notes shall be made in the denominations specified on the confirmation as required pursuant to paragraph (c)(vi) of this rule.

(v) Bearer and Registered Form. Delivery of securities which are issuable in both bearer and registered form shall be in bearer form unless otherwise agreed by the parties.

(vi) Mutilated Certificates. Delivery of a certificate which is damaged to the extent that any of the following is not ascertainable:

(A) Name of issuer;
(B) Par value;
(C) Signature;
(D) Coupon rate;
(E) Maturity date;
(F) Seal of the issuer; or
(G) Bond or note number

shall not constitute good delivery unless validated by the trustee, registrar, transfer agent, paying agent or issuer of the securities or by an authorized agent or official of the issuer.

(vii) Coupon Securities.

(A) Coupon securities shall have securely attached to the certificate in the correct sequence all appropriate coupons, including supplemental coupons if specified at the time of trade, which in the case of securities upon which interest is in default shall include all unpaid or partially paid coupons. All coupons attached to the certificate must have the same serial number as the certificate.

(B) Anything herein to the contrary notwithstanding, if securities are traded "and interest" and the settlement date is on or after the interest payment date, such securities shall be delivered without the coupon payable on such interest payment date.

(C) If delivery of securities is due within 30 calendar days prior to an interest payment date, the seller may deliver to the purchaser a draft or bank check of the seller or its agent, payable on the date delivery is made, in an amount equal to the interest due, in lieu of the coupon.

(viii) Mutilated or Cancelled Coupons. Delivery of a certificate which bears a coupon which is damaged to the extent that any one of the following cannot be ascertained from the coupon:

(A) Title of the issuer;
(B) Bond or note number;
(C) Coupon number or payment date (if either the coupon number or the payment date is ascertainable from the coupon, the coupon will not be considered mutilated); or
(D) The fact that there is a signature; or which coupon has been cancelled, shall not constitute good delivery unless the coupon is endorsed or guaranteed. In the case of damaged coupons, such endorsement or guarantee must be by the issuer or by a commercial bank. In the case of cancelled coupons, such endorsement or guarantee must be by the issuer or an authorized agent or official of the issuer, or by the trustee or paying agent.

(ix) Delivery of Certificates Called for Redemption. A certificate for which a notice of call has been published prior to the trade date shall not constitute good delivery unless the securities are identified as "called" at the time of trade.

(x) Delivery Without Legal Opinions or Other Documents. Delivery of certificates without legal opinions or other documents legally required to accompany the certificates shall not constitute good delivery unless identified as "ex legal" at the time of trade.

(xi) Insured Securities. Delivery of certificates for securities traded as insured securities shall be accompanied by evidence of such insurance, either on the face of the certificate or on a document attached to the certificate.

(xii) Endorsements for Banking or Insurance Requirements. A security bearing an endorsement indicating that it was deposited in accordance with legal requirements applicable to banking institutions or insurance companies shall not constitute good delivery unless it bears a release acknowledged before an officer authorized to take such acknowledgments and was designated as a released endorsed security at the time of trade.

(xiii) Delivery of Registered Securities.

(A) Assignments. Delivery of a certificate in registered form must be accompanied by an assignment on the certificate or on a detached assignment for such certificate, containing a signature which corresponds in every particular with the name written upon the certificate except that the following shall be interchangeable: "and" or "&"; "Company" or "Co."; "Incorporated" or "Inc."; and "Limited" or "Ltd."

(B) Detached Assignment Requirements. A detached assignment shall provide for the irrevocable appointment of an attorney, with power of substitution, a full description of the security, including the name of the issuer, the maturity date and interest rate, the bond or note number, and the par value (expressed in words and numerals).

(C) Power of Substitution. When the name of an individual or firm has been inserted in an assignment as attorney, a power of substitution shall be executed in blank by such individual or firm. When the name of an individual or firm has been inserted in a power of substitution as a substitute attorney, a new power of substitution shall be executed in blank by such substitute attorney.

(D) Guarantee. Each assignment, endorsement, alteration and erasure shall bear a guarantee acceptable to the transfer agent or registrar.

(E) Certification in Name of a Party Other Than a Natural Person. A certificate registered in the name of a party other than a natural person, or in a name with official designation, shall constitute a good delivery only if the statement "Proper papers for transfer filed by assignor" is placed on the assignment and signed by the transfer agent.

(F) Certificate in Name of Deceased Person, Trustee, Etc.

(1) A certificate shall not constitute good delivery if executed with a qualification, restriction or special designation or if delivered in the name of, or with an assignment or power of substitution executed by a person since deceased; a minor; a receiver in bankruptcy; an agent; an attorney; or, except as provided in subparagraph (2) below, a trustee or trustees (except for trustees acting in the capacity of a board of directors of a corporation or association in which case the requirements of subparagraph (E) above shall apply), a guardian, an executor, or an administrator.

(2) A certificate shall constitute good delivery with an assignment or a power of substitution executed by an individual executor or administrator; an individual trustee under an inter vivos or testamentary trust; a guardian (including committees, conservators and curators); or a custodian acting pursuant to the provisions of the Uniform Gifts to Minors Act.

(G) Payment of Interest. If a registered security is traded "and interest" and transfer of record ownership cannot be accomplished on or before the record date for the determination of registered holders for the payment of interest, delivery shall be accompanied by a draft or bank check of the seller or its agent, payable on the date delivery is made, for the amount of the interest.

(H) Registered Securities Traded "Flat". If a registered security is traded "flat" (i.e. is in default in the payment of interest) and transfer of record ownership cannot be accomplished on or before the record date for the determination of registered holders for the payment of interest, an interest payment date having been established on or after the trade date, delivery shall be accompanied by a draft or bank check of the seller or its agent, payable on the date delivery is made, for the amount of the payment to be made by the issuer, unless the security is traded "ex-interest."

(xiv) Expenses of shipment. Expenses of shipment of securities, including insurance, postage, draft, and collection charges, shall be paid by the seller.

(xv) Money Differences. The following money differences shall not be sufficient to cause rejection of delivery:

Par value:	*Maximum differences per transaction*
$1,000 to $24,999	$10.
$25,000 to $99,999	25
$100,000 to $249,999	60
$250,000 to $999,999	250
$1,000,000 and over	500

The calculations of the seller shall be utilized in determining the maximum permissible differences and amount of payment to be made upon delivery. The parties shall seek to reconcile any such money differences within ten business days following settlement.

(f) Payment.

(i) Calculation of Interest. Unless otherwise agreed by the parties, in the settlement of transactions in interest-paying securities there shall be added to the dollar price interest at the rate specified in the security, which shall be computed up to, but not including the settlement date.

(ii) Calculation of Price. Calculations to determine the price and yield to maturity of municipal securities shall be made in accordance with applicable rules of the Board, if any.

(g) Rejections and Reclamations.

(i) Definitions. For purposes of this section, the terms "rejection" and "reclamation" shall have the following meanings:

(A) "Rejection" shall mean refusal to accept securities which have been presented for delivery.

(2) Refusal to transfer or deregister by the transfer agent due to a lack of documentation required by paragraph (e)(xiii) of this rule.

(D) Reclamation by reason of the following may be made without any time limitation:

(1) The security delivered is reported missing, stolen, fraudulent or counterfeit; or

(2) Not good delivery because notice of call for the certificate was published prior to the trade date and this was not specified at the time of trade.

The running of any of the time periods specified in this paragraph shall not be deemed to foreclose a party's right to pursue its claim via other means, including arbitration.

(iv) Procedure for Rejection or Reclamation. If a party elects to reject or reclaim securities, rejection or reclamation shall be effected by sending a written notice which contains sufficient information to identify the delivery to which the notice relates, including a copy of the original delivery ticket or other proof of delivery and to the extent not set forth on such document, the following:

(A) The name of the party delivering the securities;

(B) The name of the party receiving the securities;

(C) A description of the securities;

(D) The date the securities were delivered;

(E) The date of rejection or reclamation;

(F) The par value of the securities which are being rejected or reclaimed;

(G) In the case of a reclamation, the amount of money the securities are reclaimed for;

(H) The reason for rejection or reclamation; and

(I) The name and telephone number of the person to contact concerning the rejection or reclamation.

(v) Acceptance or Delivery of Securities. Upon rejection or reclamation properly made pursuant to this rule, the securities rejected or reclaimed shall be accepted or delivered as required by the notice of rejection or reclamation and the exchange of correct monies of securities shall be made.

(vi) Effect of Rejection or Reclamation. Rejection or reclamation of securities shall not constitute a cancellation of the transaction.

(h) Close-Out. Transactions which have been confirmed or otherwise agreed upon by both parties but which have not been completed may be closed out in accordance with this section, or as otherwise agreed by the parties.

(i) Close-Out by Purchaser. With respect to a transaction which has not been completed by the seller according to its terms and the requirements of this rule, the purchaser may close out the transaction in accordance with the following procedures:

(A) Notice of Close-Out. If the purchaser elects to close out a transaction in accordance with this paragraph (i), the purchaser shall, not earlier than the fifth business day following the settlement date, notify the seller by telephone of the purchaser's intention to close out the transaction and immediately thereafter send, return receipt requested, a written notice of close-out to the seller. Such notice shall be accompanied by a copy of the seller's confirmation of the transaction to be closed out or other written evidence of the contract between the parties. The notice shall state that unless the transaction is completed by a specified date and time, which shall not be earlier than the close of the fifth business day following the date the telephonic notice is given, or as provided in subparagraph (C) below, the transaction may be closed out in accordance with this section.

V 42 I 179
SEP 15 77
UMI

(B) Response. The seller shall respond to the notice of close-out in writing, or by telephone call promptly confirmed in writing, return receipt requested, within one business day following the date the telephonic notice required by subparagraph (A) is given, stating the seller's reasons for failing to complete the transaction. Any party receiving a notice of close-out may retransmit the notice to another party from whom the securities are due, provided that any retransmitted notice must be received by such other party not later than one business day preceding the date for close-out as specified on the original notice or as extended due to retransmittals. Each retransmittal subsequent to the initial retransmittal shall extend the date for close-out by one business day and the party retransmitting the notice shall attach to the notice a memorandum specifying the extended date for close-out resulting from such retransmittal and shall immediately notify the purchaser originating the close-out notice of the extended date. Any party receiving a retransmitted notice of close-out shall respond to the party retransmitting the notice within the time periods and according to the procedures provided herein for the seller's response.

(C) Time Periods. If by the close of the fifth business day following the date the close-out notice was given, the purchase has received no response or notice of retransmittal or has received a response which fails to provide an adequate explanation, as described below, for the seller's failure to complete the transaction, the purchaser may close out the transaction in accordance with the terms of the close-out notice. If the purchaser has received an adequate explanation of the seller's failure to complete the transaction, the purchaser may not close out the transaction before the close of the fifteenth business day following the date the close-out notice was given. For purposes of this subparagraph, a seller shall be deemed to have provided an adequate explanation for its failure to complete the transaction only if it has an offsetting fail to receive outstanding of the same security and so states or if the certificates, coupons or documentation required by this rule are in transit to the purchaser or the seller, have been sent for transfer, deregistration or validation, or have been lost or mutilated and replacements have been requested, and the seller so states. If the purchaser has received a notice of retransmittal extending the date for close-out, the transaction may not be closed out before the close of business on the latest extended date.

(D) Purchaser's Options. To close out a transaction as provided herein the purchaser may, at its option:

(1) Purchase ("buy-in") at the current market all or any part of the securities necessary to complete the transaction, for the account and liability of the seller;

(2) Cancel the transaction as to all or any part of the securities necessary to complete the transaction;

(3) Accept from the seller in satisfaction of the seller's obligation under the original contract (which shall be concurrently cancelled) the delivery of municipal securities which are comparable to those originally bought in quantity, quality, yield or price, and maturity, with any additional expenses or any additional cost of acquiring such substituted securities being borne by the seller; or

(4) Require the seller to repurchase the securities on terms which provide that the seller pay an amount which includes [equal to] accrued interest and bear the burden of any change in market price or yield.

A close-out will operate to close out all transactions covered under retransmitted notices. A buy-in may be executed from a long position in customers' accounts maintained with the party executing the buy-in or, with the agreement of the seller, from the purchaser's contra party. In all cases, the purchaser must be prepared to defend the price at which the close-out is executed relative to market conditions at the time of the execution.

(E) Close-Out Not Completed. A close-out procedure instituted pursuant to this rule (including any action by the purchaser pursuant to subparagraph (D) of this paragraph) must be completed not later than the thirtieth business day following the settlement date. If a close-out pursuant to a notice of close-out is not completed in accordance with the terms of the notice and the provisions of this rule, the notice shall expire. Additional close-out notices may be issued, provided that a close-out procedure initiated pursuant to this rule with respect to a transaction must be completed not later than the thirtieth business day following the settlement date, regardless of the number of close-out notices issued. Anything herein to the contrary notwithstanding, each time period specified in this subparagraph (E) shall be extended by one business day for each retransmittal of the notice of close-out subsequent to the initial retransmittal.

(F) "Cash" Transactions. The purchaser may close out transactions made for "cash" or made for or amended to include guaranteed delivery at the close of business on the day delivery is due.

(ii) Close-Out by Seller. If a seller makes good delivery according to the terms of the transaction and the requirements of this rule and the purchaser rejects delivery, the seller may close out the transaction in accordance with the following procedures:

(A) Notice of Close-Out. If the seller elects to close out a transaction in accordance with this paragraph (ii), the seller shall, not later than the close of business of the date of rejection of delivery, notify the purchaser by telephone of the seller's intention to close out the transaction and immediately thereafter send, return receipt requested, a written notice of close-out to the purchaser. Such notice shall be accompanied by a copy of the purchaser's confirmation of the transaction to be closed out or other written evidence of the contract between the parties. The notice shall state that unless the transaction is completed by a specified date and time, which shall not be earlier than the close of the [third] business day following the date the telephonic notice is given, the transaction may be closed out in accordance with this section.

(B) Execution of Close-Out. Not earlier than the close of the business day following the date telephonic notice of close-out is given to the purchaser, the seller may sell out the transaction at the current market for the account and liability of the purchaser.

(iii) Notice of Executed Close-Out. The party executing a close-out shall, immediately upon execution, notify via hand delivery or other written media having same-day receipt capabilities, the party for whose account and liability the transaction was closed-out, stating the means of closing out utilized and forwarding a copy of the confirmation of the executed transaction, if any.

(iv) Close-Out Under Special Rulings. Nothing herein contained shall be construed to prevent brokers, dealers or municipal securities dealers from closing out transactions as directed by a ruling of a national securities exchange, a registered securities association or an appropriate regulatory agency issued in connection with the liquidation of a broker, dealer or municipal securities dealer.

(v) Procedures Optional. Nothing herein contained shall be construed to require the parties to follow the close-out procedures herein specified if they otherwise agree.

(i) Good Faith Deposits. Good faith deposits shall be returned by the manager of a syndicate or similar account formed for the purchase of securities from an issuer, to the members of the syndicate or account within two business days following the date of settlement with the issuer, or, in the event the syndicate or account is not successful in purchasing the issue, within two business days following the return of the deposit from the issuer.

(j) Settlement of Syndicate or Similar Account. Final settlement of a syndicate or similar account formed for the purchase of securities shall be made within 60 days following the date all securities have been delivered by the syndicate or account manager to the syndicate or account members.

(k) Any credit designated by a customer in connection with the purchase of securities as due to a member of a syndicate or similar account shall be distributed to such member by the municipal securities broker or municipal securities dealer handling such order within 30 business days following delivery of the securities to the customer.

(l) Effective Date. The requirements of this rule shall become effective on December 7, 1977, with th exception of the requirements set forth in item (c)(v)(F), which shall become effective on January 1, 1979.

* * * * *

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB, and, in particular, the requirements of Section 15B and the rules and regulations thereunder.

It is thereforbe ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 8, 1977.

[FR Doc.77-26899 Filed 9-14-77;8:45 am]

[Release No. 34-13937; File No. SR-PSE-77-23]

SELF-REGULATORY ORGANIZATIONS

Proposed Rule Change by Pacific Stock Exchange Incorporated

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 2, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Pacific Stock Exchange Incorporated ("PSE") hereby requests to amend Section 3(c) of Rule II of its Board of Governors as follows (brackets indicate deletions and italics indicate additions):

RULE II. SPECIALISTS

CONFIRMATION OF "GTC" ORDERS

Sec. 3(c).

[Monthly: Specialists shall upon the specific request of a Member or Floor Representative submit a list of "GTC" orders to such persons for confirmation at the close of business on the third Tuesday of each month.

Quarterly: Specialists shall submit a list of "GTC" orders to Members or Floor Representatives for confirmation at the close of business on the third Tuesday of the months of March, June, September and December. Members and Floor Representatives are required to check "GTC" orders with their order desks quarterly.

Note: When the third Tuesday is a holiday, such lists shall be submitted at the close of business on the preceding full business day.]

Specialists shall submit a list of "GTC" orders to Members for confirmation at the close of business on such day(s) of the month(s) as designated by the Floor Trading Committee.

PSE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as following:

The purpose of the proposed rule change is to give the PSE more flexibility regarding confirmation of "GTC" orders. Currently open "GTC" orders must be reported quarterly, but the proposed rule change would give flexibility of requiring more frequent reporting thus helping to reduce discrepancies, errors and delays, and enhance efficiency.

The basis for the proposed rule change is to enable the PSE to promote just and equitable principles of trade and carry out the purposes of the Act by requiring reporting of "GTC" orders on such day(s) of the month(s) as designated by the Floor Trading Committee.

PSE states that comments have neither been solicited nor received from members on the proposed rule change.

PSE believes the proposed rule change imposes no burden upon competiton.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 6, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 8, 1977.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 77-169]

CHEMICAL TRANSPORTATION INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Chemical Transportation Industry Advisory Committee's Subcommittee on Liquefied Gas Vessels to be held on October 4 and 5, 1977, beginning at 9:30 a.m., Room 7200, Nassif Building, 400 7th Street SW., Washington, D.C. 20590. The agenda for this meeting is as follows:

1. To discuss proposed amendments to the IMCO Gas Code in preparation for the upcoming meeting of IMCO's Subcommittee on Bulk Chemicals.

2. To discuss proposed Coast Guard regulations for inspection of gas ships.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, Captain C. E. Mathieu, Commandant (G-MHM/83) U.S. Coast Guard, Washington, D.C. 20590 (202-426-2306). Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on September 7, 1977.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Federal Aviation Administration

DISCONTINUANCE CRITERIA FOR AIRPORT TRAFFIC CONTROL TOWERS; POLICY FORMULATION

Public Hearings

The Federal Aviation Administration (FAA) will hold public hearings on its policy regarding cessation of service at airport traffic control towers. These hearings will afford interested persons the opportunity to present views, data, and arguments regarding the subjects and issues stated in a notice of policy formulation published in the FEDERAL REGISTER on September 1, 1977 (42 FR 44062). Evening as well as day hearings are scheduled to accommodate the general public.

THE HEARINGS

The hearings will be conducted at the following times and locations:

October 4, 1977—Los Angeles, California: Convening at 9:30 a.m. and 7:00 p.m. at Hyatt House Hotel, Los Angeles International Airport, 6225 West Century Boulevard, Los Angeles, California.

October 7, 1977—Kansas City, Missouri: Convening at 9:30 a.m. and 7:00 p.m. in Room 140, Federal Office Building, 601 East Twelfth Street, Kansas City, Missouri.

October 11, 1977—Washington, D.C.: Convening at 9:30 a.m. and 7:00 p.m. in Auditorium, FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C.

HEARING PROCEDURE

The hearings will be informal in nature and will be conducted by a designated representative of the Administrator.

Since the hearings will not be evidentiary or judicial in nature, there will be no cross-examination or other adjudicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given the opportunity to do so at the conclusion of the presentations in the same order in which initial statements are made.

Interested persons are invited to attend the hearings and to participate by making oral or written statements concerning their respective topics, their sub-

V 42 179 SEP 15 77 UMI

stance, and issues. Written statements should be submitted in duplicate and will be made a part of the record of proceedings. Persons wishing to make oral statements at the hearings should notify the FAA that they desire to be heard, indicate the amount of time requested for their initial statements, and indicate their preference for day or evening presentations. Presentations will be scheduled on a first-come-first-served basis, as time may permit.

Requests to be heard or to receive additional information should be made as follows:

For the hearings at Los Angeles, Calif., write or call:

Public Affairs Officer, Western Region (AWE-5), Federal Aviation Administration, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009; or telephone 213-536-6431.

For the hearings at Kansas City, Mo., write or call:

Public Affairs Officer, Central Region (ACE-5), Federal Aviation Administration, Room 1548 Federal Office Building, 601 East Twelfth Street, Kansas City, Mo. 64106; or telephone 816-374-5440.

For the hearings at Washington, D.C., write or call:

Assistant Administrator for Public Affairs (APA-1), Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; or telephone 202-426-3883.

Written Comments Invited

In addition to materials presented at the hearing, persons not participating in the hearings are invited to submit written comments on the control tower discontinuance policy in accordance with the notice published in the FEDERAL REGISTER on September 1, 1977. Such communications should be addressed to:

Federal Aviation Administration, Director, Office of Aviation System Plans, ASP-1, 800 Independence Avenue SW., Washington, D.C. 20591. Attention: Tower Discontinuance Policy Proceedings.

The closing date for submitting written comments is October 15, 1977. All comments will be available for examination both before and after the closing date for comments.

Scope of Inquiry

The notice, regarding the FAA's policy formulation for tower discontinuance standards, identifies five potential options and their implications. Those policy options are as follows:

1. Continue Federal operation of all (425) existing towers.

2. Cease operation of 8 towers meeting existing discontinuance criteria.

3. Cease operation of all (73) towers at which there is a net operating loss.

4. Cease operation of a portion (35 to 40) of the towers identified in option number 3.

5. Continue Federal operation of all noneconomic towers until fiscal year 1980 to give state or local interests an opportunity to assume responsibility.

The notice presents anlayses of the respective options and contains the material that is the subject of these public hearings. While all comments are of interest, the FAA specifically invites statements or comments regarding the policy options in terms of the specific alternatives stated in the notice.

Before taking final action regarding its control tower policy, the FAA will consider the statements presented at the hearings and all written comments submitted.

Availability of Transcripts

Transcripts of each hearing will be made and anyone may purchase copies from the reporter. A transcript of each hearing will be available for examination in the office of the Director, Office of Aviation System Plans, Room 507C, 800 Independence Avenue SW., Washington, D.C.

Issued in Washington, D.C., on September 7, 1977.

DUANE W. FREER,
Associate Administrator for Policy Development and Review (Acting).

[FR Doc 77-26986 Filed 9-14-77;8:45 am]

Materials Transportation Bureau

EXEMPTION APPLICATIONS

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of applications for exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Operations of the Materials Transportation Bureau has received the applications described herein.

DATES: Comments by October 17, 1977.

ADDRESSED TO: Section of Dockets, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION: Complete copies of the applications are available for inspection and copying at the Public Docket Room, Office of Hazardous Materials Operations, Department of Transportation, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C.

Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

NEW EXEMPTIONS

Application No.	Applicant	Regulation(s) affected	Nature of application
7822-N	Air Products & Chemicals Inc., Allentown, Pa.	49 CFR 173.315(a)(1)	To authorize shipment of pressurized liquid helium in non-DOT insulated portable tanks. (modes 1, 3)
7823-N	Allied Chemical Corp., Morristown, N.J.	49 CFR 178.61-5, 173.246.	To authorize shipment of iodine pentafluoride in non-DOT cylinders complying with DOT 4BW with certain exceptions. (modes 1, 2, 3)
7824-N	Petrolite Corp., St. Louis, Mo.	49 CFR 173.119(a)(26).	To authorize shipment of flammable liquids n.o.s. in a marine portable tank complying with 46 CFR Part 64. (modes 1, 3)
7825-N	Process Engineering Inc., Plaistow, N.H.	49 CFR 173.315	To authorize shipment of liquid carbon monoxide in non-DOT tank motor vehicle. (mode 1)
7826-N	Stanford Research Institute, Menlo Park, Calif.	49 CFR 173.328	To authorize a one-time shipment of a poison flammable gas in a ice packed glass flask/metal overpacked/wooden box overpackaging. (mode 1)
7827-N	Barnangeen AB, Stockholm, Sweden.	49 CFR 173.163	To authorize bulk shipment of sodium chlorate in a modified 18O freight container. (modes 1, 2, 3)
7828-N	Alaska International Air, Fairbanks, Alaska.	49 CFR 172.101, 175.3	To authorize shipment of up to 23,800 lbs of LPG in DOT 51 portable tanks by aircraft. (mode 4)
7829-N	Myers Drum Co., Los Angeles, Calif.	49 CFR 173.119(b), Part 173 subpt. F	To authorize the manufacture, marking, and selling of a non-DOT polyethylene pail for shipping flammable liquids and corrosive liquids. (Modes 1, 2, and 3.)
7830-N	Orval Tank Containers, Paris, France.	49 CFR Part 173, Subpts. D, E, F, and H.	To authorize shipment of IMCO class 2 commodities in non-DOT portable tanks. (Modes 1, 2, and 3.)
7831-N	Transcontinental Fertilizer Co., Philadelphia, Pa.	49 CFR 173.182, 176.410, 176.415.	To authorize bulk shipment of ammonium nitrate fertilizers in nonrigid woven polypropylene containers. (Modes 1, 2, and 3.)
7832-N	U.S. Energy Research & Development Administration, Washington, D.C.	49 CFR 173.315, 173.316.	To authorize shipment of liquid neon and deuterium in a modified cryogenic tank motor vehicle. (Mode 1.)
7833-N	Corning Glass Works, Corning, N.Y.	49 CFR 173.365(a)(2)	To authorize shipment of arsenic pentoxide, gross weight 580 lb., in drums built to DOT 37A requirements except for marking. (Mode 1.)

This notice of receipt of applications for new exemptions is published in accordance with Section 107 of the Hazardous Materials Transportation Act (49 CFR U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on September 7, 1977.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Operations.

EXEMPTION APPLICATIONS

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of Applications for Renewal of Exemption or Application to Become a Party to an Exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Operations of the Materials Transportation Bureau has received the applications described herein. Normally, the modes of transportation would be identified and the nature of application would be described, as in past publications. However, this notice is abbreviated to expedite docketing and public notice. These applications have been separated from the new applications for exemptions to facilitate processing applications awaiting disposition.

DATES: Comments by September 30, 1977.

ADDRESSED TO: Section of Dockets, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION: Complete copies of the applications are available for inspection and copying at the Public Docket Room, Office of Hazardous Materials Operations, Department of Transportation, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C.

National Highway Traffic Safety Administration

FORD MUSTANG AND MERCURY COUGAR DEFECT INVESTIGATION

Public Proceeding Regarding Adequacy of Manufacturer's Notification Campaign on Seat Back Failures

Pursuant to Section 156 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1416) the Admin-

V 42 179 SEP 15 77 UMI

istrator has granted the petitions of Austin F. Stevens of Redwood City, Calif., and Charles Arena of New York City, N.Y., for a hearing to determine whether Ford Motor Co., has reasonably met its obligations to notify owners of and remedy safety-related defects in driver bucket seats in 1968 and 1969 model Ford Mustangs and Mercury Cougars.

The defect exists in the inboard hinge pin of the driver seat. The driver seat back swivels around this pin when the seat back is tilted forward to permit access to the rear compartment of the vehicle. The defect manifests itself when the pin breaks, permitting the seat back to rotate rearwards in a clockwise direction. When this happens, the driver can fall into the rear compartment and lose visibility of the road ahead and control of the vehicle. Accidents and injuries can and have occurred as a result of seat pin failure.

In August 1975 the National Highway Traffic Safety Administration ordered Ford to recall the 1968 and 1969 Mustangs and Cougers. Ford refused, and the agency immediately sought enforcement of its order in Federal district court. On October 20, 1976, Judge George Hart, U.S. District Court for the District of Columbia, ordered Ford to notify owners of and remedy the defect in the Mustangs and Cougars. Ford then sought and obtained a stay of the District Court's order pending an appeal it filed with the U.S. Court of Appeals, District of Columbia Circuit.

After some initial proceedings in the Court of Appeals, Ford on March 21, 1977, decided to recall the cars pursuant to statutory requirements. On March 25, 1977, Ford notified the agency of its decision and in late April and early May commenced its campaign.

Since that time the agency has received a large number of consumer complaints alleging that adequate quantities of replacement parts designed for the campaign were unavailable at local dealerships. Other information received by the agency indicates that problems exist with respect to dealers requiring inspection of the defective seat prior to repair and owners of the affected vehicles being directed to dealerships many miles from their homes if they wish to obtain the required repairs.

The agency has queried Ford twice about these problems, and the manufacturer's responses have been unsatisfactory.

An initial public proceeding will be held at 10 a.m., October 4, 1977, in Room 4234, Department of Transportation Headquarters, 400 Seventh Street SW., Washington, D.C. 20590, at which any interested person (including the manufacturers) may make oral (as well as written) presentations of data, views, and arguments on the question of whether Ford has reasonably met its obligation to notify owners, purchasers, and dealers of a safety-related defect under 15 U.S.C. 1411, and to remedy such defect under 15 U.S.C. 1414. Interested persons are invited to participate through written or oral presentations. A transcript will be kept and exhibits may be accepted. There will be no cross examination of witnesses. Persons who wish to make oral presentations are required to notify Mrs. Nancy Martus, Office of Defects Investigation, National Highway Traffic Safety Administration, Washington, D.C. 20590 (202-426-2850) before the close of business on September 30, 1977.

(Sec. 9 Pub. L. 89-670, 80 Stat. 931 (49 U.S.C. 1657); Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); Sec. 102, Pub. L. 93-492 (Sec. 156), 88 Stat. 1470 (15 U.S.C. 1416); delegation of authority at 49 CFR 1.50.)

Issued on September 8, 1977.

JOAN CLAYBROOK,
Administrator.

DEPARTMENT OF THE TREASURY

Customs Service

COLUMBUS, NEW MEXICO, CUSTOMS PORT OF ENTRY

Change in Hours of Service

AGENCY: United States Customs Service, Department of the Treasury

ACTION: Notice of change in hours of service

SUMMARY: This notice announces a reduction in the hours of service at the Customs port of entry at Columbus, N. Mex., from the current 24 hours a day to 16 hours a day. The new hours of service will be from 8:00 a.m. to Midnight. This action is being taken because the traffic at the port between the hours of Midnight and 8 a.m. does not warrant providing service during those hours. The reduction in the hours of service will permit the more effective use of Customs manpower.

DATES: The new hours of service will become effective September 30, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert Schenarts, Operations Officer, Inspection and Control Division, United States Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229 (202-566-8151).

SUPPLEMENTARY INFORMATION: Section 1.7 of the Customs Regulations (19 CFR 1.7) requires that each Customs office be open for business between the hours of 8:30 a.m. and 5 p.m. on all days of the year except Saturdays, Sundays, and national holidays. The regulations further provide that Customs services required to be performed outside a Customs office shall be furnished between the hours of 8:00 a.m. and 5:00 p.m. Many Customs ports of entry regularly provide service during hours in addition to those specified in the regulations.

The Customs port of entry at Columbus, N. Mex. (Region VI), has been open 24 hours a day. However, the Regional Commissioner of Customs for Customs Region VI has determined that the volume of traffic through that port between the hours of Midnight to 8 a.m. does not warrant providing regular service during those hours. Therefore, regular service during those hours will be discontinued effective September 30, 1977. Beginning on that date, the hours of service at the Customs port of entry at Columbus, N. Mex., will be from 8 a.m. to Midnight each day. The reduced hours of service will permit better utilization of Customs manpower and will reduce the cost of Customs operations at the port.

Dated: September 12, 1977.

ROBERT E. CHASEN,
Commissioner of Customs.

INTERSTATE COMMERCE COMMISSION

[Notice No. 480]

ASSIGNMENT OF HEARINGS

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 22301 (Sub-No. 24), Sioux Transportation Co., Inc. now assigned September 8, 1977, at Omaha, Nebr., is canceled, application dismissed.

MC 4405 (Sub-No. 551), Dealers Transit, Inc., now assigned September 15, 1977, in Dallas, Tex. is cancelled, application dismissed.

MC-C 9684, Carl R. Rieber, Inc., Trans-Bridge Lines, Inc., now assigned October 17, 1977, at Philadelphia, Pa., will be held in U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Streets.

MC 142881 (Sub-No. 2), Rexford C. Greer, d.b.a. American Truck Stop now assigned October 18, 1977, at Philadelphia, Pa., will be held in U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Streets.

MC 142881 (Sub-No. 1), Rexford C. Greer, d.b.a. American Truck Stop, now assigned October 19, 1977, at Harrisburg, Pa., will be held in Room No. 392, Federal Building, 228 Walnut Street.

MC 143050, C&M Express, Inc., now assigned October 18, 1977, at Baltimore, Md., will be held in Room G-30, Federal Building, 31 Hopkins Plaza.

MC 143059 (Sub-No. 1), Mercer Water & Sewer Transportation Co., now being assigned September 21, 1977, at the Offices of the Interstate Commerce Commission in Washington, D.C.

MC 4405 (Sub-No. 547), Dealers Transit, Inc., now assigned September 15, 1977, at Dallas, Tex., is canceled and application dismissed.

MC 142614, Van Rees Trucking, Inc., now assigned September 12, 1977, at Omaha, Nebr., is canceled, application dismissed.

MC-F-13140, Marty's Express, Inc.—Purchase—Kruse Trucking Co. and MC 39249 (Sub-No. 19), Marty's Express, Inc., now assigned October 3, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Street.

MC 141776 (Sub-No. 4), Foodtrain, Inc., now assigned October 4, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut St.

MC 142785 (Sub-No. 1), Brotherly Love Express, Inc., now assigned October 5, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Street.

MC 142672 (Sub-No. 3), David Beneux Produce and Trucking, Inc., and MC 142672 (Sub-No. 4), David Beneux Produce and Trucking, Inc., now assigned October 6, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Street.

MC 117119 (Sub-No. 632), Willis Shaw Frozen Express, Inc., now assigned October 7, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Street.

MC 133566 (Sub-No. 89), Gangloff & Downham Trucking, Inc., now assigned October 7, 1977, at Philadelphia, Pa., will be held in the U.S. Customs Court Room, 3d Floor, U.S. Custom House, Second and Chestnut Street.

FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 12, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protest to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed by September 30, 1977.

FSA No. 43430.—*Joint Water-Rail Container Rates—Orient Overseas Container Line, Inc.* Filed by Orient Overseas Container Line, Inc. (No. 7), for itself and interested rail carriers. Rates on general commodities, between ports in Hong Kong, Taiwan, Japan, Korea, Philippines, Singapore, Thailand, and Malaysia, and rail carriers terminals on the United States Atlantic and Gulf Coast.

Grounds for relief—Water competition.

Tariffs.—The Trans-Pacific Freight Conference of Japan/Korea Eastbound tariff No. 1, I.C.C. No. 1, and Orient Overseas Container Line, Inc., tariffs Nos. 1, 2, 4, and 7, I.C.C. Nos. 1, 2, 3, and 7, F.M.C. Nos. 11, 29, 37, and 48, respectively. Rates are published to become effective on October 9, 1977.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 222]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission by October 17, 1977. Failure seasonably to file a protest will be construed as a waiver of oppostion and participation in the proceeding. A protest must be

V 42 179
SEP 15 77
UMI

served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of proposed transfer.

No. MC-FC-77275 filed August 22, 1977. Transferee: PAUL YATES, INC., 6601 West Orangewood, Glendale, Ariz. 85301. Transferor: System Reefer Service, Inc., 4614 Lincoln Avenue, Cypress, Calif. 90630. Applicants' representative: Edward N. Button, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC 133097 (Sub-No. 15), issued October 12, 1976, as follows: foodstuffs, related advertising media, materials, equipment, and supplies used in the preparation and serving of foods in restaurants or commissaries between Washington, D.C., on the one hand, and, on the other, points in New Mexico, Arizona, and California. The operations authorized are limited to a transportation service to be performed under a continuing contract, or contracts, with Fairfield Farm Kitchens, Washington, D.C. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77280 filed August 22, 1977. Transferee: WABASH VALLEY VAN & STORAGE COMPANY, INC., doing business as ACME VAN & STORAGE, 115 Shelby Street, Vincennes, Ind. 47591. Transferor: Robert O. Michels and Jerry D. Flynn, doing business as Acme Van & Storage Co., 2237 Locust Street, Terre Haute, Ind. 47807. Applicants' representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 47204. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 35436 issued October 1, 1975, as follows: household goods as defined by the Commission, between Terre Haute, Ind., and points within 15 miles thereof, on the one hand, and, on the other, points in Tennessee, and Wisconsin. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77281 filed August 25, 1977. Transferee: GARY J. WARNER, doing business as WARNER WAREHOUSING CO., 180 East Mill Street, Marion, Ohio 43302. Transferor: Merchants Tansfer and Storage Co. Address: Same as Transferee. Applicants' representative: Marin J. Leavitt, 22375 Haggerty Rd., P.O. Box 400, Northville, Mich. 48167. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 10797 issued March 20, 1951, as folows: Machinery parts, from Marion, Ohio to points in Indiana, those in the lower peninsula of Michigan, that part of Illinois east of U.S. Highway 67 and South of U.S. Highway 34, that part of Pennsylvania West of U.S. Highway 119 and South of U.S. Highway 422, and those in West Virginia West of U.S. Highway 19 and north of U.S. Highway 50, including points on the indicated portions of the highways specified; Fabricated steel, from Marion, Ohio, to Lawrenceburg, Ind., points in Campbell and Kenton Counties, Ky., and those in that part of Indiana, South of Indiana Highway 26, East of U.S. Highway 31, and North of U.S. Highway 40, including points on the indicated portions of the highways specified; and household goods, as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, between Marion, Ohio, on the one hand, and, on the other points in Pennsylvania, West Virginia, Indiana, Kentucky, and those in the lower peninsula of Michigan. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a (b).

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc.77-26015 Filed 9-14-77;8:45 am]

[Notice No. 114TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 9, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 61403 (Sub-No. 246TA), filed August 26, 1977. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Hwy. 11W, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox, P.O. Box 969, Kingsport, Tenn. 37662. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude cottonseed oil*, in bulk, in tank vehicles, from Montgomery, Ala., to Cincinnati Milacron Chemicals, Inc., at or near Reading, Ohio, for 180 days. [No. 36602]

NEBRASKA INTRASTATE FREIGHT RATES AND CHARGES—1977

Petition for Investigation of Intrastate Freight Rates and Charges Within State of Nebraska

Present: Charles L. Clapp, Commissioner, to whom this matter has been assigned for action.

By joint petition authorized under section 13(3) of the Interstate Commerce Act, filed May 31, 1977, petitioners, five common carriers by railroad[1] subject to Part I of the Interstate Commerce Act, and also operating in intrastate commerce in the State of Nebraska, request that this Commission institute an investigation of their Nebraska intrastate freight rates and charges, under section 13 and 15a of the Interstate Commerce Act, wherein they will seek an order authorizing them to increase such rates and charges in the same amounts approved for interstate application by this Commission in Ex Parte No. 305–RE.

By tariff filed October 29, 1975, with the Nebraska Public Service Commission, petitioners sought to make the increases granted in Ex Parte No. 305–RE applicable on Nebraska intrastate traffic effective immediately. After hearing, the Commission, by order of April 26, 1976, denied the increases, and after further hearing again denied the increases by order of November 30, 1976, and finally denied further rehearing or reconsideration by order of February 8, 1977.

Petitioners contend that present intrastate freight rates from, to, and within Nebraska are just and reasonable and that the proposed intrastate rates will not exceed a just and reasonable level; that transportation conditions for the intrastate transportation of recyclables in Nebraska are not more favorable than for interstate traffic; that traffic moving under present Nebraska intrastate rail freight rates and charges fails to provide its fair share of earnings; and, that the present Nebraska intrastate rail freight rates and charges create undue and unreasonable advantage, preference, and prejudice between persons and localities in intrastate commerce within Nebraska and interstate and foreign commerce, and result in undue, unreasonable, and unjust discrimination against and an undue burden on interstate commerce in violation of section 13 and 15a of the Interstate Commerce Act, among others, to the extent that they do not include the increases authorized in Ex Parte No. 305–RE.

Under section 13 of the Interstate Commerce Act, this Commission may institute an investigation, into the lawfulness of intrastate rail freight rates and charges for the purpose of adjusting such rates and charges to those charged on similar traffic moving in interstate or foreign commerce. This Commission may act not withstanding the laws or constitution of any state.

Wherefore, and good cause appearing therefor:

It is ordered, that the petition be, and it is, hereby granted; and that an investigation, under sections 13 and 15a of the Interstate Commerce Act, be, and it is, hereby instituted to determine whether the Nebraska intrastate rail freight rates in any respect cause any unjust discrimination against or any undue burden on interstate or foreign commerce, or cause undue or unreasonable advantage, preference, or prejudice as between interstate or foreign commerce, or are otherwise unlawful, by reason of the failure of such rates and charges to include the full increases authorized for interstate application by this Commission in Ex Parte No. 305–RE; and to determine if any rates or charges, or maximum or minimum charges, or both, shall be prescribed to remove any unlawful advantage, preference, discrimination, undue burden, or other violation of law, found to exist.

It is further ordered, that all common carriers by railroad operating in the State of Nebraska, subject to the jurisdiction of this Commission, be, and they are, hereby made respondents in this proceeding.

It is further ordered, that all persons who wish to participate in this proceeding and to file and receive copies of pleadings shall make known that fact by notifying the Office of Proceedings, Room 5342, Interstate Commerce Commission, Washington, D.C. 20423, on or before 15 days from the FEDERAL REGISTER publication date. Although individual participation is not precluded, to conserve time and to avoid unnecessary expense, persons having common interests should endeavor to consolidate their presentations to the greatest extent possible. The Commission desires participation of only those who intend to take an active part in the proceeding.

It is further ordered, that as soon as practicable after the date of indicating a desire to participate in the proceeding has passed, the Commission will serve a list of names and addresses of all persons upon whom service of all pleadings must be made and that thereafter this proceeding will be assigned for oral hearing or handling under modified procedure.

And it is further ordered, that a copy of this order be served upon each of the petitioners and respondents herein; that the State of Nebraska be notified of the proceeding by sending copies of this order of the instant petition by certified mail to the Governor of the State of Nebraska and to the Nebraska Public Service Commission; and that further notice of this proceeding be given to the public by depositing a copy of this order in the Office of the Secretary of the Interstate Commerce Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

Correction

In FR Doc. 77-25320 appearing at page 44079 in the issue of Thursday, September 1, 1977, the following changes should be made:

1. In the second column on page 44085, "No. MC 60687" should read "No. MC 60987".

2. In the third column on page 44087, "No. MC 94350" should read "No. MC 95540".

3. In the third column on page 44093, the first number reading "No. MC 11955" should read "No. MC 119550".

4. In the second column on page 44099, "No. MC 139369" should read "No. MC 139360".

[Volume No. 34]

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

SEPTEMBER 9, 1977.

The following petitions seeks modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the FEDERAL REGISTER notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission October 17, 1977. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 133590 M1 (Notice of filing of petition to broaden territorial description) filed July 15, 1977. Petitioner: WESTERN CARRIERS, INC., 288 Franklin St., Worcester, Mass. 01604. Petitioner's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, Mass. 01103. Petitioner holds a motor *contract carrier* Permit in No. MC 133590 issued April 26, 1971, authorizing transportation, as pertinent, over irregular routes, of *Pork, pork products, and pork by-products* (except commodities in bulk and hides) (1) From the plantsite and storage facility of Western Pork Packers, Inc., a New York corporation, at Bronx, N.Y., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, Pennsylvania (except Pittsburgh), Rhode Island, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized; and (2) from the plantsite and storage facility of Western Pork Packers, Inc., a Massachusetts corporation, at Worcester, Mass., to points in Connecticut, Delaware, Maryland, New Jersey, New York, Pennsylvania (except Pittsburgh), Rhode Island, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized. Restriction: The operation authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Western Pork Packers, Inc., a New York corporation, at Bronx, N.Y., and Western Pork Packers, Inc., a Massachusetts corporation, at Worcester, Mass.,

By the instant petition, petitioner seeks to change the territorial description to: between the plantsite and storage facilities of Western Pork Packers, Inc., a New York corporation, at Bronx, N.Y., and Western Pork Packers, Inc., a Massachusetts corporation, at Worcester, Mass., on the one hand, and, on the other, points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana.

No. MC 136343 and (Sub-Nos. 5 and 33) M1 (notice of filing of petition to add an additional shipper) filed July 26, 1977. Petitioner: MILTON TRANSPORTATION, INC., R.D. No. 1, Box 355, Milton, Pa. 17847. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner holds motor *common carrier* Certificates in No. 136343 and (Sub-Nos. 5 and 33), issued November 10, 1975, May 21, 1976, and March 28, 1977, respectively, authorizing transportation (1) in No. MC 136343, as pertinent, over irregular routes, of: *Printing paper, gummed paper, gummed paper sealing tape* and *paper backed with aluminum foil*, from the plantsite of St. Regis Paper Co., located at Troy, Ohio, to points in Pennsylvania, New Jersey, New York, and Connecticut, restricted to the transportation of shipments originating at the specified origins and destined to the designated destinations; (2) in No. MC 136343 (Sub-No. 5) over irregular routes, of: *Printing paper and equipment and supplies* used or useful in the manufacture and sale of aluminum foil (except commodities in bulk), from points in New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Pennsylvania, Maryland, Maine, and the District of Columbia, to the facilities of St. Regis Paper Co. located at Troy, Ohio, restricted to the transportation of shipments originating at the named origins and destined to the named destinations; (3) in No. MC 136343 (Sub-No. 33) over irregular routes, of: *Printing paper, gummed paper, paper backed with aluminum foil*, and *gummed paper sealing tape*, from the plantsite of St. Regis Paper Co., located at or near Troy, Ohio, to points in Massachusetts, Rhode Island, Maryland, Virginia, and the District of Columbia. By the instant petition, petitioner seeks to add Brown Bridge Mills, Inc., of Troy, Ohio as an additional shipper to the above authority.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission by October 17, 1977. Such pleading shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 118882 (Sub-No. 3) (Republication) (Notice of Filing of Petition for Declaratory Order) filed December 30, 1977, published in FEDERAL REGISTER issue of February 24, 1977, and republished this issue. Petitioner: JOEL LAMBERT, doing business as, JOE LAMBERT TRUCKING SERVICE, 715 Fox Avenue, Harrisville, W. Va. 26362. Petitioner's representative: John M. Friedman, 2930 Putnam Avenue, Hurricane, W. Va. 25526. An order of the Commission, Review Board Number 2, dated August 8, 1977, and served August 23, 1977, finds that the present and future public convenience and necessity require modification of petitioner's Certificate No. MC 118882 (Sub-No. 3), issued January 6, 1977, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *Coal*, in bulk, in dump vehicles, (1) from points in that part of West Virginia on, east, and north of a line beginning at the Pennsylvania-West Virginia State line and extending south along U.S. Highway 19 to Sutton, W. Va., thence along West Virginia Highway 4 to Clendenin, W. Va., thence along U.S. Highway 119 to junction U.S. Highway 60 at Charleston, W. Va. thence east along U.S. Highway 60 to the Virginia-West Virginia State line to (a) points in that part of Ohio on and bounded by a line beginning at Bellaire, Ohio, and extending west along Interstate Highway 70 to junction Interstate Highway 77, thence north along Interstate Highway 77 to junction U.S. Highway 36, thence west along U.S. Highway 36 to junction Ohio Highway 16, thence south along Ohio Highway 16 to junction Ohio Highway 60, thence south along Ohio Highway 60 to junction Interstate Highway 70, thence west along Interstate Highway 70 to junction U.S. Highway 36, thence west along U.S. Highway 36 to junction Ohio Highway 16, thence south along Ohio Highway 16 to junction Ohio Highway 60, thence south along Ohio Highway 60 to junction Interstate Highway 70, thence west along Interstate Highway 70 to junction U.S. Highway 23, thence south along U.S. Highway 23 to Portsmouth, Ohio, thence east along U.S. Highway 52 to junction Interstate Highway 64 at Huntington, W. Va., restricted to the transportation of traffic which originated at points in the origin territory in (1) above.

NOTE.—The purpose of the instant republication is to indicate the actual authority granted.

No. MC 134238 (Sub-No. 9) (Republication) filed May 27, 1975, published in the FEDERAL REGISTER issue of June 26, 1975, and republished this issue. Applicant: GENE'S, INC., 10115 Brookville-Salem Road, Clayton, Ohio 45315. Applicant's representative: Paul F. Berry, 8 East Broad Street, Ninth Floor, Columbus, Ohio 43215. An Order of the Commission, Division 1, Acting as an Appellate Division, dated August 24, 1977, and served September 1, 1977, finds on reconsideration, that operation by applicant in interstate or foreign commerce as a *contract carrier* by motor vehicle, over irregular routes of (1) *Ice cream, ice cream novelties*, and *water ices*, in vehicles equipped with mechanical refrigeration, (a) from the storage facilities of The Kroger Co., at or near Cincinnati, Ohio, to St. Louis, Mo., and Little Rock, Ark., and (b) from the warehouse of Home Dairy Co., at Berne, Ind., to St. Louis, Mo., Little Rock, Ark., Atlanta, Ga., Peoria, Ill., Louisville and Lexington, Ky., Detroit and Grand Rapids, Mich., Cleveland, Columbus, and Cincinnati, Ohio, Pittsburgh and Evans City, Pa., Nashville and Memphis, Tenn., Roanoke, Va., and Charleston, W. Va.; and (2) *returned shipments* of the commodities named in (1) above, in the reverse direction, under a continuing contract or contracts with The Kroger Co., of Cincinnati, Ohio, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if not representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1239 (Sub-No. 9), filed August 1, 1977. Applicant: PONY TRUCKING, INC., 501 State Route 7, Steubenville, Ohio 43952. Applicant's representative: Maxwell A. Howell, 1100 Investment Building 1511 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over *irregular routes*, transporting *iron and steel, iron and steel products, titanium and titanium products*, between Midland, Pa., on the one hand, and, on the other, points in Connecticut, Illinois, Indiana, Michigan, Massachusetts, New Jersey, New York, Ohio and Wisconsin, under a continuing contract or contracts with Crucible, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Pittsburgh, Pa.

No. MC 2253 (Sub-No. 75), filed August 3, 1977. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: Edward G. Villalon, Suite 1032, Pennsylvania Building, Pennsylvania Ave. and 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Atlanta, Georgia and Knoxville, Tennessee, serving Knoxville and Chattanooga, Tennessee for purposes of joinder only: From Atlanta over Interstate Highway 75 to Knoxville, and return over the same route. From Atlanta over U.S. Highway 41 to junction U.S. Highway 411, thence over U.S. Highway 411 to junction U.S. Highway 129, thence over U.S. Highway 129 to Knoxville, and return over the same route. (2) Between Chattanooga, Tennessee and Chicago, Illinois, serving Chattanooga, Tennessee, Louisville, Kentucky, Indianapolis, Indiana and the junction of Interstate Highway 65 and U.S. Highway 30 for purposes of joinder only: From Chattanooga over Interstate Highway 24 to junction Interstate Highway 65, thence over Interstate Highway 65 to junction Interstate Highway 80, thence over Interstate Highway 80, to junction Interstate Highway 94, thence over Interstate Highway 94 to Chicago, and return over the same route.

(3) Between Knoxville, Tennessee and Cincinnati, Ohio, serving Knoxville, Tennessee, Lexington, Kentucky, and the junction of U.S. Highway 25E and Interstate Highway 75 for purposes of joinder only: From Knoxville over Interstate Highway 75 to junction Interstate Highway 71, thence over Interstate Highways 71 and 75 to Cincinnati, and return over the same route. (4) Between Lexington,

V 42 I 179 SEP 15 77 UMI

Kentucky and Louisville, Kentucky, serving Lexington and Louisville, Kentucky for purposes of joinder only: From Lexington over Interstate Highway 64 to Louisville, and return over the same route. (5) Between Louisville, Kentucky and Cincinnati, Ohio, serving Louisville, Kentucky for purposes of joinder only: From Louisville over Interstate Highway 71 to junction Interstate Highway 75, thence over Interstate Highways 71 and 75 to Cincinnati, and return over the same route. (6) Between Mercer, Ohio and junction U.S. Highway 30 and Interstate Highway 65, serving the junction of U.S. Highway 30 and Interstate Highway 65 for purposes of joinder only: From Mercer over U.S. Highway 33 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Interstate Highway 65, and return over the same route. (7) Between Charleston, West Virginia and Indianapolis, Indiana, serving Indianapolis, Indiana for purposes of joinder only: From Charleston over Interstate Highway 64 to junction U.S. Highway 35, thence over U.S. Highway 35 to junction Interstate Highway 75, thence over Interstate Highway 75 to junction Interstate Highway 70, thence over Interstate Highway 70 to Indianapolis, and return over the same route. (8) Between Charleston, West Virginia and Parkersburg, West Virginia, serving junction Interstate Highway 77 and U.S. Highway 33 for purposes of joinder only: From Charleston over Interstate Highway 77 to Parkersburg, and return over the same route.

(9) Between Chillicothe, Ohio and Mercer, Ohio: From Chillicothe over U.S. Highway 23 to Columbus, Ohio, thence over U.S. Highway 33 to Mercer, and return over the same route. (10) Between Cincinnati, Ohio and Indianapolis, Indiana, serving Indianapolis, Indiana for purposes of joinder only: From Cincinnati over Interstate Highway 74 to Indianapolis, and return over the same route. (11) Between Winston-Salem, North Carolina and Charleston, West Virginia, serving the junction of Interstate Highways 81 and 77 for purposes of joinder only: From Winston-Salem over U.S. Highway 52 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction Interstate Highway 77, thence over Interstate Highway 77 to Charleston, and return over the same route. (12) Between Greenville, South Carolina and Asheville, North Carolina: From Greenville over U.S. Highway 25 to Asheville, over the same route. (13) Between Spartanburg, South Carolina and junction Interstate Highways 26 and 40 near Asheville, North Carolina: From Spartanburg over U.S. Highway 29 to junction Interstate Highway 26, thence over Interstate Highway 26 to junction Interstate Highway 40 near Asheville, and reutrn over the same route. (14) Between Asheville, North Carolina and Knoxville, Tennessee, serving Knoxville, Tennessee and junction Interstate Highways 40 and 81 for purposes of joinder only: From Asheville over Interstate Highway 40 to Knoxville, and return over the same route. (15) Between Asheville, North Carolina and Winston-Salem, North Carolina: From Asheville over Interstate Highway 40 to Winston-Salem, and return over the same route.

(16) Between junction Interstate Highways 81 and 40 near Dandridge, Tennessee and junction Interstate Highways 81 and 77 near Wytheville, Virginia, serving junction Interstate Highways 81 and 40 near Dandridge, Tennessee, junction Interstate Highways 81 and 77 near Wytheville, Virginia, junction Interstate Highway 81 and U.S. Highway 25E, and junction Interstate Highway 81 and U.S. Highway 23 for purposes of joinder only: From junction Interstate Highways 81 and 40 near Dandridge, over Interstate Highway 81 to junction Interstate Highway 77 near Wytheville, and return over the same route. (17) Between Asheville, North Carolina and junction U.S. Highway 23 and Interstate Highway 81, serving junction U.S. Highway 23 and Interstate Highway 81 for purposes of joinder only: From Asheville over U.S. Highway 23 to junction Interstate Highway 81, and return over the same route. (18) Between Charlotte, North Carolina and junction Interstate Highways 77 and 81 at or near Wytheville, Virginia, serving junction Interstate Highways 77 and 81 at or near Wytheville, Virginia for purposes of joinder only: From Charlotte over Interstate Highway 77 to junction Interstate Highway 81 at or near Wytheville, and return over the same route. (19) Between junction U.S. Highway 25E and Interstate Highway 81 near Morristown, Tennessee and junction U.S. Highway 25E and Interstate Highway 75 near Corbin, Kentucky, serving junction U.S. Highway 25E and Interstate Hghwiay 81 near Morristown, Tennessee and junction U.S. Highway 25E and Interstate Highway 75 near Corbin, Kentucky for purposes of joinder only: From junction U.S. Highway 25E and Interstate Highway 81 near Morristown, over U.S. Highway 25E to junction Interstate Highway 75 near Corbin, and return over the same route. (20) Between Pittsburgh, Pennsylvania and Beckley, West Virginia, serving the junction of U.S. Highways 60 and 19 for purposes of joinder only: From Pittsburgh over U.S. Highway 19 to junction Interstate Highway 79, thence over Interstate Highway 79 to junction U.S. Highway 19 approximately 6 miles south of Sutton, West Virginia, thence over U.S. Highway 19 to junction U.S. Highway 60, thence over U.S. Highway 60 to junction U.S. Highway 21/West Virginia Highway 16, thence over U.S. Highway 21/West Virginia Highway 16 to Beckley, and return over the same route.

(21) Between Charleston, South Carolina and Winston-Salem, North Carolina: from Charleston over U.S. Highway 52 to junction U.S. Highway 1, thence over U.S. Highway 1 to junction U.S. Highway 220, thence over U.S. Highway 220 to Greensboro, North Carolina, thence over Interstate Highway 40 to Winston-Salem, and return over the same route. (22) Between Greensboro, North Carolina and junction Interstate Highway 76 and U.S. Highway 30 at or near Breezewood, Pennsylvania, serving Lynchburg, Virginia and junction Interstate Highway 76 and U.S. Highway 30 at or near Breezewood, Pennsylvania for purposes of joinder only: From Greensboro over U.S. Highway 29 to Culpeper, Virginia, thence over U.S. Highway 522 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 76, thence over Interstate Highway 76 to junction U.S. Highway 30 at or near Breezewood, and reutrn over the same route. (23) Between Lynchburg, Virginia and Charleston, West Virginia, serving Lynchburg, Virginia and junction U.S. Highways 19 and 60 for purposes of joinder only: From Lynchburg over U.S. Highway 501 to junction U.S. Highway 60, thence over U.S. Highway 60 to Charleston, and return over the same route. (24) Between Rocky Mount, North Carolina and Lynchburg, Virginia, serving Lynchburg, Virginia for purposes of joinder only: From Rocky Mount over U.S. Highway 64 to junction North Carolina Highway 98, thence over North Carolina Highway 98 to Durham, North Carolina, thence over U.S. Highway 501 to Lynchburg, and return over the same route.

(25) Between junction U.S. Highway 33 and Interstate Highway 77 at or near Ripley, West Virginia and Columbus, Ohio, serving junction U.S. Highway 33 and Interstate Highway 77 at or near Ripley, West Virginia for purposes of joinder only: From junction U.S. Highway 33 and Interstate Highway 77 at or near Ripley over U.S. Highway 33 to Columbus, and return over the same route. (26) Between Durham, North Carolina and Greensboro, North Carolina: From Durham over Interstate Highway 85 to Greensboro, and return over the same route. In connection with routes (1)–(26), serving points in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, Pennsylvania, thence along Pennsylvania Highway 321 to Wilcox, Pennsylvania, thence along U.S. Highway 219 to Somerset, Pennsylvania, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, Pennsylvania, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line and all of carrier's authorized service points in Alabama, Florida, Georgia, North Carolina, South Carolina, West Virginia, Ohio, Indiana, Illinois, and Wisconsin as either intermediate or off-route points. Restrictions: The authority sought in routes (1)–(26) is restricted as follows: (1) Restricted against the transportation of traffic both originating at and destined to points within a single state, except as otherwise authorized. (2) Restricted against the transportation of traffic between points in Florida, on the one hand, and, on the other, points in Georgia, except for purposes of joinder.

(3) Traffic transported between points in Georgia, on the one hand, and, on the other, points in North Carolina and South Carolina (except points within 35 miles of Clover, South Carolina) is restricted to movements to, from, or through points in North Carolina which are both within 30 miles of Charlotte, North Carolina and within 35 miles of Clover, South Carolina. (4) Transportation of traffic between North Carolina, on the one hand, and, on the other, South Carolina is restricted to movements to, from, or through any point in North Carolina which is both within 30 miles of Charlotte, North Carolina and within 35 miles of Clover, South Carolina (except those within 35 miles of Clover, South Carolina). (5) Restricted against the transportation of traffic between points in West Virginia, Ohio, Indiana, Illinois, Wisconsin, and points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, Pennsylvania, thence along Pennsylvania Highway 321 to Wilcox, Pennsylvania, thence along Pennsylvania Highway 219 to Somerset, Pennsylvania, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, Pennsylvania, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line, except as otherwise authorized. (6) This authority shall not be construed as conferring more than one operating right and shall not be severable by sale or otherwise from the other authority contained in Docket No. MC 2253 and Subs thereto.

NOTE: Pursuant to the certificate of Public convenience and necessity issued in Docket No. MC 2253 and Subs thereto, applicant holds authority to serve all points and territories embraced in this application (i.e., no new service points or territories are sought). The purpose of this application is to remove the present requirement that traffic transported between authorized service points in Alabama, Florida, Georgia, North Carolina, and South Carolina, on the one hand, and, on the other, certificated points in Wisconsin, Illinois, Indiana, Ohio, West Virginia, and those in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, Pennsylvania, thence along Pennsylvania Highway 321 to Wilcox, Pennsylvania, thence along U.S. Highway 219 to Somerset, Pennsylvania, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, Pennsylvania, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line move via any point in North Carolina which is both within 30 miles of Charlotte, North Carolina and within 35 miles of Clover, South Carolina. Additionally, applicant seeks to negate its current restriction requiring traffic transported between points in Ohio, on the one hand, and, on the other, carrier's authorized service points in Alabama, Florida, Georgia, North Carolina, and South Carolina to move through Parkersburg, West Virginia. Thus applicant does not seek any new service points or territory, nor does it propose to diminish its presently authorized service territory. If a hearing is deemed necessary, the applicant requests it be held in Charlotte, North Carolina or Washington, D.C.

No. MC 2960 (Sub-No. 17), filed August 4, 1977. Applicant: ENGLAND TRANSPORTATION COMPANY OF TEXAS, a corporation, 2301 McKinney Street, Houston, Tex. 77023. Applicant's representative: E. Larry Wells, P.O. Box 45538, Dallas, Texas 75245. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *wooden pallets and raw materials including corrugated and mixed paper* utilized in the manufacture and processing of roofing materials: From points in Alabama, Louisiana, Mississippi, Texas, Oklahoma, Tennessee, and Kentucky to the plantsite of Elk Roofing Company at Stephens, Arkansas and Elk Roofing Company's storage facilities at East Camden, Arkansas.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Dallas, Texas or Little Rock, Arkansas.

No. MC 11722 (Sub-No. 56), filed August 8, 1977. Applicant: BRADER HAULING SERVICE, INC., P.O. Box 655, Zillah, Washington 98953. Applicant's representative: Philip G. Skofstad, P.O. Box 594, Gresham, Oregon 97030. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Carbonated beverages*, in containers, from Yakima, Washington to points in Oregon and Idaho, and (b) *Empty bottles and cans*, from points in Idaho and Oregon to Yakima, Washington.

NOTE.—Applicant states that this application seeks to convert an existing contract permit to a common carrier Certificate of Public Convenience and Necessity in compliance with the Commission's order in MC 11722, (Sub-No. 52), dated June 2, 1977, to eliminate dual operations. If a hearing is deemed necessary, applicant requests that it be held at Portland, Oreg.

No. MC 13250 (Sub-No. 138), filed August 5, 1977. Applicant: J. H. ROSE TRUCK LINE, INC., P.O. Box 16190, Houston, Tex. 77022. Applicant's representative: James M. Doherty, 500 West Sixteenth Street, P.O. Box 1945, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* from the facilities of Ivy Steel Company, Division of the Ivy Corporation, located at or near Jacksonville, Florida, to points in Florida, Alabama, Georgia, North Carolina, South Carolina, Virginia, Tennessee, Kentucky, Mississippi, Louisiana, Arkansas, Missouri, and Illinois.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Jacksonville, Florida, or Atlanta, Georgia.

No. MC 13845 (Sub-No. 7), filed August 1, 1977. Applicant: William Carl Russell and James Franklin Russell, doing business as, FRANK RUSSELL & SON, 401 S. Ida St., West Frankfort, Ill. 62896. Applicant's representative: William C. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, and mining supplies and equipment therefor, between points in Illinois on and south of Interstate Highway 70, on the one hand, and, on the other, points in Colorado, Utah, and Wyoming.

NOTE.—Applicant has motor contract carrier authority pending in No. MC 134859 (Sub-No. 2) and other subs, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at St. Louis, Mo. or Springfield, Ill.

No. MC 26396 (Sub-No. 153), filed August 1, 1977. Applicant: POPELKA TRUCKING CO., d.b.a. the Waggoners, Box 990, Livingston, Mont. 59047. Applicant's representative: Beth Waggoner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fleshed brine cured hides*, from ports of entry on the international boundary line between the United States and Canada located in Montana, to points in Missouri, Mississippi, Texas, Illinois, Wisconsin, Colorado, and Pennsylvania, restricted to the transportation of traffic in foreign commerce having an immediate prior movement originating in Calgary, Alberta, and Lethbridge, Alberta, Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Billings, Mont.

No. MC 26825 (Sub-No. 16), filed July 11, 1977. Applicant's name: ANDREWS VAN LINES, INC., Seventh and Park Avenue, P.O. Box 1609, Norfolk, Nebr. 68701. Applicant's representative: J. Max Harding, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty household goods shipping containers*, set up or knocked down, between points in the United States, including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary applicant requests it be held at Omaha, Nebr.

No. MC 27817 (Sub-No. 135), filed July 29, 1977. Applicant: H. C. GABLER, INC., R.D. No. 3, P.O. Box 220, Chambersgurg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal roofing and siding, and fabricated metal building products*, from the plant site of the Billy Penn Corp., Division of Penn Supply and Metal Corp., Inc., at Philadelphia, Pa., to points in that part of West Virginia located on and north of U.S. Highway 33, restricted to traffic originating at and destined to the origin and destinations above-named.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 43269 (Sub-No. 66), filed August 4, 1977. Applicant: WELLS CARGO, INC., 1775 East 4th Street, Reno, Nev.

V 42 I 179 SEP 15 77 UMI

89512. Applicant's representative: David N. Inwood, P.O. Box 1511, Reno, Nev. 89505. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except household goods, as defined by the Commission, commodities in bulk, and classes A and B explosives, between Carson City, Nev., and Ridgecrest, Calif., over U.S. Highway 395, serving all intermediate points. Restriction: Restricted against traffic originating at or interlined at points in Los Angeles County, Calif., and destined to points within 4 miles of the California-Nevada state line.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Reno or Carson City, Nev., or Bishop, Calif.

No. MC 44605 (Sub-No. 47), filed July 25, 1977. Applicant: MILNE TRUCK LINES, INC., 2500 West California Avenue, Salt Lake City, Utah 84104. Applicant's representative: Edward J. Hegarty, 100 Bush Street, 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) between Yucca, Ariz., and Kingman, Ariz., from Yucca over Interstate Highway 40 (U.S. Highway 66) to Kingman, and return over the same route, serving all intermediate points; and (2) between Wickenburg, Ariz., and Las Vegas, Nev., from Wickenburg over U.S. Highway 93 to Las Vegas, and return over the same route, serving all intermediate points in Arizona.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Kingman, Ariz., Las Vegas, Nev., or Phoenix, Ariz.

No. MC 47171 (Sub-No. 95), filed August 5, 1977. Applicant: COOPER MOTOR LINES, INC., P.O. Box 4259, Greenville, S.C. 29608. Applicant's representative: Harris G. Andrews, P.O. Box 4259, Greenville, S.C. 29608. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Floor coverings, equipment and supplies* used in the installation, manufacture, and sale of floor coverings from Lyerly, Ga., to points in Connecticut, Delaware, Massachusetts, Maryland, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Virginia, and Washington, D.C.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Columbia, S.C., or Atlanta, Ga.

No. MC 51146 (Sub-No. 515), filed August 8, 1977. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wisc. 54306. Applicant's representative: Wayne Downing (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter, and materials, equipment, and supplies* used in the manufacture, sale, and distribution of printed matter (except commodities in bulk) between Hammond and Indianapolis, Ind.; Versailles and Lexington, Ky.; Taunton, Mass.; Chicago, Ill.; Ossining, N.Y.; and Nashville, Tenn., on the one hand, and, on the other points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 516), filed August 8, 1977. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wisc. 53406. Applicant's representative: Wayne Downing (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing fixtures and fittings, and related equipment*, from Salem and Tiffin, Ohio, to Coldwater, Mich., and points in Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 53965 (Sub-No. 134), filed August 11, 1977. Applicant: GRAVES TRUCK LINE, INC., 2130 South Ohio, Salina, Kans. 67401. Applicant's representative: Larry E. Gregg, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving the construction site and plant of the Phillips Petroleum Co. located 13 miles south of Guymon, Okla., in Hansford County, Tex., as an off-route point in connection with carriers presently authorized regular route operation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Dallas, Tex. Common control may be involved.

No. MC 56679 (Sub-No. 99), filed July 22, 1977. Applicant: BROWN TRANSPORT CORP., 352 University Avenue SW., Atlanta, Ga. 30315. Applicant's representative: John T. Coon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and meat products*, fresh or frozen, from Bartow, Fla., to points in Massachusetts, New York, New Jersey, Louisiana, Mississippi, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C. Common control may be involved.

No. MC 57697 (Sub-No. 9), filed July 29, 1977. Applicant: LESTER SMITH TRUCKING, INC., P. O. Box 16424, Denver, Colo. 80216. Applicant's representative: Howard C. Norton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick and commodities* incidental to the installation thereof, from points in Pueblo and Las Animas Counties, Colo., to points in California, Idaho, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Salt Lake City, Utah. Common control may be involved.

No. MC 59367 (Sub-No. 109), filed August 2, 1977. Applicant: DECKER TRUCK LINE, INC., P.O. Box 915, Fort Dodge, Iowa 50501. Applicant's representative: James M. Hodge, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polyethylene drums*, from Racine, Wis., to Lake View, Iowa.

NOTE.—If a hearing is deemed necessary, applicant requests that the hearing be held at Omaha, Nebr., or Chicago, Ill.

No. MC 60014 (Sub 53), filed August 5, 1977. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Conduit or pipe, cement, containing asbestos fibre and fittings therefor*, from the plantsite of Cement Asbestos Products Co. (subsidiary of ASARCO, Inc.), at or near Ragland, Ala., to points in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 60014 (Sub.-No. 54), filed August 8, 1977. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cementitious wood fiber roof deck panels* from Elberton, Ga., to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or Washington, D.C.

No. MC 71459 (Sub-No. 67), filed August 8, 1977. Applicant: O.N.C. FREIGHT SYSTEMS, Highway 36 West, St. Joseph, Mo. 64502. Applicant's representative: Kirk Wm. Horton, P.O. Box 10280, Palo Alto, Calif. 94303. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Altus, Okla., and Woodward, Okla., serving no intermediate points, from Altus over U.S. Highway 283 to the junction of Oklahoma Highway 34, thence over Oklahoma Highway 34 to Woodward and return over the same route.

NOTE.— Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at San Francisco, Calif., or Washington, D.C.

No. MC 72495 (Sub-No. 17), filed August 5, 1977. Applicant: DON SWART TRUCKING, INC., Box 49, Route 2, Wellsburg, W. Va. 26070. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Granulated slag*, in bulk in dump vehicles, from the plantsite of H. B. Reed & Co., Inc., located at or near Cresap, W. Va., to the plantsite of CertainTeed Corp. at or near Avery, Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 73165 (Sub-No. 412), filed August 5, 1977. Applicant: EAGLE MOTOR LINES, INC., 830 North 33rd Street, Birmingham, Ala. 35202. Applicant's representative: John W. Cooper, Suite 200, Woodward Building, 1927 1st Avenue North, Birmingham, Ala. 35203. Authority is sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Mining equipment*, (2) *attachments and parts of mining equipment*, and (3) *equipment, materials, and supplies used in the manufacture of mining equipment* between the facilities of Reading U.S., Inc., located at or near Orange Park, Fla., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it to be held at either Birmingham, Ala., or Jacksonville, Fla.

No. MC 73165 (Sub-No. 414), filed August 9, 1977. Applicant: EAGLE MOTOR LINES, INC., 830 North 33rd Street, Birmingham, Ala. 35202. Applicant's representative: John W. Cooper, Suite 200, Woodward Building, 1927 1st Avenue North, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from Darlington, S.C., to points in Tennessee, Wisconsin, Illinois, North Carolina, Michigan, Indiana, Kentucky, Georgia, Florida, Virginia, West Virginia, Ohio, Pennsylvania, Maryland, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Delaware, and, (2) *scrap metals* from named states to Darlington, S.C.

NOTE.—If a hearing is deemed necessary, applicant requests it to be held at either Atlanta, Ga., or Birmingham, Ala.

No. MC 82492 (Sub-No. 161), filed August 5, 1977. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., 2109 Olmstead Road, Kalamazoo, Mich. 49003. Applicant's representative: William C. Harris (same address). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk) in vehicles equipped with mechanical refrigeration, from the facilities of Kraft, Inc., located at or near Champaign, Ill., to points in Missouri and Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 82492 (Sub-No. 162), filed August 5, 1977. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., 2109 Olmstead Road, Kalamazoo, Mich. 49003. Applicant's representative: William C. Harris (same address). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionary and confectionary products* (except in bulk) *and advertising and display matter*, moving at the same time in the same vehicle with confectionary and confectionary products, from the plantsite and storage facilities of Charms Co., located at or near Covington, Tenn., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin. Restricted to traffic originating at the named origins and destined to the named destination States.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 83539 (Sub-No. 463), filed August 26, 1977. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce Street, P.O. Box 5976, Dallas, Tex. 75222. Applicants representative: Mr. Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregluar routes, transporting: (1) Mining machinery and equipment; and (2) attachments, parts and accessories, for the commodities named in (1) above, (a) from Monroe, N.C., to points in the United States including Alaska, but excluding Hawaii; and (b) from Monroe, N.C., to ports of entry on the International Boundary Line between the United States and Canada located at all ports of entry, restricted in (2)(b) above, to traffic destined to the Provinces of Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland, Nova Scotia, Saskatchewan, and the Yukon, Canada; and (3) materials, supplies, and equipment (except commodities in bulk), used in the manufacture and distribution of commodities named in (1) and (2) above, from points in the United States (except Alaska and Hawaii) to Monroe, North Carolina.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be consolidated with similar applications, to be held at Washington, D.C.

No. MC 83835 (Sub-No. 145), filed August 8, 1977. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Tex. 75224. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: Iron and steel articles from the facilities of Atlas Steel and Wire located at or near Harahan, La., to points in Alabama, Georgia, Kentucky, Mississippi, Oklahoma, Tennessee, and Texas. Restricted to shipments originating at the facilities of Atlas Steel and Wire located at or near Harahan, Louisiana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 87092 (Sub-No. 5), filed August 8, 1977. Applicant: JIM MITTEN TRUCKING, INC., 619 E. 6th, Oakley, Kans. 67748. Applicant's representative: Clyde N. Christey, 514 Capitol Federal Bldg., Topeka, Kans. 66603. NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Newark, N.J., or New York, N.Y.

No. MC 133565 (Sub-No. 11), filed August 2, 1977. Applicant: True Transport, Inc., 293 Wilson Avenue, Newark, N.J. 07101. Applicant's representative: Charles J. Williams, 1815 Front Street, Scotch Plains, N.J. 07076. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except those of unusual value, *classes A and B explosives, household goods* as defined by the Commission, *commodities in bulk*, and those requiring special equipment), in containers or in trailers, having a prior to subsequent movement by water, between points in the New York, N.Y., commercial zone, on the one hand, and, on the other, points in that part of New York west and north of a line beginning at the New York-Pennsylvania State line at or near Lawrenceville, Pa., and extending along U.S. Highway 15 to Corning, N.Y., thence along New York Highway 17 to Horseheads, N.Y., thence along New York Highway 13 to Cortland, N.Y., thence along U.S. Highway 11 to Syracuse, N.Y., thence along U.S. Highway 5 to Schenectady, N.Y., thence along New York Highway 50 to Saratoga Springs, N.Y., thence along U.S. Highway 9, via Glens Falls, N.Y., to junction New York Highway 149, thence along New York Highway 149 to junction U.S. Highway 4, at or near Fort Ann, N.Y., thence along U.S. Highway 4 to the New York-Vermont State line at or near Fair Haven, Vt., (2) canned tuna fish and canned pet food, in containers or in trailers, having a prior or subsequent movement by water, from the New York, N.Y., commercial zone to Cleveland and Fostoria, Ohio, and (3) empty containers, trailers, and trailer chassis between points in Ohio, New Jersey and New York.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Buffalo, N.Y.

No. MC 133566 (Sub-No. 90), filed August 4, 1977. Applicant: GANGLOFF & DOWNHAM TRUCKING COMPANY, INC., P.O. Box 479, Logansport, Ind. 46947. Applicant's representative: Charles W. Beinhauer, Suite 4959, One World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts* and *articles* distributed by meat packinghouses, in vehicles equipped with mechanical refrigeration (except commodities in bulk), from the plantsite and storage facilities of Marhoefer Packing Co., Inc., located at or near Muncie, Ind., to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia. Restricted to traffic originating at the above named plantsite and destined to points in the named destination States.

NOTE.—If a hearing is deemed necessary applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 133590 (Sub-No. 11), filed August 8, 1977. Applicant: WESTERN CARRIERS, INC., 288 Franklin Street, Worcester, Mass. 01604. Applicant's representative: David M. Marshall, 101 State Street, Suite 304, Springfield, Mass. 01103. Authority sought to operate as a *contract carrier*, by motor vehicles, over irregular routes, transporting: *Ski bindings, skiing apparel, and equipment, and materials and supplies*, used in the manufacture and sale of such commodities (except in bulk, in tank vehicles), between Peabody, Boston, and Worcester, Mass.; New York, N.Y.; Houston, Tex.; San Francisco, Calif.; and ports of entry on the International Boundary Line between the United States and Canada, located in Vermont and New York, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii) under a continuing contract or contracts with Salomon North America, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Boston, Mass.; New York, N.Y.; or Washington, D.C.

No. MC 133841 (Sub-No. 3) (correction), filed May 10, 1977, published in the FEDERAL REGISTER issues of June 16, 1977, and August 4, 1977, and republished as corrected this issue. Applicant: DAN BARCLAY, INC., 362 Main St., Lincoln Park, N.J. 07035. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nuclear devices, machinery, engines, environmental and solar equipment and materials, equipment and supplies* used in the manufacture or sale of the foregoing commodities (except commodities in bulk), between the facilities of Curtiss Wright Corp., located at or near Woodridge, N.J., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—The purpose of this republication is to correct applicant's base origin point. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 134405 (Sub-No. 38), filed August 5, 1977. Applicant: BACON TRANSPORT COMPANY (a corporation), P.O. Box 1134, Ardmore, Okla. 73401. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Building, 3535 Northwest 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *170 and 230 Asphalt*, from the facilities of Mobil Oil Corp., at or near Augusta, Kans., to points in McCurtain County, Okla.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Dallas, Tex.

No. MC 134405 (Sub-No. 39), filed August 8, 1977. Applicant: BACON TRANSPORT COMPANY (a corporation), P.O. Box 1134, Ardmore, Okla. 73401. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Building, 3535 Northwest 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Fuel oil*, in bulk, in tank vehicles from Arkansas City, Kans. to Muskogee, Okla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 134477 (Sub-186), filed August 1, 1977. Applicant: SCHANNO TRANSPORTATION, INC., 5 West Mendota Road, West St. Paul, Minn. 55118. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Printed matter and materials, equipment and supplies* used in the manufacture, sale and distribution of printed matter (except commodities in bulk), (1) from Taunton, Massachusetts, to points in California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Texas, Washington, and Wisconsin, (2) from Versailles and Lexington, Ky. and Hammond and Indianapolis, Ind., to points in California, Colorado, Connecticut, Delaware, Idaho, Illinois, Iowa, Kansas, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Texas, Washington, and Wisconsin, (3) from Ossining, N.Y., to Skokie, Ill., and Nashville, Tenn.; and (4) from Nashville, Tenn., to Skokie, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Minneapolis, Minn., or Chicago, Ill.

No. MC 134922 (Sub-No. 232), filed August 2, 1977. Applicant: B. J. MCADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastics and plastic materials* (except in bulk) from Mt. Vernon, Ind., to points in New Mexico, Arizona, Nevada, Utah, Idaho, California, Oregon, and Washington.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the Applicant requests it be held at Little Rock, Ark. or Evansville, Ind.

No. MC 135284 (Sub-No. 6) (correction), filed June 29, 1977, and published in the FEDERAL REGISTER issue of August 18, 1977, and republished, as corrected, this issue. Applicant: FLEETWOOD TRANSPORTATION CORP., 1030 Reeves Street, Dunmore, Pa. 18512. Applicant's representative: Michael R. Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, N.J. 07006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, between points in Franklin County, Ohio, on the one hand, and, on the other points in Indiana, Kentucky, Pennsylvania, and West Virginia, under a continuing contract or contracts with The Nestle Co., Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. Common control may be involved. The purpose of this republication is to add Kentucky as a destination point which was inadvertently omitted in the previous publication. Also, applicant's representative has a change of address.

No. MC 135325 (Sub-No. 4), filed August 8, 1977. Applicant: WEMCO, INC., 10111 Mercier, Dearborn, Mich. 48120. Applicant's representative: Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich. 48226. Authority sought to engage in operations as a *common carrier* by motor vehicle, over irregular routes, transporting: *Seacoal*, in bulk, in pneumatic vehicles, from Detroit, Mich., to points in Ohio and Indiana.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Detroit or Lansing, Mich., or Washington, D.C. Common control may be involved.

No. MC 136228 (Sub-No. 29), filed August 4, 1977. Applicant: LUISI TRUCK LINES, INC., P.O. Box H, Milton-Freewater, Oreg. 97862. Applicant's representative: Philip G. Skofstad, P.O. Box 594, Gresham, Oreg. 97030. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Hanging beef carcasses*, and (b) *fresh and frozen meat*, in boxes, from Spokane, Washington to Portland, Clackamas, Eugene, Medford and Sublimity, Oreg.; and (2) *Canned Vegetables*, between Milton-Freewater, Oreg. and Walla Walla, Wash.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Portland, Oreg. Applicant holds contract carrier authority in MC 136531 (Sub-No. 2) and other subs, therefore dual operations may be involved.

No. MC 13615* (Sub-No. 21), filed August 5, 1977. Applicant: OLEN BURRAGE TRUCKING, INC., Route 9, Box 22-A, Philadelphia, Miss. 39350. Applicant's representative: Fred W. Johnson, Jr., 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *lumber, poles, piling, pallets, timbers, cross-ties and particleboard* between points in Alabama, Arkansas, Georgia, Louisiana, Mississippi, and Tennessee.

NOTE.—Applicant holds motor contract authority in No. MC 123905 (Sub-No. 1) and other subs, therefore, dual operations may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Jackson, Miss.

No. MC 136343 (Sub-No. 117), filed August 10, 1977. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper products, dispenser boxes, liquid soap and equipment, materials and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation of which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Lyons Falls, N.Y., on the one hand, and, on the other, points in Pennsylvania, Maryland, Virginia, Ohio, Indiana, Michigan, Illinois, New Jersey, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Delaware, Kentucky, West Virginia, and the District of Columbia; (2) *paper products* and *equipment, materials, and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation of which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Plattsburgh, N.Y., on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Maryland, Virginia, Ohio, Indiana, Michigan, Illinois, Kentucky, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Delaware, and the District of Columbia; and (3) *printing paper* and *equipment, materials, and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Gilman, Vt., on the one hand, and, on the other, points in New York, Pennsylvania, Maryland, Virginia, Ohio, Indiana, Illinois, Michigan, Kentucky, Delaware, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Boston, Mass., or Washington, D.C.

No. MC 136343 (Sub-No. 118), filed August 10, 1977. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printing paper* and *equipment, materials, and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation of which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Lyons Falls, N.Y., on the one hand, and, on the other, points in Pennsylvania, Maryland, Virginia, Ohio, Indiana, Michigan, Illinois, New Jersey, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Delaware, Kentucky, West Virginia, and the District of Columbia; (2) *paper products* and *equipment, materials, and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation of which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Plattsburgh, N.Y., on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Maryland, Virginia, Ohio, Indiana, Michigan, Illinois, Kentucky, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Delaware, and the District of Columbia; and (3) *printing paper* and *equipment, materials, and supplies* used in the operation of paper mills (except commodities in bulk and commodities, the transportation which, because of size and weight, require the use of special equipment), between the facilities of the Georgia-Pacific Corp. at Gilman, Vt., on the one hand, and, on the other, points in New York, Pennsylvania, Maryland, Virginia, Ohio, Indiana, Illinois, Michigan, Kentucky, Delaware, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Boston, Mass., or Washington, D.C.

No. MC 136464 (Sub-No. 31), filed August 3, 1977. Applicant: CAROLINA WESTERN EXPRESS, INC., Box 3961,

V 42 179 SEP 15 77 UMI

Gastonia, N.C. Applicant's representative: Eric Meierhoefer, Suite 712, 1511 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Zippers, thread, binding, braid, lace, tape, webbing, ribbon, and sewing aids*, and (2) *materials and supplies used in the manufacture and sale of the commodities in (1) above (except in bulk)* from points in Connecticut and New Jersey to Charlotte, N.C., and Bennettsville, S.C.; restricted to a transportation service to be performed under a continuing contract, or contracts, with Talon Division of Textron, Inc., located at Meadville, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. Applicant holds common carrier authority in MC 138635 (Sub-No. 3) and other subs, therefore dual operations may be involved.

No. MC 136546 (Sub-No. 3), filed August 5, 1977. Applicant: PELTON BROS. TRANSPORT LTD., R.R. 3, Paris, Ontario, Canada. Applicant's representative: William J. Hirsch, Suite 1125, 43 Court Street, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rough or dressed lumber*, from ports of entry on the International Boundary line between the United States and Canada in Michigan and New York, to points in Michigan, Ohio, and Pennsylvania and returned shipments in the reverse direction. Restricted to traffic originating at the facilities of Normick-Perron Inc., J. H. Normick Inc., J. E. Therrien Inc., and Camille Richard, Inc., in the Province of Quebec, Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 136553 (Sub-No. 50), filed August 2, 1977. Applicant: ART PAPE TRANSFER, INC., 1080 East 12th Street, Dubuque, Iowa 52001. Applicant's representative: James M. Hodge, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Non-alcoholic beverages* (1) from Madison, Wis., and Minneapolis, Minn., to Dubuque and Decorah, Iowa, and (2) from Chicago, Ill., to Decorah, Iowa.

NOTE.—If a hearing is deemed necessary, applicant requests that the hearing be held at Chicago, Ill., or St. Paul, Minn.

No. MC 136837 (Sub-No. 3), filed August 2, 1977. Applicant: FLORIDA CONTINENTAL EXPRESS, INC., Route 1, Box 115-B, Urbana, Mo. 65767. Applicant's representative: Richard A. Kerwin, 180 North La Salle Street, Suite 3520, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are used, dealt in, or distributed by retail and wholesale department, hardware, drug, and food stores *and equipment, material, and supplies*, used in the conduct of the businesses described above (except commodities in bulk) from Urbana, Ohio, and Franklin, Ky., to points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Chicago, Ill., or Washington, D.C. Common control may be involved.

No. MC 138469 (Sub-No. 46), filed August 4, 1977. Applicant: DONCO CARRIERS, INC., 641 North Meridian, P.O. Box 75354, Oklahoma City, Okla. 73107. Applicant's representative: Jack H. Blanshan, Suite 200, 205 West Touhy Avenue, Park Ridge, Ill., 60068. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy, confectionery, and candy and confectionery packaging materials and supplies, except in bulk*, from the facilities of or utilized by Bunte Candies, Inc. located at or near Oklahoma City and Edmond, Okla., to points in the United States (except Alaska, Hawaii, and Oklahoma); and (2) *candy, confectionery, and commodities used or useful in the production and marketing of candy and confectionery* (except in bulk), from points in the United States (except Alaska, Hawaii, and Oklahoma), to the facilities of or utilized by Bunte Candies, Inc. located at or near Oklahoma City and Edmond, Okla., restricted in (1) above to the transportation of traffic originating at the named origins, and further restricted in (2) above to the transportation of traffic destined to the named destinations.

NOTE.—Applicant holds contract carrier authority in MC 136375 (Sub-No. 2) and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at either Oklahoma City, Okla., or Dallas, Tex.

No. MC 138635 (Sub-No. 43), filed August 5, 1977. Applicant: CAROLINA WESTERN EXPRESS, INC., Box 3961, Gastonia, N.C. 28052. Applicant's representative: Eric Meierhoefer, Suite 712, 1511 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulators, electric wire or wiring, pottery or pottery and iron combined, and parts thereof* from Sandersville, Ga., to points in New Mexico, Arizona, California, Oregon, Washington, Nevada, Utah, Idaho, Montana, Wyoming, Minnesota, and Wisconsin.

NOTE.—Applicant holds contract carrier authority in No. MC 136464 (Sub-No. 2) and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Ga., or Washington, D.C.

No. MC 139206 (Sub-No. 1), filed August 8, 1977. Applicant: F.M.S. TRANSPORTATION, INC., Box 1597, 2564 Harley Drive, Maryland Heights, Mo. 64043. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought by applicant to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Textiles and textile products, chemicals*, and *materials, equipment*, and *supplies* used in the sale, manufacture, processing, production, and distribution of textiles and textile products and chemicals (except commodities in bulk), between New Orleans and Houma, La., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Restriction: The authority granted herein is limited to a transportation service to be performed under a continuing contract or contracts with Chromalloy American Corp.

NOTE.—(1) Applicant states that it already holds contract carrier authority in No. MC 139206 to transport the identical commodities between Laredo, Brenham, Houston, and Arlington, Tex., Wellsville, Mo., and Johnson City, Tenn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Applicant states that it is a commonly-controlled contract carrier for and on behalf of Chromalloy American Corp. and that the purpose of this application is to extend its operations for its commonly-controlled contracting shipper. (2) Common control may be involved. If a hearing is deemed necessary it is requested at St. Louis, Mo.

No. MC 139294 (Sub-No. 3), filed August 3, 1977. Applicant: H. T. L., INC., P.O. Box 122, Fairfield, Ala. 35064. Applicant's representative: Robert E. Tate, P.O. Box 517, Evergreen, Ala. 36401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Treated materials and cross ties*, between points in Alabama, on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at either Birmingham, Ala., or Atlanta, Ga. Applicant holds contract carrier authority in MC 135867 (Sub-No. 1), therefore dual operations may be involved.

No. MC 139495 (Sub-No. 257), filed August 5, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, Suite 1030, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by discount and variety stores* from the plantsite and storage facilities of McCrory Stores located at or near York, Pa., to Oregon and Washington.

NOTE.—Applicant states dual operations is no longer an issue because its contract carrier authority has been converted to common carrier authority by order of the Commission. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140024 (Sub-No. 73), filed August 2, 1977. Applicant: J. B. MONTGOMERY, INC., 5565 East 52nd Avenue, Commerce City, Colo. 80022. Applicant's representative: John F. De Cock (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs*, (2) *pharmaceutical materials, supplies, and products*, (3) *chemicals*, (4) *alcoholic beverages*, (5) *tobacco products*, (6) *pet foods*, (7) *such commodities as are dealt in by distribution or consolidation warehouses* for the commodities described in (1) through (6) above, and (8) *exempt commodities* when moving with regulated commodities, (a) from Denver, Colo., to points in the United States in and west of Arkansas, Iowa, Louisiana, Minnesota, and Missouri; and (b) from points in the United States in and west of Arkansas, Iowa, Louisiana, Minnesota, and Missouri, to Denver, Colo., restricted in (1) through (7) above against the transportation of commodities in bulk.

NOTE.—Common control may be involved. Applicant states that it intends to tack the requested authority in (a) and (b) above at Denver, Colo. If a hearing is deemed necessary applicant requests it be held in a consolidated hearing with similar applications at Denver, Colo.

No. MC 140212 (Sub-No. 2), filed August 4, 1977. Applicant: CRANE RENTAL CO., INC., 205 Main Street, Tewksbury, Mass. 01876. Applicant's representative: James F. Martin, Jr., 69 Milliken Avenue, Franklin, Mass. 02038. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes transporting: *Scrap metals*, from Madbury, N.H., and Tewksbury, Mass., to Providence, R.I., under continuing contracts with Madbury Metals, Inc. and Tewksbury Auto Parts.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass.

No. MC 141511 (Sub-No 6) (Correction) filed June 23, 1977, published in the FEDERAL REGISTER issue of August 11, 1977, and republished, as corrected, this issue. Applicant: ROBERT W. RETTIG, doing business as PROTEIN EXPRESS, Route 3, Hartford, Wis. 53207. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Electrical equipment and appliances and materials, equipment, and supplies* used in the manufacture, installation, and sale thereof, from the facilities of Broan Manufacturing Co., Inc., located at or near Hartford, Wis., to Montebello, Calif.; Salt Lake City, Utah; Pasco, Wash.; Kansas City, Mo.; and Denver, Colo.; and (2) *microfilm machines and equipment, materials, and supplies* used in the sale of the foregoing, from the facilities of Micro Design, Division of Bell & Howell, Inc., located at or near Hartford, Wis., to points in Arizona, California, Nevada, Oregon, Utah, and Washington, restricted in (1) and (2) above to the transportation of shipments originating at the named origin and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill. The purpose of this republication is to add the requested authority in (2) above, which was inadvertently omitted in the previous publication.

No. MC 141804 (Sub-No. 71), filed August 5, 1977. Applicant: WESTERN EXPRESS, DIVISION OF INTERSTATE RENTAL, INC., P.O. Box 422, Goodlettsville, Tenn. 37072. Applicant's representative: Charles R. Parker (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foam, cellular, expanded* or *sponge* and *equipment, parts*, and *supplies* used in the manufacture there (except commodities in bulk) from Lawrence, Mass.; Eddystone and Hazleton, Pa.; Lyndhurst, Paramus, East Rutherford, Middlesex, and Piscataway, N.J.; Coldwater and Midland, Mich.; Fort Wayne, Ind.; Newark, Del.; and Ironton, Ohio, to Torrence and Carson, Calif., restricted to the transportation of commodities originating at or destined to the plantsite or storage facilities utilized by Wilshire Foam Products, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Los Angeles, Calif., or Nashville, Tenn.

No. MC 141914 (Sub-No. 16), filed August 8, 1977. Applicant: FRANK & SON, INC., Route 1, Box 108A, Big Cabin, Okla. 74332. Applicant's representative: Gary Brasel, Mezzanine Floor, Beacon Building, Tulsa, Okla. 74103. NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Salt Lake City, Utah.

No. MC 143552, filed August 2, 1977. Applicant: CLEWEND ASSOCIATES, INC., 1 Whitfield St., Caldwell, N.J. 07006. Applicant's representative: George A. Olsen, P.O. Box 357, Gladstone, N.J. 07934. Authority sought to operate as a *contract carrier*, over irregular routes transporting: *Paper products*, (1) from Beacon, N.Y., and Marseilles, Ill., to Buena Park and Oakland, Calif.; Denver, Colo.; Atlanta, Ga.; Fair Lawn, N.J.; St. Louis, Mo.; Dayton, Ohio; Portland, Oreg.; Philadelphia and Pittsburgh, Pa.; Houston, Tex.; and Richmond, Va.; (2) from Beacon, N.Y., to Chicago and Naperville, Ill.; and (3) from Marseilles, Ill., to Buffalo and Niagara Falls, N.Y., under contract or contracts with Nabisco, Inc., at East Hanover, N.J.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 143558, filed August 4, 1977. Applicant: CARDINAL TRANSPORTATION CO., INC., 415 Fifth Avenue, South, Nashville, Tenn. 37210. Applicant's representative: A. O. Buck, 618 United American Bank Building, Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: General commodities (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Nashville, Tenn., and Utica, Ky.; from Nashville, over U.S. Highway 41 to junction U.S. Highway 431, thence over U.S. Highway 431 to Utica and return over the same route, serving all intermediate points north of the Russellville, Ky. commercial zone; (2) between Central City, Ky., and Beaver Dam, Ky.; from Central City over U.S. Highway 62 to Beaver Dam, and return over the same route, serving all intermediate points; (3) between South Carrollton, Ky., and Guffie, Ky.; from South Carrollton over Kentucky Highway 81 to its junction with Kentucky Highway 815, thence over Kentucky Highway 815 to Guffie, and return over the same route, serving all intermediate points; (4) between Guffie, Ky., and Utica, Ky.; from Guffie over Kentucky Highway 140 to Utica, and return over the same route, serving all intermediate points; (5) between Calhoun, Ky., and junction of Kentucky Highway 136 and U.S. Highway 431; from Calhoun over Kentucky Highway 136 to junction U.S. Highway 431, and return over the same route, serving all intermediate points. Serving all points in Muhlenburg, Ohio and McLean Counties, Kentucky, as off-route points in connection with the regular route operations described above. If a hearing is deemed necessary applicant requests that it be held at Nashville, Tenn. and Central City, Ky.

No. MC 14362, filed August 5, 1977. Applicant: Donald R. Ford, d.b.a. SERVICE TRANSPORT, P.O. Box 37, 204 Poplar Street, Burbank, Washington 99323. Applicant's representative: Boyd Hartman, attorney at law, Suite 210, Seattle Trust Building, 10655 N.E. Fourth St., P.O. Box 3641, Bellevue, Washington 98004. Authority sought to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting meats, meat products and meat by-products and articles distributed by meat packinghouses as described in Section A and C of Appendix I to the Report in Description in Motor Carrier Certificates, 61, M.C.C. 209 and 766. From the plant sites and/or storage facilities utilized by Columbia Foods, Inc., in Walla Walla County, Washington, to points in California, Idaho, Montana, Oregon and Washington, under a continuing contract, or contracts, with Columbia Foods, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Spokane, Wash., or Portland, Oreg.

No. MC 143566, filed August 8, 1977. Applicant: DYSART TRUCKING, INCORPORATED, 1005 Estelle Street, Dysart, Iowa 52224. Applicant's representative: Steven C. Schoenebaum, 1200 Register and Tribune Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *fabricated metal construction products or articles* (except commodities in bulk or in tank vehicles) between the facilities of Custom Metal Fabricators, Inc., at or near Dysart, Iowa, on the one hand, and, on the other, points in Nebraska, Missouri, Minnesota, Illinois, Wisconsin, and South Dakota; and *steel, iron, and aluminum materials and articles* (except commodities in bulk or in tank vehicles) used in the manufacture and distribution of fabricated metal construction products or articles between Chicago, Illinois; Sterling, Illinois; Norfolk, Nebraska; St. Louis, Missouri; Kansas City, Missouri; Gary, Indiana; East Chicago, Indiana; and Minneapolis, Minnesota, on the one hand, and, on the other, the facilities of Custom Metal Fabricators, Inc., at or near Dysart, Iowa, limited to a transportation service to be performed under a continuing contract, or contracts, with Custom Metal Fabricators, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Des Moines, Iowa; Chicago, Illinois; or St. Paul/Minneapolis, Minnesota.

No. MC 143567, filed August 8, 1977. Applicant: MIDEAST EXPRESS, INC., Suite 504, First National Bank Bldg., Johnstown, Pa. 15901. Applicant's representative: James W. Patterson, 1200 Western Savings Bank Building, Philadelphia, Pa. 19107. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and by-products, articles distributed by and commodities used by meat packing houses*, (except commodities in bulk, hides, animal feed and animal feed ingredients), in vehicles equipped with mechanical refrigeration. Between Lancaster County, Nebraska, on the one hand, and, on the other, points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, West Virginia and the District of Columbia. Restricted to traffic originating at or destined to the facilities of Acme Markets, Inc. or its subsidiary, American Stores Packing Company, under continuing contract or contracts with Acme Markets, Inc. or American Stores Packing Company.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Philadelphia, Pa. or Washington, D.C.

No. MC 143570, filed August 8, 1977. Applicant: D & G TRUCKING INC. 4420 Overland, Meridian, Idaho 83642. Applicant's representative: David E. Wishney, P.O. Box 239, Boise, Idaho 83701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and aluminum, and paper and aluminum products*, for recycling and reuse, from points in Idaho south of the southern boundary of Idaho County, to points in California, Oregon and Washington.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Boise, Idaho.

No. MC 143572, filed August 5, 1977. Applicant: DAVENPORT TRANSFER CO., INC., 1150 10th Ave., Columbus, Ga. 31902. Applicant's representative: Henry C. Winters, 15 South Grady Way, Suite 235, Renton, Wash. 98055. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, of *used household goods*, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of picking and delivery service in connection with the packing, crating and containerization or unpacking, uncrating and decontainerization of such traffic, between points in Muscogee, Chattahoochee, Harris, Troup, Meriwether, Marion, Talbot, Stewart, Webster, and Quitman Counties, Georgia, and Lee, Russell, Chambers, Barbour and Macon Counties, Alabama.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Columbus or Atlanta, Ga.

No. MC 143573, filed August 8, 1977. Applicant: Thomas S. Rahberg, d.b.a. RAHBERG TRUCKING, Rural Route No. 2, Clinton, Wis. 53525. Applicant's representative: Richard A. Westley, 4506 Regent Street, Suite 100, Madison, Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materialite*, in bulk, in dump vehicles, from Ottawa, Illinois to points in Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill. or Madison, Wis.

PASSENGERS

No. MC 1255 (Sub-No. 12), filed August 5, 1977. Applicant: McGinn Bus Company, Inc., 31 Milk St., Boston, Mass. 02109. Applicant's representative: Jeremy Kahn, Suite 733, Investment Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Passengers and their baggage*, in the same vehicle with passengers, in special operations, between Boston, Revere, Saugus, Lynn, Salem, and Danvers, Massachusetts, on the one hand, and, on the other, Atlantic City, New Jersey.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Boston, Mass.

No. MC 86505 (Sub-No. 5), (Correction), filed July 6, 1977, published in the FEDERAL REGISTER issue of August 18, 1977, and republished as corrected, this issue. Applicant: PEERLESS STAGES, INC., 2040 Castro St., Oakland, Calif. Applicant's representative: Irwin J. Borof, attorney at law, 111 Broadway, Oakland, Calif. 94607. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *passengers and their baggage*, in the same vehicle with passengers, in special or charter operations, in special or charter parties, in round-

V 42 179 SEP 15 77 UMI

trip, sightseeing, or pleasure tours, beginning and ending at points in the counties of Alameda, Santa Clara, and Santa Cruz, California, and extending to points in and within the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Oakland or San Francisco, Calif. The purpose of this correction is to correct the territorial description.

No. MC 126667 (Sub-No. 3), filed August 5, 1977. Applicant: BRUSH HILL TRANSPORTATION COMPANY, 31 Milk St., Boston, Mass. 02109. Applicant's representative: Jeremy Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Passengers and their baggage*, in the same vehicle with passengers, in special operations, between Boston, Quincy, Milford, Brockton, and Plymouth, Massachusetts, on the one hand, and, on the other, Atlantic City, New Jersey.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Boston, Mass.

No. MC 143178 (Sub-No. 1), filed July 6, 1977. Applicant: GOLDEN STATE COACHES, INC., P.O. Drawer "G", Chico, Calif. 95927. Applicant's representative: Mike Soumbeniotis, P.O. Box 646, Carson City, Nev. 89701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in special and charter operations, from points in Butte, Lassen, Plumas and Tehama Counties, Calif., within an area bounded on the north and west by Dales, Calif., on the south by Paradise, Calif., and on the east by Westwood, Calif., to points in the United States, including Alaska, but excluding Hawaii, and return, restricted against service provided from points on U.S. Highway 99.

NOTE.—If a hearing is determined necessary, the Applicant requests that it be held at either Sacramento or San Francisco, Calif.

No. MC 143450 (Sub-No. 1), filed July 19, 1977. Applicant: AMBASSADOR COACH LINES, INC., Box 1129, Claremore, Okla. 74017. Applicant's representative: Michael R. Vanderburg, 5416 South Yale, Suite 402, Tulsa, Okla. 74135. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: Passengers, baggage, and express in the same vehicle with passengers, in charter operations, between Moran, Kans. and Tulsa, Okla., serving Parsons, Independence, and Coffeyville, Kans. as intermediate points: From Moran, Kans. over U.S. Highway 59 to Parsons, Kans, thence over U.S. Highway 160 (also portion U.S. Highway 169) to Independence, Kans., thence over an unnumbered State Highway to the junction with U.S. Highway 166, thence over U.S. Highway 166 to Coffeyville, Kans., thence over U.S. Highway 169 to Tulsa, Okla., and return over the same route.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Parsons, Coffeyville, Independence, Kans., or Tulsa, Okla.

FREIGHT FORWARDER

No. FF 500, filed August 5, 1977. Applicant: SURF-AIR, INC., P.O. Box 6542, Atlanta, Ga. 30315. Applicant's representative: Robert C. Dryden, P.O. Box 6944, Atlanta, Ga. 30315. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facility of *common carricrs* by rail, motor, water and express, in the transportation of General Commodities (except Classes A and B explosives, household goods as defined by the Commission, commodities which because of size or weight require use of special equipment, motor vehicles and unaccompanied baggage), between points in the United States, including Alaska and Hawaii, restricted to the transportation of shipments having an immediately prior or subsequent movement in the air forwarder service of Surf-Air, Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held in Atlanta, Ga. or Washington, D.C.

WATER

No. W-16 (Sub-No. 11), filed August 8, 1977. Applicant: S. C. LOVELAND CO., INC., 320 Walnut St., Philadelphia, Pa. 19106. Applicant's representative: Donald MacLeay, 1625 K Street, NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier* by water; by self-propelled vessels, in the transportation of articles exceeding 19 feet in height, or 12 feet in width, or 90 feet in length, or 100 net tons in weight, component parts thereof and related equipment: (a) Between Key West and Tampa, Florida, and New Orleans, Louisiana, on the one hand, and, on the other, ports and points along the Pacific coast and tributary waterways in California, Oregon and Washington. (b) Between ports and points on waterways tributary to the Gulf of Mexico, on the one hand, and, on the other, Key West and Tampa, Fla., and New Orleans, La. (restricted to traffic originating or destined to ports and points along the Atlantic or Pacific coasts).

NOTE.—The intention is to enlarge applicant's self-propelled vessel authority, and tack to applicant's present self-propelled vessel authority, in order to permit use of that type of equipment for transportation of the described commodities over routes and between ports and points co-extensive with applicant's present authority to provide such service by non-self-propelled vessels with the use of separate towing vessels. If a hearing is deemed necessary applicant requests that it be held at Washington, D.C.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protests shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

Buffalo, Rochester and Pittsburgh Railway Company (BR&P) and The Baltimore and Ohio Railroad Company (B&O), 2 North Charles Street, Baltimore, Maryland 21201, represented by Mr. Peter J. Shudtz, Assistant General Attorney, The Baltimore and Ohio Railroad Company, 2 North Charles Street, Baltimore, Maryland 21201, hereby give notice that on the 24th day of August, 1977, they filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 1(18) of the Interstate Commerce Act for an order approving and authorizing the acquisition by the BR&P of a line of railroad from the trustees of the estate of the Erie Lackawanna Railway Company and operation over the line by the B&O, which application is assigned Finance Docket No. 28541.

The BR&P proposes to acquire a line of railroad from the trustees of the estate of the Erie Lackawanna Railway Company and the B&O proposes to operate over the line. The line extends generally from the Borough of Mount Jewett at J&B Junction to Johnsonburg at Clarion Junction and passes through Freeman, Hutchins, Midmont, Rasselas and Ketner, all in the Commonwealth of Pennsylvania. The total number of miles of main line track proposed to be acquired is 20.47 miles. Additionally, applicants will acquire 8.60 miles of side track. All of the above trackage is located between Valuation Stations 1659+57 and 2806+20.

In the opinion of the applicants, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1108.12) in Ex Parte No. 55 (Sub-No. 4), Implementation National Environment Policy Act, 1969, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation —National Environmental Policy Act, 1969, supra at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the

proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

BUFFALO, ROCHESTER AND PITTSBURGH RAILWAY COMPANY; THE BALTIMORE AND OHIO RAILROAD COMPANY

OPERATING RIGHTS APPLICIATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 247(d) of the Commission's General Rules of Practice (49 CFR 110.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 110325 (Sub-No. 74) (republication), filed May 21, 1976, published in the FEDERAL REGISTER issue of August 26, 1976, republished August 11, 1977, and further republished this issued to correct and clarify certain matters in the immediately prior publication. Applicant: TRANSCON LINES, 101 Continental Blvd., El Segundo, Calif. 90009. Applicant's representative: Wentworth E. Griffin, 1221 Baltimore Avenue, Kansas City, Mo. 64105. A report of the Commission, Review Board Number 5, decided April 25, 1977, and served June 8, 1977, authorized among other things, conversion of Certificates of Registration into a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, over regular and irregular routes, as a *common carrier*, of (1) *General commodities* (except used household goods, commodities in bulk, and Class A and B explosives), over regular routes, between Chattanooga, Tenn., and Knoxville, Tenn., serving no intermediate points: (a) Over U.S. Highway 11; and (b) over Interstate Highway 75 using such access routes as may be convenient between those portions of Interstate Highway 75 which are completed and U.S. Highway 11; and of (2) *General commodities* (except used household goods and commodities in bulk), over irregular routes: (a) Between points in Cumberland, White, and Van Buren Counties, Tenn.; and (b) between points in Putnam County, Tenn., restricted against service to those points located on or within one airline mile of Tennessee Highway 56 between the Putnam and DeKalb County Line and the junction of Tennessee Highways 56 and 24, and restricted against service to those points located on or within one airline mile of Tennessee Highway 24 between its junction with Tennessee Highway 56 and the Commercial Zone limits of Cookeville, Tenn.; the said authority granted herein to be used in conjunction with all of applicant's existing authority only. The purpose of this republication is to correct and clarify the notice of August 11, 1977, which gave notice of the conversion of Certificates of Registration in No. MC 28893 (Sub-Nos. 19 and 20), which were not included in the original FEDERAL REGISTER publication, since they were not acquired by Potter Freight Lines, Inc., until after the section 5 and section 207 applications were filed herein, to a Certificate of Public Convenience and Necessity. This is a matter directly related to MC-F-12843.

ABANDONMENT APPLICATIONS; NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abandonment.

A Certificate of Abandonment will be issued to the applicant carries 30 days after this FEDERAL REGISTER publication unless the instructions set forth in the notices are followed.

[Docket No. AB-1 (Sub-No. 50)]

CHICAGO & NORTH WESTERN TRANSPORTATION CO. ABANDONMENT BETWEEN SLEEPY EYE AND REDWOOD FALLS, MINN., ALL IN REDWOOD AND BROWN COUNTIES, MINN.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on February 14, 1977, and the decision and order of the Commission, Division 3, served July 25, 1977, which affirmed and adopted the initial decision of the Administrative Law Judge entered on February 14, 1977, a finding, which is administratively final, was made stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago & North Western Transportation Co. of the line of railroad beginning at milepost 1.5 near Sleepy Eye, Minn., and extending to the end of the line near milepost 26.3 at Redwood Falls, Minn., Redwood and Brown Counties, Minn. A certificate of abandonment will be issued to the Chicago & North Western Transportation Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued, and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such persons or entity to enter into a binding agreement, with the carrier seeking such abandomnet, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-6 (Sub-No. 40)]

BURLINGTON NORTHERN INC. ABANDONMENT BETWEEN BRINSMADE AND LEEDS IN BENSON COUNTY, N. DAK.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on July 12, 1977, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set

V 42 I 179 SEP 15 77 UMI

forth in said order, the present and future public convenience and necessity permit the abandonment by the Burlington Northern Inc. of its line of railroad between milepost 97.48 near Brinsmade and milepost 197.33 near Leeds in the northern half of Benson County, N. Dak., a distance of 9.85 miles in Benson County, N. Dak. A certificate of abandonment will be issued to the Burlington Northern Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such as assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-6 (Sub-No. 45)]

BURLINGTON NORTHERN INC. ABANDONMENT BETWEEN STERLING AND NEW RAYMER IN LOGAN AND WELD COUNTIES, COLO.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a((6)(a) that by an order entered on July 25, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Burlington Northern Inc. of its line of railroad extending from milepost 232.00 near Sterling to milepost 266.50 near New Raymer, a distance of 34.50 miles, in Logan and Weld Counties, Colo. A certificate of abandonment will be issued to the Burlington Northern Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-7 (Sub-No. 27)]

CHICAGO, MILWAUKEE, ST. PAUL & PACIFIC RAILROAD CO. ABANDONMENT IN FOND DU LAC, COUNTY OF FOND DU LAC, WIS.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 30, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and the applicable provisions of section 405 of the Rail Passenger Service Act, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. of a line of railroad about 1.95 miles in length together with about 0.45 miles of auxiliary tracts, a total distance of about 2.40 miles, including a line of about 741 feet in length and about 1,214 feet of auxiliary track which is jointly owned with the Chicago & North Western Transportation Co., extending between Engineer's Station 0–69 to 71+60 and 82+39 to 113+21, all in Fond du Lac, County of Fond du Lac, Wis. A certificate of abandonment will be issued to the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-9 (Sub-No. 8)]

ST. LOUIS-SAN FRANCISCO RAILWAY CO. ABANDONMENT BETWEEN BLYTHEVILLE AND MONETTE IN MISSISSIPPI AND CRAIGHEAD COUNTIES, ARK.

NOTICE OF FINDINGS

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on July 19, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B & Q. R. Co., Abandonment*, 257 I.C.C. 700, and the applicable provisions of section 405 of the Rail Passenger Service Act, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the St. Louis-San Francisco Railway Co. of that portion of its line extending from milepost TD 239.77 near Blytheville, Ark., in a westerly direction to milepost TD 268.00 near Monette, Ark., a distance of approximately 28.23 miles all in the counties of Mississippi, and Craighead, Ark. A certificate of abandonment will be issued to the St. Louis-San Francisco Railway Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-12 (Sub-No. 50)]

SOUTHERN PACIFIC TRANSPORTATION CO. ABANDONMENT BETWEEN BURRELL AND RIVERDALE IN FRESNO COUNTY, CALIF.

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on June 30, 1977, a finding which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and the applicable provisions of section 405 of the Rail Passenger Service Act, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Co. of its line of railroad extending from milepost 208.73, beyond Burrell, in a southwesterly direction to the end of the branch at milepost 214.85 near Riverdale, a distance of 6.12 miles in Fresno County, Calif. A certificate of abandonment will be issued to the Southern Pacific Transportation Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-12 (Sub-No. 51)]

SOUTHERN PACIFIC TRANSPORTATION CO. ABANDONMENT BETWEEN CITRUS AND FAIR OAKS IN SACRAMENTO COUNTY, CALIF.

NOTICE OF FINDINGS

Notice is hereby given pursuant to section 1a(6)(a) of the Interestate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on July 21, 1977, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Company of a line of railroad extending from milepost 104.37, near Citrus, Calif., to milepost 106.36, near Fair Oaks, Calif., a distance of approximately 1.99 miles. A certificate of abandonment will be issued to the Southern Pacific Transportation Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER

V 42 I 179 SEP 15 77 UMI

on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-43 (Sub-No. 16)]

ILLINOIS CENTRAL GULF RAILROAD CO.—ABANDONMENT BETWEEN ELCO AND MURPHYSBORO, IN ALEXANDER, UNION, AND JACKSON COUNTIES, ILL.

NOTICE OF FINDINGS

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on July 20, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and the applicable provisions of section 405 of the Rail Passenger Service Act, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Illinois Central Gulf Railroad Co. of the line of railroad from milepost 518 near Elco, Ill., in a northerly direction to milepost 455 near Murphysboro, Ill., a distance of 36 miles, in Alexander, Union, and Jackson Counties, Ill. A certificate of abandonment will be issued to the Illinois Central Gulf Railroad Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-57 (Sub-No. 2)]

SOO LINE RAILROAD CO. ABANDONMENT BETWEEN RACO JUNCTION AND RACO IN LUCE AND CHIPPEWA COUNTIES, MICH.

NOTICE OF FINDINGS

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an initial decision and order entered on June 3, 1977, a finding, which is administratively final, was made by the Administrative Law Judge, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Chicago, B. & Q. R. Co., Abandonment*, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Soo Line Railroad Co. of its branch line of railroad between milepost 46.69 at Raco Junction, Mich., and extending in an easterly direction to the end of the line at milepost 19.69 at Raco, Mich., all in Luce and Chippewa Counties, Mich., a distance of 27 miles. A certificate of abandonment will be issued to the Soo Line Railroad Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

MOTOR CARRIER ALTERNATE ROUTES DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4 (c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Deviation No. 163), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed August 24, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Rison, Ark., over Arkansas Highway 35 to junction Arkansas Highway 114, thence over Arkansas Highway 114 to Star City, Ark., (2) from Denmark, Ark., over Arkansas Highway 87 to Bradford, Ark., and (3) from junction U.S. Highway 82 and Arkansas Highway 52, over Arkansas Highway 52 to North Crossett, Ark., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) from Rison, Ark., over U.S. Highway 79 to junction U.S. Highway 65, thence over U.S. Highway 65 to junction Arkansas Highway 81, thence over Arkansas Highway 81 to Star City, Ark., (2) from Denmark, Ark., over U.S. Highway 167 to junction U.S. Highway 67, thence over U.S. Highway 67 to Bradford, Ark., and (3) from junction U.S. Highway 82 and Arkansas Highway 82 over U.S. Highway 82 to Crossett, Ark., thence over Arkansas Highway 133 to North Crossett, Ark., and return over the same routes.

By the Commission

H. G. HOMME, Jr.,
Acting Secretary.

TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in "Waste" Products, Ex Parte No. MC-85, 124 MCC 583 (1976).

An original and one copy of protests (including protestant's complete argument and evidence) against applicant's participation may be filed with the Interstate Commerce Commission by October 5, 1977. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence by October 17, 1977, subject to its tariff publication effective date.

P-16-77 (special certificate—waste products), filed August 10, 1977. Applicant: SOUTHERN INTERMODAL LOGISTICS, INC., P.O. Box 1375, Thomasville, Ga. 31792. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1267, Arlington, Va. 22210. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Waste products for reuse and recycling*, from points in Florida, to Prattville, Ala., in furtherance of the recognized pollution control program sponsored by the Union Camp Corp. of Prattville, Ala., for the purpose of recycling and reusing scrap and waste paper.

P-17-77 (special certificate—waste products), filed May 30, 1977. Applicant: TRANSENVIRONMENTAL CORP., P.O. Box 24030, Cincinnati, Ohio 45224. Applicant's representative: Jerry B. Sellman, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Waste products for recycling and reuse*, between points in the United States (except Alaska and Hawaii), in furtherance of the recognized pollution control programs sponsored by: (1) Chem-Dyne Corp. of Hamilton, Ohio; (2) KOI Petroleum, Inc., of Hamilton, Ohio; and (3) Spray-Dyne, Inc., of Hamilton, Ohio, for the purpose of recycling liquid waste materials, in bulk and in drums.

P-18-77 (special certificate—waste products), filed August 10, 1977. Applicant: WILLS TRUCKING, INC., 5755 Granger Road, Cleveland, Ohio 44131. Applicant's representative: Paul F. Beery, 275 East State Street, Columbus, Ohio 43215. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, and the transportation of: *Waste products for recycling and reuse* between all points in Illinois, Indiana, Ohio, Michigan, Kentucky, West Virginia, Pennsylvania, New York, North Carolina, Virginia, and Tennessee, in furtherance of a recognized pollution control program sponsored by (1) Bassichis Co., of Cleveland, Ohio, and (2) Brockway Glass Co. of Brockway, Pa., for the purpose of recycling various types of litter.

P-19-77 (special certificate—waste products), filed August 19, 1977. Applicant: TAJON, INC., R.D. 5, Mercer, Pa. 16137. Applicant's representative: Brian L. Troiano, 918 16th Street NW., Washington, D.C. 20006. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Glass cullet*, between points in Connecticut, Illinois, Indiana, Maryland, Minnesota, Missouri, New Jersey, Ohio, Pennsylvania, Rhode Island, Texas, and West Virginia, in furtherance of recognized pollution control programs sponsored by: (1) National Bottle Co. of Bala Cynwyd, Pa.; (2) PPG Industries, Inc., of Pittsburgh, Pa., for the purpose of recycling glass cullet.

P-20-77 (special certificate—waste products), filed June 23, 1977. Applicant: KENNEDY FREIGHT LINES, INC., P.O. Box 332, Lapel, Ind. 46051. Applicant's representative: Paul F. Berry, 275 East State Street, Columbus, Ohio 43215. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Waste products for recycling or reuse* between points in that part of the United States east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international boundary line between the United States and Canada (except the plantsite of Questor, Inc., at Toledo, Ohio, and Grand Haven, Mich., the plantsite of Brockway Glass Co. at Lapel, Ind.; and the plantsite of Glass Container Corp. at Indianapolis, Ind.), in furtherance of a recognized pollution control program sponsored by (1) Scott Paper Co. of Philadelphia, Pa., for the purpose of recycling and reusing waste paper and paper scrap; and (2) Alton Box Board Co. of Alton, Ill., for the purpose of transporting and recycling waste paper.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 1 p.m. September 9, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT: Dockets 31232, 31234, 31235, 31246, 31247, 31285 and 31305 Complaints of National Air Carrier Association, Brendan Tours, Inc., Charter Travel Corporation, The Educational Cooperatives, and Laker Airways Limited against Tariffs of Pan American World Airways, Inc., Trans World Airlines, Inc., British Airways, and Air India Proposing Standby, Budget, and Super-Apex Fares over the North Atlantic; and Docket 29123, Agreement Adopted by the Tariffic Conferences of the International Air Transport Association Relating to North Atlantic Passenger Fares Agreement C.A.B. 26858, R–1 through R–5.

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, (202–673–5068).

SUPPLEMENTARY INFORMATION: Any decision of the Board suspending these tariffs would have to be sent to the President by the statutory deadline of September 13, 1977. In order for the Board to reach its determination and instruct its staff, the following Members have voted that agency business requires that the Board meet on less than seven days' notice and that no earlier announcement of the meeting was possible:

Chairman Alfred E. Kahn
Member Lee R. West
Member Elizabeth E. Bailey

2

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 2 p.m. September 9, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: Dockets 31232, 31234, 31235, 31246, 31247, 31285 and 31305. Complaints of National Air Carrier Association, Brendan Tours, Inc., Charter Travel Corporation, The Educational Cooperative, and Laker Airways Limited against Tariffs of Pan American World Airways, Inc., Trans World Airlines, Inc., British Airways, and Air Indian Proposing Stand-by, Budget, and Super-Apex Fares over the North Atlantic; and Docket 29123, Agreement Adopted by the Traffic Conferences of the International Air Transport Association Relating to North Atlantic Passenger Fares Agreement C.A.B. 26858, R–1 through R–5.

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary (202–673–5068).

[S-1315-77 Filed 9-12-77;4:04 pm]

3

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., September 15, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT 1. Ratification of items adopted by notation.*

2. Docket 27436, Petition of Air New England Inc. (ANE) for approval of loan guarantee under section 410 (Memo No. 6942–B, BFR).

3. Docket 31239, Application of Braniff for emergency exemption to offer a refund to certain passengers who travelled between Denver and Miami on July 28 and 29 (Memo No. 7403, BFR).

4. Docket 31273, Complaint of the State of Maryland against Eastern's proposal to increase the discount applicable to its excursion fare in the Philadelphia-Florida market, (Memo No. 7342–A, BFR).

5. New door-to-door parcel express service proposed by Eastern Air Lines. Effective (posted) October 1, 1977 (BFR).

6. Consideration of anticipatory costs for ratemaking purposes (Memo No. 6709–B, BFR).

7. Docket 31338, Request for Continental to engage in discussion with JAL concerning Japan-Mimronesia fares (Memo No. 7411, BFR).

8. North Central Airlines—request for waiver of the two percent limitation on off-route charters (Memo No. 7405, BOR, OGC).

9. Airlift International—petition for review of staff denial of blanket waiver of off-route charter limitations (Memo No. 7407, BOR, OGC).

10. Docket 31036, Motion of Hearing on the matter of certification of a U.S. carrier to serve the Houston Dallas/Ft. Worth - Calgary/Edmonton-Anchorage, Fairbanks Route, filed by the Calgary Transportation Authority and the Edmonton Area Air Services Commission (the Canadian parties) (Memo No. 7396, BOR, BIA).

11. Docket 30356, *Transcontinental Low-Fare Route Proceeding* (Memo No. 5393–C, BOR, OGC, BLJ, BFR).

12. Docket 30387, TWA's application for San Diego-Kansas City/St. Louis nonstop authority (Memo No. 7374, BOR, OGC).

13. Docket 15020, Pan American's Application to Renew its Exemption Authority to Serve Four West African Points (Memo 4627–A, BOR, BIA).

14. Dockets 30969 and 28269, Temporary Suspension and Deletion of Eastern Air Lines Service over segment 7 of Route 10 (Memo 7287–A, BOR).

15. Dockets 30058; and 28110 and 28342, Rocky Mountain Airways' request to use Dash 7 aircraft in scheduled service in Colorado; Aspen Airways' and Rocky Mountain Airways' requests for Denver-Aspen certificate authority (Memo No. 4680–C, BOR, BLJ, OGC).

16. Docket 30879, *Florida-Atlanta Competitive Nonstop Service Case* (Memo No. 6739–A, BLJ, OGC).

17. Dockets 27838 and 30818, Consolidation of Enforcement Cases (Memo No. 7409, BLJ, OGC).

18. Rulemaking to amend Part 387 of the Board's Organization Regulations to be consistent with the National Emergencies Act, Pub. L. 94–412 (Memo No. 7399 OGC).

19. Changing name of Bureau of Economics to "Bureau of Fares and Rates," and creation of the Office of Economic Analysis (Memo No. 7402, OGC, BFR).

20. Docket 30778, Rulemaking petition filed by Reuben Robertson to grant authority to administrative law judges to consolidate enforcement proceedings (Memo No. 7395, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T Kaylor, the Secretary (202–673–5068).

NOTE: The ratification process provides an entry in the Board's Minutes of items already adopted by the Board through the written Notation process (memoranda circulated to the Members sequentially). A list of items ratified at this meeting will be available in the Board's Public Reference Room (Room 710, 1825 Connecticut Avenue NW., Washington, D.C. 20428) following the meeting.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

NATIONAL FLOOD INSURANCE PROGRAM

V 42 179
SEP 15 77
UMI

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 3328]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the State.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202–755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association Servicing companies, where flood insurance policies can be obtained, are published at § 1912.7 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.

[Docket No. FI 3329]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to list those communities where the sale of flood insurance is authorized under the National Flood Insurance Program.

Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the State.

DATES: The date that appears in the fourth column of the table is the effective date of authorization for the sale of flood insurance.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202–755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) of the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The addresses of the National Flood Insurers Association servicing companies, where flood insurance policies can be obtained, are published at § 1912.5 (24 CFR Part 1912).

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 1914.6 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Arizona	Cochise	Tombstone, city of	August 1, 1977, emergency	Aug 15, 1975	040106
Oklahoma	Okfuskee	Okemah, city of	do	Aug. 13, 1976	400429
Wyoming	Uinta	Lyman, town of	do	Sept. 19, 1975	560075
Arizona	Pinal	Casa Grande, city of	May 5, 1972, emergency; Aug. 1, 1977, regular	Apr 5, 1974	040080-A
Kansas	Johnson	Lenexa, city of	June 12, 1975, emergency; Aug. 1, 1977, regular	Feb 8, 1974 July 11, 1975	200168-B

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes in Special Flood Hazard Areas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Interim rule.

SUMMARY: The purpose of this rule is to list those communities where in the Federal Insurance Administrator, after consultation with the Chief Executive Officer of the community, has determined that modification of the Special Flood Hazard Areas (SFHAs) of some locations is appropriate.

Any persons who have knowledge of changed conditions or new scientific or technical data or who wish to comment on these changes should immediately notify the Chief Executive Officer at the address listed.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

DATES: These modified SFHAs are currently in effect and amend the Flood Insurance Rate Map (FIRM), in effect prior to this determination. A revised FIRM will be distributed in each community listed as soon as possible.

From the date of the second publication of notice of these changes in a prominent local newspaper, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, these modified SFHAs may be changed.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance (202–755–5581 or Toll Free Line 800–424–8872), Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The numerous changes made in the SFHAs on the Flood Insurance Rate Map(s) make it administratively infeasible to publish in this notice all of the modified SFHAs contained on the map. However, this notice includes the address of the Chief Executive Officer of the community where the modified SFHAs determinations are available for inspection.

The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, is amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

These SFHAs are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These SFHAs together with the flood plain management measures required by § 1910.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, state, or regional entities.

These modified SFHAs shall be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The entry (entry not to be codified in CFR) reads as follows:

§ 1916.8 Changes in special flood hazard areas.

State	County	Location	Date and name of newspaper where notice was published	Chief executive officer of community	Effective date of modified flood insurance rate map	New community number
North Carolina	Carteret	Beaufort, town of	The Carteret County News Times, Aug 8, 1977, Aug 11, 1977	Hon. Eugene B. Pond, mayor, town of Beaufort, P.O. Box 390, Beaufort, N.C. 28516	Aug. 12, 1977	375346B

[Docket No. FI-3326]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes in Base Flood Elevations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator has published a notification of modification of the base (100-year) flood elevations for communities listed below, in the FEDERAL REGISTER. Since that publication, ninety days have elapsed; and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of each community listed, has determined that no changes in the modified flood elevations are necessary.

The numerous changes made in the base flood elevations on the Flood Insurance Rate Map (FIRM) for each community make it administratively infeasible to publish in this notice all of the base flood elevation changes contained in the maps. However, this notice includes the address of the Chief Executive Officer where the modified base flood elevation determinations are available for inspection.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

DATES: These modified flood elevations are in effect as of the dates in the 6th Column of the attached list and amend the FIRM in effect for each listed community prior to this date.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202–755–5581 or toll free line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: These base flood elevations are basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These elevations together with the flood plain management measures required by § 1910.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, state or regional entities.

These modified elevations shall be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The entry (entry not to be codified in CFR) reads as follows:

UMI

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-1022, Amdt. 29]

PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Amendment of CAB Form 41 Schedules Relating to Transactions With Affiliates and Nontransport Divisions

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This amendment modifies the Board's Uniform System of Accounts and Reports for Certificated Air Carriers by: (1) Combining a quarterly report schedule dealing with carrier accounts with associated companies and nontransport divisions and an annual schedule dealing with air carrier investments into a single schedule to be filed annually; (2) revising the format of another schedule which deals with the reporting of air carrier transactions with associated companies and nontransport divisions; (3) adding a requirement for carriers to disclose income tax allocation procedures used in filing consolidated returns; and (4) eliminating a requirement to establish a separate set of books for nontransport leasing operations. These changes were developed as part of the Board's on-going effort to reduce and improve air carrier reporting wherever possible.

DATES: Effective: December 5, 1977. Adopted: September 8, 1977.

FOR FURTHER INFORMATION CONTACT:

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428 (202-673-5270).

SUPPLEMENTARY INFORMATION: During 1976, the Board conducted an extensive review of carrier reporting requirements designed to monitor transactions between air carriers and affiliated companies. The purpose of this review was three-fold: (1) To improve the effectiveness of these reports, (2) to correct deficiencies in the reporting requirements, and (3) to eliminate any unnecessary reports. Suggestions for improving these reporting requirements were received from several carriers during the review. As a result, the Board issued EDR-324 proposing to amend its CAB Form 41 reporting by: (1) Combining quarterly Schedule B-4(b), "Accounts with Subsidiaries, Other Associated Companies and Nontransport Divisions," with annual Schedule B-41, "Investments Held by, or for the Account of, Respondent" to make the resulting new schedule an annual filing; (2) modifying the format and reporting instructions for Schedule B-44, "Summary of Resources Exchanged with Affiliated Group Members and Other Associated Companies"; (3) adding a new accounting plan, CAB Form AP-16, to disclose income tax allocation procedures; and (4) eliminating the need to establish a separate accounting system for leasing operations as required in section 1-6 of Part 241.

Only two respondents—Pan American World Airways and Northwest Airlines—submitted comments in response to the rulemaking notice. Upon consideration of the comments, the Board has decided to adopt the amendments with modifications discussed below. Except to the extent modified, the tentative findings in the Explanatory Statement of EDR-324 are made final by this amendment.

In one of its comments, Pan American suggests that the title of the newly proposed Schedule B-41 be expanded to encompass the reporting of current account receivables and payables. We believe this comment is pertinent and has merit; therefore, we are revising the title of Schedule B-41 to read "Receivables, Payables and Investments Relating to Affiliates and Other Investment Data."

In another comment, Pan American points out that there are far more transaction categories in column (1) of the newly proposed Schedule B-44 than are in the current Schedule B-44. This expansion, Pan American asserts, would cause it additional work because of the need for more descriptive monitoring of transactions during the year Accordingly, Pan American recommends that the transaction categories appearing on the current Schedule B-44 be retained, and if any additional information should be required in the future, that it be requested on an exceptional basis.

It is true that the proposed Schedule B-44 does have more transaction categories in column (1) than the current Schedule B-44. From an evaluation standpoint, a major problem with the current format of Schedule B-44 has been that the few required categories are very broad in nature As a result, the commingling of the numerous items all summarized in one annual figure has been of little or no value to either the Board's staff or the air carriers as far as definitive identification of transactions is concerned.

Indeed, during the reviews at the carrier offices, the Board's staff found that there were deficiencies on all carrier submissions and that many of these deficiencies were directly attributable to a misunderstanding of what was called for by the rule.

In order to monitor transactions between the carrier and its affiliates, as required by ER-707,[1] it is necessary to obtain comparable figures on a periodic basis that are not commingled in this manner. In the design of the proposed Schedule B-44 and the identification of the nature of transactions in column (1), it was the Board's purpose to isolate specific types of transactions so that such transactions could be monitored within the intent of ER-707. To accomplish this greater specificity, we elected to define more narrowly what is to be included on each line item. Although this resulted in more transaction categories, we believe they are necessary to provide a clearer presentation.

In view of the foregoing, we will not accept Pan American's recommendation to retain the transaction categories that appear in column (1) on the current Schedule B-44.

Northwest pointed out what they believed was an oversight in the rulemaking notice on Schedule B-41, "Receivables, Payables and Investments relating to Affiliates and Other Investment Data." This schedule contains a parenthetical note which instructs carriers not to report data in certain columns in a section of that schedule captioned "Other Investments." Northwest stated that one of the columns used to report "Notes and Accounts Payable" may have been inadvertently deleted from the parenthetical note. The carrier pointed out that this information was not required on the B-41 schedule which will be superseded by this rule and that a considerable burden would be involved if carriers were required to report such data.

Northwest's assertion is correct. The information was not reported on the old Schedule B-41, and it was not our intention to now require it by this rule. Accordingly, the number of the column relating to "Notes and Accounts Payable" has been inserted in the parenthetical note and carriers will not be required to report these data in the "Other Investments" section of Schedule B-41.

This rule will become effective 80 days after FEDERAL REGISTER publication and shall be applicable to all reports coming due after that date. Moreover, the requirement for filing Schedule B-4(b) shall be terminated with the report covering the quarter ended June 30, 1977.

In consideration of the foregoing, the Civil Aeronautics Board amends Part 241 of its Economic Regulations effective December 5, 1977, as follows:

1. Amend section 03—Definitions for Purposes of This System of Accounts and Reports, so as to delete the definition "Subsidiary company" and have section 03 read in pertinent part:

Section 03 Definitions for Purposes of This System of Accounts and Reports.

* * * * * * *

Stops, technical—Aircraft landings made for purposes other than enplaning or deplaning traffic. For purposes of identifying reporting entities, landings made for stopover passengers are regarded as technical stops.

Tariff, published— * * *

* * * * * * *

2. Amend section 1—Introduction to System of Accounts and Reports, to specifically exclude leasing operations by having section 1-6, "Accounting entities," read in pertinent part:

[1] The Board established the need for monitoring transactions between the carrier and its affiliates in Regulation ER-707, adopted September 22, 1971.

Sec. 1-6 Accounting entities.

(a) Separate accounting records shall be maintained for each air transport entity for which separate reports to the Civil Aeronautics Board are required to be made by sections 21(j) or 32(h), as applicable, and for each separate corporate or organizational division of the air carrier. For purposes of this Uniform System of Accounts and Reports, each nontransport entity conducting an activity which is not related to the air carrier's transport activities and each transport-related activity or group of activities qualifying as a nontransport venture pursuant to paragraph (b) of this section, whether or not formally organized within a distinct organizational unit, shall be treated as a separately operated organizational division; except that the provisions of this paragraph and paragraph (b) shall not apply to leasing activities.

(b) As a general rule, * * *

* * * * * * *

3. Amend section 2—General Accounting Policies, as follows:

A. By amending section 2-1, "Basis of allocation between entities" by changing paragraph (c) so that section 2-1 reads in pertinent part as follows:

Sec. 2-1 Basis of allocation between entities.

* * * * * * *

(c) For purposes of this section, investments by the air carrier used in common by the regulated air carrier and those transport-related revenue services defined as separate nontransport ventures under section 1-6(b) shall not be allocated between such entities but shall be reflected in total in the appropriate accounts of the entity which predominantly uses those investments. Where the entity of predominant use is a nontransport venture, the air carrier shall reflect the investment in account 1520, "Advances to Associated Companies."

* * * * * * *

B. By amending section 2-18—Transactions between members of an affiliated group, to eliminate the word "incidental" from paragraph (c) so that section 2-18 reads in pertinent part as follows:

Sec. 2-18 Transactions between members of an affiliated group.

* * * * * * *

(c) The cost, less all associated valuation allowance accumulations, of services and assets sold by or transferred from the regulated activity of an air carrier to other activities of an affiliated group shall be charged by the air carrier to either applicable transport-related revenues or capital gain income accounts, as appropriate. Where such services and assets are reflected in tariffs filed with the Board or in price lists held out to the general public, the associated revenues shall be recorded at the rates, fares, or charges contained therein in the appropriate transport-related services, capital gains or air transport income accounts. Where no tariff or prevailing price list is applicable, the associated revenue shall be recorded at the higher of cost or estimated fair market value of the asset or service involved. Any difference between the revenue so recorded and the agreed consideration to the air carrier shall be recorded in subaccount 88.1 Intercompany Transaction Adjustment-Credit or subaccount 89.1 Intercompany Transaction Adjustment-Debit.

(d) Income taxes * * *

* * * * * * *

4. Amend section 5—Balance Sheet Account Groupings, so that paragraph (b) of section 5-2, "Investments and special funds" reads in pertinent part as follows:

Sec. 5-2 Investments and special funds.

* * * * * * *

(b) Investments in investor controlled companies shall be recorded at cost plus the equity in undistributed earnings or losses since acquisition, except as provided in paragraph (c) of this section. Investments in all other associated or nonassociated companies shall be recorded at cost, except as provided in paragraph (c).

(c) Permanent impairment * * *

* * * * * * *

Section 22 [Amended]

5. Amend section 22—General Reporting Instructions, as follows:

A. By revising the list of reporting schedules to eliminate Schedule B-4(b) and change the title of Schedules B-41 and B-44 so that the list reads in pertinent part as follows:

Schedule No.	Schedule title	Filing frequency
*	* * *	*
B-3	Statement of changes in stockholder's equity.	Quarterly
B-4	Allowance for uncollectible accounts.	Do.
B-5	Property and equipment.....	Do.
*	* * *	*
B-14	Summary of property obtained under long-term lease.	Quarterly.
B-41	Receivables, payables and investments relating to affiliates and other investment data.	Annually.
B-43	Inventory of airframes and aircraft engines.	Do.
B-44	Transactions between air carrier and affiliates—annual summary.	Do.
B-46	Long-term and short-term non-trade debt.	Do.
*	* * *	*

B. By revising paragraph (d) to include a new subparagraph (16) and other editorial changes so that paragraph (d) will read in pertinent part:

(d) Statements of accounting or statistical procedures required to be filed under this system of accounts and reports are recapitulated below. As a general rule these statements or revisions thereof shall be filed prior to the date on which the procedures are to become effective. However, in certain cases, where a change in procedure or the initial adoption of a new procedure is necessitated by events or transactions occurring for the first time or by new requirements of professional or regulatory bodies, air carriers are permitted to file new or amended statements within thirty days after the close of the first calendar quarter in which the procedures become effective. The procedures shall be regarded as accepted unless the carrier is notified of Board objections within ninety days after receipt. These statements shall be filed in triplicate on standard forms AP-1 through AP-16.

(1) Procedures for assigning or prorating profit and loss items between operating entities as described in section 2-1.

* * * * * * *

(10) Procedures for assigning or prorating expenses between transport operations and transport-related operations as prescribed by section 10-7100 or 11-7100.

* * * * * * *

(14) Procedures for accounting for investments in investor controlled and other associated companies, including change in status from associated to investor controlled company or vice versa and adjustments as prescribed in sections 6-1510.1 and 6-1510.2.

* * * * * * *

(16) Procedures for allocating income taxes among the transport entities of the air carrier, its nontransport divisions and members of an affiliated group in accordance with section 2-18(d).

* * * * * * *

Section 23 [Amended]

6. Amend section 23—Certification and Balance Sheet Elements, as follows:

A. By revising the reporting instructions applicable to Schedule B-4 to delete the portion of the instructions dealing with accounts with investor controlled companies, other associated companies and nontransport divisions, so that the new title and instructions for this schedule read, in their entirety, as follows:

Schedule B-4—Allowance for uncollectible accounts.

(a) This schedule shall be filed by all route air carriers.

(b) Each allowance for uncollectible accounts shall be separately identified in the indicated section of this schedule. Columns 1 and 2 shall reflect the account number and description of the asset against which each allowance is provided. The sum of the balances at the end of each quarter which are provided against each asset account shall agree with the corresponding amount reported on Schedule B-1 Balance Sheet.

B. By revising paragraph (c) to exclude the term "subsidiaries" from the instructions applicable to Schedule B-12 so that the instructions for Schedule B-12 read in pertinent part:

Schedule B-12—Statement of changes in financial position.

* * * * * * *

(c) In determining working capital generated by operations, net income as reported in item 9899 on Schedule P-1.1 or Schedule P-1.2 shall be increased by expenses not requiring working capital

SAFETY FILM KODAK
V 42 179 SEP 15 77 S
UMI

in the current period and shall be decreased by income not generating working capital in the current period such as gains on property retirements and undistributed earnings of investor controlled companies. • • •

• • • • •

C. By revising the instructions to Schedule B–41 so that the new title and reporting instructions for this schedule read, in their entirety, as follows:

Schedule B–41—Receivables, payables and investments relating to affiliates and other investment data.

(a) This schedule shall be filed by all route air carriers.

(b) The data shall be grouped and separately subtotaled according to: (1) investments in investor controlled companies (account 1510.1); (2) investments in other associated companies (account 1510.2); (3) investments in nontransport divisions and other investments; and (4) notes and accounts receivable due to the air carrier.

(c) Column 1 shall reflect the name of each associated company, and each other issuer of securities held by the air carrier. This column shall also reflect the name of each company from which notes and accounts receivable, both current and noncurrent, are due to the air carrier. Additionally, this column shall show the name of each nontransport division for which separate records and books of account are maintained.

(d) Column 2 shall reflect gross amounts due from associated companies which are settled currently.

(e) Column 3 shall reflect advances, loans, and other amounts not settled currently, due from associated companies. This column shall also reflect the net amount receivable from each nontransport division.

(f) Column 4 "Investments at Cost" shall reflect the cost to the air carrier at date of acquisition of investments in associated companies. The cost of investments in investor controlled companies plus the equity in undistributed earnings or losses since acquisition reflected in column 5 "Equity in Undistributed Earnings" shall agree in the aggregate with the corresponding amounts in balance sheet subaccount 1510:1 Investments in Investor Controlled Companies. The cost of investments in other associated companies shall agree with the corresponding amounts in balance sheet subaccount 1510.2 Investments in Other Associated Companies.

(g) Column 5 "Equity in Undistributed Earnings" shall reflect the equity in undistributed earnings or losses of investor controlled companies since acquisition.

(h) Column 6 "Other Investments and Receivables" shall reflect the amount of the investments and receivables of a noncurrent nature for those companies listed in column 1 under "Other Investments."

(i) Column 7 "Notes and Accounts Payable" shall reflect the gross amounts due on current notes and open accounts with associated companies.

(j) Column 8 "Advances" shall reflect, from accounts 2210, "Long-Term Debt" and 2240, "Advances from Associated Companies," the amounts due associated companies for notes, loans and advances which are not settled currently. Also, column 8 shall reflect the advances from Nontransport Divisions in account 2240.

(k) Column 9 shall reflect the amount of dividends received during the year on all securities held for companies reported in column 1, except those received from investor controlled companies. Also, column 9 shall reflect the amount of interest received during the year on all bonds, notes and other investments for companies reported in column 1.

(l) Column 10 shall reflect the type of security, such as stocks, bonds, notes, or accounts receivable (abbreviate "a/c rec.") with respect to investments and noncurrent receivables.

(m) Column 11 shall reflect the words "yes" for investments held in the name of the air carrier and "no" for investments held in the name of others for the account of the air carrier. If the answer is "no" carriers should supply the name and address of each person in whose name the interest is held at the bottom of the schedule.

(n) Column 12 "Number of Shares or Debt Principal Amount" shall reflect the number of shares of stock or the principal amount of bonds or notes held by the carrier.

(o) Column 13 "Percent of Total Issue Outstanding" shall reflect, for the associated companies listed in column 1, the percent of outstanding stock owned by the air carrier. Column 13 is not applicable for "Other Investments" or for "Nontransport Divisions" listed in column 1.

D. By revising the instructions to Schedule B–44 so that the new title and reporting instructions for this schedule read, in their entirety, as follows:

Schedule B–44—Transactions between air carrier and affiliates—annual summary.

(a) This schedule shall be filed by all route air carriers.

(b) The aggregate annual amounts of transactions exchanged between the carrier and any of its affiliates, including any of its nontransport divisions, shall be grouped on this schedule by line item under four major groupings: (1) increase in carrier's resources, (2) decrease in carrier's resources, (3) dividends, and (4) income tax transactions.

(c) For the purposes of this schedule the term "affiliate" means associated companies including investor controlled companies and organizational divisions as defined in section 1–6 and the term "resources" shall mean assets such as current, noncurrent other than fixed, and fixed assets; it includes cash, receivables, securities, investments, equipment, supplies, buildings and land; and operational services. Net income from investor controlled companies and organizational divisions, as defined in section 1–6, shall be reported as an increase in a resource and net loss incurred by investor controlled companies and organizational divisions as defined in section 1–6 shall be reported as a decrease in a resource. Authorized but unissued bonds or stock, estimated revenue not yet accrued or collected and contingent assets, shall not be considered resources for the purposes of reporting on Schedule B–44.

(d) Within the transaction groupings for resources, the term "operational services" shall include the providing of benefits to other parties by an expenditure of assets, labor, material, supplies, know-how, or any combination of these in the conduct of business operations; permission granted for rights of entry or rights under leases will not be considered operational services; however, the cash disbursed or cash received for those rights will be reported under the appropriate classification.

(e) Within the transaction grouping for resource increases, on the line entitled "Cash received by carrier from affiliate," carriers shall report both cash and checks. This includes for example: (1) Cash advanced by an affiliate, (2) cash remittances by an affiliate to the carrier for purchases or services procured from the carrier, (3) cash remittances to the carrier by an affiliate for repayment of advances or loans, (4) cash dividends paid by an affiliate to the carrier, (5) cash remittances by affiliate to carrier in settlement of income tax transactions, (6) cash remittances by affiliate to carrier in settlement of "current account" transactions, and (7) checks drawn by an affiliate payable to the carrier in exchange for cash or cash in kind. Within the transaction grouping for resource decreases, on the line entitled "Cash disbursed by carrier to affiliate" carriers shall report cash paid out by the carrier to an affiliate, whether in cash or by check; this includes, for example, (1) cash advanced to an affiliate, (2) cash disbursed by the carrier to an affiliate for purchases or services procured from an affiliate, (3) cash disbursed by the carrier to an affiliate for repayment of advances or loans, (4) cash dividends paid by the carrier to an affiliate, (5) cash disbursed by the carrier to an affiliate in settlement of income tax transactions, (6) cash disbursed by carrier in settlement of "current account" transactions, and (7) checks drawn by the carrier payable to an affiliate in exchange for cash or cash in kind.

(f) Within the transaction grouping for resource increases, on the line entitled "Contribution of capital by affiliate to carrier," carriers shall report any increase in assets without regard to the type of asset which results from the purchase of additional securities or any other contribution of capital. Within the transaction groupings for resource decreases, on the line entitled, "Contribution of capital by carrier to affiliate," carriers shall report increases in the investment accounts as the result of a purchase of additional securities or any other contribution of capital. Any transaction reported on the lines discussed in this paragraph (f) or in paragraph (g) below which exceeds one percent of the carrier's net stockholder equity reported on line 2995 of Schedule B–1, "Balance Sheet," shall be described as to the nature of the transaction and the amount involved on Schedule P–2, "Notes to Income Statement."

(g) Within the transaction grouping for resource increases, on the line entitled "Credit adjustments to affiliate's retained earnings," carriers shall report credit adjustments to the affiliate's capital accounts which do not flow through the income statement such as credit adjustments to the opening balance of retained earnings. Within the transaction grouping for resource decreases, on the line entitled "Debit adjustments to affiliate's retained earnings," carriers shall report debit adjustments to the affiliate's capital accounts which do not flow through the income statement such as debit adjustments to the opening balance of retained earnings.

(h) Within the transaction grouping for resource increases, on the line entitled "Net income of affiliate for year (Debit to Investment and Credit to Account 8100)," the carrier shall report its proportionate share of the net income of an investor controlled company accounted for under the equity method. Within the transaction grouping for resource decreases, on the line entitled "Net loss of affiliate for year (Debit to Account 8100 and Credit to Investment)," the carrier shall report its proportionate share of the net loss of an investor controlled company accounted for under the equity method.

(i) Within the transaction grouping for resource increases and the transaction grouping for resource decreases, on the lines entitled "Operational services performed by affiliate for carrier" and "Operational services performed by carrier for affiliate," carriers shall report the amount of operational services flowing to and from the air carrier, respectively.

(j) Within the transaction grouping for resource increases and resource decreases, on the lines entitled "Property, equipment, and other assets acquired by carrier from affiliate" and "Property, equipment, and other assets disposed of by carrier to affiliate," air carriers shall report assets acquired from affiliates and assets disposed of to affiliates, respectively. These lines shall not include contributions of capital or cash transactions which shall be reported as directed in paragraphs (e) and (f) above.

(k) Within the transaction grouping for resource increases and resource decreases, on the lines entitled "Resources pledged by affiliate in the interest of carrier" and "Resources pledged by the carrier in the interest of affiliate" carriers shall report the assets, including receivables which have been pledged for the benefit of the carrier by the affiliate or by carrier for the benefit of the affiliate such as collateral or security for loans.

(l) Within the transaction grouping for dividends, carriers shall report cash dividends and property dividends paid or received. Both cash and property dividends shall also be reported in the appropriate line item under the resource increase or resource decrease transaction grouping. The basis used in valuing property dividends (cost, market value, etc.) shall be footnoted and described in the space provided at the bottom of the form.

(m) In the transaction group for income tax transactions, on the first two lines carriers shall report the amount of income taxes billed by the carrier to the affiliate and by the affiliate to the carrier. These amounts shall not be reported in resource increase or resource decrease transaction groupings until remittances are made. On the second two lines, carriers shall report the amounts of investment tax credits transferred, if any, pursuant to any tax allocation agreement, formal or informal, used in the preparation of consolidated tax returns. The last two lines shall reflect the transfer, if any, of net operating losses pursuant to any tax allocation agreement, formal or informal, used in the preparation of consolidated tax returns. No amount reported in the last four lines of this section shall be reported in the resource increase or resource decrease transaction groupings.

(n) In the blank space provided under the word "Affiliate" at the top of columns 2 through 9, carriers shall insert the name of the affiliate with whom the transactions took place, using a separate column for each affiliate.

(o) Columns 2, 3, 4, 5, 6, 7, 8, and 9 shall be used, one column for each affiliated group member, to separately reflect the annual aggregate dollar amount of the transactions exchanged between the carrier and the affiliate for each line item indicated in column 1 under each of the four transaction groupings.

Section 32 [Amended]

7. Amend section 32—General Reporting Instructions, as follows:

A. By revising the list of reporting schedules to change the title of Schedules B–41 and B–44 so that the list reads in pertinent part as follows:

Schedule No.	Schedule title	Filing frequency
•	•	•
B–14	Summary of property obtained under long-term lease.	Do.
B–41	Receivables, payables and investments relating to affiliates and other investment data.	Annually.
B–43	Inventory of airframes and aircraft engines.	Do.
B–44	Transactions between air carrier and affiliates—annual summary.	Do.
B–46	Long-term and short-term nontrade debt.	Do.
•	•	•

B. By revising paragraph (d) to include a new subparagraph (15) and other editorial changes so that paragraph (d) will read in pertinent part:

(d) Statements of accounting or statistical procedures required to be filed under this system of accounts and reports are recapitulated below. As a general rule these statements or revisions thereof shall be filed prior to the date on which the procedures are to become effective. However, in certain cases, where a change in procedure or the initial adoption of a new procedure is necessitated by events or transactions occurring for the first time or by new requirements of professional or regulatory bodies, air carriers are permitted to file new or amended statements within thirty days after the close of the first calendar quarter in which the procedures become effective. The procedures shall be regarded as accepted unless the carrier is notified of Board objections within ninety days after receipt. These statements shall be filed in triplicate on standard forms AP–1 through AP–16.

(1) Procedures for assigning or prorating profit and loss items between operating entities as described in section 2–1.

• • • • • •

(13) Procedures for accounting for investments in investor controlled and other associated companies, including change in status from associated to investor controlled company or vice versa and adjustments as prescribed in sections 6–1510.1 and 6–1510.2.

• • • • • •

(15) Procedures for allocating income taxes among the transport entities of the air carrier, its nontransport divisions, and members of an affiliated group in accordance with section 2–18(d).

• • • • • •

Section 33 [Amended]

8. Amend section 33—Certification and Balance Sheet Elements, as follows:

A. By revising paragraph (b) to exclude the term subsidiaries from the instructions applicable to Schedule B–12 so that the instructions for Schedule B–12 read in pertinent part:

Schedule B–12—Statement of changes in financial position.

• • • • • •

(b) In determining working capital generated by operations, net income as reported in item 9899 on Schedule P–1.1 or Schedule P–1.2 shall be increased by expenses not requiring working capital in the current period and shall be decreased by income not generating working capital in the current period such as gains on property retirements and undistributed earnings of investor controlled companies. • • •

• • • • • •

B. By revising the instructions to Schedule B–41 so that the new title and reporting instructions for this schedule read, in their entirety, as follows:

Schedule B–41—Receivables, payables and investments to affiliates and other investment data.

(a) This schedule shall be filed by all supplemental air carriers.

(b) The data shall be grouped and separately subtotaled according to: (1) Investments in investor controlled companies (account 1510.1); (2) investments in other associated companies (account 1510.2); (3) investments in nontransport divisions and other investments; and (4) notes and accounts receivable due to the air carrier.

V 42 179 SEP 15 77 UMI

(c) Column 1 shall reflect the name of each associated company, and each other issuer of securities held by the air carrier. This column shall also reflect the name of each company from which notes and accounts receivable, both current and noncurrent, are due to the air carrier. Additionally, this column shall show the name of each nontransport division for which separate records and books of account are maintained.

(d) Column 2 shall reflect gross amounts due from associated companies which are settled currently.

(e) Column 3 shall reflect advances, loans, and other amounts not settled currently, due from associated companies. This column shall also reflect the net amount receivable from each nontransport division.

(f) Column 4 "Investments at Cost" shall reflect the cost to the air carrier at date of acquisition of investments in associated companies. The cost of investments in investor controlled companies plus the equity in undistributed earnings or losses since acquisition reflected in column 5 "Equity in Undistributed Earnings" shall agree in the aggregate with the corresponding amounts in balance sheet subaccount 1510.1 Investments in Investor Controlled Companies. The cost of investments in other associated companies shall agree with the corresponding amounts in balance sheet subaccount 1510.2 Investments in Other Associated Companies.

(g) Column 5 "Equity in Undistributed Earnings" shall reflect the equity in undistributed earnings or losses of investor controlled companies since acquisition.

(h) Column 6 "Other Investments and Receivables" shall reflect the amount of the investments and receivables of a noncurrent nature for those companies listed in column 1 under "Other Investments."

(i) Column 7 "Notes and Accounts Payable" shall reflect the gross amounts due on current notes and open accounts with associated companies.

(j) Column 8 "Advances" shall reflect, from accounts 2210, "Long-Term Debt" and 2240, "Advances from Associated Companies," the amounts due associated companies for notes, loans and advances which are not settled currently. Also, column 8 shall reflect the advances from Nontransport Divisions in account 2240.

(k) Column 9 shall reflect the amount of dividends received during the year on all securities held for companies reported in column 1, except those received from investor controlled companies. Also, column 9 shall reflect the amount of interest received during the year on all bonds, notes, and other investments for companies reported in column 1.

(l) Column 10 shall reflect the type of security, such as stocks, bonds, notes, or accounts receivable (abbreviate "a/c rec.") with respect to investments and noncurrent receivables.

(m) Column 11 shall reflect the words "yes" for investments held in the name of the air carrier and "no" for investments held in the name of others for the account of the air carrier. If the answer is "no" carriers should supply the name and address of each person in whose name the interest is held at the bottom of the schedule.

(n) Column 12 "Number of Shares or Debt Principal Amount" shall reflect the number of shares of stock or the principal amount of bonds or notes held by the carrier.

(o) Column 13 "Percent of Total Issue Outstanding" shall reflect, for the associated companies listed in column 1, the percent of outstanding stock owned by the air carrier. Column 13 is not applicable for "Other Investments" nor for "Nontransport Divisions" listed in column 1.

C. By revising the instructions to Schedule B-44 so that the new title and reporting instructions for this schedule read, in their entirety, as follows:

Schedule B-44—Transactions between air carrier and affiliates—annual summary.

(a) This schedule shall be filed by all supplemental air carriers.

(b) The aggregate annual amounts of transactions exchanged between the carrier and any of its affiliates, including any of its nontransport divisions, shall be grouped on this schedule by line item under four major groupings: (1) increase in carrier's resources, (2) decrease in carrier's resources, (3) dividends, and (4) income tax transactions.

(c) For the purpose of this schedule the term "affiliate" means associated companies including investor controlled companies and organizational divisions as defined in section 1-6 and the term "resources" shall mean assets such as current, noncurrent other than fixed, and fixed assets; it includes cash, receivables, securities, investments, equipment, supplies, buildings and land, and operational services. Net income from investor controlled companies and organizational division, as defined in section 1-6, shall be reported as an increase in a resource and net loss incurred by investor controlled companies and organizational divisions as defined in section 1-6 shall be reported as a decrease in a resource. Authorized but unissued bonds or stock, estimated revenue not yet accrued or collected, and contingent assets, shall not be considered resources for the purpose of reporting on Schedule B-44.

(d) Within the transaction groupings for resources, the term "operational services" shall include the providing of benefits to other parties by an expenditure of assets, labor, material, supplies, know-how, or any combination of these in the conduct of business operations; permission granted for rights of entry or rights under leases will not be considered operational services; however, the cash disbursed or cash received for those rights will be reported under the appropriate classification.

(e) Within the transaction grouping for resource increases, on the line entitled "Cash received by carrier from affiliate," carriers shall report both cash and checks. This includes for example: (1) Cash advanced by an affiliate, (2) cash remittances by an affiliate to the carrier for purchases or services procured from the carrier, (3) cash remittances to the carrier by an affiliate for repayment of advances or loans, (4) cash dividends paid by an affiliate to the carrier, (5) cash remittances by affiliate to carrier in settlement of income tax transactions, (6) cash remittances by affiliate to carrier in settlement of "current account" transactions, and (7) checks drawn by an affiliate payable to the carrier in exchange for cash or cash in kind. Within the transaction grouping for resource decreases, on the line entitled "Cash disbursed by carrier to affiliate" carriers shall report cash paid out by the carrier to an affiliate, whether in cash or by check; this includes, for example, (1) cash advanced to an affiliate, (2) cash disbursed by the carrier to an affiliate for purchases or services procured from an affiliate, (3) cash disbursed by the carrier to an affiliate for repayment of advances or loans, (4) cash dividends paid by the carrier to an affiliate, (5) cash disbursed by the carrier to an affiliate in settlement of income tax transactions, (6) cash disbursed by carrier in settlement of "current account" transactions, and (7) checks drawn by the carrier payable to an affiliate in exchange for cash or cash in kind.

(f) Within the transaction grouping for resource increases, on the line entitled "Contribution of capital by affiliate to carrier," carriers shall report any increase in assets without regard to the type of asset which results from the purchase of additional securities or any other contribution of capital. Within the transaction groupings for resource decreases, on the line entitled, "Contribution of capital by carrier to affiliate," carriers shall report increases in the investment accounts as the result of a purchase of additional securities or any other contribution of capital. Any transaction reported on the lines discussed in this paragraph (f) or in paragraph (g) below which exceeds one percent of the carrier's net stockholder equity reported on line 2995 of Schedule B-1, "Balance Sheet," shall be described as to the nature of the transaction and the amount involved on Schedule P-2, "Notes to Income Statement."

(g) Within the transaction grouping for resource increases, on the line entitled "Credit adjustments to affiliate's retained earnings," carriers shall report credit adjustments to the affiliate's capital accounts which do not flow through the income statement such as credit adjustments to the opening balance of retained earnings. Within the transaction grouping for resource decreases, on the line entitled "Debit adjustments to affiliate's retained earnings," carriers shall report debit adjustments to the affiliate's capital accounts which do not flow through the income statement such as debit adjustments to the opening balance of retained earnings.

(h) Within the transaction grouping for resource increases, on the line entitled "Net income of affiliate for year

(Debit to Investment and Credit to Account 8100)," the carrier shall report its proportionate share of the net income of an investor controlled company accounted for under the equity method. Within the transaction grouping for resource decreases, on the line entitled "Net loss of affiliate for year (Debit to Account 8100 and Credit to Investment)," the carrier shall report its proportionate share of the net loss of an investor controlled company accounted for under the equity method.

(i) Within the transaction grouping for resource increases and the transaction grouping for resource decreases, on the lines entitled "Operational services performed by affiliate for carrier" and "Operational services performed by carrier for affiliate," carriers shall report the amount of operational services flowing to and from the air carrier, respectively.

(j) Within the transaction grouping for resource increases and resource decreases, on the lines entitled "Property, equipment, and other assets acquired by carrier from affiliate" and "Property, equipment, and other assets disposed of by carrier to affiliate," air carriers shall report assets acquired from affiliates and assets disposed of to affiliates, respectively. These lines shall not include contributions of capital or cash transactions which shall be reported as directed in paragraphs (e) and (f) above.

(k) Within the transaction grouping for resource increases and resource decreases, on the lines entitled "Resources pledged by affiliate in the interest of carrier" and "Resources pledged by carrier in the interest of affiliate," carriers shall report the assets, including receivables which have been pledged for the benefit of the carrier by the affiliate or by carrier for the benefit of the affiliate such as collateral or security for loans.

(l) Within the transaction grouping for dividends, carriers shall report cash dividends and property dividends paid or received. Both cash and property dividends shall also be reported in the appropriate line item under the resource increase or resource decrease transaction grouping. The basis used in valuing property dividends (cost, market value, etc.) shall be footnoted and described in the space provided at the bottom of the form.

(m) In the transaction group for income tax transactions, on the first two lines carriers shall report the amount of income taxes billed by the carrier to the affiliate and by the affiliate to the carrier. These amounts shall not be reported in resource increase or resource decrease transaction groupings until remittances are made. On the second two lines, carriers shall report the amounts of investment tax credits transferred, if any, pursuant to any tax allocation agreement, formal or informal, used in the preparation of consolidated tax returns. The last two lines shall reflect the transfer, if any, of net operating losses pursuant to any tax allocation agreement, formal or informal, used in the preparation of consolidated tax returns. No amount reported in the last four lines of this section shall be reported in the resource increase or resource decrease transaction groupings.

(n) In the blank space provided under the word "Affiliate" at the top of columns 2 through 9, carriers shall insert the name of the affiliate with whom the transactions took place, using a separate column for each affiliate.

(o) Columns 2, 3, 4, 5, 6, 7, 8, and 9 shall be used, one column for each affiliated group member, to separately reflect the annual aggregate dollar amount of the transactions exchanged between the carrier and the affiliate for each line item indicated in column 1 under each of the four transaction groupings.

9. Amend CAB Form 41 schedules to reflect the foregoing changes in accounting as shown in Exhibits A, B, and C, and add a new accounting plan form AP-16 as shown in Exhibit D.

(Secs. 204(a), 407, Federal Aviation Act of 1958, as amended, 72 Stat. 743 and 766, (49 U.S.C. 1324, 1377).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

NOTE—The Civil Aeronautics Board is submitting this rule to the Comptroller General for such review as may be appropriate under the Federal Reports Act, 44 U.S.C. 3512. The effective date of this rule accordingly reflects the inclusion of the 45-day period which that statute allows for such review. 44 U.S.C. 3512(c)(2).

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index $8.00
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

..... CUMULATIVE LIST OF CFR SECTIONS AFFECTED ($10.00 a year domestic; $12.50 foreign)

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of State

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The position of Secretary to the Director, Management Operations is excepted under Schedule C because it is confidential in nature.

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202–632–4533.

Accordingly, 5 CFR 213.3304(a)(31) is added as set out below:

§ 213.3304 Department of State.

(a) *Office of the Secretary.* • • •

(31) One Secretary to the Director, Management Operations.

• • • • • •

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.77–26870 Filed 9–15–77;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Agriculture

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment (1) changes the title of Private Secretary and Administrative Assistant to the Executive Assistant to the Secretary to Private Secretary to the Executive Assistant to the Secretary; (2) excepts the following positions under Schedule C because they are confidential in nature: One position of Private Secretary to the Assistant Deputy Secretary, one position of Confidential Assistant to the Director of Agricultural Economics, and one position of Confidential Assistant to the Administrator (Food Safety and Quality Service).

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202–632–4533.

Accordingly, 5 CFR 213.3313(a)(8), (n)(4), (v)(2) are amended, and (c)(15) is added as set out below:

§ 213.3313 Department of Agriculture.

(a) *Office of the Secretary.* • • •

(8) One Private Secretary to the Executive Assistant to the Secretary.

• • • • • •

(c) *Office of the Deputy Secretary.* • • •

(15) One Private Secretary to the Assistant Deputy Secretary.

• • • • • •

(n) *Agricultural Economics.* • • •

(4) Three Confidential Assistants to the Director.

• • • • • •

(v) *Food Safety and Quality Service.* • • •

(2) Three Confidential Assistants to the Administrator.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 110]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period September 18–24, 1977. This regulation is needed to provide for orderly marketing of fresh lemons for the regulation period because of the production and marketing situation confronting the lemon industry.

EFFECTIVE DATE: September 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202–447–3545.

SUPPLEMENTARY INFORMATION: *Findings.* (1) Pursuant to the amended marketing agreement and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of such lemons, as provided in this regulation, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the specified week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation for the quantity of lemons it considers advisable to be handled during the specified week. The recommendation resulted from consideration of the factors covered in the order. The committee further reports the demand for lemons has improved for this week. Average f.o.b. price was $6.99 per carton the week ended September 10, 1977, compared to $6.95 per carton the previous week. Track and rolling supplies at 120 cars were down 15 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be established as provided in this regulation.

(3) It is further found that it is impracticable and is contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because the time intervening between the date when information upon which this regulation is based became available and the time when it must become effective to effectuate the declared policy of the act is insufficient. A reasonable time is permitted, for preparation for the effective time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for lemons and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning the provisions and effective time has been provided to handlers of lemons. It is necessary, to effectuate the declared policy of the act, to make this regulation effective as specified. The committee meeting was held on September 13, 1977.

§ 910.410 Lemon Regulation 110.

(a) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period September 18, 1977, through September 24, 1977, is established at 215,290 cartons.

(2) As used in this section, "handled" and "carton(s)" have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated: September 15, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural and Marketing Division.

[FR Doc.77-27224 Filed 9-15-77;11:39 am]

[Bartlett Pear Reg. 12, Amdt. 1]

PART 931—FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Minimum Grade, Size and Container Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment continues through June 30, 1978, current minimum grade, size and container requirements applicable to shipments of fresh Bartlett pears grown in Oregon (except the Medford District) and Washington. Unless extended, the regulation would expire September 16, 1977. This action is necessary to assure that pears shipped will be of suitable quality and size in the interest of consumers and producers. Several containers and packs are authorized to reflect trade preferences and needs.

EFFECTIVE DATE: August 1, 1977, through June 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202–447–3545).

SUPPLEMENTARY INFORMATION: Notice was published in the August 19, 1977, issue of the FEDERAL REGISTER (42 FR 41866) that consideration was being given to a proposal by the Northwest Fresh Bartlett Pear Marketing Committee, established under the marketing agreement and Order No. 931 (7 CFR Part 931) regulating the handling of fresh Bartlett pears grown in Oregon and Washington. This is a regulatory program effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice provided that all written comments in connection with the proposal be submitted not later than September 5, 1977. None were received.

Bartlett Pear Regulation 12 is currently effective during the period August 1, 1977, through September 15, 1977. This regulation specifies grade and size requirements for fresh Bartlett pears grown in Oregon, except the Medford District, and Washington. The requirements are that Bartlett pears, other than Red Bartlett pears, when packed in any of the authorized containers except the western lug or containers of 14–15 pounds net weight, shall grade at least U.S. No. 1 and be not smaller than 165 size except such pears grading U.S. No. 2 may be shipped if they are 150 size or larger.

Red Bartlett pears shall grade at least U.S. No. 1 and be not smaller than 180 size except such pears grading U.S. No. 2 may be shipped if they are 165 size or larger.

Bartlett pears of any variety packed in the western lug must grade at least U.S. No. 2 and be not smaller than 2¼ inches in diameter, except that pears may be handled in such container which fail to meet the requirements of U.S. No. 2 grade only because of serious, but not very serious, damage caused by hail marks or frost, if the shape of the pear is such that it will cut at least one good half.

Bartlett pears of any variety packed in containers of 14–15 pounds net weight must grade at least U.S. No. 2 and be at least 2⅛ inches in diameter, except that pears may be handled in such con-

V 42180 SEP 16 77 UMI

tainers if they grade Washington C Grade and are not smaller than 2¾ inches in diameter. Several containers and packs are prescribed.

This action reflects the Department's appraisal of the crop and the need for regulation based on current and prospective market conditions. The extension of the effective period of Bartlett Pear Regulation 12 is designed to provide for orderly marketing in the interest of producers and consumers consistent with the objectives of the act. Committee reports indicate that fresh shipments of Washington-Oregon Bartlett pears will total about 2.4 million standard box equivalents in 1977, compared to 1.9 million standard box equivalents in 1976. The amendment is consistent with the quality and size combination of the estimated crop of Washington-Oregon Bartlett pears.

After consideration of all relevant material presented, including the proposal set forth in the notice, the recommendations submitted on July 8, 1977 by the Northwest Fresh Bartlett Pear Marketing Committee, established under the marketing agreement and order, and other available information, it is hereby found that regulation of Oregon-Washington Bartlett pears, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of Oregon-Washington Bartlett pears are currently in progress and the regulation should continue to be applicable to all such shipments in order to effectuate the declared policy of the act; (2) the provisions of the amendment are identical to those specified in the notice; and (3) compliance with this amended regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

The provisions of Bartlett Pear Regulation 12 (§ 931.312; 42 FR 38578) are revised to read as follows:

§ 931.312 Bartlett Pear Regulation 12.

(a) During the period August 1, 1977, through June 30, 1978, no handler shall handle any lot of Bartlett pears, except Bartlett pears grown in the Medford District, unless such pears meet the following applicable requirements or are handled in accordance with paragraphs (a) (4) or (5) of this section:

(1) *Minimum Grade and Size.* (i) Bartlett pears of varieties other than Red Bartletts, when packed in the standard western pear box, the "L.A. lug", or their carton equivalents, in halfcartons (containers with inside dimensions of 19¼ x 11½ x 5½ inches), in master containers containing overwrapped consumer packages of pears, or in "tight-filled" containers shall be of a size not smaller than 165 size and shall grade at least U.S. No. 1: *Provided*, That Bartlett pears of such varieties may be handled in such containers if they grade at least U.S. No. 2 and are of a size not smaller than 150 size. Red Bartlett variety pears, when packed in any of the containers specified in this subdivision, shall be of a size not smaller than 180 size and shall grade at least U.S. No. 1: *Provided*, That pears of such variety may be handled in such containers if they grade at least U.S. No. 2 and are of a size not smaller than 165 size;

(ii) Bartlett pears of any variety, when packed in the "western lug", shall grade at least U.S. No. 2 and be not less than 2¼ inches in diameter: *Provided*, That such pears of any variety which fail to meet the requirements of U.S. No. 2 grade only because of serious, but not very serious, damage caused by hail marks and/or frost may be shipped if the shape of the pear is such that it will cut at least one good half; and

(iii) Bartlett pears of any variety, when packed in containers containing at least 14 pounds but not more than 15 pounds net weight, shall grade at least U.S. No. 2 grade and measure not less than 2⅛ inches in diameter: *Provided*, That such pears may be handled in such containers if they meet the minimum requirements of Washington C Grade and are not less than 2⅜ inches in diameter.

(2) *Pack or Container Requirements.* Bartlett pears of any variety shall be packed in one of the following types of containers:

(i) "Standard western pear box" or "L.A. lug" or their carton equivalents;

(ii) "Western lug" or containers having a capacity equal to or greater than said lug;

(iii) "Half-carton" containers;

(iv) Containers of at least 14 pounds but not more than 15 pounds net weight;

(v) "Tight-filled" containers; or

(vi) Master containers containing overwrapped consumer packages.

(3) *Special inspection requirements for minimum quantities.* During the aforesaid period any handler may ship on any conveyance up to, but not in excess of, an amount equivalent to 200 "standard western pear boxes" of pears without regard to the inspection requirements of § 931.55 under the following conditions: (i) Each handler desiring to make shipment of pears pursuant to this subparagraph shall first apply to the committee on forms furnished by the committee for permission to make such shipments. The application form shall provide a certification by the shipper that all shipments made thereunder during the marketing season shall meet the marketing order requirements, that he agrees such shipments shall be subject to spot check inspection, and that he agrees to report such shipments at time of shipment to the committee on forms furnished by the committee, showing the car or truck number and destination; and (ii) on the basis of such individual reports, the committee shall require spot check inspection of such shipments.

(4) *Special purpose shipments.* Notwithstanding any other provision of this section, any shipment of pears in gift packages may be handled without regard to the provisions of this paragraph and of §§ 931.41 and 931.55.

(5) Notwithstanding any other provision of this section, any individual shipment of pears which meets each of the following requirements may be handled without regard to the provisions of this paragraph and of §§ 931.41 and 931.55:

(i) The shipment consists of pears sold for home use and not for resale;

(ii) The shipment does not, in the aggregate, exceed 500 pounds net weight of pears; and

(iii) Each container is stamped or marked with the handler's name and address and with the words "not for resale" on letters at least one-half inch in height.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; "U.S. No. 1", "U.S. No. 2", and "size" shall have the same meaning as when used in the United States Standards for Summer and Fall Pears (7 CFR 51.1260–51.1280); "150 size", "165 size", and "180 size" shall mean that the pears are of a size which pack, in accordance with the sizing and packing specifications of a standard pack, as specified in said United States Standards, 150, 165, or 180 pears, as the case may be, in a standard western pear box (inside dimensions 18 inches by 11½ by 8½ inches); the term "tight-filled" shall mean that the pears in any container shall have been well settled by vibration according to approved and recognized methods; the term "master container" shall mean those containers containing overwrapped consumer packages of pears; the term "very serious damage" shall mean any injury or defect which very seriously affects the appearance or the edible or shipping quality of the pears, "Washington C Grade" shall have the same meaning as when used in the State of Washington Department of Agriculture Permanent Order 103 (Effective November 10, 1966); the term "Western lug" shall mean a container with inside dimensions of 18 by 11½ by 7 inches and the term "L.A. lug" shall mean a container with inside dimensions of 16⅛ by 13½ by 5¾ inches.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: September 13, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

LIMITED REVISION OF EXPORT LICENSE APPLICATION PROCESS

AGENCY: Office of Export Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: The Export Administration Regulations are amended to delete all requirements for the use of Form DIB–623P, Application Processing Card. This amendment will simplify the application process and reduce work required of the exporter in submitting applications.

EFFECTIVE DATE: September 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles C. Swanson, Director, Operations Division, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (202–377–4196).

SUPPLEMENTARY INFORMATION: This revision eliminates all requirements for use of Form DIB–623P, Application Processing Card, in order to simplify the application process and reduce work required of the exporter in submitting applications.

Accordingly, the Export Administration Regulations (15 CFR Part 368 et seq.) are amended as follows:

PART 372—INDIVIDUAL VALIDATED LICENSES AND AMENDMENTS

1. In § 372.4, paragraph (a) is revised, paragraph (a) (5), excluding "Note", is deleted, and the second sentence of (b) is deleted. As revised, paragraph (a) reads as follows:

§ 372.4 How to apply for a validated license.

(a) *Form and Manner of Filing*—(1) *Application Form.* An application for a validated license must be submitted on Form DIB–622P, Application for Export License. Since January 1, 1976, only Forms DIB–622P revised March 1975 or later are acceptable. Earlier versions will be returned without action. An application that omits essential information, or is otherwise incomplete, will be returned without action to the applicant. (See § 370.12 for instructions on obtaining forms.)

* * * * * *

PART 373—SPECIAL LICENSING PROCEDURES

§ 373.2 [Amended]

2. Paragraph (c) (2) (i) of § 373.2 is deleted and reserved.

§ 373.3 [Amended]

3. Paragraphs (d) (2) (i) and (d) (3) (i) are deleted and reserved.

4. By revising § 373.5(d) (1) to read as follows:

§ 373.5 Periodic Requirements (PRL) License.

* * * * *

(d) *Application Procedure*—(1) *Application Form.* An application for a PRL Licensee shall be prepared and submitted on Form DIB–622P, Application for Export License, in accordance with instructions contained in § 372.4(a), except as modified below.

5. By revising § 373.6(b) (1) to read as follows:

§ 373.6 Time Limit (TL) License.

* * * * *

(b) *Preparation of a TL License Application*—(1) *Application form.* An application for a Time Limit License shall be prepared and submitted on an Application for Export License, Form DIB–622P, in accordance with instructions in § 372.4(a), except that the applicant shall: * * *

§ 373.7 [Amended]

6. By deleting and reserving §§ 373.7 (d) (1) (ii) (a) and 373.7(d) (1) (iv) (a).

PART 379—TECHNICAL DATA

§ 379.5 [Amended]

7. By amending § 379.5 as follows:

Section 379.5(a) (2) is deleted, and § 379.5(a) (3) is renumbered as § 379.5 (a) (2).

Section 379.5(c) is deleted and reserved.

(Sec. 4 Pub. L. 91–184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization order 10–3, dated Nov. 17, 1975, 40 FR 58876 (1975), as amended; and Domestic and International Business Administration Organization and Function Orders 46–1, dated November 17, 1975, 40 FR 59764 (1975), as amended and 46–2, dated November 17, 1975, 40 FR 59761 (1975) as amended.)

RAUER H. MEYER,
Director, Office of Export Administration.

Title 16—Commercial Practice

CHAPTER I—FEDERAL TRADE COMMISSION

PART 433—PRESERVATION OF CONSUMERS' CLAIMS AND DEFENSES

Two-Party Open End Consumer Credit Contracts

AGENCY: Federal Trade Commission.

ACTION: Modification of exemption from trade regulation rule; denial of proposed permanent exemption—Forty-five day extension of exemption.

SUMMARY: On April 14, 1977 the Commission issued a limited exemption from certain requirements of the Trade Regulation Rule concerning the Preservation of Consumers' Claims and Defenses (42 FR 19487), for two-party open end consumer credit contracts that were executed before August 1, 1977 and do not involve the use of negotiable instruments or waivers of claims and defenses. That exemption was subsequently extended for a period of 45 days beyond August 1, 1977 (42 FR 40426). The Commission when it issued the exemption also invited comment on the exemption issued and on a proposed, permanent exemption.

Based on its review of the comments received, the Commission has decided to modify the exemption so that the definitions make it clear that "30 day accounts", which do not allow the consumer the option of paying in installments, fall within the exemption issued. The Commission has also carefully reviewed the record and has decided that the arguments and data presented by commenters do not support the issuance of a permanent exemption. The Commission is however, further extending the limited exemption for another 45 days beyond September 14, 1977. Thus, the Rule will apply to all consumer credit contracts taken or received by sellers after October 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Walter Diercks, Deputy Assistant Director, Division of Compliance, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (202–254–9491).

DATES: The Rule will apply to all consumer credit contracts taken or received by sellers after October 31, 1977.

SUPPLEMENTARY INFORMATION: Section 433.2(a) of the Trade Regulation Rule on Preservation of Consumers' Claims and Defenses requires that a short Notice be included in all consumer credit contracts used by sellers. The required Notice expressly preserves the consumers' right to assert against any third party which subsequently acquires the contract any legally sufficient claims and defenses that the consumer may have against the seller.

On April 14, 1977 (42 FR 19847) the Commission issued a limited exemption from the Rule for two-party open end consumer credit contracts that were executed before August 1, 1977 and do not involve the use of negotiable instruments or waivers of claims and defenses. The Commission subsequently extended the exemption for a period of 45 days beyond August 1, 1977 (42 FR 40426). The Commission is further extending its limited exemption for an additional 45 day period. Thus, as of November 1, 1977 the Rule will apply to all consumer credit contracts taken or received by sellers.

The Commission also, in its April 14 1977 FEDERAL REGISTER Notice, invited interested parties to comment on the exemption, as issued, as well as a permanent exemption proposed in a petition filed by the National Retail Merchants Association (NRMA) and the American Retail Federation (ARF). The proposed exemption would have applied to two-party open end consumer credit contracts which do not involve the use of negotiable instruments or waivers of claims and defenses. Further, upon transfer of the contract, the Notice required by the Rule would become a term of the consumer credit contracts.

V 421180
SEP 16 77
UMI

Twenty-six comments were received by the Commission in response to its April 14, 1977 FEDERAL REGISTER Notice. Industry commenters basically argued that the Commission should issue the broader exemption proposed by the National Retail Merchants Association (NRMA) and the American Retail Federation (ARF) in their petitions for exemption. Industry commenters argued that because the proposed exemption is confined to contracts that are not negotiable and do not contain waiver provisions, and because they would agree to include the required Notice in the event of transfer, consumers would receive equivalent protections. The National Consumer Law Center objected to the issuance of any exemption for two-party credit contracts.

After analyzing the views, arguments and data, the Commission has decided that the exemption, as issued, should be slightly modified and, further, that the petitions submitted by NRMA and ARF should be denied.

In denying the NRMA/ARF petitions the Commission carefully weighed the costs of prospective compliance with the Rule against the potential for consumer injury that might result from exempting two-party open end consumer credit contracts from the Rule. Major compliance costs put forth by industry commenters were those costs associated with disposing of obsolete inventories of forms, typically a six-month supply, and reprinting new forms—a total of $3 million. The Commission decided that the costs of prospective compliance, especially in light of the extension of the exemption through October 31, 1977, would be substantially less than $3 million and further that these costs did not outweigh the potential for consumer injury that might result if the exemption were extended permanently. The potential for consumer injury stems mainly from the state laws that may operate to cut off consumers' claims and defenses despite non-negotiability and the absence of a waiver. Several commenters conceded that certain state laws may have such an effect. The Commission has further reviewed these state laws and determined that the uncertainties of the state laws of assignment suggests the desirability of denying the proposed permanent exemption.

In order to give all sellers an adequate opportunity to come into compliance with the Rule, the Commission is extending its limited exemption for an additional 45 days beyond September 14, 1977. Thus, the Rule will apply to all consumer credit contracts taken or received by sellers after October 31, 1977.

The Commission is also modifying 16 CFR 433.3(b)(3), the definition of "open end credit," to track the language of 202.2(w) of Federal Reserve Board Regulation B, as amended March 23, 1977 (12 CFR Part 202), to include so-called "30 day accounts," extensions of credit which do not allow the consumer the privilege of paying in installments, within the exemption, issued on April 14, 1977.

The primary purpose of the exemption, as issued, was to avoid costs involved in modifying existing two-party open end credit agreements. The Commission decided that there was no justification for distinguishing "30 day accounts" from other two-party open end credit contracts that are exempted through October 31, 1977.

Accordingly, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., the provisions of Part I, Subparts B and C of the Commission's Procedures and Rules of Practice, 16 CFR 1.7, et seq., and 553 of Subchapter II, Chapter 5, Title 5 of the U.S. Code (Administrative Procedures), the Commission hereby modifies §§ 433.3(a) and 433.3(b)(3) of 16 CFR Part 433:

§ 433.3 Exemption of sellers taking or receiving open end consumer credit contracts before November 1, 1977, from requirements of § 433.2(a).

(a) Any seller who has taken or received an open end consumer credit contract before November 1, 1977, shall be exempt from the requirements of 16 CFR Part 433 with respect to such contract: *Provided*, The contract does not cut off consumers' claims and defenses.

(b) Definitions. The following definitions apply to this exemption: * * *

(3) "Open end credit": Consumer credit extended pursuant to a plan under which a creditor may permit an applicant to make purchases or make loans from time to time directly from the creditor or indirectly by use of a credit card, check or other device as the plan may provide. The term does not include negotiated advances under an open end real estate mortgage or a letter of credit.

* * * * * *

By direction of the Commission.

CAROL M. THOMAS,
Secretary.

SEPARATE STATEMENT OF COMMISSIONER CALVIN J. COLLIER

Commissioner Collier dissented from the Commission's decision to deny the permanent exemption, stating:

Although I agree with the Commission's decision to grant a further temporary exemption, I dissent from its decision to refuse a permanent (conditional) exemption from the "Holder-in-Due-Course Rule"[1] for open-end credit and 30-day accounts. I would grant such an exemption where:

The debt instrument is not a negotiable instrument;

It does not contain a waiver or limitation of consumer claims or defenses; and

It is not transferred, sold, pledged or assigned.

This exemption would require the addition of the notice prior to any subsequent assignment.

By its terms, the exemption would unquestionably provide the same measure of consumer protection as the rule itself. The rule has relevance only where obligations are assigned to third persons; and, among other things, the exemption would be unavailable if an assignment were made. The possibility for lesser consumer protection can therefore arise only if the exemption is exceeded and the rule is violated. Conversely, neither the rule nor the exemption is violation-proof, although the prospect of substantial civil penalties and litigation expenses, far in excess of the likely profit from violating the rule (with or without the exemption), should hold in check the risks of this behavior.

The central issue, in my view, is whether the exemption will make it significantly easier to both violate the law and get away with it. An affirmative answer, it seems to me, requires a showing that: (1) Detection of law violations will be more difficult; (2) the cutting off of consumer claims or defenses will be more likely; and (3) sellers and assignees will perceive these advantages as sufficiently attractive to offer a premium price for these consumer obligations. Some discussion on each of these conditions is required.

At the outset, however, it is important to note that the failure to grant an exemption will add to the costs of supplying credit. The costs in wasted forms alone are estimated to be between $0.5 million and $3 million, depending on various assumptions.[2] There are also the intangible costs of aggravation that invariably attend compliance with the latest government regulatory command. Finally, the exemption proposed would reduce the inevitable costs of consumer confusion that surely will result when a consumer applying for an open-end or 30-day account reads the required notice; inquires with a raised eyebrow whether the seller plans to assign his obligation to a third party; is told, "no"; asks then what the reason for the notice is; and is told that it serves no purpose except that it is required by law. The Commission can ill afford to incur unnecessary costs of this kind.

The staff has argued that violations of the rule will be more difficult to detect as a result of the exemption. The principal approach to policing compliance with the rule will apparently be subpoenas of credit agreements to assure that the required notice is included.[3] But policing compliance with the rule with the exemption could be just as easily achieved by demanding the credit agreements (to be sure that they contained either the required notice or the absence

[1] Trade Regulation Rule Concerning Preservation of Consumers Claims and Defenses, 16 CFR Part 433 (1977).

[2] The smaller estimates depend on the assumption that sellers have been depleting their inventories of old forms during the pendency of our deliberations. Moreover, today's action of the Commission to extend the temporary exemption will reduce these costs even further. These costs, like all other costs, must be passed through to consumers, no matter what the state of competition in the regulated industry. (Economic theory tells us that there would be a proportionately greater passing through of these costs the more competitive the industry.)

of waiver language) and by further demanding a list of those that had been assigned. The absence of the notice on the assigned agreements would, of course, indicate a violation of the rule.[4] In short, I do not see how the task of policing compliance with the rule would be rendered more costly by the exemption,[5] how detection would be made more difficult, or how sellers or assignees would perceive a more valuable temptation to violate the rule.

Neither do I believe that the exemption would increase the likelihood that consumers' claims and defenses would be cut off by the exemption. Sellers who are not deterred by the prospects of heavy civil penalties but who wish to cut off consumers' claims might just as well do so by ignoring the rule altogether.

The staff is concerned, however, about the situation where the seller (in excess of the exemption and thus in violation of the rule) assigns an open-end or 30-day account that is not on its face a negotiable instrument and that does not contain a waiver of defenses. Under the Uniform Commercial Code the consumer's claims and defenses against the seller could be asserted against the assignee.[6] But under some recently enacted state consumer protection statutes the consumer's rights are less clear. My research has disclosed eleven such statutes that could be interpreted to abrogate consumer rights. Of these, eight seem to be triggered by the presence of a waiver clause of the kind that the exemption would absolutely forbid.[7] Behind each of these statutes there seems to have been a clear attempt to expand consumer rights in the face of a purported waiver, not to restrict them in the absence of one. In three other states, the statutory language is more susceptible of a perverse interpretation that would limit, rather than expand the consumer rights granted by ordinary commercial law.[8] No court to my knowledge, or, apparently to the staff's, has ever interpreted any of these statutes to the feared effect. Should a court ever do so, I do not see why we could not cancel the exemption or limit its geographic application for that reason.

The staff also argues that open-end consumer obligations might be transferred to a bankruptcy trustee without the notice (again, in violation of the rule).[9] The trustee, it is thought, might retransfer, without adding the notice, to a third party. If these obligations did not bear a waiver of the kind that the exemption would forbid, I do not clearly see how consumer claims and defenses could be cut off. Nor do I see any reason why a bankrupt, bankruptcy judge or trustee[10] would fail to respect the legal obligation to include the notice at the time of assignment.

Each variety of potential consumer injury hypothesized by the staff requires conduct in excess of the exemption and in violation of the rule. Undoubtedly, rule violations will occur in spite of the prospect of civil penalties and some[11] consumers will suffer injury. But I fail to see how the proposed exemption will enlarge this class of violators or aggravate that injury. The prospects of detection are the same and the potential for incremental profit is remote.

Indeed, the information at hand indicates that the chances for consumer injury by cutting off consumer claims and defenses in the case of open-end or 30-day accounts is especially remote. These arrangements typically signal a continuing relationship between consumer and seller grounded in part on the seller's hope that the consumer will be a repeat, if not a regular, customer. This phenomenon is consistent with the information we have indicating that such accounts are seldom assigned (except to bill collectors against whom claims and defenses are available in any event). In contrast, the rule itself was principally directed at so-called fly-by-night sellers and sellers engaged in occasional, nonrepeat sales of big-ticket items. In short, there is no reason to suspect that the proposed exemption would aggravate such compliance problems as may otherwise arise.

Finally, we are urged to reject the exemption because the required notice may contribute to consumer education. The short answer to this question is that the rule is drafted in legal jargon[12] to serve a legal, not an educational, purpose.[13] For example, the rule does not advise consumers of their substantive rights, but only that they are preserved in an assignment, whatever they are. Moreover, if no assignment occurs, no educational purpose can possibly be served, and only confusion—as opposed to education—can result.

For these reasons, I believe that the Commission's action in failing to grant a conditional exemption for open-end credit will oblige consumers to pay more for credit with no added protection. I would grant an exemption conditioned along the lines suggested in the first part of my statement.

SEPARATE STATEMENT OF THE COMMISSION

The Commission in denying the petition issued the following statement:

The Commission has carefully reviewed the petitioners' request for a permanent exemption from the requirements of the Trade Regulation Rule Concerning Preservation of Consumers' Claims and Defenses (16 CFR Part 433) and has determined to deny it.

When promulgated the Rule was designed to ensure that consumers purchasing on credit would not, as a result of negotiation or assignment of their credit instruments, be deprived as to third party holders of those instruments of defenses which the consumers would have been able to assert against the original sellers. In fashioning the Rule the Commission determined that its requirements should apply to "consumer credit contracts" (as defined in the Rule), a category somewhat broader than negotiable instruments or contracts containing waiver of defenses clauses. One concern of the Commission in taking this approach was that certain State laws

[3] It is possible that some portion of law violators will compound their misconduct by failing to produce any noncomplying documents.

[4] Once again, and presumably to the same extent, a violator could compound his misconduct by falsifying his return. See previous footnote.

[5] Although efficiency of enforcement is an important consideration, we ought to strive to confine violations of our law to those situations in which consumers may be injured. Failing to grant the exemption when the vast bulk of open-end obligations are not assigned could divert resources to policing "technical" violations that have little possibility of ripening into actual consumer injury. We might in this way actually reduce, not increase, our enforcement efficiency.

[6] U.C.C. § 9-318(1) (1972 version). Claims and defenses arising from the contract are good against the assignee whether they accrue before or after assignment. U.C.C. § 9-318(1)(a) (1972 version). Consumers' claims not arising from the contract (such as a personal injury claim against the seller) are good against the assignee if they accrue before assignment. U.C.C. § 9-318(1)(b) (1972 version). In addition, it is extremely likely that an assignee of any debt instrument not bearing the required notice would be held to have taken the instrument with actual knowledge (implied by law) that the obligation is conditional on the seller's preference.

[7] In some of these eight states there is also an issue whether the relevant statutes apply at all to open-end. 2 Consumer Credit Guide (CCH) (Del.) ¶6012, 6042; 3 Consumer Credit Guide (Kans.) ¶5154; 3 Consumer Credit Guide (CCH) (Ohio) ¶6016; Id. (Pa.) ¶¶6225, 6275; Id. (S.C.) ¶5104; Id. (Tex.) ¶6023; Id. (W. Va.) ¶5032; Id. (Wisc.) ¶5107. Of these the Kansas statute is most troublesome.

[8] 1 Consumer Credit Guide (CCH) (Ariz.) ¶6152. Even here, however, most consumers will find a strong counter-argument in Id., ¶6151. See also 3 Consumer Credit Guide (CCH) (N.C.) ¶6325; 3 Consumer Credit Guide (CCH) (S.D.) ¶6185A.

[9] It is at least doubtful that those concerned with administering the bankrupt's estate would violate our rule and subject themselves to personal liability for civil penalties, all for the benefit of creditors. To be sure, the bankruptcy law may require that the consumer have a provable claim against the estate, but this would appear to be so whether the notice is included in the underlying agreement or not.

[10] In order for consumers to be injured (with or without the exemption) the following events must conjoin: (1) The consumer must have a valid claim against the seller. (2) The consumer must not be in a position to assert this claim against the seller prior to assignment. (3) There must be an assignment. (4) The seller and the assignee must both refuse to adjust the claim. (5) The buyer must be willing to litigate the claim (as such or as a defense). (6) There must be a violation of the rule. (7) Ordinary operation of law, in face of the violation, must cut off the claim on assignment.

Open-end is distinguishable from other forms of credit covered by the rule because of the greater infrequency of events (3) and (7), to say nothing of (1).

[11] The required notice has already achieved the dubious distinction of appearing in the Gobbledygook column of the Washington Star. Washington Star, July 1, 1976.

[12] Moreover, consumers would not have access to the notice when it is included in a master two-party credit card agreement, as would be permitted.

V 42 I 180
SEP 16 77
UMI

might operate to limit or curtail defenses of consumers against assignees of "consumer credit contracts" even though such contracts might not be negotiable in form nor contain a waiver of defenses clause.

In seeking an exemption for open-end credit contracts, petitioners have not denied the possibility that in some states assignment of these contracts may result in that very loss of claims and defenses which the Rule is intended to prevent. While there is some dispute over the extent to which this may occur—and a precise evaluation is clearly not possible because of uncertainty over the interpretation of various state laws which, notwithstanding benign purposes may be construed to pernicious effect—it is conceded by both petitioners and Commissioner Collier in his dissent that consumers will be deprived of their claims. We believe that if the problem were indeed trivial or purely speculative that fact would and should have been documented in the petitions of those intimately involved in the extension of credit whose burden it is to justify the requested exemption.

In lieu of hard data, the petitions merely suggest that there is a better way than the Rule to prevent the possibility of loss of defenses as a result of assignment. Petitioners contend that rather than requiring inclusion of the Rule's prescribed notice in all open-end contracts it should only be required in such contracts at the time those contracts are assigned.[13]

The Commission determined when it promulgated the Trade Regulation Rule that the best way to prevent loss of consumer claims and defenses against third parties was to require the notice in all "consumer credit contracts." The instant petitions do not demonstrate that this original determination was incorrect. Our principal concern with the exemption proposed by petitioners is that it places the burden of compliance upon retailers at a time when they may be least likely to shoulder it or be detected if they do not. A requirement that the notice be placed in all consumer credit contracts is unambiguous, easily adhered to, and readily monitored. Compliance is likely to be widespread. Compliance with a requirement that the notice be incorporated into the contract only at the time of assignment is much more problematic. It is not apparent to us that a contract may be unilaterally modified by the creditor, and the process of contract modification upon assignment might, therefore, necessitate preassignment contact with the debtor. Diminishing the likelihood that this will occur is the fact that assignments often take place when the assignor is least concerned with the technical requirements of the law or least fearful of the scrutiny of the law enforcer, i.e., when its financial fortunes are in decline or when it faces bankruptcy.

A creditor required in the normal course of business to place the notice in all contracts will do so as a matter of routine procedure and face ready detection if it fails. A creditor making an occasional assignment, or making numerous assignments in the face of financial trauma or bankruptcy may not be aware of the requirement of a rule by which it has never before been affected, and if aware may be less apprehensive of detection. Indeed, its violations will be more difficult to detect. In light of these considerations and on the basis of the petitions before us, we find no reason to alter the Commission's earlier conclusion that requiring inclusion of the notice in all consumer credit contracts is more likely than alternative approaches to minimize the harm which the Rule is designed to prevent.

At the same time, the Commission recognizes that the issue is a difficult one and that some misunderstanding as to the scope of the Rule's provisions may have occurred. As a result, the Commission has made every effort to minimize or eliminate the costs attendant upon compliance with the Rule. In April 1977 the Commission granted a limited exemption for pre-existing open-end credit contracts and open-end contracts signed prior to August 1, 1977. Subsequently the Commission granted an additional extension of 45 days in order to minimize or eliminate the costs of compliance and has now authorized an additional 45 day period during which petitioners may bring themselves into compliance.[14]

Under these circumstances, the Commission believes, and has been given no reason to doubt, that the costs of adding the required notice to future form contracts will be insignificant, and do not justify dilution of the protections thereby afforded. Accordingly, the Commission has declined to grant the requested permanent exemption for two-party open-end credit contracts.

[FR Doc.77-27075 Filed 9-15-77;8:45 am]

[13] The Rule would still apply under petitioners' proposal to such open-end contracts as might be negotiable in form or contain a waiver of defenses clause.

[14] While Commissioner Dole concurs in the portion of the Commission's decision denying the permanent exemption, she continues to believe that the costs of immediate compliance have not been shown to outweigh the value of the protection to consumers that will be lost due to the extensions granted by the Commission.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5863, 34-13938, 35-20166, AS-226]

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

Marketable Securities and Other Security Investments

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission has adopted amendments to its rules regarding disclosures by commercial and industrial companies of investments in marketable securities and other security investments. Current economic conditions and events have indicated a need for more detailed information on material concentrations of investments in the securities. The requirements of the amended rules will result in improved disclosures of these concentrations of investments by commercial and industrial companies.

DATE: Effective for financial statements for fiscal years ending after December 24, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert R. Love, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 (202-755-1773).

SUPPLEMENTARY INFORMATION:

Background

The Commission originally issued a proposal in Securities Act Release No. 5668 (34-11986, IC-9116) [41 FR 4833] on January 7, 1976, to require disclosure in a footnote to the financial statements of information regarding concentrations of investments in marketable securities and other investment securities. Basically, the proposal would have required footnote disclosure by all registrants of the investments in such securities of any issues for which the aggregate book value exceeded five percent of stockholders' equity. This proposal was issued at the time Accounting Series Release No. 188 [41 FR 4817] was issued which mandated certain special disclosures for registrants' holdings of New York City securities because of the unusual risks and uncertainties pertaining to them, and, as stated in that release, the proposal was part of a longer term and more generalized effort to deal with the fact that, because other issuers of securities may suffer financial difficulties severely affecting a registrant's holdings of such securities, material concentration of holdings of any security may warrant disclosure.

After consideration of the comments on the proposal, the Commission issued a revised proposal in Securities Act Release No. 5825 (34-13500, 35-20016) [42 FR 23853] on May 2, 1977. In the revised proposal major changes were made (1) to change the criterion for the required footnote disclosures to a basis of the investments in the securities of any issuer for which the aggregate market value exceeds one percent of total assets, and (2) to limit the applicability of the requirements to commercial and industrial companies which prepare financial statements in accordance with Article 5 of Regulation S-X [17 CFR Part 210].

Other technical revisions were made in the proposal, including amendments of the instructions to the schedule prescribed under Rule 12-02 [§ 210.12-02] of Regulation S-X, "Marketable securities—other security investments," to provide for segregation of the securities required to be listed by issuers in the schedule on the same basis as specified in the proposed footnote disclosure requirement. It was noted in the release that the information called for by the proposed footnote disclosure requirement might duplicate to some extent the disclosures required to be provided in the schedule under Rule 12-02. Comments were solicited regarding how to reduce or eliminate such duplication.

Comment on the Second Proposal

Comments on the proposal in Release No. 33-5825 have been carefully considered. Most commentators generally supported the concept embodied in the proposal of disclosure of concentrations of investments in the securities of particular issuers with the objective of providing better information for evaluating the risks of investments as between issuers. However, almost all stated that the criterion for disclosure of the concentrations, specified in the proposal as one percent of total assets, was too low and would result in disclosure in the notes to financial statements of considerable detailed information which is immaterial. It was suggested that, as a minimum, the basis for disclosure should be increased to two percent of total assets to conform to the criterion for grouping of securities by issuers presently specified in Rule 12-02, and in any event, footnote disclosures should not be required for investments in securities of the U.S. Government and its agencies because of their nearly risk-free nature.

It was also suggested that, if a requirement for footnote disclosure of material concentrations of investments is adopted by the Commission, the Rule 12-02 schedule requirement should be eliminated, inasmuch as the information included in the Rule 12-02 schedule on material investments and material concentrations would also be provided in the footnote, and therefore the disclosures in the Rule 12-02 schedule regarding such material investments and concentration would be duplicative and unnecessary.

Other commentators suggested that the proposed requirement for footnote disclosure of the concentrations of investments be withdrawn and instead the requirements for the schedule under Rule 12-02 be revised to insure that all disclosures called for in the proposed new rule will be included in the schedule. They reasoned that many of the securities and the concentrations thereof itemized in the schedule would involve no unusual risks or uncertainties, particularly securities of the U.S. Government and its agencies, and other requirements exist for specific discussions or disclosures in the financial statements regarding unusual risks or uncertainties relating to any material concentrations of investments in securities and accordingly a requirement for footnote disclosure of all such material concentrations is unnecessary.

Adoption of Amendments.

After consideration of the comments, the Commission has determined to withdraw the proposal contained in Release No. 33-5825 and instead amend Rule 12-02 and Rule 5-04 (17 CFR 210.5-04), which specifies when the schedule prescribed by Rule 12-02 shall be filed for disclosures of securities included under caption 2, Marketable securities, and caption 12, Other security investments, of a balance sheet, to require detailed disclosures in the Rule 12-02 schedule regarding each issue of securities of any issuer where the greater of the aggregate cost or market value of the securities of the issuer constitutes two percent or more of total assets, and to permit summarized disclosures of the other security holdings of the registrant in the marketable securities and other security investments accounts, the amounts of which, for any issuer, do not exceed two percent of total assets. The detailed disclosures required include a description of each security issue, the cost, the market value, and the amounts at which carried in the balance sheet.

The Commission is persuaded by the comments that inclusion in one schedule of these data regarding all of the securities held under these two accounts by a registrant will facilitate a better analysis of the securities holdings, particularly in the comparison of risk factors as between securities. Furthermore, generally accepted accounting principles presently require write-downs or accrual of provisions for losses on securities, as well as disclosure regarding other unquantified loss contingencies in the financial statements, and the Commission would require discussion, in "Management's Discussion and Analysis of Summary of the Earnings" included in reports filed with the Commission, of any unusual risks and uncertainties relating to any material investments or concentration of investments, as discussed and illustrated in Accounting Series Release No. 166 (40 FR 2678). Therefore, requirements beyond those specified above and in the revised Rule 12-02 schedule regarding material concentrations of investments are not considered necessary for commercial and industrial companies subject to Article 5 of Regulation S-X.

Other technical revisions are effected in Rule 5-02 (§ 210.5-02), captions 2 and 12; Rule 5-04 (§ 210.5-02), Schedule I; and the captions and instructions of Rule 12-02 (§ 210.12-02) to clarify the basis for valuation of securities including recognition of requirements under generally accepted accounting principles for determination of the carrying amounts of marketable equity securities on a portfolio basis; and, with regard to caption 2 of Rule 5-02, to clarify the exclusion of securities from the caption.

COMMISSION ACTION: The Commission hereby amends Part 210 of 17 CFR Chapter II, by revisions of (1) captions 2 and 12 of § 210.5-02, (2) Schedule I of § 210.5-04, and (3) the captions and instructions of § 210.12-02 to read as given below.

§ 210.5-02 Balance sheets.

* * * * *

2. *Marketable securities.* Include only securities having a ready market and which represent the investment of cash available for current operations; securities which are intended to be used for nonworking capital purposes shall be excluded. Securities of affiliates and of other persons the investments in which are accounted for by the equity method shall not be included here. State, parenthetically, or otherwise, the basis of determining the aggregate amounts shown in the balance sheet for the portfolio of equity securities and for all other securities, and for each category state the alternative of the aggregate cost or the aggregate market value at the balance sheet date. When the original cost of securities purchased on a yield basis has been properly adjusted to reflect amortization of premium or accumulation of discount since acquisition, the basis of determining their amount may be described "at cost."

* * * * *

12. *Other security investments.* State, parenthetically or otherwise, the basis of determining the aggregate amounts shown in the balance sheet for the portfolio of equity securities and for all other securities, and for each category state the alternate of the aggregate cost or the aggregate market value at the balance sheet date.

* * * * *

§ 210.5-04 What schedules are to be filed.

* * * * *

Schedule I—Marketable securities—other security investments. The schedule prescribed by § 210.12-02 shall be filed—

(1) In support of caption 2 of a balance sheet, if the greater of the aggregate cost or the aggregate market value of marketable securities as of the balance sheet date constitutes 10 percent or more of total assets.

(2) In support of caption 12 of a balance sheet, if the greater of the aggregate cost or the aggregate market value of other security investments as of the balance sheet date constitutes 10 percent or more of total assets.

(3) In support of captions 2 and 12 of a balance sheet, if the greater of the aggregate cost or aggregate market of other security investments plus the greater of the aggregate cost or the aggregate market value of marketable securities as of the balance sheet date constitutes 15 percent or more of total assets.

(4) In support of captions 2 and 12 of a balance sheet, if the greater of the aggregate cost or aggregate market value of the securities as of the balance sheet date of any issuer reported under either caption 2 or caption 12 constitutes two percent or more of total assets.

* * * * *

§ 210.12-02 Marketable securities—other security investments.

V 42 1180
SEP 16 77
UMI

Column A	Column B	Column C	Column D	Column E [1]
Name of issuer [2] and title of each issue.[3]	Number of shares or units—principal amount of bonds and notes.	Cost of each issue	Market value [4] of each issue at balance sheet date.	Amount at which each portfolio of equity security issues and each other security issue carried in the balance sheet.

[1] Column E shall to totaled to correspond to the respective balance sheet captions.
[2] For the purpose of this schedule, each of the following groups of entities shall be considered as one issuer: (a) The United States Government and its agencies; (b) any State of the United States and its agencies; (c) a political subdivision of a state of the United States and its agencies; (d) a foreign government and its agencies and political subdivisions; and (e) a corporation and its majority owned subsidiaries. If a security listed herein is guaranteed by or considered a moral obligation of another issuer named herein, provide, in a note keyed to each issuer, a brief description of the terms of such guarantee or obligation.
[3] (a) Each issue shall be stated separately, except that reasonable groupings, without enumeration, may be made of securities of any issuer for which the greater of the aggregate cost or aggregate market value is less than 2 pct. of total assets. (b) In the case of bank holding companies group separately (1) securities of banks and (2) other securities, and in column C show totals for each group.
[4] Market value shall be based on market quotations at the balance sheet date or, if such quotations are not available, on determinations of fair value made in good faith by the board of directors.

These amendments shall be effective for financial statements for fiscal years ending after December 24, 1977. The amendments are adopted pursuant to authority in Sections 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, and 77s) of the Securities Act of 1933; Sections 12, 13, 15(d) and 23(a) (15 U.S.C. 78l, 78m, 78o(d) and 78w) of the Securities Exchange Act of 1934; and Sections 5(b); 14 and 20(a) (15 U.S.C. 79e, 79n, and 79t) of the Public Utility Holding Company Act of 1935. Pursuant to Section 23(a)(2) of the Exchange Act, the Commission has considered the effect that the proposed amendments would have on competition and is not aware, at this time, of any burden that such amendments would impose on competition not necessary or appropriate in furtherance of the purposes of the Act.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 8, 1977.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 77C-0207]

PART 73—LISTING OF COLOR ADDITIVES EXEMPT FROM CERTIFICATION

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

Guanine; Confirmation of Effective Date

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document confirms the effective date of August 23, 1977, of a regulation concerning the use of guanine in externally applied drugs and in cosmetics generally, including those drugs and cosmetics intended for use in the area of the eye.

DATE: Effective date confirmed, August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Gerad L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204 (202-472-5740).

SUPPLEMENTARY INFORMATION: A regulation published in the FEDERAL REGISTER of July 22, 1977 (42 FR 37536) added §§ 73.1329 and 73.2329 to Subparts B and C, respectively, of Part 73 (21 CFR Part 73) to provide for the safe use of guanine in externally applied drugs and in cosmetics generally, including those drugs and cosmetics intended for use in the area of the eye. The regulation also amended § 81.1(g) (21 CFR 81.1(g)), by deleting guanine (pearl essence) from the provisionally listed colors.

Under the Federal Food, Drug, and Cosmetic Act (Sec. 706(b), (c), and (d), 74 Stat. 399-403 (21 U.S.C. 376 (b), (c), and (d))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), notice is given that no objections or requests for hearing were filed in response to the regulation of July 22, 1977. Accordingly, the amendments promulgated thereby became effective on August 23, 1977.

Dated: September 7, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

SUBCHAPTER G—COSMETICS

[Docket No. 76N-0153]

PART 701—COSMETIC LABELING

Ingredient Designation of Cosmetics Sold by Direct Mail

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document provides for off-package declaration of ingredients for cosmetics distributed to consumers by direct mail and prescribes the requirements for this alternative method of labeling. Petitioners had requested this labeling method.

EFFECTIVE DATE: October 17, 1977, except as to any provision that may be stayed by the filing of proper objections.

FOR FURTHER INFORMATION CONTACT:

Heinz J. Eiermann, Bureau of Foods (HFF-440), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington D.C. 20204 (202-245-1530).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 21, 1976 (41 FR 24899), the Commissioner of Food and Drugs issued a proposal to provide for off-package declaration of ingredients in the case of cosmetics distributed to consumers by direct mail. Petitioners requested this method of labeling as an alternative to the declaration of ingredients on a package label, as required in the cosmetic ingredient labeling regulations (21 CFR 701.3 (a) and (b)). Petitioners requested that distributors selling cosmetics by direct mail be permitted to list the ingredients of these cosmetics either in a descriptive catalog from which the consumer selects or orders products by mail, or, where cosmetics are mailed on consignment, in accompanying literature.

Five comments were received in response to the proposal. Four comments endorsed the proposal; namely, two explicitly and two by implication in that they proposed further amendments or other regulatory action. One comment expressed neither endorsement nor opposition. Summaries of the comments and the Commissioner's conclusions follow:

1. One comment endorsing the proposal to add a new paragraph (r) to § 701.3 expressed disappointment about the Commissioner's denial of a request for listing of ingredients in alphabetical order or listing of only "known allergens" as an alternative to the currently prescribed listing of ingredients in descending order of predominance. A second comment, which expressed preference for alphabetical ingredient listing, neither endorsed nor opposed the proposal.

The Commissioner advises that the issue of alphabetical listing of ingredients or declaration of only "known allergens" was fully discussed in the preambles to regulation published in the FEDERAL REGISTER of May 30, 1975 (40 FR 23458) and the proposal published in the FEDERAL REGISTER of June 21, 1976 (41 FR 24899). No data or other information were submitted during the comment period after the May 30, 1975, regulation, or at any time thereafter, in support of these alternate methods of declaration of ingredients. Accordingly, no rule making proceeding was initiated to change the existing requirement for listing ingredients in descending order of predominance.

2. One comment asked that cosmetics sold by direct mail and accompanied by labeling bearing ingredient declarations specifically relating to the cosmetics mailed should not be required to state that a copy of the ingredient declarations will be mailed to any person requesting it, as ordered in proposed § 701.3(r)(2)(ii). The comment argued that a copy of the brochure describing the cosmetics and listing the ingredients would likely be included in a cosmetic shipment, and the required mailing of additional brochures is burdensome, costly, and unjustified. The comment also said that this provision is more stringent than the requirement of § 701.3(k)(5), concerning certain cosmetics with off-package ingredient labeling that are sold at retail. Section 701.3(k)(5), it was noted, merely requires that the distributor "supply sufficient declarations of ingredients so that a purchaser may obtain a copy of the declaration with each purchase."

The Commissioner is not persuaded that the requirements of proposed § 701.3(r)(2)(ii), i.e., the statement on the mail order package and the mailing of an ingredient declaration to any person requesting it, are unjustified and exceed a similar requirement for cosmetics with off-package labeling that are sold at retail. There is always the chance that some cosmetic assortments may on occasion not contain the brochure with the ingredient information. The recipients of such mailings must be assured that ingredient declarations are available from the distributor on request. In addition, consumers who have lost or inadvertently discarded their brochures must be able to obtain new ingredient lists from the distributor when needed, and the ingredient information must also be available to other consumers sharing in the use of a cosmetic assortment.

The Commissioner points out that proposed § 701.3(r) only provides for an alternate method of ingredient labeling. Cosmetics distributed by direct mail may also bear the ingredient information on the package label, should this method be more convenient and economical. Furthermore, the distributor is not required to mail a costly brochure to a person requesting ingredient information. Ingredient declarations may be provided on leaflets or other plain labeling.

As regards § 701.3(k)(5), the comment disregarded the additional provision of § 701.3(k)(6), which requires that the firm whose name appears on the label of a "shaded" product, as defined in § 701.3(l)(2), that does not bear an ingredient declaration shall promptly mail a copy of the ingredient information to any person requesting it. Accordingly, the requirements of § 701.3(r) are not discriminatory or more stringent than those applicable to "shaded" cosmetics.

3. Two comments contended that off-package ingredient labeling as proposed for cosmetics sold by direct mail should also be permitted in the case of cosmetics distributed to consumers by means of "direct selling" or "door-to-door selling." This method of selling involves solicitation of sale of a cosmetic by an independent sales agent at the consumer's home and delivery of the purchased product by the salesperson to the consumer. Both comments held that the methods of distribution of cosmetics by direct selling and direct mail have much in common, with the pertinent difference between the two methods of selling being the manner of product delivery, i.e., delivery of a product to a consumer by a sales agent as opposed to delivery by postal service.

The Commissioner advises that proposed § 701.3(r) was published in response to a petition concerning only cosmetics sold by direct mail. The request did not refer to cosmetics distributed by means of direct selling. Moreover, the Commissioner disagrees with the contention that the two methods of distribution of cosmetics are sufficiently analogous also to permit off-package ingredient labeling for cosmetics distributed by means of direct selling. In fact, the Commissioner concludes that the two methods of distribution differ profoundly. In the case of distribution by direct mail, a cosmetic is shipped directly to the consumer and the distributor fully controls delivery to the consumer of the required ingredient information. Where a cosmetic is shipped to a sales agent for delivery or sale to a consumer, the delivery of ingredient information to the consumer cannot be controlled by a distributor in the case of off-package labeling. Direct selling, therefore, has in this regard much more in common with selling through retail outlets than selling by direct mail, and, with the exception of shaded cosmetics held for sale in tightly compartmented trays or racks, cosmetics sold through retail outlets are not permitted to declare ingredients by means of off-package labeling.

4. One comment requested clarification regarding the definition of the term "package" and placement on the package of the notice informing the consumer about the location of the declaration of ingredients and, specifically, whether the notice may be located on the face of the package platform surrounding and holding the assorted products.

The Commissioner advises that the term "package" as it applies to this regulation is defined in section 10(b) of the Fair Packaging and Labeling Act (15 U.S.C. 1459(b)) and in 21 CFR 1.20. Since a shipping container is not included in the definition of the term "package," the respective notice may not be placed on an "outer mailing container."

Placement of the notice on the face of the package platform surrounding and holding the assorted products is not considered contrary to the intent of § 701.3(r)(2). To clarify the meaning of this requirement, the Commissioner is amending its wording accordingly. Section 701.3(r)(2) now includes in the description of the location of the respective notice the additional phrase, "• • • on the face of the package platform surrounding and holding the product(s) • • •."

5. On April 27, 1976, the Commissioner received a request for extension of the effective dates of cosmetic ingredient labeling—May 31, 1976 for ordering labels with ingredient declarations and November 30, 1976, for labeling of cosmetics with ingredient declarations (Ref. 1). The petitioner sought the extension because no action had been taken to that date by FDA on the requested permission for off-package labeling of cosmetics sold by direct mail, and the requirement for ingredient labeling was about to become effective. In the FEDERAL REGISTER of June 21, 1976 (41 FR 24899), the Commissioner issued the proposal regarding off-package ingredient labeling of cosmetics sold by direct

V 42 I 180 SEP 16 77 UMI

mail. On August 2, 1976, the petitioner was notified that the request for extension of the effective dates was denied, but because of the existing uncertainties and the petitioner's concern about full compliance with regulatory requirements, the agency notified the petitioner that it would not take regulatory action against cosmetics labeled in accordance with proposed § 701.3(r). The Commissioner advises that he will continue to abide by this commitment until the final rule becomes effective.

REFERENCES

1. Letter of April 27, 1976, by William F. Weigel, Counsel for Cosmetique Beauty Club, Inc., to the Hearing Clerk, Food and Drug Administration.

2. Letter of August 2, 1976, by the Associate Commissioner for Compliance, to William F. Weigel, Esq., Rogers, Hoge & Hills, New York, N.Y. 10016.

Therefore under the Federal Food, Drug, and Cosmetic Act (sec. 701(e), 70 Stat. 919 as amended (21 U.S.C. 371(e)), the Fair Packaging and Labeling Act (secs. 5(c), 6(a), 80 Stat. 1298, 1299 (15 U.S.C. 1454, 1455)) and under authority delegated to the Commissioner (21 CFR 5.1), Part 701 is amended in § 701.3 by adding new paragraph (r), to read as follows:

§ 701.3 Designation of ingredients.

* * * * *

(r) In the case of cosmetics distributed to the consumers by direct mail, as an alternative to the declaration of ingredients on an information panel, the declaration of ingredients may appear in letters not less than 1/16 of an inch in height in labeling that accompanies and specifically relates to the cosmetic(s) mailed, or in labeling furnished to each consumer for his personal use and from which he orders cosmetics through the mail, e.g., a direct mail sales catalog or brochure, provided all of the following additional requirements met:

(1) The declarations of ingredients are conspicuous and presented in a way that permits the consumer to identify the declaration of ingredients applicable to each cosmetic.

(2) The package mailed to the consumer is accompanied by a notice located on, or affixed to, the top of the package or on top of the contents inside the package, or on the face of the package platform surrounding and holding the product(s), readily visible to the consumer on opening of the package, and provides the following information in letters not less than 3/16 of an inch in height:

(i) The location of the declarations of ingredients, e.g., in an accompanying brochure, or in a sales catalog used for ordering;

(ii) A statement that a copy of the declaration of ingredients will be mailed promptly to any person requesting it; and

(iii) The name and place of business of the mail order distributor.

(3) The mail order distributor promptly mails a copy of the declaration of ingredients to any person requesting it.

Any person who will be adversely affected by the foregoing regulation may at any time on or before October 17, 1977, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a heading is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a heraing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m. Monday through Friday.

Effective date. This regulation shall become effective October 17, 1977, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Sec. 701(e), 70 Stat. 919, as amended (21 U.S.C. 371(e)); secs. 5(c), 6(a), 80 Stat. 1298, 1299 (15 U.S.C. 1454, 1455).)

Dated: September 9, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

SUBCHAPTER H—MEDICAL DEVICES

[Docket No. 76N-0355]

ESTABLISHMENT REGISTRATION AND PREMARKET NOTIFICATION PROCEDURES

Corrections

In FR Doc. 77-24147 appearing as Part III at page 42519 in the issue for Tuesday, August 23, 1977, the following corrections should be made.

1. On Page 42521, second column, line 19, the word, "modification", should read, "notification".

2. On page 42525, third column, 4th line from the bottom, the date, "October 25, 1977", should be changed to, "October 24, 1977".

3. On page 42526, first column, the dates on lines 7 and 12 of paragraph d., now reading, "October 21, 1977", should read, "October 24, 1977".

Title 22—Foreign Relations

CHAPTER I—DEPARTMENT OF STATE

[Dept. Reg. 108.745]

PART 9A—CLASSIFICATION OF CERTAIN INFORMATION AND MATERIAL OBTAINED FROM ADVISORY BODIES CREATED TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

Security Information Regulations Applicable to Certain International Energy Program, Related Material

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: This rule establishes regulations for the classification and safeguarding of certain information and material obtained from advisory bodies created to implement the International Energy Program (TIAS 8278). EO 11932 directs the Department of State to promulgate such regulations which will provide for the protection of classified information taking into account the special circumstances under which such information is generated and utilized and will reflect the character of certain records which may be in the possession of the United States Government.

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Gerald A. Rosen, Director, Office of Fuels and Energy, Bureau of Economic and Business Affairs, Department of State, Washington, D.C. 20520.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 17142, March 31, 1977) inviting interested persons to submit comments regarding the proposed regulation. Relevant comments have been considered and in order to clarify the regulations, a new § 9a.1 is added and the remaining section headings are renumbered.

Accordingly, Part 9a is adopted as set forth below.

Dated: September 6, 1977.

BEN H. READ,
Deputy Under Secretary for Management.

Sec.
9a.1 Security of certain information and material related to the International Energy Agency.
9a.2 General policy.
9a.3 Scope.
9a.4 Classification.
9a.5 Declassification and downgrading.
9a.6 Marking.
9a.7 Access.
9a.8 Physical protection.

AUTHORITY: E. O. 11932 (41 FR 32691), E. O. 11652 (37 FR 5209), National Security Council Directive of May 17, 1972 (37 FR 10053).

§ 9a.1 Security of certain information and material related to the International Energy Program.

These regulations implement Executive Order 11932 dated August 4, 1976 (41 FR 32691, August 5, 1976) entitled "Classification of Certain Information and Material Obtained from Advisory Bodies Created to Implement the International Energy Program."

§ 9a.2 General policy.

(a) The United States has entered into the Agreement on an International Energy Program of November 18, 1974, which created the International Energy Agency (IEA). This program is a substantial factor in the conduct of our foreign relations and an important element of our national security. The effectiveness of the Agreement depends significantly upon the provision and exchange of information and material by participants in advisory bodies created by the IEA. Confidentiality is essential to assure the free and open discussion necessary to accomplish the tasks assigned to those bodies.

(b) These regulations establish procedures for the classification, declassification, storage, access, and dissemination of certain information related to the International Energy Program.

§ 9a.3 Scope.

These regulations apply to all information and material classified by the United States under the provisions of E. O. 11932, dated August 4, 1976 entitled "Classification of Certain Information and Material Obtained From Advisory Bodies Created To Implement The International Energy Program."

§9a.4 Classification.

(a) Section 1 of E.O. 11932, August 4, 1976 directs that information and material obtained pursuant to the International Energy Program and which requires protection against unauthorized disclosure in the interest of the national defense or foreign relations of the United States shall be classified pursuant to Executive Order 11652.

(b) Information and material, including transcripts, records, and communications, in the possession of the United States Government which has been obtained pursuant to (1) Section 252(c)(3), (d)(2) or (e)(3) of the Energy Policy and Conservation Act (89 Stat. 871, 42 U.S.C. 6272(c)(3), (d)(2), (e)(3)), or (2) The Voluntary Agreement and Program Relating to the International Energy Program (40 FR 16041, April 8, 1975), or (3) the Voluntary Agreement and Plan of Action to Implement the International Energy Program (41 FR 13998, April 1, 1976), or (4) Any similar Voluntary Agreement and Program entered into under the Energy Policy and Conservation Act shall be reviewed by an officer of the Department of State with classifying authority for the purpose of determining whether such information or material should be classified pursuant to E.O. 11652. If the officer determines that the information or material warrants classification, he shall assign it the appropriate classification. Such information or material may be exempted from the General Declassification Schedule established by Section 5 of Executive Order No. 11652 if it was obtained by the United States on the understanding that it be kept in confidence, or if it might otherwise be exempted under Section 5(B) of such Order.

(c) In classifying such information or material, officers of the Department of State shall follow the standards in E.O. 11652 and the provisions of 22 CFR 9.5–9.8.

§ 9a.5 Declassification and downgrading.

The provisions of E.O. 11652, 22 CFR 9.9–9.15, and 9a.4(b) shall govern declassification and downgrading of such information or material.

§ 9a.6 Marking.

(a) The provisions of 22 CFR 9.15–9.19 shall govern the marking of information or material classified under the provisions of these regulations, except that the following stamp shall be used as appropriate:

(Top Secret, Secret or Confidential)
Classified by:----------
Under Executive Order 11932
Exempt from General Declassification Schedule of E.O. 11652 Exemption Category § 5B (2), (3), or (4); or E.O. 11932
Automatically Declassified on----------
(effective date or event if any)

Exemption category "E.O. 11932" shall be used for information and material obtained by the United States on the understanding that it be kept in confidence and classified under E.O. 11932.

(b) If the information or material does not qualify for exemption from the General Declassification Schedule, ordinary stamps and marking may be used.

§ 9a.7 Access.

(a) Except as set forth in this section, access to information or material classified under the provisions of these regulations shall be governed by the provisions of 22 CFR 9.20–9.25.

(b) Classified information and material which was created by or in connection with an advisory body to the IEA may be made available to participants in such advisory body and their colleagues in accordance with the following subsections.

(c) Such information and material classified "Confidential" may be made available for review to participants in the meeting of the advisory body in which it was developed or discussed. Where participants are acting as representatives of companies or of the IEA Secretariat, such information and material may be made available for review to employees or other representatives of, or counsel for, such companies or Secretariat: *Provided*, That such person is determined by an appropriate officer of the Department to be trustworthy and to have a need for access to the particular classified information sought in connection with the performance of duties in furtherance of the purposes of the IEA, including the furnishing of legal advice to such participants.

(d) Such information and material classified "Confidential" may be left in the custody of such participants or other persons who may review it for reasonable periods of time: *Provided*, That an appropriate officer of the Department determines that it will be protected from unauthorized disclosure by adequate security safeguards. Such information or material may not be reproduced by those permitted to review it pursuant to this section without the written consent of an officer of the Department with classifying authority.

(e) Such information and material classified other than "Confidential" under E.O. 11652 may be made available for review only to participants in the meeting in which it was developed or discussed; it must be reviewed in the presence of an official of the United States Government with an appropriate security clearance granted by the Department, and may not be left in the custody of such participants.

§ 9a.8 Physical protection.

Except as provided in § 9a.7, the physical protection of information or material classified under this regulation shall be governed by the appropriate provisions of 22 CFR 9.45–9.49.

[FR Doc.77-27057 Filed 9-15-77;8:45 am]

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—LAW AND ORDER

PART 11—LAW AND ORDER ON INDIAN RESERVATIONS

Training Requirements

SEPTEMBER 7, 1977.

AGENCY: Bureau of Indian Affairs, Interior Department.

ACTION: Final rule.

SUMMARY: The Bureau of Indian Affairs is amending the regulations relating to training for Indian police and jailers. The amendments authorize certain non-BIA training and is designed to give trainees a greater choice of training programs and to permit the BIA to determine which training programs meet BIA requirements. The changes in the requirements for jailer training are necessary because only limited training for jailers is available at the Indian Police Academy. The changes in the action required to be taken when an officer fails to pass a required course are designed to minimize the adverse consequences to the maximum extent possible without undermining the training requirement.

EFFECTIVE DATE: This revision is effective October 17, 1977.

FOR FURTHER INFORMATION CONTACT:

V 42 I 180
SEP 16 77
UMI

Eugene F. Suarez, Sr., Division of Law Enforcement Services, Bureau of Indian Affairs, Washington, D.C. 20245, telephone: 202–343–5786.

SUPPLEMENTARY INFORMATION: These amendments make several minor changes in the rules governing training for Indian police and jailers. Subparagraph (1) of § 11.304(g) is revised to authorize training in any program approved by the Commissioner of Indian Affairs. The old rule authorized only training given by the Indian Police Academy or the state where the officer is employed. Subparagraphs (2), (3), and (4) of § 11.304(g) are revised to authorize training prior to entry on new duties. The old rule limited the availability of training to those already performing those duties. Paragraph (n) of § 11.305 is revised to permit jailers to serve up to six months before completing training. The old rule required the jailer to be trained before entry on duty. This paragraph is also revised to include any training approved by the Commissioner. The old rule permitted training only by the Indian Police Academy or by the state where the jailer is employed. The rules have also been modified to include as one possible consequence of failure to pass a training program a lateral transfer. The old rule mandated dismissal or demotion.

This revision was published as a proposed rule in the March 22, 1977, FEDERAL REGISTER (42 FR 15429). No comment from the public objecting to the proposed rule or suggesting that it be changed was received. The only change from the proposed rule provides that non-BIA training must substantially meet or exceed the level of training provided by the Indian Police Academy in order to be approved. This change has been made to provide a standard to be used by the Commissioner in exercising approval authority.

This rule is published under the authority contained in 5 U.S.C. 301, 25 U.S.C. 2, and 25 U.S.C. 450k, and delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Sections 11.304 and 11.305 of Subchapter B, Chapter I, Title 25 of the Code of Federal Regulations are amended as follows:

1. By revising § 11.304(g) to read as follows:

§ 11.304 Minimum standards for police programs.

* * * * *

(g) (1) Newly employed patrol officers shall successfully complete within their first year of service the approved Basic Police Training Course conducted at the Indian Police Academy or a similar course substantially meeting or exceeding the level of training provided by the Indian Police Academy and approved by the Commissioner of Indian Affairs. An officer who fails to complete the training required by this subparagraph shall be discharged or transferred to a position not involving law enforcement duties. Transfer may result in demotion.

(2) Prior to, or within one year after, promotion or appointment to a supervisory enforcement position, an employee shall complete the approved Supervisory Enforcement Officer Training Course conducted at the Indian Police Academy or a similar course substantially meeting or exceeding the level of training provided by the Indian Police Academy and approved by the Commissioner of Indian Affairs. An officer who is serving in a supervisory position and fails to complete the training required in this subparagraph shall be transferred to a nonsupervisory position. Transfer may result in demotion.

(3) Prior to, or within one year after, promotion or appointment to a criminal-investigator position, an officer shall successfully complete the Criminal-Investigator Training Course conducted at the Indian Police Academy or a similar course substantially meeting or exceeding the level of training provided by the Indian Police Academy and approved by the Commissioner of Indian Affairs. An officer who is serving in a criminal-investigator position and fails to complete the training required in this subparagraph shall be transferred to a noncriminal-investigator position. Transfer may result in demotion.

(4) Prior to, or within one year after, promotion or appointment to a supervisory criminal-investigator position, an officer shall successfully complete the Executive Management Course of Training conducted at the Indian Police Academy or a similar course substantially meeting or exceeding the level of training provided by the Indian Police Academy approved by the Commissioner of Indian Affairs. An Officer who is serving in a supervisory criminal-investigator position and fails to complete the training required in this subparagraph shall be transferred to a nonsupervisory criminal-investigator position. Transfer may result in demotion.

2. By revising § 11.305(n) to read as follows:

§ 11.305 Minimum standards for detention programs.

* * * * *

(n) Prior to, or within six months after, promotion or appointment to a position involving detention/jail duties, an employee shall successfully complete a Detention/Jail Operations and Management Training Course approved by the Commissioner of Indian Affairs. An employee who is serving in a position involving detention/jail duties and fails to complete the training required by this paragraph shall be transferred to a position not involving detention/jail or law enforcement duties or discharged. Transfer may result in demotion.

(Catalog of Federal Domestic Assistance Program No. 15.131, Indian Law Enforcement Services.)

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER H—INTERNAL REVENUE PRACTICE

PART 601—STATEMENT OF PROCEDURAL RULES

Miscellaneous Amendments

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains miscellaneous amendments to the Statement of Procedural Rules. The Statement of Procedural Rules sets forth the procedural rules of the Internal Revenue Service for all taxes administered by the Service. These amendments are made necessary by statutory changes and miscellaneous changes of a technical nature.

DATE: The regulations are effective September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert Waltuch of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave. NW., Washington, D.C. 20224 (Attention: CC: LR: T) (202–566–3328).

SUPPLEMENTARY INFORMATION:

BACKGROUND

A discussion of the most significant amendments follows:

Section 601.106 is amended to provide that the taxpayer or the taxpayer's representative should be advised when the Appellate Division raises a new issue, and should be offered an opportunity for discussion prior to the Service taking any formal action.

Paragraph (d)(2)(i) of section 601.106 is amended to provide that the Appellate Division may secure partial agreements when some of the issues can be resolved.

Paragraph (d)(2)(ii) of section 601.106 is amended to provide that in unagreed cases before the Appellate Division, the case and its administrative file will no longer be forwarded to the service center director or the district director for the issuance of the statutory notice of disallowance of a claim for refund or credit. This notice will be issued by the Appellate Division.

Paragraph (f)(5) of section 601.106 is amended to indicate that the jurisdiction of the Appellate Division includes cases involving termination of taxable year assessments and jeopardy assessments.

Paragraph (g)(1) of section 601.106 is amended to indicate that if the Appellate Division determines that there has been an overpayment of certain taxes in excess of $200,000, including excise taxes imposed upon private foundations or pension plans under chapter 42 or 43, the determination will be considered by the Joint Committee on Taxation.

Paragraph (a) of section 601.106 is amended to provide that no refund or credit of certain taxes in excess of $200,000 may be made until after the expiration of 30 days from the date a report is submitted to the Joint Committee on Taxation.

Paragraph (e)(19) of section 601.201 is amended to indicate that a taxpayer may protest an adverse ruling letter, or the terms and conditions contained in a ruling letter, issued under § 367 of the Code by sending or hand delivering a letter to the Service within certain time limits. Additionally, this amendment sets forth the procedure to be followed by the Assistant Commissioner (Technical) upon the timely receipt of the letter of protest.

Paragraph (c)(4) of section 601.202 is revised to provide that associate chiefs and conferee-special assistants of the appellate branch offices are no longer authorized to enter into and approve certain closing agreements.

Paragraph (c)(5) of section 601.202 is revised to provide that associate chiefs of the appellate branch offices are no longer authorized to enter into and approve certain other closing agreements. Further, this section is revised to provide that assistant regional commissioners (employee plans and exempt organizations) are authorized to enter into and approve closing agreements under their jurisdiction.

Paragraph (f)(3) of section 601.702 is amended to reflect an increase in the fees to be charged to the public for search and duplication services performed by the Internal Revenue Service.

DRAFTING INFORMATION

The principal author of these amendments to the Statement of Procedural Rules was Robert Waltuch of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service participated in developing the amendments, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE STATEMENT OF PROCEDURAL RULES

Accordingly, 26 CFR Part 601 is amended as follows:

Paragraph 1. Section 601.106 is amended as follows:

1. A new sentence is added to the end of paragraph (d)(1) as set forth below.

2. Paragraph (d)(2)(i) is revised as set forth below.

3. Paragraph (d)(2)(ii) is amended by deleting the fourth sentence and inserting in lieu thereof the sentences set forth below.

4. Paragraph (f)(5) is amended by revising the first sentence as set forth below.

5. Paragraph (f)(8) is amended by striking out "Tax Court of the United States" and inserting in lieu thereof "United States Tax Court" wherever it appears.

6. Paragraph (g)(1) is revised as set forth below.

§ 601.106 Appellate functions.

* * * * *

(d) *Disposition and settlement of cases before the Appellate Division*—(1) *In general.* * * * If the Appellate Division raises a new issue, the taxpayer or the taxpayer's representative should be so advised and offered an opportunity for discussion prior to the taking of any formal action, such as the issuance of a statutory notice of deficiency.

(2) *Cases not docketed in the Tax Court.* (i) If after consideration of the case by the Appellate Division of the region a satisfactory settlement of some or all the issues is reached with the taxpayer, he will be requested to sign Form 870–AD or other appropriate agreement form waiving restrictions on the assessment and collection of any deficiency and accepting any overassessment resulting from the agreed settlement. In addition, in partially unagreed cases, a statutory notice of deficiency will be prepared and issued in accordance with subdivision (ii) of this subparagraph with respect to the unagreed issue or issues.

(ii) * * * In addition, if a claim for refund is disallowed in full or in part by the Appellate Division and the taxpayer does not sign Form 2297, the Appellate Division will prepare the statutory notice of claim disallowance and send it to the taxpayer by certified mail (or registered mail if the taxpayer is outside the United States), with a carbon copy to the taxpayer's representative by regular mail, if appropriate. In any other unagreed case, the case and its administrative file will be forwarded to the service center director or returned to the district director with directions to take such action with respect to the tax liability determined in the Appellate Division as may be appropriate, such as the preparation of a notice of adjustment, or the collection of any addition tax in excise and employment tax cases or of the 100-percent penalty. * * *

* * * * *

(f) *Conference practice requirements.* * * *

(5) *Rule V.* In order to bring an unagreed income, estate, or gift tax case in prestatutory notice status, an unagreed employment or excise tax case, an offer in compromise, a termination of taxable year assessment case, or a jeopardy assessment case before the Appellate Division, the taxpayer or taxpayer's representative should first file with the district office, service center, or Office of International Operations a written protest setting forth specifically the reasons for the refusal to accept the findings. * * *

* * * * *

(g) *Limitations on the jurisdiction and function of the Appellate Division*—(1) *Overpayment of more than $200,000.* If the Appellate Division of a region determines that there is an overpayment of income, war profits, excess profits, estate, or gift taxes, or any tax imposed with respect to private foundations or pension plans under chapter 42 or 43, including penalties and interest, in excess of $200,000, such determination will be considered by the Joint Committee on Taxation. See § 601.108.

* * * * *

Par. 2. Section 601.108 is amended by revising the title of § 601.108 and the first sentence of paragraph (a) to read as set forth below.

§ 601.108 Review of overpayments exceeding $200,000.

(a) *General.* Section 6405(a) of the Code provides that no refund or credit of income, war profits, excess profits, estate, or gift taxes, or any tax imposed with respect to private foundations or pension plans under chapter 42 or 43, including penalties and interest, in excess of $200,000 may be made until after the expiration of 30 days from the date a report is made to the Joint Committee on Taxation. * * *

* * * * *

Par. 3. Section 601.201 is amended as follows:

1. The eighth and ninth sentences of paragraph (e)(2) are deleted and the sentences set forth below are inserted in lieu thereof.

2. Paragraph (e)(19) is revised to read as set forth below.

§ 601.201 Rulings and determination letters.

* * * * *

(e) *Instructions to taxpayers.* * * *

(2) * * * If the request for an advance ruling is under section 367 of the Code, see Revenue Procedure 68–23, 1968–1 C.B. 821 as amplified by Revenue Procedure 76–20, 1976–1 C.B. 560, and Revenue Procedure 77–5, 1977–5 I.R.B. 23. (Revenue Procedure 68–23 contains guidelines for taxpayers and their representatives in connection with issuing rulings under section 367. Revenue Procedure 76–20 explains the effect of Revenue Rule 75–561, 1975–2 C.B. 129, on transactions described in section 3.03 (1)(c) of Revenue Procedure 68–23. Revenue Procedure 77–5 sets forth procedures for submitting ruling requests under section 367, and the administrative remedies available to a taxpayer within the Service after such rulings have been issued.) * * *

* * * * *

(19) A taxpayer may protest an adverse ruling letter, or the terms and conditions contained in a ruling letter, issued after January 30, 1977, under section 367(a)(1) of the Code (including a ruling with respect to an exchange described in section 367(b) which begins before January 1, 1978) or section 1042(e)(2) of the Tax Reform Act of 1976, not later than 45 days after the date of the ruling letter. (For rulings issued under these sections prior to January 31, 1977, see section 4.01 of Revenue Procedure 77–5.) The Assistant Commissioner (Technical) will establish an ad hoc advisory board to consider

V 42 I 180
SEP 16 77
UMI

each protest, whether or not a conference is requested. The taxpayer will be granted one conference upon request. Whether or not the request is made the board may request one or more conferences or written submissions. The taxpayer will be notified of the time, date, and place of the conference, and the names of the members of the board. The board will consider all materials submitted in writing by the taxpayer and oral arguments presented at the conference. Any oral agreements made at a conference by the taxpayer, which have not previously been submitted to the Service in writing, may be submitted to the Service in writing if postmarked not later than seven days after the day of the conference.

The Board will make its recommendation to the Assistant Commissioner (Technical) and the Assistant Commissioner will make the decision. The taxpayer will be informed of the decision of the Assistant Commissioner by certified or registered mail. The specific procedures to be used by a taxpayer in protesting an adverse ruling letter, or the terms and conditions contained in a ruling letter, under section 367 will be published from time to time in the Internal Revenue Bulletin (see, for example, Revenue Procedure 77-5).

• • • • •

Par. 4. Section 601.202 is amended by revising paragraphs (c) (4) and (c) (5) to read as set forth below.

§ 601.202 Closing agreements.

• • • • •

(c) *Approval.* • • •

(4) Regional commissioners, assistant regional commissioners (appellate), assistant regional commissioners (audit), district directors, the Director of International Operations, chiefs and assistant chiefs of appellate branch offices may enter into and approve closing agreements on cases under their jurisdiction (but excluding cases docketed before the U.S. Tax Court) for a taxable period or periods which end prior to the date of agreement and related specific items affecting other taxable periods.

(5) Regional commissioners, assistant regional commissioners (employee plans and exempt organizations) and (appellate), chiefs and assistant chiefs of appellate branch offices are authorized to enter into and approve closing agreements in cases under their jurisdiction docketed in the U.S. Tax Court but only in respect to related specific items affecting other taxable periods.

• • • • •

Par. 5. Section 601.702 is amended as follows:

1. Paragraph (f) (3) (i) is revised to read as set forth below.

2. Paragraph (f) (3) (ii) is amended by deleting "$3.50" and inserting in lieu thereof "$5.00".

3. Paragraph (f) (4) (i) is revised to read as set forth below.

§ 601.702 Publication and public inspection.

• • • • •

(f) *Fees for services.* • • •

(3) *Search services.* • • •

(i) Of personnel involved in locating records shall be $5.00 for each hour or fraction thereof, except that no charge shall be imposed for a search consuming less than one hour;

• • • • •

(4) *Duplication.* • • •

(i) Photocopies, per page up 8½" x 14", $0.10 each, except that no charge will be imposed for copying 10 pages or less when less than one hour is consumed in locating the records requested.

• • • • •

JEROME KURTZ,
Commissioner of Internal Revenue.

Title 33—Navigation & Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 204—DANGER ZONE REGULATIONS

Bering Sea, Shemya Island Area, Alaska

AGENCY: Corps of Engineers, DOD.

ACTION: Final rule.

SUMMARY: We are amending a regulation to allow for the relocation of a danger zone used by the U.S. Air Force near Shemya Island, Alaska, for meteorological rocket firing. Relocation of the danger zone will provide the U.S. Air Force more reliability in meeting firing schedules and an increased margin of safety for personnel.

DATE: Effective on October 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Ralph T. Eppard, 202-693-5070 or write: Office of the Chief of Engineers, Forrestal Building, Washington, D.C. 20314, ATTN: DAEN-CWO-N.

SUPPLEMENTARY INFORMATION: We published this revision in the notice of proposed rulemaking section of the FEDERAL REGISTER on July 18, 1977 with the comment period expiring on August 16, 1977. We received no comments and accordingly § 204.222b is amended as set forth below.

§ 204.222b In Bering Sea, Shemya Island Area, Alaska; meteorological rocket launching facility, Alaskan Air Command, U.S. Air Force.

(a) *The danger zone.* An arc of a circle with a 45-nautical-mile radius of the launch point centered at latitude 52°43'-30" N., longitude 174°06'05" E extending clockwise from 110° true bearing to 200° true bearing.

• • • • •

NOTE.—The Department of the Army has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

(40 Stat. 266 (33 U.S.C. 1) and 40 Stat. 892 (33 U.S.C. 3).)

Dated: September 2, 1977.

CHARLES R. FORD,
Acting Assistant Secretary of the Army (Civil Works).

[FR Doc.77-26977 Filed 9-15-77;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT, AND SCHOLARSHIPS

Grants for Planning of Clinical Educational Programs

AGENCY: Public Health Service, HEW.

ACTION: Interim final regulations.

SUMMARY: These regulations prescribe requirements for grants for planning of clinical education programs pursuant to section 788(f) of the Public Health Service Act (hereinafter "the Act") (42 U.S.C. 295g-8(f), as amended by the Health Professions Education Assistance Act of 1976 (Pub. L. 94-484).

DATES: These regulations are effective September 16, 1977. As discussed below, comments on the regulations are invited. Comments must be received on or before November 15, 1977, in order to be considered.

ADDRESSES: Written comments, preferably in triplicate, should be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Center Building, 4th Floor, Hyattsville, Md. 20782. All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Daniel N. Masica, M.D., Deputy Director, Division of Medicine, Bureau of Health Manpower, Room 4-44 at the above address. Telephone: 301-436-6424.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, hereby deletes 42 CFR Part 57, Subpart A, entitled "Grants for Construction of Health Research Facilities (Including Mental Retardation Facilities)"[1] and substitutes therefor a new Subpart A, as set forth below, entitled "Grants for Planning of Clinical Education Programs."

A Notice of Intent to issue regulations for this program was published in the FEDERAL REGISTER on March 22, 1977 (42 FR 15433). Interested persons were invited to comment on the issues raised and several comments were received. The Department has taken these comments into consideration in developing these regulations.

The following is a brief summary of the major features of the regulations:

1. The regulations in this subpart require that the training programs for which planning is to be done be located in facilities which are other than the principal teaching facilities of the school and which are located in health manpower shortage areas. "Principal teaching facility" for purposes of this grant program, means facilities used by a school of medicine for training programs sponsored by more than one department of the school prior to application for funds under this grant program. This definition was chosen in order to further the Congressional purpose of assisting with costs incurred in developing educational sites in health manpower shortage areas in facilities which have not been previously utilized to a significant degree by departments of a school of medicine. (Section 57.2(f).)

2. The regulations in this subpart in accordance with statutory requirements specify that the planning project must have prior approval of the State legislature in which the proposed training program is to be located, and that the applicant must have received at least $100,000 in non-Federal funds to meet costs of the project. (Section 57.4(c) (2) and (3).)

3. The regulations require that projects plan for training programs to be located in health manpower shortage areas as designated under section 332 of the Act. However, it is anticipated that section 332 shortage area designations will not be available until early in fiscal year 1978 while grants under section 788(f) of the Act must be awarded prior to the close of fiscal year 1977 (i.e., prior to October 1, 1977). For these reasons applicants for grants under this subpart will be informed that although grants under section 788(f) may indeed be made prior to designation of shortage areas under section 332, expenditure of grant funds will be restricted to and contingent upon planning projects involving facilities in shortage areas as ultimately designated under section 332.

Prospective applicants were provided with the factors to be considered in making section 332 designations as well as a current list of shortage areas designated under section 329(b). They were informed that the list of section 329(b) areas served only as examples of possible areas in which projects could be planned, rather than an exclusive listing of all possible sites.

Because of the need for these regulations since grants under section 788(f) of the Act must be awarded prior to October 1, 1977, and in light of the public participation that has already taken place with respect to this program, the Secretary has determined pursuant to 5 U.S.C. 553 and Department policy that it would be impracticable and contrary to the public interest to follow proposed rulemaking procedures or to delay the effective date of these regulations. Accordingly these regulations will be effective on September 16, 1977.

Notwithstanding the omission of proposed rulemaking procedures, interested persons are invited to submit written comments, data, views, and arguments relating to these regulations to the Director of the Bureau of Health Manpower at the address given above. All relevant materials received not later than November 15, 1977, will be considered, and following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations will be published within 90 days of the close of the comment period. Revisions thereto, although applicable to grants for planning of clinical education programs awarded after publication of these regulations, will be applicable only with respect to activities conducted under such grants on or after the date that the revisions become effective.

Accordingly, the existing Subpart A of 42 CFR Part 57 is deleted, and a new Subpart A is added to 42 CFR Part 57 and is adopted as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: August 30, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: September 6, 1977.

HALE CHAMPION,
Acting Secretary.

Subpart A—Grants for Planning of Clinical Education Programs

Sec.
57.1 Applicability.
57.2 Definitions.
57.3 Eligibility.
57.4 Application.
57.5 Project requirements.
57.6 Grand award.
57.7 Grant payments.
57.8 Expenditure of grant funds.
57.9 Nondiscrimination.
57.10 Grantee accountability.
57.11 Publications and copyright.
57.12 Applicability of 45 CFR Part 74.
57.13 Additional conditions.

[1] Section 201(a) of Pub. L. 94-484 repealed the authority for making grants for construction of health research facilities (section 704, Public Health Service Act, 42 U.S.C. 292c). Therefore, the regulations governing the award of such grants are deleted from the Code of Federal Regulations.

AUTHORITY: Section 215 of the Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. § 216); section 788(f) of the Public Health Service Act, 90 Stat. 2321 (42 U.S.C. 295g-8(f)).

Subpart A—Grants for Planning of Clinical Education Programs

§ 57.1 Applicability.

The regulations in this subpart are applicable to the award of grants under section 788(f) of the Public Health Service Act (42 U.S.C. 295g-8(f)) to schools of medicine to assist in meeting the planning costs of projects for the training of medical students, enrolled in the last two years of such school, in facilities which are other than the principal teaching facilities of the school and which are existing Federal health care facilities or other public or private health care facilities and which are located in health manpower shortage areas. Grants under this subpart will not be made for feasibility studies.

§ 57.2 Definitions.

For purposes of this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Council" means the National Advisory Council on Health Professions Education established by section 702 of the Act.

(c) "Fiscal year" means the Federal fiscal year beginning October 1 and ending on the following September 30.

(d) "Health manpower shortage area" means an area designated under section 332 of the Act.

(e) "Nonprofit" as applies to any school means one which is a corporation or association, or is owned and operated by one or more corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any shareholder or individual.

(f) "Principal teaching facilities" means facilities used by a school of medicine for training programs sponsored by more than one department of the school prior to application for funds under this subpart.

(g) "Project director" means an individual designated by the grantee in the grant application and approved by the Secretary to direct the project being supported under this subpart.

(h) "School of medicine" means a school which provides training leading to a degree of doctor of medicine and is accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education. A school which by reason of no, or an insufficient, period of operation is not eligible for such accreditation at the time it applies for a grant under this subpart will be considered accredited for purposes of this definition if the Commissioner of Education finds, after consultation with the appropriate accreditation body or bodies, there is reasonable assurance that the school will meet the accreditation standards of such body or bodies before the beginning of the academic year following the normal graduation date of students who are in their first year of in-

V 42 180 SEP 16 77 UMI

struction at the school during the fiscal year in which the Secretary makes a final determination as to approval of the application.

(i) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(j) "State" includes, in addition to the several States, only the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

§ 57.3 Eligibility.

Any public or nonprofit private school of medicine located in a State is eligible to apply for a grant under this subpart.

§ 57.4 Application.

(a) Each applicant desiring a grant under this subpart must submit an application at such time and in such form as the Secretary may prescribe.[2]

(b) The application must be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) In addition to such other pertinent information as the Secretary may require, an application for a grant under this subpart must contain:

(1) A full and adequate description of the proposed project meeting the requirements of section 788(f) of the Act including:

(i) A description of the planning and developmental activities which have been accomplished by the applicant.

(ii) A description of the objectives of the proposed project with a time-phased work program.

(iii) A detailed budget for the proposed project and a justification of the amount of funds requested.

(iv) A description of the qualifications of all professional personnel to be involved in the project, including their professional backgrounds, academic training, responsibilities and functions.

(v) The estimated number of medical students enrolled in the last two years of the school just preceding the award of the degree of doctor of medicine who are scheduled for participation in the training program and the manner in which their participation will be obtained, e.g., required or elective.

(vi) A description of any clinical departments which have been scheduled for participation in the training program.

(vii) A description of the projected faculty resources and approaches to be utilized to determine the adequacy of such resources.

(viii) A description of any proposed facilities which have been scheduled to be used in the proposed training program, including a description of the approach to be utilized to assure that such facilities are adequate to accommodate the training program without reduction in the quality or quantity of health services delivered in the facilities.

(ix) A description of the proposed method for evaluating student and faculty performance in the training program.

(2) Evidence that, before the fiscal year in which the grant may be expended, the project has received the approval of the State legislature or legislatures in which the proposed training program is to be located.

(3) Evidence that, before the fiscal year in which the grant may be expended, the applicant has received at least $100,000 in non-Federal funds to meet costs of the project.

(4) A description of all the current facilities being used by the school.

(5) A description of the current educational programs being conducted by any clinical departments scheduled for participation in the proposed training program.

(6) A description of the current and projected financial resources available to support the proposed training program and evidence that such funds will be sufficient to assure the operation of the training program.

(7) Evidence that the applicable requirements of section 1513(e) have been met.

§ 57.5 Project requirements.

A project supported under this subpart must be conducted in accordance with the following requirements:

(a) The project must be conducted in accordance with the requirements of section 788(f), this subpart and the terms and conditions of the grant award.

(b) The project must plan for a training program which meets the requirements of section 788(f) and this subpart, to be operational within 12 months from the date of the grant award.

(c) The project must be conducted under the direction of a Project Director who is a full time employee of the grantee.

(d) The proposed training program must represent either (1) a new type of training experience for the students at the school; or (2) an expansion of such training experience to include greater numbers of students.

§ 57.6 Grant award.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council, may award grants to those applicants whose projects will, in his judgment, best promote the purposes of section 788(f) of the Act, taking into consideration, among other pertinent factors:

(1) The potential of the project to meet its stated objectives.

(2) The administrative and managerial capability of the applicant to carry out the project.

(3) The soundness of the fiscal plan for assuring effective utilization of grant funds.

(4) The extent to which the proposed training program will alleviate health manpower needs in health manpower shortage areas.

(5) The adequacy of the staff and faculty who will be available to carry out the training program.

(6) The potential of the training program to be implemented and continued on a self-sustaining basis.

(b) The Secretary will determine the amount of any award on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project plus an additional amount for indirect costs, if any, which the Secretary will calculate either (1) on the basis of his estimate of the actual indirect costs of the project, or (2) on the basis of a percentage of all or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limit of available funds) as well as downward adjustments to actual costs when the Secretary has determined the amount properly expended by the grantee for provisional items.

(c) All grant awards will be in writing and will set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee, which may not exceed one year.

§ 57.7 Grant payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 57.8 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart may be expended solely for carrying out the approved project in accordance with section 788(f) of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

(b) Grants funds may only be expended for costs directly related to the design and development of training programs which meet the requirements of section 788(f) and this subpart; including salaries of professional and support staff, recruitment of faculty and related staff, domestic travel and purchase of supplies and equipment.

§ 57.9 Nondiscrimination.

(a) Attention is called to the requirements of section 704 of the Act and 45 CFR Part 83 which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VII of the Act to, or for the benefit of, any entity unless he receives satisfactory assurances that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in or be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 74).

§ 57.10 Grantee accountability.

(a) *Accounting for grant award payments.*

The grantee must record all payments made by the Secretary in accounting records separate from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart; *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

(b) *Accounting for copyright royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant must be accounted for as follows:

(1) Royalties received during the period of grant support may be retained by the grantee and, in accordance with the terms and conditions of the grant, used in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 788(f) of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support may be retained by the grantee, unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise.

(c) *Grant closeout*—(1) *Date of final accounting.* The grantee must render, with respect to each approved project, a full account, as provided therein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* The grantee must pay to the Federal Government as final settlement with respect to each grant under this subpart the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74 and the terms and conditions of the grant award. Such total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 57.11 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government, as those terms are defined in 45 CFR 74.3, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from a project supported by a grant under this subpart.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government, as so defined, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 57.12 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 74 also apply to all other grantee organizations under this subpart:

Subpart:
- A. General.
- B. Cash depositories.
- C. Bonding and insurance.
- D. Retention and custodial requirements for records.
- F. Grant-related income.
- K. Grant payment requirements.
- L. Budget revision procedures.
- M. Grant closeout, suspension, and termination.
- O. Property.
- Q. Cost principles.

§ 57.13 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

[FR Doc.77-26716 Filed 9-15-77;8:45 am]

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Grants for Training in Emergency Medical Services

AGENCY: Public Health Service, HEW.

ACTION: Interim-Final Regulations.

SUMMARY: The regulations set forth below amend the requirements for grants to assist in meeting the costs of training programs in the techniques and methods of providing emergency medical services pursuant to section 789 of the Public Health Service Act (42 U.S.C. 295g9).

DATES: These regulations are effective September 16, 1977. As discussed below, comments on the regulations are invited. Comments must be received on or before November 15, 1977, in order to be considered.

ADDRESSES: Written comments, preferably in triplicate, should be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, 3700 East West Highway, Center Building, 4th Floor, Hyattsville, Md. 20782. All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:

Daniel N. Masica, M.D., Deputy Director, Division of Medicine, Bureau of Health Manpower, Room 4-44 at the above address, Telephone: 301-436-6424.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, De-

[2] Applications and instructions may be obtained from the Division of Medicine, Bureau of Health Manpower, Health Resources Administration, Room 4-44, 3700 East-West Highway, Center Building, Hyattsville, Md. 20782.

V 42180 SEP 16 77 UMI

partment of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, hereby amends Subpart V, "Grants for Training in Emergency Medical Services," of 42 CFR Part 57 in order to take into account the amendments made to the existing authority for training in emergency medical services in Title VII of the Public Health Service Act by the Emergency Medical Services Amendments of 1976 (Pub. L. 94-573), as well as to revise the requirements on the basis of an evaluation of the operation of the preceding program.[1]

A Notice of Intent to issue regulations for this grant program was published in the FEDERAL REGISTER on March 22, 1977 (42 FR 15433). Interested persons were invited to comment on the issues raised and several comments were received. The Department has taken these comments into consideration in developing the regulations.

Subsequent to the publication of the Notice of Intent to issue regulations, section 789 was amended by section 306(k) of Pub. L. 95-83, the Health Services Extension Act of 1977 (August 1, 1977), which amended paragraph (1) of section 789(a) to authorize traineeships and fellowships to students who plan to specialize or work as physicians in the practice of emergency medicine. The Department intends to develop separate regulations governing traineeships and fellowships under section 789 as amended to be published in the FEDERAL REGISTER as a notice of proposed rulemaking.

The following is a brief summary of the major features of the regulations:

(A) The regulations, in accordance with section 789 of the Act, specify that these grants are available to schools of medicine, dentistry, osteopathy, and nursing; training centers for allied health professions; hospitals; and other appropriate educational and public entities.

(B) The regulations require, in accordance with section 789(g)(2) of the Act, that a minimum of 30 percent of funds appropriated for grants will be used to assist in meeting the costs of training and the establishment of programs for the training of physicians in emergency medicine.

(C) In addition to general requirements applicable to all grants made under this subpart, specific project requirements relating to the content and standards of programs for training in emergency medical services for medical technicians, both ambulance and paramedic, physicians, and nurses are included.

(D) The regulations provide that preference will be given to projects which have the following features, as appropriate:

(1) Training programs which provide clinical experience in emergency medical services systems receiving assistance under Title XII of the Act;

(2) Training programs which provide substantial portions of the training in health manpower shortage areas;

(3) Training programs which emphasize interdisciplinary approaches to emergency care;

(4) In the case of projects for the training of paramedics, the project is sponsored by an educational entity which grants academic credit for the training; and

(5) In the case of projects for the training of emergency physicians, the project is developing general emergency physician training resources as evidenced by an affiliation with, or training based at, a school of medicine or osteopathy with an administrative unit which is responsible solely for educational programs in emergency medical education: undergraduate, graduate, or continuing education.

Because grants under section 789 must be awarded prior to October 1, 1977, and in light of the public participation that has already taken place with respect to this grant program, the Secretary has determined pursuant to 5 U.S.C. 553 and Departmental policy that it would be impracticable and contrary to the public interest to follow proposed rulemaking procedures or to delay the effective date of these regulations.

Notwithstanding the omission of the proposed rulemaking procedures, interested persons are invited to submit written comments, data, views, and arguments relating to these regulations to the Director of the Bureau of Health Manpower at the address given above. All relevant material received not later than November 15, 1977, will be considered, and following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations will be published within 90 days of the close of the comment period.

The regulations as set forth below will be applicable and effective upon September 16, 1977. Revisions thereto, although applicable to grants for training in emergency medical services awarded after publication of these regulations, will be applicable only with respect to activities conducted under such grants on or after the date that the revisions become effective.

Accordingly, Subpart V of 42 CFR Part 57 is amended to read as set forth below.

NOTE.—The Department of Health, Education, and Welfare, has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement Under Executive Order 11821 and OMB Circular A-107.

Dated: August 30, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: September 6, 1977.

HALE CHAMPION,
Acting Secretary.

[1] As amended by Pub. L. 94-573, the authority for emergency medical services training was section 776 of the Public Health Service Act. This section was renumbered section 789 by section 801(b) of the Health Professions Educational Assistance Act of 1976, Pub. L. 94-484.

Subpart V—Grants for Training in Emergency Medical Services

Sec.

57.2101 Applicability.
57.2102 General policy.
57.2103 Definitions.
57.2104 Eligibility.
57.2105 Application.
57.2106 Project requirements.
57.2107 Evaluation of applications.
57.2108 Grant award.
57.2109 Payments.
57.2110 Expenditure of grant funds.
57.2111 Nondiscrimination.
57.2112 Grantee accountability.
57.2113 Publications and copyright.
57.2114 Applicability of 45 CFR Part 74.
57.2115 Records, audit, and inspection.
57.2116 Additional conditions.

AUTHORITY: Sec. 215, Public Health Service Act, 58 Stat. 690, as amended 63 Stat. 35 (42 U.S.C. 216); Sec. 789, Public Health Service Act, 90 Stat. 2243, as amended 90 Stat. 2709 (42 U.S.C. 295g-9).

§ 57.2101 Applicability.

The regulations in this subpart are applicable to the award of grants under section 789 of the Act (42 U.S.C. 295g-9) to schools of medicine, dentistry, osteopathy, and nursing; training centers for allied health professions; hospitals, and other appropriate educational and public entities to assist in meeting the cost of training programs in the techniques and methods of providing emergency medical services.

§ 57.2102 General policy.

Grant awards will be made under this subpart for the purpose of assisting eligible entities in the establishment, improvement, or expansion of training programs in the techniques and methods of providing emergency medical services, which will contribute to the establishment, operation, improvement, or expansion of emergency medical services systems.

§ 57.2103 Definitions.

(a) "Act" means the Public Health Service Act as amended.

(b) "Advanced Life Support Facility" or "ALS facility" means a hospital with facilities and services specifically designed for the care of critical illnesses and injuries such as trauma, including burns and spinal cord injuries, acute cardiac disorders, high risk infants, poisoning, and behavioral problems, including acute alcohol intoxication, drug overdose and psychiatric injuries.

(c) "Appropriate public entity" means a State, a unit of general local government, or any other public entity which:

(1) Has established an emergency medical services system; and

(2) Except with respect to the basic training of emergency medical technicians, has entered into an agreement with an appropriate education entity for a training program supported under this subpart.

(d) "Associate advanced life support facility" or "associate ALS facility" means a health care delivery facility that interrelates in terms of areawide advanced life support planning (includes educational planning) with a designated advanced life support facility.

(e) "Budget period" means the interval of time into which the project period is divided for budgetary and reporting purposes, as specified in the grant award document.

(f) "Clinical experience" means direct, supervised participation in patient care by observation, examination, and performance of procedures as are appropriate for the assigned role of the trainee on the health team.

(g) "Council" means the National Advisory Council on Health Professions Education established by section 702 of the Act.

(h) "Educational entity" means:

(1) A public or nonprofit private school of medicine, dentistry, or osteopathy as defined in section 701(4) of the Act, which is accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education. A school which by reason of no, or an insufficient, period of operation is not eligible for such accreditation at the time it applies for a grant under this subpart will be considered accredited for purposes of this definition if the Commissioner of Education finds, after consultation with the appropriate accrediting body or bodies, there is reasonable assurance that the school will meet the accreditation standards of such body or bodies before the beginning of the academic year following the normal graduation date of students who are in their first year of instruction at the school during the fiscal year in which the Secretary makes a final determination as to approval of the application;

(2) A school of nursing as defined in section 853(2) of the Act;

(3) A training center for allied health professions, as defined in section 795(2) of the Act; or

(4) A public or nonprofit private organization which has the provision of educational programs as one of its major functions and which itself delivers emergency medical services or has a written agreement with an organization which delivers such services whereby such organization will provide the setting for the clinical experience required for the proposed training.

(i) "Emergency medical services" means the services utilized in responding to the perceived individual need for immediate medical care in order to prevent loss of life or aggravation of physiological or psychological illness or injury.

(j) "Emergency medical services council" means a public agency or a formally established or recognized advisory body of a public agency responsible for review and evaluation of emergency medical services in the area of the project.

(k) "Emergency medical services system" means a system which provides for the arrangement of personnel, facilities, and equipment for effective and coordinated delivery of health care services in an appropriate geographical area under emergency conditions (occurring either as a result of the patient's condition or of natural disasters or similar situations) and which is administered by a public or nonprofit private entity which has the authority and the resources to provide effective administration of the system.

(l) "Emergency medical services systems director" means the designated person responsible for overall direction of the emergency medical services system in the geographic area of the system.

(m) "Emergency medical technicians — paramedic" means persons trained to provide advanced life support services including trauma and cardiac care, and other critical medical prehospital care for acutely ill or injured patients (i.e., treatment of shock, drug administration, and cardiac arrhythmia detection and control).

(n) "Emergency nursing" means the unscheduled nursing care of individuals with acute physical or emotional injuries and illnesses which require prompt intervention.

(o) "Emergency physician" means a licensed physician who is trained to and engages in:

(1) The immediate recognition, evaluation, and care of acutely ill or injured patients under emergency conditions;

(2) The administration, research, and teaching of all aspects of emergency medical services; and

(3) The direction of the patient to sources of follow-up care in or outside the hospital, as required.

(p) "Grant project director" means an individual designated by the grantee in the grant application and approved by the Secretary to direct the programs being supported by the grant, including the performance of the training program director's grant-supported activities.

(q) "Medical director" means an emergency physician who provides medical direction for the entire program of clinical instruction and evaluates students' clinical experience.

(r) "Nonprofit" as applied to any educational entity means one which is a corporation or association or is owned and operated by one or more corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(s) "Project period" means the total time for which support for a project has been approved, including any extensions thereof.

(t) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(u) "State" means one of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(v) "Training program director" means an individual designated to provide competent overall direction and coordination for the organization, administration, periodic review, continued development, and effectiveness of the educational program.

§ 57.2104 Eligibility.

Any educational entity, appropriate public entity, or public or nonprofit private hospital located in a State may apply for a grant under this subpart.

§ 57.2105 Application.

(a) Each eligible applicant desiring a grant under this subpart must submit an application at such time and in such form as the Secretary may prescribe.[2] For State and local governments, as those terms are defined in Subpart A of 45 CFR Part 74, attention is called to the forms required by Subpart N of 45 CFR Part 74.

(b) The application must be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations in this subpart.

(c) In addition to such other pertinent information as the Secretary may require, an application for a grant under this subpart must contain:

(1) A detailed description of the proposed project which meets the applicable requirements of § 57.2106 including:

(i) A description of the specific measurable objectives of the proposed project which are consistent with the purposes of section 789 of the Act, and a detailed plan for achieving those objectives;

(ii) A description of the administrative staff and faculty available for the conduct of the proposed project, including their professional background, qualifications, academic training, responsibilities, and functions;

(iii) A description of the facilities, equipment, and educational resources available for the conduct of the proposed project;

(iv) A description of any cooperative arrangements with other institutions, agencies, or organizations for carrying out the proposed project, including arrangements for the provision of clinical practice facilities;

(v) A detailed description of the curriculum for the training program;

(vi) A description of recruitment plans and criteria for the selection and admission of students, including the extent to which the program intends to emphasize the recruitment and necessary training of veterans of the Armed Forces with military training and experience in health care fields and of appropriate public safety personnel, which include policemen, fire fighters, and other public employees charged with maintaining public safety;

(vii) An estimate of the number of individuals to be trained in each training cycle;

(viii) A detailed budget for the proposed project and a justification of the amount of grant funds requested;

(ix) A description of the financial resources available to the applicant to

[2] Applications and instructions may be obtained from the Director, Division of Medicine, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Center Building, 4th Floor, Hyattsville, Md. 20782.

SAFETY FILM KODAK

UMI

assure the sound establishment and maintenance of the proposed project, including a description of the extent to which funds have either been sought by or have been made available to the applicant from Federal programs authorized by statutes other than the Act for the support of the proposed project; and

(x) A description of the plans, if any, for continuing the proposed project beyond the project period.

(2) Evidence of the unavailability of educational programs necessary to supply and maintain sufficient numbers of emergency physicians, dentists, nurses, allied health personnel, and emergency medical technicians (ambulance and paramedic) needed to provide emergency health services on a 24-hour basis in the geographic area for which the applicant proposes to train such personnel.

(3) Evidence that the proposed project is coordinated with other programs (existing or planned) in the geographic area for which the applicant proposes to train emergency medical personnel.

(4) Evidence that all applicable requirements of section 1513(e) of the Act have been met.

(5) Evidence that the proposed project has been submitted for review to the emergency medical services system director, the emergency medical services council, if any, and any other entities responsible for review of emergency medical services in the geographic area for which the applicant proposes to train emergency medical personnel. Copies of any written comments received pursuant to such reviews must be submitted to the Secretary.

§ 57.2106 Project requirements.

(a) *General requirements.* A project supported under this subpart must be conducted in accordance with the following requirements:

(1) The project must be conducted in accordance with section 789 of the Act, the regulations of this subpart, the approved application, and the terms and conditions of the award.

(2) The project must provide a training program which meets relevant standards and guidelines established by appropriate:

(i) Accrediting bodies recognized by the Commissioner of Education,

(ii) Federal or State agencies, or

(iii) Professional associations;

unless the Secretary determines for demonstration purposes that the requirement of this paragraph should be waived on an application by application basis.

(3) The project must provide the training necessary to enable its graduates to meet any relevant laws or regulations governing employment standards or credentials for emergency medical personnel in the geographic area for which the applicant proposes to train such personnel.

(4) The project must have a systematic plan for evaluating the training program, including the performance of the students, the degree to which defined objectives are met, and the impact of the program on the delivery of emergency medical services in the geographic area for which the project proposes to train emergency medical personnel.

(5) The project must have an appropriate setting for the clinical experience required for the training which must be provided either by the grantee or through a written agreement with an organization delivering emergency medical services. The facility chosen for the clinical experience must have major emergency medical capabilities and adequate patient volume and must deliver a variety of emergency medical services.

(6) The project must have available adequate faculty, staff, facilities, and equipment for the conduct of the training program.

(7) The project must have a grant project director. The grant project director may also be a training program director. If the grant project director becomes unable to function in such capacity, the Secretary must be notified as soon as possible.

(8) The project must have a training program director who:

(i) Supervises (A) the processing of student applications and the selection of students, (B) the maintenance of a complete inventory of all training equipment available to the program, and (C) the scheduling of classes and assignment of instructors, insuring that the required equipment and materials are available at each class;

(ii) Assists in instruction, as appropriate, and in the coordination of the examination and evaluation of students, including the preparation of assessment materials;

(iii) Counsels students on an individual basis;

(iv) Serves as liaison between students, program staff, and the sponsoring institution and its affiliates; and

(v) Prepares the program budget.

(9) The project must establish and utilize uniform student selection criteria.

(10) The project must maintain a record of the participation in the program and the level of competence attained by each student.

(11) The grantee must provide the students with a statement of satisfactory completion of the course.

(b) *Specific requirements.* In addition to the requirements of paragraph (a) of this section, projects for the training of emergency medical technicians (ambulance and paramedic), emergency nursing personnel, or emergency physicians must also meet the following specific requirements, as appropriate:

(1) *Projects for the training of emergency medical technicians-ambulance.* The project must either: (i) Meet the guidelines prescribed by the Department of Transportation and set forth in DHEW Publication No. (HSA) 74-2027, (January 1974) which is hereby incorporated by reference and made a part hereof. Copies of this document may be obtained, free of charge, from the Public Health Service, Department of Health, Education, and Welfare, P.O. Box 911, Rockville, Maryland, 20853; or

(ii) demonstrate that at least 75 percent of the graduates of such program either pass the National Registry of Emergency Technicians examination within six months after graduation or meet applicable State requirements which are determined by the Secretary to equal or exceed Department of Transportation guidelines.

(2) *Projects for the Training of emergency medical technicians-paramedic.* (i) The training program must prepare students to meet the performance standards contained in Appendix A of the "National Training Course Guide for Emergency Medical Technician-Paramedic," hereinafter the "Course Guide," developed by the Department of Transportation's National Highway Traffic Safety Administration, which is hereby incorporated by reference and made a part hereof. Copies of this document may be obtained, free of charge, from the United States Department of Transportation, National Highway Traffic, Safety Administration, Washington, D.C. 20510.

(ii) The course goals by module and course content of the training program must conform to those outlined in Appendices B and C of the Course Guide.

(iii) The clinical experience must be based at a school of medicine or osteopathy, hospital or other health care delivery facility which can assure sufficient medical supervision and clinical experience as set forth in the Course Guide. A substantial portion of this experience must be in an ALS facility or in an associate ALS facility which has appropriate resources.

(iv) Only individuals who have a high school diploma or equivalent degree may be enrolled in the training program.

(v) The project must have a medical director. The medical director may be the training program director.

(vi) The project must provide for the continuing education of the faculty in content areas related to their educational responsibilities.

(3) *Projects for the training of emergency nursing personnel.* (i) The project must meet the "Standards of Emergency Nursing Practice" developed by the American Nurses' Association and the Emergency Department Nurses' Association (ANA Publication Code MS-S), or equivalent standards as determined by the Secretary. This document is hereby incorporated by reference and made a part hereof. Copies can be obtained, free of charge, from the Emergency Department Nurses' Association, P.O. Box 1566, East Lansing, Michigan 48823.

(ii) The training program director must be a registered nurse with at least one year of experience and education in emergency nursing patient care and experience in baccalaureate nursing education.

(iii) The project must have a medical advisor who is an emergency physician and will advise the training program director regarding medical control and supervision in the clinical environment.

(iv) Only individuals who are licensed registered nurses or are full-time students in a school of nursing and have completed courses in basic patient care, maternal and child health, mental health and medical-surgical nursing may be enrolled.

(4) *Projects for the residency training of emergency physicians.* (i) The training program must be a graduate medical education program in emergency medicine which is endorsed or provisionally endorsed by, or has a letter granting permission to recruit residents from, the Liaison Residency Endorsement Committee in emergency medicine.

(ii) The training program must provide training designed to familiarize the resident with:

(A) The functions of an emergency medical services system as listed in section 1206(b)(4)(C) of the Act;

(B) The interaction among the organizations and agencies which deliver emergency health services; and

(C) The management and organization of an emergency unit.

(iii) The grantee must sponsor at least two other types of approved graduate medical education programs (e.g., internal medicine, general surgery, family practice).

(iv) The training program may be up to three years in length, but no less than two years. In the case of a three-year program the first year must include general clinical experience. The last two years must include increased training and responsibilities in the emergency department with the resident assigned to other specialties to learn specific skills applicable to emergency care.

(v) The training program must be conducted in an emergency unit which is organized as a major service within an ALS or associate ALS facility.

(vi) The project must have a medical director who works full time in an emergency unit.

(vii) The project must have a training program director. The training program director may also be the medical director.

(viii) The project must provide for the continuing education of the faculty in content areas related to their educational responsibilities.

(5) *Projects for the continuing education of physicians.* (i) Only individuals who are emergency physicians or physicians actively involved in an emergency medical services system may be enrolled.

(ii) The project must fulfill requirements for Category I Continuing Medical Education credit as approved by the American College of Emergency Physicians and the University Association of Emergency Medicine.

§ 57.2107 Evaluation of applications.

(a) The Secretary will, after consultation with the Council, approve or disapprove all applications filed in accordance with § 57.2105, taking into consideration, among other pertinent factors:

(1) The degree to which the proposed project adequately provides for meeting the requirements in § 57.2106.

(2) The potential effectiveness of the proposed project in carrying out the training purposes of section 789 of the Act.

(3) The administrative and managerial capability of the applicant to carry out the proposed project.

(4) The local and national needs which the proposed project is designed to serve.

(5) The soundness of the fiscal plan for assuring effective utilization of grant funds.

(6) The potential of the project to continue on a self-sustaining basis after the project period.

(b) In determining the priority for funding of applications approved under paragraph (a) of this section, the Secretary will consider:

(1) The relative merit of the proposed project based upon the factors in paragraph (a) of this section; and

(2) The extent to which the proposed project contains any of the following elements:

(i) All training programs in the proposed project provide clinical experience in emergency medical services systems receiving assistance under Title XII of the Act.

(ii) Substantial portions of the training is conducted in health manpower shortage areas. For purposes of this paragraph, a health manpower shortage area is (A) an area designated under section 332 of the Act, or (B) prior to the designation of areas under section 332 of the Act, an area designated as a critical health manpower shortage area under sections 329(b) and 836 of the Act, as in effect on September 30, 1977.

(iii) All training programs in the proposed project emphasize interdisciplinary approaches to emergency medical services.

(iv) In the case of projects for the training of emergency medical technicians-paramedic, the proposed project is sponsored by an educational entity which grants academic credit for the training.

(v) In the case of projects for the training of emergency physicians, the project is designed to train emergency physicians while developing general emergency physician training resources. As evidence that the program is so designed, the applicant must:

(A) Be a school of medicine or osteopathy with an administrative unit which is responsible solely for educational programs in emergency medicine and involved in more than one of the following phases of emergency medical education: undergraduate, graduates or continuing education; or

(B) Be affiliated with a school of medicine or osteopathy described in paragraph (b)(2)(v)(A) of this section.

§ 57.2108 Grant award.

(a) *General.* (1) Within the limits of funds available for such purpose, the Secretary, may award grants to those applicants whose projects will, in his judgment, best promote the purposes of section 789 of the Act, as determined in accordance with § 57.2107.

(2) All grant awards will be in writing, and will set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee.

(3) Neither the approval of any project or the award of any grant commits or obligates the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees must make separate application at such times and in such form as the Secretary may prescribe.

(b) *Determination of grant amount.* The Secretary will determine the amount of any award under this subpart on the basis of his estimate of the sum necessary for the direct costs of the project plus an additional amount for indirect costs, if any, which the Secretary will calculate either (1) on the basis of his estimate of the actual indirect costs of the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the Secretary has determined the amount properly expended the grantee for provisional items.

(c) *Noncompeting continuation awards.* If a grantee has filed an application for continuation support and within the limits of funds available for this purpose, the Secretary may make a grant award for an additional budget period for any previously approved project if, on the basis of such progress and accounting records as may be required, the Secretary finds that the project's activities during the current budget period justify continued support of the project for an additional budget period. If the Secretary decides to continue support, the amount of the grant award will be determined in accordance with paragraph (b) of this section. If the Secretary decides not to continue supporting a project for an additional budget period, he will notify the grantee in writing before the end of the current budget period. In addition, the Secretary may provide financial support for the orderly phase-out of the supported project, if he determines that such support is necessary.

§ 57.2109 Payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred in the budget period, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

V 42 1180 SEP 16 77 UMI

§ 57.2110 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart may be expended solely for carrying out the approved project in accordance with section 789 of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of a subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 57.2111 Nondiscrimination.

(a) Attention is called to the requirements of Section 704 of the Act and 45 CFR Part 83 which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VII of the Act to, or for the benefit of, any entity unless he receives satisfactory assurance that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall on the basis of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds used for alteration or renovation are subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 F.R. 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations and procedures prescribed pursuant thereto.

(f) The grantee may not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.2112 Grantee accountability.

(a) *Accounting for grant award payments.* The grantee must record all payments made by the Secretary in accounting records separate from the records of all other grant awards. With respect to each approved project the grantee must account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart; *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs will be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

(b) *Accounting for copyright royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant must be accounted for as follows:

(1) Royalties received during the period of grant support may be retained by the grantee and, in accordance with the terms and conditions of the grant, used in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 789 of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support may be retained by the grantee unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise except that any grantee that is a State or local government, as defined in 45 CFR § 74.3, which receives royalties in excess of $200 a year, must return the Federal share of the excess amount (computed by applying the percentage of Federal participation in the cost of the grant supported project to the excess amount) to the Federal Government, unless a specific agreement provides otherwise.

(c) *Grant closeout.* (1) *Date of final accounting.* A grantee must submit with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* The grantee must pay to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and

(ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74 and the terms and conditions of the grant award. Such total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successors or assigns by setoff or other action is provided by law.

§ 57.2113 Publications and copyright.

(a) *State and local governments.* If the grantee is a State or local government, as those terms are defined in 45 CFR 74.3, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 applies with respect to any book or other copyrightable materials developed or resulting from a project supported by a grant under this subpart.

(b) *Grantees other than State and local governments.* If the grantee is not a State or local government, as so defined, except as may otherwise be provided under terms and conditions of the award, the grantee may copyright without prior approval any publication, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive and irrevocable license or right in the government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 57.2114 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 74 also apply to all other grantee organizations under this subpart:

Subpart:

A. General.
B. Cash Depositories.
C. Bonding and Insurance.
D. Retention and Custodial Requirements for Records.
F. Grant-related Income.
G. Matching and Cost Sharing.
K. Grant Payment Requirements.
L. Budget Revision Procedures.
M. Grant Closeout, Suspension, and Termination.
O. Property.
Q. Cost Principles.

§ 57.2115 Records, audit, and inspection.

(a) *Records.* In addition to the applicable requirements of 45 CFR Part 74, the grantee must establish and maintain such records as the Secretary may by regulation or order require, including records which completely disclose the amount and disposition of the total amount of funds received by the grantee for the project, the total cost of the project for which a grant was received, the total amount of that portion of the total cost of the project received by or allocated to such grantee from other sources, and such other records as will facilitate an audit conducted in accordance with generally accepted auditing standards.

(b) *Audit.* The grantee is responsible for providing and paying for an annual financial audit of its books, accounts, financial records, files and other papers and property in accordance with the requirements of section 705(b) of the Act. The audit must be conducted by and certified to be accurate by an independent certified public accountant utilizing generally accepted auditing standards. A report of such audit must be filed with the Secretary at such time and in such manner as the Secretary may require.

(c) *Inspection.* The grantee must make available to the Secretary or the Comptroller General of the United States or any of their duly authorized representatives all such books, documents, papers, and records for examination, copying, or mechanical reproduction, on or off the premises of the grantee upon a reasonable request therefor.

§ 57.2116 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

NOTE.—The incorporation by reference provisions in this document were approved by the Director of the FEDERAL REGISTER on July 25, 1977 and are on file in the FEDERAL REGISTER library.

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Grants for Training United States Citizen Foreign Medical Students

AGENCY: Public Health Service, HEW.

ACTION: Interim final regulations.

SUMMARY: These regulations set forth pursuant to section 782 of the Public Health Service Act (hereinafter "the Act") (42 U.S.C. 295g-2), as amended by the Health Professions Education Act of 1976 (Public Law 94-484), requirements for grants to plan, develop, and operate training programs for U.S. citizens who were students in foreign medical schools before October 12, 1976, (1) to enable them to meet the requirements of enrolling in schools of medicine or osteopathy in the States as full-time students with advanced standing; or (2) to train such students who have transferred from foreign medical schools and have enrolled in schools of medicine or osteopathy in the States as full-time students with advanced standing.

DATES: These regulations are effective on September 16, 1977. As discussed below, comments on the regulations are invited. Comments must be received on or before November 15, 1977, in order to be considered.

ADDRESSES: Written comments, preferably in triplicate, should be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, Center Building, 4th Floor, 3700 East-West Highway, Hyattsville, Md. 20782. All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:

Daniel N. Masica, M.D., Deputy Director, Division of Medicine, Bureau of Health Manpower, Room 4-44 at the above address. Telephone: 301-436-6424.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, hereby adds a new subpart DD, "Grants for Training United States Citizen Foreign Medical Students," to 42 CFR Part 57.

A Notice of Intent to issue regulations for this grant program was published in the FEDERAL REGISTER on March 22, 1977 (42 FR 15433). Interested persons were invited to comment on the issues raised, and several comments were received. The Department has taken these comments into consideration in developing the proposed regulations set forth in tentative form below.

The regulations under this subpart, in accordance with section 782 of the Public Health Service Act, specify requirements for grants to plan, develop, and operate programs for United States citizens who were students in foreign medical schools before October 12, 1976, (1) to enable them to meet the requirements of enrolling in schools of medicine or osteopathy in the States as full-time students with advanced standing (hereinafter referred to as "Category I Training Program"); or (2) to train such students who have transferred from foreign medical schools and have enrolled in schools of medicine or osteopathy in the States as full-time students with advanced standing (hereinafter referred to as a "Category II Training Program"). With respect to this requirement, the regulations include definitions for the terms "advanced standing" (§ 57.2902(b)), "foreign medical school" (§ 57.2902(e)), "foreign medical student" (§ 57.2902(f)), "full-time student" (§ 57.2902(g)), "school of medicine or osteopathy" (§ 57.2902(l)), and "State" (§ 57.2902(m)).

The regulations require that both the Category I and II Training Programs have at least four United States citizen foreign medical student participants, and that each Program systematically evaluate and monitor the progress of its foreign medical student participants throughout their training.

In addition to the general requirements for Category I and II Training Programs, the regulations also delineate special requirements for these Programs reflecting the statutory differences between the two. Since the Category I Training Program will be conducted for those foreign medical students who have not transferred to a school of medicine or osteopathy in a State but are interested in making such a transfer, the regulations require a school of medicine or osteopathy awarded a grant under this subpart to plan, develop, and operate a Category I Training Program to (1) identify the deficiencies in the foreign medical school education of each foreign medical student participating in the training program, (2) assess by examination or other appropriate mechanisms each foreign medical student's medical knowledge and skills in the basic, clinical, and behavioral sciences and provide, where necessary, supplemental training in these subject areas, (3) provide each foreign medical student participant with an evaluation of his overall performance (including examination scores) upon completion of the training program, and (4) counsel the foreign medical students who have completed the training program with respect to gaining admission as full-time students with advanced standing to schools of medicine or osteopathy located in a State.

While the purpose of the Category I Training Program is to enable foreign medical students to enroll in schools of medicine or osteopathy as full-time students with advanced standing, the purpose of the Category II Training Program is to provide remedial instruction to foreign medical students who have been admitted to the applicant school of medicine or osteopathy. With respect to Category II Training Programs the regulations require a school of medicine or osteopathy receiving a grant under this subpart to plan, develop, and operate such a training program to (1) assess the medical knowledge and skills of the foreign medical students enrolled in the applicant school of medicine or osteopathy and compare the degree of their knowledge and skills with that possessed by students enrolled and trained in the applicant school of medicine or osteopathy at the same academic level as the foreign medical student, and (2) provide supplemental training to each foreign medical student whose medical knowledge and skills are not comparable to the degree of medical knowledge and skills possessed by students enrolled and trained in the

V 42 I 180
SEP 16 77
UMI

applicant school of medicine or osteopathy at the same academic level as the foreign medical student in order to bring the foreign medical student to a degree of competency equal to such students.

Because grants under section 782 must be awarded prior to October 1, 1977, and in light of the public participation that has already taken place with respect to this grant program, the Secretary has determined pursuant to 5 U.S.C. 553 and Departmental policy that it would be impracticable and contrary to the public interest to follow proposed rulemaking procedures or to delay the effective date of these regulations.

Notwithstanding the omission of the proposed rulemaking procedures, interested persons are invited to submit written comments, data, views, and arguments relating to these regulations to the Director of the Bureau of Health Manpower at the address given above. All relevant materials received not later than November 15, 1977, will be considered, and following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations will be published within 90 days of the close of the comment period.

The regulations as set forth below will be applicable and effective upon September 16, 1977. Revisions thereto, although applicable to grants for training U.S. citizen foreign medical students awarded after publication of these regulations, will be applicable only with respect to activities conducted under such grants on or after the date that the revisions become effective.

Accordingly, a new Subpart DD is added to 42 CFR Part 57 and is adopted as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement Under Executive Order 11821 and OMB Circular A-107.

Dated: August 30, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: September 6, 1977.

HALE CHAMPION,
Acting Secretary.

Subpart DD—Grants for Training United States Citizen Foreign Medical Students

Sec.
57.2901 Applicability.
57.2902 Definitions.
57.2903 Eligibility.
57.2904 Application.
57.2905 Project requirements.
57.2906 Evaluation and grant award.
57.2907 Grant payments.
57.2908 Expenditure of grant funds.

57.2912 Reports.
57.2913 Applicability of 45 CFR Part 74.
57.2914 Records, audit, and inspection.
57.2915 Additional conditions.

AUTHORITY: Section 215, Public Health Service Act, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. § 216); section 782 of the Public Health Service Act, 90 Stat. 2314 (42 U.S.C. 295g-2).

§ 57.2901 Applicability.

The regulations of this subpart are applicable to the award of grants under section 782 of the Public Health Service Act (42 U.S.C. 295g-2) to schools of medicine and osteopathy to plan, develop, and operate training programs for United States citizens, who were students in foreign medical schools before October 12, 1976, (1) to enable them to meet the requirements for enrolling in schools of medicine or osteopathy in the States as full-time students with advanced standing, or (2) to train such students who have transferred from foreign medical schools and have enrolled in schools of medicine and osteopathy in the States as full-time students with advanced standing.

§ 57.2902 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Advanced standing" means the level of academic placement beyond the first year of training at a school of medicine or osteopathy in a State.

(c) "Budget period" means the interval of time into which the project period is divided for budgetary and reporting purposes, as specified in the grant award.

(d) "Council" means the National Advisory Council on Health Professions Education (established by section 702 of the Act).

(e) "Foreign medical school" means a school (1) which is not located in a State, (2) which provides a full course of study leading to a medical degree or a diploma, and (3) whose medical degree or diploma is accepted by the country in which such school is located as one of the necessary qualifications for official sanction or licensure to practice medicine in that country.

(f) "Foreign medical student" means a U.S. citizen who was a student in a foreign medical school before October 12, 1976, and who is either: (1) seeking to transfer to a school of medicine or osteopathy in a State as a full-time student with advanced standing, or (2) has enrolled in a school of medicine or osteopathy in a State as a full-time student with advanced standing.

(g) "Full-time student" means a student who is enrolled in a school in a State on a full-time basis, as determined by such school, and is pursuing a course of study leading to a degree specified in paragraph (1) of this section.

(h) "Nonprofit school" means a school owned and operated by one or more corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(i) "Project director" means an individual designated by the grantee in the grant application and approved by the Secretary to direct the project being supported under this subpart.

(j) "Project period" means the total time for which support for a project has been approved, including any extensions thereof.

(k) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(l) "School of medicine or school of osteopathy" means a school which provides training leading to a degree of doctor of medicine or a degree of doctor of osteopathy and is accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education. A school which by reason of no, or an insufficient, period of operation is not eligible for such accreditation at the time it applies for a grant under this subpart will be considered accredited for purposes of this definition if the Commissioner of Education finds, after consultation with the appropriate accreditation body or bodies, there is reasonable assurance that the school will meet the accreditation standards of such body or bodies before the beginning of the academic year following the normal graduation date of students who are in their first year of instruction at the school during the fiscal year in which the Secretary makes a final determination as to approval of the application.

(m) "State" means one one of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

§ 57.2903 Eligibility.

(a) *Eligible applicants.* Any public or private nonprofit school of medicine or osteopathy located in a State may apply for a grant under this subpart.

(b) *Eligible projects.* Grants under this subpart may be made to eligible applicants to meet the costs of planning, developing, and operating projects to carry out either one or both of the following purposes:

(1) To train United States citizens who were enrolled in foreign medical schools before October 12, 1976, to enable them to meet the requirements for enrolling in schools of medicine or osteopathy in the States as full-time students with advanced standing; or

(2) To train United States citizens who were enrolled in foreign medical schools before October 12, 1976, and who have transferred from foreign medical schools and have enrolled in schools of medicine or osteopathy in the States as full-time students with advanced standing.

§ 57.2904 Application.

(a) Each eligible applicant desiring a grant under this subpart shall submit an application in such form and at such

time as the Secretary may prescribe.[1] More than one school may join in the submission of an application for a grant under this subpart.

(b) The application may be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) In addition to such other pertinent information as the Secretary may require, an application for a grant under this subpart must contain the following:

(1) A description of the proposed project to carry out either one or both of the purposes specified in § 52.2903(b).

(2) A description of any previous similar training activities in which the applicant has engaged.

(3) A description of the resources available for the conduct of the proposed project, including faculty, staff, equipment, facilities, and where applicable, the clinical practice setting or settings.

(4) A description of the background and qualifications of the project staff and any proposed consultants.

(5) A description of the proposed recruitment plans and criteria for admission to the training program.

(6) An estimate of the number of students to be enrolled in the training program.

(7) A description of the proposed plan and methods of identifying the deficiencies in the foreign medical school education of the United States citizen foreign medical students participating in the training program as required by § 57.2905 of this subpart.

(8) A description of the proposed training program for correcting deficiencies including the proposed curriculum, the proposed number of hours for classroom instruction, and proposed laboratory demonstrations, lectures, and seminars.

(9) A description of the proposed plan to counsel foreign medical students who have completed a § 57.2903(b)(1) training program with respect to gaining admission as full-time students with advanced standing to schools of medicine or osteopathy located in the States.

(10) A detailed timetable for carrying out the activities of the proposed project.

(11) A detailed method for monitoring and evaluating the performance of the foreign medical student participants, and of the overall project.

(12) A detailed budget for the proposed project and a justification of the amount of grant funds requested.

§ 57.2905 Project requirements.

A project supported under this subpart must be conducted in accordance with the following requirements:

[1] Applications and instructions may be obtained from the Director, Division of Medicine, Bureau of Health Manpower, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782.

(a) The project must be conducted in accordance with section 782 of the Act, the regulations of this subpart, the terms and conditions of the award, and the approved application.

(b) The project must be conducted under the direction of a project director who must be on the full-time faculty of a school submitting an application under this subpart. If the project director becomes unable to function in such capacity, the Secretary must be notified as soon as possible.

(c) Each training program must have at least four foreign medical student participants.

(d) Each project must systematically evaluate and monitor the progress of the foreign medical student participants during their training.

(e) If the project is designed to carry out the purpose of training foreign medical students to enable them to meet the requirements of enrolling in a school of osteopathy or medicine in a State (§ 57.2903(b)(1)), the project must:

(1) Identify the deficiencies in the foreign medical school education of each foreign medical student, including those subject areas which are lacking because such subjects are not part of the foreign medical school curricula, are not taught within a time-frame comparable to the curricula of U.S. schools of medicine or osteopathy or do not correspond sufficiently to subject areas taught in such schools; and provide training to correct such deficiencies;

(2) Assess by examination or other appropriate mechanisms each foreign medical student's medical knowledge and skills in the basic, clinical, and behavioral sciences and provide, where necessary, supplemental training in these subject areas;

(3) Provide each foreign medical student with an evaluation of his overall performance, including examination scores, upon completion of the training program; and

(4) Counsel the foreign medical students who have completed the training program with respect to gaining admission as full-time students with advanced standing in schools of medicine or osteopathy located in the States.

(f) If the project is designed to carry out the purpose of training foreign medical students who have enrolled in a school of medicine or osteopathy in a State (§ 57.2903(b)(2)), the project must:

(1) Assess the medical knowledge and skills of the foreign medical students enrolled in the applicant school of medicine or osteopathy and compare the degree of their knowledge and skills with that possessed by students enrolled and trained in the applicant school of medicine or osteopathy at the same academic level as the foreign medical student; and

(2) Provide supplemental training to each foreign medical student whose medical knowledge and skills are not comparable to the degree of medical knowledge and skills possessed by students enrolled and trained in the applicant school of medicine or osteopathy at the same level as the foreign medical student in order to bring the foreign medical student to a degree of competency equal to such students.

§ 57.2906 Evaluation and grant award.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council, may award grants to those applicants whose projects will in his judgment best promote the purposes of section 782(a) of the Act, taking into consideration among other pertinent factors:

(1) The potential effectiveness of the proposed project in carrying out the purposes of § 57.2903(b).

(2) The reasonableness of the criteria for selection and enrollment of participants into the training program.

(3) The adequacy of the plan for identifying deficiencies in the medical education of the foreign medical students as required by § 57.2905 of this subpart.

(4) The adequacy of the proposed curriculum designed to correct such deficiencies.

(5) The administrative and managerial capability of the applicant to carry out the proposed project.

(6) The availability and adequacy of the resources available to the applicant to carry out the proposed project, including faculty, staff, equipment, and facilities.

(7) The qualifications of the project director.

(8) The reasonableness of the proposed budget in relation to the proposed project.

(9) The adequacy of the methods for monitoring and evaluating the performance of the foreign medical student participants, and of the overall project.

(b) The amount of any award will be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limit of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(c) All grant awards will be in writing and will set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee. The project period for any

V 42 1180 SEP 16 77 UMI

grant under this subpart may not exceed four years.

(d) Neither the approval of any project nor the award of any grant commits or obligates the United States in any way to make any additional supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support grantees must make separate application at such times and in such form as the Secretary may prescribe.

(e) If a grantee has filed an application for continuation support, and within the limits of funds available for this purpose, the Secretary may make a grant award for an additional budget period for any previously approved project where the Secretary finds, on the basis of such progress and accounting reports as may be required, that the project's activities during the current budget period justify continued support for an additional budget period. If the Secretary determines to continue support, the amount of grant award will be determined in accordance with paragraph (b) of this section. If the Secretary determines not to continue a project for an additional budget period, the grantee will be notified in writing before the end of the current budget period. In addition, if he determines such support is necessary, the Secretary may provide financial support for the orderly phase-out of the project.

§ 57.2907 Grant payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred in the budget period, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 57.2908 Expenditure of grant funds.

(a) Funds granted pursuant to this subpart may be expended solely for carrying out the approved project in accordance with section 782 of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74: *Provided*, That such funds may not be expended for sectarian instruction or for any religious purpose.

(b) Funds granted pursuant to this subpart may be used to, among other things, identify deficiencies in the foreign medical education of foreign medical students, develop materials and methodology for correcting such deficiencies, and develop specialized training to prepare foreign medical students for enrollment in schools of medicine or osteopathy in the States as full-time students with advanced standing.

(c) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of a subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 57.2909 Nondiscrimination.

(a) Attention is called to the requirements of section 704 of the Act and 45 CFR Part 83, which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VII of the Act to, or for the benefit of, any entity unless the application for the grant, loan guarantee, or interest subsidy payment contains assurances satisfactory to the Secretary that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (42 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds used for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965) as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(f) The grantee may not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.2910 Grantee accountability.

(a) *Accounting for grant award payments.* The grantee must record all payments made by the Secretary in accounting records separate from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee must account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart: *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs will be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

(b) *Accounting for copyright royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant must be accounted for as follows:

(1) Royalties received during the period of grant support may be retained by the grantee and, in accordance with the terms and conditions of the grant, used in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 782 of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support may be retained by the grantee unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise.

(c) *Grant closeout.* (1) *Date of final accounting.* A grantee must render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* The grantee must pay to the Federal Government as final settlement with respect to the approved project the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74 and the terms and conditions of the grant award. Such total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successors or assigns by set off or other action as provided by law.

§ 57.2911 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials, and to authorize others to do so.

§ 57.2912 Reports.

In addition to such other reports as the Secretary may require, each school of medicine or osteopathy awarded a grant pursuant to this subpart during the fiscal year beginning October 1, 1977, and ending September 30, 1978, must submit to the Secretary before June 30, 1979, a report of any deficiencies identified in the foreign medical school education of foreign medical students who participated in the training project for which the grant was made. A draft copy of this report must be submitted to the Secretary by April 30, 1979.

§ 57.2913 Applicability of 45 CFR Part 74.

The relevant provisions of the following subparts of 45 CFR Part 74, establishing uniform administrative requirements and cost principles apply to all grants awarded pursuant to this subpart.

Subpart:
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

§ 57.2914 Records, audit and inspection.

(a) *Records.* In addition to the applicable requirements of 45 CFR Part 74, the grantee must establish and maintain such records as the Secretary may by regulation or order require, including records which completely disclose the amount and disposition of the total amount of funds received by the grantee for the project, the total cost of the project for which a grant was received, the total amount of that portion of the total cost of the project received by or allocated to such grantee from other sources, and such other records as will facilitate an audit conducted in accordance with generally accepted auditing standards.

(b) *Audit.* The grantee is responsible for providing and paying for an annual financial audit of its books, accounts, financial records, files and other papers and property in accordance with the requirements of section 705(b) of the Act. The audit must be conducted by and certified to be accurate by an independent certified public accountant utilizing generally accepted auditing standards. A report of such audit must be filed with the Secretary at such time and in such manner as the Secretary may require.

(c) *Inspection.* The grantee must make available to the Secretary or the Comptroller General of the United States or any of their duly authorized representatives all such books, documents, papers, and records for examination, copying, or mechanical reproduction, on or off the premises of the grantee upon a reasonable request therefor.

§ 57.2915 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Grants for Development of New Schools of Medicine Emphasizing Family Medicine

AGENCY: Public Health Service, HEW.

ACTION: Interim-final regulations.

SUMMARY: These regulations prescribe requirements for grants for the development of new schools of medicine emphasizing family medicine under section 788(g) of the Public Health Service, (hereinafter the Act), (42 USC 295g–8 (g)), as amended by the Health Professions Educational Assistance Act of 1976 (Pub. L. 94–484) to enable such schools to meet the eligibility requirements of section 788(a) of the Act (42 USC 295g–8(a)).

DATES: These regulations are effective September 16, 1977. As discussed below, comments on the regulations are invited. Comments must be received on or before November 15, 1977, in order to be considered.

ADDRESSES: Written comments, preferably in triplicate, should be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Center Building, 4th Floor, Hyattsville, Md. 20782.

All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:

Daniel N. Masica, M.D., Deputy Director, Division of Medicine, Bureau of Health Manpower, Room 4–44 at the above address. Telephone: 301–436–6424.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare hereby adds a new subpart EE, "Grants for Development of New Schools of Medicine Emphasizing Family Medicine," to 42 CFR Part 57.

A notice of intent to issue regulations for grants for development of new schools of medicine emphasizing family medicine was published in the FEDERAL REGISTER on March 22, 1977 (42 FR 15433). Interested persons were invited to comment on the issues raised, and several comments were received. The Department has taken these comments into consideration in developing the regulations set forth below.

The following is a brief summary of the major features of the regulations.

1. The regulations in this subpart require each applicant to plan a curriculum for its new school of medicine which will emphasize training in family medicine. To demonstrate this emphasis the applicant must establish an administrative unit devoted to family medicine at the graduate and undergraduate levels and require educational experiences in family medicine as a prerequisite of graduation for every undergraduate student. It is the Secretary's view that these requirements represent the minimum level of activity necessary to adequately demonstrate the commitment to family medicine required by the statute. The imposition of any additional requirements in this area would tend to restrict the applicant's flexibility in developing a school that best meets the needs of the school's community.

"Family medicine" for purposes of this grant program, means the field of medicine in which the physician:

(1) Serves as the physician of first contact with patients across a broad spectrum of ages and provides a means of entry into the health care system;

(2) Evaluates the patient's total health needs, provides personal medical care within one or more fields of medicine, and refers the patient, when indicated, to appropriate sources of care while preserving the continuity of his care;

(3) Assumes the responsibility for the patient's comprehensive and continuous health care and acts as a leader or coordinator of others providing health services to the patient; and

(4) Accepts responsibility for the patient's total health care within the context of his environment, including the community and the family or comparable social unit.

This definition was chosen in order to recognize the Congressional intent that the family medicine specialty be predicated upon the provision of continuing comprehensive care to all members of the family on a personal basis.

V 421180 SEP 16 77 UMI

2. The regulations under this subpart require that no grant award may exceed 50 percent of the total allowable direct costs necessary to accomplish the goals identified in the application. The types of costs considered allowable include the cost of personnel, supplies, equipment, consultant fees, and domestic travel of staff and consultants. The 50 percent limitation has been included to assure, as required by statute, that non-Federal financial resources will be used for the development of the applicant's school of medicine. In addition, the Secretary views an applicant's ability to obtain non-Federal resources as a critical indicator of the new school's viability.

3. In accordance with the statutory requirement that grants awarded under this subpart be used to enable a new school of medicine to meet the eligibility requirements of the Start-Up Grant Program under section 788(a) of the Act (42 USC 295g–8(a)), the regulations specify that the applicant assure that at least 24 students will be enrolled in the initial class of its school of medicine, and that it describe the tasks necessary to be accomplished in order for the new school to obtain a Letter of Reasonable Assurance from a recognized accrediting body approved by the Commissioner of Education.

Because grants under section 788(g) must be awarded prior to October 1, 1977, and in light of the public participation that has already taken place with respect to this grant program, the Secretary has determined pursuant to 5 USC 553 and Departmental policy that it would be impracticable and contrary to the public interest to follow proposed rulemaking procedures or to delay the effective date of these regulations.

Notwithstanding the omission of the proposed rulemaking procedures, interested persons are invited to submit written comments, data, views, and arguments relating to these regulations to the Director of the Bureau of Health Manpower at the address given above. All relevant material received not later than November 15, 1977, will be considered, and following the close of the comment period, the regulations will be revised as warranted by the public comments received. It is intended that any revision of the regulations will be published within 90 days of the close of the comment period.

The regulations as set forth below will be applicable and effective September 16, 1977. Revisions thereto, although applicable to grants for development of new schools of medicine emphasizing family medicine awarded after publication of these regulations, will be applicable only with respect to activities conducted under such grants on or after the date that the revisions become effective.

Accordingly, a new Subpart EE is added to 42 CFR Part 57 and is adopted as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A–107.

Dated: August 30, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: September 6, 1977.

HALE CHAMPION,
Acting Secretary.

Subpart EE—Grants for Development of New Schools of Medicine Emphasizing Family Medicine

Sec.

57.3001 Applicability.
57.3002 Definitions.
57.3003 Eligibility.
57.3004 Application.
57.3005 Project requirements.
57.3006 Evaluation and grant award.
57.3007 Grant payments.
57.3008 Expenditure of grant funds.
57.3009 Nondiscrimination.
57.3010 Grantee accountability.
57.3011 Publications and copyright.
57.3012 Reports.
57.3013 Applicability of 45 CFR Part 74.
57.3014 Additional conditions.

AUTHORITY: Section 215 of the Public Health Service Act, 58 Stat. 690, as amended 63 Stat. 35 (42 U.S.C. § 216); section 788(g) of the Public Health Service Act, 90 Stat. 2321 (42 U.S.C. 295g–8(g)).

§ 57.3001 Applicability.

The regulations of this subpart are applicable to the award of grants under section 788(g) of the Public Health Service Act (42 USC 295g–8(g)) to public and nonprofit private institutions of higher education and hospitals and other health care delivery facilities which are engaged in the development of new schools of medicine to assist in meeting the costs of initial operation, including employing faculty, acquiring equipment, and taking such other action necessary for such proposed school to meet the eligibility requirements for a grant under section 788(a) of the Public Health Service Act (42 U.S.C. 295g–8(a)).

§ 57.3002 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Council" means the National Advisory Council on Health Professions Education (established by section 702 of the Act).

(c) "Family medicine" means the field of medicine in which the physician:

(1) Serves as the physician of first contact with patients across a broad spectrum of ages and provides a means of entry into the health care system;

(2) Evaluates the patient's total health needs, provides personal medical care within one or more fields of medicine, and refers the patient, when indicated, to appropriate sources of care while preserving the continuity of his care;

(3) Assumes the responsibility for the patient's comprehensive and continuous health care and acts as a leader or coordinator of others providing health services to the patient; and

(4) Accepts responsibility for the patient's total health care within the context of his environment, including the community and the family or comparable social unit.

(d) "Nonprofit" as applied to any school, agency, organization, or institution means one which is a corporation or association or is owned and operated by one or more corporations or associations no part of the net earnings of which enure or may lawfully enure to the benefit of any private shareholder or individual.

(e) "Health care delivery facilities" means facilities in which a principal use is the delivery of health services.

(f) "Project period" means the total time for which support for a project has been approved, including any extensions thereof.

(g) "Secretary" means the Secretary of Health, Education, and Welfare and any officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(h) "School of medicine" or "school" means a school which provides training leading to a degree of doctor of medicine and is accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education. A school which by reason of no, or an insufficient, period of operation is not eligible for such accreditation at the time it applies for a grant under this subpart will be considered accredited for purposes of this definition if the Commissioner of education finds, after consultation with the appropriate accreditation body or bodies, there is reasonable assurance that the school will meet the accreditation standards of such body or bodies before the beginning of the academic year following the normal graduation date of students who are in their first year of instruction at the school during the fiscal year in which the Secretary makes a final determination as to approval of the application.

(i) "State" means one of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

§ 57.3003 Eligibility.

Any public or nonprofit private institution of higher education, hospital, or other health care delivery facility engaged in the development of a new school of medicine located in a State may apply for a grant under this subpart.

§ 57.3004 Application.

(a) Each eligible applicant desiring a grant under this subpart must submit an application in such form and at such time as the Secretary may prescribe.[1]

[1] Applications and instructions may be obtained from the Director, Division of Medicine, Bureau of Health Manpower, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782, and the Regional Health Administrator of the Regional Office of the Department of Health, Education, and Welfare for the region in which the applicant is located.

(b) The application must be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) In addition to such other pertinent information as the Secretary may require, an application for a grant under this subpart must set forth in detail:

(1) A description of the educational, service, and research goals of the proposed school including a discussion of the extent to which the proposed school will meet the identified area and national health service and manpower needs.

(2) A description of the overall administrative and academic structure of the proposed school and, insofar as possible, the proposed curriculum.

(3) An estimate of the number of students to be enrolled in the school.

(4) A description of the available resources to conduct the proposed project including the facilities, faculty, staff, equipment, clinical setting or settings, and the patient population available to the school.

(5) A description of a financial plan for the development and operation of the proposed school including a description of all projected sources of revenue (Federal and non-Federal) and a list of proposed project expenditures for the current fiscal year and the succeeding six fiscal years.

(6) Evidence that the applicant has submitted plans for the development of its new school to the appropriate accrediting body recognized by the Commissioner of Education prior to or at the time of filing an application under this subpart.

(7) A description of the tasks necessary to be accomplished in order for the school being developed by the applicant to meet the requirements for issuance of a Letter of Reasonable Assurance by the appropriate accrediting body recognized by the Commissioner of Education.

(8) A detailed timetable for carrying out the activities of the proposed project including development of the project through graduation of the first class.

(9) A description of the plan for collecting, analyzing, and reporting data related to the health care services available to residents in the geographic regions in which the clinical training program of the school will be located.

(10) Assurances satisfactory to the Secretary together with evidence supporting such assurances that:

(i) The receipt of a grant under this subpart will enable the applicant, to accelerate the date on which the school of medicine being developed by the applicant will be able to begin its teaching program, which must be within 24 months of the starting date of the grant award;

(ii) There is a reasonable indication of non-Federal financial resources for development and operation of such school;

(iii) The school of medicine will emphasize training programs in family medicine as provided in § 57.3005(b) of this subpart and will improve access to health care for the residents of the geographic regions in which such training programs are located, as provided in § 57.3005(c) of this subpart; and

(iv) At least 24 students will be enrolled in the first class.

(11) Evidence that the applicable requirements of section 1513(e) of the Act have been met.

§ 57.3005 Project requirements.

A project supported under this subpart must be conducted in accordance with the following requirements:

(a) The project must be carried out in accordance with the approved application.

(b) Each project must have a curriculum which will emphasize training programs in family medicine to include, among other things, (i) a proposed administrative unit devoted to family medicine, such as a Department or Division of Family Medicine, at the graduate and undergraduate levels, and (ii) educational experiences in family medicine as a prerequisite of graduation for every undergraduate student.

(c) Each project must evaluate the access to health care for residents of the geographic region in which the family medicine training programs of the school of medicine will be located and, where necessary, improve their access to such health care.

§ 57.3006 Evaluation and grant award.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council and the appropriate accrediting body recognized by the Commissioner of Education, may award grants to those applicants whose projects will in his judgment best promote the purposes of section 788(g) of the Act, taking into consideration among other pertinent factors:

(1) The extent to which area and national health and manpower needs can be met by the development of the proposed school.

(2) The availability and adequacy of the facilities and resources available to the applicant to carry out the proposed project.

(3) The soundness of the fiscal plan for assuring effective utilization of grant funds.

(4) The adequacy of the new school's proposed administrative and academic structure.

(5) The adequacy of the description of the tasks necessary to be accomplished by the applicant in order to receive a grant under section 788(a) of the Act.

(6) The adequacy of the applicants proposed plan for meeting the assurances required by § 57.3004(c)(10).

(7) The qualifications of the dean or executive officer charged with the responsibility of developing the proposed school.

(b) The amount of any award will be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project limited to the costs of personnel, supplies and equipment, consultants, and domestic travel of staff and consultants: *Provided*, That no grant award under this subpart may exceed 50 percent of the total allowable direct costs necessary to accomplish the goals set forth in the application.

(c) All grant awards will be in writing and will set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee which may not exceed 12 months. A grantee may receive only one grant award under this subpart. A grantee under this subpart may not receive a grant award under section 788(a) of the Act with a project period beginning before the end of the project period of the grant awarded under this subpart.

§ 57.3007 Grant payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred in the budget period, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote initiation and advancement of the approved project.

§ 57.3008 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart must be expended solely for carrying out the approved project in accordance with section 788(g) of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74: *Provided*, That such funds may not be expended for sectarian instruction or for any religious purpose.

§ 57.3009 Nondiscrimination.

(a) Attention is called to the requirements of section 704 of the Act and 45 CFR Part 83, which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VII of the Act to, or for the benefit of, any entity unless the application for the grant, loan guarantee, or interest subsidy payment contains assurances satisfactory to the Secretary that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

V 42 1180 SEP 16 77 UMI

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (September 24, 1965) as amended, and with applicable rules, regulations, and procedures prescribed pursuant thereto.

(f) The grantee shall not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.3010 Grantee accountability.

(a) *Accounting for grant award payments.* The grantee must record all payments made by the Secretary in accounting records separate from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee must account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart.

(b) *Accounting for copyright royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant must be accounted for as follows:

(1) Royalties received during the period of grant support may be retained by the grantee and, in accordance with the terms and conditions of the grant, used in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 788(g) of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support may be retained by the grantee, unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise, except that any grantee that is a State or local government as defined in 45 CFR 74.3, which receives royalties in excess of $200 a year must return the Federal share of the excess amount (computed by applying the percentage of Federal participation in the cost of the grant supported project to the excess amount) to the Federal Government, unless a specific agreement provides otherwise.

(c) *Grant Closeout.*

(1) *Date of final accounting.* The grantee must render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* The grantee must pay to the Federal Government as final settlement with respect to each grant under this subpart the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74 and the terms and conditions of the grant award. Such total sum constitutes a debt owed by the grantee to the Federal Government and is recoverable from the grantee or its successor or assigns by setoff or other action as provided by law.

§ 57.3011 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials, and to authorize others to do so.

§ 57.3012 Reports.

In addition to such other reports as the Secretary may require, each applicant awarded a grant pursuant to this subpart must submit to the Secretary within four months of the graduation of its new school of medicine's second graduating class, a report concerning the extent to which the family medicine training programs of such school has affected the access of the residents in the geographical region in which the school is located to health care services.

§ 57.3013 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 75 also apply to all other grantee organizations under this subpart:

Subpart:
A. General.
B. Cash depositories.
C. Bonding and insurance.
D. Retention and custodial requirements for records.
F. Grant-related income.
G. Matching and cost sharing.
K. Grant payment requirements.
L. Budget revision procedures.
M. Grant closeout, suspension, and termination.
O. Property.
Q. Cost principles.

§ 57.3014 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 250—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

Payment for Reserved Beds in Institutions

AGENCY: Health Care Financing Administration, HEW.

ACTION: Final rule.

SUMMARY: This rule amends current Medicaid regulations (title XIX, Social Security Act) on State payments for reserving beds during a recipient's temporary absence from an institution. In response to inquiries from State agencies, members of Congress, provider and recipient groups, and others, the previous restrictions on Federal matching of State payments (which were based on specific time limits for such absences) have been removed. States may pay for reserved beds without any limitations or may impose appropriate restrictions; Federal sharing will be available under whatever policy the State wishes to adopt.

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles L. Gardner, 202-245-8821.

SUPPLEMENTARY INFORMATION: Current regulations (45 CFR 250.30(d)) now provide Federal matching for State payments in the cost of reserving a bed in a nursing home or other long-term care facility when a Medicaid recipient is temporarily absent. This may be for a period of hospitalization for an acute condition, not to exceed 15 days per any single hospital stay, or for a leave of absence, not to exceed 18 days in total during any 12-month period. The restrictions do not apply in the case of patients in institutions for the mentally retarded or persons with related conditions. The limits relate only to Federal matching; a State may pay for more absences at State expense.

The Department has received many comments that "limits" or absences under a bed reservation program, however

liberal, are inconsiderate of the patient's welfare, particularly where chronic care patients have an opportunity for a leave of absence to visit with family or friends. Correspondents point out that the 18-day allowance covers only the legal holidays and a weekend or two. Patients who are not seriously incapacitated can be away from the institution for additional periods from time to time—for example, for additional weekend home visits during the year.

Comment has also been received stating that the policy should not be based on the type of facility, but on the individual's condition for which therapeutic home visits are considered useful. Under present policy two people with virtually identical retardation diagnoses, one in an "institution for the mentally retarded," and the other in a facility not licensed by the State as such, cannot have the same number of leave days. One individual may be allowed more than eighteen days per annum in home visits, the other is limited to eighteen days of home visits (in cases where the State will not pay for leave days unless Federal matching funds are available).

Further, there has been considerable difficulty in interpreting that section of the regulation which permits "therapeutic leave" from the "chronic care part of a general hospital," inasmuch as there is no Federal definition of what constitutes the "chronic care part of a general hospital." It has also been pointed out that in current practice, the therapeutic pass is a modality used not only in most psychiatric hospitals but in the treatment of psychiatric patients in general hospitals as well. The therapeutic leave is considered an essential part of the treatment regimen and is important for assessing the patient's capacity to function outside the hospital.

In the light of these comments and questions, the Department has determined that removal of the time limitations is appropriate. This will enable each State to formulate, without Federal constraints, the policy considered most suitable to its own needs and those of Medicaid recipients in its long-term care facilities. Thus, the States can determine whether or not to pay for reserving beds and, if they do, whether any conditions or limitations are necessary. It should be noted that the Federal regulation does retain the requirement for authorization in the patient's plan of care for absences other than those for treatment of acute illness.

The Department finds that there is good cause to dispense with notice of proposed rulemaking since the removal of the previous restrictions responds to numerous comments received since the publication of final regulations on November 7, 1975. As noted above, the questions have been raised by State agencies, recipient groups, professional organizations, members of Congress, and other interested persons. Discussions indicate that a consensus exists for permitting States to establish policies on payment for reserved beds as they deem appropriate and for Federal matching of the payments without HEW-imposed time limitations. Since no one will be disadvantaged by the removal of Federal restrictions, additional comment is unnecessary and contrary to the public interest of allowing States to establish suitable policies without further delay. The regulations are being published in final, therefore, and are effective on September 16, 1977.

Section 250.30, Part 250, Chapter II, Title 45, Code of Federal Regulations, is amended by revising paragraph (d)(2) to read as follows:

§ 250.30 Reasonable charges.

* * * * *

(d) *Federal financial participation.*

* * * * *

(2) *Payments during recipient's absence from institution.* Federal financial participation is available in payments made to reserve a bed during a recipient's temporary absence from an inpatient facility. For purposes of this paragraph:

(i) The State plan must provide for such payments and must indicate any limitations placed on the reserved bed policy, and

(ii) The patient's plan of care must provide for absences other than for hospitalization.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Ex Parte No. MC-5]

PART 1003—LIST OF FORMS

Security for Protection of the Public; Revision of Bond Form

AGENCY: Interstate Commerce Commission.

ACTION: Revision of Bond Form.

SUMMARY: This order shows the revision date of the Broker's Surety Bond to be 1977. The Broker's Surety Bond limit was increased from $5,000 to $10,000. This increase was ordered in Ex Parte No. MC-96.

EFFECTIVE DATE: This order will be effective the same date as the order in Ex Parte No. MC-96 becomes applicable.

FOR FURTHER INFORMATION CONTACT:

Leonard J. Schloer, Chief, Section of Insurance, Interstate Commerce Commission, Washington, D.C. 20423 (202-275-7512).

NOTE.—The ICC will publish a subsequent order confirming the effective date of the revision to form B.M.C. 84 as ordered in Ex Parte No. MC-96.

This order corrects the list of forms in the code of federal regulations to show that the Broker Surety Bond, Form B.M.C. 84, has been revised in 1977. The revision in the form was necessary to increase the surety bond limit from $5,000 to $10,000. The increase was ordered in Ex Parte No. MC-96, Entry Control of Brokers. Copies of the revised form are available on request from the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

We Find: The correction in the list of forms is necessary to show the increase in limits of the brokers surety bond.

It is ordered: Part 1003 of Chapter X of Title 94 of the Code of Federal Regulations be amended as follows:

Section 1003.1 is amended as follows:

§ 1003.1 Motor Carrier and Broker Forms.

* * * * *

(b) Insurance and Surety Bond Forms

B.M.C. 84 (Rev. 1977)

This order shall be effective on the same date as the rules enacted in Ex Parte No. MC-96, Entry Control of Brokers, become applicable. This decision is not a major Federal action significantly affecting the human environment within the meaning of the National Environment Act of 1969.

By the Commission, Insurance Board, Members Burns, Turkington and Schloer, this 8th day of September 1977.

H. G. HOMME, Jr.,
Acting Secretary.

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Service Order No. 1274]

PART 1033—CAR SERVICE

Consolidated Rail Corp. Required To Deliver Cars and Waybills to Short Line Connections

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Service Order No. 1274).

SUMMARY: Service Order No. 1274 requires Consolidated Rail Corp. (ConRail) to deliver waybills with cars to its short line connections. Because of a dispute over the division of revenues between ConRail and certain of its short

V 42 180 SEP 16 77 UMI

line connections, ConRail is delivering loaded cars to these short lines unaccompanied by waybills. This action prevents the short lines from assessing, collecting, and distributing interline freight revenues due from consignees. The delay in receipt of revenues caused by this action seriously depletes the working funds of the short lines and jeopardizes their ability to continue operations. Service Order No. 1274 directs the involved carriers to inform the Commission on or before November 30, 1977, whether or not they have agreed upon divisions. In the event no agreement has been reached, the Commission will establish divisions as authorized by the Interstate Commerce Act.

DATES: Effective 12:01 a.m., September 14, 1977. Expires 12:59 a.m., February 28, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423. Telephone (202) 275–7840 Telex 89–2742

SUPPLEMENTARY INFORMATION: The Order is printed in full below.

At a general session of the Interstate Commerce Commission, held in Washington, D.C., on the 13th day of September 1977.

The reorganization of the Northeastern Railroads affected by the Regional Rail Reorganization Act of 1973 has resulted in the formation of the Consolidated Rail Corp. (ConRail) as the successor to the primary lines of the bankrupt railroads in the Northeast and to the formation of numerous smaller railroads (short lines) to operate certain lines not transferred to ConRail. The formation of these short lines has required the establishment of new joint routes and divisions between points formerly served by a single line. In some instances, ConRail and certain short lines have been unable to agree upon a basis for the division of the rates on on such traffic. Section 1(4) of the Interstate Commerce Act requires railroads to establish through routes, joint rates and an equitable basis for the division of such rates. Section 15(6) of the Interstate Commerce Act authorizes the Commission either on its own initiative or upon petition of any carrier to establish just and equitable divisions of joint rates. No such petitions have been filed with the Commission.

Certain of the short lines have complained to the Commission that ConRail is retaining the waybills on cars routed for line-haul movement over these short lines. These waybills are used by Con Rail as the basis for the issuance of freight bills by it to receivers located on the short lines thus depriving the short lines of prompt receipt of freight revenues required for operating funds. In some instances, ConRail is assessing demurrage against shippers located on the short lines notwithstanding the fact that the cars involved are in the car hire accounts of the short lines who are thus responsible to the car owners for equipment rentals.

These actions of ConRail are seriously depleting the funds required by these short lines to enable them to continue service to shippers solely dependent upon them for railroad service.

Accordingly, the Commission finds that notice and public procedure herein are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1274 Service Order No. 1274.

(a) *Consolidated Rail Corp. required to deliver cars and waybills to short line connections.* The Consolidated Rail Corp. (ConRail) is hereby ordered to deliver to its short line connections named in paragraph (c) of the section herein waybills authorizing the movement of cars consigned to industries served by such short lines or routed via such short lines in intermediate line-haul service (See exception (d).) Such waybills shall accompany the cars, except that memorandum waybill may be used when the revenue waybill is not available at the time the car is delivered by ConRail to the short line connection. When memorandum waybill is furnished, the revenue waybill must be furnished by ConRail to its connecting short line at the earliest practical date not exceeding thirty (30) days after delivery of the car.

(b) Revenue waybills must be on waybill forms of the origin line-haul carrier and must include:

(1) Name and address of shipper.

(2) Name and address of consignee.

(3) Full routing as supplied by shipper or origin carrier together with appropriate notations showing authority for any changes in routing.

(4) Name of commodity.

(5) Weight or valid instructions to apply destination weight.

(6) Supplemental instructions necessary for movement, delivery of shipment, protection of the shipment and safety of railroad employees and of the public.

(c) List of Short Lines.

Maryland & Deleware Railroad, Middletown & Hummelstown Railroad Corp.

(d) *Exception.* This order shall not apply to cars routed by the shipper for delivery in switching services at industries located on the railroads named in paragraph (c) of this section herein when switching is authorized by tariffs lawfully on file with the Interstate Commerce Commission.

(e) *Divisions of Revenue.* (1) ConRail and the short lines named in paragraph (c) of this section shall interchange freight and provide necessary transportation services even though no contracts, agreements or arrangements now exist between them with reference to the divisions of revenues.

(2) ConRail and the Maryland & Delaware Railroad and ConRail and the Middletown & Hummelstown Railroad Corp. are directed to seek a voluntary resolution of their divisions of revenue disputes. During the interim between service of this order and November 30, 1977, ConRail and the short lines are to engage in bona fide negotiations as to future divisions arrangements.

(3) On or before November 30, 1977, ConRail and the Maryland & Delaware Railroad, jointly, and ConRail and the Middletown & Hummelstown Railroad Corp., jointly, shall submit to the Commission verified statements summarizing the negotiations.

(4) The regulations adopted by the Commission in Ex Parte No. 322, Expeditious Handling of Division of Revenue Cases, —— I.C.C. —— decided July 29, 1976, provide for a 6-month period of prior negotiations before a notice to file a complaint or a complaint relating to divisions of revenue may be filed. This requirement can be waived "by the Commission on motion of the complainant or prospective complainant if it can be shown that other parties to a divisional dispute have failed to meet and conduct meaningful negotiations with the complainant or prospective complainant." 49 C.F.R. 1109.5(a). Notice is hereby given that, should the negotiations not produce meaningful results by November 30, 1977, the Commission will entertain a motion to waive the 6-month rule.

(5) Should the divisions of revenue dispute not be resolved by November 30, 1977, and in the event that one of the parties to the disputes does not seek to file a notice of intent to file a complaint or a complaint, the Commission, as provided in Ex Parte No. 322, supra, will institute a divisions proceeding on its own motion and "special procedures will be promulgated at that time for use in this somewhat unique situation."

(f) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(g) *Effective date.* This order shall become effective at 12:01 a.m., September 14, 1977.

(h) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., February 15, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1, 12, 15, 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission.

H. G. Homme, Jr.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 17—ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Protection for Threatened Species of Wildlife

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Emergency rulemaking.

SUMMARY: The Service issues an emergency rule to further protect threatened species of wildlife. Certain regulations currently prohibit the possession of illegally taken endangered species only, as well as their commercial transportation and sale or offer for sale in foreign or interstate commerce. These protective regulations will now also apply to threatened species for a 120-day period following publication of this emergency rule in the Federal Register. The Service will proceed with rulemaking procedures during this period with the intention of permanently adopting the provisions of the emergency rule. (See FR Doc. 27050 in the Proposed Rules Section of this Federal Register for a proposed rule on the same subject.)

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Marshall L. Stinnett, Special Agent in Charge, Division of Law Enforcement, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, (202–343–9237).

SUPPLEMENTARY INFORMATION:

Background

On May 11, 1976, the Service amended 50 CFR Part 17 to incorporate the State Cooperative Agreement Program into the Service's endangered and threatened species regulations. In particular, an amendment adding a new subsection (5) to § 17.21(c) authorized certain designated State employees in States with cooperative agreements to take endangered species without a permit for conservation purposes. This exemption did not apply in the following four situations:

(5) Notwithstanding paragraph (c)(1) of this section, any qualified employee or agent of a State Conservation Agency which is a party to a Cooperative Agreement with the Service in accordance with section 6(c) of the Act, who is designated by his agency for such purposes, may, when acting in the course of his official duties take Endangered Species, for conservation programs in accordance with the Cooperative Agreement, provided that such taking is not reasonably anticipated to result in: (i) The death or permanent disabling of the specimen; (ii) the removal of the specimen from the State where the taking occurred; (iii) the introduction of the specimen so taken or of any progeny derived from such a specimen, into an area beyond the historical range of the species; or (iv) the holding of the specimen in captivity for a period of more than 45 consecutive days.

If a proposed taking was to involve any one of those four situations, a regular endangered species permit would be required.

This amendment to § 17.21(c)(5) was similar to an already existing permit exemption for threatened species in § 17.31(b), which for the convenience of the reader is set forth below:

(b) In addition to any other provisions of this Part 17, any employee or agent of the Service, of the National Marine Fisheries Service, or of a State conservation agency which is operating a conservation program pursuant to the terms of a Cooperative Agreement with the Service in accordance with section 6(c) of the Act, who is designated by his agency for such purposes, may, when acting in the course of his official duties, take any threatened wildlife to carry out scientific research or conservation programs.

The major difference in treatment between endangered and threatened species under a cooperative agreement is that the four restrictions on the taking of an endangered species do not apply to threatened species under § 17.31(b).

The addition of § 17.21(c)(5), however, necessitated an amendment to § 17.31(a) which sets out the general prohibitions for activities involving threatened species. No prohibitions automatically cover threatened species under the Endangered Species Act of 1973, and the establishment of protective regulations is discretionary with the Service. The Service exercised this discretion in the original set of regulations implementing the 1973 Act and determined that as a general rule, all of the prohibitions applying to endangered species would apply to threatened species, unless otherwise provided for in a special rule. For the convenience of the reader, the original version of § 17.31(a) published at 40 FR 44412 is set forth below:

§ 17.31 Prohibitions.

(a) Except as provided in Subpart A of this part, or in a permit issued under this Subpart, all of the provisions in § 17.21 shall apply to threatened wildlife.

. . . . . .

Thus, as a general rule all of the prohibitions and provisions of § 17.21 for endangered species were adopted and transferred over for threatened species under § 17.31(a).

Such a transference of the provisions of § 17.21 would include the newly adopted § 17.21(c)(5) dealing with cooperative agreements and endangered species. It has already been pointed out that § 17.21(c)(5) was more restrictive in its authorization of cooperative agreement activities with endangered species, than was § 17.31(b)'s authorization of cooperative agreement activities with threatened species. To avoid this conflict, it was deemed necessary to exclude § 17.21(c)(5) from the general transference provisions of § 17.31(a). The original preamble for the May 11th final rulemaking stated the problem as follows:

The adoption of amendment number 4 requires a slight modification of § 17.31(a) dealing with the prohibitions applicable to Threatened Species. Section 17.31(a) presently states that with a few specific exceptions, all of the provisions of § 17.21, for Endangered Species, shall apply to Threatened Species. While it has been noted that a provision similar to amendment number 4 already exists in § 17.31(b) for Threatened Species, it is not identical because it does not require the State to get a permit in the four situations set forth for § 17.21(c)(5) in amendment number 4.

The present language of § 17.31(a), in stating that all of the provisions of § 17.21, including the newly adopted § 17.21(c)(5), apply to Threatened Species, creates confusion as to the circumstances under which a Threatened Species may be taken without a permit under a Cooperative Agreement. The transference of the provisions of § 17.21 to Threatened Species would include the four restrictions on taking without a permit, while the present language in § 17.31(b) does not.

The Service proposed in amendment number 5, below, to eliminate this confusion by expressly excluding the transference of the provisions of § 17.21(c)(5) in § 17.31(a). This reaffirms the intent of the present language of § 17.31(b) to provide the maximum State autonomy possible under a Cooperative Agreement for the conservation of Threatened Species.

Thus, it was the intention of the Service to amend § 17.31(a) so that all of the provisions of § 17.21 applied to threatened species except § 17.21(c)(5).

Because of an inadvertent omission, however, not only was § 17.21(c)(5) excluded from applicability to threatened species, but § 17.21 (d), (e) and (f) as well. Instead of § 17.31(a) reading "• • • all of the provisions in § 17.21 shall apply to threatened wildlife, except § 17.21(c)(5).", the May 11th final rulemaking amended § 17.31(a) to read "• • • all of the provisions in § 17.21 (a) through (c)(4) shall apply to threatened wildlife." The excluded subsections 17.21 (d), (e) and (f) set out the prohibitions dealing with the possession of illegally taken endangered species, as well as the commercial transportation or sale or offer for sale in interstate or foreign commerce of endangered species. It is the position of the Service that these prohibitions are clearly necessary for the conservation of threatened species of fish or wildlife. Furthermore, the Service contends that the absence of these protective regulations creates a significant risk to the well being of threatened species of fish or wildlife.

The primary author of this document is Marshall L. Stinnett, Division of Law Enforcement.

Note.—Based upon the procedural nature of the emergency final rulemaking, the Service has determined that this document is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. Accordingly, an environmental impact statement shall not be required.

Accordingly, based on the authority of section 4(f)(2)(B)(ii) of the Endangered Species Act of 1973, 16 U.S.C. 1533(f)(2)(B)(ii), as amended, the Director hereby issues an emergency rulemaking amending § 17.31(a) to read as follows:

V 42 I 180 SEP 16 77 UMI

§ 17.31 Prohibitions.

(a) Except as provided in Subpart A of this part, or in a permit issued under this Subpart, all of the provisions in § 17.21 shall apply to threatened wildlife, except § 17.21(c)(5).

• • • • •

NOTE.—The Service has determined that this document does not contain a major rulemaking requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 9, 1977.

WALTER R. MCALLISTER,
Director, Fish and Wildlife Service.

PART 32—HUNTING

Opening of Rice Lake National Wildlife Refuge, Minnesota, to Ruffed and Spruce Grouse Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening of Ruffed and Spruce Grouse hunting on the Rice Lake National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide recreational opportunity to the public.

DATES: September 17, 1977 through December 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Rice Lake National Wildlife Refuge, Route 2, McGregor, Minnesota 55760, telephone 218-768-2402.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations: upland game; for individual wildlife refuge areas.

Public hunting of only Ruffed and Spruce Grouse on the Rice Lake National Wildlife Refuge in Aitkin County, Minnesota, is permitted from September 17 through December 31, 1977 only in the hunting area designated by (green) signs as open to hunting. The open area comprises about 2000 acres and is delineated on maps available at refuge headquarters, McGregor, Minnesota and from the Regional Director, Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

LELAND A. THORNBLOOM,
Acting Refuge Manager.

Title 29—Labor

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

Emergency Temporary Standard for Occupational Exposure to 1,2 Dibromo-3-chloropropane (DBCP); Corrections

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Corrections to Emergency Temporary Standard.

SUMMARY: This notice announces corrections to the emergency temporary standard for occupational exposure to DBCP.

EFFECTIVE DATE: September 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Ms. Flo Ryer, Directorate of Health Standards Programs, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW., Room N-3663, Washington, D.C. 20210, (202-523-7174).

A. The preamble to the emergency temporary standard for DBCP is hereby corrected as follows:

1. Page 45536, 2nd column, 1st paragraph under "I. Background", line 5 is corrected by changing "200C" to "20C";

2. Page 45537, 1st column, 2nd full paragraph, line 6 is corrected by adding the word "months" following "4-5" and before the end parenthesis;

3. Page 45537, 2nd column, 3rd paragraph, 12th line, the sentence beginning "None of the 14" is corrected to read "Nine of the 14";

4. Page 45538, 2nd column, 1st paragraph under "C. Other Toxic Effects", line 3 is corrected by changing "associatd ewith" to "associated with";

5. Page 45538, 3rd column, line 6 is corrected by changing "atoxia" to "ataxia";

6. Page 45540, 2nd column, 3rd paragraph under "6. Paragraph (g)—Respiratory protection." line 5 is corrected by adding the word "indicator" after "life" and before the comma;

7. Page 45542, 2nd column, 1st paragraph under "16. Paragraph (q)—Appendices." line 11 is corrected by adding the words "nor as" after "ETS," and before the word "negating";

8. Page 45542, 3rd column, item 1 under "17. References" is corrected by changing the word "cytoxic" to "cytotoxic";

9. Page 45544, 1st column, lines 2 and 3 are corrected by deleting the words "it is hereby proposed to amend", and line 4 is corrected by adding the words "is hereby amended" immediately following the word "Regulations".

B. The emergency temporary standard for DBCP, § 1910.1044, is hereby corrected as follows:

1. Line 7 of paragraph (e)(1) is corrected by replacing the word "section" with "paragraph";

2. Table 1 of paragraph (g) is corrected by:

(a) deleting the word "cartridge" from the 3rd selection under the 100 ppb category;

(b) replacing the word "fasepiece" with "facepiece" in the 2nd line of the 20,000 ppb category;

3. Lines 3 and 4 of paragraph (k)(2) are corrected by deleting the phrase "and whenever exposure to DBCP,";

4. Item II A(10) of Appendix B is corrected by replacing the word "ocmpliance" with "compliance" in the 1st line and the word "Cass" with "Class" in the 4th line; and

5. Page 45549, line 5, the name "Faldysh" should be corrected to read "Faydysh".

(Sec. 6, Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655); 29 CFR Part 1911; Secretary of Labor's Order No. 8-76 (41 FR 25059).)

Signed at Washington, D.C. this 14th day of September, 1977.

EULA BINGHAM,
Assistant Secretary of Labor.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

CIVIL SERVICE COMMISSION

[5 CFR Part 713]

EQUAL OPPORTUNITY

Prohibition Against Discrimination Because of a Physical or Mental Handicap

AGENCY: Civil Service Commission.

ACTION: Proposed rulemaking.

SUMMARY: There is a growing concern on the part of the public, the courts, and Congress over the lack of effective remedies for Federal employees and applicants who have suffered discrimination because of a physical or mental handicap. Currently, there is no one review system for discrimination based on handicap. On any matter appealable to the Commission, an allegation of discrimination based on physical handicap will be reviewed in an appeal and, if supported by substantial evidence, is a basis for reversal. Discrimination based on matters not appealable to the Commission is reviewable under the agency administrative grievance procedures or alternately under negotiated procedures. This is in contrast to an individual's rights under the Equal Employment Opportunity Act for discrimination based on race, color, religion, sex, and national origin, and the Age Discrimination in Employment Act. The Civil Service Commission is proposing the establishment of an administrative complaints procedure under Part 713 of the Commission's regulations.

DATE: Comments must be received on or before October 31, 1977.

ADDRESS: submit comments to: Hedwig Oswald, Chief, Office of Selective Placement Program, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C., 20415.

FOR FURTHER INFORMATION CONTACT:

Lee Willis, 202-632-5687.

SUPPLEMENTARY INFORMATION: The proposed appeals system for the handicapped will follow the procedures provided for discrimination based on race, color, religion, sex, national origin, and age. Variations from these procedures are required in two areas because of limitations on the Commission's existing authority. These relate to backpay remedial relief for applicants, and court actions.

There presently exists no express statutory authority for backpay to persons who can establish that they were discriminated against because of a physical or mental handicap in Federal employment. However, there is generalized authority contained in the Back Pay Act to provide an employee with backpay relief when he or she is the subject of an unwarranted or improper personnel action. The Commission takes the position that discrimination because of a physical or mental handicap can give rise to a backpay award under the Back Pay Act (5 U.S.C. 5596) and the regulations implementing the Act (5 CFR Part 550). However, since the Act creates a backpay entitlement for employees only, the Commission has no authority under existing law to extend such relief to applicants for employment.

Sections 713.281-283 of Title 5 of the Code of Federal Regulations, relating to the filing of a civil action, is not applicable because there is no specific autory authority governing lawsuits involving discrimination because of a physical or mental handicap. Any such court actions would necessarily have to proceed under general jurisdictional statutes, without regard to the time limits set forth in section 717(c) of The Civil Rights Act.

Accordingly, 5 CFR Part 713, Subpart D is amended, and a new Subpart G is added as set forth below:

Subpart D—Equal Opportunity Without Regard to Politics or Marital Status

Sec.
713.401 Equal opportunity without regard to politics or marital status.

• • • • •

Subpart G—Prohibition Against Discrimination Because of a Physical or Mental Handicap

GENERAL PROVISIONS

713.701 Purpose and applicability.
713.702 Definitions.
713.703 General policy.

AGENCY REGULATIONS FOR PROCESSING COMPLAINTS OF DISCRIMINATION

713.704 General.
713.705 Coverage.
713.706 Exclusions.

AUTHORITY: Subpart G issued under 5 U.S.C. 7153; § 5.1 of the Civil Service Rules; 29 U.S.C. 791.

Subpart D—Equal Opportunity Without Regard to Politics or Marital Status

§ 713.401 Equal opportunity without regard to politics or marital status.

(a) *In appointments and position changes.* In determining the merit and fitness of a person for competitive appointments or appointment by noncompetitive action to a position in the competitive service, an appointing officer shall not discriminate on the basis of the person's political affiliations, except when required by statute, or marital status.

(b) *In adverse actions and termination of probationers.* An agency may not take an adverse action against an employee covered by Part 752 of this chapter, nor effect the termination of a probationer under Part 315 of this chapter (1) for political reasons, except when required by statute, or (2) that is based on discrimination because of marital status.

• • • • •

Subpart G—Prohibition Against Discrimination Because of a Physical or Mental Handicap

GENERAL PROVISIONS

§ 713.701 Purpose and applicability.

(a) *Purpose.* This subpart sets forth the policy under which on agency shall establish a continuing program to assure nondiscrimination on account of physical or mental handicap and the regulations under which an agency will process complaints of discrimination based on a physical or mental handicap.

(b) *Applicability.* (1) This subpart applies to Executive agencies as defined in section 105 of title 5 of United States Code and competitive service as defined in section 2102 of title 5 of United States Code. (2) This subpart applies to the United States Postal Service and Postal Rate Commission. (3) This subpart applies only to applicants or employees who have a physical or mental handicap.

§ 713.702 Definitions.

(a) "Handicap person" is defined for this subpart as one who: (1) Has a physical or mental impairment which substantially limits one or more of such person's major life activities, (2) has record of such an impairment, or (3) is regarded as having such an impairment.

(b) "Physical or mental impairment" means (1) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular, reproductive, digestive; genito-urinary; hemic and lymphatic; skin; and endocrine; or (2) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

(c) "Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(d) "Has a record of such an impairment" means has a history of, or has been misclassified as having a mental or physical impairment that substantially limits one or more major life activities.

V 42 I 180 SEP 16 77 UMI

§ 713.703 General policy.

Agencies shall give full consideration to the hiring, placement, and advancement of qualified mentally and physically handicapped persons. An agency shall not discriminate against a qualified mentally or physically handicapped person on the basis of the handicap. An agency shall make reasonable accommodation for the known limitations of a qualified mentally or physically handicapped employee or applicant to enable that individual to perform the duties of a position efficiently and without endangering the health or safety of the individual or others.

AGENCY REGULATIONS FOR PROCESSING COMPLAINTS OF DISCRIMINATION

§ 713.704 General.

An agency shall provide regulations governing the acceptance and processing of complaints of discrimination based on a physical or mental handicap which subject to § 713.706, comply with principles and requirements in §§ 713.213 through 713.271 and §§ 713.601 through 713.614 and §§ 713.631 through 713.632.

§ 713.705 Coverage.

An agency shall provide in its regulations for the acceptance of a complaint from any aggrieved employee or applicant for employment who believes that he or she has been discriminated against because of a handicap as defined in § 713.702.

§ 713.706 Exclusions.

The remedies provided in § 713.271 shall apply to this subpart except that no backpay may be awarded to an applicant for employment.

NOTE.—The Civil Service Commission has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A-107.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 722]

1978 EXTRA LONG STAPLE COTTON PROGRAM

Proposed Determinations Regarding National Marketing Quota, National Acreage Allotment, and Other Related Operating Provisions for 1978

AGENCY: Agricultural Stabilization and Conservation Service, USDA

ACTION: Proposed rule.

SUMMARY: The Secretary of Agriculture proposes to make the following determinations with respect to the 1978 crop of extra long staple cotton (referred to as "ELS cotton"): (1) National marketing quota. (2) National acreage allotment. (3) Apportionment of the national acreage allotment to States and counties. (4) Date or period for conducting the national marketing quota referendum.

The above determinations are required to be made by the Secretary in accordance with provisions of the Agricultural Adjustment Act of 1938, as amended. The effect of these determinations is to determine the national marketing quota and national acreage allotment, apportionment of the national allotment to States and counties and set the date or period for the referendum in which farmers vote on marketing quotas. This notice invites written comments on these proposed determinations.

DATES: Comments must be received on or before October 7, 1977.

ADDRESSES: Mail comments to Director, Production Adjustment Division, ASCS, U.S. Department of Agriculture, Room 3741 South Building, P.O. Box 2415, Washington, D.C. 20013.

Comments will be made available for public inspection at the office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.).

FOR FURTHER INFORMATION CONTACT:

Charles V. Cunningham (ASCS) (202–447–5953).

SUPPLEMENTARY INFORMATION: The following determinations with respect to the 1978 crop of ELS cotton are to be made pursuant to the Agricultural Adjustment Act of 1938, as amended (hereinafter referred to as the "Act") (52 Stat. 31, 7 U.S.C. 1281).

(a) *National marketing quota.* Section 347(b)(1) of the Act requires the Secretary to proclaim the amount of the national marketing quota for the 1978 crop of ELS cotton by October 15, 1977. Such marketing quota shall be the number of standard bales of ELS cotton equal to the sum of the estimated domestic consumption and estimated exports, less estimated imports, for the 1978–79 marketing year, which begins August 1, 1978, plus such additional number of bales, if any, as the Secretary determines necessary to assure adequate working stocks in trade channels until ELS cotton from the 1979 crop becomes readily available without resort to Commodity Credit Corporation stocks. The Secretary may reduce the quota so determined for the purpose of reducing surplus stocks, but not below the minimum quota of 82,481 standard bales prescribed under section 347(b)(2) of the Act.

(b) *National acreage allotment.* Pursuant to section 344(a), the national acreage allotment for the 1978 crop of ELS cotton shall be that acreage determined by multiplying the national marketing quota in bales by four hundred and eighty pounds (net weight of a standard bale) and dividing the result by the national average yield per acre of ELS cotton for the four calendar years 1973, 1974, 1975, and 1976.

(c) *Apportionment of the national acreage allotment to States and counties.* Sections 344(b) and (e) provide that the national acreage allotment for the 1978 crop of ELS cotton shall be apportioned to States and counties on the basis of the acreage planted to ELS cotton (including acreage regarded as having been planted) during the five calendar years 1972, 1973, 1974, 1975, and 1976, adjusted for abnormal weather conditions during such period. Section 344(e) further provides that the State committee may reserve not to exceed 10 percent of its State allotment to adjust county allotments for trends in acreage, for counties adversely affected by abnormal conditions affecting plantings, or for small or new farms, or to correct inequities in farm allotments and to prevent hardship.

(d) *Date or period for conducting the national marketing quota referendum.* Section 343 requires the Secretary to conduct a referendum by secret ballot of the farmers engaged in the production of ELS cotton during 1977, by December 15, 1977, to determine whether such farmers are in favor of or opposed to the quota. If more than one-third of the farmers voting in the referendum oppose the national marketing quota, such quota shall become ineffective upon proclamation of the results of the referendum. Section 343 further requires the Secretary to proclaim the results of the referendum within 30 days after the date of such referendum.

Signed at Washington, D.C., on September 8, 1977.

DONALD L. GILLIS,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Rural Electrification Administration

[7 CFR Part 1701]

REA SPECIFICATIONS FOR RURAL DISTRIBUTION TRANSFORMERS (2:1 RATIO, 25 kV TO 15 kV CLASS)

Proposed REA Specification D–18

AGENCY: Rural Electrification Administration, USDA.

ACTION: Advance Notice of proposed rule.

SUMMARY: REA proposes to issue REA Specification D–18, "REA Specifications for Rural Distribution Transformers (2:1 Ratio, 25 kV to 15 kV Class)." There is presently no REA Specification covering these transformers although they are presently included in REA Bulletin 43–5, "List of Materials Acceptable for Use on Systems of REA Electrification Borrowers." The proposed specification is published below. On issuance of REA Specification D–18, Appendix A to Part 1701 will be modified accordingly.

DATE: Public comments must be received by REA no later than October 17, 1977.

ADDRESS: Interested persons may submit written data, views, comments to the Director, Power Supply and Engineering Standards Division, Rural Electrification Administration, Room 3304, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection in the Office of the Director, Power Supply and Engineering Standards Division, during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Rowland C. Hand, Sr., Director, Power Supply and Engineering Standards Division, Rural Electrification Administration, Room 3304, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202–447–4413.

SUPPLEMENTARY INFORMATION: Notice is hereby given that pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), the text of the proposed REA Specification D–18 is as follows:

REA SPECIFICATION D–18

SUBJECT: REA SPECIFICATIONS FOR RURAL DISTRIBUTION TRANSFORMERS (2:1 RATIO, 25 KV TO 15 KV CLASS)

I. *Scope.* These performance specifications cover distribution transformers intended for converting system voltage or connecting portions of a system which are at two different voltages. These transformers are to be suitable for both step-down and step-up service. The transformers shall be: (1) Overhead type (pole-type), (2) single phase, (3) 60 hertz, (4) 65°C rise, (5) oil-immersed, (6) self-cooled, and they shall have: (7) cover-mounted high voltage bushings, (8) cover-mounted low voltage bushings, and (9) all standard accessories as listed in ANSI C57.-12.20, (1974). These requirements apply to both autotransformers and two-winding transformers. They shall have an approximate ratio of 2:1, and be of the 25 kV to 15 kV Class.

II. *Rating.* A. Capacity: 167–1000 kVA. B. Voltage: 14.4–7.2 kV and 14.4–7.62 kV. C. Insulation Levels: BIL's shall be:

[In kilovolts]

	Voltage class	BIL
High voltage	25	150
Low voltage	15	110

III. *Testing.* Design and routine tests are required. All designs are to be tested to show compliance with the design requirements of ANSI C57.12.00(1973). All transformers are to be tested to show compliance with the routine requirements of ANSI C57.12.00 (1973).

IV. *Special provisions.* A. Autotransformers shall be designed to withstand a through-fault current of at least 25 times the rated full load current when tested with ANSI C57.12.90A (1977).

B. Two-winding transformers shall be self-protecting when tested in accordance with ANSI C57.12.90A (1977).

C. The kVA rating shall be legibly and durably marked on the tank in numerals not less than 2½ inches high. If not readily apparent, the high and low-voltage bushings shall be so marked.

D. Transformers shall have suitable provision for automatic pressure relief. The minimum nominal flow rate is 40 scfm @ 15 psig with a maximum minus tolerance of 5 scfm. When a valve is used, it shall be located above the 140°C top oil line.

E. The radio influence voltage shall not exceed 100 microvolts (average measurement) at 1000 kHz when measured at 100 percent of rated voltage in accordance with the methods outlined in ASA Publication C63.2 (1960), with the test circuit of Appendix A, Figure 5.

Dated: September 8, 1977.

RICHARD F. RICHTER,
Assistant Administrator-Electric.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 211, 214]

PROJECTED CRUDE OIL AND PETROLEUM PRODUCT SHORTAGES IN THE NORTHERN TIER OF THE UNITED STATES

Advance Notice of Proposed Rulemaking, Inquiry

AGENCY: Federal Energy Administration (FEA).

ACTION: Notice of inquiry (advance notice of proposed rulemaking).

SUMMARY: FEA is considering various proposals for alleviating the crude oil and petroleum product shortages projected for the Northern Tier beginning in early 1978. FEA seeks initial comments at this time, in advance of formal proposed rulemaking procedures, concerning the most appropriate regulatory measures to assist refineries serving areas of greatest potential product shortages in obtaining short-term crude oil supply supplements.

DATES: Comments by October 3, 1977, 4:30 p.m.

Hearing: September 29, 1977, 9:30 a.m., Northern Hotel, Town Manor Room, Billings, Mont; continued if necessary at 9:30 a.m. on September 30, 1977.

Requests to speak by: September 26, 1977, 4:30 p.m.

Address to: FEA Regional Administrator, P.O. Box 26247, Belmar Branch, 1075 South Yukon Street, Lakewood, Colo. 80226.

ADDRESS: Send comments to Executive Communications, Room 3317, Federal Energy Administration, Box PO, Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Robert C. Gillette (Hearing Procedures), 2000 M Street NW., Room 2214B, Washington, D.C. 20461 (202–254–5201).

Ed Vilade (Media Relations), 12th and Pennsylvania Avenue NW., Room 3104, Washington, D.C. 20461 (202–566–9833).

Mario W. Cardullo, (Program Office), 2000 M Street NW., Room 6128P, Washington, D.C. 20461 (202–254–9707).

Samuel M. Bradley (Office of General Counsel), 12th and Pennsylvania Avenue NW., Room 5134, Washington, D.C. 20461 (202–566–9565).

SUPPLEMENTARY INFORMATION:

BACKGROUND

In June 1977, FEA submitted to the Congress a study entitled "Petroleum Supply Alternatives for the Northern Tier States Through 1980" which examines the crude oil and petroleum product supply and demand situation in the Northern Tier in light of the phase-out of Canadian exports of crude oil. As described below, copies of this study are available for use by persons commenting on the proposals set forth herein. On the basis of that study, FEA concluded that Montana and eastern Washington may experience petroleum product shortages of approximately 28.6 thousand barrels per day (MB/D) and 9.6 MB/D, respectively, in 1978. With respect to Montana, the product shortfall may increase to 31 MB/D in 1979 and 48.6 MB/D in 1980. FEA's analysis indicated that eastern Washington's product shortages may increase to 11.3 MB/D in 1979 and 13 MB/D in 1980. It appears that alternative crude oil and petroleum product delivery capabilities will enable the remaining Northern Tier areas (Michigan, Wisconsin, Minnesota, North Dakota, and western Washington) to meet normal petroleum product demand through 1980, although spot shortages may occur during periods of peak demand. FEA's study also indicated that certain refineries which are heavily dependent upon Canadian feedstocks may not be able to obtain sufficient supplies from alternative sources to remain economically viable. As indicated elsewhere in this notice, FEA invites comments on the accuracy of its projections of product shortfalls for Montana and eastern Washington.

For some time FEA has been engaged in extensive discussions with the Government of Canada regarding the expansion of crude oil exchanges and, in particular, exchanges of imported for Canadian crude oil via the Portland, Maine, to Montreal pipeline as a short-term supply supplement for Northern Tier refiners. In this connection, in May 1977 FEA held a public hearing and solicited public comments regarding the projected throughputs for and capacity of the mid-continent pipelines to enable the Agency to assess more accurately the extent to which mid-continent pipelines could support expanded crude oil exchanges with Canada. On the basis of the data presented in that proceeding, FEA's conclusion was that the mid-continent pipeline system is at or near capacity.

In early June 1977 FEA representatives met with Canadian officials to request Canada's approval of exchanges of foreign Canadian crude oil at Montreal. In July, the Government of Canada advised FEA that it would not approve crude oil exchanges that would reduce

V 42 I 180 SEP 16 77 UMI

the throughput in the Sarnia-Montreal portion of Canada's Interprovincial Pipeline, thus precluding the possibility of exchanges of both domestic and imported crude oil for Canadian crude oil via the Portland, Maine, to Montreal pipeline.

In light of Canada's decision on exchanges of crude oil at Montreal, FEA is evaluating and requests public comment on a number of proposals for alleviating the petroleum product shortages projected for the Northern Tier beginning this winter. The following proposals are presented for comment in this notice and are discussed in more detail below: restricting crude oil exchanges with Canada to refineries which serve the areas of greatest potential petroleum product shortages or, alternatively, requiring any refiner that receives authorization for a crude oil exchange with a Canadian refiner to "share" a portion of the Canadian crude oil with a refinery serving Montana or eastern Washington; time-exchanges between U.S. and Canadian refiners; modification of the crude oil supplier/purchaser rule set forth in 10 CFR 211.63 to permit crude oil supplies indigenous to the Northern Tier to remain in the area; and modification of the restrictions on crude oil exchanges under the Canadian Allocation Program to permit first priority refineries to exchange Canadian heavy crude oil for non-Canadian crude oil.

Northern Tier Petroleum Action Plan

In addition to requesting comments on the above proposals, FEA is also requesting comments on a petroleum action plan for Montana and eastern Washington which the Agency is currently developing to assist it in monitoring and taking appropriate action on the projected petroleum product shortages in these areas. The action plan contemplates the following:

A petroleum product supply/demand analysis by month for the period 1978–1980, taking into account variations in weather conditions and in projected petroleum product demand.

A review of the present petroleum supply distribution network, including refineries, distributors, primary and secondary storage facilities, pipelines and other potential transportation capabilities.

A data system for identifying potential shortage areas to facilitate prompt action by the Agency.

In connection with the development of this plan, FEA requests comments on the following items:

(1) The accuracy of FEA's projections of petroleum product shortages in Montana and eastern Washington.

(2) The areas or regions in Montana and eastern Washington which are expected to experience the most severe petroleum product shortages and supply dislocations.

(3) FEA actions which would alleviate the projected petroleum product shortages.

(4) Actions currently being taken or planned by refiners, suppliers and other parties in Montana and eastern Washington to meet potential petroleum product shortages.

(5) Levels of petroleum product stocks available as of September 1, 1977, at: (a) Refineries and other primary storage facilities by type of product; and (b) distribution centers and other secondary storage facilities. This data is requested of all refiners, suppliers and distributors which serve Montana and eastern Washington including areas served by the following product pipelines:

(a) Yellowstone (from Billings, Mont.).

(b) Chevron (from Salt Lake City, Utah).

(c) Husky (from Cody, Wyo.).

(d) Continental (from Billings, Mont.).

(6) Data from refiners, suppliers, and distributors which serve eastern Washington as to potential levels of shipments and impediments to barge shipments via the Columbia River.

Specific Regulatory Proposals for Comment

Background on Crude Oil Exchanges Between United States and Canadian Refiners

Exchanges for crude oil above Canada's exportable surplus are covered by Section 232 of the Trade Expansion Act of 1962, which authorizes FEA to regulate imports, and the Energy Policy and Conservation Act (EPCA), pursuant to which the Department of Commerce authorizes exceptions from the mandatory prohibition on crude oil exports. Under an agreement with the Department of Commerce, FEA reviews applications for export licenses for crude oil exchanges with Canada in conjunction with its review of requests for approval of exchanges pursuant to 10 CFR 213.28(b)(1) of FEA's Oil Import Regulations. FEA then submits a recommendation to Commerce as to whether to issue an export license. FEA presently evaluates applications for exchange authorizations according to the following criteria: (1) Whether the proposed exchange meets the objective of supplying additional crude oil to Canadian-dependent refineries; (2) whether the domestic crude oil exported is being taken from a crude-deficient area where physical replacement would be difficult; and (3) whether there is any other feature of the exchange that would make it undesirable to grant an import license.

At the present time, refiners participating in the Canadian Allocation Program have authorizations for crude oil exchanges with Canada through the mid-continent pipelines for approximately 77 MB/D. Of this total, first priority refiners under the Canadian Allocation Program have exchange authorizations for 28 MB/D and second priority refiners for 49 MB/D. However, only 58.5 MB/D of crude oil are being exchanged due lack of capacity in the mid-continent pipeline system. The export licenses for these crude oil exchanges will expire on September 30, 1977. The following table shows the distribution of exchange authorizations by state:

[Thousands of barrels per day]

Michigan	Minnesota	Montana	N. Dakota	Western Washington	Wisconsin	New York
0	21	2	9	30	7	8

As is evident from the above table, Montana and eastern Washington, which are projected to have a potentially serious petroleum product shortfall this winter, are receiving a negligible amount of crude oil through exchanges with Canada, while other areas, such as western Washington, which have access to non-Canadian imported crude oil, are receiving the bulk of the exchange crude oil.

Proposal No. 1: Limiting Exchanges to Refineries Serving Areas of Projected Petroleum Product Shortages

FEA would accord priority status to certain refineries dependent upon Canadian crude oil with respect to eligibility for crude oil exchanges with Canada to ensure that such exchanges are used to the maximum extent possible to meet consumer demand for petroleum products in those areas which are expected to be the most severely affected by the decline in Canadian exports. Under the proposal, applications for exchange authorizations would be evaluated under the following criteria, in addition to the factors set forth above:

(a) Priority status of the applicant's refinery under the Canadian Allocation Program;

(b) Projected petroleum product shortages in the market served by the applicant's refinery during the period in which the exchange authorization would be in effect;

(c) Projected refinery capacity utilization during the period in which the exchange authorization would be in effect;

(d) Access of applicant's refinery to alternate crude oil supplies; and

(e) Applicant's ability to obtain pipeline space for the crude oil exchange.

FEA solicits comments on the above criteria and the feasibility of limiting crude oil exchanges to refineries serving areas of projected petroleum product shortages.

Alternate Proposal: Shared Exchanges

In light of the fact that the mid-continent pipeline system is operating at or near capacity, refineries that are granted exchange authorizations under the first proposal may not be able to secure pipeline space to implement their approved exchanges. Accordingly, FEA requests comments on an alternative proposal whereby any priority refiner under the Canadian Allocation Program that has a crude oil exchange agreement under the current exchange program would be required to sell to or exchange with a refinery serving Montana or eastern Washington up to fifty percent of the Canadian crude oil obtained via the exchange. Under this alternative proposal, it may be necessary to amend § 213.28 (b)(1) of the Oil Import Regulations to provide that any priority refiner requesting approval of a crude oil exchange with Canada would be required to enter into a shared exchange arrangement with a refinery serving Montana or eastern Washington as a condition of approval.

Proposal No. 2: Time Exchanges

The Government of Canada has indicated a willingness to consider crude oil "time exchanges" between U.S. and Canadian refiners if repayment of the exchange volumes is guaranteed. Time exchanges would permit U.S. refineries dependent upon Canadian feedstocks to receive more Canadian crude oil through exchanges than the mid-continent pipeline system can presently support since repayment of the exchange volumes could be deferred. Under the proposal, U.S. refiners would receive a specified volume of Canadian crude oil above Canada's exportable surplus from 1978 through 1980 and repayment by the U.S. refiners could begin in 1981.

FEA specifically requests comments on: (1) Whether, and under what conditions, refiners would be interested in time exchanges; (2) what would be an appropriate mechanism for guaranteeing commercial repayment of the exchange volumes; and (3) whether eligibility for time exchanges should be restricted as proposed under Proposal No. 1.

Proposal No. 3: Modification of Crude Oil Supplier/Purchaser Rule

Another regulatory action which may alleviate the crude oil supply problems of the Northern Tier refineries is the redistribution by FEA of indigenous crude oil produced in Michigan, Montana, North Dakota, and Wyoming to the refineries most in need of additional crude oil in the Northern Tier States. Although the crude oil reserves and production for these states, with the exception of Michigan, are projected to decline gradually over the years, there still should be sufficient crude oil in these reserves in 1978 and 1979 to reduce the impacts resulting from the Canadian export cutbacks, assuming transportation is available to reallocate the crude oil to those refineries which have no alternative means of supply.

The crude oil supplier/purchaser rule set forth in 10 CFR 211.63 generally requires that domestic crude oil production flow to purchasers which historically purchased the crude oil. To the extend that crude oil produced in the Northern Tier must be shipped to a refiner outside the Northern Tier or to a Northern Tier refiner which has access to alternate non-Canadian crude oil sources, consumers in the Northern Tier areas most severely affected by the decline in Canadian exports may experience hardship. Thus, it is possible that a modification to this regulation may be appropriate in certain circumstances. Accordingly, FEA requests comments as to whether the crude oil supplier/purchaser rule should be modified to permit refineries serving in Montana and eastern Washington to obtain additional volumes of crude oil from the following crude oil basins: Williston, Powder River, Big Horn, and Wind River.

FEA is specifically interested in receiving comments on other actions, such as pipeline reversals, that would have to be taken in conjunction with modification of the supplier/purchaser rule to assure that the refineries in question are able to receive the crude oil from the basins listed. In addition, FEA requests comments on whether regulatory action should be taken to compensate the purchasers of the crude oil that would be redirected as a result of modification of the crude oil supplier/purchaser rule.

On July 28, 1977 (42 FR 39395, August 4, 1977), FEA issued a notice of proposed rulemaking and public hearing to modify the crude oil supplier/purchaser rule to permit a supplier/purchaser relationship between a producer and reseller to be terminated with respect to crude oil being delivered to refiners other than small refiners, if the new reseller offers to continue to supply these refiners with such crude oil. FEA is interested in receiving comments as to whether the adoption of this amendment would have the effect of providing additional crude oil to refineries serving Montana and eastern Washington.

Proposal No. 4 Modification of Mandatory Canadian Crude Oil Allocation Regulations

Under the Mandatory Canadian Crude Oil Allocation Regulations, set forth in 10 CFR Part 214, first priority refiners are precluded from exchanging Canadian crude oil except for exchanges which involve only (directly or indirectly) Canadian crude oil and in which only quality and location differentials are given effect in the calculation of the exchange ratio. Under the curtailment schedule announced by the Government of Canada, heavy crude oil exports will not be reduced as rapidly as the light Canadian crude oils. Under the current regulations, first priority refiners may nominate for the heavy crude oil but cannot trade this crude oil for domestic light crude oil which may be available. Several refiners have recommended to FEA that 10 CFR 214.31(g)(1) be modified to allow barrel-for-barrel exchanges of Canadian heavy crude oil for U.S. domestic crude oil by first priority refiners, provided that this exchanged volume of crude oil is utilized in a designated first priority refinery.

Availability of FEA Study: "Petroleum Supply Alternatives for the Northern Tier States Through 1980"

Single copies of FEA's June 1977 study entitled "Petroleum Supply Alternatives for the Northern Tier States Through 1980" are available upon request from the National Energy Information Center, Room 1404, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the study will also be available for public review in the Northen Hotel, at the above address, during the public hearing and in the FEA Freedom of Information Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Procedures for Submission of Written Comments and Public Hearing

Written Comment Procedures

Interested persons are invited to participate in this proceeding by submitting data, views, or arguments with respect to the specific items for comments set forth in this notice to Executive Communications, Federal Energy Administration. Comments should be identified on the outside of the envelope and on documents submitted to FEA with the designation, "Northern Tier Public Inquiry," Box PO. Fifteen copies should be submitted. All written comments should be submitted by 4:30 p.m. on October 3, 1977. All comments received by FEA will be available for public inspection in the FEA Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

Public Hearing

1. *Request procedure.* A public hearing to receive oral presentation of data, views, and arguments from interested persons will be held at the time and place indicated earlier in this notice.

Any person who has an interest in the subject matter of this notice, or who is a representative of a group or class of persons which has such an interest, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to FEA Regional Administrator, P.O. Box 26247, Belmar Branch, 1075 South Yukon Street, Lakewood, Colo. 80226, and must be received before 4:30 p.m., September 26, 1977. A request should be labeled both on the document and on the envelope "Northern Tier Public Inquiry."

The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be reached through September 28, 1977.

Each person selected to be heard will be notified by FEA before 4:30 p.m., Sep-

V 42 180 SEP 16 77 UMI

tember 27, 1977, and must submit 15 copies of his or her statement to FEA Regional Administrator, P.O. Box 26247, Belmar Branch, 1075 South Yukon Street, Lakewood, Colo. 80026, by September 28, 1977.

2. *Conduct of hearings.* FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making a statement at the hearing to the FEA Regional Administrator at the above address before 4:30 p.m., on the day prior to the hearing. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question in writing to the presiding officer. FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer. Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by FEA and made available for inspection in the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C., September 14, 1977.

ERIC J. FYGI,
Acting General Counsel.

CIVIL AERONAUTICS BOARD

[14 CFR Part 399]

[PSDR-49A; Docket No. 31290; Dated: September 13, 1977]

DOMESTIC PASSENGER-FARE LEVEL POLICIES AND STRUCTURE POLICIES

Advance Notice of Proposed Rulemaking; Denial of Request for Extension of Time for Comments

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: This notice announces the denial of a request for extending the filing dates for comments and reply comments in a rulemaking proceeding concerning modification of the Board's DPFI policies. The requested extension was filed by eight local service carriers.[1] DATES: As prescribed by PSDR-49, the filing dates continue to be:

Comments: September 21, 1977.
Reply comments: October 6, 1977.

ADDRESSES: Comments should be sent to: Docket 31290, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Norman D. Schwartz, Legal Division, Bureau of Fares and Rates, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428 (202-673-5056).

SUPPLEMENTAL INFORMATION: By Advance Notice of Proposed Rulemaking PSDR-49, dated August 17, 1977 (42 FR 42229; August 22, 1977), the Board gave notice that it had decided to solicit public views on whether any of the Board's DPFI policies need to be modified to accommodate characteristics of the industry which appear to be changing as several new entrants seek certification to provide low price services and the existing carriers have begun to compete in their normal fares.

In a letter dated September 7, 1977, counsel for eight local service carriers requested an extension of 45 days for the filing of comments and 30 days for the filing of reply comments in response to PSDR-49. In support of the request, counsel stated that additional time is needed to consider adequately the issues raised in the Advance Notice.

Under other, more ordinary circumstances, the undersigned would be inclined to approve the requested extension. However, the Board has previously committed itself to a very tight deadline that does not permit extension of the dates for comments and reply comments to the Advance Notice. The Board in its Order on Reconsideration of the scope of the *Chicago-Midway Low-Fare Route Proceeding*, Docket 30277, Order 77-8-10, committed itself to reaching a decision within 12 months, or by August 1978, on the issues in that route proceeding. In that same order, the Board stated that rates issues relevant to the route proceeding could be dealt with in a rulemaking proceeding, instead of the route proceeding, and that the Board expected the rulemaking to move forward rapidly, and to be completed in advance of any decision in the route proceeding. That rulemaking was instituted by PSDR-49, which established the dates now sought to be extended.

The Advance Notice is a preliminary notice and will be followed by a notice of proposed rulemaking which will be the subject of comments by interested persons. All parties, therefore, will have another opportunity, in addition to that provided by the Advance Notice, for comments and reply comments, to express their views. The undersigned finds that good cause has not been shown for the granting of the requested extension.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20 (d), the request for extending the time for filing comments and the time for filing reply comments is denied.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743 (49 U.S.C. 1324).)

SIMON J. EILENBERG,
Associate General Counsel, Rules Division.

FEDERAL TRADE COMMISSION

[16 CFR Part 705]

REASONABLE DUTIES UNDER A FULL WARRANTY

Extension of Time for Submission of Written Comments Concerning Proposed Rule

AGENCY: Federal Trade Commission.

ACTION: Extension of time for submission of written comments.

SUMMARY: On August 3, 1977, the Commission published in the FEDERAL REGISTER (42 FR 39223) a Notice of Inquiry and Proposed Rule Proceeding concerning Reasonable Duties Under A Full Warranty. The closing date of the submission of written comments is extended from September 15, 1977 to September 30, 1977.

DATE: Written comments must be received on or before September 30, 1977.

ADDRESS: Send written comments to John A. Gray, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

John A. Gray, 202-724-1169, Federal Trade Commission, Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On August 3, 1977, the Commission published in the FEDERAL REGISTER (42 FR 39223) a Notice of Inquiry and Proposed Rule Proceeding concerning Reasonable Duties Under A Full Warranty. The Notice, under Section C, invited all interested persons to submit written data, views, or arguments on any issues of fact, law, or policy, which may have some bearing upon the proposed rule. The closing date set for the submission of these written comments was September 15, 1977.

The closing date for the submission of these written comments has been extended to September 30, 1977. All other information contained in the Commission's Notice remains the same.

Issued: September 14, 1977.

By the Commission.

JAMES A. TOBIN,
Acting Secretary.

[FR Doc.77-27208 Filed 9-15-77;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

[Docket No. H-004]

EXPOSURE TO LEAD

Proposed Standard; Additional Comment Period and Informal Public Hearing

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of additional comment period and scheduling of informal public hearing.

SUMMARY: This notice establishes an additional comment period for the submission of written data, views, and arguments solely on the issue of appropriate protections for workers transferred or removed from lead exposure under the proposed lead standard's medical surveillance provisions. The notice also schedules an informal public hearing to provide an opportunity to submit oral testimony on this issue.

DATES: Comments and Notices of Appearance concerning the proposed rule must be postmarked on or before October 17, 1977; all materials which will be introduced into the hearing record must be received by October 25, 1977; an informal hearing is scheduled to begin November 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. James Foster, Office of Public Affairs, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW., Room N-3641, Washington, D.C. 20210 (Tel. No. 202-523-8151).

SUPPLEMENTARY INFORMATION: On October 3, 1975, notice of a proposed standard for occupational exposure to lead was published by the Occupational Safety and Health Administration (OSHA) in the FEDERAL REGISTER (40 FR 45934), pursuant to sections 4, 6, and 8 of the Occupational Safety and Health Act of 1970 (the Act) (84 Stat. 1592, 1593, 1599; 29 U.S.C. 653, 655, 657), Secretary of Labor's Order No. 8-76 (41 FR 25059) and 29 CFR Part 1911. As a result of the proposed standard's invitation to interested parties to submit written comments, a considerable amount of relevant information and data was received. In addition, informal public hearings were held on the proposal in Washington, D.C., from March 15, 1977, through April 14, 1977, in St. Louis, Mo., from April 26 through April 28, 1977, and in San Francisco, Calif., from May 3 through May 6, 1977. Additional evidence and post-hearing briefs were submitted by participants in the hearings. Consequently, OSHA has collected a substantial body of information on issues it had previously identified as well as other issues involved in the proceedings.

One of the issues involved in this proceeding is whether, and to what extent, the standard should require employers to protect employees who submit to medical surveillance and as a result are removed from lead exposures in order to preserve the employees' health. This issue is inherent in the proposed standard's medical surveillance provisions and has been the subject of a considerable amount of testimony and discussion in the hearings and post-hearing submissions (see e.g. statement of OSHA representative Grover Wrenn). In order to provide the public with a clean understanding of OSHA's intended actions and supporting rationales, OSHA has decided to publish this notice discussing the problem and alternative courses of actions in detail. Written comments and the submission of evidence on this issue are invited. In addition, an informal public hearing will be held to receive testimony on this limited issue. The final lead standard will be based on the total record developed including the public comments, data and testimony received on the issue of medical transfer and removal protections.

INTRODUCTION

It is clear that the Act is intended to assure, to the extent possible, that no employee will suffer diminished health, functional capacity, or life expectancy as a result of his or her work experience. Consistent with this goal, the Secretary has been given broad-ranging authority to promulgate comprehensive health and safety standards and other implementing regulations. With respect to health standards, the Secretary is empowered to require employers to determine the extent of employee exposures; utilize engineering controls and suitable protective equipment to control employee exposures; prescribe medical examinations and other diagnostic tests to effectively determine whether the employee has been adversely affected by his or her exposures, and inform employees about workplace hazards including the symptoms, treatment and precautions needed to protect themselves (see Sec. 6(b)(7)). This integrated approach to employee protection is the cornerstone of the Act. A successful preventative occupational health program cannot succeed unless all of these elements accomplish their intended purposes.

A successful medical surveillance program is essential because it is the only method for the early detection of occupational disease. If occupational illnesses are diagnosed only after the employee exhibits overt symptoms, diminished health or life expectancy will frequently result. In addition, timely medical surveillance provides an opportunity to treat the occupational illness before it becomes irreversible. Continued exposures also increase the probability of material impairment to the employee's health. Early medical detection provides essential information for protective action to prevent these exposures. This is particularly important for lead exposures since the subtle effects of overexposure can be detected by current medical practice through the use of diagnostic tests. Positive results on these medical tests appear long before overt symptoms appear. As a result, an effective medical surveillance program can protect employees from further impairment of their health. Moreover, past effects may be reversed.

Recently, a great deal of attention has been focused upon the effectiveness of OSHA's medical surveillance provisions because employees are reluctant to participate in medical surveillance programs such as the one contained in the proposed lead standard. There is significant evidence that employees are unwilling to participate in medical screening and examinations programs because they fear that the discovery of an abnormal medical condition resulting from their occupational exposure may lead to the loss of employment or other adverse employment effects.

In the final standard for employee exposure to coke oven emissions, OSHA indicated that it was concerned about the plight of workers who must confront the dilemma of either taking the medical examination that could ultimately result in loss of employment, or alternatively refusing to take the medical examination and thus precluding the protections of early medical detection (41 FR 46780). More evidence on this very difficult issue was presented during the lead proceeding. Several employees indicated that they would be extremely reluctant to submit to medical examinations under these circumstances. In situations where blood lead levels determine removal from a job, employees testified that they had sought the use of extremely toxic drugs from nonmedical sources in order to reduce their blood lead levels. In addition, several expert witnesses testified that a medical surveillance program could not be successful under these circumstances (see e.g. statement of Andrea M. Hricko, M.P.H.). This problem has been recognized, in part, by some employers who currently provide protection to employees who are removed from lead exposure for medical reasons.

OSHA is seeking additional public input regarding a provision in the final lead standard which would protect employee participation in the lead medical surveillance program. This provision would extend employment protection to employees who participate in the medical surveillance program and are removed or transferred from their job because of occupational lead illness. The following

V 42 I 180 SEP 16 77 UMI

discussion represents OSHA's current views on protected medical surveillance.

PROTECTING EMPLOYEE PARTICIPATIONS IN MEDICAL SURVEILLANCE

It appears that there are essentially three alternative approaches to overcoming the employee's reluctance to submit to the medical surveillance program. The alternatives are: (1) Mandatory medical examinations; (2) medical removal protection for employees who are removed from their jobs because further exposure to lead could result in material impairment of health; or (3) prohibition against removal of employees.

Mandatory medical surveillance would, in effect, require employers to discipline and ultimately discharge employees who refuse to submit to medical surveillance. Employers who fail to do so would be subject to citation and would have no choice but to discharge the employee. This approach intensifies the employee's dilemma in submitting to medical surveillance. Either the employee submits to medical examination and risks discharge for occupational lead illness; or, the employee refuses the medical examination and is automatically discharged. This is particularly difficult when the affected employee has been employed in the lead industry for a relatively long time and would find it extremely difficult to obtain a job in a different industry. As a result, the affected employees and their families would bear the primary financial responsibility for the preventive health measures mandated by the Act to control occupational disease. The result is inconsistent with the purposes of the Act. The Act assigns employers the primary responsibility to control workplace hazards and protect employees from occupational disease. This responsibility necessarily includes the costs to protect employees from occupational disease which will occur as a result of continued exposure. Moreover, a general requirement for mandatory medical examinations could inappropriately interfere with the employee's privacy.

The third alternative is to prohibit forced removal of employees from their jobs when medical surveillance indicates an excessive blood lead level. Obviously, this alternative would eliminate the employees' reluctance to participate in medical surveillance based on the fear of removal. However, this alternative would merely provide employees with information on their current medical status without any protection from working conditions which materially impair their health. Clearly, section 6(b)(7) of the Act anticipated that medical surveillance would be an effective component in a preventive health program directed at protecting employees from material impairment of their health.

The central purpose of the Act is to prevent illness and injury, not simply to identify it. Furthermore, prevention cannot be achieved when employees must choose between continued exposure to a toxic substance with protacted illness and the employees' means for supporting their families. This is intensified for the employees who are at the greatest risk because of long-term exposure to lead.

Based upon the foregoing, OSHA's present view is that the medical surveillance provision should afford significant employee protection from serious health hazards without a consequential loss for the exposed worker.

EXPOSURE LIMITATIONS, TRANSFERS AND REMOVAL

The medical surveillance provision of the proposed standard contemplates that employers will limit the exposure of employees who are at increased risk of material impairment of health. Improved engineering controls, work practices, hygiene practices, respirators, and administrative controls may be utilized to reduce employee exposures so that the employee is no longer at increased risk of material impairment of his or her health.

OSHA's primary goal is to assure that no employee suffers material impairment of health or functional capacity. The Agency does not favor transfer or removal as an alternative to controlling the level of a toxic substance in the workplace environment. Moreover, once full compliance with the permissible exposure level is achieved by engineering controls and work practices, the need to transfer or remove employees from exposure to lead should arise infrequently with only short term transfer or removal necessary.

However, it appears that some limitations on exposure such as transfer or removal from occupational exposure may, on occassion, be necessary to effectively protect employees from material impairment of health. For example, if an employee's blood lead level were only slightly elevated above acceptable levels, transfer ("removal") to a job where the lead exposures were considerably lower might be appropriate preventive action. Transfer to another job where lead exposures are considerably lower is a form of administrative control that would comply with the proposed standard under certain circumstances.

Of course, this transfer must be based upon a physician's written opinion. On the other hand, if this same employee's blood lead levels were substantially elevated above acceptable levels, removal from any occupational exposure to lead may be necessary in order to significantly reduce the blood lead level.

The present practice of many employers is to remove employees from all occupational exposure to lead when blood lead reaches a specific level. These employees are required to submit to periodic blood tests. However, their employers do not provide appropriate protection for employees who are transferred or removed. Therefore, when blood lead levels indicate that employee's exposure to lead has not been effectively controlled, employers tend to remove the employee from exposure completely because the employer incurs no substantial cost by taking this course of action. Thus, the exposed employee is penalized for participating in a medical surveillance program. (In fact, some employers have refused to certify that lead poisoning has resulted in layoffs so that their worker compensation premiums would not be affected.)

However, if the final lead standard contains a provision which protects employees who are removed, the employers' attention will be focused primarily upon preventative health action and only secondarily upon the economic implications. On the other hand, OSHA is concerned that respirators will be inappropriately issued when blood lead levels exceed acceptable levels in order to avoid the costs of transfer and removal. OSHA requests information on the conditions, if any, when respirators may be used to limit employee exposure.

MEDICAL REMOVAL PROTECTIONS

The medical surveillance provisions of the lead standard should include a requirement for medical removal protection. This requirement would maintain the rate of pay, seniority and other rights of an employee for the time period, or a portion thereof, that the employee is transferred or removed from his or her job as a result of an increased health risk from exposure to lead. After a follow-up medical examination and opinion, the following options would be available with no loss of earnings or rights: Return to the original job, assignment to a different job (transfer), or continuation of the transfer or removal.

The following is a discussion of several issues regarding the operation of medical transfer and removal protections. This discussion is not intended to be exhaustive. Rather, it presents the Agency's current position and is intended to serve as a focal point for further public comment, data and views.

A. MEDICAL BASIS FOR MANDATORY REMOVAL AND OTHER LIMITATIONS

The operation of the medical surveillance program raises several issues if the medical surveillance section of the lead standard is expanded to include transfer, removal and other limitations. Several employees testified that they had serious doubts about the objectivity or reliability of medical opinions rendered by physicians currently retained by their employers. One way to ensure greater accuracy in medical diagnosis and to improve employee confidence in the medical examinations would be a provision that would allow the employee to challenge the finding made by the first physician. This provision could allow the affected employee to select a second physician to render a medical opinion. This might occur where the first physician's opinion is that the employee is physically fit to work at the same job but the employee contiues to experience the symptoms of lead poisoning. Conversely, the employee may be healthy and want to continue work, but the first physician concludes the employee is not fit to do so. At this stage, peer review by a second physician may result in the first physician reconsidering the original opinion after comparing it with the findings of the second physician. If the second physician's opinion differs irreconcilably from the first, then a third impartial physician would be chosen by the first two physicians, and the third opinion would serve as the basis for the employer's determination concerning the particular employee's continued exposure to lead.

OSHA requests information on alternative physician selection procedures. These medical services would be at the employer's expense. This system of medical examination and review is analogous to the system required in the permanent standard on diving operations (42 FR 37650, July 22, 1977).

If exposure limitations including transfer and removal are based exclusively on blood lead levels in excess of an established level, then the necessity of the second and third medical examinations becomes an issue. Since an excessive blood lead level is an objective criterion, it may be unnecessary to authorize a second and perhaps third medical examination. However, the issue remains as to whether multiple opinions are necessary on the appropriateness of a limitation recommended by the first physician.

B. CRITERIA FOR LIMITATIONS ON EXPOSURE

Blood lead levels may be utilized either as the exclusive biological indicator for a medical opinion or they could be supplemented by additional biological indicators. The exclusive use of blood lead levels simplifies the medical surveillance process and focuses the physician's attention on appropriate preventive limitations. By supplementing blood lead levels with other biological indicators, the employer may place limitations on employee exposure based on medical opinion even though the blood lead levels are within the acceptable level. Data and views on these alternatives are sought by the Agency.

C. TERMS OF THE PROVISION ON MEDICAL REMOVAL PROTECTION

At the hearings on the proposal, employee and employer groups noted that certain employers currently protect the rate of pay and related rights of employees for a period of time after removal. Ninety days was mentioned as one time period for earnings protection ("rate retention"). However, there was also testimony that in some cases employees were not capable of returning to their original positions within that time. Thus, an issue is raised as to the appropriate duration of removal protection. The period of time should reflect the following considerations: The time necessary for employee health and/or biological indicators to normalize, the nature and extent of physiological damage from lead poisoning, and the number of removed employees who would be covered by this provision. Earnings and seniority protection could last until the individual employee is able to safely return to work. However, if the employee is unable to return to the job due to occupational exposure to lead, then a certain maximum time period could be established.

The record indicates that in some existing programs the period of earnings and seniority protection is not co-extensive with the actual transfer or removal period. For example, an employee removed from exposure for four months may receive earnings and seniority protection for only three months. OSHA requests information and views on the duration of transfer and removal protection.

Testimony at the hearings revealed employees occupationally poisoned by lead receive Workers Compensation payments in some States, such as Missouri. These payments do not equal the salaries of the affected workers nor are they necessarily co-extensive with the time period that the employee has been removed from work. Moreover, there is typically a substantial delay before an employee receives the first payment under Workers Compensation. Therefore, the Agency must consider the relation between awards to the removed employee under Workers' Compensation and payments under the medical surveillance provision.

Comments submitted for the record by employers suggested that medical removal protection should be limited to the transfer of employees to other available positions. This suggestion does not speak to the need to remove employees completely from exposure, e.g. their home or hospital. Moreover, employee protection becomes entirely dependent on the number of available jobs. If an employee should be removed for medical purposes, then job removal protection must be equally available to all removed employees.

Another issue involves the conditions which terminate medical transfer and removal protection. One alternative is to remove an employee for a definite period of time based on the medical recommendations. Medical examinations would be scheduled at various intervals within this time frame, and the removed employee would be returned to work when the employee's condition returned to normal. A related issue is the medical criteria for returning a removed employee to his or her original job. These criteria should insure so far as possible that the returned employee is not removed immediately after reassignment as a result of resumed lead exposure. This may require a reassignment criterion for the employee's blood lead level which is somewhat lower than the removal criterion. The provision might also condition the employee's return to exposure on assignment to a job with reduced lead exposures. Since the employer's decision to return an employee must be based on a medical opinion, a medical review procedure may be necessary to resolve disagreements on medical recommendations to return to the original job or the appropriateness of recommended limitations.

OSHA has already collected a substantial body of information on occupational exposure to lead. Therefore, the written responses to this notice and testimony at the public hearing shall be limited to those issues directly related to medical removal protection. Issues such as the blood lead level or levels which would trigger limitations on exposure have already been subjected to extensive public comment and testimony and are not appropriate for this comment period and hearing.

Comments and information are sought on any issues raised by the above discussion, the issues raised below and any other directly related issues:

1. Whether a provision for removal protection is necessary or appropriate.
2. What should be the appropriate scope of this provision?
3. What earning protection programs are presently in use, and how do they operate?
4. What impact would this provision have on small businesses?
5. What impact would this provision have on collective bargaining?
6. Should employees be permitted to remain on their job despite the risk of material impairment of their health?
7. To what extent, if any, should respirators be permitted to reduce exposures of employees who are at increased risk of material impairment of their health?
8. Should a time limitation be placed on the duration of medical removal protections for a particular employee? If so, what should that time limit be?
9. Should the initial medical opinion be subjected to multiple medical opinions?
10. Should employee participation in the medical surveillance program be mandatory?
11. Should elevated blood lead levels be the exclusive medical criterion for recommending removal from the job, limitations on exposure, or return to the original job? If not, what supplementary medical criteria should be used?
12. To what extent do Workers Compensation laws cover occupational diseases related to lead exposure?
13. The economic impact of such a provision, including (a) Number of employees affected if this provision becomes operative at 20 μg Pb/100g of whole blood, 30 μg Pb, 40 μg Pb, 60 μg Pb, or 80 μg Pb; (b) Cost per employee of this provision for each triggering blood lead levels; (c) Cost impact on consumers, businesses, markets, or Federal, State, or local government; (d) Effect on productivity of wage earners, businesses (both small and large) or government; (e) Effect on competition; (f) Ability of specific industries to absorb costs of compliance; and (g) Cost impact on the employee, the employee's family, compensation and disability programs, the health care delivery system, governmental and societal institutions and other related cost savings.

PUBLIC PARTICIPATION

NOTICE OF HEARING

Interested persons are invited to submit written data, views and arguments with respect to medical removal protection. These comments must be postmarked on or before October 17, 1977, and submitted in quadruplicate to the Docket Officer, Docket H–004, Room S6212, U.S. Department of Labor, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210. Written submissions must clearly identify the position taken with respect to the issue. The data, views, and arguments that are submitted will be available for public inspection and copying at the above address. All timely written submissions received will be made a part of the record for this proceeding.

Pursuant to section 6(b)(3) of the Act, an opportunity to submit oral testimony concerning the issues raised by this notice, including the economic impact, will be provided at an informal public hearing scheduled to begin at 9:30 a.m. on November 1, 1977, in the Auditorium, New Department of Labor Building, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210.

NOTICES OF INTENTION TO APPEAR

All persons desiring to participate at the hearing, must file in quadruplicate, a notice of intention to appear, postmarked on or before October 17, 1977, with Clarence Page, the OSHA Division of Consumer Affairs, Docket No. H–004, Room N–3635, U.S. Department of Labor, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210, telephone 202–523–8024. The notices of intention to appear, which will be available for inspection and copying at the OSHA Technical Data Center—Docket Office (Room S6212), telephone 202–523–7894, must contain the following information:

(1) The name, address, and telephone number of each person to appear;

(2) The capacity in which the person will appear;

(3) The approximate amount of time requested for the presentation;

(4) The specific issues that will be addressed;

(5) A detailed statement of the position that will be taken with respect to each issue addressed; and

(6) Whether the party intends to submit documentary evidence, and if so, a brief summary of that evidence.

FILING OF TESTIMONY AND EVIDENCE BEFORE HEARING

Any party requesting more than 15 minutes for presentation at the hearing, or who will submit documentary evidence, must provide in quadruplicate the complete text of testimony, including any documentary evidence to be presented at the hearing, to Clarence Page, the OSHA Division of Consumer Affairs. This material must be received by October 25, 1977, and will be available for inspection and copying at the Technical Data Center—Docket Office. Each such submission will be reviewed in light of the amount of time requested in the notice of intention to appear. In those instances where the information contained in the submission does not justify the amount of time requested, a more appropriate amount of time will be allocated and the participant will be notified.

Any party who has not substantially complied with this requirement may be limited to a 15 minute presentation, and may be requested to return for questioning at a later time.

CONDUCT OF HEARINGS

The hearing will commence at 9:30 a.m. on November 1, 1977, with resolution of any procedural maters relating to the proceeding. The hearing will be conducted in and expedited manner consistent with the full development of the record and rights of the parties.

The hearings will be presided over by an Administrative Law Judge who will have all the powers necessary and appropriate to conduct a full and fair informal hearing in accordance with 29 CFR Part 1911. Following the close of the hearing or of any post hearing comment period that might be provided, the Administrative Law Judge will certify the record to the Assistant Secretary of Labor for Occupational Safety and Health. The proposal will be reviewed in light of all oral and written submissions received as part of the record, and a standard will be issued based on the entire record in the lead proceeding.

(Sec. 6, Pub. L. 91–596, 84 Stat. 1593 (29 U.S.C. 655); 29 CFR Part 1911; Secretary of Labor's Order No. 8–83 (41 FR 25059).)

Signed at Washington, D.C., this 13th day of September 1977.

EULA BINGHAM,
Assistant Secretary of Labor.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

[30 CFR Parts 700, 710, 715, 716, 717, 720, 721, 722, 723, 725, 740, 795, 830]

SURFACE MINING RECLAMATION AND ENFORCEMENT PROVISIONS

Proposed Rules; Correction

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Corrections.

SUMMARY: This document corrects proposed rules that appeared on page 44920 of the FEDERAL REGISTER on September 7, 1977, FR Doc. 77–25928.

DATES: Comments must be received by October 7, 1977. Public hearings will be held starting at 1 p.m. on September 20, 1977, and continuing if necessary at 9 a.m. on September 21 and 22, 1977.

ADDRESSES: Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240. Public hearings will be held at the Department of the Interior Auditorium, 18th and C Streets NW., Washington, D.C.; Kiel Auditorium, 1416 Market Street, St. Louis, Mo.; Public Library Auditorium, 1347 Broadway, Denver, Colo.; and Morris Harvey College, Riggleman Hall, 2300 McCorkle Avenue, Charleston, W. Va.

FOR FURTHER INFORMATION CONTACT:

Paul Reeves, Office of Surface Mining Reclamation and Enforcement, 202–343–4237.

DRAFTING INFORMATION: The principal authors of these corrections are: Michael Bradley, Office of Surface Mining Task Force, and Edward Clair, Office of the Solicitor, Department of the Interior.

Dated: September 13, 1977.

CARL C. CLOSE,
Acting Director, Office of Surface Mining Task Force.

The following corrections are made:

1. On page 44920, under SUMMARY, line 6 "These regulations require" is corrected to read "The Act requires".

2. On page 44920, under SUPPLEMENTARY INFORMATION, line 10, "These regulations, especially dealing with" is corrected to read "The regulations, especially those dealing with".

3. On page 44922, the first full paragraph, line 8, "that its was necessary" is corrected to read, "that it was necesary".

4. On page 44922 § 715.20, line 13, strike the comma after "wildlife" and before "habitat".

5. On page 44922, § 716.3, line 9, "long-term" is corrected to read "long term".

6. On page 44923, DRAFTING INFORMATION, line 3, after "George Davis" insert ", Office of Surface Mining Task Force,".

7. On page 44924, "DRAFTING REGULATION", is corrected to read "DRAFTING INFORMATION".

8. On page 44926, *Surface coal mining and reclamation*, is corrected in the second line by adding "*operations* means surface coal mining" immediately following "*reclamation*" and immediately before "operations".

9. On page 44926, § 700.13(d)(4), "The dates" is corrected to read "The date".

10. On page 44926, § 700.13(e), "Secretary of" is corrected to read "Secretary or".

11. On page 44927, § 710.5, *approximate original contour*, last line, "§ 715.7" is corrected to read "§ 715.17".

12. On page 44927, § 710.5, *Highwall*, first line, "face of an exposed" is corrected to read "face of exposed".

13. On page 44927, § 710.5, "*Roads means*" is corrected to read "*Roads* means".

14. On page 44928, "*Runnoff water*" is corrected to read "*Runoff water*".

15. On page 44928, "*Water table* means upper surface" is corrected to read "*Water table* means the upper surface".

16. On page 44929, § 710.12(c)(1), "not to exceed 1,000,000 tons" is corrected to read "not to exceed 100,000 tons".

17. On page 44929, PART 715, under Section heading 715.18 "Dams constructed of refuse material, general" is corrected to read "Dams constructed refuse materials."

18. On page 44929, § 715.11(c), line 6, "to exced 1:1000," is corrected to read "to exceed 1:1000,".

19. On page 44931, § 715.14, line 12, "highway may be disturbed" is corrected to read "highwall may be disturbed".

20. On page 44931, § 715.14(c)(3), line 2, "as stated as paragraph" is corrected to read "as stated in paragraph".

21. On page 44931, § 715.14(e), line 11, "struction of power grades" is corrected to read "struction of lower grades".

22. On page 44932, § 715.14(j)(2), line 5, "cordance with § 2020.17(g)" is corrected to read "cordance with § 715.17(g)".

23. On page 44933, § 715.17, line 18, "include but are limited to" is corrected to read "include but are not limited to".

24. On page 44933 § 715.17(a) "*Effluent limitations, in milligrams per liter except for hydrogen-ion concentration*" is corrected to read "*Effluent limitations, in milligrams per liter except for pH*".

25. On page 44933, § 715.17(a), line 4 in chart, "*Hydrogen-ion concentration.*", is corrected to read "pH."

26. On page 44934, line 7, "charges that occur more than" is corrected to read "charges that occur for more than".

27. On page 44934, (e)(1)(ii), line 1, "storage for each of" is corrected to read "storage for each acre of".

28. On page 44935, line 3, "(f) *Discharged structures.*" is corrected to read "(f) *Discharge structures.*"

29. On page 44935, (4)(f), "(f) *Alluvial valley*" is corrected to read "(j) *Alluvial valley*".

30. On page 44935, (k), line 12, "reflect hanges in" is corrected to read "reflect changes in".

31. On page 44935, (c)(iii), line 4, "water carriers" is corrected to read "water barriers".

31a. On page 44936, § 715.18, "Dams constructed of refuse materials, general." is corrected to read, "Dams constructed of refuse materials."

32. On page 44936, § 715.18(c)(3)(v), line 8, "blankets, previous drainage" is corrected to read "blankets, pervious drainage".

33. On page 44936, § 715.18(c)(ix), line 9, "professional policies by a" is corrected to read "professional practice by a".

34. On page 44937, § 715.19(b)(2), line 9, "to be effected by" is corrected to read "to be affected by".

35. On page 44937, § 715.19(7)(a), "(a) *Blasting procedures*" is corrected to read "(e) *Blasting procedures*".

36. On page 44939, the first chart, "*Standards for revegetation*" is corrected to read as follows:

Standards for revegetation

[Herbaceous species = grass, legumes, and nonleguminous forbs; woody plants = woody shrubs, trees, and vines; ground cover = area covered by the combined aerial parts of plants and litter that are produced naturally on site, expressed as a percentage of the total area of measurement]

A. Areas planted only in herbaceous species (percent ground cover of herbaceous species at the end of the growing season)

Average annual precipitation, in inches	1 year	5 years	10 years
Up to 10	6	8	10
10.1–16	10	20	30
16.1–26	20	30	40
More than 26	50	70	NA

B. Areas planted to mixtures of herbaceous and woody species (percent ground cover of herbaceous species and number of plants per acre of woody species at the end of the growing season)

Average annual precipitation, in inches	1 year		5 years		10 years	
	Percent ground cover	No. of woody plants per acre	Percent ground cover	No. of woody plants per acre	Percent ground cover	No. of woody plants per acre
Up to 10	6	2,500	5	2,000	4	1,500
10.1–16	7	800	10	900	15	1,000
16.1–26	20	400	25	400	30	400
More than 26	40	600	50	1/ 400	NA	NA

1/ On steep slopes, the minimum number of woody plants must be increased to 600 per acre.

V 42 I 180 SEP 16 77 UMI

37. On page 44939, the second chart, "*Standards for revegetation when exclosures are required*" is corrected to read as follows:

Standards for revegetation when exclosures are required

[Ground cover = area covered by the combined aerial parts of plants and litter that are produced naturally on site, expressed as a percentage of the total area of measurement; biomass yield = the total yield of living plants above ground in an area at the end of the growing season]

Average annual precipitation, in inches	End of growing season-- 1 year	5 years	10 years
A. Number of adapted species in revegetated areas			
Up to 10 . . .	3	12	15
10.1-16 . . .	6	14	20
16.1-26 . . .	6	20	25
More than 26 . . .	8	25	30
B. Ground cover of perennial plants expressed as a percent of the ground cover in the exclosures			
Up to 10 . . .	90	80	85

38. On page 44940, PART 716, "SPECIAL PERFORMANCE STANDARD" is corrected to read "SPECIAL PERFORMANCE STANDARDS".

39. On page 44940, § 716.2(a)(1), line 6, "in excess if that" is corrected to read "in excess of that".

40. On page 44940, § 716.3(a), line 3, "seams running through" is corrected to read "seams running through".

41. On page 44941, § 716.4(c), line 9, "for these operations" is corrected to read "for those operations".

42. On page 44941, § 716.4(c)(1), line 6, "of thee slope in the" is corrected to read "of the slopes in the".

43. On page 44941, § 716.5(c), line 2, "for anthraciate coal" is corrected to read "for anthracite coal".

44. On page 44942, (1)(ii), line 5, 'quality (A dependable water" is corrected to read "quality (a dependable water".

45. On page 44944, § 720.14(a), line 6, "other office designed by" is corrected to read "other office designated by".

46. On page 44944, PART 722, under heading 722.17, "Pattern of violation." is corrected to read "Pattern of violations."

47. On page 44945, § 722.11(e), line 4, "written order when the" is corrected to read "written notice when the".

48. On page 44945, § 722.15(e), line 7, "reprot which led to" is corrected to read "report which lead to".

49. On page 44945, § 722.16(c), line 4, "under part 2033 of this" is corrected to read "under Part 723 of this".

50. On page 44945, § 722.17(b)(1), line 4, "single section Parts 715" is corrected to read "single section of Parts 715".

51. On page 44945, § 722.17(b)(2), line 4, "of part 715, 716" is corrected to read "of Parts 715, 716".

52. On page 44945, § 722.17(c)(3), line 14, "for the proceeding half year" is corrected to read "for the preceding half year".

53. On page 44946, "§ 723.12. When to assess after a notice of" is corrected to read "§ 723.11 When assessment made."

54. On page 44947, § 723.13, line 6, "25 and below-500" is corrected to read "25 and below-$500".

55. On page 44947, § 723.14(a), line 9, "$750.00, whichever isg reater" is corrected to read "$750.00, whichever is greater".

56. On page 44947, § 723.14(b), line 4, after "listed in" strike the next three lines and insert "§ 723.12 of this part and any economic benefit to the permittee or operator which resulted from a failure to comply".

57. On page 44948, line 1, "identified under part 2030" is corrected to read "identified under Part 720".

58. On page 44948, § 725.16(d), line 3, "prior to the executive of" is corrected to read "prior to the execution of".

59. On page 44949, § 725.18(b), line 3, "at least ten days' written" is corrected to read "at least ten days written".

60. On page 44949, § 725.19, line 4, "ment. Circular 74-7" is corrected to read "ment Circular 74-7."

61. On page 44951, § 740.16(e)(2), line 4, "cooperative agreements grants" is corrected to read "cooperative agreement grants".

62. On page 44952, § 740.21(a)(4)(i), line 7, "the benefits or, or be" is corrected to read "the benefits of, or be".

63. On page 44953, § 795.12(a)(1), line 5, "accordance with § 295.16." is corrected to read "accordance with § 795.16."

64. On page 44954, § 795.15(b), line 3, "is denied and of the reasons" is corrected to read "is denied and the reasons".

65. On page 44954, § 795.17(b)(1)(iv), line 1, "Meets the Occupational" is corrected to read "Meets the requirements of the Occupational".

66. On page 44954, § 795.17(b)(2), line 3, "statement under paragraph" is corrected to read "statement under".

67. On page 44955, § 830.13(d), line 3, "a report of investigation" is corrected to read "a report of the investigation".

[30 CFR Part 837]

ABANDONED MINE RECLAMATION FUND FEE COLLECTION AND PRODUCTION RECORDS

Proposed Rules; Correction

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Corrections.

SUMMARY: This document corrects proposed rules that appeared on page 44955 of the FEDERAL REGISTER on September 7, 1977, FR Doc. 77-25929.

DATES: Comments must be received by October 7, 1977. Public hearings will be held at 9 a.m. on September 20, 1977.

ADDRESSES: Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240. Public hearings will be held at the Department of the Interior Auditorium, 18th and C Streets NW., Washington, D.C.; Kiel Auditorium, 1416 Market Street, St. Louis, Mo.; Public Library Auditorium, 1347 Broadway, Denver, Colo.; and Morris Harvey College, Riggleman Hall, 2300 McCorkle Avenue, Charleston, W. Va.

FOR FURTHER INFORMATION CONTACT:

Paul Reeves, Office of Surface Mining Reclamation and Enforcement, 202-343-4237.

DRAFTING INFORMATION: The principal authors of these corrections are: Michael Bradley, Office of Surface Mining Task Force, and Edward Clair, Office of the Solicitor, Department of the Interior.

Dated: September 13, 1977.

CARL C. CLOSE,
Acting Director, Office of Surface Mining Task Force.

The following corrections are made:

1. On page 44955, under SUMMARY, line 7, "of" is corrected to "to" so that the phrase reads, "statement to the proper location."

2. On page 44956, the spelling of the name of the Acting Secretary of the Interior is corrected to read, "Leo M. Krulitz.".

3. On page 44957 in §§ 837.12 and 837.15, "OSM Form 4100-1" is corrected to read, "OSM Form 837-1" in each of the three places it appears.

On page 44957 in § 837.13(b)(2) delete the line "tiply the number of tons produced in a." and insert that line after the second line in § 837.13(c)(1).

5. On page 44957 in § 837.13(c)(1) the last word, "feet" is corrected to read "fee".

DEPARTMENT OF AGRICULTURE

Forest Service

[36 CFR Part 212, 295]

ADMINISTRATION OF FOREST DEVELOPMENT TRANSPORTATION SYSTEM

Use of Vehicles Off the Road

AGENCY: Department of Agriculture, Forest Service.

ACTION: Proposed rule.

SUMMARY: It is proposed to amend regulations on the administration of the Forest Development Transportation System and use of vehicles off the road. This action is necessary because of an earlier amendment which consolidated all regulations on prohibited acts in 36 CFR Part 261.

This document would (1) amend Parts 212 and 295 to clarify the relationship between 212, 295, and 261; (2) amend Parts 212 and 295 so they concern administrative regulations only; (3) consolidate all administrative regulations relating to Forest development trails into § 212.20; and (4) amend Part 295 to emphasize that these regulations concern vehicles that travel off the National Forest Transportation System.

DATES: Comments must be received on or before October 17, 1977.

ADDRESSES: Send comments to: USDA Forest Service, Recreation Staff, P.O. Box 2417, Washington, D.C. 20013.

Copies of comments will be available for public inspection (8:15 a.m. to 4:45 p.m.) Monday through Friday, at the following locations:

USDA Forest Service, Engineering Staff, Rm. 1108, Rossiyn Plaza E, 1621 N. Kent Street, Arlington, Virginia 22209

or

USDA Forest Service, Recreation Staff, Rm. 4243 South Building, 14th & Independence Ave., Washington, D.C. 20013

FOR FURTHER INFORMATION CONTACT:

Willard Clementson, 703-235-8074.

or

William Holman, 202-447-4228.

SUPPLEMENTARY INFORMATION: Last October 15, 1976, a notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 45577). This proposal combined regulations on prohibited acts, and placed them in one part of the Code of Federal Regulations (36 CFR Part 261). The new regulations were published in the FEDERAL REGISTER January 14, 1977 (42 CFR 2956), effective February 15, 1977.

It is necessary to eliminate redundancy and rewrite portions of 36 CFR Parts 212 and 295 to complement the revised general prohibitions. In addition, it was determined that these proposed regulations are necessary to further interpret the National Forest Roads and Trails System Act, National Trails Systems Act and Executive Order 11644 (Use of Off-Road Vehicles on Public Lands).

An environmental assessment of the proposed rule change has been made. It has been determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949 and OMB Circular A-107, or an environmental statement under section 102(2)(c) of the National Environmental Policy Act.

Accordingly, it is proposed to amend 36 CFR Chapter II as follows:

PART 212—ADMINISTRATION OF FOREST DEVELOPMENT TRANSPORTATION SYSTEM

1. Section 212.7 is revised to read as follows:

§ 212.7 Road system management.

(a) *Traffic rules.* Rules set forth under 36 CFR 261 shall apply to all roads under the jurisdiction of the Forest Service except when in conflict with written agreement.

(1) *General.* Traffic on roads is subject to State traffic laws where applicable except when in conflict with the rules established under 36 CFR 261.

(2) *Specific.* The following specific traffic rules shall apply unless different rules are established in 36 CFR 261.

(i) The load, weight, length, height, and width limitations of vehicles shall be in accordance with the laws of the States wherein the road is located. Greater or lesser limits may be imposed and these greater or lesser limits may be established as provided in 36 CFR 261.

(ii) Roads, or segments thereof, may be restricted to use by certain classes of vehicles or types of traffic as provided in 36 CFR 261. Classes of vehicles are defined to include, but not be limited to, distinguishable groupings such as passenger cars, buses, trucks, motorcycles, automobiles, and trailers. Types of traffic are defined to include, but not be limited to, groupings such as commercial hauling, recreation, and administrative.

(iii) Roads, or segments thereof, may be closed to all vehicle use as provided in 36 CFR 261.

(iv) Additional rules may be imposed as provided in 36 CFR 261.

§ 212.7 [Amended]

2. Section 212.7 (b) is revoked and reserved.

3. Section 212.20 is revised to read as follows:

§ 212.20 National Forest development trail system operation.

(a) *Forest development trails.* Forest development trails shall be designated on a map or plan available to the public at the offices of the Forest Supervisors and District Rangers and shall be marked on the ground by appropriate signs which reasonably bring their location to the attention of the public.

(Sec. 1, 30 Stat. 35, as amended, Sec. 205, 72 Stat. 907; 16 U.S.C. 551, 23 U.S.C. 205.)

4. Section 212.21 is revised to read as follows:

§ 212.21 Pacific Crest National Scenic Trail.

The Pacific Crest National Scenic Trail as defined by the National Trails Systems Act, 82 Stat. 919, shall be administered primarily as a footpath and horseback riding trail by the Forest Service in consultation with the Secretary of the Interior. The use of motorized vehicles may be authorized by the Federal Agency administering the segment of trail involved when use of such vehicles is necessary to meet emergencies or to enable adjacent landowners or land users to have reasonable access to their lands or timber rights.

(Sec. 1, 30 Stat. 35, as amended: 16 U.S.C. 551, Sec. 205, 72 Stat. 907, 23 U.S.C. 205 and 82 Stat. 919, 16 U.S.C. 1241 et seq.)

PART 295—USE OF VEHICLES OFF THE ROAD

1. Part 295 is retitled as shown above and revised to read as follows:

Sec.

295.1 Applicability
295.3 Planning and designation of areas
295.3 Public participation
295.4 Public information
295.5 Monitoring effects of vehicle use off of roads.

AUTHORITY: 30 Stat. 35, as amended (16 U.S.C. 551); 50 Stat. 525, as amended (7 U.S.C. 1011); E.O. 11644, 11989 (42 FR 26959).

§ 295.1 Applicability.

The regulations in this part pertain to administrative designation of specific areas of National Forest System lands on which the use of vehicles traveling off of National Forest development roads is allowed, restricted or prohibited. Prohibitions regarding use of vehicles off roads are established in or pursuant to 36 CFR Part 261.

§ 295.2 Planning and designation of areas.

On National Forest System lands, the continuing land management planning process will be used to permit, restrict,

V 42 I 180 SEP 16 77 UMI

or close specific areas and trails to vehicular use off roads. This process will include coordination with appropriate Federal, State, and local agencies. The planning process will analyze and evaluate such vehicular use so as to enable decisions which will protect the resources of these lands, promote safety of all users, and minimize conflicts among the users of these lands. The process will consider potential impacts of such vehicular use on soil, watershed, vegetation, fish and wildlife, and cultural, and historic resources. If the analysis indicates that the use of vehicles off of roads will cause considerable adverse effects on these resources, areas or trails will not be opened to those vehicles likely to cause such adverse effects. However, this does not preclude the use of any fire, military, emergency, or law enforcement vehicle for emergency purposes, or the use of any combat or combat support vehicle for national defense purposes.

§ 295.3 Public participation.

The public shall be provided an opportunity to participate in the process of designating areas or trails for vehicular use off of roads. Advance notice will be given to allow for public review of proposed or revised designations or for proposed closures to such use. In emergency situations, designations or closures may be made or revised without public participation if needed to protect the resources and/or to provide for public safety.

§ 295.4 Public information.

In addition to the requirements of 36 CFR 261, information will be published and distributed describing the regulation of vehicular use and time periods when an area or trail is: (a) Open to such use, (b) restricted to certain types of such use, or (c) closed to such use.

§ 295.5 Monitoring effects of vehicular use off of roads.

The effects of use by vehicles off of roads on National Forest System lands will be monitored. If the results of monitoring indicate considerable adverse effects on the factors and resource values referred to in Part 295.2, the area or trail suffering adverse effects will be immediately closed to vehicle use until the adverse effects have been eliminated and measures have been implemented to prevent future recurrence. Designations, use restrictions, and operating conditions will be revised as needed to meet changing conditions.

SEPTEMBER 12, 1977.

M. RUPERT CUTLER,
Assistant Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 792-1]

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLAN

Revisions to the Southeast Desert and the Metropolitan Los Angeles Intrastate Air Quality Control Regions (AQCR), to the Rules and Regulations in the State of California

AGENCY: Environmental Protection Agency.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: It is the purpose of this notice to acknowledge receipt of, and invite public comment on: The rules and regulations of, and their revisions for, those portions of the counties of Los Angeles, Riverside, and San Bernardino that lie within the Southeast Desert Air Quality Control Region; the South Coast Air Quality Management District (AQMD); and also those portions of Orange, Los Angeles, San Bernardino, and Riverside County Air Pollution Control Districts (APCD) that lie within the Metropolitan Los Angeles Air Quality Control Region. These were submitted to EPA by the California Air Resources Board for inclusion in the California State Implementation Plan on February 21, 1972, June 30, 1972, July 25, 1973, July 22, 1975 and June 6, 1977. Regulations concerning New Source Review, New Source Performance Standards, National Emission Standards for Hazardous Air Pollutants, and Emergency Air Episodes are not being considered in this notice and will be the topic of separate FEDERAL REGISTER notices. The EPA solicits comments regarding the desirability of approving or disapproving the rules and regulations being considered, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to October 17, 1977.

ADDRESS: Send comments to: Regional Administrator, Attention Air & Hazardous Materials Division, Air Programs Branch, California SIP Section, EPA, Region IX, 100 California Street, San Francisco, Calif. 94111.

FOR FURTHER INFORMATION CONTACT:

Frank M. Covington, Director, Air & Hazardous Materials Division, Environmental Protection Agency, 100 California Street, San Francisco, Calif. 94111, Attention David R. Souten, 415-556-7288.

SUPPLEMENTARY INFORMATION: The 1973-1977 submittals contain revisions to the rules listed below. Unless otherwise noted, the rules apply within the Southeast Desert AQCR portion of the Los Angeles, Riverside, and San Bernardino County APCD. In addition, two rules previously approved by EPA in 1972 are being reannounced for consideration.

REGULATION I—GENERAL PROVISIONS

Rule
101—Title
102—Definition of Terms
2—Definition of Atmosphere
103—Definition of Geographical Areas
104—Reporting of Source Test Data and Analysis
105—Authority to Arrest
106—Increments of Progress

REGULATION II—PERMITS

Those parts of Regulation II not part of New Source Review are:

Rule
208—Permit for Open Burning
218—Stack Monitoring

REGULATION III—FEES

Rule
301—Permit Fees
42—Hearing Board Fees
43—Analysis Fees (Los Angeles and San Bernardino Counties)
44—Technical Report—Charges for (Los Angeles and San Bernardino Counties)
44—Charges for Technical Reports (Riverside County)

REGULATION IV—PROHIBITIONS

Rule
401—Visible Emissions
402—Nuisance
403—Fugitive Dust
404—Particulate Matter—Concentration
405—Solid Particulate Matter—Weight
53—Sulfur Compounds—Concentration (Los Angeles County)
53—Specific Air contaminants (Riverside County)
53—Specific Contaminants (San Bernardino County)
56—Scavenger Plants (Riverside County)
53.1—Scavenger Plants (San Bernardino County)
407—Liquid and Gaseous Air Contaminants
408—Circumvention
409—Combustion Contaminants
430—Breakdown Provisions
431—Sulfur Content of Fuels
432—Gasoline Specifications
441—Research Operations
442—Usage of Solvents
443—Labeling of Solvents
444—Open Fires
461—Gasoline Transfer and Dispensing
462—Organic Liquid Loading
463—Storage of Organic Liquids
464—Oil-Effluent Water Separator
465—Vacuum Producing Devices
466—Pumps and Compressors
467—Safety Pressure Relief Valves
468—Sulfur Recovery Units
469—Sulfuric Acid Units
470—Asphalt Air Blowing
471—Asphalt or Coal Tar Equipment
472—Reduction of Animal Matter
473—Disposal of Liquid and Solid Wastes
474—Fuel Burning quipment—Oxides of Nitrogen
475—Electric Power Generating Equipment
476—Steam Generating Equipment
73—Dry Sandblasting (San Bernardino County)
73—Lead Content and Volatility of Gasoline (Riverside County)

REGULATION V—PROCEDURE BEFORE THE HEARING BOARD

Rule
501—General
502—Filing Petitions
503—Contents of Petitions
504—Petitions for Variances
505—Appeal from Denial
506—Failure to Comply with Rules
507—Pleadings
508—Dismissal of Petition
509—Place of Hearing
510—Notice of Hearing
511—Evidence
512—Preliminary Matters
513—Official Notice
514—Continuances
515—Decision
516—Effective Date of Decision
517—Lack of Permit
518—Findings

Regulation VI has been rescinded and replaced by California Health and Safety Codes, Chapter 957, Division 26, Sections 43210 and 41860.

Regulation VII, Emergencies, has been submitted by the Southern California APCD, but is not being considered in this notice and will be the topic of a separate FEDERAL REGISTER notice.

REGULATION VIII—ORDERS FOR ABATEMENT

Rule
801—General
802—Orders for Abatement
803—Filing Petitions
804—Contents of Petition
805—Scope of Order
806—Findings
807—Pleadings
808—Evidence
809—Failure to Comply with Rules
810—Dismissal of Petition
811—Place of Hearing
812—Notice of Hearing
813—Preliminary Matters
814—Official Notice
815—Continuance
816—Order and Decision
817—Effective Date of Decision

Metropolitan Los Angeles AQCR: Rules submitted by South Coast AQMD (successor to the Southern California APCD).

Rule
301—Permit Fees
431—Sulfur Content of Fuels
461—Gasoline Transfer and Dispensing

Metropolitan Los Angeles AQCR: Rules submitted by Los Angeles, Orange, San Bernardino, and Riverside County APCD as indicated.

Rule
45—Permit Fees—Open Burning (Los Angeles County—1973)
53—Sulfur Compounds—Concentration (Orange County—1975)
53.1—Scavenger Plants (San Bernardino County—1972)
56—Scavenger Plants (Riverside County—1972)

Pursuant to Section 110 of the Clean Air Act as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the regulations as an SIP revision. The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested persons may participate by submitting written comments to the Region IX Office. Relevant comments received on or before October 17, 1977, will be considered. Comments received will be available for public inspection at the Region IX Office and the EPA Public Information Reference Unit.

Copies of the proposed revision are available for public inspection during normal business hours at the following locations:

South Coast Air Quality Management District, District Headquarters, 9420 Telstar Avenue, El Monte, Calif. 91731.
California Air Resources Board, 1709 11th Street, Sacramento, Calif. 95814.
Environmental Protection Agency, Region IX, 100 California Street, San Francisco, Calif. 94111.
Public Information Reference Unit, Room 2922 (EPA Library), 401 "M" Street SW., Washington, D.C. 20460.

AUTHORITY: Section 110 and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857c-5 and 1857g(a)).

Dated: September 2, 1977.

R. L. O'CONNELL,
Acting Regional Administrator.

[FRL 792-2]

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Sierra County Air Pollution Control District in the States of California

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Sierra County Air Pollution Control District (APCD) has adopted changes to their rules and regulations. The revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and to correct deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to October 17, 1977.

ADDRESSES: Comments may be sent to: Regional Administrator, Attn: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), United States Environmental Protection Agency, Region IX, 100 California Street, San Francisco, Calif. 94111.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX Office at the above address and at the following locations:

Sierra County Air Pollution Control Board, County Courthouse, Downieville, Calif. 95936.
California Air Resources Board, 1709 11th Street, Sacramento, Calif. 95814.
Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION: The California Air Resources Board submitted on June 6, 1977, proposed revisions to the following rules:

Rule 102(B)—Definitions (Agricultural Burning).
Rule 102(E)—Definitions (Air Contaminant or Pollutant).
Rule 102(S)—Definitions (Emission Data).
Rule 102(II)—Definitions (Particulate Matter).
Rule 102(SS)—Definitions (Section).
Rule 203—Exceptions to Rule 202, (Visible Emissions).
Rule 205—Nuisance.
Rule 206(B)—Pathological Incineration.
Rule 207—Particulate Matter.
Rule 208—Orchard or Citrus Heaters.
Rule 211—Process Weight Per Hour.
Rule 213—Storage of Petroleum Products.
Rule 215—Abrasive Blasting.
Rule 216—Enforcement.
Rule 301—Open Outdoor Fires.
Rule 302—Exceptions to Rule 301.
Rule 303—Burning Permits.
Rule 304—Exceptions to Rule 303.
Rule 307—Exceptions to Rule 306 (No-Burn Days).
Rule 308—Agricultural Burning Reports.
Rule 319—Open Burning of Wood Waste on Property where Grown.
Rule 320—Right-of-Way Clearing and Levee, Ditch and Reservoir Maintenance Burning.
Rule 321—Hazard Reduction Burning.
Rule 322—Mechanized Burners.
Rule 324—Penalty.
Rule 402—Authority to Inspect.
Rule 407—Circumvention.
Rule 409—Public Records.
Rule 507—Provision of Sampling and Testing Facilities.
Rule 514—Appeals.
Rule 516—Analysis Fees.
Rule 600—Applicable Articles of the Health and Safety Code.
Rule 601—General.
Rule 602—Filing Petitions.
Rule 603—Contents of Petitions.
Rule 604—Petitions for Variances.
Rule 605—Appeal from Denial.
Rule 606—Failure to Comply with Rules.
Rule 607—Answers.
Rule 608—Dismissal of Petition.
Rule 609—Place of Hearing.
Rule 610—Notice of Public Hearing.
Rule 611—Evidence.
Rule 612—Preliminary Matters.
Rule 613—Official Notice.
Rule 614—Continuances.
Rule 615—Decision.
Rule 616—Effective Date of Decision.
Rule 617—Lack of Permit.
Rule 619—Order of Abatement.
Rule 620—Severability.

Pursuant to Section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the proposed regulations as SIP revisions. The Regional

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Mariposa County Air Pollution Control District in the State of California

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Mariposa County Air Pollution Control District (APCD) has adopted changes to their rules and regulations. The revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and to correct deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to October 17, 1977.

ADDRESSES: Comments may be sent to: Regional Administrator, Attn: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), United States Environmental Protection Agency, Region IX, 100 California Street, San Francisco, Calif. 94111.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX Office at the above address and at the following locations:

Mariposa County Air Pollution Control District, Highway 140, Mariposa, Calif. 95338.
California Air Resources Board, 1709 11th Street, Sacramento, Calif. 95814.
Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION: The California Air Resources Board submitted on June 6, 1977 proposed revisions to the following rules:

Rule 102(B)—Definitions (Agriculture Burning).
Rule 102(E)—Definitions (Air Contaminant or Pollutant).
Rule 102(S)—Definitions (Emission Data).
Rule 102(II)—Definitions (Particulate Matter).
Rule 102(SS)—Definitions (Section).
Rule 202—Exceptions to Rule 202 (Visible Emissions).
Rule 205—Nuisance.
Rule 206(B)—Pathological Incineration.
Rule 207—Particulate Matter.
Rule 208—Orchard or Citrus Heaters.
Rule 211—Process Weight Per Hour.
Rule 213—Storage of Petroleum Products.
Rule 215—Abrasive Blasting.
Rule 216—Enforcement.
Rule 301—Open Outdoor Fires.
Rule 302—Exceptions to Rule 301.
Rule 303—Burning Permits.
Rule 304—Exceptions to Rule 303.
Rule 308—Agricultural Burning Reports.
Rule 319—Open Burning of Wood Waste on Property where Grown.
Rule 320—Right-of-Way Clearing and Levee, Ditch and Reservoir Maintenance Burning.
Rule 321—Hazard Reduction Burning.
Rule 322—Mechanized Burners.
Rule 324—Penalty.
Rule 402—Authority to Inspect.
Rule 407—Circumvention.
Rule 507—Provision of Sampling and Testing Facilities.
Rule 514—Appeals.
Rule 600—Applicable Articles of the Health and Safety Code.
Rule 603—Contents of Petitions.
Rule 610—Notice of Public Hearing.

Pursuant to Section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the proposed regulations as SIP revisions. The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested parties may participate by submitting written comments to the EPA Region IX Office. Relevant comments received on or before October 17, 1977, will be considered, and made available for public inspection at the EPA Regional Office and the EPA Public Information Reference Unit.

AUTHORITY: Sections 110 and 301(a) of the Clean Air Act, as amended (42 U.S.C. §§ 1857 c-5 and 1857g(a)).

Dated: September 7, 1977.

PAUL DE FALCO, Jr.,
Regional Administrator.

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Nevada County Air Pollution Control District in the State of California

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Nevada County Air Pollution Control District (APCD) has adopted changes to their rules and regulations. The revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and to correct deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to October 17, 1977.

ADDRESSES: Comments may be sent to: Regional Administrator. Attn: Air & Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4): United States Environmental Protection Agency, Region IX, 100 California Street, San Francisco CA 94111.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX Office at the above address and following locations:

Nevada County Air Pollution Control District, H.E.W. Complex, Nevada City CA 95959.
California Air Resources Board, 1709-11th Street, Sacramento CA 95814.
Public Information Reference Unit, Room 2922 (EPA Library), 401 "M" Street SW., Washington D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION: The California Air Resources Board submitted on June 6, 1977 proposed revisions to the following rules:

Rule 102(B).—Definitions (Agricultural Burning).
Rule 102(E).—Definitions (Air Contaminant or Pollutant).
Rule 102(S).—Definitions (Emission Data).
Rule 102(II).—Definitions (Particulate Matter).
Rule 102(SS).—Definitions (Section).
Rule 103.—Enforcement
Rule 104.—Penalties.
Rule 203.—Exceptions to Rule 202 (Visible Emissions).
Rule 205.—Nuisance.
Rule 206(B).—Pathological Incineration.
Rule 207.—Particulate Matter.
Rule 216.—Abrasive Blasting.
Rule 304.—Exceptions to Rule 303 (Burning Permits).
Rule 319.—Open Burning of Wood Waste on Property where Grown.
Rule 320.—Right-of-Way Clearing and Levee, Ditch and Reservoir Maintenance Burning.
Rule 321.—Hazard Reduction Burning.
Rule 402.—Authority to Inspect.
Rule 407.—Circumvention.
Rule 409.—Public Records.
Rule 507.—Provision of Sampling and Testing Facilities.

Rule 514.—Appeals.
Rule 700.—Applicable Articles of the Health and Safety Code.
Rule 703.—Contents of Petitions.
Rule 704.—Petitions for Variance.
Rule 710.—Notice of Public Hearing.
Rule 711.—Evidence.

Pursuant to section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the proposed regulations as SIP revisions. The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested parties may participate by submitting written comments to the EPA Region IX Office. Relevant comments received on or before October 17, 1977, will be considered, and made available for public inspection at the EPA Regional Office and the EPA Public Information Reference Unit.

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revision to the Glenn County and Tehama County Air Pollution Control Districts' Rules and Regulations in the State of California

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Glenn County and Tehama County Air Pollution Control Districts (APCD) have adopted changes to their rules concerning upset/breakdown (malfunction). These revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board as revisions to the California State Implementation Plan (SIP). The intended effect of these revisions is to update the rules and regulations and to correct deficiencies in the SIP. The EPA invites public comments on these rules especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted until October 17, 1977.

ADDRESS: Send comments to: Regional Administrator, Attn: Air & Hazardous Materials Division, Air Programs Branch, California SIP Section, EPA, Region IX, 100 California Street, San Francisco, Calif. 94111.

FOR FURTHER INFORMATION CONTACT:

Frank M. Covington, Director, Air & Hazardous Materials Division, Environmental Protection Agency, 100 California Street, San Francisco, Calif. 94111. Attn: David R. Souten, 415-556-7288.

SUPPLEMENTARY INFORMATION:

The following rules were submitted on the indicated dates:

JULY 19, 1974—TEHAMA COUNTY APCD

Rule 4:17, Upset or Breakdown Conditions.

JANUARY 10, 1975—GLENN COUNTY APCD

Section 95.2, Maintenance of Equipment.
Section 95.3, Malfunction of Equipment.

The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested persons may participate by submitting written comments to the Region IX Office. Relevant comments received on or before October 17, 1977, will be considered. Comments received will be available for

V 421180 SEP 16 77 UMI

public inspection at the Region IX Office and the EPA Public Information Reference Unit.

Copies of the proposed revision are available for public inspection during normal business hours at the following locations:

Glenn County Air Pollution Control District, 777 North Colusa Street, Willows, Calif. 95988.

Tehama County Air Pollution Control District, 1760 Walnut Street, Red Bluff, Calif. 96080.

California Air Resources Board, 1709-11th Street, Sacramento, Calif. 95814.

Environmental Protection Agency, Region IX, 100 California Street, San Francisco, Calif. 94111.

[FRC 762-4]

NOISE CONTROL ACT

Development of Administrative Hearing Procedures

AGENCY: Environmental Protection Agency.

ACTION: Notice of Intent to Develop Administrative Hearing Procedures.

SUMMARY: The purpose of this notice is to advise interested members of the public including manufacturers of products which are or will be subject to regulation under the Noise Control Act that the Agency is presently developing administrative hearing procedures under section 11(d) of the Act. Further, by this Notice the Agency is establishing a contact point for all questions or comments regarding this rulemaking.

FOR FURTHER INFORMATION CONTACT:

U.S. Environmental Protection Agency, Noise Enforcement Division, EN-387, Washington, D.C. 20460, Attn: Richard G. Kozlowski, Director, telephone: 202-557-7470.

SUPPLEMENTARY INFORMATION: The Noise Control Act of 1972, (Act), mandates that the Administrator develop regulations to control the sound level of identified major sources of noise (Section 6) and develop regulations for the labeling of products (Section 8).

The first of these regulations under Section 6 will take effect on January 1, 1978, and are applicable to manufacturers of medium and heavy truck (April 13, 1976, 41 FR 15538) and portable air compressors of a rated capacity of no less than 75 cfm up to and including 250 cfm. (January 14, 1976, 41 FR 2162). A second standard for portable air compressors of rated capacity greater than 250 cfm, will take effect on July 14, 1976, 41 FR 2162). Other industries which will likely be subject to regulation are those which manufacture wheel and crawler tractors (regulation proposed on July 11, 1977, 42 FR 35804), and those which manufacture products which have been formally identified for possible regulation by the Agency (buses, truck transport refrigeration units, truck mounted solid waste compactors, and motorcycles, all identified on May 28, 1975 (40 FR 23105); lawnmowers, identified on January 12, 1977 (42 FR 2525); paving breakers and rock drills, identified on February 3, 1977 (42 FR 6722)). Additional products which may be subject to future identification and regulation are automobiles and light trucks, tires, chainsaws, air-conditioners, and earthmoving equipment.

In addition, Section 8 general labeling provisions and a regulation for labeling hearing protectors are presently under development (regulations proposed on June 22, 1977, 42 FR 31729). Similar labeling regulations are under consideration by the Agency for such product classes as household appliances, home shop tools, powered lawn-cart equipment, acoustical building materials, and mufflers for internal combustion engines.

Section 11(d)(1) of the Act authorizes the Administrator to issue remedial orders whenever any person commits prohibited acts set out in Section 10(a) of the Act. Section 11(d)(2) of the Act further requires that these orders be issued only after notice and opportunity for a hearing held in accordance with Section 554 of Title 5 of the United States Code. The development of administrative hearing procedures is designed to implement this requirement and establish procedures that will efficiently and fairly handle the enforcement proceedings likely to occur under the Act.

Dated: September 2, 1977.

DOUGLAS M. COSTLE,
Administrator.

[FR Doc.77-27105 Filed 9-15-77;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 3100]

OIL AND GAS LEASING

Lands Subject to Leasing

BUREAU OF LAND MANAGEMENT, INTERIOR.

ACTION: Proposed rulemaking.

SUMMARY: This proposal would authorize the Department of the Interior to lease lands acquired for military or naval purposes for oil and gas, sodium, phosphate, potassium and sulfur. This proposed change to the Department of the Interior's regulations would reflect the authority granted the Department by section 12(a) of the Federal Coal Leasing Amendments Act of 1975, which amended section 3 of the Mineral Leasing Act for Acquired Lands. This regulation would increase the amount of land available for oil and gas leasing.

DATE: Comments must be received on or before October 17, 1977.

ADDRESS: Send comments to Director (210), Bureau of Land Management, 1800 C Street NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

David M. Carty, Branch of Upland Mineral Leasing, Bureau of Land Management, Department of the Interior, Washington, D.C. 20240, (202-343-7753), or

Lawrence G. McBride, Branch of Minerals, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240, (202-343-4803).

SUPPLEMENTARY INFORMATION: The principal author of this proposed rulemaking is David M. Carty, assisted by Lawrence G. McBride. Section 12(a) of the Federal Coal Leasing Amendments Act of 1975, 90 Stat. 1090, repealed the prohibition against the leasing proposed here. The regulatory prohibition reflecting the old statutory provision remains in effect, serving as an exercise of the Secretary's new authority to lease or not to lease such deposits. This proposal would remove the regulatory prohibition and open these lands for mineral leasing under the same terms and conditions as apply to other acquired lands under section 3 of the Mineral Leasing Act for Acquired Lands, 30 U.S.C. 352.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Analysis under Executive Order 11821 and OMB Circular A-107.

It is hereby determined that publication of this proposed rulemaking is not a major Federal action significantly effecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) is required.

The environmental impacts of specific leasing proposals under this rule will be examined in accordance with existing environmental assessment procedures for these mineral leasing activities when such proposals are made. This rule commits the Department to no specific leasing activity.

Under the authority of section 12(a) of the Federal Coal Leasing Amendments Act of 1975 (90 Stat. 1090) it is proposed to amend § 3101.2-1, Subpart 3101, Part 3100, Subchapter C, Chapter II, Title 43 of the Code of Federal Regulations as set forth below:

Subpart 3101—Lands Subject to Leasing

1. Section 3101.2-1 of Subpart 3101 is amended to read as follows:

§ 3101.2-1 Lands to which the Act does not apply.

* * * * * * *

(f) Within naval petroleum and oil shale reserves and within the National Petroleum Reserve in Alaska, or

* * * * * * *

GARY J. WICKS,
Deputy Assistant,
Secretary of the Interior.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[45 CFR Part 1069]

GRANTEE PERSONNEL MANAGEMENT

Community Services Administration

Subpart—Restrictions on Charging Out-of-State Travel to Grant Funds (CSA Instruction 6910-1a)

AGENCY: Community Services Administration.

ACTION: Proposed rule.

SUMMARY: This proposed rule would replace the present CSA requirement for prior, written CSA approval of grantee use of grant funds for travel outside of the grantee's community with a requirement for such approval only for out-of-State travel. It would eliminate exceptions to the requirement for prior CSA approval for travel to meetings of professional associations whose efforts are closely related to the poverty program and travel to interview prospective employees or procure services, supplies, or equipment. This rule is proposed so that CSA can develop better control over long-distance grantee travel. Thus grantee travel within a State will not require prior, written CSA approval and all grantee travel out-of-State does require such approval, except for travel in response to an invitation from CSA.

DATE: Comments on this proposed rule must be received on or before October 20, 1977.

It is proposed to make this rule effective November 5, 1977.

ADDRESS: Comments should be addressed to Ms. Faye Rattner, Chief, Policy Development and Review Division, Community Services Administration, 1200 19th Street NW., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT:

Ms. Faye Rattner, phone, 202-254-5670.

AUTHORITY: Sec. 602, 78 Stat. 530, 42 U.S.C. 2942.

GRACIELA (GRACE) OLIVAREZ,
Director.

Therefore, it is proposed to amend 45 CFR 1069.3-5 as follows, effective November 5, 1977:

§ 1069.3-5 Restrictions on charging out-of-State travel costs to grant funds.

(a) Grantees may use CSA grant funds for out-of-State travel costs incurred by grantee and delegate agency employees, consultants, and members of governing and administering boards without obtaining prior CSA approval, if the travel meets the conditions outlined below and meets the geographical limitations of § 1069.3-6:

(1) Travel in response to a specific invitation from CSA to attend a conference or meeting for the purpose of furthering grantee activity.

(2) For the District of Columbia only, if the travel is within a radius of 50 miles of the grantee's or delegate agency's headquarters.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21338; RM-2745]

TELEVISION BROADCAST STATION IN SIKESTON, MISSOURI

Proposed Changes In Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Notice proposes to assign UHF television Channel 45 to Sikeston, Mo. Action initiated by petition for rulemaking filed by Delta Projects, Inc. This action would bring the community its first local television service.

DATES: Comments must be received on or before October 18, 1977, and reply comments on or before November 8, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Thomas L. McCrickard, III, Broadcast Bureau, 202-632-9660.

SUPPLEMENTARY INFORMATION:

Adopted: September 2, 1977.

Released: September 9, 1977.

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Sikeston, Mo.), Docket No. 21338, RM-2745

1. The Commission has under consideration a petition for rule making, seeking amendment of § 73.606(b) of the Commission's rules and regulations, the Television Table of Assignments. The petition was filed by Delta Projects, Inc. ("Delta") requesting the assignment of Channel 45 to Sikeston, Mo.

2. According to the 1970 U.S. Census, Sikeston had a population of 14,699. The current population estimate cited by the petitioner is 17,000. Sikeston lies partially in New Madrid County (1970 population of 23,420), but is situated primarily in Scott County (1970 population of 33,250). Sikeston is located midway between Memphis and St. Louis, and lies about 48 kilometers (30 miles) west of the Mississippi River. It is located in the "bootheel" of Missouri.

3. According to the petitioner, Sikeston was incorporated in 1874. Manufacturing and retail trade are the principal sources of employment opportunities and retail trades have been on the increase in Sikeston and Scott County. Delta supplied retail trade figures for both Scott and New Madrid counties from Sales Management Survey of Buying Power, which reported 1972 totals of $81,331,000.00 to $63,365,000.00, respectively.

4. Although Sikeston is located within the Grade B contours of TV stations located some distance away, it does not have a local TV broadcast station nor is there one elsewhere in Scott or New Madrid Counties.

5. In view of the above, the Commission is persuaded that a sufficient public interest showing has been made to warrant further consideration of petitioner's proposal in a rulemaking proceeding. Channel 45 may be assigned in accordance with the Commission's distance separation requirements and other technical criteria and could bring the community its first local television service. Therefore, we propose to consider the following revision in the Television Table of Assignments (§ 73.606(b) of the rules) with respect to the city listed below:

V 42 I 180 SEP 16 77 UMI

City	Channel No. Present	Proposed
Sikeston, Mo	45—	

6. The Commission's authority to institute rulemaking proceedings, showings required, cut-off procedures, and filing requirements are contained below and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

7. Interested parties may file comments on or before October 18, 1977, and reply comments on or before November 8, 1977.

FEDERAL COMMUNICATIONS COMMISSION.
MARTIN I. LEVY,
Acting Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420 (d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commision's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[Docket No. 21389; RM-2852]

TELEVISION BROADCAST STATIONS IN CLARKSDALE AND GREENVILLE, MISS., AND IN BIRMINGHAM, ALA.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Federal Communications Commission proposes to substitute TV Channel *21 for Channel *22 in Clarksdale, Miss., and to substitute Channel 44 for Channel 21 in Greenville, Miss. The assignment of Channel *21 to Clarksdale, Miss., will require a change in the offset designation of the unoccupied Channel 21 Birmingham, Ala., assignment (from zero to minus). This action would enhance the possibility of a UHF station's becoming active in this area. This action was initiated by a petition for rulemaking filed by Big River Broadcasting Co., applicant for a TV station at Greenville, Miss.

DATES: Comments must be received on or before October 21, 1977, and Reply Comments must be received on or before November 10, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Thomas L. McCrickard, III, Broadcast Bureau, 202-632-9660.

SUPPLEMENTARY INFORMATION:

Adopted: September 6, 1977.

Released: September 9, 1977.

In the matter of amendment of § 73.606(b), *Table of Assignments*, Television Broadcast Stations. (Clarksdale and Greenville, Miss., Birmingham, Ala.), Docket No. 21389, RM-2852.

1. The Commission has under consideration a petition for rule making filed by Big River Broadcasting Co. ("Big River"). To avoid a short-spacing problem which otherwise would affect its application for a new TV station on Channel 15 at Greenville, Miss., Big River seeks amendment of § 73.606(b) of the Commission's rules and regulations, the Television Table of Assignments, by the substitution of Channel *21 for the Channel *22 assignment in Clarksdale, Miss., and the substitution of Channel 44 for the Channel 21 assignment in Greenville, Miss. Both of the existing assignments are unoccupied and unapplied for.

2. Clarksdale (pop. 21,673),[1] seat of Coahoma County (pop. 40,447), is located in northwest Mississippi. Greenville (pop. 39,648), seat of Washington County (pop. 70,581), is located in west central Mississippi, approximately 100 kilometers (62 miles) south of Clarksdale.

3. Big River filed an application on October 14, 1976, for authority to construct a new UHF television station to operate on Channel 15 at Greenville, Miss. The application was accepted for filing and given file number BPCT-4970. Big River contends that the site specified in its application, to the northeast of Greenville, would be advantageous in order to afford ample signal coverage to the north (Clarksdale) and to the east (Greenwood). However, this proposed transmitter site does not comply with the minimum mileage separation requirements of the Commission's rules and regulations. The proposed site would be short-spaced by approximately 35 kilometers (22 miles) to Channel *22 in Clarksdale. Petitioner contends that none of the other available sites would comply with the separation requirements and yet enable a new UHF TV station to reach a sufficient number of potential viewers.[2]

4. Rather than select a less desirable site, or abandon the attempt to construct a new television station for Greenville, Big River proposes to remove the short-spacing by substituting Channel 44 for Channel 21 in Greenville and substituting *21 for Channel *22 in Clarksdale. These changes can be accomplished in full compliance with the mileage separation requirements. However, the assignment of Channel *21 to Clarksdale, Miss. will require a change in the offset designation of the unoccupied co-channel Birmingham, Ala. assignment (from zero to minus).

5. The Commission believes that these changes would be in the public interest since they would aid in bringing an additional commercial television service to the residents of this area. Also, this action would promote the establishment of the first commercial UHF television service in this area, and only the third commercial UHF station in the state.

6. Therefore, we propose to consider the following revisions in the Television Table of Assignments (§ 73.606(b) of the Commission's Rules) with respect to the cities listed below:

City	Channel No. Present	Proposed
Greenville, Miss.	15—, 21—, *21—	15—, 44—, *21
Clarksdale, Miss.		
Birmingham, Ala.	6—, *10—, 13—, 21, 42+, *32+, 66+	6—, *10—, 13—, 21—, 42+, *32+, 66+

7. The Commission's authority to institute rulemaking proceedings, showings required, cut-off procedures, and filing requirements are contained below and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

8. Interested parties may file comments on or before October 21, 1977, and reply comments on or before November 10, 1977.

MARTIN I. LEVY,
Acting Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420 (d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[FR Doc.77-27008 Filed 9-15-77;8:45 am]

[1] All population figures are taken from the 1970 U.S. Census.

[2] The proposed transmitter site would be 39 kilometers (24 miles) from Greenville, 43 kilometers (27 miles) from Clarksdale, and 50 kilometers (31 miles) from Greenwood. This location would allow coverage of these as well as other surrounding communities which petitioner states is essential to the creation of a viable UHF television operation.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 17]

PROTECTION FOR THREATENED SPECIES OF WILDLIFE

Proposed Rulemaking

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rulemaking.

SUMMARY: The Service issues a proposed rulemaking which would further protect threatened species of wildlife. Certain regulations currently prohibit the possession of illegally taken endangered species only, as well as their commercial transportation and sale or offer for sale in foreign or interstate commerce. It is proposed to have these protective regulations also apply to threatened species. (See FR Doc. 2751 in the Rules Section of the FEDERAL REGISTER for an emergency rule on the same subject.)

DATE: All relevant comments with regard to this proposed rulemaking received no later than November 15, 1977, will be considered.

ADDRESSES: Comments should be sent, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Department of the Interior, P.O. Box 19183, Washington, D.C. 20236. Comments will be available for public inspection during normal business hours at the Service's Division of Law Enforcement, Suite 600, 1612 K St. NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Mr. Marshall L. Stinnett, Special Agent in Charge, Division of Law Enforcement, Fish and Wildlife Service, U.S. Department of the Interior, P.O. Box 19183, Washington, D.C. 20236 (202-343-9237).

SUPPLEMENTARY INFORMATION: This proposed rule is currently in effect under the special emergency rulemaking procedure authorized by the Endangered Species Act of 1973, 16 U.S.C. 1533(f)(2)(B)(ii), as amended.

On May 11, 1976, the Service amended 50 CFR Part 17 to incorporate the State Cooperative Agreement Program into the Service's endangered and threatened species regulations. In particular, an amendment adding a new subsection (5) to § 17.21(c) authorized certain designated State employees in States with cooperative agreements to take endangered species without a permit for conservation purposes. This exemption did not apply in the following four situations:

(5) Notwithstanding paragraph (c)(1) of this section, any qualified employee or agent of a State Conservation Agency which is a party to a Cooperative Agreement with the Service in accordance with section 6(c) of the Act, who is designated by his agency for such purposes, may, when acting in the course of his official duties take Endangered Species, for conservation programs in accordance with the Cooperative Agreement, provided that such taking is not reasonably anticipated to result in: (i) the death or permanent disabling of the specimen; (ii) the removal of the specimen from the State where the taking occurred; (iii) the introduction of the specimen so taken, or of any progeny derived from such a specimen, into an area beyond the historical range of the species; or (iv) the holding of the specimen in captivity for a period of more than 45 consecutive days.

If a proposed taking was to involve any one of those four situations, a regular endangered species permit would be required.

This amendment to § 17.21(c)(5) was similar to an already existing permit exemption for threatened species in § 17.31(b), which for the convenience of the reader is set forth below:

(b) In addition to any other provisions of this Part 17, any employee or agent of the Service, of the National Marine Fisheries Service, or of a State conservation agency which is operating a conservation program pursuant to the terms of a Cooperative Agreement with the Service in accordance with section 6(c) of the Act, who is designated by his agency for such purposes, may, when acting in the course of his official duties, take any threatened wildlife to carry out scientific research or conservation programs.

The major difference in treatment between endangered and threatened species under a cooperative agreement is that the four restrictions on the taking

V 42 I 180 SEP 16 77 UMI

of an endangered species do not apply to threatened species under § 17.31(b).

The addition of § 17.21(c)(5), however, necessitated an amendment to § 17.31(a) which sets out the general prohibitions for activities involving threatened species. No prohibitions automatically cover threatened species under the Endangered Species Act of 1973, and the establishment of protective regulations is discretionary with the Service. The Service exercised this discretion in the original set of regulations implementing the 1973 Act and determined that as a general rule, all of the prohibitions applying to endangered species would apply to threatened species, unless otherwise provided for in a special rule. For the convenience of the reader, the original version of § 17.31(a) published at 40 F44412 is set forth below:

§ 17.31 Prohibitions.

(a) Except as provided in Subpart A of this part, or in a permit issued under this Subpart, all of the provisions in § 17.21 shall apply to threatened wildlife.

• • • • •

Thus, as a general rule all of the prohibitions and provisions of § 17.21 for endangered species were adopted and transferred over for threatened species under § 17.31(a).

Such a transference of the provisions of § 17.21 would include the newly adopted § 17.21(c)(5) dealing with cooperative agreements and endangered species. It has already been pointed out that § 17.21(c)(5) was more restrictive in its authorization of cooperative agreement activities with endangered species, than was § 17.31(b)'s authorization of cooperative agreement activities with threatened species. To avoid this conflict, it was deemed necessary to exclude § 17.21(c)(5) from the general transference provisions of § 17.31(a). The original preamble for the May 11th final rulemaking stated the problem as follows:

The adoption of amendment number 4 requires a slight modification of § 17.31(a) dealing with the prohibitions applicable to Threatened Species. Section 17.31(a) presently states that with a few specific exceptions, all of the provisions of § 17.21, for Endangered Species, shall apply to Threatened Species. While it has been noted that a provision similar to amendment number 4 already exists in § 17.31(b) for Threatened Species, it is not identical because it does not require the State to get a permit in the four situations set forth for § 17.21(c)(5) in amendment number 4.

The present language of § 17.31(a), in stating that all of the provisions of § 17.21, including the newly adopted § 17.21(c)(5), apply to Threatened Species, creates confusion as to the circumstances under which a Threatened Species may be taken without a permit under a Cooperative Agreement. The transference of the provisions of § 17.21 to Threatened Species would include the four restrictions on taking without a permit, while the present language in § 17.31(b) does not.

The Service proposed in amendment number 5, below, to eliminate this confusion by expressly excluding the transference of the provisions of § 17.21(c)(5) in § 17.31(a). This reaffirms the intent of the present language of § 17.31(b) to provide the maximum State antonomy possible under a Cooperative Agreement for the conservation of Threatened Species.

Thus, it was the intention of the Service to amend § 17.31(a) so that all of the provisions of § 17.21 applied to threatened species except § 17.21(c)(5).

Because of an inadvertent omission, however, not only was § 17.21(c)(5) excluded from applicability to threatened species, but § 17.21 (d), (e) and (f) as well. Instead of § 17.31(a) reading "• • • all of the provisions in § 17.21 shall apply to threatened wildlife, except § 17.21(c)(5).", the May 11th final rulemaking amended § 17.31(a) to read "• • • all of the provisions in § 17.21(a) through (c)(4) shall apply to threatened wildlife." The exclude subsections 17.21 (d), (e) and (f) set out the prohibitions dealing with the possession of illegally taken endangered species, as well as the commercial transportation or sale or offer for sale in interstate or foreign commerce of endangered species. It is the position of the Service that these prohibitions are clearly necessary for the conservation of threatened species of fish or wildlife. Furthermore, the Service contends that the absence of these protective regulations creates a significant risk to the well being of threatened species of fish or wildlife.

The primary author of this document is Marshall L. Stinnett, Division of Law Enforcement.

NOTE.—The Service has determined that this document is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. Accordingly, an environmental impact statement shall not be required.

Accordingly, it is proposed to amend § 17.31(a) to read as follows:

§ 17.31 Prohibitions.

(a) Except as provided in Subpart A of this Part, or in a permit issued under this Subpart, all of the provisions in § 17.21 shall apply to threatened wildlife, except § 17.21(c)(5).

• • • • •

NOTE.—The Service has determined that this document does not contain a major rulemaking requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 9, 1977.

WALTER R. MCALLISTER,
Director,
Fish and Wildlife Service.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

MEETING

Notice is hereby given in accordance with the Council's Procedures for the Protection of Historic and Cultural Properties (36 C.F.R. 800) that the regular meeting of the Advisory Council on Historic Preservation will be held on October 11–12, 1977, in Washington, D.C. The entire meeting is open to the public.

The Council was established by the National Historic Preservation Act of 1966 (Pub. L. 89–665, as amended, Pub. L. 94–422) to advise the President and Congress on matters relating to historic preservation and to comment upon Federal, federally assisted and federally licensed undertakings having an effect upon properties listed in or eligible for inclusion in the National Register of Historic Places. The Council's members are the Secretaries of the Interior; Housing and Urban Development; Commerce; Treasury; Agriculture; Transportation; State; Defense; Health, Education, and Welfare; and Smithsonian Institution; the Attorney General; Chairman of the Council on Environmental Quality; Chairman of the Federal Council on the Arts and Humanities; Architect of the Capitol; Chairman of the National Trust for Historic Preservation; President of the National Conference of State Historic Preservation Officers; and twelve non-Federal members appointed by the President.

The meeting will begin at 9:00 a.m. on Tuesday and Wednesday, October 11–12, 1977, at the Cash Room, Department of the Treasury, 15th & Pennsylvania Avenue, NW, Washington, D.C. 20220.

The agenda for the meeting includes the following:

I. Report of the Executive Director.
II. Report of the General Counsel.
III. Report of the Director of Intergovernmental Programs and Planning.
IV. Report of the Office of Review and Compliance.
VI. Memorandum of Understanding Between Council and Economic Development Administration Regarding Community Emergency Drought Relief Program.
VII. Memorandum of Understanding Between Council and National Park Service Regarding Grants-in-Aid Program.
VIII. Other Business.

For reasons of security in Federal buildings, those wishing to attend must have a Government Identification Card, or notify the Council by September 28 of their name, address, and social security number. Notify the Council in writing at Suite 530, 1522 K Street, NW, Washington, D.C. 20005, or call (202) 634–4153.

Additional information concerning either the meeting agenda or the submission of oral and written statements to the Council is available from the Executive Director, Advisory Council on Historic Preservation, Suite 530, 1522 K Street NW., Washington, D.C. 20005 (202) 254–3974.

Dated: September 7, 1977.

ROBERT M. UTLEY,
Deputy Executive Director.

DEPARTMENT OF AGRICULTURE

Forest Service

SIERRA SKI RANCH EXPANSION, ELDORADO NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the proposed expansion of Sierra Ski Ranch Winter Sports Site, Eldorado National Forest, Calif., USDA–FS–R5–FES (ADM) 77–04.

The environmental statement concerns the proposed expansion of a winter sports site near Echo Summit in the Eldorado National Forest. The area is located in El Dorado County, Calif., approximately 83 miles east of Sacramento, and is accessible by U.S. Highway 50. There are no inventoried roadles areas within the proposed expansion boundary.

The final environmental statement was transmitted to the Council on Environmental Quality (CEQ) on September 12, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th Street and Independence SW., Washington, D.C. 20250.
Forest Supervisor, Eldorado National Forest, 100 Forni Road, Placerville, Calif. 95667.
Regional Forester, U.S. Forest Service, Room 529, 630 Sansome Street, San Francisco, Calif. 94111.
Forest Service, District Ranger, Placerville District, 8491 Carson Court, Placerville, Calif. 95667.

A limited number of single copies are available, upon request, from Forest Supervisor Joseph H. Harn, Eldorado National Forest, 100 Forni Road, Placeerville, Calif. 95667.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the CEQ guidelines.

EINAR L. ROGET,
Acting Deputy Chief.

SEPTEMBER 12, 1977.

Packers and Stockyards Administration

ROGUE VALLEY LIVESTOCK AUCTION, INC., CENTRAL POINT, OREGON

Change of Address

On January 4, 1972, a notice was published in the FEDERAL REGISTER, 37 FR 47, advising all interested parties that stockyard facility numbers were being assigned to all stockyards posted under the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq). Included in this publication was the name of the Rogue Valley Livestock Auction, Inc., Medford, Oregon. This stockyard was assigned stockyard facility number OR–115.

The purpose of this notice is to show that the mailing address has been changed to Central Point, Oregon. The stockyard known as Rogue Valley Livestock Auction, Inc., Central Point, Oregon, will remain posted as a stockyard within the definition of that term contained in section 302 of the Act (7 U.S.C. 202) and will remain subject to the provisions of the Act. This stockyard will retain the stockyard facility number, OR–115.

Done at Washington, D.C. this 12th day of September, 1977.

JOHN R. BRANNIGAN,
Acting Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Rural Electrification Administration

LOWER VALLEY POWER AND LIGHT, INC.

Final Supplement to the Final Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Supplement to the Final Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969 in connection with a loan application from Lower Valley Power and Light, Inc., P.O. Box 188, Afton, Wyoming 83110. The Final Supplement addresses

V 42 I 180 SEP 16 77 UMI

staff evaluation of the most recent denial of the applicant's proposed Snake River crossing by the U.S. Department of the Interior.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Final Supplement have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality Guidelines. The Final Supplement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C., Room 4310 or at the address of Lower Valley Power and Light, indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Richter at the address given above. Comments must be received on or before October 17, 1977, to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 9th day of September, 1977.

DAVID A. HAMIL,
Administrator.

Soil Conservation Service

WASHINGTON MOUNTAIN BROOK WATERSHED, MASS.

Intent To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Washington Mountain Brook Watershed, Berkshire County, Mass.

The environmental assessment of this Federal action indicates that the project will cause significant local, regional, or national impacts on the environment. As a result of these findings, Dr. Benjamin Isgur, State Conservationist, has determined that the preparation and review of an environmental impact statement is needed for this project.

The project concerns a plan for watershed protection, flood prevention, municipal and industrial water supply, and recreation development. The planned works of improvement remaining to be installed include conservation land treatment supplmented by two multiple purpose dams, recreation facilities, and channel work consisting of 50 feet of concrete channel and about 100 feet of debris removal along Washington Mountain Brook.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation of agencies and individuals with expertise or interest in the preparation of the draft environmental impact statement. The draft environmental impact statement will be developed by Dr. Benjamin Isgur, State Conservationist, Soil Conservation Service, 29 Cottage Street, P.O. Box 848, Amherst, Mass. 01002.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Pub. L. 83-566, 16 USC 1001-1008.)

INTERGOVERNMENTAL PERSONNEL ACT OF 1970

Allocations of Grant Funds

Pursuant to 5 CFR 900.301(a), notice is hereby given of the allocations of funds available for grants under the Intergovernmental Personnel Act of 1970, Pub. L. 91-648, 84 Stat. 1909. For grants under the Act, Congress has appropriated $20 million for Fiscal Year 1978. Eighty percent of this amount must be allocated by weighted formula among the States and between State and local government needs, as required by Section 506 of the Act. Under the Act, the term "local government" also means the recognized Indian governing bodies performing substantial governmental functions.

INTERGOVERNMENTAL PERSONNEL ACT
FORMULA GRANT ALLOCATIONS FOR FISCAL YEAR 1978

STATE	TOTAL STATE ALLOCATION	MINIMUM SHARE FOR LOCAL GOV'T NEEDS *
Missouri	$ 334,000	$ 167,000
Montana	90,000	45,000
Nebraska	119,000	59,500
Nevada	90,000	47,100
New Hampshire	90,000	45,000
New Jersey	524,000	325,100
New Mexico	94,000	47,000
New York	1,365,000	984,400
North Carolina	392,000	243,700

Minnesota	292,000	148,100
Mississippi	170,000	85,000

* Must be at least 50 percent of the State's total allocation

V 421180
SEP 16 77
UMI

PARAGRAPH 1. *Award of grant funds.* The allocations for Fiscal Year 1978 are furnished now to permit advance planning for the use of these funds. The funds will be available for award to eligible grantees after September 30, 1977. In most States, formula funds are awarded to a State agency designated by the Governor on the basis of a statewide program developed cooperatively by the State and local jurisdictions. Formula funds allocated for the use of the fifty States are awarded by the Commission's regional offices. Formula funds allocated for the use of the District of Columbia are awarded by the Commission's Bureau of Intergovernmental Personnel Programs.

PARAGRAPH 2. *Minimum allocations for individual States and for meeting the needs of local governments.* When the dollar allocation for a State would be less than $90,000, it has been raised to that level; with the funds required for this purpose being derived by adjusting proportionately the allocations for the other States. The minimum allocation for meeting the needs of local governments in each State is established by the Intergovernmental Personnel Act as 50 percent of the State's total allocation.

PARAGRAPH 3. *Use of grant funds.* Under the Intergovernmental Personnel Act, the U.S. Civil Service Commission is authorized to make grants to State governments; to general local governments, or combinations of local governments, that serve a population of fifty thousand or more; or to eligible Indian tribal governments for up to 50 percent of the costs of projects to strengthen personnel administration or to train professional, administrative, and technical employees and officials. To obtain the greatest benefit from limited funds, jurisdictions are urged to place emphasis on high-priority management improvement projects which will have lasting impact or otherwise serve as demonstration models for use by other jurisdictions.

PARAGRAPH 4. *Obtaining further information.* State, local, and Indian government executives or other interested persons may obtain further information on the grant program from the appropriate office of the U.S. Civil Service Commission.

UNITED STATES CIVIL SERVICE REGIONS

For convenience in administration of the field service the Commission has divided the United States into regions. The following shows the names of the Commission's regional directors and their headquarters, and the geographical areas over which these officials have jurisdiction, for Intergovernmental Personnel Act programs as well as other Commission programs.

REGION	HEADQUARTERS	DIRECTORS	AREA SERVED
Atlanta	1340 Spring Street, N.W. Atlanta, Ga. 30309	David Caldwell	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee
Boston	John W. McCormack Post Office and Courthouse Bldg. Boston, Mass. 02109	Charles A. Maher	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont
Chicago	Federal Office Bldg. 29th Floor 230 S. Dearborn St. Chicago, Ill. 60604	Keith A. Roelofs	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin
Dallas	1100 Commerce Street Dallas, Texas 75202	Edward Vela, Jr.	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas
Denver	Building 20 Denver Federal Center Denver, Colo. 80225	George F. Dwyer	Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming
New York	Federal Building 26 Federal Plaza New York, N.Y. 10007	John J. Lafferty	New Jersey, New York, Puerto Rico, and the Virgin Islands
Philadelphia	William J. Green, Jr. Federal Building 600 Arch Street Philadelphia, Pa. 19106	Robert E. Sperry	Delaware, Maryland, Pennsylvania, Virginia, and West Virginia
St. Louis	1256 Federal Building 1520 Market Street St. Louis, Mo. 63103	Robert J. Dunn	Iowa, Kansas, Missouri, and Nebraska
San Francisco	Federal Building, Box 36010 450 Golden Gate Avenue San Francisco, Calif. 94102	Francis V. Yanak	Arizona, California, Hawaii, Nevada, and the Pacific Overseas Area
Seattle	Federal Building 915 Second Ave., 26th Fl. Seattle, Wash. 98174	Thomas G. McCarthy	Alaska, Idaho, Oregon, and Washington

COSMOS FOOTWEAR CORP.

Petition for a Determination of Eligibility To Apply for Trade Adjustment Assistance

A petition by Cosmos Footwear Corp., 1350 Broadway, New York, N.Y. 10018, a producer of footwear for women, was accepted for filing on September 9, 1977, pursuant to section 251 of the Trade Act of 1974 (Pub. L. 93618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business September 26, 1977.

Foreign-Trade Zones Board

[Order No. 123]

GREATER MIAMI FOREIGN TRADE ZONE, INC.

Resolution and Order Approving Application for Permanent and Temporary Trade Zone Sites in Dade County, Florida

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following resolutions and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the Greater Miami Foreign Trade Zone, Inc., Dade County, Florida, filed with the Foreign-Trade Zones Board (the Board) on March 16, 1977, as amended May 20, 1977, requesting a grant of authority for establishing, operating, and maintaining a foreign-trade zone in Dade County, Florida, and a warehouse facility to be operated as a temporary site until the permanent facility is fully operational, both sites being within or adjacent to the Miami Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's Regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the permanent proposal involves an industrial park type zone that envisages the possible construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the permanent zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN PERMANENT AND TEMPORARY FOREIGN-TRADE ZONE SITES IN DADE COUNTY, FLORIDA

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u), (hereinafter referred to as "the Act"), the Foreign-Trade Zones Board (hereinafter referred to as "the Board") is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Greater Miami Foreign Trade Zone, Inc. (the Grantee) has made application (filed March 16, 1977) in due and proper form to the Board requesting the establishment, operation, and maintenance of a permanent foreign-trade zone, as well as a temporary zone site, both in Dade County, Florida, within or adjacent to the Miami Customs port of entry;

Whereas, the Grantee amended its application (filed May 20, 1977) in due and proper form to change the site for the permanent zone, the amended site being within the same level land section as the original one;

Whereas, notice of said application and amendment has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating and maintaining a permanent foreign-trade zone, designated on the records of the Board as Zone No. 32, in Dade County, Florida, at the location described on the maps and drawings accompanying the amended application, marked as Exhibits IX and X, and a temporary foreign-trade zone, designated as Zone No. 32 (temporary), also in Dade County at the location described on the maps and drawings marked as Exhibits IX and X of the original application, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

Operation of the foreign-trade zone sites shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The temporary zone site will be deactivated within a reasonable time after the permanent site is fully operational and at that time zone status for this site will expire.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone sites in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within either zone site.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone sites, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 6th day of September, 1977 pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
JUANITA M. KREPS,
Chairman and Executive Officer.

Attest:
JOHN J. DAPONTE,
Executive Secretary.

[Order No. 122]

TRI-CITY REGIONAL PORT DISTRICT, GRANITE CITY, ILL.

Resolution and Order Approving Application for a Foreign-Trade Zone

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

"After consideration of the application of the Tri-City Regional Port District, Granite City, Ill., filed with the Foreign-Trade Zones Board (the Board) on January 27, 1977, requesting a grant of authority for establishing, operating, and maintaining a foreign-trade zone in the Tri-City Industrial Center, Granite City, Ill., within the St. Louis Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

Since the proposal involves an industrial park type zone that envisages the construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order."

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN GRANITE CITY, ILL.

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u), (hereinafter referred to as "the Act"), the Foreign-Trade Zones Board (hereinafter referred to as "the Board") is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Tri-City Regional Port District (hereinafter referred to as "the Grantee"), has made application (filed January 27, 1977) in due and proper form to the Board requesting the establishment, operation, and maintenance of a foreign-trade zone in Granite City, Ill., within the St. Louis Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 31, at the location mentioned above and more particularly described on the maps and drawings accompanying the application requesting authority for a foreign-trade zone in Granite City, Ill., marked as Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In Witness Whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 6th day of September 1977 pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
JUANITA M. KREPS,
Chairman and Executive Officer,
Secretary of Commerce.

National Bureau of Standards

CEMENT AND CONCRETE TECHNOLOGY

Workshop

The National Bureau of Standards and the Energy Research and Development Administration will hold a workshop on possible contributions of cement and concrete technology to energy conservation by the year 2000. The workshop will be held at the National Bureau of Standards in Gaithersburg, Maryland, on Monday and Tuesday, October 3 and 4, 1977. Each day's proceedings will begin at 8:45 a.m. with a plenary session in Lecture Room A of the Administration Building at which working group assignments will be reviewed. Subsequently, individual working groups will meet in Lecture Rooms A, B, and D, and Room B113 of the Administration Building, Room B163 of the Chemistry Building, Room B27 of the Technology Building (October 3 only) and Room A340 of the Metrology Building (October 4 only).

The purposes of the workshop are to (a) identify research needs relating to possible contributions of cement and concrete technology to energy conservation in the near term and by the year 2000 and (b) identify issues, and possible restraints, relating to the exploitation of energy conservation opportunities in the cement and concrete areas.

The public is invited to attend the workshop. A period will be set aside during the plenary sessions for oral comments or questions by the public which do not exceed 5 minutes each. More extensive questions or comments should be submitted in writing before October 1, 1977. Other public statements regarding issues before the workshop may be submitted at any time before or after the workshop.

Persons planning to attend should notify Geoffrey Frohnsdorff, Room B348, Building Research Building, Center for Building Technology, Institute for Applied Technology, National Bureau of Standards, Washington, D.C. 20234 (telephone 301–921–3458).

Dated: September 12, 1977.

ERNEST AMBLER,
Acting Director.

National Oceanic and Atmospheric Administration

PRELIMINARY FISHERY MANAGEMENT PLANS AND PROPOSED FOREIGN FISHING REGULATIONS

Public Meeting

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 (Pub. L. 91–190), the National Oceanic and Atmospheric Administration has prepared draft supplements to final environmental impact statements for preliminary fishery management plans prepared in accordance with the Fishery Conservation and Management Act of 1976 (Pub. L. 94–265). Notice is hereby given of public meetings to be held by the National Marine Fisheries Service to receive public views and comments on the draft supplements applicable to the following preliminary fishery management plans:

1. Atlantic Herring Fishery of the Northwestern Atlantic.
2. Foreign Trawl Fisheries of the Northwestern Atlantic.
3. Hake Fisheries of the Northwestern Atlantic.
4. Mackerel Fishery of Northwestern Atlantic.
5. Squid Fisheries of the Northwestern Atlantic.

The notice of availability of supplements to final environmental impact statements for preliminary fishery management plans was published on September 6, 1977 (42 FR 44569).

Proposed amendments to foreign fishing regulations promulgated under Pub. L. 94–265 were published on September 9, 1977 (42 FR 45551) Public meetings will be held at the following locations, dates, and times to receive public views and comments on the draft supplements to final environmental impact statements for the above named plans and proposed amendments to foreign fishing regulations:

SEPTEMBER 27, 1977, OCEAN CITY, MD.
Sheraton Fontainebleau Inn
10100 Ocean Highway
7 p.m. to 10 p.m.

SEPTEMBER 29, 1977, NEW BERN, N.C.
Holiday Inn
Junction U.S. Highways 70 and 17
7 p.m. to 10 p.m.

SEPTEMBER 30, 1977, PEABODY, MASS.
Holiday Inn
Junction U.S. Highways 1 and 128
7 p.m. to 10 p.m.

Written comments from the public may be submitted to the Regional Director, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Mass. 01930, until October 6.

Dated: September 13, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

Atlantic Bluefin Tuna Season

On September 6, 1977, a notice was published in the FEDERAL REGISTER at 42 FR 44567. This notice announced that the season would be closed at 2400 hours local time on September 9 for the taking of Atlantic bluefin tuna weighing in excess of 300 pounds round weight with gear other than purse seines in the area of the Atlantic Ocean west of a line drawn from a point on the southern coast of Massachusetts extending south through Gay Head Light, Massachusetts including the waters of Narragansett Bay.

Pursuant to 50 CFR 285.13(b)(1)(i) (see 42 CFR 30374) the quota of such fish for this area was established at 150. Records of the National Marine Fisheries Service indicate that as of September 9, 1977, only 59 fish were taken. Accordingly, pursuant to 50 CFR 285.13(d) the season for the taking of Atlantic bluefin tuna weighing in excess of 300 pounds with gear other than purse seines in the area of the Atlantic Ocean, including Narragansett Bay, west of a line drawn from a point on the southern coast of Massachusetts extending south through Gay Head Light, Massachusetts shall be reopened at 0001 hours local time on September 16, 1977, until the quota of 150 fish is reached.

Issued at Washington, D.C and dated September 14, 1977.

WINFRED H. MEIBOHM,
Associate Director.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Additions

AGENCY: Committee for Purchase from the Blind and Other Severly Handicapped.

ACTION: Additions to procurement list.

SUMMARY: This action adds to Procurement List 1977 commodities to be produced by and services to be provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: September 16, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On June 17, 1977, July 15, 1977, and July 22, 1977 the Committee for Purchase from the Blind and Other Severely Handicapped published notices (42 FR 30883), (42 FR 36543) and (42 FR 37586) of proposed additions to Procurement List 1977, November 18, 1976 (41 FR 50975).

After consideration of the relevant matter presented, the Committee has determined that the commodities and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48(c), 85 Stat. 77.

Accordingly, the following commodities and services are hereby added to Procurement List 1977:

Class 7105

Mirror, Glass (SH), 7105-00-260-1390.

Class 7530

Paper, Looseleaf, Blank (IB), 7530-00-286-5778, 7530-00-286-5782, 7530-00-286-5780, 7530-00-286-5781, 7530-00-286-5779, 7530-00-286-5777.

Class 7530

Paper, Looseleaf, Ruled (IB), 7530-00-286-4332, 7530-00-286-4331, 7530-00-286-4333, 7530-00-286-4334, 7530-00-286-4335, 7530-00-198-6265, 7530-00-286-4336, 7530-00-286-4337, 7530-00-286-4338, 7530-00-286-4339, 7530-00-286-6366.

SIC 7349

Custodial Services (SH), Fairchild Air Force Base, Spokane, Wash. At the following locations:

1. Alert Facility, Bldg. 2080
2. Alert Trailers
3. Post Office, Bldg. 644
4. Military Family Housing Office, Bldg. 2151B
5. Audit Agency Office, Bldg. 2245
6. 47th Air Division Hdqtrs, Bldg. 2285
7. Civilian Personnel and NAF (Room 209), Bldg. 2245
8. Red Cross Office, Bldg. 2245
9. Base Library, Bldg. 716
10. Base Chapel, Bldg. 4200
11. Base Education Center, Bldg. 2365
12. Family Visitation Center, Bldg. 2092

Class 7930

Detergent, General Purpose (Synthetic, Nonabrasive) (IB), 7930-00-530-8067, 7930-00-527-1207, 7930-00-527-1237.
Detergent, General Purpose (Liquid Solvent) (IB), 7930-00-985-6945, 7930-00-985-6946.

SIC 7699

Mattress and Boxspring Rehabilitation (IB), For GSA Region 8, Denver, Colo.

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc.77-27002 Filed 9-15-77;8:45 am]

PROCUREMENT LIST 1977

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1977 commodities to be produced by and services to be provided by workshops for the blind or other severely handicapped.

COMMENTS: Must be received on or before October 19, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and services listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and services to Procurement List 1977, November 18, 1976 (41 FR 50975):

Class 5440

Stepladder, Aluminum, 5440-00-514-4483, 5440-00-514-4485, 5440-00-514-4487 (The above for GSA Supply Distribution facilities in Region 7 only).

Class 7210

Covers, Mattress (Cotton Ticking), 7210-00-543-6001, 7210-00-543-6002, 7210-00-140-4231, 7210-00-140-4234.

Class 8430

Footwear Covers, Radioactive Contaminants, 8430-00-890-2079.

Class 8465

Lanyard, Pistol, 8465-00-262-5237, 8465-00-965-1705, 8465-00-753-3363.

SIC None

Magazine Subscription, Madigan Army Medical Center, Tacoma, Wash.

SIC 7349

Custodial Services, Bergstrom AFB, Tex., for building 713, 734, 2004, 2108, and 2501 only.

SIC 7699

Repair and Maintenance of Electric Typewriters at the following locations:

1. Railroad Retirement Board, 844 N. Rush, Chicago, Ill., and 2. HEW, 300 S. Wacker, Chicago, Ill.

SIC 7699

Repair and Maintenance of Electric and Manual Typewriters, Rochester N.Y. (including Monroe County).

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc.77-27003 Filed 9-15-77;8:45 am]

PROCUREMENT LIST 1977

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received a proposal to add to Procurement List 1977 commodities to be produced by workshops for the blind or other severely handicapped.

COMMENTS: Must be received on or before October 19, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities listed below from workshops for the blind or other severely handicapped.

This notice supersedes the notice of proposed addition of the following commodities published in the FEDERAL REGISTER on August 19, 1977 (42 FR 41903).

It is proposed to add the following commodities to Procurement List 1977, November 18, 1976 (41 FR 50975):

Class 8430

SHOES, MEN'S BLACK OXFORD

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Availability

The following is a list of environmental impact statements received by the Council on Environmental Quality from Sept. 5 to Sept. 9, 1977. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the *minimum* period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (October 31, 1977) The thirty (30) day for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Errett Deck, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, Room 307A, Washington, D.C. 20250 (202-447-6827).

RURAL ELECTRIFICATION ADMINISTRATION

Final

Coyotte Generating Station, 440 MW Unit, Mercer and Oliver Counties, N. Dak., September 9: Proposed is the granting of loan funds to the Minnkota Power Cooperative for the financing of a 30 percent interest in the proposed new Coyotte Station. The project consists of a 440 MW lignite-fired steam electric generating plant. A new 33 mile, 345 kV transmission line will be built to interconnect the proposed plant with the substation at the Center Plant. Cooling tower blow down and small amounts of boiler blow down will be discharged to the Missouri River. Other major adverse effects include intrusion on the landscape and minor amounts of soil disturbance. Comments made by: DOT, USDA, HEW, FEA, FRDA, DOI, SOE, EPA, State agencies, and interest groups. (ELR Order No. 71117.)

SOIL CONSERVATION SERVICE

Draft

Lake Verret Watershed (2), Ascension, Assumption, and Iberville Parishes, La., September 6: Proposed is a project for watershed protection, flood prevention, and drainage in Ascension, Assumption, and Iberville Parishes, La. Approximately 168 miles of channel work with appurtenant measures, structures for water control, and measures to minimize adverse effects to fish and wildlife will be installed. There will be a loss of about 29 acres of Type 7 Wetland due to project channel rights-of-way; channel rights-of-way required for construction will occupy about 5 acres. Additional effects include the celaring of 1,200 acres of forest land, a reduction in air quality, frequent flooding, and the removal of vegetation from 348 acres. (ELR Order No. 71108.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314 (202-693-6795).

Draft

Mississippi River, Phillips Co., Additional Facilities, Phillips County, Ark., September 6: Proposed is the dredging of a new 5.5 mile channel in two stages along the right side of the main channel of the Mississippi River, extending northeastward from the north end of the Westover revetment and parallel to the main stem levee. Dredged material from a channel 500 feet wide would be placed to create 900 acres of developable flood free fill, which would be developed as a waterfront industrial complex. Approximately 805 acres of bottomland hardwoods, 915 acres of agricultural land and 250 acres of water surface would be displaced during construction. (Memphis District.) (ELR Order No. 71102.)

Savannah Harbor Channel Widening (2), Ga., September 6: Proposed is a plan of improvement for the Savannah Harbor, Ga. Plans call for the widening of the Harbor navigation channel between the present upstream limit of the 500-foot channel between Fig Island turning basin (mile 13.3) and Kings Island turning basin (mile 18.9) from 400 to 500 feet by 38 feet depth with two feet of overdepth dredging on the northern side of the channel. Adverse effects include the elimination of approximately 27 acres of terrestrial land on the northern bank of the Savannah River, temporary increase in turbidity, and loss of plankton during dredging activities. (Savannah District.) (ELR Order No. 71099.)

Bushley Bayou, Louisiana Flood Control (2), La., September 6: Proposed is the provision of backwater flood protection to the Bushley Bayou area by means of a loop levee, gravity flood gate, internal drainage canal, and a 300-cubic-foot-per-second pumping station. Included in the project plan is acquisition and management of 925 acres of suitable wildlife lands to mitigate project-induced fishery losses. Adverse effects include the loss of 94 acres of bottom-land hardwood forest, the degradation of about 1,246 acres of productive farmland, the loss of an additional 602 acres of farmland, and possible damage to archaeological and historical sites. (Vicksburg District.) (ELR Order No. 71100.)

Final

West Contra Coast Sanitary Landfill Project, Contra Costa County, Calif., September 9: This statement involves a regulatory permit application for confirmation and approval of all existing dikes and embankments at the West Contra Costa Sanitary Landfill Project, including rehabilitation, completion and permanent maintenance of these structures and validation of the placement of all existing fill and material behind the structures. Permission to continue sanitary landfill operations is also sought. The adverse impacts of the fill project include loss of a waterfowl resting area and some modified marsh habitat, decreased aesthetics, noise and air pollution due to truck traffic, and restricted use of the landfill area. (San Francisco District.) Comments made by: DOI, EPA, USDA, HEW, DOT, State and local agencies, concerned groups, and individuals. (ELR Order No. 7114.)

Humboldt Bay Harbor Marina (Reg. Permit), Humboldt County, Calif., September 9: Proposed is the development, at Humboldt Bay Harbor, of the Eastern shore of Woodley Island and the Eureka Inner Reach Channel into a public marina with support facilities. This project would reduce the width of the open channel and decrease the flushing capability of the channel. Approximately ½ of the open space/wildlife habitat, including 10 acres of salt marsh, would be replaced by marina development. (San Francisco District.) (250 pages.) Comments made by: USDA, DOC, HEW, HUD, DOI, DOT, EPA, AHP, State and local agencies, and concerned interest groups. (ELR Order No. 71115.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Please refer to the separate notice published by EPA in this issue of the FEDERAL REGISTER for the appropriate EPA contact.

Draft

Lynwood Wastewater Treatment Facilities, Snohomish County, Wash., September 6: Proposed is the provision of secondary facilities for the existing sanitary sewerage system in the city of Lynwood, Wash., to replace the existing Lynwood treatment plant at Brown's Bay which affords only primary treatment. The Alderwood Water District will participate in the project through the installation of new gravity interceptors to extend sewer service to the Swamp Creek Basin. All of the communities serviced by the improvement are located in Snohomish County, Washington; however, the proposed Swamp Creek interceptor would discharge to the Municipality of Metropolitan Seattle (Metro) in King County for treatment. (Region X.) (ELR Order No. 71094.)

Final

Interim Heavy Duty Engine Regulations, 1979+, September 6: This statement proposes to set more stringent exhaust emission standards for new heavy duty engines, to revise exhaust gas sampling and analysis procedures, and to set a more stringent Diesel engine peak smoke emission level. To assure achievement of the desired standards, preproduction heavy duty engines will be tested to check the levels of emissions prior to certification for sale in vehicles in the United States. The standards and test procedure changes will be made optional for model year 1979 and will be required in 1980 and late model years by large volume manufacturers. Comments made by: DOD, DOI, DOT, State and local agencies, and concerned interest groups. (ELR Order No. 71109.)

FEDERAL ENERGY ADMINISTRATION

Contact: Mr. Robert Stern, Director, Office of Environmental Programs, Federal Energy Administration, New Post Office Building, Room 7119, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461 (202-566-9760).

Sulfur Mines Salt Dome—SPR, Calcasieu County, La., September 8: Proposed is the storage of 24 million barrels of crude oil at the Sulphur Mines salt dome located in Calcasieu Parish, La. Sulphur Mines is a candidate site for the Strategic Petroleum Reserve (SPR) program currently being implemented by the Federal Energy Administration. Adverse effects include decreased air and water quality; soil erosion; and the possibility of oil spills. (ELR Order No. 71113.)

Texoma Group Salt Domes—SPR, Texas and Louisiana, September 9: Proposed are 4 candidate sites for use as part of the Strategic Petroleum Reserve program. These sites are from the Texoma group of salt domes located in the Gulf Coast region of southwestern Louisiana and southeastern Texas. The primary site for development in this group is an expansion of the West Hackberry Early Storage Reserve facility located in Cameron Parish, La. The 3 other sites are new: The Black Bayou salt dome in Cameron Parish, La.; the Vinton salt dome in Calcasieu Parish, La.; and the Big Hill salt dome in Jefferson County, Tex. One or a combination of these three sites may be developed. (ELR Order No. 71116.)

FEDERAL POWER COMMISSION

Contact: Dr. Jack M. Heinemann, Advisor on Environmental Quality, Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426 (202-275-4791).

Supplement

Alcan Pipeline Project, Alaska Natural Gas (S-1), Alaska, September 7: This supplement to the final EIS concerning the Alaska Natural Gas Transportation System has been prepared by the Staff of FPC pursuant to a directive by the Council on Environmental Quality and the White House Alaska Task Force. The directive results from the recent announcement of the National Energy Board of Canada that transport of Alaska natural gas through Canada to the lower 48 states should be along the route proposed by the Alcan Pipeline Company with a Taylor Highway-Klondike Highway realignment. This realignment would diverge from the proposed Alcan route at Tetlin Junction, Alaska. Impacts are discussed. (ELR Order No. 71110.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410 (202-755-6308.)

Draft

Jonathan New Community—Chaska, Minn., Carver County, Minn., September 8: The proposed Federal action is the approval by the Board of Directors of the New Community Development Corporation (NCDC) of a revised Development Plan for Jonathan New Community in Chaska, Minn. Under the terms of the original Project Agreement, the Developer initiated development of a new community in accordance with an approved Development Plan. However, as the result of severe financial difficulties brought about by changing market conditions, development of Jonathan has stalled. This EIS evaluates the potential impact of six alternative development plans, including the plan as originally approved in 1970, on the environment. (ELR Order No. 71112.)

Lonergan Lake Disposition, Douglas County, Nebr., September 6: Proposed is the disposition of a 658-acre tract of land commonly referred to as Lonergan Lake, located to the north of the city of Omaha in Douglas County, Nebr. HUD committed the tract for FHA mortgage insurance for a planned unit development in 1968. The mortgagee failed to meet his financial obligations and Title was conveyed to the Secretary of the Department of HUD on September 23, 1975. HUD proposes to sell the Lonergan Lake property in accordance with the provisions of the National Housing Act as amended and HUD Handbook 4315.1, Property Disposition, Multifamily. (ELR Order No. 71098.)

Final

Newington Forest Development, Fairfax County, Va., September 8: Proposed is the residential development of a 734-acre tract of land located in Fairfax County, Va., over a 6 to 7 year period. Development will include construction of 917 townhouses, 200 garden apartments, and 791 single family units. The site will be developed in four phases. A total of 170 acres will be conveyed to Fairfax County Park Authority, and 15.6 acres will be conveyed to the County for one and one-half elementary school sites. Comments made by: EPA, USDA, COE, DOT, and State and local agencies. (ELR Order No. 71111.)

Section 104(h)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

Draft

Bristol, Pa.—Golf Ranch/Centennial Industrial Park, Bucks County, Pa., September 6: Proposed is the Borough of Bristol's use of $428,000 from the 1975-76 and 1976-77 Community Development Block Grant Program for the acquisition of leasehold interests in the Borough-owned property generally known as the Golf Ranch. The intent is to terminate existing long term leases in order to make the land available for the proposed development of the site as an industrial park; the site is approximately 94 acres in size. Adverse effects include the acquisition of one business, the elimination of open space, increased air, water, and noise pollution, and an increase in the storm water runoff directed toward Otter Creek. (ELR Order No. 71095.)

Final

Wilkes-Barre, Pa.—Industrial Park Urban Renewal, Luzerne County, Pa., September 6: Proposed is the acquisition and redevelopment of 132 acres of land as an industrial park within a 250-acre urban renewal area in Wilkes-Barre, Pa. Plans call for demolition of 69 structures, rehabilitation of 106 buildings, acquisition and removal of obsolete and unused rail lines, and provision of a through line for the Conrail system on existing trackage. Adverse impacts include relocation of 44 commercial and industrial uses, 49 individuals and 8 families; excesses of design noise level standards, and increases in air pollution levels. Comments made by: EPA, DOC, DOI, and State and local agencies. (ELR Order No. 71093.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 4256, Interior Bldg., Department of the Interior, Washington, D.C. 20240 (202-343-3891).

BUREAU OF OUTDOOR RECREATION

Draft

Pine Creek State and National Scenic River, Lycoming and Tioga Counties, Pa., September 6: Proposed is a plan to include the 51.7 miles of Pine Creek between Ansonia and Torbert, Pa., in the National Wild and Scenic Rivers System, and be administered by the Commonwealth of Pennsylvania. The protection boundary would encompass the visual corridor and eight low-density recreation sites. Few adverse effects are anticipated, though some environmental damage to the terrain and vegetation may be expected as a result of visitor use. (ELR Order No. 71104.)

BONNEVILLE POWER ADMINISTRATION

Draft

BPA Fiscal Year 1979 Proposed Program, September 6: Proposed is the construction of fiscal year 1979 new facility additions and modifications to BPA's electric transmission system. Construction plans call for: Between 145 and 170 miles of new transmission line; three possible new substations and related structures, including power system control stations; possible equipment additions to 16 existing substations; maintenance of approximately 12,500 miles of existing transmission lines including tower structures, conductors, and access roads; and control of vegetation on approximately 19,080 acres of transmission line rights-of-way and 960 acres of substation property. Adverse effects include the removal of up to 20 acres of agricultural land. (ELR Order No. 71092.)

NATIONAL PARK SERVICE

Draft

Everglades National Park Master Plan, Dade County, Fla., September 6: Proposed is a master plan for Everglades National Park, Fla. The plan consists of proposals to establish developments, classify park lands, acquire exclusive jurisdiction over certain park lands, change visitor-use patterns, promote interpretive facilities and cooperative planning, continue the land acquisition program, and undertake studies of project feasibilities and methods of implementation. Adverse effects are confined to the land acquisition program, which entails economic loses in Dade County, and potential invasion of park lands by culturally undesirable plant species. (ELR Order No. 71103.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590 (202-426-4357).

FEDERAL HIGHWAY ADMINISTRATION

Draft

State Route 5 (U.S. 45), Henderson, Chester and McNairy Counties, Tenn., September 6: Proposed is the improvement of existing 2-lane State Route 5 (U.S. 45) to a 4-lane divided facility with no control of access, along with a proposed by-pass for the cities of Selmer and possibly Bethel Springs. The project would begin 1.55 miles north of the Mississippi state line and extend in a northerly direction to 0.70 mile south of Henderson. Adverse effects include the displacement of residences and businesses, air and noise pollution, and the loss of 69 to 162 acres of prime farm land. (Region 4.) (ELR Order No. 71096.)

State Highway 133, Hotchkiss to Paonia Dam, Delta and Gunnison Counties, Colo., September 6: The proposed project provides for the construction and/or improvement of approximately 26 miles of two-lane highway built to rural secondary standards. The project will improve State Highway 133 beginning about half a miles west of Hotchkiss and ending at the intersection of State Highway 133 and Kebler Pass Road about 26 miles to the east of Hotchkiss along the North Fork of the Gunnison River. Depending on the alternative selected, between 0 and 40 acres of orchard land will be removed and between 0 and 27 families will be displaced. (Region 8.) (ELR Order No. 71101.)

Kansas Highway 12, Johnson County, Johnson County, Kans., September 6: Proposed is the improvement of Kansas Highway 12 from the junction of Kansas Highways 7 and 10, approximately three miles north of the City of Olathe in Johnson County, Kans., east to approximately one-half mile west of Renner Road. The proposed project would provide a new, full access controlled, four-lane facility with interchanges at major crossroads and with seperations at railroad crossings and at roads of lesser importance. Adverse impacts include the acquisition of approximately 185 acres, the displacment of two families, increased noise and air pollution, and the loss of wooded areas and wildlife habitat. (Region 7.) (ELR Order No. 71105.)

State Route 15 (U.S. 64), Giles County, Tenn., September 6: Proposed is the construction of State Route 15 (U.S. 64), in Giles County, Tenn. The project begins at the junction of Industrial Park Road (Federal-Aid Secondary Route 6361) and State Route 15 west of Pulaski to Tarpley Cemetery east of Pulaski. State Route 15 is classified as a major arterial in Tennessee's "1990 Statewide Functional Highway Classification Plan." The project will utilize both four lane and two lane designs. Adverse impacts include the displacement of residences and businesses, increased air and noise pollution, and the siltation of streams during construction. (Region 4.) (ELR Order No. 71107.)

Final

Gould Street Connection, Bannock County, Idaho, September 6: Proposed is the upgrading of the intercity loop of U.S. 30 in Pocatello City. The improvement would include the intersection, approach sections and the Gould Street viaduct which crosses the Union Pacific Railroad Tracks. Adverse impacts include the removal of a maximum of four commercial structures, a maximum of six residential structures, and loss of shade trees. Comments made by: EPA, HUD, AHP, DOI, and State agencies. (ELR Order No. 71106.)

NICHOLAS C. YOST,
Acting General Counsel.

DEPARTMENT OF DEFENSE

Department of the Army

WINTER NAVIGATION BOARD ON GREAT LAKES-ST. LAWRENCE SEAWAY

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Winter Navigation Board to be held on 6 and 7 October 1977 in the 31st Floor Auditorium of the Anthony J. Celebreeze Federal Building at 1240 East 9th Street in Cleveland, Ohio. The meeting will be in session from 1 p.m. until approximately 3:30 p.m. on the 6th and from 9 a.m. until approximately 11:45 a.m. on the 7th. A public information meeting will be held in the same room on the 6th, starting at 7:30 p.m.

The Winter Navigation Board is a multi-agency organization which includes representatives of Federal agencies and non-Federal public and private interests. It was established to direct the Great Lakes-St. Lawrence Seaway navigation season extension investigations being conducted pursuant to Public Laws 91-611, 93-251, and 94-587.

This Winter Navigation Board meeting is one of a continuing series of such open forums, as an integral element of the planning process in preparation of a Feasibility Report on year-round navigation on the Great Lakes-St. Lawrence Seaway Navigation Season Extension studies. Primary subjects to be discussed include an overview of considered winter navigation system proposals, system economic analyses, and system-wide environmental plan of study. Other topics to be discussed include a detailed review of the FY-78 winter navigation program, public information program, and social well being and impacts.

The meeting will be open to the public, subject to the following limitations:

(a) As the seating capacity of the meeting room is limited, it is desired that advance notice of intent to attend be provided. This will assure adequate and appropriate arrangements for all attendants.

(b) Written statements, to be made part of the minutes, may be submitted prior to, or up to 10 days following, the meeting, but oral participation by the public is limited because of the time schedule.

Inquiries may be addressed to Mr. David Westheuser, U.S. Army Engineer District, Detroit, Corps of Engineers, P.O. Box 1027, Detroit, Mich. 48231, telephone 313-226-6770.

Dated: September 7, 1977.

By authority of the Secretary of the Army.

ROME D. SMYTH,
Colonel, United States Army Director, Administrative Management TAGCEN.

[FR Doc.77-26980 Filed 9-15-77;8:45 am]

CHEMICAL PROPULSION ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following meeting:

Name: Working Group on Structures and Mechanical Behavior, Workshop on Nozzle Materials and Material Characterization (a subelement of the Chemical Propulsion Advisory Committee).

Date: October 4-6, 1977.

Place: Naval Postgraduate School, Monterey, Calif.

Time: 8:30 a.m. to 4:30 p.m., all three days.

Proposed agenda: 1 hour, background and introductions; 10 hours, technical presentations on design analysis, and mechanical properties; 5 hours, questions and discussion; 5 hours, conclusions and recommendations.

Purpose of the meeting: The purpose of the Chemical Propulsion Advisory Committee is to provide technical advice to and via the Joint Army-Navy-NASA-Air Force (JANNAF) Interagency Propulsion Committee and to promote the exchange of technical information in the field of chemical rocket propulsion. The scope of this working group includes the experimental measurement and theoretical prediction of the effects of the mission environment on rocket components, and assessing and improving the accuracy of this information. This Workshop will examine the analyses that influence rocket nozzle design, the material response properties needed for design, the ability to measure these properties, and will quantify tradeoffs in system performance caused by inaccuracies or inabilities in analysis and measurement.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Working Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

For further information, contact the Chemical Propulsion Information Agency, ATTN: Mr. Ronald D. Brown, Johns Hopkins University, Applied Physics Laboratory, Johns Hopkins Road, Laurel, Md. 20810. Telephone: 301-953-7100, extension 7888.

Dated: September 8, 1977.

By authority of the Secretary of the Army:

ROME D. SMYTH,
Colonel, United States Army, Director, Administrative Management TAGCEN.

CHEMICAL PROPULSION ADVISORY COMMITTEE

Meeting

In accordance with section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following meeting:

Name: Working Group on Structures and Mechanical Behavior, Workshop on Stress Gage Interpretation (a sub element of the Chemical Propulsion Advisory Committee).
Date: October 19-20, 1977.
Place: United Technologies Chemical Systems Division, 1050 East Arques Avenue, Sunnyvale, Calif.
Time: 8:30 a.m. to 4:30 p.m., both days.
Proposed agenda: 1 hour, background and introduction; 3 hours, technical presentations; 6 hours, specific discussion questions; 4 hours, conclusions and recommendations.
Purpose of the meeting: The purpose of the Chemical Propulsion Advisory Committee is to provide technical advice to and via the Joint Army-Navy-NASA-Air Force (JANNAF) Interagency Propulsion Committee and to promote the exchange of technical information in the field of chemical rocket propulsion. The scope of this working group includes the experimental measurement of stresses and strains in rocket components, and assessing and improving the accuracy of those measurements. This workshop will address the techniques presently available for rocket motor stress gage calibration and application, and identify specific areas where additional analyses and/or tests are required to verify these techniques.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Working Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

For further information, contact the Chemical Propulsion Information Agency, ATTN: Mr. Ronald D. Brown, Johns Hopkins University, Applied Physics Laboratory, Johns Hopkins Road, Laurel, Md. 20810. Telephone: 301-953-7100, extension 7888.

Dated: September 8, 1977.

By authority of the Secretary of the Army.

ROME D. SMYTH,
Colonel, United States Army Director, Administrative Management TAGCEN.

[FR Doc.77-26979 Filed 9-15-77;8:45 am]

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

GEOPRESSURED GEOTHERMAL INDUSTRIAL WORKSHOP

Public Meeting

The U.S. Energy Research and Development Administration has awarded a contract to CK GeoEnergy Corp. of Las Vegas, Nev. to conduct a series of workshops to integrate the expertise of the oil industry and other interested industrial participants into ERDA's Geopressured Geothermal Resource Development Program. The program will run for five months, beginning in September 1977, and terminating in January 1978.

The first meeting will be held on September 28th and 29th at the Adolphus Hotel, 1321 Commerce Street, Dallas, Tex., 214-747-6411. Meeting room numbers will be posted in the hotel lobby. This meeting will be open to invitees, and to the general public on a space available basis. The workshop will be organized into several groups: An Executive Working Group; a Site Review Working Subgroup, a Drilling and Testing Working Subgroup, and an Environmental Working Subgroup.

The tentative agenda for the meeting is as follows:

SEPTEMBER 28, 1977

9 a.m. Introduction: Discussion of Purpose, Schedule, Introduction of Attendees, H. F. Coffer.
9:15 a.m. ERDA Geothermal Overview: What ERDA is Doing in Research, Louis Werner.
9:45 a.m. ERDA Geopressured Geothermal Research, Keith Westhusing.
10:15 a.m. Break.
10:30 Status of Geopressured Geothermal Research at the University of Texas, Myron Dorfman.
12 noon Lunch.
1:15 p.m. Site Selection for first Geopressured Geothermal Test Well: Methods Used to Outline areas of Interest, D. G. Debout.
2:45 p.m. Break.
3 p.m. Review of Chocolate Bayou: Logs, Cores and Production, Don Smith.
4 p.m. Organization of Subgroups: H. F. Coffer, Overview Working Group, Site Selection Working Subgroup, Drilling and Testing Working Subgroup, Environmental Working Subgroup.
5 p.m. Adjourn.

SEPTEMBER 29, 1977

The organized subgroups will meet to discuss specific topics (Agenda and room numbers will be announced).

Practical considerations may dictate alterations to the above agenda. This will be a working meeting and the Workshop Chairman and Subgroups Chairmen are empowered to conduct the general sessions and subgroup meetings in a manner that in their judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above, the following requirements shall apply.

(a) Persons wishing to submit written statements on agenda items may do so by mailing 12 copies thereof, postmarked no later than September 20, 1977, to the Director, Division of Geothermal Energy, U.S. Energy Research and Development Administration, 20 Massachusetts Avenue NW., Washington, D.C. 20545. Comments shall be directly relevant to the above agenda items.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on September 20, 1977, to Ms. Betty Kitterman on 202-376-4581 between 8:30 a.m. and 5 p.m. (EDT).

(c) Questions at the general session and subgroup meetings may be raised by the public only when recognized to do so by the General Session Chairman or Subgroup Chairmen.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the workshop, will be permitted before and after each day's activities and during any recess. The use of such equipment will not, however, be allowed during the general sessions or subgroup meetings.

(f) Copies of the final report prepared by CK GeoEnergy Corp. will be available at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue NW., Washington, D.C. 20545, upon payment of all charges required by law.

Dated at Washington, D.C., this 12th day of September 1977.

DONALD A. BEATTIE,
Executive Officer, Solar, Geothermal and Advanced Energy Systems.

[FR Doc.77-27005 Filed 9-15-77;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[FRL 793-2]

AMBIENT AIR MONITORING REFERENCE METHOD DESIGNATION

CSI Model 1600 NO_x Analyzer

Notice is hereby given that the EPA, in accordance with 40 CFR Part 53 (40 FR 7044, February 18, 1975), has designated another reference method for the measurement of ambient concentrations of nitrogen dioxide. The new reference method is an automated method (analyzer) which utilizes the measurement principle (gas phase chemiluminescence) and calibration procedure specified in Appendix F of 40 CFR Part 50, as amended on December 1, 1976 (41 FR 52688). The method is:

RFNA-0977-025, "CSI Model 1600 Oxides of Nitrogen Analyzer," operated on a 0-0.5 ppm range with a Teflon sample filter (CSI P/N M951-8023) installed on the sample inlet line, with or without any of the following options:

951-3053	Rack Mounting Kit
951-3054	Chassis Slide Kit
951-3066	Tilt Stand
951-8032	Local—Remote Ambient, Zero, Span Kit

A notice of receipt of application for this method appeared in the FEDERAL REGISTER, Volume 42, July 12, 1977, page 35879. The method is available from Columbia Scientific Industries, 11950 Jollyville Road, P.O. Box 9908, Austin, Tex. 78766.

A test analyzer representative of this method has been tested by its manufacturer, in accordance with the test procedures specified in 40 CFR Part 53 as amended on December 1, 1976 (41 FR 52694). After reviewing the results of these tests and other information submitted by the applicant, EPA has determined, in accordance with Part 53, that this method should be designated as a reference method. The information submitted by the applicant will be kept on file at the address shown below and will be available for inspection to the extent consistent with 40 CFR Part 2 (EPA's regulations implementing the Freedom of Information Act).

As a reference method, this method is acceptable for use by States and other control agencies for purposes of section 51.17(a) of 40 CFR Part 51 ("Requirements for Preparation, Adoption, and Submittal of Implementation Plans") as amended on February 18, 1975 (40 FR 7042). For such use, the method must be used in strict accordance with the operation or instruction manual provided with the method and subject to any limitations (e.g., operating range) specified in the applicable designation (see description of the method above). Vendor modifications of a designated method used for purposes of § 51.17(a) are permitted only with prior approval of EPA, as provided in Part 53. Provisions concerning modification of such methods by users were promulgated on March 17, 1976 (41 FR 11255).

In general, the designation applies to any analyzer which is identical to the analyzer described in the designation. In many cases, similar analyzers manufactured prior to the designation may be upgraded (e.g., by minor modification or by substitution of a new operation or instruction manual) so as to be identical to the designated method and thus achieve designated status at modest cost. The manufacturer should be consulted to determine the feasibility of such upgrading.

Part 53 requires that sellers of designated methods comply with certain conditions. These conditions are given in 40 CFR 53.9 and are summarized below:

(1) A copy of the approved operation or instruction manual must accompany the analyzer when it is delivered to the ultimate purchaser.

(2) The analyzer must not generate any unreasonable hazard to operators or to the environment.

(3) The analyzer must function within the limits of the performance specifications given in Table B-1 of Part 53 for at least 1 year after delivery when maintained and operated in accordance with the operation manual.

(4) Any analyzer offered for sale as a reference or equivalent method must bear a label or sticker indicating that it has been designated as a reference or equivalent method in accordance with Part 53.

(5) If such an analyzer has one or more selectable ranges, the label or sticker must be placed in close proximity to the range selector and indicate which range or ranges have been designated as reference or equivalent methods.

(6) An applicant who offers analyzers for sale as reference or equivalent methods is required to maintain a list of ultimate purchasers of such analyzers and to notify them within 30 days if a reference or equivalent method designation applicable to the analyzer has been cancelled or if adjustment of the analyzers is necessary under 40 CFR 53.11(b) to avoid a cancellation.

(7) An applicant who modifies an analyzer previously designated as a reference or equivalent method is not permitted to sell the analyzer (as modified) as a reference or equivalent method (although he may choose to sell it without such representations), nor to attach a label or sticker to the analyzer (as modified) under the provisions described above, until he has received notice under 40 CFR 53.14(c) that the original designation or a new designation applies to the method as modified or until he has applied for and received notice of a new reference or equivalent method determination for the analyzer as modified.

Aside from occasional breakdowns or malfunctions, consistent or repeated non-compliance with any of these conditions should be reported to: Director, Environmental Monitoring and Support Laboratory, Department E (MD-76), U.S. Environmental Protection Agency, Research Triangle Park, N.C. 27711.

Designation of this reference method will provide assistance to the States in establishing and operating their air quality surveillance systems under 40 CFR 51.17(a). Additional information concerning this action may be obtained by writing to the address given above.

TOM MURPHY,
Acting Assistant Administrator for Research and Development.

SEPTEMBER 13, 1977.

[FR Doc.77-27059 Filed 9-15-77;8:45 am]

[FRL 793-1]

AMBIENT AIR MONITORING REFERENCE METHOD AMENDMENT

Monitor Labs Model 8440E NO_x Analyzer

At the request of the manufacturer, reference method RFNA-0677-021 (Monitor Labs Model 8440R Nitrogen Oxides Analyzer) is hereby amended by changing the model number from "8440R" to "8440E." Further information concerning this reference method may be obtained by referring to the original notice of designation published in the FEDERAL REGISTER on July 21, 1977 (Vol. 42, page 37434).

TOM MURPHY,
Acting Assistant Administrator for Research and Development.

SEPTEMBER 13, 1977.

[FR Doc.77-27061 Filed 9-15-77;8:45 am]

[FRL 792-8]

AMBIENT AIR MONITORING REFERENCE AND EQUIVALENT METHODS

Receipt of Application for Reference or Equivalent Method Determination

Notice is hereby given that on August 29, 1977, the Environmental Protection Agency received an application from Thermo Electron Corp., Waltham, Mass., to determine if its Model 14 D/E Chemiluminescent $NO/NO_x/NO_2$ Analyzer should be designated by the Administrator of the EPA as a reference or equivalent method under 40 CFR Part 53, promulgated February 18, 1975 (40 FR 7044). If, after appropriate technical study, the Administrator determines that this method should be so designated, notice thereof will be given in a subsequent issue of the FEDERAL REGISTER.

TOM MURPHY,
Acting Assistant Administrator for Research and Development.

[FR Doc.77-27060 Filed 9-15-77;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 21380; 21381; 21382]

ROBERT P. MILBERT

Amateur Radio Station WAOFQF; Order Designating Application for Hearing on Stated Issues

Adopted: September 2, 1977.

Released: September 13, 1977.

In the matter of Robert P. Milbert, 808 22nd Avenue, North, South St. Paul, Minn. 55075; order to show cause why the license for radio station WAOFQF in the Amateur Radio Service should not be revoked, and suspension of Amateur Extra Class Radio Operator License WAOFQF, and application for modification of Amateur Radio Station License WAOFQF.

The Chief, Safety and Special Radio Services Bureau, has under consideration the revocation of the license for Amateur radio station WAOFQF, licensed to Robert P. Milbert, as well as the suspension of his Amateur Extra Class radio operator license. Also under consideration is Milbert's application for modification of the license for Amateur radio station WAOFQF.

Robert P. Milbert is the licensee of Extra Class Amateur radio station WAOFQF, granted on December 27, 1976, for a five-year term, and prior to being granted an Extra Class license, Milbert held an Advanced Class license, which was granted on July 9, 1976.

On April 22, 1976, the Commission released First Report and Order in Docket 20092, in which Part 97 of the Commission's Rules regarding the Amateur Radio Service was amended to permit issuance of specific two letter call signs to Amateur Extra Class licensees. The issuance of such call signs was based on the length of time the applicant held an Extra Class license. Beginning January 1, 1977, specific two letter call signs were issued upon request to Extra Class licensees who had held Extra Class license prior to July 2, 1974.

It appears, That on March 20, 1977, Milbert filed the captioned application for a special two letter call sign and in the application and on a document at-

V 42 I 180
SEP 16 77
UMI

tached thereto, falsely represented that he had been an Extra Class licensee since at least the winter of 1971. The Commission's records indicate that Milbert held a General Class license until July 9, 1976, when he became an Advanced Class licensee.

It further appears, That Milbert made the false representations to the Commission in order to obtain a special two letter call sign for which he was ineligible under the Commission's Rules.

It further appears, That Milbert's conduct, described herein, in contrary to the public interest, convenience and necessity standards provided for in section 307(a) of the Communications Act of 1934, as amended, and raises substantial questions regarding his qualifications to remain a licensee of the Commission.

It further appears, That, in view of the above, the Commission would be warranted in refusing to grant an application filed by the licensee if his original application were now before it.

Accordingly, it is ordered, Pursuant to section 312 (a)(2) and (c) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's Rules, That Milbert show cause why the license for the captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place before an Administrative Law Judge, to be specified by a subsequent order. (See Enclosure 1.) [1]

It is further ordered, under authority contained in section 303(m)(1)(A) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's Rules, That the Extra Class Amateur Operator license of Robert P. Milbert is suspended for the remainder of the license term; and,

It is further ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, and section 1.973(b) and 0.331 of the Commission's Rules, that Milbert's application for modification of Amateur radio station license WAOFQF is designated for hearing, at a time and place to be specified by subsequent Order upon the following issues:

(1) To determine the facts and circumstances surrounding the filing of the application for modification of Amateur radio station license WAOFQF by Robert P. Milbert, dated March 20, 1977.

(2) To determine, in light of the evidence adduced pursuant to issue (1), whether Milbert made misrepresentations or less than candid representations to the Commission.

(3) To determine, in light of the facts adduced under issues (1) and (2) whether Milbert possesses the requisite qualifications to be a licensee of the Commission.

(4) To determine, in light of the foregoing issues, whether the public interest, convenience and necessity would be served by a grant of the application for modification of Amateur radio station license WAOFQF.

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof for revocation of station license (Docket No. 21380) and suspension of operator license (Docket No. 21381) is on the Bureau, pursuant to section 312(d) of the Communications Act of 1934, as amended; and the burden of introduction of evidence and the burden of proof for grant of the application (Docket No. 21382) is on the respondent, pursuant to section 309(e) of the Act.

It is further ordered, That, § 1.85 of the Commission's rules, which requires that persons whose operator licenses are suspended must, in order to have a hearing on the matter, file an application for a hearing within fifteen days, is waived; and

It is further ordered, That, § 1.221(c) of the Commission's rules, which requires that applicants whose applications are designated for hearing file a notice of appearance within 20 days in order to have a hearing on the issues, is waived; and

It is further ordered, That, in order to obtain a hearing on the suspension matter, Milbert shall, within 30 days after receipt of the suspension order, make a written request for a hearing whereupon the suspension will be held in abeyance until the conclusion of the proceedings on the suspension; that if Milbert elects not to make such a request, he shall mail his Amateur Radio Operator license to the Commission in Washington, D.C., before the expiration of thirty days. (See Enclosure 2.) [1]

It is further ordered, That, in order to obtain a hearing on his application, Milbert, in person or by attorney, shall within thirty days of the mailing of this order, file with the Commission in triplicate a written appearance stating an intent to appear on a date fixed for hearing to present evidence on the issues specified in the foregoing paragraph. Failure to file a written appearance within the time specified will result in the dismissal of the application with prejudice (See Enclosure 3.) [1]

It is further ordered, pursuant to the provisions of § 1.227 of the Commission's rules, that the proceedings on the above-stated issues regarding the order to Show Cause, the Suspension and the Application are consolidated for hearing.

It is further ordered, That a copy of this order shall be sent by Certified Mail—Return Receipt Requested and by Regular Mail to the licensee at his address of record as shown in the caption.

Chief, Safety and Special Radio Services Bureau.

MICHAEL T. N. FITCH,
Acting Chief, Legal, Advisory and Enforcement Division.

[1] The Enclosures are filed as part of the original document.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 70, "Minimum Performance Standards (MPS)—Marine Loran-C Receiving Equipment," Technical Specs Working Group.

Notice of 8th Meeting.

Thursday, October 6, 1977—10 a.m. (All-day meeting.) Full-day Meeting October 5, 10 a.m. Same location as October 6 meeting.

Conference Room (Second floor), U.S. Coast Guard Marine Inspection Office, Battery Park Building, Battery Park at South Ferry, New York, N.Y.

AGENDA

1. Call to Order; Chairman's Report.
2. Confirmation of Secretary; Adoption of Agenda.
3. Acceptance of SC-70 Summary Records.
4. Reports on Work Assignments.
5. Approval of Receiver Specifications.
6. Other Business.
7. Establishment of possible meeting date.

Captain Alfred E. Flore, Chairman, SC-70, U.S. Merchant Marine Academy, Kings Point, N.Y. 11024, phone 516-482-8200.

To comply with the advance notice requirements of Pub. L. 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meeting. Consequently, there is no absolutely certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend the meeting should report to the room listed in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for the meetings is available at that meeting. Those desiring more specific information may contact either the designated Chairman of the RTCM Secretariat. Phone 202-632-6490.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final report is approved by the RTCM Executive Committee. All RTCM meetings are open to the public. Written statements are preferred but by previous arrangement, oral presentations will be permitted within time and space limitations.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.77-26989 Filed 9-15-77;8:45 am]

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH OFFICE OF EXCEPTIONS AND APPEALS

Week of August 12 Through August 19, 1977

Notice is hereby given that during the week of August 12 through August 19, 1977, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administrator's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be September 16, 1977, or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

ERIC J. FYGI,
Acting General Counsel.

SEPTEMBER 10, 1977.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, week of Aug. 12 through Aug. 19, 1977*

Date	Name and location of applicant	Case No.	Type of submission
Aug. 12, 1977.	Allied Chemical Corp., Houston, Tex. (If granted: The Allied Chemical Corp. would receive an extension of the exception relief granted in the FEA's Feb. 18, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Beneduum, Sligon, and Walnut Bend plants.)	FXE-4504—FXE-4506	Extension of relief granted in *Allied Chemical Corp.*, case Nos. FEE-3550, FEE-3553, FEE-3554 (decided Feb. 18, 1977) (unreported decision).
Do.....	Cabot Corp., Houston, Tex. (If granted: The Cabot Corp. would receive an extension of the exception relief granted in the FEA's Apr. 19, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Beaver, Estes, North Terrebonne, and Prentice plants.)	FXE-4507—FXE-4510	Extension of relief granted in *Cabot Corp.*, case Nos. FEE-3926 through FEE-3930 (decided Apr. 19, 1977) (unreported decision).
Do.....	Mustang Gas Products Co., Oklahoma City, Okla. (If granted: The Mustang Gas Products Co. would receive an extension of the exception relief granted in the FEA's July 15, 1977, decision and order which would permit it to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005/gal.)	FXE-4511	Extension of relief granted in *Mustang Fuel Corp.*, case No. 3971 (decided July 15, 1977) (unreported decision).
Do.....	V-1 Oil Co., Idaho Falls, Idaho. (If granted: The FEA region X's July 25, 1977, decision and order would be rescinded and the V-1 Oil Co. would not be required to comply with a special report order issued to the firm by region X on May 3, 1977.)	FSG-0053 FES-0006	Request for special redress. Stay requested.
Aug. 15, 1977	Aminoil USA, Inc., Houston, Tex. (If granted: Aminoil USA, Inc., would receive an extension of the exception relief granted in the FEA's Mar. 22, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Aline, Fox, Huntington Beach, Inglewood, Taloga, and Tioga plants.)	FXI-4515—FXE-4520	Extension of relief granted in *Aminoil USA, Inc.*, case Nos. FXE-3933 through FXE-3938 (decided Mar. 22, 1977) (unreported decision).
Do.....	Enkay Corp. (east Texas), Shreveport, La. (If granted: The Enkay Corp. would receive an extension of the exception relief granted in the FEA's June 8, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the east Texas plant.)	FXE-4521	Extension of relief granted in *Enkay Corp.*, case No. FEE-4038 (decided June 8, 1977) (unreported decision).
Do.....	Hunt Industries (Zoller), Dallas, Tex. (If granted: Hunt Industries would receive an extension of the exception relief granted in the FEA's Apr. 29, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Zoller plant.)	FXE-4512	Extension of relief granted in *Hunt Industries*, case No. FEE-3939 (decided Apr. 29, 1977) (unreported decision).
Do.....	Keener Oil Co., Tulsa, Okla. (If granted: Crude oil produced from Keener Oil Co.'s Lizzie-Orwig well No. 1 located in Seminole County, Okla., would be sold at upper tier ceiling prices.)	FEE-4513	Price exception (sec. 212.-73).
Do.....	Kennecott Copper Corp., Salt Lake City, Utah. (If granted: The FEA's June 30, 1977, prohibition order order would be modified and the Kennecott Copper Corp. would be permitted to burn natural gas at its Utah powerplant for startup, testing, and emergencies in the powerplant's coal handling system.)	FMR-0120	Request for modification.
Do.....	Kerr-McGee Corp., Oklahoma City, Okla. (If granted: The Kerr-McGee Corp. would receive an extension of the exception relief granted in the FEA's Feb. 22, and Mar. 11, 1977, decisions and orders which would permit the firm to increase its prices to reflect nonprodnct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Beaver, Beaver Creek, Maysville, and Pampa plants.)	FXE-4522—FXE-4526	Extension of relief granted in *Kerr-McGee Corp.*, case Nos. FEE-3624 through FEE-3628 (decided Feb. 22, 1977) (unreported decision); *Kerr-McGee Corp.*, case No. FEE-3896 (decided Mar. 11, 1977) (unreported decision).
Do.....	Laketon Asphalt Refining, Inc., Evansville, Ind. (If granted: The FEA's July 20, 1977, decision and order would be modified and Laketon Asphalt Refining, Inc., would receive retroactive exception relief which would relieve the firm of its entitlement purchase obligations for the months of April and May 1976.)	FXA-1432	Appeal of decision and order in *Laketon Asphalt Refining, Inc.*, 6 FEA par..... (July 20, 1977).
Do.....	Mapco, Inc. (Altonah, Tyrone); Tulsa, Okla. (If granted: Mapco, Inc., would receive an extension of the exception relief granted in the FEA's Mar. 22, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Altonah and Tyrone plants.)	FXE-4527 FXE-4528	Extension of relief granted in *Mapco, Inc.*, case Nos. FXE-3710 and FXE-3711 (decided Mar. 22, 1977) (unreported decision).

V 42 180 SEP 16 77 UMI

Date	Name and location of applicant	Case No.	Type of submission
Do.....	McCulloch Gas Processing Corp., Washington, D.C. (If granted: The McCulloch Gas Processing Corp. would receive an extension of the exception relief granted in the FEA's Mar. 18, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Helle Fourche, (Gillette, and Oedekoven plants.)	FXE-4529—FXE-4531	Extension of relief granted in *McCulloch Gas Processing Corp.*, case Nos. FXE-3650, FXE-3642, FXE-3654 (decided Mar. 18, 1977) (unreported decision).
Do.....	Phillips Petroleum Co., Bartlesville, Okla. (If granted: The Phillips Petroleum Co. would receive an extension of the exception relief granted in the FEA's Feb. 18, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the following plants: Andrews, Benedum, Bradley, Canadian, Crane, Douglas, Dumas, Gray, Henderson, Hobbs, Lee, Lovington, North, Oklahoma, Spraberry, Tunstill, and Vermillion.)	FXE-4532—FXE-4548	Extension of relief granted in *Phillips Petroleum Co.*, case Nos. FEE-3479 through FEE-3502 (decided Feb. 18, 1977) (unreported decision).
Do.....	Poluris Production Corp., Midland, Tex. (If granted: The FEA's May 16, 1977, decision and order would be modified and crude oil produced from the Lea Carter lease located in Lea County, N. Mex., would be sold at upper tier ceiling prices.)	FMR-0119	Request for modification of decision and order in *Pierce and Dehlinger*, 5 FEA par. 83,160 (May 16, 1977).
Do.....	Standard Oil Co. (Indiana), Chicago, Ill. (If granted: The Standard Oil Co. (Indiana), would receive an extension of the exception relief granted in the FEA's Mar. 4, and Mar. 31, 1977, decisions and orders which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Edgewood, Indian Basin, Levelland, Luby, North Cowden, and Old Ocean plants.)	FXE-4549—FXE-4554	Extension of relief granted in *Standard Oil Co. (Indiana)*, case Nos. FXE-3813 through FXE-3818 (decided Mar. 31, 1977) (unreported decision); *Standard Oil Co. (Indiana)*, case No. FXE-3660 (decided Mar. 4, 1977) (unreported decision).
Do.....	Texaco, Inc., Houston, Tex. (If granted: Crude oil produced from Texaco, Inc.'s, Sandusky (Oil Creek Sand) unit located in Grayson County, Tex., would be sold at upper tier ceiling prices.)	FEE-4514	Price exception (sec. 212.-73).
Aug. 16, 1977	Cities Service Co., Tulsa, Okla. (If granted: The Cities Service Co. would receive an extension of the exception relief granted in the FEA's Apr. 1, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Bryans Mill, Chico, Conwley, Dollarhide, East Texas, Lajeyrouse, Lefors, and Maysville plants.)	FXE-4557—FXE-4564	Extension of relief granted in *Cities Service Co.*, case Nos. FXE-3838 through FXE-3845 (decided Apr. 1, 1977) (unreported decision).
Do.....	Doss, Inc., Eupora, Miss. (If granted: The FEA's July 15, 1977, decision and order would be rescinded and Doss, Inc., would be permitted to retroactively regard approximately 3,100,000 gal. of propane stored in a salt dome storage facility of the Warren Petroleum Co. as a separate inventory for the purpose of calculating the firm's maximum allowable selling prices for propane under the FEA price regulations.)	FXA-1431	Appeal of decision and order in *Doss, Inc.*, 6 FEA par. ..... (July 15, 1977).
Do.....	Great Southern Oil & Gas Co. Lafayette, La. (If granted: The FEA's Aug. 11, 1977, decision and order would be modified to change the effective date of the relief granted from Aug. 11, to Sept. 1, 1977.)	FEX-0182	Supplemental order to decision and order in *Great Southern Oil & Gas Co.*, 6 FEA par. ..... (Aug. 11, 1977).
Do.....	Texaco, Inc., Houston, Tex., (If granted: Texaco, Inc., would receive an extension of the exception relief granted in the FEA's Mar. 31, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Garvin County, Handy, Kettleman Hills, Luby, New Hope, Roosa S. Campana, Shiells Canyon South Kermit, Tijerina, and Van plants.)	FXE-4565—FXE-4574	Extension of relief granted in *Texaco, Inc.*, case Nos. FXE-3824 through FXE-3836 (decided Mar. 31, 1977) (unreported decision).
Do.....	Leo G. Wetherill, Jr., Kansas City, Mo. (If granted: Leo G. Wetherill, Jr., would be granted a stay of the FEA region VIII's Aug. 5, 1977, remedial order and would not be required to make interest payments to the Koch Oil Co. for overcharges made on sales of crude oil pending a final determination of an appeal of that order which he intends to file.)	FRS-1433	Stay request.
Do.....	Ward S. Merrick, Ardmore, Okla. (If granted: Crude oil produced from the Hattie Brown lease located in Carter County, Okla., would be sold at upper tier ceiling price.)	FEE-4555	Price exception (sec. 212.-73).
Do.....	Domingo Saena, Jr., Tivolli, Tex. (If granted: Domingo Saenz, Jr., would be assigned a new, lower priced supplier of motor gasoline to replace his present base period supplier, Mobil Oil Corp.)	FEE-4556	Exception to change supplier (sec. 211.9).
Do.....	Reinauer Petroleum Co., Hackensack, N.J. (If granted: The Reinauer Petroleum Co. would be permitted to import 18,000,000 gal of No. 2 heating oil on a license fee-free basis.)	FPI-0126	Exception from base fee requirements (sec. 213.-35).
Aug. 17, 1977	Arizona Fuels Corp., Salt Lake City, Utah. (If granted: The Arizona Fuels Corp., would receive a stay of its entitlement purchase obligations for the period May through October 1977 pending a final determination of its appeal of the FEA's July 12, 1977, decision and order which it intends to file.)	FES-0103	Stay request.
Do.....	Capitol Oil Co., Inc., Baltimore, Md. (If granted: The FEA's Mar. 22, 1977, decision and order would be modified and Capitol Oil Co., Inc., would not be required to make refunds to the U.S. Coast Guard for overcharges made on sales of heating oil.)	FMR-0121	Request for modification of decision and order in *Capitol Oil Co., Inc.* 5 FEA par. 80,580 (Mar. 22, 1977).

Date	Name and location of applicant	Case No:	Type of submission
Do.....	Capitol Oil Co., Inc., Baltimore, Md. (If granted: The Capitol Oil Co., Inc., would be granted a temporary stay of the provisions of the FEA's Mar. 22, 1977, decision and order and would not be required to make refunds to the U.S. Coast Guard for overcharges made on sales of heating oil pending a final determination on its application for stay of that order.)	FRS-0109 FRT-0048	Request for temporary stay. Stay requested.
Do.....	Cities Service Co., Tulsa, Okla. (If granted: The Cities Service Co. would receive an extension of the exception relief granted in the FEA's Apr. 1, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the North Cowden, Pampa, Price Hodiman, San Antonio Bay, Stonewall, Waco, and Wichita plants.)	FXE-4576—FXE-4583	Extension of relief granted in *Cities Service Co.*, case Nos. FXE-3848 through FXE-3856 (decided Apr. 1, 1977) (unreported decision).
Do.....	Continental Oil Co., Houston, Tex. (If granted: The Continental Oil Co. would receive an extension of the exception relief granted in the FEA's Mar. 31, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Emdond, Fruita, Gillis, Grand Chenier, Hennessey, Nuceses River, and Okeene plants.)	FEE-4584—FXE-4590	Price exception (sec. 212.165).
Do.....	Continental Oil Co., Houston, Tex. (If granted: The Continental Oil Co. would receive an extension of the exception relief granted in the FEA's Mar. 31, 1977, decision and order which would permit it to increase its prices to reflect nonproducts cost increased in excess of $0.005/gal for natural gas liquid products produced at the Acadia, Burnell, North Pattus, Hamlin, Maljamar, North Cowden, North Okarelie, Rincon, Sussex, West Seminole, and West World plants.)	FXE-4591 FXE-4600	Extension of relief granted in *Continental Oil Co.*, case Nos. FXE-3766 through FXE-3779 (decided Mar. 31, 1977) (unreported decision).
Do.....	Eason Oil Co., Oklahoma City Okla. (If granted: The Eason Oil Co. would receive an extension of the exception relief granted in the FEA's Mar. 30, 1977, decision and order which would permit Eason to sell the crude oil produced from the Weiner property located in Madison County, Miss., at upper tier ceiling prices.)	FXE-4575	Extension of relief granted in *Eason Oil Co.*, 5 FEA par. 83,116 (Mar. 30, 1977).
Do.....	Getty Oil Co., Los Angeles, Calif. (If granted: The Getty Oil Co. would receive an extension of the exception relief granted in the FEA's Mar. 18, and May 10, 1977, decisions and orders which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Bastian Bay, Houma, and Vermilion plants.)	FXE-4601—FXE-4503	Extension of relief granted in *Getty Oil Co.*, case Nos. FEE-3945, FEE-3949 (decided May 10, 1977) (unreported decision); *Getty Oil Co.*, case No.: FXE-3700 (decided Mar. 18, 1977) (unreported decision).
Do.....	Gulf Oil Corp., Tulsa, Okla. (If granted: The Gulf Oil Corp. would be permitted to increase it prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Delhi, Elmwood, Enville, Fashing, Johnsons Bayou, North Port Neches, Sea Robin, Venice, Waddell, and Worsham plants.)	FEE-V4612—FXE-4818 FXE-4639 FXE-4646	Price exception (sec. 212.165).
Do.....	Gulf Oil Corp., Tulsa, Okla. (If granted: The Gulf Oil Corp., would receive an extension of the exception relief granted in the FEA's Mar. 11, and Apr. 1, 1977, decisions and orders which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the following natural gas plants: Adena, Bluebell, Breckenridge, Camrick, Chesterville, Como, Encinal, Ennice, Fannett, Gladewater, Headlee, Kalkaska, Krotz Springs, Lake Washington, Maysville, Mermentau Monahans, Monument, Moores Orchard, Pledger, Saunders, Shackelford, South Fullerton, Spear, Vada, and Yates.)	FXE-4620—FXE-4638 FXE-4640—FXE-4645 FXE-4647	Extensions of relief granted in *Gulf Oil Corp.*, case Nos. FXE-3857 through FXE-3881 (decided Apr. 1, 1977) (unreported decision); *Gulf Oil Corp.*, case Nos. FEE-3863 through FEE-3865 (decided Mar. 11, 1977 (unreported decision).
Do.....	Marathon Oil Co., Findlay, Ohio. (If granted: The Marathon Oil Co. would receive an extension of the exception relief granted in the FEA's May 27, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Rock River, Welder, West Forelands, and West Sidney plants.)	FXE-4648—FXE-4651	Extension of relief granted in *Marathon Oil Co.*, case Nos. FEE-3959, FEE-3963 through FEE-3965 (decided May 27, 1977) (unreported decision).
Do.....	Northern Natural Gas Co., Omaha, Nebr. (If granted: The Northern Natural Gas Co. would receive an extension of the exception relief granted in the FEA's Mar. 22, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at 2 gas processing plants located in Martin County, Tex.)	FXE-4605	Extension of relief granted in *Northern Natural Gas Co.*, case No. FXE-3734 (decided Mar. 22, 1977) (unreported decision).
Do.....	Standard Oil Co. (Indiana), Chicago, Ill. (If granted: The Standard Oil Co. (Indiana), would receive an extension of the exception relief granted in the FEA's Mar. 4, and Mar. 31, 1977, decisions and orders which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products produced at the Burnell, South Gillock, South Manchester, South Pecan, and Thibodaux plants.)	FXE-4606—FXE-4610	Extension of relief granted in *Standard Oil Co. (Indiana)*, case Nos. FEE-3962, FEE-3963 (decided Mar. 4, 1977) (unreported decision); *Standard Oil Co. (Indiana)*, case Nos. FXE-3812, FXE-3821, FXE-3822 (decided Mar. 31, 1977) (unreported decision).
Do.....	Tonkawa Refining Co., Oklahoma City, Okla. (If granted: The Tonkawa Refining Co. would be granted retroactive exception relief which would permit the firm to sell refined products at prices in excess of the maximum allowable prices calculated pursuant to the FEA mandatory price regulations.)	FEE-4604	Price exception (secs. 212.82 and 212.83).

V 42 180 SEP 16 77 UMI

Date	Name and location of applicant	Case No.	Type of submission
Do.	Vallery Corp., Sterling, Colo. (If granted: The Vallery Corp. would receive an extension of the exception relief granted in the FEA's June 17, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of $0.005/gal for natural gas liquid products.)	FXE-4611	Extension of relief granted in *Vallery Corp.*, case No. FEE-4273 (decided June 17, 1977) (unreported decision).
Aug. 18, 1977	Pennsylvania Petroleum Co., Bridgeport, Conn. (If granted: The FEA's July 11, 1977, decision and order would be modified to grant the Pennsylvania Petroleum Corp. additional retroactive exception relief for the period Nov. 2, through Dec. 31, 1973, which would permit the firm to retain $9,119.15 in revenues which it obtained during that period from charging prices from motor gasoline which exceeded the maximum price levels permitted by the provisions of 6 CFR 150.350.)	FXA-1435	Appeal of decision and order in *Pennsylvania Petroleum Corp.*, 6 FEA par. ..... (July 11, 1977).
Aug. 19, 1977	Chevron U.S.A., Inc., Washington, D.C. (If granted: Chevron U.S.A., Inc., would receive an exception to 10 CFR 212.83(e)(2)(iii)(E) which would permit the firm to adjust its May 1973 nonproduct costs in the computation of its maximum allowable prices for covered products other than crude oil.)	FEE-4632	Price exception (sec. 212.83(e)(2)(iii)(E)).
Do.	T. Mayfield d.b.a. Mayfield Engineering, Tulsa, Okla. (If granted: The FEA's July 7, 1977, remedial order would be rescinded and T. Mayfield would not be required to refund overcharges made on sales of crude oil produced from the Harjo, Harlow, Smith B, and Barnsdall leases.)	FRA-1436	Appeal of FEA region VI's remedial order issued July 7, 1977.

CONSUMERS POWER CO.

Request for Interpretation

Notice is hereby given that the Federal Energy Administration is analyzing a request for interpretation, pursuant to 10 CFR Part 205, Subpart F, for Consumers Power Co. (Consumers). That requests for interpretation poses the issue of whether Consumers may participate in FEA's domestic crude oil allocation program (the "entitlements program"), 10 CFR 211.67, based on the fact that crude oil feedstocks are refined at the feedstock preparation unit of the Consumers synthetic natural gas (SNG) plant located in Marysville, Mich. A determination of eligibility could have a substantial impact on the entitlements program. Therefore, FEA wishes to solicit coments from any party who believes it may be affected by an FEA decision on this request for interpretation.

A brief summary of the Consumers' request for interpretation follows:

Consumers is a public utility regulated by the Michigan Public Utilities Commission which is engaged in the generation, purchase, distribution and sale of electricity. Conumers also purchases, produces, manufactures, stores, distributes and sells natural gas.

Consumers' SNG plant initially began commercial production in September 1973 and operated at full production in April 1974. Consumers submitted an application to FEA's Office of Regulatory Programs requesting inclusion in the entitlements program on February 24, 1976. The application was deemed to be a request for interpretation by FEA's Office of Exception and Appeals on February 2, 1977 (5 FEA ¶ 80,508).

The Consumers' SNG plant uses approximately 50,000 barrels per day of feedstock. A portion of the feedstocks are processed through a separate and identifiable feedstock preparation unit which was constructed by Consumers in conjunction with the construction of the SNG facility. This portion of the feedstock stream, which is approximately seventy (70) percent of the total, consists of plant condensates and lease condensates (pentanes and heavier hydrocarbons). Ninety-eight (98) percent of the plant condensates are imported from Canada pursuant to long-term contracts with Dome Petroleum Limited and Amoco Oil Co. The amounts of lease condensate included in the feedstock stream are purchased from a domestic corporation located in Michigan.

The products of the feedstock preparation unit are a commercial grade liquefied petroleum gas ("LPG") consisting of propane and butane, gasoline, and residual fuel oil. The products are used internally within the SNG plant as fuel and as feedstocks in the gasification units of the plant, and a portion of them is sold back to one of Consumers' feedstock suppliers.

Consumers has requested inclusion in the FEA entitlements program on the basis that the Marysville SNG plant qualifies as a "refinery" as that term is defined in 10 CFR 211.62.

Consumers contends that: (1) The Marysville SNG plant processes lease condensate (which is expressly included in the definition of crude oil contained in 10 CFR 211.51); and (2) although the product eventually produced at the Marysville SNG plant is synthetic natural gas, the feedstock preparation unit of the plant manufactures refined peroleum products. Therefore, reasons Consumers, the SNG plant qualifies as a "refinery" under FEA's Regulations. Since the plant is a "refinery", Consumers contends the firm is thus a "refiner" under the applicable regulations and eligible for inclusion in the entitlements program.

Copies of the documents submitted by Consumers in this matter are available for public review in the FEA Freedom of Information Reading Room, 2107, 12th and Pennsylvania Avenue NW., Washington, D.C.

Interested persons are invited to submit their views and comments concerning this matter to Executive Communications, Box PL, Room 3317, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. All submissions should be made in five copies and should be received no later than September 28, 1977. Comments should be identified on the outside envelope and on the document with the designation "Comments on Consumers Request for Interpretation."

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing in accordance with the procedures stated in 10 CFR 205.9(f). The FEA reserves the right to determine the confidential status of the information or data and to treat such information according to its determination.

It is suggested that those desiring additional information contact Ms. Kathleen C. Williams, Interpretations Division, Office of General Counsel, 12th and Pennsylvania Avenue NW., Room 7132, Washington, D.C. 20461 or call 202-566-2454.

Issued in Washington, D.C., September 12, 1977.

ERIC J. FYGI,
Acting General Counsel.

VOLUNTARY AGREEMENT AND PLAN OF ACTION TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

Meetings

In accordance with section 252(c)(1)(A)(1) of the Energy Policy and Conservation Act (Pub. L. 94-163), notice is hereby provided of meetings of Subcommittees A and C of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) to be held in New York during the period September 19-22, 1977.

The first meeting of Subcommittee A of the Industry Advisory Board will be held on September 19, 20, and 22, 1977, at the offices of the Exxon Corp., 1251 Avenue of the Americas, New York, N.Y., beginning at 9 a.m. on September 19. The agenda is as follows:

1. Opening remarks.
2. General discussion of the design of the Second IEA Allocation Systems Test (AST-2) proposed for Spring 1978 and review of first draft of AST-2 Test Guide.
3. Review critical path of actions required prior to AST-2.
4. Discussion of request by Secretariat that Subcommittee A consider developing a standardized set of crude yields and qualities for all crudes likely to be involved in the Test.
5. Next meeting date/location.

A second meeting of Subcommittee A will be held on September 21, 1977, at the offices of Exxon Corp., 1251 Avenue of the Americas, New York, N.Y., beginning at 9 a.m. The agenda is as follows:

1. Opening remarks.
2. Status report on planned October/November, 1977, Emergency Data Test, including feedback from Reporting Company meeting on September 8 and Secretariat meeting for participating countries on September 9.

3. Report of Design Group on status of Second IEA Allocation Systems Test (AST-2) and AST-2 Test Guide.
4. Discussion of request by Secretariat that Subcommittee A consider developing a standardized set of crude yields and qualities for all crudes likely to be involved in the Test.
5. Review critical path of actions required prior to AST-2.
6. Discussion of progress report by Chairman of the Standing Group on Emergency Questions (SEQ) working group on demand restraint.
7. Review IEA Secretariat proposed revisions to Emergency Management Manual.
8. Report by Secretariat on status of Industry Supply Advisory Group (ISAG) data formats.
9. Future work program.
10. Next meeting date and location.

A meeting of Subcommittee C of the Industry Advisory Board will be held on September 20, 1977, at the offices of Mobil Oil Corp., 150 East 42d Street, New York, N.Y., beginning at 1:30 p.m.

The agenda for the meeting is as follows:

1. Opening remarks by Chairman including report on July 12 SEQ meeting as it relates to work of Subcommittee C.
2. Pricing in an emergency.
3. Extraordinary costs.
4. Settlement of disputes.
5. Future work of Subcommittee C.

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, these meetings will not be open to the public. Unanticipated circumstances have required the notice period as contained in section 209.32(b) of FEA regulations to be shortened.

Issued in Washington, D.C., September 12, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

FEDERAL MARITIME COMMISSION

PACIFIC COAST AUSTRALASIAN TARIFF BUREAU

Petition Filed

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 813a).

Interested parties may inspect a copy of the proposed contract form and of the petition at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126 or at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments with reference to the proposed contract form and the petition including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, on or before October 6, 1977. Any person desiring a hearing on the proposed contract system shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the proposed contract form and the petition (as indicated hereinafter), and the statement should indicate that this has been done.

Notice of Agreement filed by:

A. H. Eber, Secretary, Pacific Coast Australasian Tariff Bureau, 635 Sacramento Street, San Francisco, Calif. 94111.

Agreement No. 50DR-4 has been filed with the Commission for approval under section 14b of the Shipping Act, 1916, by the member lines of the Pacific Coast Australasian Tariff Bureau (PCATB). The purpose of the amendment is to change the application of PCATB's Tariff FMC 9, Item 1, Mixed Commodities, from a tariff rate to a contract/non contract rate, thereby including Item 1 within the scope of the conference's dual rate contract system.

Dated: September 13, 1977.

By order of the Federal Maritime Commission.

JOSEPH C. POLKING,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. CI76-1498, et al.]

APPLICATIONS FOR CERTIFICATES, ABANDONMENT OF SERVICE, AND PETITIONS TO AMEND CERTIFICATES[1]

SEPTEMBER 8, 1977.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

V 42 180 SEP 16 77 UMI

the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] Depleted.
[2] By Oil and Gas Lease dated Jan. 28, 1977, Mobil leased to Ferguson Oil and Gas Compnay, Inc. certain acreage on which they drilled the Ferguson-Cadwell No. 1 and completed it as a gas well on Feb. 7, 1977. The acreage leased is a limited commitment from the surface of the ground down to the stratigraphic equivalent of 200 ft below the top of the Chester Formation.
[3] Applicant proposes to collect the applicable national rate as prescribed in Opinion No. 770-A, subject to conditions contained herein.
[4] Facilities for which a certificate of public convenience and necessity is required is Applicant's 3.125 pct and Pioneer Production Corporation's 1.5625 pct. interest in the Jarvis Unit, and Applicant's 10 pct. interest in the Brown "A", all in Hemphill County, Texas. The remaining interests in both are owned by a small producer, and no filing is necessary for that interest.
[5] Applicant makes this filing to obtain authority to continue the sales formerly covered by the Graham-Michaelis Drilling Company under its FPC Gas Rate Schedule No. 29, in Docket No. CS71-178.
[6] Applicant is willing to accept a permanent certificate in accordance with Opinion No. 770, as amended.
[7] Applicant is filing to continue in part service previously rendered by A. R. Dillard, Jr., Trust.
[8] Applicant proposes to continue the sale of gas from the Carlsbad Field, Eddy County, New Mexico to El Paso under a contract dated June 13, 1977.
[9] Production ceased, and lease abandoned.
[10] Lease terminated.

[Docket No. CS77-772, et al.]

APPLICATIONS FOR "SMALL PRODUCER" CERTIFICATES[1]

SEPTEMBER 8, 1977.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.
